- Employers anticipate hiring J-1s near pre-pandemic levels in 2022, helping to fill about 5% of jobs in the two counties (about 1,800 jobs).

Since the number of jobs has recovered from 2020, the lack of these workers is strongly felt. J-1 employees typically fill lower skill/lower paid positions that businesses must now recruit for locally.

Lack of and high cost of housing. Not only can new workers not find available housing, but homes that are available are too expensive for local wages. This affects entry-level and high-end management positions alike. Employees making over $100,000 per year struggle to find homes in the area. Young families have particular difficulty. This problem is not unique to Teton County, Wyoming. Neighboring Teton County, Idaho, and Lincoln County, Wyoming, are encountering similar problems as prices rise.

- When employers were asked about issues they experienced when finding or keeping qualified employees, the lack of housing was the number one issue (80% of respondents).
- Workers tired of long commutes have also impacted about 41% of businesses. With strong job markets in surrounding areas, these workers are susceptible to leaving their employment and accepting jobs closer to home.
- Lack of transportation and childcare were also cited by 17% and 18% of employers respectively. Many employers already offer transportation, while others may be considering it as a service to increase their ability to attract and retain workers.
- Several employers listed "other" issues, primarily noting the discrepancy between wages/cost of living, employees losing rental housing, and COVID exposure and vaccination issues.

Issues experienced in finding or keeping qualified employees:

Source: 2021 Employer survey

Employee turnover and difficulty recruiting. About 88% of employers in the county responding to the survey had employees leave and 77% had potential hires decline positions due to the inability to locate suitable housing in the area.

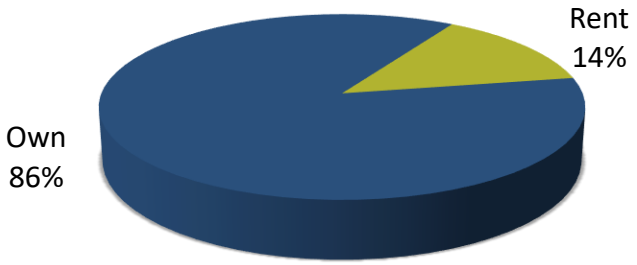
- The number of employees that left employment equates to 7% of jobs in the county; meaning that 7% of jobs were vacated and had to be refilled. Candidates were found for another 10% of jobs, but declined offers of employment.
- Turnover is costly to the business. Aside from affecting business hours and operations (as discussed above), it costs money to recruit and train new employees. Some studies have estimated that it costs about 20% of an employee's salary to replace that employee[25] costs that quickly add up with repeated turnover.

> *Losing an employee making $22/hour may not sound like a big deal, but it can take six months to train a new employee, which is a huge up front investment. The housing assistance we provide has absolutely been worth it. We have reduced turnover and associated costs significantly.*
>
> *-2021 Employer interview*

"How many people, in your estimation did not accept a job or left your employment in the past 12 months because they lacked or could not find housing they could afford in the area?"

	% of employers experiencing the problem	Average # of employees lost per business	% of total jobs in the county represented
Employee(s) left	88%	3.5	7%
Potential hire did not accept job	77%	5.8	10%

Source: 2021 Employer survey



Retiring Employees

Based on survey responses, about 13% of employees working in Teton County, Wyoming, expect to retire within five (5) years. This equates to about 3,200 employees.

- Pending retirees tend to hold more senior positions and be skilled staff. Businesses with succession plans may be able to fill skilled positions from within, but then need to fill the interior position that is vacated.
- Housing is another concern. About 86% of employees that expect to retire have stable housing because they own their homes. Many purchased 10 or 20 years ago or during the 2007/08 recession. New employees struggle to find homes to rent and the vast majority do not earn enough to purchase.

[25] See, e.g., The Center for American Progress, "There are Significant Business Costs to Replacing Employees," Nov. 2012, available at: https://www.americanprogress.org/issues/economy/reports/2012/11/16/44464/there-are-significant-business-costs-to-replacing-employees/

Tenure of Employees that Plan to Retire Within 5 Years:

Source: 2021 Employee/Household Survey

Pending retirees and the aging population present potential other challenges. For retired residents that prefer to age in place, lower maintenance, smaller patio homes or attached product are often desired as residents age. The need for senior care services and life care or assisted care options will also increase. Finally, rising property taxes are a burden on income-earning households under the current environment, much less for senior households on fixed incomes.

Chapter 4 – Housing Inventory

Housing Units – Number and Occupancy

Teton County, WY has 13,156 housing units based on local estimates.[26] Housing units have been added at a rate of about 1.3% per year since 2015, which is a faster rate than during the previous five years (about 0.8% on average).

Housing Unit Estimates, Teton County, WY: 2010 to 2021

	2010	2015	2021	2015-2021 Annual Growth Rate
Housing Units	11,650	12,160	13,156	1.3%

Source: Teton County and town of Jackson Planning Department

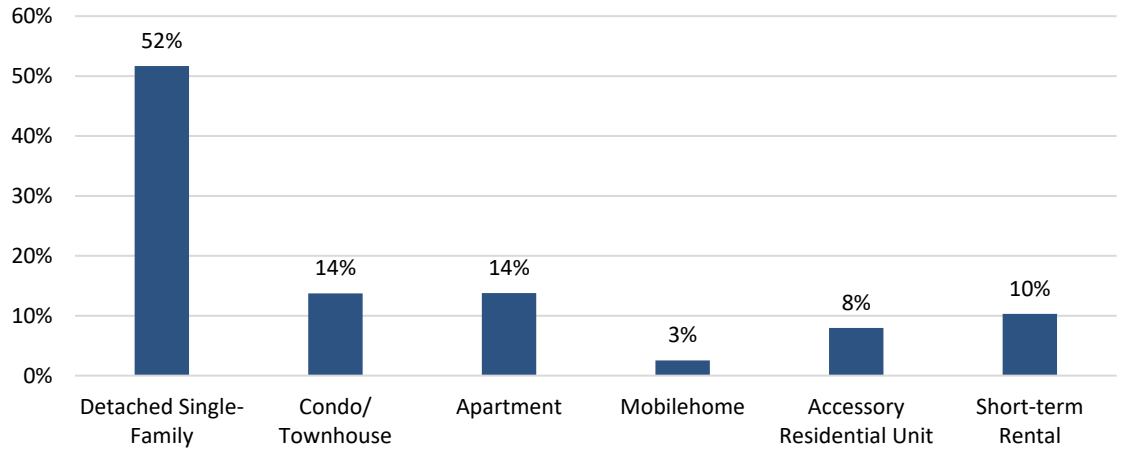
About 73% of Teton County housing units are occupied by resident households. The other 27% are second homes, short-term rentals, or vacant in the transition of being sold or rented. The lack of a state income tax in Wyoming results in a higher claimed occupancy rate than daily occupancy rate[27], but trends show little change in occupancy characteristics over the past 20 years.

Occupancy and Tenure, Teton County, WY: 2000-2020

	2000	2010	2020
Occupancy Rate	75%	70%	73%

Source: 2000, 2010, 2020 Census

Types of Units



Detached single-family homes account for half of the units in Teton County, Wyoming. Of the remaining:

- 14% are condominiums or townhomes.
- 14% are rental apartments in multifamily or mixed-use buildings.
- Most of the accessory residential units (8% of the housing stock) can be used as guesthouses or rented to the workforce. Some, however, are required to be occupied by the workforce and cannot be used as guesthouses.
- The short-term rentals (10% of housing stock) can be rented-short term or occupied as a residence. The vast majority of short-term rentals are in the unincorporated County, as described below.

[26] Housing units are locally reported by the Teton County and the town of Jackson Planning Departments based on Teton County Assessor records and building permits. They vary from Census numbers because they do not include units on federal land or condo-hotel units. The 2020 Census unit count showed fewer units added since 2010 than building permit data. Building permit data is used for the purposes of this report.

[27] The annual ACS estimate of occupancy, based on a sample of residents in the community each year, is about 10 percentage points lower than Census counts, the latter of which asks every person in the country to state their place of residence. IRS filings from Teton County also exceed household estimates by the Census.

Type of Units, Teton County, WY: 2021

Source: Town of Jackson, Teton County, WY, Consultant Team

Housing unit occupancy by income level indicates the extent to which different housing types may provide "naturally occurring" affordable housing. The below table shows the type of housing units occupied by income level (AMI). The sample includes respondents that are residing in market rate housing, meaning that the table excludes respondents that are living in employer-assisted or income, employment, rent or price-limited homes. As shown:

- Households with incomes greater than 120% AMI are more likely than other households to live in single family homes and less likely to live in multi-family units.
- Households earning between 80% and 120% AMI are just about as likely as lower-income households to live in multi-family units.
- Accessory dwelling units predominately provide housing for households earning between 50% to 120% AMI.
- Households earning under 80% AMI are the most likely to reside in mobile homes or currently not permanently housed, but rather couch surfing, camping, or living in a vehicle.

Type of Unit Occupied by AMI: Teton County, WY, 2021
(Respondents Residing in Market Rate Homes)

	Less than 50%	50 to 80%	80 to 120%	120 to 200%	Over 200%
Apartment or condominium	37%	31%	30%	16%	11%
Townhome/multi-plex	12%	12%	15%	18%	12%
Single-family house/Cabin	35%	40%	48%	61%	76%

Age of Units

Assessor records show a declining rate of development in Teton County, Wyoming.

- Teton County, WY more than doubled in size in the 1970s and kept strong housing production until the peak of housing development in the 1990s.
    - About 45% of housing stock in Teton County, WY was built prior to 1990.
    - Another 25% was built in the 1990s.
- Only 30% of the housing in Teton County, WY has been built or significantly upgraded in the past 20 years.

Age of Units, Teton County, WY: 2021

Source: Teton County, WY Assessor, Consultant Team

Building permit data, which is only available back to 2002, indicates a growth rate of 205 units per year in the 2000s. The building permit data reflects the slowdown in development from 2010 to 2018, with a sharp increase in production in 2019 and 2020.

The uptick in multi-family develop accounts for the increase in supply. The number of detached single-family homes built each year is relatively constant, even in years like 2019 and 2020 when the total number of units jumps.

Units Added per Year, Teton County Wyoming

	2002-2010	2011-2018	2019	2020
Detached Single Family	97	77	103	88
Condo/Townhouse	51	30	78	67
Apartment	36	24	37	67
Mobile home	0	0	0	0

Short Term Rentals

In Teton County, Wyoming, and the town of Jackson, short-term rental is defined as a rental period of 30 days or less. In Teton County, 10% of renters responded that they were forced to move in the past three years due to conversion of their unit into a short-term rental. While this represents significant displacement of renters (about 380 renter households), it is a lower percentage than in Teton County, ID (18%) where there are fewer limits on short-term rentals.

In the town of Jackson there are 192 permitted short-term rentals. By zoning, short-term rentals must be located within the Lodging Overlay or a designated resort, and a short-term rental permit is required. As a result, short-term rental is prohibited in most of the town, and has been since the Lodging Overlay and resort designations were put in place in 1994. The town does periodic monitoring and enforcement of unpermitted rental.

In unincorporated Teton County there are another 1,163 units in designated resorts than can be rented short-term or occupied long-term. As in the town of Jackson, short-term rental is prohibited outside of designated resorts and has been since 1994. The vast majority of existing units allowed to short-term rent received that approval before 1994. A short-term rental permit is not required in the county. The county does complaint-based enforcement, but does not actively monitor short-term rentals.

Employer Assisted Housing

In recent years, particularly since the COVID pandemic, the ability of employees to find housing they can afford has become more challenging and employers expressed concern that people cannot find places to live. Local wages have not kept up. Employers report that turnover has been high and there is a constant need to search for and train new staff.

To improve the ability to recruit and retain employees, employers throughout the Teton Region have been increasing efforts to help employees find and afford housing and are having a significant impact, as shown in the below table. About 36% of employers in Teton County that responded to a summer 2021 survey indicated that they are providing housing assistance to their employees (64 of 179 respondents).

Employers assisting with housing cover the entire industry spectrum. Some employers have robust housing assistance benefits and programs that have been in place for decades (e.g., St. John's Health, Jackson Hole Mountain Resort, Teton Science Schools), whereas others are relatively new to helping with housing, acting in emergency response to recent housing shortages and price increases.

Employers are providing numerous types of assistance, as summarized in the below table.

- The most frequent type of assistance provided by employers is directly providing housing. The scale of this assistance ranges from one or just a few units for smaller employers to almost one hundred for large employers. Some are currently building more, and many are looking to do so in the future. Yet, the cost to do so is a major obstacle.
- Housing stipends were noted as being, in many cases, more cost effective than buying or building housing for employees. One employer recently raised their stipend by 33% to $1,000 per month to keep up with rising prices. Some challenges with this tool include that, without

increased supply, it puts more upward pressure on rents, and the stipend often goes into the pocket of out-of-area owners rather than recirculating in the local economy.

Employer-Provided Housing Assistance: 2021

Type of Assistance	Number of Businesses	Amount of Assistance
Employer-owned or employer-leased units rented to or provided as compensation to employees	45	707 beds
Employer-provided units for employees to purchase	3	34 units *(all but six provided by the town of Jackson or Teton County)*
Temporary / relocation housing	8	45 units *(most provided by St. John's Health)*
Down payment / mortgage assistance to buy a home	6	12 employees assisted last year
Rent assistance - help with first/last/deposit	10	57 employees assisted last year
Housing stipend	15	Average stipend of about $1,000 per month; some employers provide as much as $5,000 per month

Source: 2021 Employer Survey, consultant team
NOTE: the summary excludes businesses in Alta, which are summarized in the Teton County, Idaho, section; and exclude units provided inside Grand Teton National Park.

When asked how providing assistance has impacted their business, respondents acknowledged that there are tradeoffs.

- Assistance costs money ("expensive," "less revenue," "cost passed on to clients") and has program management requirements ("have 12 full time staff dedicated to take care of housing").
- Benefits include attraction and retention of staff, predictable rent and secure housing for employees, workforce and staffing stability, and for some "without employee housing, we wouldn't be able to operate our business."

> *Allowed business to have sufficient staffing, with added burden of landlord role, which confuses typical employer/employee boundaries.*
>
> *-2021 Employer survey comment*

For employers that do not provide housing assistance, the primary reason was that they cannot afford to provide assistance (61%) and just over one-third prefer to pay higher wages instead. About 3% stated that they provided housing in the past that was not successful.

Employer Reasons for Not Providing Housing Assistance to their Employees	
Cannot afford to provide housing or housing assistance	61%
I prefer to pay higher wages instead	37%
Do not want to be in the housing business	29%
Do not have the expertise or knowledge to help with housing	19%
Housing assistance is not needed for our employees	18%
Housing is the employee's responsibility	17%
Provided housing in the past that was not successful	3%

Source: 2021 Employer Survey, consultant team

There is an opportunity to collectively engage employers in housing solutions to share and build upon the already rich experiences and successes of employers in the community. Sixty-percent (60%) of employers indicated that they would be interested in providing assistance in the future. When asked what would encourage or help them provide housing, about one-half indicated that partnerships, participating with other employers, and matching grants would help.

What would encourage or help you to provide housing or housing assistance?	
Partnering with government, private, or non-profit entities	49%
Opportunities to participate with other employers	47%
Matching grants	45%
Low-cost loans	29%
Technical assistance	11%

Source: 2021 Employer Survey, consultant team

Interviews with employers reinforced survey responses. There is growing recognition among local employers that local companies, organizations, and governmental jurisdictions must work together toward solutions.

Redevelopment

Over the past 20 years, redevelopment has increased. Since 2017, 113 residential units have been demolished to make way for new development. On those sites, 167 units have been built - a net increase of 54 units. In many instances, however, new homes being built are more expensive than those they replaced.

- The mostly commonly demolished unit type were apartments. However, there was still a net increase of 15 apartments through redevelopment.
- The 15 mobile homes demolished for new development were not replaced as mobile homes. Nine were redeveloped as 12 employer-owned, workforce apartments. Six were redeveloped as a hotel.

Residential Units Gained & Lost Through Redevelopment, Teton County, WY, 2017-2020

	Razed	Redeveloped	Net Change
Detached Single Family	32	37	5
Condo/Townhouse	2	49	47
Apartment	62	77	15
Mobile home	15	0	-15
Accessory Residential Units	2	4	2
Total	**113**	**167**	**54**

Source: Town of Jackson, Teton County, WY, Consultant Team

Pending Development

A significant number of units are currently being planned and built.

- 68% of units with a building permit are restricted, but only two units are restricted to be affordable below 80% of median income.[28]
- There are fewer units at the development plan stage, most of which are market rate units.

	Building Permit	Development / Sketch Plan	Pre-application
0-50% Median Family Income	1	1	14
50-80% Median Family Income	1	0	14
80-120% Median Family Income	65	4	16
Workforce	151	4	16
Market	103	50	193
Total	**321**	**59**	**253**

[28] See Chapter 6 – Housing Program Accomplishments and Challenges for more information

Chapter 5 – Housing Market

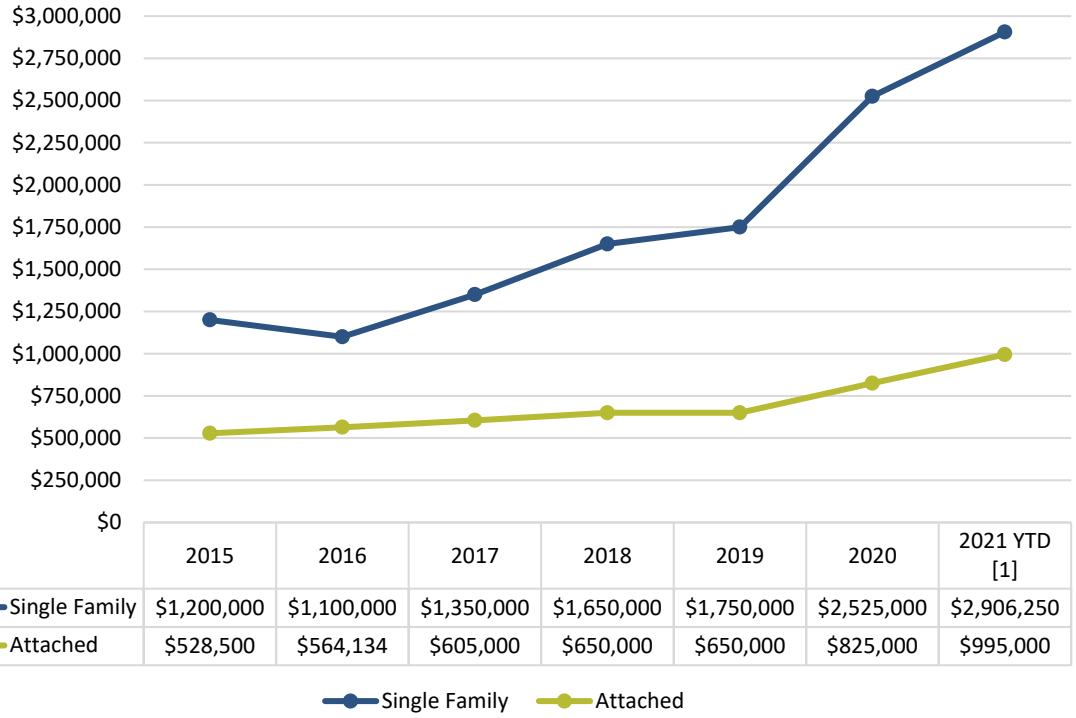
This chapter evaluates how key aspects of the housing market have changed in recent years. It provides an overview of:

- Home sale and rental prices,
- Recent and current availability of homes,
- The affordability of homes to local residents and employees, and
- Real estate agent and property manager observations about housing market changes in the past 20 months during the COVID-19 pandemic.

All information below is for Teton County, Wyoming, unless otherwise specified.

Home Ownership Market

Price Trends (2015 to October 2021)



The housing market in Teton County, Wyoming has long been challenging for the local workforce to afford. These challenges have gotten worse in the past two years. As seen in the figure below, prices have rapidly increased, effectively pricing the local workforce out of market rate housing.

- The median sale price of attached product during the first ten months of 2021 was $995,000 and over $2.9 million for a single family home.
- Sale prices have been rising 16% per year on average since 2015 for single family homes and 9% for attached condominiums and townhomes. From 2019 to 2020 alone, median single family home prices jumped 44% and attached product increased by 27%.

"I have money saved for a down payment, and I make over 6 figures a year working full time in Teton County and I STILL can't afford to buy."

–2021 Employee/Household Survey Comment

Median Sale Prices: 2015 to October 2021

	2015	2016	2017	2018	2019	2020	2021 YTD [1]
Single Family	$1,200,000	$1,100,000	$1,350,000	$1,650,000	$1,750,000	$2,525,000	$2,906,250
Attached	$528,500	$564,134	$605,000	$650,000	$650,000	$825,000	$995,000

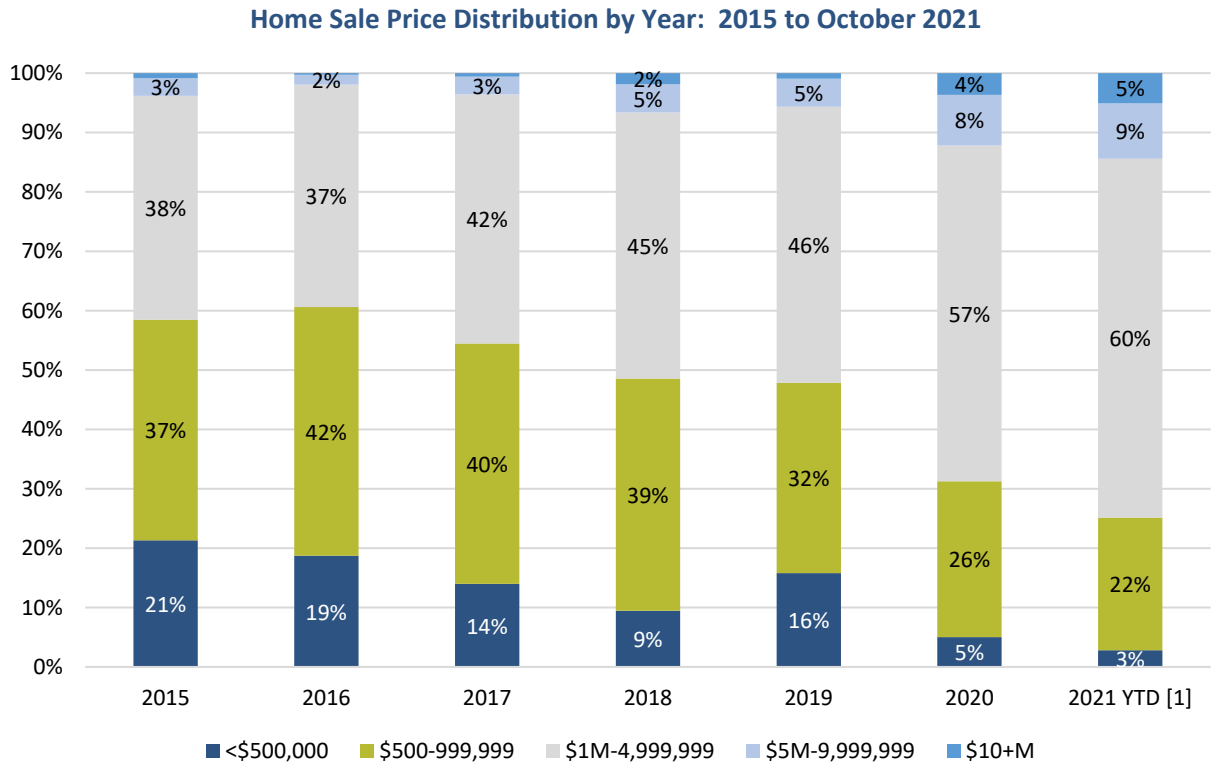
Price Per Square Foot

The annual average sale price per square foot from 2015 through 2020, and sales through October 2021, also shows significant increases.

- From 2015 to 2020, the average price per square foot increased for both single family homes and attached product by 11% and 9% per year on average, respectively.
- The average price per square foot of single family homes sold in the first ten months of 2021 increased by 25% over the 2020 average, and 35% for attached product.

Average Sale Price Per Square Foot: 2015 to October 2021

	Single Family	Attached
2015	$567	$521
2016	$519	$558
2017	$615	$578
2018	$806	$655
2019	$800	$681
2020	$940	$786
2021 YTD [1]	$1,176	$1,062
CAGR 2015-2020	11%	9%
% change 2020 to 2021 YTD [1]	25%	35%



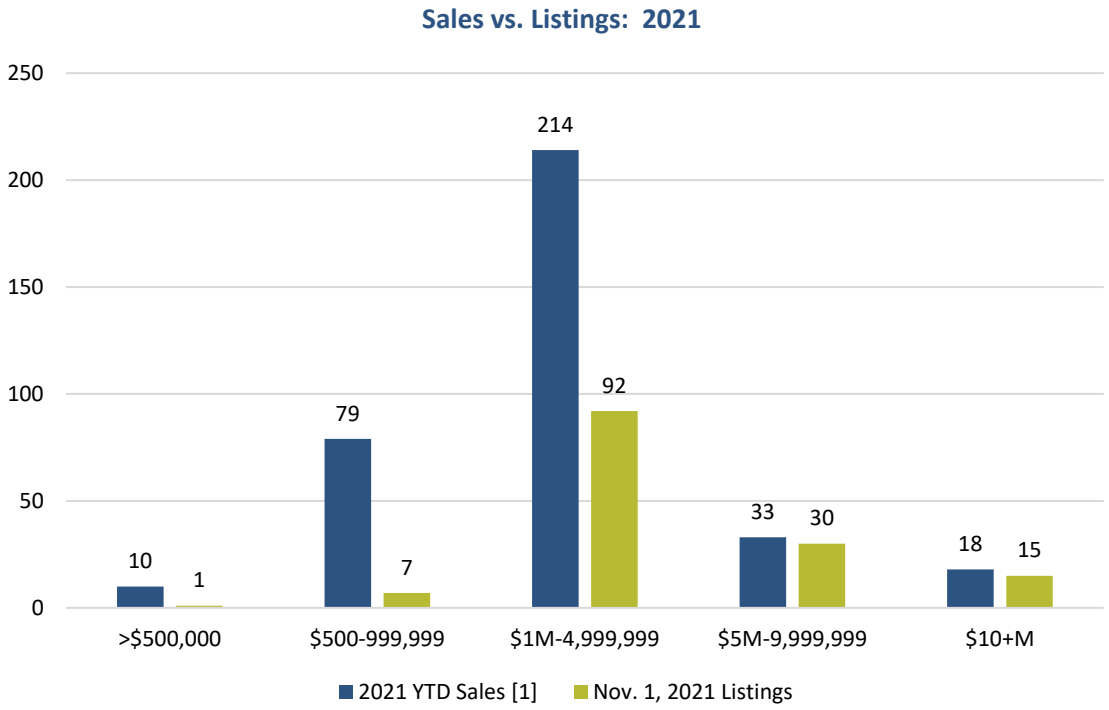
Note: inclusive of sales with a known price greater than zero
[1] last sale on Oct 29, 2021
Source: MLS, consultant team

Homes for sale under $500,000 have all but disappeared from the market, and those from $500,000 to $1 million have significantly declined.

- The share of sales under $500,000 fell from 21% in 2015 to 3% in 2021. Since 2015, almost all homes sold for less than $500,000 were attached product. Only 21 single family homes sold for under $500,000 from 2015 through October 2021.
- The share of sales between $500,000 and $1 million fell from 37% in 2015 to 22% in 2021.
- Seventeen (17) homes sold during this period were deed restricted units, which sold for a median price of $317,500; significantly below market prices. All but one were condominiums.

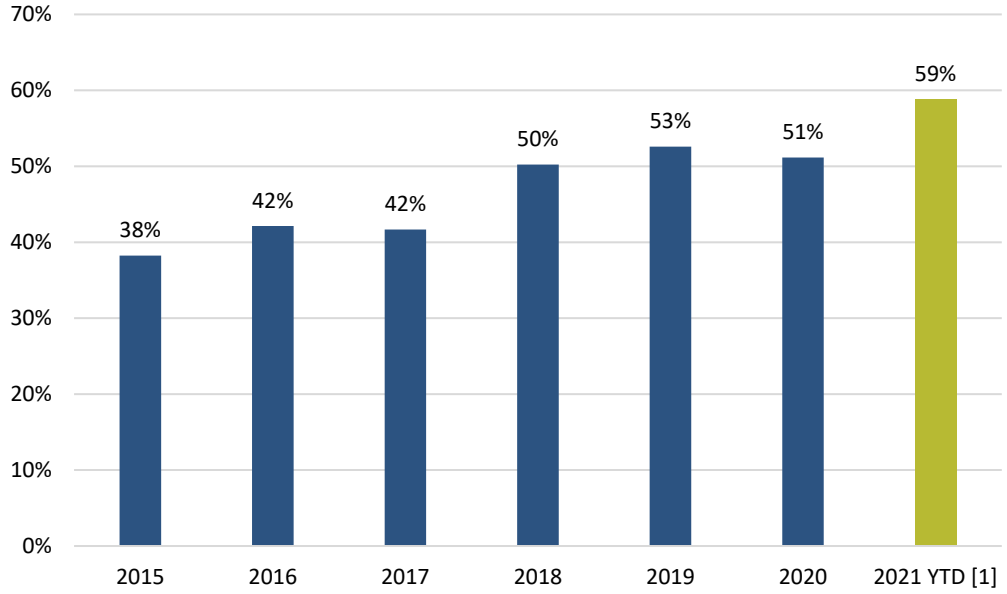
When someone comes to me with $500,000, I have nothing in Teton County, Wyoming – we need to talk Victor or Alpine.

-Real estate agent interview



Note: inclusive of sales with a known price greater than zero; percentages not labeled are 1% or less
[1] last sale on Oct 29, 2021
Source: MLS, consultant team

Availability



A general industry standard is that when the number of homes available for sale is below a 6-month supply, it is a seller's market – meaning that there are more buyers than homes available to purchase, resulting in rising prices.

Teton County is in an extreme seller's market, particularly for homes priced under $1 million. The number of homes listed in November 2021 shows an average supply of only 3.4-months. This varies from a 0.6-month supply under $1 million up to 4.6-months for homes priced over $1 million. Only eight homes are priced under $1 million.

[1] last sale on Oct 29, 2021, inclusive of sales with a known price greater than zero
Source: MLS, consultant team

Not only is housing scarce, but the percentage of cash sales also increased during the pandemic, adding to the challenges for local residents to compete for homes. As shown below, 59% of homes sold through October 2021 for cash; rising from 51% in 2020 up from 38% in 2015.

Note: inclusive of sales with a known price greater than zero
[1] last sale on Oct 29, 2021
Source: MLS, consultant team

Local Workforce Affordability

Current home listings are well out of reach for most local resident households. The median list price of single family homes in November 2021 was $4.4 million and $1.8 million for attached product, averaging $1,602 per square foot. More specifically:

- A sampling of the lowest priced single family listings includes:
  - A recreational summer cabin that does not include the land for $275,000
  - A 2 bedroom log home southwest of South Park for $699,000.
  - The third least expensive single family home was listed for $1,350,000.
- There were six condos/townhouses listed under $1 million on November 1, starting at $699,500 up to $995,000.

Affordability of Current Listings Compared to Average Household Income

AMI	Max Affordable Price (3-person household) [1]	Owner Household Distribution	Nov. 1, 2021 Listings	
			Single Family	Attached
0-50%	$195,700	12%	0%	0%
50.1-80%	$313,100	12%	1%	0%
80.1-150%	$587,000	34%	0%	0%

Changes over past 20 months

From March 2020 when COVID-19 was declared a pandemic to May that year, there was a sizeable slowdown in residential real estate sales as people sheltered in place. As summer 2020 arrived, the flood gates opened as people sought refuge from urban environments or capitalized on work at home policies. An already hot real estate market caught fire. One interviewee said it was like a switch got flipped and real estate agents were inundated with calls from buyers.

> *"There is an unlimited global demand for housing in our area and a finite supply of homes, land, labor and materials. The problems sometimes feel insurmountable."*
>
> *– Contractor interview*

This slowdown and spike in activity is reflected in the MLS data. There were only 58 homes sold in the second quarter of 2020 and 204 in the third quarter, a roughly 250% increase.

Interviews with Realtors and property managers provided key insights into market changes during and since 2020:

- Teton County, Wyoming, has long been a preferred location for wealthier homeowners to purchase in part due to favorable tax laws. The federal tax code changes in 2018 increased this interest, which again increased during the COVID pandemic.
- The majority of buyers were not from the area and were a mix of retirees, those soon to be retired, and remote workers. The occupation of remote workers varied, but interviewees often mentioned locales such as Wall Street and Silicon Valley.
- Locals who sold generally moved out of the county. Many capitalized on high sale prices to retire elsewhere or start another life chapter. Few repurchased in the area due to the high prices, unless they were able to downsize.
- Most homes were sold to new resident owners or second home owners. Some sellers gave preference to existing local residents, but rising prices and competing (often cash) bids meant that most locals were priced out.
- The rise in real estate value has translated into an increase in assessed value and higher property taxes owed, which has strained many homeowners' budgets and forced others to sell and leave the area.

> *"[We are] looking to expand our family, but we cannot do so with the current space and have no availability to move into a bigger unit."*
>
> *-2021 Employee/Household Survey comment*

Rental Market

Rent Trends and Local Workforce Affordability

Rents have increased significantly in the past couple of years. Some properties have risen 50% or more. Typically properties that have a turnover in tenancy will increase rents significantly, with landlords and property managers resorting to a "throw out a price and see what sticks" approach during the pandemic. While many owners kept rent increases to no more than 3% to 5% for renewing tenants, others increased rents by $500 or more, displacing many renters.[29]

> *We were in trouble before, but COVID sent the market into orbit.*
>
> *-Property manager interview*

Property managers noted that most of the higher priced rentals (e.g., over $5,000 per month) are filled by non-local workers: second home renters or work from home tenants employed in higher paying jobs outside of the area. The competition and resulting rent increases have been devastating to local workers seeking rentals. Also contributing to rising rents are escalating home values, which in turn increase property taxes and, therefore, rents charged by landlords to cover costs.

[29] See Regional Overview

The below table illustrates the typical rent ranges in Teton County compared to the average price of available rentals advertised in October and November 2021. As shown:

- Advertised rentals generally fall on the high side of the ranges given. This is largely because most managed rentals are filled by word of mouth and are never advertised. The units listed, therefore, tend to be higher priced homes that local employees cannot afford.
- Households need to earn a minimum of 115% of the area median income to afford average advertised rents. This starts at an income of $106,000 to afford a one-bedroom rental.
- Renters also need significant resources to move into units. Most rentals require an upfront payment for the first and last month rent, plus security deposit typically equal to the monthly rental rate. Meaning, if the monthly rental rate is $3,000, tenants need to pay $9,000 to move in. This is an insurmountable barrier for many renters. Several employers have been helping employees cover these costs to avoid losing their employees.[30]
- Local working residents typically search for rentals priced under $3,000. About 25% of advertised rentals were priced over $5,000, which is out of range for most residents.

> *"For many years if you had two jobs it was enough for one person to pay rent and have some left over. But this year people must have at least three jobs."*
>
> *-2021 Employee/Household Survey comment*

Rent Prices by Bedroom Size: 2021

	0/1-bedroom	2-bedroom	3+-bedroom	Overall Avg.
Property manager interviews (typical range)	$1,500-$2,500	$2,000-$3,000	$3,000-$5,000	$1,500-$4,500
October-November 2021 average listed rents	$2,656	$3,685	$4,183[2]	$3,469
AMI affordability[1]	115%	142%	181%	133%
Income needed to afford rent	$106,240	$147,400	$167,320	$138,720
Number of average wages needed to afford rent	1.8	2.5	2.8	2.3

[1]Note: calculation assumes 2 people in a 0/1 bedroom units and 3 people in 2- and 3-bedroom units
[2] Calculation excludes 13 rentals priced over $5,000 per month, which increases the average to $9,164
Source: Property manager interviews, online rental listings (local property managers, JH News, Craigslist, Facebook, Zillow, Hotpads, Apartments.com), consultant team

Survey respondents were asked how much they pay for rent. As shown below:

- Rents paid by residents in Teton County fall on the lower end of rent ranges presented in the above table. In other words, they occupy older units and/or have been in their units for several years and their rents have not increased to full market rate.

> *"[I] Have a second job to pay for gas to commute to Jackson."*
>
> *-2021 Employee/Household Survey Comment*

[30] See Chapter 4 – Housing Inventory for more information about employer assisted housing.

- Employees that commute in for work pay less for rent than county residents. When the average commute cost of $500 per month[31] (or more) is added to rent, however, this difference is eroded. Commuters end up paying more on average for rent plus commute costs than employees living in the county pay for rent.

Rents Paid by Bedroom Size: Teton County Residents and Commuters, 2021

	0/1-bd	2-bd	3+-bd	Overall Average
Live in Teton County, WY	$1,549	$2,099	$2,581	$1,987
Commute in for work	$1,306	$1,535	$1,793	$1,577

Source: 2021 Employee/Household Survey

Availability

As a general rule, vacancy rates at or below 3% are very low, double-digit vacancy rates are very high, and a vacancy rate of around 6% that is trending downward typically indicates to developers that construction of additional units should begin.

Rental unit turnover in Teton County tends to be highest in May and, secondarily, in November. A search for rentals during October and November 2021 only produced 48 rental listings. This is equivalent to less than 1% vacancy per month. Additionally, about 25% of listings were priced way out of reach of the local workforce (e.g., $15,000-$25,000 per month). Property managers and real estate agents noted that:

- Near-zero vacancy rates in Teton County have been common for at least the past several years. What is new is that rising rents and low availability in Victor, Idaho, and Alpine, Wyoming, mean that renters unable to find housing in Teton County, Wyoming, are now seeking homes further out, such as Pinedale, Wyoming, to the south and Saint Anthony and Ashton, Idaho, to the west. The commute to Jackson is three hours round trip in good weather from these communities.
- Units that become available are typically filled within days, if not hours.
- Most property managers do not maintain a waitlist due to the volume of calls they receive.

Adding to low vacancies is also a loss of long term rentals this past year.[32] One property manager lost 90 of their 180 units this past year due to owners selling their rental or converting to short term rental.

When vacancy rates are this low, the rental market is near capacity and cannot absorb new residents or employees moving to the area. This results in several issues:

- Renters have difficulty moving from one unit to another as their circumstances change or landlords impose higher rents or new rules;

[31] See Chapter 3 - Jobs, Seasonality, and Commuting
[32] See Regional Overview

- Renters fear reporting needed repairs to landlords due to concerns of retaliation through rent increases or non-renewal of leases. About 12% of renters responding to the employee/household survey noted this as a problem;
- New employees struggle to find housing when hired by local businesses;
- Rents increase at rates much faster than incomes; and
- Landlords have little incentive to make repairs and capital investments.

My roommates and I are very lucky to live in our current home (cabin/shack, whatever you want to call it) but to consider ourself lucky to cram into a 2 bedroom house (I live in a laundry room converted into a bedroom) that is falling down is absurd. We fear to ask the landlord to make basic repairs to the house because we don't want her to raise the rent.

-2021 Employee/Household Survey Comment

Chapter 6 – Housing Program Accomplishments and Challenges

Tools and strategies to address community housing needs have been in operation and development for over 20 years in Teton County and commendable progress has been made. The purpose of this chapter is to capture what has been accomplished with regard to community housing production and programs. Particular focus is on changes seen since the prior housing needs assessment was completed in 2014. This section reviews existing subsidized housing inventory, projects in the works, and structures and organizations in place to facilitate more housing options for local residents and employees.

This section will be useful when devising the Housing Action Plan to understand what has worked well and where changes or alternative approaches may be helpful to address existing and projected needs.

Deed Restricted/Subsidized Housing Inventory

Since 2014, about 411 new deed restricted units have been added to the local inventory. Deed restricted units now represent about 14% of total housing units in the County.

New Deed Restricted Inventory 2015 – 2021

	Owner	Rental	AMI ≤50%	AMI 51%-80%	AMI 81%-120%	AMI >120%	Total
2014 Baseline	**522**	**965**	**126**	**202**	**586**	**93**	**1,488**
New Since 2014	103	308	10	40	161	200	411
%	25%	75%	2%	10%	39%	49%	100%
Created/year	15	44	1	6	23	29	59
Total Deed Restricted Created	625	1,273	136	242	747	293	1,899

Source: 2014 Housing Needs Assessment, Jackson/Teton County Affordable Housing Department

New units created have been predominantly rental housing (75% of new units), and nearly half are priced for households above 120% Area Median Income. Only 10 units have been produced to support households below 50% Area Median Income.

The rate of production for new deed restricted units has been about 59/year. This rate of production has generally been trending upwards, with the lowest production in 2017 at 12 units and an average of about 82/year since then.

"Without housing options that are affordable to the full spectrum of the local workforce, we will not achieve our goals of stewarding our ecosystem, managing our growth, and enhancing our quality of life. We may fail to provide basic services like public safety, utilities, education, healthcare, and road maintenance."

– 2021 Supply Plan

Expiring Restrictions

The expiration of some restrictions poses a challenge to growing the overall deed restricted inventory; 52 restrictions burned off since 2014, and an additional 35 are set to expire by 2030. Jackson/Teton County Affordable Housing Department has been able to re-restrict some of these expiring units. At a cost of about $150,000 per deed restriction, this process takes valuable resources that could otherwise be used to secure new restrictions and underscores the importance of permanent restrictions.

Total Deed Restricted Inventory – Including Expirations

			AMI				
	Owner	Rental	≤50%	51%-80%	81%-120%	>120%	Total
Total Deed Restricted Created	625	1273	136	242	747	293	1899
Lost to Expiration	-52	-	-	-	-36	-16	-52
Current Total Deed Restricted	573	1273	136	242	711	277	1847
%	31%	69%	7%	13%	38%	15%	100%

Source: 2014 Housing Needs Assessment, Jackson/Teton County Affordable Housing Department

Production Tools

Over the past seven years, regulations, incentives, and public/private partnerships have produced a similar percentage of the deed restricted housing inventory. A more comprehensive list of tools used for housing production is included in Appendix B.

Source of Deed Restricted inventory 2015-2021

Source: Jackson/Teton County Affordable Housing Department, consultant team

- **Commercial Mitigation** is the primary regulatory tool. This tool requires new commercial development to mitigate some of the housing need for the new employees associated with the business. Commercial Mitigation has produced 108 units for sale and for rent to households below 120% AMI since 2014.
- **The 2:1 Workforce Housing Density Bonus** incentive was part of the 2018 update to the Jackson Land Development Regulations. A total of 140 deed restricted units serving households earning above 120% AMI have been constructed utilizing this incentive program. The density bonus allows developers to create 1 square foot of deed restricted housing for every 2 square feet of market housing, increasing the efficient use of land. Appendix G of the *2021 Jackson and Teton County Affordable Housing Supply Plan* can be referenced for more information.
- **Public Private Partnerships** have created 106 deed restricted units. This has been the most effective tool for producing housing priced affordable for households earning below 80% AMI and between 80% to 120% AMI.

By Sector

The two non-profit housing providers in the area, Jackson Hole Community Housing Trust and Teton Habitat for Humanity, are focused on providing affordable homeownership opportunities. By engaging in public private partnerships, these two entities have helped add 102 units to the deed restricted inventory since 2014. This represents 12% of the total deed restricted units created, but 81% of all new homeownership units. These two entities have been successful in aligning their production with deep affordability. Habitat for Humanity has created 24 units serving 30% to 80% AMI households, and has an additional 18 planned.

Scaling up the work of these two agencies would provide significant community housing benefit. There is also a gap in the local housing provider landscape that focuses on developing rental housing below 80% AMI.

Pipeline - New Deed Restrictions Anticipated

Jackson/Teton County Affordable Housing Department, Jackson Hole Community Housing Trust (JHCHT), Teton Habitat for Humanity, and several private sector developers have collaborated to create a robust pipeline of projects in the predevelopment and planning entitlements phases. The new deed restricted units proposed represent a significant increase in the level of historic production. The majority of these units are being produced through public-private partnerships.

Project Pipeline

			AMI				
	Owner	Rental	≤50%	51%-80%	81%-120%	>120%	Total
Pipeline - In Planning Approvals	87	205	16	15	85	176	292
Pipeline - In Predevelopment	18	48	48	18			66
Total Pipeline	105	253	64	33	85	176	358
%	29%	71%	18%	9%	24%	49%	100%

Source: 2021 Jackson and Teton County Affordable Housing Supply Plan, interviews

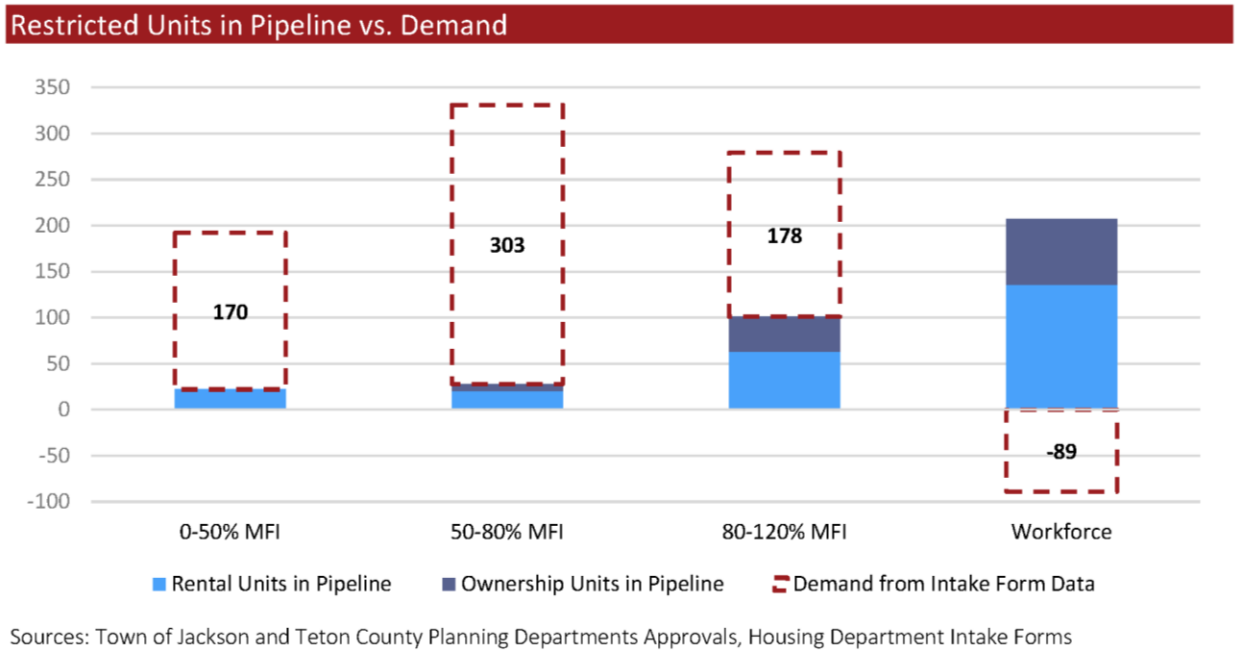
About 358 additional deed restricted units are anticipated based on the projects in the development pipeline. Assuming these all get built over the next three years, this would represent a significant increase in the annual production rate, at about 120 units/year. There will likely be pressure to provide further public investment and philanthropy for of each of these projects, as they face escalating construction costs and labor shortages (see Chapter 7 – Housing Resources, Opportunities and Constraints for more information about construction/development costs).

Production continues to favor rental housing (71% of planned units). Nearly half the proposed units have income targets for households above 120% AMI (49%).

Waitlists

There are currently four avenues for those seeking deed restricted housing, using a variety of selection methods.

- Direct application to property managers of deed restricted rentals
- A weighted drawing process administered by Jackson/Teton County Affordable Housing Department
- A date/time-based waitlist administered by Jackson Hole Community Housing Trust
- Curated process administered by Teton Habitat for Humanity



Each agency has a significant pool of applicants for any housing that becomes available, and there is most likely redundancy among the people waiting on various lists. From the consumer perspective this is not an efficient system.

Regarding waitlist trends, demand far exceeds supply of housing units. Habitat for Humanity recently had 40 applicants for three homes. They reported most applicants had incomes between 30-50% AMI. Jackson Hole Community Housing Trust has 350 interested households on their waitlist. Average income for buyers at King Street, currently in the sales process, is 89% AMI.

The *2021 Jackson and Teton County Affordable Housing Supply Plan* provides a compelling case for increased focus on rental housing for households below 80% AMI and homeownership opportunities for households below 120%.[33] Based on the Jackson/Teton County Affordable Housing Department's Intake Forms, ***90% of people looking for housing have incomes under 120% AMI.*** There are about 650

[33] 2021 Jackson and Teton County Affordable Housing Supply Plan page 3

households with incomes below 120% AMI seeking housing, far more than the 182 units planned at these price points. In contrast, there are only about 120 households seeking housing priced above 120% AMI, fewer than the total units planned. This mismatch between demand and production is driven by the 2:1 Incentive tool, the high cost of construction, and the unit mix in public/private partnerships underway. Action planning should include a discussion about the tradeoffs of deeper subsidies to achieve units that are affordable to local wage earners, even if fewer units are created overall.

Sources: Town of Jackson and Teton County Planning Departments Approvals, Housing Department Intake Forms

Source: Page 3 of 2021 Supply Plan

One potential outcome of the significant inventory of units in the over 120% category coming online is that households with lower incomes will "rent burden" themselves to live in the new units, because there are no other options in the market. This dynamic presents a mixed policy outcome.

On the one hand, rent burden can lead to housing instability. Rent burdened households have reduced ability to pay for basic needs beyond housing, withstand short term financial hardships, and save. Rent burden also drives forced "financial co-habitation," meaning that households are combining to afford rent, when they would prefer to live alone. On the other hand, the new housing will create some opportunities for people to find housing where there was none (although it may be beyond their budget), reduce commutes, and have higher quality housing. The new housing created may also remain more affordable over time, as rents on unrestricted housing continue to climb (see Regional Overview for more information and details about cost burden and overcrowding).

Price Points for Affordable and Workforce Housing

The Jackson/Teton County Affordable Housing Department published the following rates for rental properties. Workforce rental rates are not capped but are restricted for occupancy by local workers. It is uncertain how these rents will perform compared to the market over time. We recommend tracking

rents paid and income of occupants in these higher priced deed restricted rentals over time to better understand cost burden, recruitment and retention of employees, and housing satisfaction.

Affordable Rental Rates: 2021

	0 - 50%	50% - 80%	80% - 120%
Studio	$516	$860	$1,375
1-bedroom	$607	$1,012	$1,618
2-bedroom	$694	$1,156	$1,850
3-bedroom	$780	$1,301	$2,081

Source: https://www.tetoncountywy.gov/1829/Maximum-Affordable-Rental-Rates; Effective April 9, 2021 until updated by HUD in 2022

Two for sale deed restricted projects are just completing construction. King Street, built by the Jackson Hole Community Housing Trust is 100% under contract, with units priced below 120% AMI. Kelly Street site, which is 12 units of for-sale workforce housing, is advertised to be deed restricted for full-time residency, with at least one member of the household earning at least 75% of their income in the county. Both developments are public-private partnerships with the Jackson/Teton County Affordable Housing Department.

Kelly Street Asking Prices: 2022

Demographics of Those Served

Who lives in workforce housing is determined in large part by whether the homes were built for owner or renter occupancy, the type and size of units, and targeted incomes and price points. By strategically targeting housing for households not otherwise served by market rate homes, the mix of households occupying deed restricted homes differs from households occupying market rate housing.

> *"Nobody is building housing that addresses the housing needs of hourly wage workers."*
>
> *– Stakeholder interview*

As shown below, employer-assisted and restricted and workforce housing provided in Teton County, Wyoming:

- Helps families with children to purchase homes.
- Permits working age residents to purchase homes and gain stability in the community. This is particularly important as homeowners in market rate homes reach retirement age.
- Helps renters live without roommates and still afford rent, adding to their satisfaction and increasing their likelihood of remaining in the community.
- Provides more affordable homes in better condition. Renters in restricted rentals are much less likely to be housing cost burdened (37%) than in market rate rentals (51%).

Workforce housing has also provided opportunities for essential and core service employees to purchase homes locally, including health care and social assistance, education, entertainment and recreation, non-profit, and service workers. The ability for workers to purchase homes promotes worker stability by reducing housing stress; providing a pride of investment in the community; and increasing job satisfaction, attendance and performance, and thereby reducing job turnover.

Effect on Local Workforce Occupancy Rate

About 61% of employees in Teton County live in the county, which has remained relatively consistent for the past 10 years.[34] The provision of restricted and employer-provided housing has a definite impact on this measure. As shown below:

- Employees that live and work in Teton County, Wyoming, occupy about 7,970 housing units in the county. About 2,000 (25%) of the 7,970 households with a local employee reside in employer-assisted or income-, employment-, rent- or price-limited homes.
- If the current inventory of 2,000 restricted and employer-provided homes were instead market-rate homes without any restrictions on occupancy, then only about 1,200 of the 2,000 homes would be occupied by a local employee.
- With 800 fewer units housing county employees, the percentage of jobs filled by local employees would drop by about 6-percentage points, from 61% to 55%.

[34] See Chapter 3 – Jobs, Seasonality and Commuting

Keeping the workforce local helps avoid the negatives of commuting and helps the community and economy as discussed in detail in other sections of this report.

Estimated Change in Local Employee Households if Restricted Homes Were Market Rate	
Total households with a worker employed in Teton County (jobs section)	13,065
% in Teton County	61%

Ethnicity

In the region, about 15% of households identify as Hispanic/Latino. A similar 13% of households residing in Deed Restricted homes are Hispanic/Latino. Variations are apparent by income level, however.

> *"For me it is difficult because I don't have credit"*
>
> *-2021 Employee/Household Survey Comment (Spanish version)*

Hispanic/Latino households are under-represented in the housing inventory that is serving households below 80% of AMI. About 27% of non-Hispanic/Latino households that earn under 80% AMI are residing in employer-assisted or restricted housing compared to 18% of Hispanic/Latino households that earn under 80% AMI.

	All Respondents		Living in Employer/ Restricted housing	
	Not Hispanic/Latino	Hispanic/Latino	Not Hispanic/Latino	Hispanic/Latino
<80% AMI	32%	62%	51%	64%
80 to 120% AMI	21%	21%	25%	26%
120 to 200% AMI	26%	13%	20%	9%
>200% AMI	20%	4%	5%	2%

Source: 2021 survey

From the survey, several survey respondent comments from the Spanish version refer to the inability to get loans or qualify for deed restricted housing due to things due to lack of credit, or lack of documentation of legal status. The presence of pets, children, and larger family status where also cited as challenges. Nearly all (88%) reported having difficulty locating housing in the past couple of years.[35]

Increasing outreach, education, and reducing barriers for Latinx families could help promote equity within the deed restricted and employer owned housing. Creating more housing priced below 80% AMI will also support the Latinx community.

None of the housing agencies currently track households by ethnicity. Habitat for Humanity reported serving many of households from the Latinx community, but did not provide specific data. Starting to track households by ethnicity and pursue affirmative fair housing marketing is recommended to ensure equitable access to local housing resources.

Other Housing Programs in Operation

Jackson/Teton County Housing Authority

The Jackson/Teton County Housing Authority is a regional housing authority that exists to purchase and own affordable properties. It has the ability to carry debt, acts as property manager of the properties it owns, and reviews Critical Services Provider applications for housing. It is directed and authorized by the Town Council and Board of County Commissioners and staffed by the Jackson/Teton County Affordable Housing Department.

Jackson/Teton County Affordable Housing Department

The Jackson/Teton County Affordable Housing Department (Housing Department) is responsible for implementing the Comprehensive Plan goals related to ensuring a variety of workforce housing opportunities so that at least 65% of those employed locally also live locally. The Housing Department seeks to use incentives, regulations, and partnerships to increase the supply of housing to keep pace with the growing need. The Housing Department is also responsible for the Housing Supply Plan. The Housing Department Director reports to the Board of County Commissioners and the Town Council. Teton County is the lead agency overseeing housing. The Housing Director receives recommendations from the Housing Supply Board and the Jackson/Teton County Housing Authority Board.

In addition to supporting increasing the supply of deed restricted housing and ensuring ongoing program compliance, the Housing Department operates four additional programs:

1. Preservation Program – offers up to $200,000 or 20% of home value, whichever is less, to prospective buyers or current property owners to deed restrict existing housing stock. This new program has created three deed restricted units. An additional $2 million is budgeted to secure about 13 more units in 2022. If the pilot program is successful, the Housing Department anticipates pursing about 10 units per year. The program to date has been funded by the town, county, and $45,000 of philanthropy.

[35] See Regional Overview - Housing Problems for more information about housing problems for owners and renters

2. First/Last/Deposit Pilot – a collaboration with community stakeholders, including One22, to provide assistance with first and last month's rent and security deposit for working households. $50,000 is budgeted for 2022.
3. Accessory Residential Unit (ARU) Program – Design competition to create "pre-approved" accessory structures that could be built within the town of Jackson. $100,000 is budgeted for 2022.

Jackson Hole Community Housing Trust

The Jackson Hole Community Housing Trust (JHCHT) is a private, non-profit organization. It builds affordable housing in the Jackson Hole area with support from partners, tax deductible donations and public funding sources. In 2021, the organization received $15 million in philanthropic support. These funds far exceed historic annual donations, and will help to accelerate three additional development projects.

JHCHT has developed or acquired 181 permanently deed-restricted single-family homes, duplexes, townhomes and condominiums since its inception in 1990. JHCHT typically focuses on affordable homeownership, although they have some affordable rental units as well. Projects tend to be smaller scale; the largest site has 36 units. Developments have historically primarily served households below 80% AMI, but JHCHT desires to also serve up to 120% AMI.

JHCHT is completing construction and sales of King Street ownership homes. All 24 units are under contract. The project was made possible with a contribution of $1.25 million plus land from the town of Jackson, $2.1 million from philanthropy, and the sale of two commercial spaces.

JHCHT has four additional developments planned, which could produce about 100 units. Three developments will be for sale and one will be rental housing. The organization has expressed interest in increasing housing production. Access to capital is one of their major hurdles. They have also expressed the need for more predictable financial commitments, which would enable them to plan and commit to more housing development and fund additional staff capacity.

Habitat for Humanity of the Tetons

Habitat for Humanity is a non-profit that builds and repairs houses using volunteer labor and donations to make homes and renovations affordable for low-income households. It requires new homeowners to participate with volunteer hours, provide money for a down payment, and pay a mortgage on a 0% interest loan. Homeowners make mortgage payments to Habitat, which sells the loans and reinvests proceeds to build more homes. Habitat focuses on building homes that are priced for households earning between 30-80% AMI, and uses several strategies to attain those price points, including philanthropic support from individuals, businesses, and government.

Habitat for Humanity has completed 51 homes since it was formed in 1995 and has 18 more homes now in the development pipeline. Habitat is currently building about six homes per year, which is their preferred rate of production. Ramping up further would require a second crew, and would be challenging from a staff, volunteer, and philanthropic perspective. While their current focus is within Jackson Hole, they have periodically had discussions about extending their geographic reach to other communities.

> *"We can't build enough to satisfy everyone, there has to be level setting among stakeholders about what our community goals are at some point."*
>
> *-Habitat for Humanity Executive Director*

Similar to other builders, land and construction costs represent the greatest risks for Habitat. In addition to escalating costs of labor and materials, Habitat has faced an additional challenge from the global supply chain shortages. National vendors for materials like paint, windows, and appliances have historically donated or provided materials at reduced rates to Habitat. In the past 18 months, as these companies have struggled to fill orders for materials, their support has diminished.

Another unique attribute is their volunteer labor. While work was disrupted by COVID for about 13 weeks in spring of 2020, Habitat has been able to get back on track with their volunteer program.

Shelter JH

ShelterJH is a 501(c)4 membership-based non-profit founded in 2016. ShelterJH members build grassroots and political power to support community members living where they work, creating a more resilient future for Jackson Hole. As a 501(c)4 instead of the typical 501(c)3, ShelterJH can endorse, oppose, and support candidates to help keep housing supporters in office. They work to empower members to be their own housing advocates and lead the movement for housing justice.

The Casper Housing Authority

The Casper Housing Authority administers Housing Choice Vouchers (Section 8) for the Teton Region. The program supports renters by providing a subsidy for the rent amount above 30% of the voucher holders' income. Very few vouchers are in use in the region, based on the limited number of vouchers available and the rental rates that exceed the "fair market standards" that govern this federal program. Casper Housing Authority's participation in the Flat Creek Apartment project through project based vouchers has increased the financial feasibility of that project.

Homeless Services

There is no permanent supportive housing for homeless individuals or families in the area, however, several non-profits and faith-based groups provide temporary assistance. These groups include Good Samaritan Mission, St. John's Episcopal Church, Community Safety Network, and One22.

Chapter 7 – Housing Resources, Opportunities and Constraints

Government and Institutionally Owned Land

Providing land at low or no cost can be an effective strategy for catalyzing new affordable and workforce housing. The *Jackson and Teton County Annual Housing Supply Plan* relies heavily on this approach, and the Jackson/Teton County Affordable Housing Department (Housing Department) has been successful in creating public/private partnerships as a result. Eight public/private partnership projects are underway and will produce 358 new affordable units in the next few years.

Taking the land cost out of the development proforma is a helpful start to creating affordability, but, in today's construction market, is not sufficient on its own to meet the needs of most local employees.

The *2020 Jackson and Teton County Annual Housing Supply Plan* (Appendix G) has an inventory of government owned parcels that might be suitable for housing. Most of the parcels are less than an acre. The Jackson/Teton County Affordable Housing Department has been proactive in initiating public/private partnerships on these lands and has an informal goal to do one development partner request for proposals (RFP) per year. As the Housing Department utilizes existing land inventory, there is a risk that decreasing supply of government and institutionally owned land and escalating land values will reduce housing production.

Developers and planners observe that affordable housing production will increasingly come from redeveloping underutilized land within the town of Jackson. When land becomes available, the agency needs both funding and organizational capacity to move quickly. Securing land for future public/private partnerships is also important for responding to housing needs over the long term.

Local Funding Sources

Local Government

The Housing Department has invested about $36 million in workforce and affordable housing over the past five years. These investments have supported the creation of 246 deed restrictions, mostly on new construction. The funding sources supporting these investments are summarized in the below table.

Jackson/Teton County Affordable Housing Department Sources 2017-2021	
Mitigation Fees	$7,806,296
General Fund	$7,000,000
2019 SPET	$1,509,842
Land Owned, Appraised Value	$16,060,000
JTCHA	$156,638
2006 SPET	$3,900,405
Total	**$36,433,181**

Source: Jackson/Teton Affordable Housing Department, consultant team

Housing Department funds have been invested in capital projects via land and direct funds to the project. On average, investments total just under $150,000 per unit. The lowest per unit assistance was The Grove III at $79,000/unit. The highest assistance was for Redmond Street Rentals at $204,000/unit. Developers have expressed that a more predictable and transparent process for fund allocation would be beneficial.

Jackson/Teton County Affordable Housing Department Per Unit Investment 2017-2021

	Cost per unit
Total average across all types - land and cash	$149,106
Average for own	$96,292
Average for rent	$167,669
Average for workforce (greater than 120% AMI)	$98,182*
Average for affordable (less than 120% AMI)	$151,165*
Land only	$111,696

*analysis excludes Jackson Street, which is both affordable and workforce
Source: Jackson/Teton County Affordable Housing Department, consultant team

The 2019 Special Purpose Excise Tax (SPET) commits $5.5 million for housing. The Housing Department has deployed about $1.5 million. With an average investment of $150,000 per unit, the remaining $4 million could help create about 26 additional deed restricted units. Rising construction costs and the need for more units below 80% AMI, however, will likely require higher per unit investments.

"For this year, staff proposes to at least quadruple public investment in housing and to focus this investment on multifamily housing that serves households earning <120% of median family income."

– 2021 Supply Plan

The town of Jackson and Teton County have also supported the Housing Department with General Fund Allocations of $7 million over the past five years. In-kind support through fee waivers and staffing resources also contribute to housing programs and initiatives.

Federal passthrough grants from the American Rescue Plan Act will bring one-time infusions of about $3 million to the town of Jackson and $4 million to the county. These funds will likely go into the general fund, and a portion could be used for housing and housing-related infrastructure.

Non-profit and Private Sector

As noted above, Habitat for Humanity and the JHCHT use local philanthropy to help close the gap between construction costs and what local residents can afford. Other non-profit and private initiatives include:

"Other Non-profits have small armies of employees. If the community stepped up and invested in Habitat and JHCHT in a similar way – they could make the housing we need happen."

– Stakeholder interview

- ***Community Foundation of Jackson Hole*** – This organization raised about $35 million in 2020, of which about $15 million was from Old Bill's Fun Run. Housing solutions and housing

philanthropy have not been a major focus for the Community Foundation. In recent years, the Jackson/Teton Affordable Housing Department reported receiving a $40,000 grant, and JHCHT reported receiving a $25,000 grant to be used over three years.

- ***Teton Board of Realtors*** – Community Housing Fund – This initiative was launched in August 2021. It is a voluntary contribution whereby realtors, buyers and sellers can designate a contribution as part of a real estate transaction. Proceeds will support Habitat, the JHCHT, and Jackson/Teton County Housing Authority. Twenty-two real estate agents pledged $150,000 to seed the fund and complete the capital campaign for the JHCHT's King Street Development.

Development Environment

The development environment in Jackson and Teton County presents many challenges for creating workforce housing. These challenges include the remote, rural nature of the community, and associated difficulty getting resources, and competition for skilled labor and materials. The regulatory environment of Jackson and Teton also offers a mix of positive and challenging aspects.

Teton County and Jackson completed a major update to the Land Development Regulations in 2018. Some of these changes, such as the 2:1 Density Bonus, have already produced results. Others, such as the elimination of Inclusionary Zoning, may have had negative impacts, but are challenging to measure. A full summary of the tools that can work for and against the ability to build housing cost-effectively is included in Appendix B.

The primary observation by developers was not that specific land use codes needed improvements, but rather that the overall process is slow due to the layers of regulation and the Planning and Building department frequently being short staffed. It is challenging to attract and retain skilled labor to process development applications, such as building inspectors and planners. At the time of this study, Teton County was working to fill seven of sixteen full time positions in the Planning and Building department. The hiring manager reported a direct link between the cost of housing in the area with the high turnover in his department and difficulties hiring new employees, affecting both entry- and mid-level positions.

Developers also expressed the need to reduce risk in the entitlements process by making more uses "by right" or administrative in nature. The two tools that developers were most positive about were the 2:1 Density Bonus and the Jackson/Teton Affordable Housing Department provision of land and infrastructure. One developer suggested extending density bonuses to other land use zones, "provided the additional density was for locals housing." For example, when building a new restaurant in a commercial zone, extend a density bonus to build units for local workers on the same parcel.

Cost of Residential Construction

The cost to develop housing varies by multiple factors, including location, target demographic, density, and product type. The primary residential development costs include land acquisition, construction costs, soft costs, site work, and financing. Overall, developers and contractors reported on the current challenges to build affordably in the area as greater than ever before. These challenges include high land, labor, and construction materials costs, which are making it ever more difficult to overcome the

gap between cost to build and what local wage earners can afford. Labor shortages and overall escalating costs also add significant risk to community housing development.

Land Acquisition

Land costs vary considerably, depending on the location of the parcel, zoning, and access to infrastructure. Average land price for community housing projects between 2017 and 2021 was about $112,000 per unit; however, this is rising. Land zoned for multi-family uses recently appraised for over $7 million per acre. Assuming 20 units per acre could be built, this would translate to a per unit land cost of $350,000. The limited availability of land and competition with other uses, such as luxury housing, are putting tremendous upward pressure on land values.

> *"Just putting the land under the deal doesn't pencil anymore, it won't create anything that remotely resembles affordable."*
>
> *- Stakeholder interview*

Construction Costs

The industry standard for cost to construct the building is typically 60% to 70% of total development costs, although in five recent community housing developments in Jackson, the range was actually broader (53% to 85%). Local developers and contractors report that the cost of construction for a townhome or multifamily product with medium-level finishes ranges from $375 to $450 per square foot, which includes materials and labor only (i.e., land, soft costs, site work, and developer fee are excluded). Contractors reported that single-family homes cost no less than $700 per square foot to build. The rest of this analysis centers on attached housing.

The average construction cost per square foot for the five recent projects was $336, with $382 for site built and $267 for modular. High-end finishes (stone, cedar siding, granite) increases construction costs. Contractors reported that the cost to build market rate construction of attached residential product with high-end finishes begins at $700 per square foot, with "the sky as the limit."

Developers and contractors noted worsening conditions with regard to construction costs, and stated that they would not be able to replicate the cost per square foot of these recent projects. One contractor recommended using a 25% cost escalator for projecting costs on anything that does not yet have a building permit.

> *"We are facing competition for labor from all of the surrounding communities now, and I need to build in $60,000 hotel allowances for crews from other markets. This adds up fast."*
>
> *– Contractor interview*

While supply chain issues have impacted construction materials nationally and globally, developers and contractors working locally emphasized that labor is the greatest challenge and driver of cost increases. Lower paid positions are especially hard to fill, which is attributed to the tight housing market and sharp decline in J-1 Visas, creating significant competition for employees. Contractors reported labor shortages across all trades and levels of experience and noted that many subcontractors left the

Jackson area in recent years as housing prices became more unaffordable.

High construction costs are also limiting the opportunity to provide amenities like structured parking, which could make more efficient use of limited land.

The Jackson/Teton Affordable Housing Department and other funders should be prepared to provide greater gap funding to create the same level of affordability over the next few years.

> *"Scale is really important. Larger projects give us the ability to draw labor from markets like Salt Lake City. We can drive down construction costs a bit with this strategy."*
>
> *– Contractor interview*

Soft Costs

Soft costs are expenses that are not considered direct construction costs and include architectural, engineering, permitting, taxes, insurance, and legal fees. Soft costs were reported to average 13% to 25% of total project costs. Developers of affordable housing reported being able to keep soft costs lower than they would be for market rate projects. The ability to waive some town of Jackson fees for 100% Deed Restricted development helps developers. Water and sewer fees cannot be waived and are more substantial. Overall, the fee environment for community housing development in Jackson is not overly onerous compared to other mountain towns.

Developer Profit

When building community housing in Jackson, both non-profit and for-profit developers reported accepting lower developer fees compared to what they might earn building community housing elsewhere, or building market rate housing. Habitat for Humanity and JHCHT charge only a project management fee to cover staff time. For the proposed Low Income Housing Tax Credit (LIHTC) development, Flat Creek Apartments, Blueline Development reported that the developer fee will be capped below industry standards. Lower developer fees help reduce overall project costs, but further restricting developer fees may act as a disincentive for developers to take on the risks of building housing in this environment.

Site Work

Site work includes grading the site, installing utilities, paving roads and parking, etc. Stie work costs vary significantly based on site location. Site work can be a barrier if off-site infrastructure is required or if infrastructure upgrades are needed. One developer expressed how the need for off-site improvements killed the financial feasibility of a community housing project he was pursuing. Aside from that, local developers did not express many hurdles associated with site work, but did express concerns this would be a bigger issue as infill opportunities within Jackson become scarcer. Public sector participation in site work and infrastructure capacity can help to reduce risk and create affordability, similar to what occurred at Grove III.

Financing Costs

Financing costs generally make-up less than 5% of the total development costs. Financing mechanisms used to develop affordable housing, however, can cost more than traditional financing, such as LIHTC, or when multiple funding sources are used. Financing costs are often included in soft costs.

Total Development Costs

Based on an assumption of $425/square foot cost to build, 20% soft costs, and 10% developer fee, and land value above, it costs about $847,250 to build a 900 square foot condo or apartment. To make this home affordable for a household at 100% of Area Median Income would require an additional subsidy of about $456,250.

> *"When we build a $15m house, there are 50 guys working there, and it goes on for 30 months. We need to house these people. Then the caterers, landscapers, housekeepers etc.etc.; they all need housing too. I think we should build four/five [deed restricted] units to go with every $10+million home. Real money needs to change hands."*
>
> *– Contractor interview*

Cost to Build – 900 square foot condo or apartment: 2021

	Assumptions	Cost
Labor and Materials (hard costs)	$425/sq ft	$382,500
Land and infrastructure	20 units on 1 acre at $7million/acre	$350,000
Design, fees, financing (soft costs)	20% of hard costs	$76,500
Developer fee	10% of hard costs	$38,250
Total Development Costs		**$847,250**
Price affordable for households at the median income [1]	100% AMI,	$391,000
Gap (subsidy needed)		**$456,250**

[1] Max purchase price assumes 30-year mortgage at 5.37% with 5% down and 20% of the payment covering taxes, HOA, PMI and insurance.

Source: consultant team

Chapter 8 – Housing Units Needed

This section addresses the question:

> *How many additional housing units are needed to address housing deficiencies for residents and support the labor force needed to sustain businesses and the economy.*

Needs are projected through 2027 and quantified in two categories:

- Catch-Up Needs – the number of housing units needed now to address current deficiencies in housing based on employees needed to fill unfilled jobs and the number of units needed for a functional rental supply.
- Keep-Up Needs – the number of units needed to keep-up with future housing demand through 2027 based on job growth and jobs vacated by retiring employees. Housing shortages worsen when local job growth and the need for more workers exceeds the growth in available housing units.

This section estimates housing units needed to support employers, keep up with future job growth and improve housing options for area residents based on information presented in other sections of this report. Estimates are a subset of the total demand for housing in the county. Estimates do not include current waitlists for housing, overcrowding, or households that will be forced to leave due to housing conditions.[36] Nor do figures represent the entire housing market – remote workers or retirees moving in from elsewhere, second homeowner purchases, and other market segments, which are outside the scope of this analysis.

Catch-up Needs (Current Conditions)

Unfilled jobs

Labor is in short supply, both locally and nationally. In such a competitive environment, the near-zero rental vacancy rates, and high and rising home prices and rents, make it even more difficult to attract labor to the area. Eighty-percent (80%) of employers stated that the lack of housing affected their ability to find and keep employees. More housing that local employees can afford is needed for businesses to hire and retain the workers they need to thrive.

Employer survey respondents reported that 15% of jobs were unfilled this summer, which is high and has been affecting business operations and employee satisfaction. Because all jobs are rarely filled, the following estimate seeks to lower the unfilled job rate to 5%, which was more typical prior to the pandemic.

About 84% of employees reside in the Teton Region. If this pattern is maintained, then the number of homes needed locally is about 1,115 to bring the current 15% unfilled job rate down to a 5% rate.

[36] See Regional Overview – Housing Problems and Chapter 6 – Housing Program Accomplishments and Challenges

Units needed to help fill jobs	
A. Current unfilled jobs (15%)	4,940
B. Reduced unfilled jobs (5%)	1,625
Jobs to fill (A – B)	3,315
Jobs per employee	1.3
Employees per household	1.9
Housing units needed	1,330
% of employees living in the Teton Region	84%
Housing needed for Teton County, WY, employees to live in the Teton Region	1,115

While this catch up need is important to understand for relieving current business employee shortages, much of this figure is also incorporated in the estimate of future job growth. This potential for double-counting is addressed in the summary of housing needs below.

Functional Rental Supply

The current rental supply in the county is not functional because vacancies are below 1%, placing substantial upward pressure on rents. When vacancy rates are this low, the rental market is near capacity and cannot absorb new residents or employees moving to the area, much less provide opportunities for current residents to find more suitable rentals as their housing needs change. Renters are "stuck" in their homes, and subject to burdening rent increases.

- A 5% vacancy level, while still low, provides some choice and availability of units for residents and employees. To increase the vacancy rate to 5%, about 200 rental units are needed.
- To also provide housing for persons who are now camping or living in motel rooms would require about 165 additional units.

Rentals Needed for a Functional Market	
Total rentals (2021)	3,830
Number of rentals if 5% vacancy rate	4,030
New rental units needed	200
Units needed for unhoused persons	165
Total additional rentals needed	365

Future (Keep-Up) Needs

Retiring employees

Employers will need to fill the jobs vacated by retirees in addition to any newly created jobs. Some retirees will leave the area upon retirement; however, when they sell their homes, the majority will be purchased by second-home owners or remote workers rather than local employees.

About 13% of employee/household survey respondents stated they expect to retire over the next five years. Assuming that 80% of retiree homes will not be available to new employees filling vacated jobs, 1,345 homes will be needed.

About 84% of employees reside in the Teton Region. If this pattern is maintained, then 1,125 homes are needed locally.

Retiring employees	
% to retire by 2027	13%
# to retire	3,200
Employees per household	1.9
Total housing units	1,685
Needed housing units (80% of retired)	1,345
% of replacement employees living in the Teton Region	84%
Housing needed for Teton County, WY, employees to live in the Teton Region	1,125

New Jobs

To keep up with estimated job growth over the next five years (5,064 new jobs), approximately 2,035 additional housing units will be needed. Because this study focuses on the Teton Region as a whole, the below estimate shows how many housing units are needed to keep new workers in the Teton Region based on current commuting patterns. The next section shows how many of these units may be needed in Teton County based on various assumptions.

About 84% of employees reside in the Teton Region. If this pattern is maintained, then 1,705 housing units are needed locally.

Estimated Housing Needed by the Workforce Filling New Jobs, 2021 – 2027

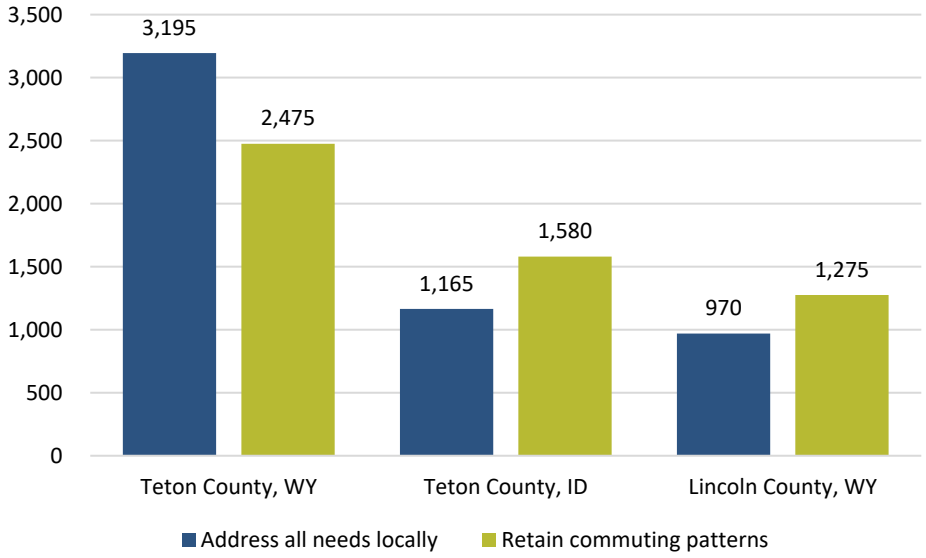
	Low
Increase in Jobs between 2021 to 2027	5,064
Jobs per Employee	1.31
Employees per household	1.9
Housing needed	2,035
% of employees living in the Teton Region	84%
Housing needed for Teton County, WY, employees to live in the Teton Region	1,705

Regional Distribution of Catch-Up and Keep-Up Needs

Based on estimated catch-up and keep-up needs in Teton County through 2027, an additional 3,195 housing units will be needed. The number of housing units needed in Teton County will vary depending upon whether the total housing need is provided locally, or if current commuting patterns within the

Teton Region are retained and units are constructed based on where employees presently live. As a job center in the Teton Region, if current commute patterns are retained, then the number of units needed within Teton County declines, but is displaced to Teton County, Idaho and N. Lincoln County. Under the current commuting patterns, the number of units needed in Teton County is about 2,475, whereas the need would be 3,195 if housing was aligned with the location of new jobs.

In Teton County, Wyoming, about 80% of the housing needed should be priced below-market. As discussed further below, this means ownership housing priced below $780,000 (200% AMI) and rentals priced below $2,600 per month (100% AMI).



Summary of Housing Needs Through 2027

	Address All Needs Locally	Retain Commuting Patterns
Catch-Up	**365**	**365**
Unfilled Jobs (reduce from 15% down to 5% unfilled)	*1,115*	*830*
Functional rental supply	365	365
Keep-Up	**2,830**	**2,110**
New jobs (2.4% growth)	1,705	1,270
Retiring employees (13% retiring)	1,125	840
TOTAL through 2027	**3,195**	**2,475**
Below market (80% of units)	2,555	1,980
Market rate (20% of units)	640	495

*Housing needed to fill currently unfilled jobs is shown in the table to illustrate the existing shortage of housing related to filling current positions. This number, however, is largely a subset of the new job growth estimate so is not included in the overall total to conservatively prevent double-counting.

The figure below shows the total housing needs through 2027 in the study area based on whether all needs are addressed locally or if current commuting patterns are retained.

Housing Needed Through 2027, Teton Region Counties
(5,330 total – 60% to 80% priced below market)

Needs by Own/Rent and Income

Ownership and rental housing for local employees and residents is needed. While the majority of workers filling new jobs will rent homes (about 70%), a significant percentage of current renters (46%) want to buy homes.[37] If ownership opportunities are provided, this can then free up rentals for occupancy. These dynamics support retaining the current tenure mix in the county among locally employed households: 47% own and 53% rent.

The precise ratio, however, is dependent upon the community's desired direction and housing policy. Rentals are needed to help recruit new workers and residents to the region; ownership is needed to retain year-round residents and support community stability.

Summary of Housing Needs by Own/Rent Through 2027

	Low (housing aligned with commuting patterns)	High (housing located where jobs are created)
Units needed through 2027	**2,475**	**3,195**
Ownership	1,165	1,505
Rental	1,310	1,690

The following table shows the income targeting for the additional units needed based on the income distribution of renter households that work in Teton County. As shown below:

[37] See Regional Overview - Housing Problems

- Market rate rentals in the county currently serve households earning over 120% AMI. The vast majority of new rentals need to be priced to be affordable to households earning below 120% AMI; 55% should be priced below 80% AMI.
- There are 253 rentals in the pipeline for development covering a range of affordability levels from 50% AMI through unrestricted market prices.
    - Rentals above 120% AMI are the largest segment and, when constructed, will address about 50% of the need at this price point (164 of units needed). This supply will add a significant boost to supply at this range.
    - A much lower 6% of estimated needs will be addressed by pipeline development under 120% AMI. Increasing the development of this product is needed.

Rental Units Needed by AMI Through 2027, Teton County, WY

	AMI				
	≤50%	50.1% - 80%	80.1% - 120%	120.1 - 200%	>200%
Max. Income	$52,020	$83,232	$124,848	$208,080	>$208,080
Max. Affordable Rent	$1,300	$2,080	$3,120	$5,200	>$5,200
Renter Income Distribution	24%	31%	23%	17%	5%
Rental Units Needed by AMI*	**360**	**465**	**345**	**255**	**75**
Pipeline development	62	11	3	----- 164 -----	

Incomes at each AMI are reported for a 3-person household

* Units Needed total is based on the mid-point of the low and high housing need estimates

The following table shows the income targeting for the additional units needed based on the income distribution of owner households that work in Teton County.

- The majority of owners earn under 200% AMI. The current housing market provides some attached product that households earning 250% AMI could afford, but single family homes are well above this. Market rate for sale product is basically not existent at prices that residents making their living in the county can afford.
- When considering ownership product for local residents and employees, most should be priced between $300,000 up to $780,000 (80% to 200% AMI). For renters looking to buy, product priced for households earning primarily between 50% AMI up to 120% should be the focus.
- Prior to the recent boom in prices in the Teton Region, homes priced below $500,000 were available in Teton County, Idaho, which is where many employees working in Teton County, Wyoming, searched for and found homes to buy. This is no longer a viable option; however, households searching for homes over $500,000 can still find some product. As options in neighboring counties diminish, it becomes even more important to provide opportunities for this demographic locally.
- About 118 homes for ownership are in the development pipeline, a substantial 90% of which will be priced for owners earning under 120% AMI, meeting about 15% of the estimated need in this income range. Twenty-four (24) homes are priced for households earning under 80% AMI - a great achievement in the high cost market. This is a good target for first time homebuyers.

Ownership Units Needed by AMI Through 2027, Teton County, WY

	AMI					
	≤50%	50.1% - 80%	80.1% - 120%	120.1 - 200%	200.1 - 300%	>300%
Max. Income	$52,020	$83,232	$124,848	$208,080	$312,120	>$312,120
Max. Affordable Purchase Price*	$195,700	$313,100	$469,600	$782,700	$1,174,100	>$1,174,100
Owner Income Distribution	10%	17%	25%	27%	12%	9%
Ownership Units Needed by AMI**	**135**	**225**	**335**	**360**	**165**	**120**
For sale listings	0	0	0	3	7	135

** Units Needed total is based on the mid-point of the low and high housing need estimates

Teton County, Idaho

Chapter 1 – Report Snapshot and Recommendations

Overview of the Teton County, Idaho, Housing Needs Assessment

This Assessment centers on the understanding of what households can afford for housing in Teton County, and explores where their needs are being met, and where there are gaps. It uses the definition that housing is affordable when monthly housing costs (rent or mortgage, plus utilities, insurance, and property taxes) is equal to no more than 30% of a household's gross income (i.e., income before taxes).

Source: Dept. of Housing and Urban Development for a 3-person household
**Source: Blue Ribbon Demographics, LLC; 2021 Employee/Household survey

The housing bridge, illustrated above, presents a picture of what affordability in Teton County for its residents and workforce should look like. The bridge portrays a spectrum of housing that is affordable and most likely to be sought out by households in different income groups. It indicates the percentage of households earning incomes in each area median income range and the type of housing likely to be needed at the different income levels. The bridge depicts what may be ideal for most communities – the availability of housing that is affordable to households at all income levels and provides options for changing life circumstances.

It is from this perspective that the housing needs assessment was conducted. The housing bridge summarizes what you are about to read. It illustrates the mix of housing needed by residents making their living in the county and at which income level. It shows where the market is providing housing and where it is not; and how much housing is needed to address current shortfalls and keep up with future job growth. More specifically:

- The rental housing market for residents and local employees searching for homes has gotten expensive for local wage earners. A three-person household earning about $60,000 per year coming to Teton County may find something that meets the definition of affordable in the market. By this summer, if rents keep rising as fast as they have been, an income closer to $70,000 per year will be needed to afford market rate rentals.
- Households making their living locally were able to find a few attached homes to buy (condominiums, townhomes, etc.) for under $400,000 (150% AMI) in the first 10 months of 2021, although homes in this price range are now essentially nonexistent. Market rate single family homes are now mostly over $500,000 (175% AMI). This is a big shift from just two years ago when three-fourths of homes were priced under $500,000.
- To address the amount of housing needed to catch up to current shortfalls and keep up with future job growth, ***at least 60% of the approximately 1,165 to 1,560 homes needed by 2027 in the county will need to be priced below market***. This will require local policies, subsidies, and creative partnerships to produce, building upon the already significant achievements of the cities, county, local organizations, employers, private sector and community in this regard.

The document that follows provides the information and story behind this bridge. It summarizes the local housing challenges felt by residents, employees, employers, and the community as whole; and the already great strides being taken to improve housing options for residents and employees to support a thriving and vibrant Teton County community.

Recent Successes and Recommendations

Summary of Recent Successes

The local jurisdictions and employers have been working hard to address the current housing gaps in the community. There are many successes to celebrate. In particular:

- Local stakeholders have created the *Affordable Housing Strategic Plan* and *Housing Supply Plan*, clearly spelling out the challenges and proposed strategies to address them. Local jurisdictions have adopted the *Affordable Housing Strategic Plan* and implementation has started.
- The Joint Housing Authority has been established. Funding for an executive director is secured. The organization has an active Board of Commissioners with strong expertise in housing and planning. Local jurisdictions have also committed staff time and funding. The city of Victor recently entered into an agreement with the Joint Housing Authority to lease land at Sherman Park for a potential 72-unit affordable housing project.
- Employers have increased their engagement in providing employee housing, currently assisting over 300 seasonal and year-round employees with housing units, stipends, or other assistance to help relieve family burdens and increase stability.
- The city of Driggs has partnered with Northwest Real Estate Capital Corporation for the development of affordable rental housing in downtown Driggs at Depot Square. The team secured Low Income Housing Tax Credit funding to build 30 restricted rentals affordable for residents earning between 30% and 60% AMI. Community development block grant funding and tax increment financing revenue from the Driggs Urban Renewal Agency were also part of this project's financing.

- Local jurisdictions have added housing as a top priority in their comprehensive plans, and started assessing local zoning regulations to increase the diversity of housing types.

The Path Forward

As summarized above, there is good momentum and foundation for addressing housing needs in the Teton Valley. And continued momentum is needed to help address the gap of up to 1,580 homes. ***The magnitude of the issue requires a robust and regional response from all sectors of the community (public, private, non-profit) working collaboratively to engage community support and accelerate housing solutions.***

Recommendations

The below recommendations can be revised, expanded, and made more actionable through community conversations and policy direction by elected and appointed officials.

Regional Nature of Housing

The demand for homes in Teton Valley from local residents and employees, as well as workers in Teton County, Wyoming, is extensive and will continue. This means that, the extent to which each county in the Teton Region addresses their housing needs will affect housing needs in other communities in the Region. It is important to maintain a regional dialogue about the problem, recognize the local and regional implications of housing polices, and work together on solutions and policies that carry benefits and impacts across jurisdictions.

Implement the Affordable Housing Strategic Plan and Supply Plan

The community is on the right track with these recently adopted plans. Additional considerations that will support implementation include:

- Assess and update housing goals by tenure in light of the extensive housing (both rental and ownership product) needed, available and planned land and funding resources, and community priorities. In doing so, recognize that communities rarely make the policy decision to tackle the full need, as scarce resources, other community priorities and constraints are considered.
- Activate the Supply Plan strategies by pursuing the public/private partnerships needed to produce housing. This includes multiple steps:
    - Create more detailed project feasibility assessments to attract skilled builders/developers for projects.
    - Cultivate local expertise in constructing deed restricted housing in the Valley. This may include, for example, a Habitat for Humanity Affiliate, a local builder, a community land trust, or the Housing Authority.
    - Plan a consistent pipeline of projects. This shows dedication to projects, helping to attract skilled builders/developers, and helps guide resource allocation.
- Create deed restriction stewardship and applicant selection processes before units come online. Many mountain towns have a laundry list of lessons learned in the stewardship and management of deed restrictions, which can help the Housing Authority start on the right path.

- Implement the local funding source recommendations that are currently being refined as part of the *Affordable Housing Strategic Plan*. The most successful housing programs have a layer of funding strategies, including revenue from housing rents and sales, transaction fees, local government sources, grants, loans, philanthropy, among others. Specific considerations include:
    - State and federal resources. Depot Square illustrates the effectiveness of these resources.
    - There is a promising bill in legislation to create State Housing Fund of $50 million, providing access to additional federal funds and tax credits of about $120 million.
    - American Rescue Plan (ARPA) and Infrastructure and Jobs Act funding can be leveraged to help produce needed housing. ARPA funds can be used to construct new low to moderate income housing and/or build infrastructure to support developers who commit to a portion of their development being deed restricted.
- Track progress and monitor the housing supply – good record keeping can ensure that the housing program remains on track. Monitor and educate the community of progress – community housing units produced and program successes. Also track building permit activity, changes in short term rental use, and loss of units through redevelopment and sales.
- Actively educate local residents on available housing programs and options. Ensure marketing reaches all segments of the population that can benefit to ensure broad knowledge of and, therefore access. This includes seniors, the Hispanic/Latino community, local employees, etc.

Share Successes

Another hallmark of successful housing initiatives for local residents is robust community outreach, engagement, and story-telling. Invest in educating the community about the value of having the workforce living locally, housing terms, and projects in the pipeline. Track and demonstrate community-wide successes. A good program can be the cornerstone to get units built, community buy-in, and political will. Bringing a diversity of voices into the conversation is vital. A good website is an important starting point, with a dashboard that highlights successes.

Continue to Improve the Regulatory Environment

Update zoning to improve the ability to build a variety of housing within the cities and make the regulatory environment more favorable.

- The Valley is in a good position to utilize low base zoning to craft an effective density bonus program to facilitate the private sector to produce deed restricted product (e.g., similar to the 2-for-1 program in the town of Jackson). The valley's cities could also consider a policy that delivers deed-restricted affordable housing in exchange for rezone or annexation. The lack of regulatory options, such as inclusionary zoning and linkage, in Idaho, makes it even more important to have incentives that engage the private sector.
- More multi-family rentals at all price points would be helpful, as well as more attached for sale housing. Ensure zoning allows and facilitates the type of development wanted.
- Review Accessory Dwelling Unit (ADU) regulations and consider incentives tied to affordability requirements.
- Disallow short term rentals in new inventory to protect the limited housing supply for local occupancy. State statutes (HB 511 and HB 216) limit the ability to restrict existing short-term

rentals, but voluntary covenants on new product are a likely option. Explore the ability to further regulate short term rentals based on community health, safety, and welfare standards.

- When planning homes for residents, consider larger family needs and options for intergenerational living. Larger families, and particularly the Hispanic/Latino community, noted problems locating suitable housing based both on a lack of larger units for families and limitations on the number of people per home. Co-op housing might be explored for intergenerational living options.
- Review parking requirements, setbacks, and minimum lot sizes to ensure efficient use of land.

Support the Momentum of Employers

Create more structure for employers to learn from each other and work collaboratively on new development and master leasing programs. This could take the form of a summit or standing meeting focused on opportunities for employers to work together to address their employee housing needs. There may also be a role for a public or private entity to help with property management so that employers do not also have to be landlords.

Further Study Senior Needs

The population is aging, the workforce is aging, and many seniors desire to age in place. Lower maintenance, smaller patio homes or attached product are often desired as residents age. The need for senior care services and life care or assisted care options will also increase. There are currently no assisted living centers or skilled nursing facilities in the Teton Valley. This study is focused more broadly on community needs as a whole; the specific needs of seniors deserve more targeted research.

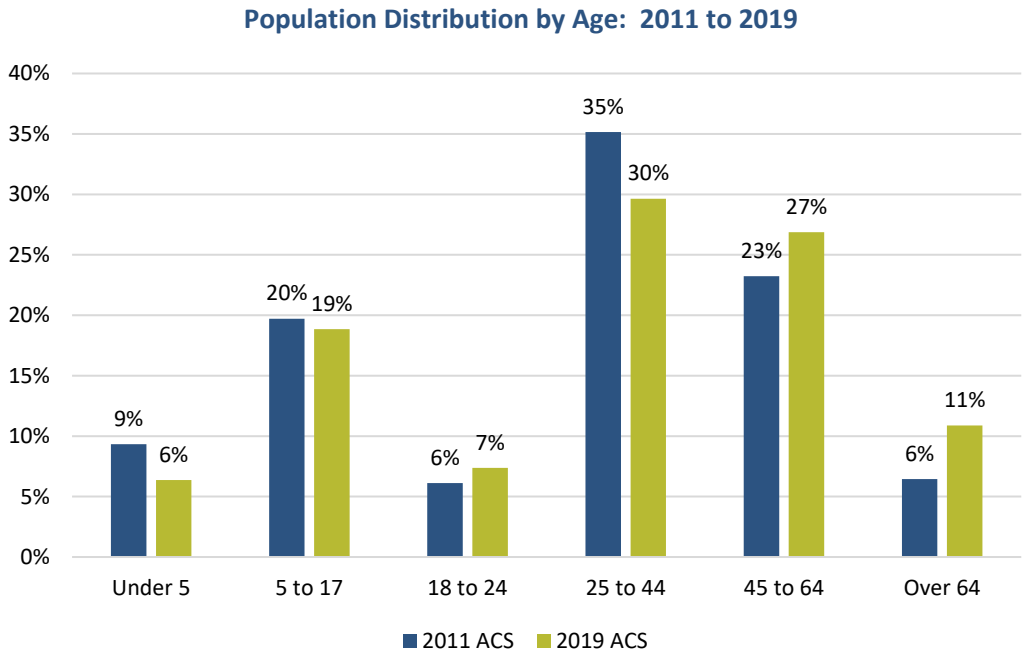
Preserve Homes Upon Resale

Consider a voluntary deed restriction policy. Much of the Teton Valley workforce owns homes that were attainable before the dramatic rise of home prices. Consider a voluntary deed restriction program for homeowners who desire to keep their units available to the workforce and local residents after sale.

Chapter 2 – Community Demographics

This chapter describes a few key characteristics of the people and households in Teton County, Idaho, including growth over time, age, ethnicity, the mix of owner and renter households, type of housing occupied, and household income. This information provides a picture of community change over time and inform the size, type, and tenure of housing needed by residents.

Population and Households



The population of Teton County, Idaho, increased by just under 1,500 residents from 2010 to 2020 and more than 700 households. This amounts to a population increase of 1.4% per year on average, which is slightly lower than that of Idaho overall (1.6%).

	2010	2020	% growth (2010 to 2020)
Population	10,170	11,630	14%

Sources: 2010 Census, 2020 Census

Age

The county's median age has increased from about 34 to 37 years since 2011. The share of the population age 45 and up has increased to about 38% of residents. The workforce is getting older – shifting from the early career, 25-44 demographic, to the late career, 45-64 demographic. The comparative decline in the percentage of persons under 5 years of age and the younger workforce (25 to 44) indicates the county is losing, or at least not replacing, younger families and workers as they age.

Sources: 2011 and 2019 5-year ACS

Ethnicity

The racial and ethnic composition of the county has changed little in the last decade based on census information. The number of people who identify as Hispanic or Latino increased slightly from 2010 to 2020 and now amount to about 2,000 residents, comprising just over 17% of the population.

As discussed in other sections of this report, Hispanic/Latino households have generally had a more difficult time locating suitable housing in the county than other households. On average, these households tend to be lower income and have larger households, contributing to their housing challenges.[38]

	2010	2020
Hispanic or Latino	16.9%	17.4%

Sources: 2010 Census, 2020 Census

Tenure (own or rent)

Owner-occupancy of homes increased from 71% in 2010 to 78% in 2019.

About 72% of households with employees that live and work in Teton County own their homes. A significantly higher proportion of the local workforce has been able to purchase homes than households that live and work in Teton County, Wyoming (47% own). Homeownership helps build stability, security, and satisfaction among residents making their living in the region.[39]

Percent of Resident-Occupied Households by Tenure: 2011 - 2019

	Ownership		Rental	
	2010	2019	2010	2019
Teton County, ID	71%	78%	29%	22%

Source: 2010 Census, 2019 5-Year ACS

Unit Type

Overall, 73% of all households and 40% of all renters live in single-family homes or cabins. A much lower 18% live in apartments, condos, or townhomes, which is reflective of the fact that the inventory of homes in the county are largely single family homes.[40]

About 5% of renters reside in accessory dwelling units (45 households), indicating the extent to which this type of home contributes to resident housing.

About 3% of respondents indicated they are currently not permanently housed, but rather couch surfing, camping, or living in a vehicle (equivalent to 120 households). The majority of these households (93%) are lower income, earning below 80% AMI.

[38] See Regional Overview – Housing Problems for more information

*Employee or affordable housing, basements, rooms, and with family common among "other" respondents

Household Size

The distribution of households by number of people per household by tenure helps to illustrate the size of homes needed by residents. The average household size in Teton County, Idaho, has increased from about 2.6-persons in 2011 to about 3-persons currently.

Average Household Size: 2011 to 2019

	2011 ACS	2019 ACS	2021 Employee/ Household Survey
Total households	2.6	3.1	2.9
Own	2.6	3.1	2.8
Rent	2.5	3.1	3.0

Sources: 2011 and 2019 5-year ACS

Responses to the 2021 employee/household survey show a significantly higher percentage of households residing with roommates, other family members, or with family and roommates in 2021 (16%) than in the 2014 survey (4%) when the same question was asked, as well as a lower percentage of households living alone (14% vs. 21%, respectively).[41]

This is not surprising given the rising cost of homes for Teton County residents, short supply, and loss of rentals through home sales, conversion to short term rentals, or other factors.[42] Many households have been forced to double-up or move in with family as a result of these conditions.

There are multiple families sharing space. There are 6 people in the 2 bedroom unit below me.

[42] See both Chapter 5 – Housing Market and Regional Overview for more information

When considering housing for local residents moving forward, household sizes prior to COVID are a better reflection of needs than current household sizes, which reflect emergency housing measures for many. The below chart reports the pre-COVID household size distribution, showing that:

- Renters are primarily 1-person (37%) and 2-person households (29%).
- About one-third of owner households are 2-persons, with 29% being four-or-more. Families with children (39% of households) and Hispanic/Latino households (average size of 4.2-persons) contribute to the predominance of larger households.

Household Distribution by Size and Tenure: 2019

Source: 2019 5-year ACS

Household Income

The median income reported by the U.S. Department of Housing and Urban Development (HUD) for a 4-person household has increased from $64,000 in federal fiscal year 2015 to $79,500 in fiscal year 2021, an increase of just under 4% per year on average.

Median Family Income for Teton County, ID, 2021

Persons per Household	50% AMI	80% AMI	100% AMI	120% AMI
1	$26,750	$42,800	$53,500	$64,200
2	$30,600	$48,900	$61,200	$73,440

4	$38,200	$61,100	$76,400	$91,680
5	$41,300	$66,000	$82,600	$99,120
6	$44,350	$70,900	$88,700	$106,440

Source: HUD

An understanding of how much households earn across the income spectrum is important in informing the availability and need for housing that Teton County residents and employees can afford.

The table below equates the median income of households in Teton County to the equivalent AMI level for a 3-person household, which is the average size of households in the county. There are clear distinctions between owners and renters in terms of income.

- Over half of renters (51%) earn below 80% AMI.
- About 20% of renters have incomes above 200% AMI. Based on the 2021 employee/household survey, the majority of these renters (68%) work in Teton County, Wyoming, which pays higher average wages than in Teton County, Idaho.[43]
- The majority of owners earn between 100% and 200% AMI (51%). Only 13% earn over 200% AMI, or about $250,000 for a three-person household.

Teton County, Idaho Household Distribution by AMI: 2021

	3-person AMI	Own	Rent	Total

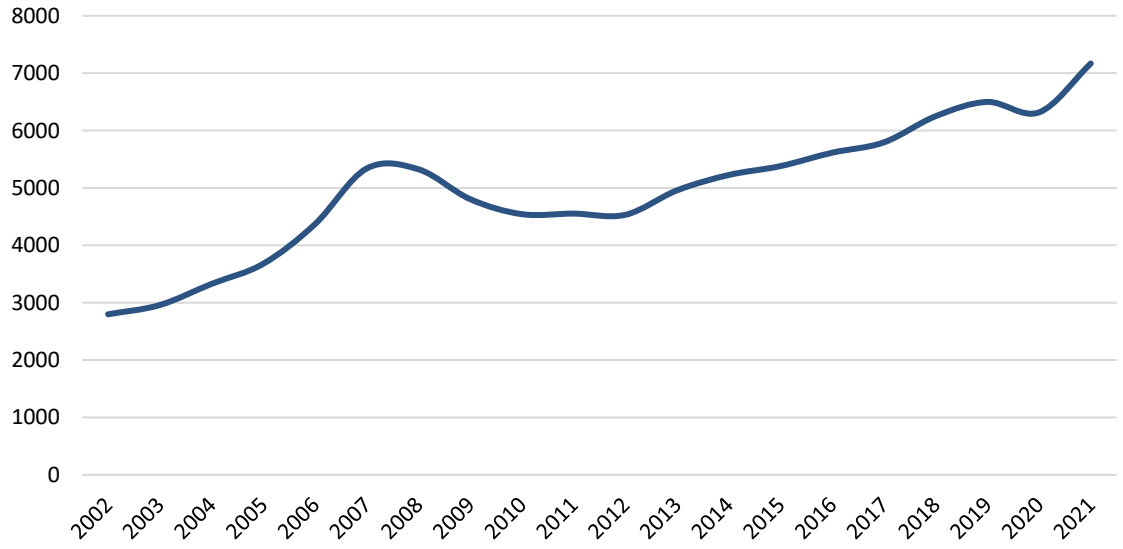
[43] See Chapter 3 - Jobs, Seasonality, and Commuting

Chapter 3 – Jobs, Seasonality and Commuting

Jobs Estimates and Projections

There are about 7,190 jobs in Teton County, Idaho.



Job Estimates and Projections, Teton County, ID: 2010 to 2027[44]

					Annual Growth Rate	
	2010	2015	2021 (est.)	2027	2012-2019	2021-2027
Teton County, ID	4,543	5,380	7,190	9,474	5.3%	4.8%

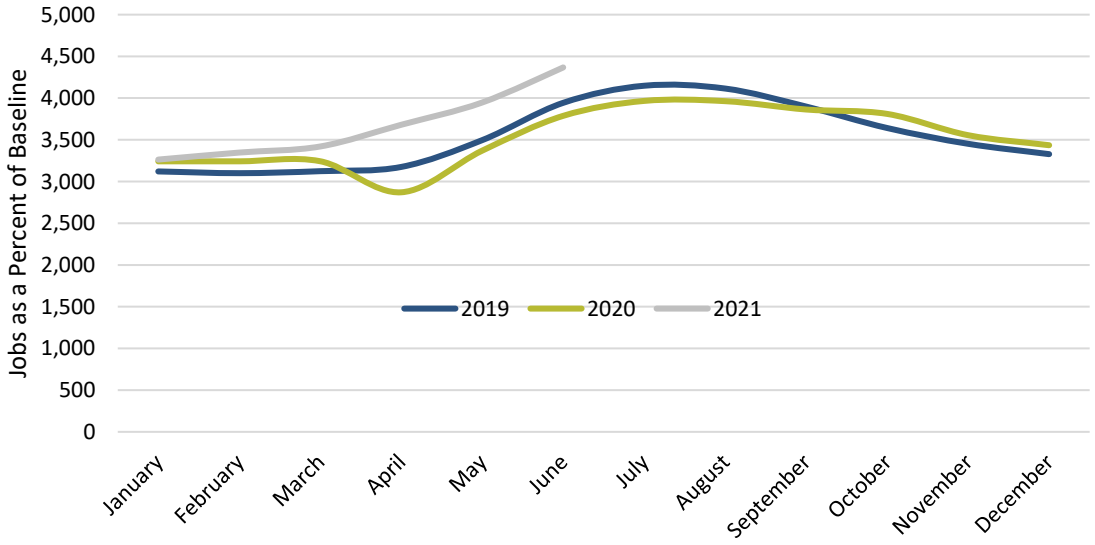
Source: QCEW, BEA, Consultant Team

Jobs in Teton County, ID have grown at a strong rate of 5.3% year on average since 2012 (the low point of the prior recession). The Covid pandemic introduced a short-term drop in the number of jobs in 2020, but jobs more than recovered by October of that year. Jobs through the first six months of 2021 increased 10% compared to the same period in 2019. Looking forward, job growth is expected to continue to be strong.[45]

Job Estimates, Teton County, ID: 2002 to 2021

Source: QCEW, BEA, Consultant Team

[44] Estimates are calculated by adjusting the QCEW count of wage jobs by the BEA percentage of jobs held by proprietors to ensure all jobs (wage and proprietor) are included in the estimate.



[45] The State of Idaho projects an annual growth rate of 1.5% for eastern Idaho, which has been historically much lower than for Teton County specifically. An estimated 4.8% growth rate was instead used, which is in line with the actual growth rate between 2015 and 2019.

Seasonality of Jobs

Jobs in Teton County typically increase between 25% to 28% during the peak summer tourist season; a pattern that was briefly interrupted during the 2020 COVID pandemic, but quickly recovered to typical patterns. In 2019, about 870 summer seasonal jobs were added to base level employment.

Industries adding the most summer jobs include accommodation and food service; administrative and waste services; arts, entertainment, and recreation; and construction.

Baseline and Peak Employment, 2019

	Year-round Baseline Jobs	Peak Peak Jobs (July)	Peak % over base
Teton County, ID	3,100	3,970	28%

Source: QCEW

About 29% of year round residents in Teton County, Idaho, hold at least one seasonal job during the year. This means that employers do not need to recruit from outside the area to fill many seasonal jobs. Employers responding to the employer survey estimate that about 43% of seasonal employees return to work for them from prior seasons, on average.

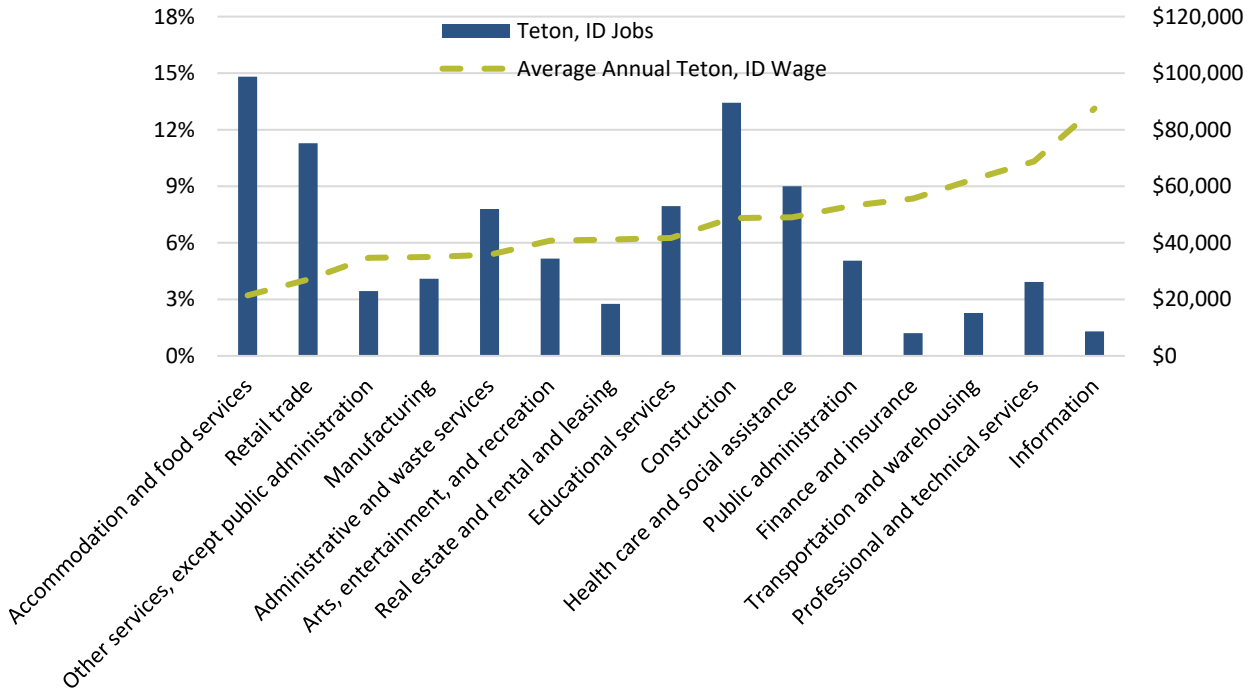
	Year-round Only	Seasonal Only	Year-round Plus at Least One Seasonal
Teton County, ID	72%	9%	20%

Source: 2021 Employee/Household Survey

Wages and Jobs by Sector

The average wage paid in Teton County, Idaho, in 2020 was about $40,500, which is about 32% lower than the average wage paid in Teton County, Wyoming ($60,000). Wages have increased an average of 4.9% per year since 2015, including an 8% increase in 2020. Preliminary 2021 wage data indicates growth will continue.



Source: QCEW

Teton County has three industries that each make up over 10% of jobs, two of which are the lowest paying sectors.

- Accommodations and food service accounted for almost 15% of jobs in 2019, and is the lowest paying sector with wages averaging about $21,400 per year.
- Construction accounts for over 13% of jobs and pays more than the average wage ($48,700). Construction is the fastest growing industry in the region.
- Retail trade pays just under $27,000 per year and is the third largest industry (11% of jobs).

Jobs per Employee and Employees per Household

The number of jobs per employee and the number of employees per employed household are used to translate job growth into the number of housing units needed by workers to fill new jobs.

- Workers in the Teton Region hold about 1.3 jobs on average during the year and have about 1.9 employees per household.
- The number of jobs held fluctuates with the seasons. Employees hold an average of 1.4 jobs over the summer and 1.3 jobs over the winter. Many employees, particularly in lower paid service positions, need to hold more than one job to afford to live in the area. This was noted both by employers, as well as respondents to the employee/household survey.

Average Jobs per Employee by Season: Teton Region

Year-round Jobs per Employee	Additional Summer Season Jobs	Additional Winter Season Jobs	Average jobs held during the year
1.1	0.3	0.2	1.3

# commuting in for work	1,245

Source: QCEW, BEA, 2019 5-Year ACS, LEHD, 2021 Employee/Household Survey, consultant team

Very few employees commute into Teton County, Idaho, from other counties in the Teton Region. The majority come from other counties in Idaho.

Conversely, about 38% of workers living in the county commute to Teton County, Wyoming, for work (about 3,200 employees). Teton County, Idaho, has long been a bedroom community for Teton

> *"I can see this impacting us more and more. We have talked about creating a vanpool from Rexburg (and vicinity) and may have to do that soon."*
>
> *-2021 Employee/Household Survey Comment*

[46] Commute percentage range is estimated from multiple sources. Employers on the 2021 employer survey reported that 21% of employees commute from homes outside of Teton County, Idaho. Adjusting the US Census Longitudinal Employer-Household Dynamics (LEHD) for proprietors a similar 23% of county jobs are filled by commuters.

County, Wyoming, providing less expensive ownership and rental options for Teton County, Wyoming, workers than available nearer their job. With escalating housing costs in the Teton Valley of Idaho, however, these opportunities are diminishing, as well as pushing Teton County, Idaho, workers further out to lower cost housing markets.[47]

	Where Workers in Teton County, ID, Live	Where Residents in Teton County, ID, Work

Employer Commute Assistance

About 33% of employers in Teton County, Idaho, that responded to the survey (16 of 49 respondents) indicated that they provide their workers with some work commute options or assistance. Employers providing assistance cover the full range of businesses and services in the county. Of employers providing assistance, telecommuting was the primary option (56%) as shown in the table below. As more employees search for homes outside of the Teton Valley, some employers are considering expanding services, as noted above.

[47] See Chapter 5 - Housing Market for more information

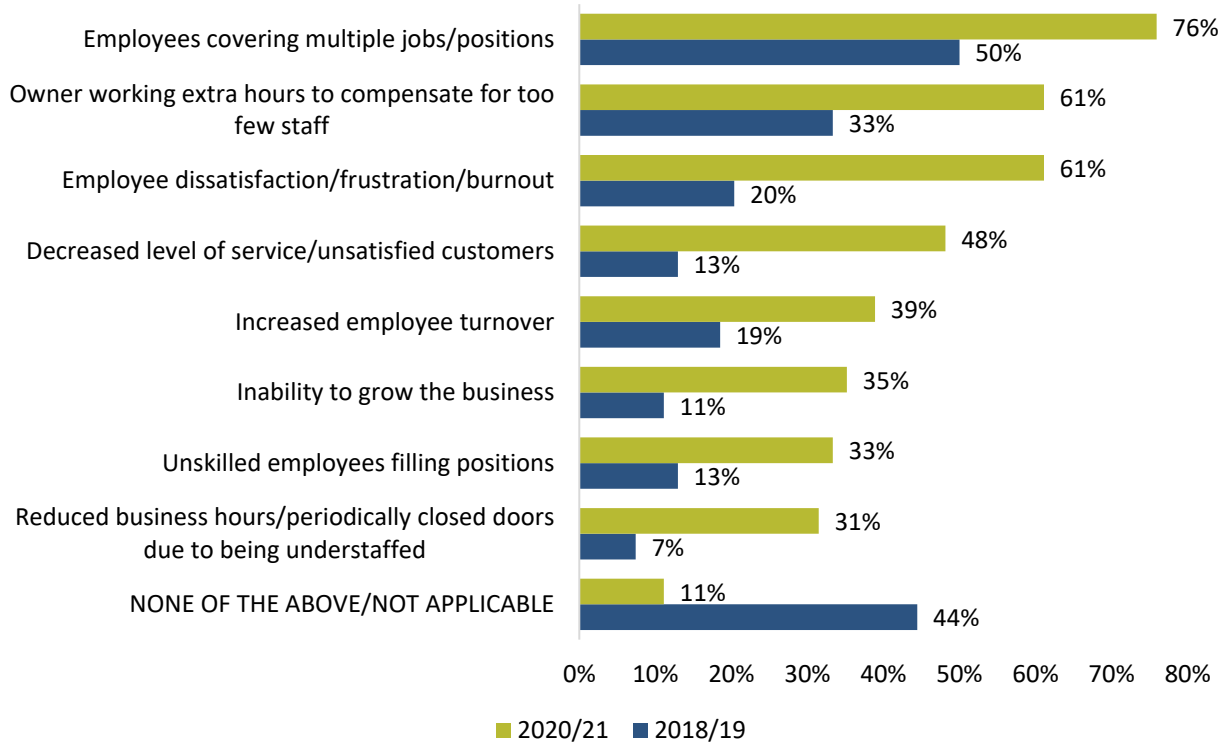
Type of work commute options or assistance:	% of Employers
Telework / work from home flexibility	56%
On-site vehicle for employee errands	44%
Travel stipend (i.e., travel time compensation, etc.)	31%
Bus passes / coupons	19%
Bus/shuttle (operated/financed at least in part by your business)	13%
Carpool / Vanpool program	13%
Other (e.g., flex hours, gas reimbursement)	13%

Source: 2021 Employer Survey
*Totals exceed 100% because employers could select multiple options.

Unfilled Jobs and Turnover

Teton County, Idaho, employers responding to the survey indicated that 19% of jobs were unfilled. In comparison, a lower 15% of jobs were reported unfilled by employers in Teton County, Wyoming. Prior to COVID, unfilled job rates were more typically 5% to 7% in most mountain resort communities.

Unfilled Jobs	
# jobs unfilled	1,400
% jobs unfilled	19%



Source: 2021 Employer survey, interviews

With unfilled positions, businesses struggle to provide quality services and operate profitably. This is particularly challenging post-COVID as business has ramped up combined with a tight regional job market. As shown below, the vast majority of businesses responding to the survey experienced problems related to being understaffed this past year (89%). While this problem is not new - about 56% of employers reported that they had understaffing problems prior to COVID – perhaps the most striking issue is how rapidly these problems have increased since 2018/2019. As shown in the chart below:

- Over 60% of businesses experienced problems related to employee burnout, including employees covering multiple jobs/positions, the owner working extra hours, and resulting frustrated and dissatisfied employees. A lower 20% to 50% of businesses were affected pre-COVID.
- Another 35% to 48% experienced issues related to the ability to provide quality services, including increased employee turnover, reduced level of service/customer satisfaction, and an inability to grow the business, up from 11% to 19% pre-COVID.
- About one-third had to reduce their business hours or close their doors due to being understaffed, which affected a lower 7% to 13% of businesses in 2018/19.

> *"I think this issue has only just begun. Finding staff that would stay year-round has always been a challenge, but recently, the housing situation seems to be a big issue."*
>
> *-2021 Employer survey comment*

Has your business experienced any of the following problems related to being understaffed?

Source: 2021 Employer survey

The large number of unfilled jobs is paired with additional challenges.

Low unemployment rate. Unemployment rates in the late-summer and fall of 2021 were lower than they have been in the past 20 years. Finding employees to fill jobs was a challenge prior to COVID when the unemployment rate was just below 3%.

Unemployment Rate, September, Teton County, ID

	Unemployment Rate
September 2021	1.5%
September 2001-2020 Average	2.8%

Source: LAUS

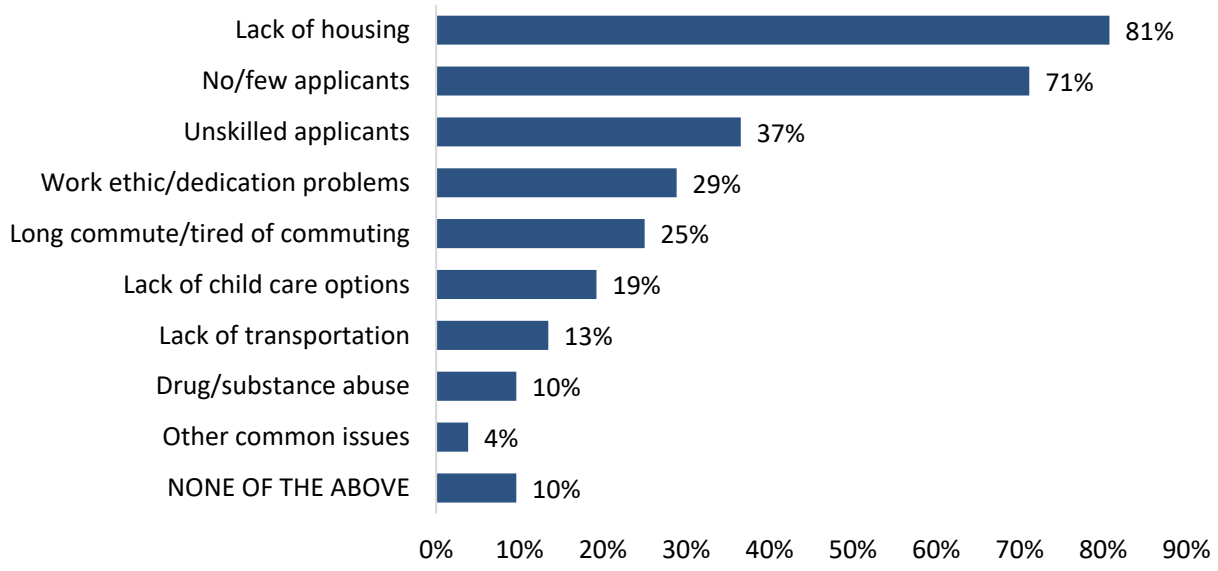
Decline in J-1 Visa[48] workers. As a result of the COVID pandemic and shut-downs in 2020, J-1 Visa workers were much less available. About 7% of employers in Teton County, Wyoming, and Teton County, Idaho, responding to the survey reported hiring J-1 employees in 2021, primarily in bar/restaurant, lodging/accommodations, recreation, and retail industries; however, fewer were hired than before the pandemic.

[48] A J-1 Visa is a non-immigrant visa for a limited duration issued by the United States to research scholars, professors and exchange visitors participating in programs that promote cultural exchange, especially to obtain medical or business training within the U.S. All applicants must meet eligibility criteria.

- In summer 2021, employers hired J-1s to fill about 2% of jobs in the region. The number hired was about 58% lower than in 2018/19.
- Employers anticipate hiring J-1s near pre-pandemic levels in 2022, helping to fill about 5% of jobs in the region.

Since the number of jobs has recovered from 2020, the lack of these workers is strongly felt. J-1 employees typically fill lower skill/lower paid positions and work multiple jobs that businesses must now recruit for locally.

Lack of and high cost of housing. Not only can new workers not find available housing, but homes that are available are too expensive for local wages. This affects the full range of vacant positions from entry-level through experienced management positions, with lower paid positions most impacted.



When employers were asked about issues they experienced when finding or keeping qualified employees:

- The lack of housing was the number one issue (81%), followed by no/few applicants (71%).
- Long commutes have also impacted about 25% of businesses, but this is more prevalent for Teton County, Wyoming, businesses (41%), for which many employees have a difficult commute over the pass.
- Lack of childcare and transportation ranked lower, but are services that can help make an employer competitive in recruitment and retention.

"Housing is the number one factor limiting my ability to bring new high paying year-round jobs to Teton Valley."

-2021 Employer survey comment

Issues experienced in finding or keeping qualified employees:

Source: 2021 Employer survey

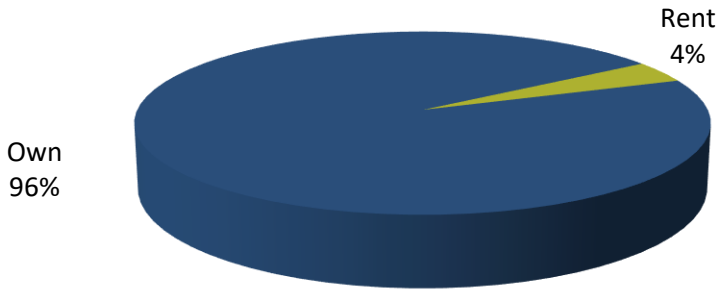
Employee turnover and difficulty recruiting. About 76% of employers in the county responding to the survey had employees leave and 78% had potential hires decline positions due to the inability to locate suitable housing in the area.

- The number of employees that left employment equates to 5% of jobs in the county; meaning 5% of jobs were vacated and had to be refilled. Candidates were found for another 12% of jobs, but declined offers of employment.
- Turnover is costly to the business. Aside from affecting business hours and operations (as discussed above), it costs money to recruit and train new employees. Some studies have estimated that it costs about 20% of an employee's salary to replace that employee[49] – costs that quickly add up with repeated turnover.

"How many people, in your estimation did not accept a job or left your employment in the past 12 months because they lacked or could not find housing they could afford in the area?"

	% of employers experiencing the problem	Average # of employees lost per business	% of total jobs in the county represented
Employee(s) left	76%	2.3	5%
Potential hire did not accept job	78%	5.7	12%

Source: 2021 Employer survey



Retiring Employees

Based on survey responses, about 15% of employees working in Teton County, Idaho, expect to retire within five (5) years. This equates to about 800 employees.

- Pending retirees tend to hold more senior positions and be skilled staff.
- Housing is a primary concern. Nearly all of employees that expect to retire have stable housing because they own their homes. Many purchased 10 or 20 years ago or during the 2007/08 recession. New employees struggle to find homes to rent and the vast majority will not earn enough to purchase.
- Some retiring employees will stay in the community. For those that decide to move, the homes they vacate likely not be affordable for the employees who follow.

[49] See, e.g., The Center for American Progress, "There are Significant Business Costs to Replacing Employees," Nov. 2012, available at: https://www.americanprogress.org/issues/economy/reports/2012/11/16/44464/there-are-significant-business-costs-to-replacing-employees/

Tenure of Employees that Plan to Retire Within 5 Years:

Source: 2021 Employee/Household Survey

Pending retirees and the aging population present potential other challenges. For retired residents that prefer to age in place, lower maintenance, smaller patio homes or attached product are often desired as residents age. The need for senior care services and life care or assisted care options will also increase. There are currently no assisted living centers or skilled nursing facilities for this population in the Teton Valley.

Chapter 4 – Housing Inventory

Housing Units – Number and Occupancy

Teton County, ID has 5,333 housing units. Housing units have been added at a rate of about 2.1% per year since 2015, which is more than twice the rate during the previous five years (about 0.6% on average).

Housing Unit Estimates, Teton County, ID: 2010 to 2021

	2010	2015	2021	2015-2021 Annual Growth Rate
Housing Units	4,561	4,704	5,333	2.1%

Source: Teton County Assessor

About 70% of Teton County housing units are occupied by resident households. The other 30% are second homes, short-term rentals, or vacant in the transition of being sold or rented. The 70% occupancy rate indicates a slight increase in occupancy since 2010. Considering the timing of the 2010 Census in the depth of the Great Recession and the 2020 Census at the beginning of the pandemic, this represents a relatively stable occupancy.

Occupancy and Tenure, Teton County, WY: 2000-2020

	2000	2010	2020 (adj.)
Occupancy Rate	79%	67%	70%

Source: 2000, 2010, 2020 Census, Teton County Assessor, Consultant Team

Types of Units

There is little diversity in the housing stock in Teton County. Housing units are predominately single-family homes (76%). About 12% of units are multi-family and 10% are mobile homes, which are typically more affordable options for local employees.

Stable rentals for local employees and a diversity of housing options for owners at different life stages are in short supply in the county. For example, apartments, unlike owner-rented single-family homes, townhomes, and condos, are not subject to being sold out from under the renter or the owner moving in and, in communities where apartments are defined as having to be rented for a minimum of 30-days or more, cannot legally be converted to short-term rental use. Increasing the diversity of housing types would support greater affordability and mobility in the market for households at all stages of life.

Source: 2019 5-year ACS

Housing unit occupancy by income level indicates the extent to which different housing types may provide "naturally occurring" affordable housing. The below table shows the type of housing units occupied by income level (AMI). The sample includes respondents that are residing in market rate housing, meaning that the table excludes respondents that are living in employer-assisted or income, employment, rent or price-limited homes. As shown:

- Households with incomes greater than 80% AMI are more likely than other households to live in single family homes and less likely to live in multi-family units.
- Households earning below 80% AMI are more likely to reside in multi-family units and mobile homes than other households.
- Accessory dwelling units predominately provide housing for households earning between 50% to 120% AMI.
- A significant percentage of households earning under 80% AMI are also currently not permanently housed, but rather couch surfing, camping, or living in a vehicle (about 110 households).

Type of Unit Occupied by AMI: Teton County, ID, 2021
Respondents Residing in Market Rate Homes

	Less than 50%	50 to 80%	80 to 120%	120 to 200%	Over 200%
Apartment or condominium	19%	16%	11%	4%	2%

Age of Units

Development in Teton County accelerated in the 2000's, when about 39% of the county's housing stock was constructed. Development slowed significantly during the 2007/08 recession, but beginning in 2015, construction has again picked up. About 55% of the housing in Teton County, ID has been built in the past 20 years.

This is different from development patterns in Teton County, Wyoming, in which the largest percentage of housing stock was constructed in the 1990's (25%), and construction slowed down in the 2000's (20% of units built).

Age of Units, Teton County, ID: 2021

Source: Teton County, ID, Consultant Team

Short Term Rentals

Short-term rental is defined as a rental period of less than 30-days. In Teton County, 18% of renters (about 180 households) responded that they were forced to move in the past three years due to direct conversion of their unit into a short-term rental.[50] The rate of displacement was lower in Teton County, Wyoming, (10% of renters), where more regulatory measures on short term rentals are (and can legally be) in place.

Short term rental permits are required in the cities of Victor and Driggs; the unincorporated county does not require permits. A snapshot Airbnb search returned 250 short term rentals in the entire county, plus those in Alta, Wyoming. This equates to just under 5% of total housing units in the county. Of these:

- There are 74 permitted short-term rentals in Driggs, with an estimated 10 to 15 more that may be unpermitted.
- Victor has 25 permitted short-term rentals.
- Tracking short term rentals in the county and supporting the use of ADUs as long term rentals are also recommended.

Many mountain communities throughout the west have moved toward increased regulation and requirements on short term rentals, if not limiting their use or banning them altogether. In Idaho, regulation is limited by House Bill 216[51], which passed in 2017. The bill bars local governments from prohibiting short-term rentals, but it does allow for regulation of short term rentals in the interest of the health, safety, and welfare of residents. The full extent of regulations that state law permits is not fully known, but some communities have adopted regulations ranging from occupancy restrictions (McCall) to a cap on the number of short-term rentals in residential zones (Sandpoint).

> *"We are facing potentially losing over half of our employees due to losing their rental housing. Each one of them is frantically seeking long term rentals. The rentals they are currently in are being turned into VRBO's."*
>
> *-2021 Employer Survey Comment*

Employer Assisted Housing

In recent years, particularly since the COVID pandemic, the ability of employees to find housing they can afford has become more challenging and employers expressed concern that people cannot find places to live. Local wages have not kept up. Employers report that turnover has been high and there is a constant need to search for and train new staff.

To improve the ability to recruit and retain employees, employers throughout the Teton Region have been increasing efforts to help employees find and afford housing. About 40% of employers in Teton

[50] See Regional Overview – Housing Problems for more information

[51] See HB 216 here https://legislature.idaho.gov/sessioninfo/2017/legislation/h0216/ for more information. Another bill, HB 511, also does not allow homeowner's associations to prohibit or restrict short term rentals unless the owner of the home being restricted agrees to it in writing; however, HOA's may assist in helping to enforce local regulations that may exist (e.g., permits, etc.).

County (including Alta) that responded to a summer 2021 survey indicated that they provide assistance with housing (21 of 53 respondents to the question). Employers assisting with housing cover the industry spectrum, including retail, recreation, construction, lodging, and non-profit.

> *Without employee housing we wouldn't be able to operate our business.*
>
> *-2021 Employer Survey Comment*

Of employers providing help with housing:

- The most frequent type of assistance is employer-owned and employer-leased units rented to or provided as compensation to employees, amounting to about 276 beds;
- Another 15 beds are provided as temporary or relocation housing;
- A few companies offer an employee housing stipend ranging from about $400 to $1,200 per month.

When asked how providing assistance has impacted their business, respondents acknowledged the financial impact ("expensive," "reduced profitability," "made our rates higher"), but that it helps to retain qualified, trained, and trusted staff and a "happy crew."

For employers that do not provide housing assistance, the primary reason was that they cannot afford to provide assistance (53%). Only 3% indicated that assistance is not needed for their employees. Among other reasons provided include corporate limitations and "researching building."

Employer Reasons for Not Providing Housing Assistance to their Employees	
Cannot afford to provide housing or housing assistance	53%
I prefer to pay higher wages instead	38%
Do not want to be in the housing business	31%
Do not have the expertise or knowledge to help with housing	31%
Housing is the employee's responsibility	28%
Housing assistance is not needed for our employees	3%
Other	7%

Source: 2021 Employer Survey, consultant team

Sixty-six percent (67%) of employers indicated that they would be interested in providing assistance in the future. When asked what would encourage or help them provide housing, about one-half indicated that partnerships and matching grants would help. Another 38% would find benefit in joint participation with other employers.

> *We are actively considering how to mitigate this risk and are interested in learning more about our options moving forward.*
>
> *-2021 Employer Survey Comment*

With the wide range of experience and activity in the county by employers in trying to help address employee housing issues, opportunities to partner and learn from each other are ripe to continue to boost effectiveness.

What would encourage or help you to provide housing or housing assistance?	
Partnering with government, private, or non-profit entities	50%
Matching grants	48%
Opportunities to participate with other employers	38%
Low cost loans	28%
Technical assistance	14%

Redevelopment

Over the past five years, nine mobile homes in Victor were either relocated or demolished due to redevelopment of the property they were on. Tracking demolition and redevelopment and comparative price points of replacement units would help understand the net growth or loss of housing over time.

Pending Development

While development since 2010 was down from the previous decade, recent activity indicates the beginning of another strong building cycle. The Teton County Assessor shows about 71 units added per year since 2010. However, the annual rate of production is likely to see a major jump this coming year, as there are over 600 units with pending, approved, or issued building permits.

Units with Pending, Approved, and Issued Building Permits, Teton County, ID

	Teton County, ID
Single Family	391
Multifamily	95
Accessory Dwelling Unit	67
Manufactured/Mobile Home	55
Total	608

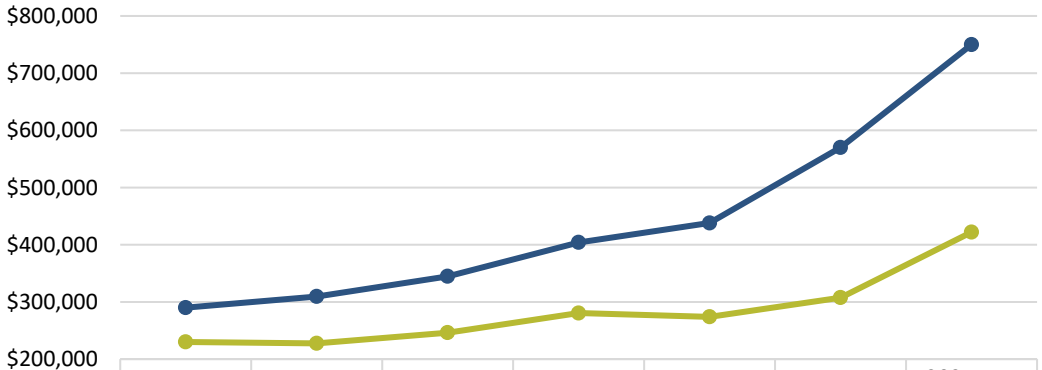
Chapter 5 – Housing Market

This chapter evaluates how key aspects of the housing market in Teton County, Idaho, have changed in recent years. It provides an overview of:

- Home sale and rental prices,
- Recent and current availability of homes,
- The affordability of homes to local residents and employees, and
- Real estate agent and property manager observations about housing market changes in the past 20 months during the COVID-19 pandemic.



Home Ownership Market

Price Trends (2015 to October 2021)

Real estate prices have escalated over the past few years to levels that are unaffordable to most local residents and employees.

- The median sale price of attached product during the first ten months of 2021 was $422,000 and $750,000 for a single family home.
- Median sale prices have been rising an average of 14% per year since 2015 for single family homes and 6% for attached condominiums and townhomes. From 2020 to 2021, median sale prices jumped 32% and 37%, respectively.

Teton County Idaho Median Sale Prices: 2015 to October 2021

	2015	2016	2017	2018	2019	2020	2021 YTD [1]
Single Family	$290,000	$309,500	$344,750	$404,000	$438,000	$570,000	$750,000
Attached	$230,000	$227,500	$246,250	$280,500	$274,000	$307,500	$422,000

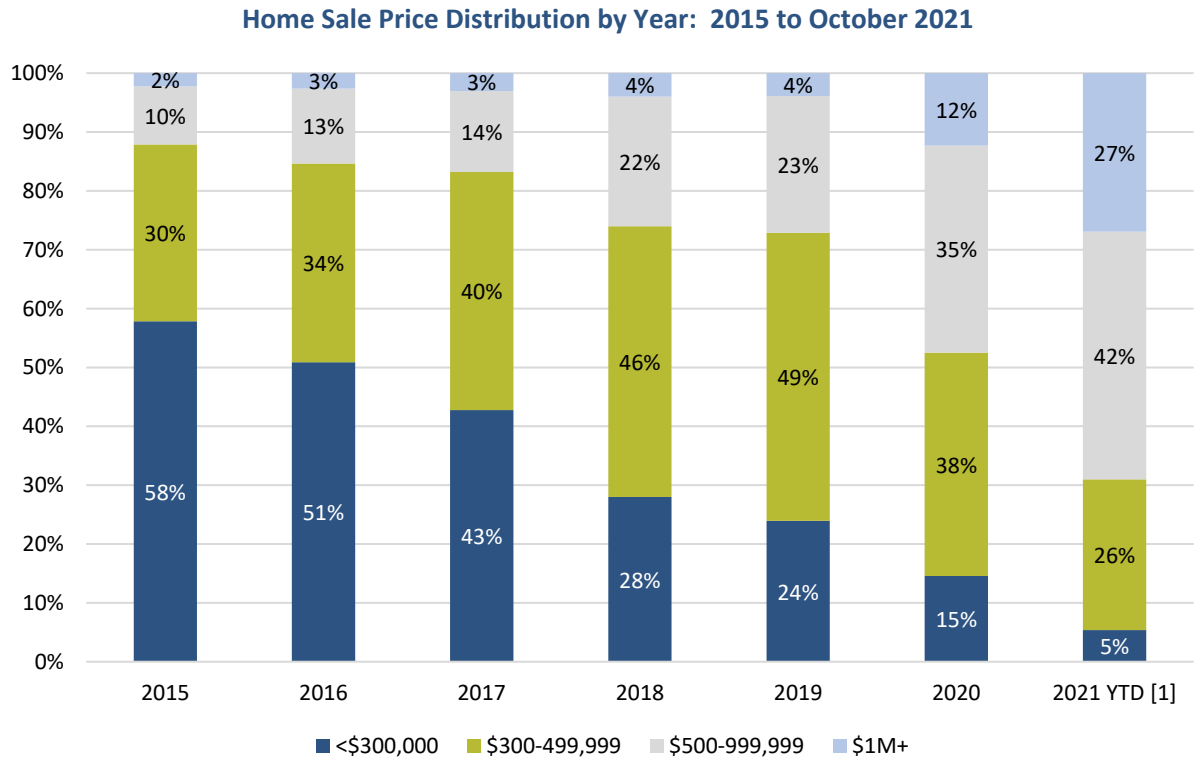
Note: inclusive of sales with a known price greater than zero
[1] last sale on Oct 29, 2021
Source: MLS, consultant team

Price Per Square Foot

The annual average sale price per square foot from 2015 through 2020, and sales through October 2021, also shows significant increases.

- From 2015 to 2020, the price per square foot for both single family homes and attached product increased by 12% and 6% per year on average, respectively.
- The average price per square foot of single family homes sold in the first ten months of 2021 increased by 39% over the 2020 average. The increase for attached product was 41%.

Price increases far exceed the change in local average wages (4.9% per year) or median household incomes (3.7% per year) since 2015, meaning that affordability for locals is eroding.



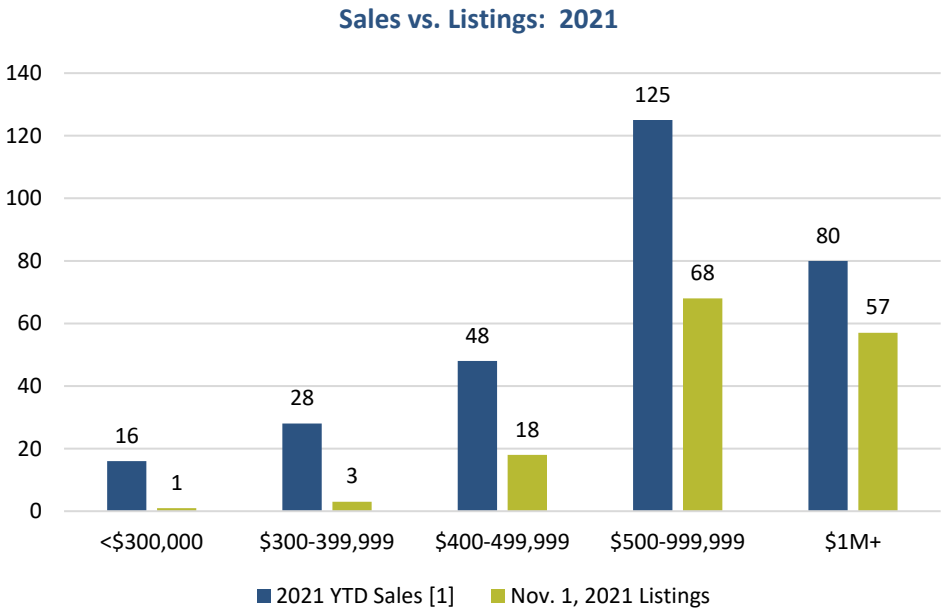
Average Sale Price Per Square Foot: 2015 to October 2021

	Single Family	Attached
2015	$164	$173
2016	$177	$190
2017	$185	$169
2018	$215	$188
2019	$227	$214
2020	$291	$231
2021 YTD [1]	$405	$326
CAGR 2015-2020	12%	6%
% change 2020 to 2021 YTD [1]	39%	41%

Note: inclusive of sales with a known price greater than zero
[1] last sale on Oct 29, 2021
Source: MLS, consultant team

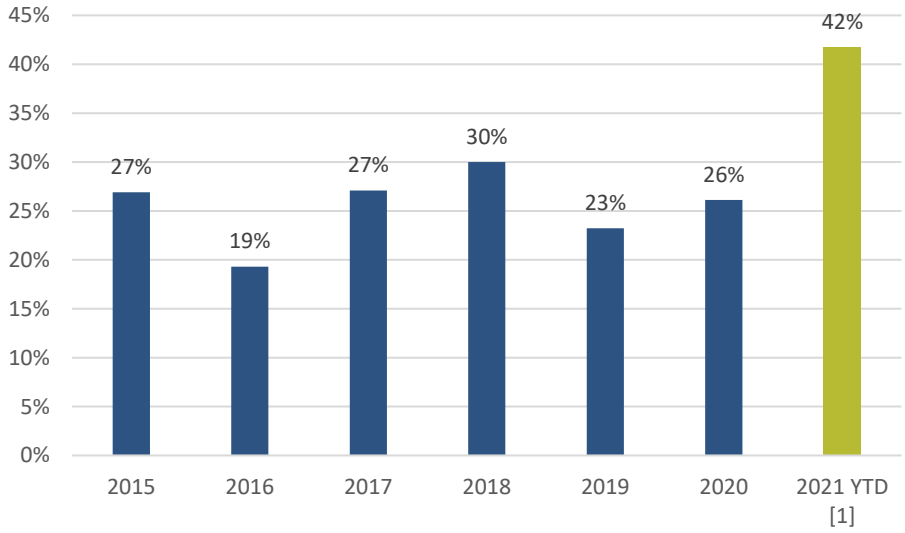
Homes for sale under $300,000 have basically disappeared from the market in recent years, and, over the last two years, homes priced between $300,000 to $500,000 have declined significantly.

- The share of sales under $300,000 fell from 58% in 2015 to 5% in 2021 – a drop of 53 percentage points. Beginning in 2020, 75% of sales under $300,000 were attached product.
- The share of sales between $300,000 and $500,000 fell from 49% in 2019 to 26% in 2021. The option of finding homes for $500,000 or less in the Teton Valley is quickly disappearing.



Note: inclusive of sales with a known price greater than zero
[1] last sale on Oct 29, 2021
Source: MLS, consultant team

Availability



A general industry standard is that when the number of homes available for sale is below a 6-month supply, it is a seller's market – meaning that there are more buyers than homes available to purchase, resulting in rising prices.

Teton County is in a seller's market, and an extreme one for homes priced under $500,000. The number of homes listed in November 2021 shows an average supply of 4.4-months. For homes priced under $500,000, supply drops to 1.3-months. For homes above $500,000 there is a decent amount of supply, representing 7.9 months of inventory.

[1] last sale on Oct 29, 2021, inclusive of sales with a known price greater than zero
Source: MLS, consultant team

Not only is housing scarce, but the percentage of cash sales increased significantly in 2021, adding to the challenges for local residents to compete for homes. As shown below, cash purchases comprised an average of 25% of sales from 2015 through 2020, rising to 42% for sales through October 2021.

Note: inclusive of sales with a known price greater than zero
[1] last sale on Oct 29, 2021
Source: MLS, consultant team

Local Workforce Affordability

The scarcity of homes for sale poses a challenge to all buyers, regardless of income. It is a more significant challenge, however, for local residents and employees. The majority of residents who own their home earn between 80% and 200% AMI (60%); only 13% earn above this level. Homes priced from about $600,000 to $780,000 may be of interest to some commuters from Teton County, Wyoming, where wages are higher, but most Teton Valley residents need lower priced homes.

> *There is nothing affordable. We were lucky and we're able to purchase our home from our landlord before the market skyrocketed. Would be impossible to move within the valley now.*
>
> *-2021 Employee/Household Survey Comment*

- Only four homes were listed for sale under $400,000 at the start of November 2021; homes in this price range are now essentially non-existent.
- With only 18 homes for sale in the $400,000's and 85% of listings over $500,000, the option to buy a home is increasingly out of reach for the local workforce.

Affordability of Current Listings Compared to Average Household Income

AMI	Max Affordable Price (3-person household) [1]	Owner Household Distribution	Nov. 1, 2021 Listings: Single Family	Nov. 1, 2021 Listings: Attached
0-50%	$142,900	14%	0%	0%
50.1-80%	$228,500	13%	0%	0%
80.1-100%	$285,900	9%	1%	0%
100.1-120%	$343,000	13%	0%	6%
120.1-150%	$428,800	14%	3%	9%
150.1-200%	$571,700	24%	8%	53%
200.1-300%	$1,029,100	6%	39%	31%
>300%	>$1,029,100	7%	49%	0%
Total	-	100%	115	32

Note: percentages may add to more/less than 100% due to rounding

[1] Max purchase price assumes 30-year mortgage at 4.5% with 5% down and 20% of the payment covering taxes, HOA, PMI and insurance.

Sources: HUD, Ribbon Demographics, LLC, MLS, consultant team

Changes over past 20 months (Realtors)

Since March 2020 when COVID-19 was declared a pandemic, the for sale housing market in Teton County has changed dramatically. Interviews with local real estate agents and property managers provided additional insight about recent changes.

- The number of people moving to the area outpaced the historical rate and more buyers are from out of the area. The estimated split of local to out of area buyers is now 50/50.

- Households from outside of the region bought second homes to use as a safe haven to ride out the pandemic. Most intend to rent them short- or long-term when not occupying them.
- To stay in the region, some in the Jackson/Teton County, Wyoming market sold their homes and used the proceeds to buy a home on the Idaho side of the pass, many paying cash.
- Land prices have surged. For example, the price of a lot in the Town of Driggs has roughly tripled.
- Interviewees repeatedly used the term "panic buying" to describe the mindset of current buyers.

Rental Market

Rent Trends and Local Workforce Affordability

In the 2014 housing needs assessment,[52] survey respondents from Teton County reported paying an average of $763 per month for rent. In 2021, this increased 83%, or an average of 9% per year, to $1,402. The average rent that residents report paying is still substantially lower than that reported for advertised rentals in November 2021, which was nearly $2,500. These figures indicate how quickly rents have been increasing in Teton Valley.

> *Rent just keeps skyrocketing. So we have to stay here in a cold dark basement.*
>
> *-2021 Employee/Household Survey Comment*

Local property managers stated that some units have increased up to 60% since the pandemic began, indicating that much of this rent increase has occurred in the past few years. The rate of increase depends upon home type, condition, location, and if the lease is being renewed by an existing tenant or a new tenant is moving in. Rents for existing tenants have tended to increase less than new leases over the past 20 months. This is also illustrated by the lower rent rates reported by respondents to the survey compared to advertised rentals and market rents reported by property manager in the below table. In addition:

- Current renters in the county need an income of about $56,000 on average to afford the overall average rent (about 82% AMI). Advertised rentals, which is what new households coming to the Valley are likely to find, require a household to earn 144% AMI on average, or an income of $99,000 for a 3-person household.
- As rents rise, locals increasingly need to find roommates to afford rent, regardless of household type. This means families bringing in more family members, friends, or unknown roommates to cover rent.

> *We have our adult children with good paying jobs living with us because they cannot find affordable housing in the area.*
>
> *-2021 Employee/Household Survey Comment*

[52] See Western Greater Yellowstone Area Housing Needs Assessment, 2014, by Rees Consulting, et al., Teton ID section, p. 18.

- Property managers interviewed indicated that the rental market has generally been capped at about $2,500 per month for locals. As rents rise above this, more roommates are needed, which many landlords seek to avoid.

Rent Prices by Bedroom Size: 2021

	0/1-bedroom	2-bedroom	3+-bedroom	Overall Avg.
Property manager interviews	$800-$2,200	$1,000-$2,800	$2,500-$3,300	$1,000-3,000
October-November 2021 average listed rent	$1,141[2]	$2,550	$3,311	$2,474
2021 Employee/household survey responses	$1,184	$1,322	$1,626	$1,402
AMI affordability of advertised rent[1]	75%	148%	193%	144%
Income needed to afford advertised rent	$45,640	$102,000	$132,440	$98,960
Number of average wages needed to afford rent	1.1	2.5	3.3	2.4

[1]Note: calculation assumes 2 people in a 0/1 bedroom unit and 3 people in 2- and 3-bedroom units
2 Several 0/1 bedroom unit advertised are actually rooms, some with a shared bath. When rooms are removed, the average cost rises to $1,324, affordable for a household earning 87% AMI
Source: Property manager interviews, online rental listings (Teton Valley News, JH News, Craigslist, Facebook, Zillow, Hotpads, Apartments.com), consultant team

The high and rising rents are driven by the extreme shortage of rentals and strong demand. The pandemic brought a wave of remote workers, which property managers noted are able to pay much higher rates than local wages can support. This is paired with the continuing demand from workers in Teton County, Wyoming, where average wages paid are higher than in Idaho.

Our housing prices and rents are dictated by Jackson, however, our wages are being dictated by Idaho, which does not pay good wages. These two influences contradict each other.

-Property manager interview

As shown below, rents paid by households that commute out for work pay about 10% more on average for rent than residents in the Valley in total. Particularly in a tight rental market, the ability to pay more is a competitive advantage. The competition has forced some locals to leave the area. Workers are increasingly relocating to Ashton, St. Anthony, and Idaho Falls because units are more available and affordable.

Rents Paid by Bedroom Size: Residents that Commute Out for Work, 2021

	0/1-bd	2-bd	3+-bd	Overall Average
Commute out for work	$1,256	$1,536	$1,689	$1,537

Source: 2021 Employee/Household Survey

Availability

As a general rule, vacancy rates at or below 3% are very low, double-digit vacancy rates are very high, and a vacancy rate of around 6% that is trending downward typically indicates to developers that construction of additional units should begin.

A search for advertised rentals over a two month period from October to November 2021, only produced 21 rental listings. This is equivalent to a 1.1% vacancy rate per month. This low vacancy rate was confirmed by property managers who noted that:

- Near or zero vacancy is not new to Teton County, having been commonplace for the past eight years.
- During the pandemic, one big change is that adjacent counties like Fremont and Madison also experienced extremely low to zero vacancy, meaning the option of moving further away to find lower cost rentals proved challenging.
- Units in the county are filled in a matter of hours or days, mostly by word of mouth. Property managers do not need to advertise. Competition is fierce.
- Turnover used to be more tied to seasonal changes when Grand Targhee opened or closed. Now units typically only turnover when rents are raised significantly (e.g., $1,750 to $2,800), displacing existing tenants for new ones.

When vacancy rates are this low, the rental market is near capacity and cannot absorb new residents or employees moving to the area. This results in several issues:

- Renters have difficulty moving from one unit to another as their circumstances change;
- Renters are vulnerable to increasing levels of cost burden, because there is nowhere to move to if the landlord seeks to increase their rent;
- Renters fear reporting needed repairs to landlords due to concerns of retaliation through rent increases or nonrenewal of lease;
- New employees struggle to find housing when hired by local businesses;
- Rents increase at rates much faster than incomes; and
- Landlords have little incentive to make repairs and capital investments.

Chapter 6 – Housing Program Accomplishments and Challenges

The purpose of this chapter is to capture what has been accomplished in Teton County with regard to community housing production and programs. Particular focus is on changes seen since the 2014 housing needs assessment was completed. This section reviews subsidized housing inventory, projects in the works, and structures and organizations in place to help facilitate more housing options for local residents and employees in the Teton Valley.

Deed Restricted/Subsidized Inventory

The deed restricted and subsidized housing inventory has not grown since the *2014 Housing Needs Assessment*, but several building blocks are in place that will enable future growth and creative solutions.

Teton County, ID has three income-restricted, subsidized apartment complexes, providing a combined total of 88 restricted units.[53] Most of the units (63) are restricted for very low income households (≤ 50% AMI) with 25 serving households with incomes up to 60% AMI. The 88 restricted units house 9% of the county's households. Affordability restrictions on 74 of the units will expire in 2040 and 2042.

Two of the properties, Fox Creek and Teton View, are family oriented. These properties offer two- and three-bedroom units and are in good condition. They were constructed in 2000 and 2002 utilizing Low Income Housing Tax Credits (LIHTC).

Teton Court is 42 years old. It has one-bedroom units located in a single building and was constructed with Rural Development financing. Residents pay 30% of their income for rent.

Teton County, ID Subsidized Housing Inventory

Project Name	Location	Total	Bedrooms			AMI			Subsidy
		Units	1	2	3	≤50%	51 – 80%	Mkt	Type
Fox Creek	Driggs	32		10	22	16	8	8	LIHTC
Fox Creek II	Driggs	24		20	4	12	7	5	LIHTC
Teton View Village	Victor	32		12	20	21	10	1	LIHTC
Teton Court Apts	Driggs	14	14			14			RD
Total		**102**	**14**	**42**	**46**	**63**	**25**	**14**	

Source: 2014 Housing Needs Assessment

There are no owner-occupied housing units in Teton County, ID with restrictions that make them affordable for the workforce over time. But, the 2021 T*eton County Joint Housing Authority Supply Plan* outlines a robust pipeline of potential additional income restricted housing, both for sale and for rent.

[53] The complexes have 102 units total, including 88 that are income and rent restricted and 14 that are market rate or on-site manager units.

Waitlists

Fox Creek has a waitlist of at least three years, with only about two units opening each year. The program manager reported the longest wait is for two-bedrooms.

Teton Court only has a waiting list of one person, however, there is very little turnover in residents.

Loss of Units

No deed restrictions have been lost since 2014, however, extensive loss of naturally occurring affordable housing is occurring in the community, as documented elsewhere in this report. Much of that loss occurs through incremental changes, such as price appreciation of single-family homes and long term rentals converting to short term rentals. Two recent events illustrate larger market impacts:

- Grand Targhee lost a master lease for employee units in Driggs in 2020.
- The expansion of the Teton Valley Resort in 2021 displaced nine households in the Rockin' H Mobile Home Park in Victor. These households had been paying lot rent of $500/month.

Housing Programs in Operation

The **Eastern Idaho Community Action Partnership** provides a weatherization program which covers energy efficiency measures, health and safety improvements and repairs in 10 counties, including Teton.

- The program is available to homeowners and renters with incomes no greater than 200% of the poverty level. Priority is given to individuals over 60 years of age, families with children under 6 years of age, and persons with disabilities.
- The wait list has 17 applicants (excluding multi-family), and applicants will need to wait about three years to receive assistance.
- In the past five years, 11 Teton County households received weatherization assistance. The last weatherization contract averaged $11,715; almost double the average in 2014.

Community Resource Center of Teton Valley provides numerous services, including assistance with applications for rentals and housing assistance programs, help searching for available rentals (online inventory updated weekly), assistance resolving minor issues with landlords, and referrals to temporary housing shelters in Jackson and Idaho Falls. In addition, emergency rental assistance, energy assistance, and financial assistance with rent, utilities and/or security deposits are also available.

More resources for renovation and weatherization in the valley could help community members live more affordably and in healthier conditions. Investing local resources in these programs could create greater flexibility in who is served and enhance the housing inventory to be sustainable for the long term.

Proposed Additional Inventory

The city of Driggs has contributed land and infrastructure for a LIHTC funded rental project in downtown Driggs called Depot Square. The project has received a LIHTC allocation and is in the final stages of predevelopment with construction start anticipated in spring 2022.

- Depot Square will provide 30 units, serving households from 30-60% AMI, with one market rate unit for a property manager and three market rate live-work units. The project will also include four business incubator spaces on the ground floor.
- Total project cost is projected to be $9 million. The project developer is Northwest Capital Partners, an experienced LIHTC development group based in Boise, Idaho.

Chapter 7 – Housing Resources, Opportunities and Constraints

This chapter summarize the resources available in the community, including land, funding, and development opportunities and challenges to set the stage for the next phase of policy discussions and action planning in the Teton Valley.

Government Owned Land

Identifying land and providing it at low or no cost can be a highly effective strategy for catalyzing community housing, as demonstrated by Depot Square. The *Teton County Joint Housing Authority Supply Plan* was completed in 2021 and focused on vacant government-owned lands within the cities of Driggs, Victor, and Tetonia that might be suitable for housing. Suitability was ranked based on access to transportation, retail and services, employment, walkability, zoning, and presence of infrastructure. The three highest priority sites that emerged from this process are:

1. Sherman Park site, owned by the city of Victor: the city has entered into a Memorandum of Understanding with the Joint Housing Authority to lease this 3.39-acre site for an affordable housing project.
2. Road & Bridge remnant site, owned by Teton County: the county has leased this site to the Joint Housing Authority, creating the opportunity for additional affordable housing.
3. Courthouse Parking Lot remnant site, owned by Teton County.

These sites, in combination with five lower priority sites under both public and private ownership, could yield as many as 391 homes.

The primary strategy in the Supply Plan is prioritizing publicly owned sites to catalyze the types of housing needed in the community. The Plan provides a helpful roadmap, setting the priority sites based on their suitability for housing and exploring what types of housing could serve the community.

Taking the land cost out of the development proforma is a helpful start to creating affordability; however, in the current construction environment, this alone will not be sufficient. Public/private partnerships, staff capacity at the Housing Authority, and local funding sources to fill additional cost gaps will be essential for success. Part of this includes continuing to secure land for future public/private partnerships to place the community in a good position to respond to housing needs over the long term.

Guiding Policy Documents

Affordable Housing Strategic Plan

In 2017, Teton County and city of Driggs, City of Tetonia and Victor created a technical advisory group (TAG) to recommend housing strategies to address needs not being met by the market. This group created the *Affordable Housing Strategic Plan* (AHSP), which was adopted by Teton County, city of Victor, and city of Driggs and city of Tetonia in late 2019 and early 2020. The AHSP goal is:

"To facilitate the development of diverse, permanently affordable housing options within city limits that will support public service agencies, enhance the local economy, add vibrancy to downtowns and help preserve the rural character of the area."

The Plan has prioritized tiers of strategies and assigned implementation steps. The plan also includes discussion of organizational needs and funding opportunities. This plan is an excellent accomplishment and encompasses almost all of the recommendations set forth in the *2014 Housing Needs Assessment*.

Figure 4: Affordable Housing Strategy Evaluation Matrix

CATEGORY	STRATEGY	OWNERSHIP / RENTAL	AMI CATEGORY	LEVEL OF IMPACT	COST / EFFORT	TIME FRAME
Public-Private Partnership	**LIHTC or USDA Direct Loan Project**	Rental	<60%	High	High	3 Years
Public -Non-Profit Partnership	**Habitat for Humanity / Self-Help Housing**	Ownership	<50%	High	High	5 Years
Public	**New Development Incentives**	Both	<120%	High	Medium	1 -2 Years
Public & Non-Profit	**Promote Existing Development Opportunities & Incentives**	Both	<120%	Medium	Low	1 Year
Public	**Development Exactions**	Both	<80%	Medium	Low	1 Year
Public or nonprofit	**Renter's Deposit Loan Program**	Rental	<80%	Medium	Medium	1 Year
Public	**Employer-Assisted Housing**	Rental	<120%	Medium	Medium	1-2 Years
Public-Private Partnership	**Local Buyer Pre-Listing Network**	Ownership	Market	Medium	Medium	1Year
Public or Non-Profit	**Home Buyer/Renovation Education**	Ownership	<120%	Low	Low	1 Year
Non-Profit	**Emergency Shelter Transportation**	N/A	<50%	Low	Low	1 Year
Public or Non-Profit	**Weatherization**	Both	TBD	Low	Low	2 Years
Public or Nonprofit	**Down Payment Assistance**	Ownership	<100%	Low	Medium	2 Years
Public	**Evaluate Short-Term Rentals**	Rental	Market	Low	Medium	1-2 Years

Public – Private Partnership	**Cooperative Housing Project**	Ownership	<120%	Medium	High	5 Years

TIER I STRATEGIES
TIER 2 STRATEGIES
TIER 3 STRATEGIES

Source: page 12 - https://www.tetoncountyidaho.gov/use_images/pdf/additionalInfo/tetoncountyidahoaffordablehousingplan-2-12-2019.pdf

This is a strong plan that follows best practices for housing action planning.

- It was created by a cross-disciplinary group with local expertise and is grounded in market research, demographic data, and prior studies.
- It directs development activity towards incorporated areas with existing services, infrastructure and jobs, to reduce spawl and conserve the rural character of the unincorporated county.
- It takes a multi-faceted approach to housing solutions, looking at regulations, incentives, development, and preservation of inventory.
- It seeks to address the broad spectrum of housing needed for a functional housing market and the diverse demographics that serve a vibrant local economy.
- It recruits participation in solutions across public, private, and non-profit sectors.
- It has recent, buy-in from local elected officials, with adoption by all four jurisdictions.

Implementation of the AHSP is underway. The first priority in Tier 1 has been the highest priority and is coming to fruition with the Deport Square development.

We recommend continuing to implement the strategic actions. The creation of the Teton County Joint Housing Authority and hiring of an Executive Director will add capacity for implementation. Pairing with this is the need to pursue dedicated local funding sources and the public/private partnerships anticipated in the Supply Plan.

Teton County Joint Housing Authority Supply Plan

The Teton County Joint Housing Authority Supply Plan charts a path to help produce 390 homeownership units based on needs identified in the 2014 Housing Needs Assessment. This plan prioritizes a mix of public- and private-owned parcels within the three municipalities that are suitable for housing.

Local Funding Sources

With the increasing gap between the cost to buy, build, and rent and what locals can afford, local funding sources for housing are increasingly important. Local stakeholders are aware of the need to establish a local funding source. The AHSP outlines several prospective sources and the Housing Authority is exploring which options will be most viable. Tools that are currently in place include:

- Private Philanthropy – the Housing Authority has been successful in raising funds to support the new Executive Director position.
- Lodging and Short Term Rental Sales Tax – Both Driggs and Victor collect a lodging tax on hotel/motel and STR stays, and have the ability to use some of the revenue for affordable housing.
- Local government match – Driggs, Victor, and Tetonia are providing funding for Housing Authority operations, and the city of Driggs has provided interim staffing.
- Government owned land and infrastructure, described above.
- Low Income Housing Tax Credit – has been secured through Idaho Housing and Finance Authority to build 30 units in 2022.

- State and Federal Funds – the Housing Authority is also keeping a close eye on funding that might be available through ARPA or other State and Federal actions. There is a draft bill in legislation that proposes to create a state level Housing Fund of about $50 million that would fund workforce housing and help to unlock other state and federal resources.

Development Environment

City and County development requirements, zoning, incentives, and fees all contribute to making housing development more or less affordable to local residents and workers. The summary of tools provided in Appendix B outlines what is currently in use, and where potential improvements could be made to reduce development costs and support development of housing for residents and workers. In general, Driggs and Victor have adopted many best practices for encouraging community housing. Tetonia has policy statements in their Comprehensive Plan supporting housing, but has yet to implement those actions in their code.

Cost of Residential Development

The cost to build residential units has increased dramatically since the Affordable Housing Strategic Plan was prepared in 2019, posing a significant constraint to building housing that the local workforce can afford. The cost to develop housing varies by multiple factors, including location, target demographic, density, and product type. In addition, many costs are in flux and still rising, meaning that prices estimated today will be outdated in the near future. The information below, however, provides a general cost of residential development in Teton County, and illustrates the rising trend.

Cost estimates were obtained through a combination of information in the 2019 Affordable Housing Strategic Plan and through recent interviews with local developers and contractors. Based on discussions, the challenge to build affordably in the area has never been greater. These challenges include high land, labor, and construction materials costs, increasing the gap between cost to build and what local wage earners can afford. As shown in the table below:

The estimated cost to develop has increased significantly since 2019.

- Hard costs (materials and labor) have increased from about $150 per square foot in 2019 for a 1,400 square foot single family home to an estimated range of $225 to $275 per square foot for a multi-family or single-family product that would be starting today. This represents at least a 50% rise in hard costs in just a few years.
- Because costs are continuing to rise, local developers recommend adding a 15% escalator going forward.
- In comparison, developers and contractors who are primarily working in Teton County, Wyoming report that a townhome or multifamily product with medium end finishes ranges from $375-$450 per square foot, which includes materials and labor only (i.e., land, soft costs, site

> *"We have seen lots of turmoil in the material costs over the past 2 years. We have been told to anticipate the following in 2022: 30% rise for drywall, 10% for electrical, and 15% for HVAC. Lumber is going to be the biggest problem."*
>
> *-Developer interview*

work, and development management are excluded). In their experience, working in Teton County, Idaho, is only nominally more affordable to build than in Teton County, Wyoming, as all contractors are competing in the same regional labor and materials pool.

Estimated Cost of Construction, 2014 to 2021

	2014 Plan	2019 Affordable Housing Strategic Plan	Depot Square Estimates	2021 Estimate
Price per square foot	$145-$199	$150	$200	$225-275
Type	Single Family	Single Family	Multifamily	Both
Price includes	Home price - "all in" including land, construction, soft costs, profit	Hard costs only, labor and materials	Hard costs only, labor and materials	Hard costs only, labor and materials

Sources: 2014 Housing Needs Assessment, developer/builder/stakeholder interviews, consultant team

Assuming the cost to construct is $250 per square foot, a 1,400 square foot home now costs $350,000 to build. When land, City fees, design, financing, and developer profit are added, this home will cost in excess of $550,000 as shown below.

Cost to Build – 1,400 square foot single family home: 2021

	Assumptions	Cost
Labor and Materials (hard costs)	$250/sq ft	$350,000
Land and infrastructure [1]	$100,000 per lot	$100,000
Design, fees, financing (soft costs)	20% of hard costs	$70,000
Developer fee	10% of hard costs	$35,000
Total Development Costs		**$555,000**
Price affordable for 3-person household at the median income [2]	100% AMI,	$285,900
Gap (subsidy needed)		**$269,100**

[1] Conservative estimate. Lot prices are rising fast and vary significantly based on location, size, etc.
[2] Max purchase price assumes 30-year mortgage at 4.5% with 5% down and 20% of the payment covering taxes, HOA, PMI and insurance.
Source: consultant team

A household would need an income of about $135,000 per year (about 195% AMI) to afford it, making it unaffordable to about 85% of households in Teton County, Idaho. As a result, the market will increasingly be unable to build new housing that the local workforce can afford without involvement of the public sector, including actions like providing land.

Land Acquisition

The price of raw land is a component of residential development costs. Land costs can vary considerably, depending on the location of the parcel, zoning, and access to infrastructure. The *2021 Housing Supply Plan* provides an inventory of sites potentially suitable for housing.

> *The cost of a typical lot in Driggs has doubled or even tripled since March 2020.*
>
> *-Realtor, Builder and Property Manager Interviews*

Land costs have historically been more attainable in Teton Idaho compared with Teton Wyoming; however, costs have escalated rapidly in the past three years. Developers and real estate agents that observe development ready lots have seen prices double or triple in value. Where the 2019 Plan assumed $40,000 per lot, this is now likely at least $100,000.

Infrastructure Alignment

The *Affordable Housing Strategic Plan 2019* and the *Supply Plan* prioritize locating new housing in existing municipalities, close to existing infrastructure. Local jurisdictions can take this one step further by aligning general infrastructure improvements with desired affordable housing outcomes, for example, prioritizing expanding water and sewer capacity or upgrading streets in areas that have been identified as suitable for medium and higher density housing and mixed-use development. This can be an important step to reduce costs for projects when they become development ready.

Housing Organizations

Some of the local and regional resources available in the Teton Valley are shown below. Some are already helping to produce units, manage housing and otherwise assist residents with housing. Future collaboration with and expansion of Teton Valley resources, as well as exploring opportunities with partners throughout the Teton Region, could help expand these efforts.

Teton County Joint Housing Authority

The Teton County Joint Housing Authority was formed in 2019 by Teton County and the cities of Driggs, Tetonia, and Victor. The Housing Authority will facilitate implementation of many of the Affordable Housing Strategic Plan and Supply Plan activities.

The four jurisdictions have provided the seed money to start the agency, as well as appointing Board members and providing staff time. The Housing Authority recently secured a local philanthropic commitment for the funding for an Executive Director position. The hiring process is anticipated to begin in early 2022.

Community Resource Center of Teton Valley

The Community Resource Center of Teton Valley was formed in 2016 to help individuals and families assess their needs and connect them to housing and supportive services. Services provided include emergency rental assistance, energy assistance, and rental security deposits, among others.

Eastern Idaho Community Action Partnership

The Eastern Idaho Community Action Partnership provides a weatherization program available to both homeowners and renters with incomes no greater than 200% of the poverty level. See Chapter 6 for program details.

Habitat for Humanity

There is a need for a mission driven organization that can provide homeownership opportunities at price points affordable to the local workforce and other residents. Currently, there is no active Habitat for Humanity affiliate working in the valley, or other similar non-profit. Habitat for Humanity of the Greater Teton Area considers Teton County, Idaho, to be in its service area, but is not currently working in the valley. If that affiliate or the Idaho Falls Area Habitat for Humanity were willing to extend their geographic reach and/or services to the valley, it could be a tremendous benefit. If this is not an option, we recommend having the Housing Authority lead affordable for sale development or establishing another entity with that mission.

Chapter 8 – Housing Units Needed

This section addresses the question:

> *How many additional housing units are needed to address housing deficiencies for residents and support the labor force needed to sustain businesses and the economy.*

Needs are projected through 2027 and quantified in two categories:

- Catch-Up Needs – the number of housing units needed now to address current deficiencies in housing based on employees needed to fill unfilled jobs and the number of units needed for a functional rental supply.
- Keep-Up Needs – the number of units needed to keep-up with future housing demand through 2027 based on job growth and jobs vacated by retiring employees. Housing shortages worsen when local job growth and the need for more workers exceeds the growth in available housing units.

This section estimates housing units needed to support employers, keep up with future job growth and improve housing options for area residents based on information presented in other sections of this report. Estimates are a subset of the total demand for housing in the county. Estimates do not include current waitlists for housing, overcrowding, or households that will be forced to leave due to housing conditions.[54] Nor do figures represent the entire housing market – remote workers or retirees moving in from elsewhere, second homeowner purchases, and other market segments, which are outside the scope of this analysis.

Catch-up Needs (Current Conditions)

Unfilled jobs

Labor is in short supply, both locally and nationally. In such a competitive environment, the near-zero rental vacancy rates, and high and rising home prices and rents, make it even more difficult to attract the already scarce labor pool to the area. Eighty-percent (80%) of employers stated that the lack of housing affected their ability to find and keep employees. More housing that local employees can afford is needed for businesses to hire and retain the workers they need to thrive.

Employer survey respondents reported that 19% of jobs were unfilled this summer, which is high and has been affecting business operations and employee satisfaction. Because 100% of jobs are rarely filled, the following estimate seeks to lower the unfilled job rate to 5%, which was more typical prior to the pandemic.

About 80% of employees reside in the Teton Region. If this pattern is maintained, then the number of homes needed locally is about 335 to bring the current 19% unfilled job rate down to a 5% rate.

[54] See Regional Overview – Housing Problems

Units needed to help fill jobs	
A. Current unfilled jobs (19%)	1,400
B. Reduced unfilled jobs (5%)	360
Jobs to fill (A – B)	1,040
Jobs per employee	1.3
Employees per household	1.9
Housing units needed	420
% of employees living in the Teton Region	80%
Housing needed for Teton County, ID, employees to live in the Teton Region	335

While this catch up need is important to understand for relieving current business employee shortages, much of this figure is also incorporated in the estimate of future job growth. This potential for double-counting is addressed in the summary of housing needs later in this section.

Functional Rental Supply

The current rental supply in the county is not functional because vacancies are below 1%, placing substantial upward pressure on rents. When vacancy rates are this low, the rental market is near capacity and cannot absorb new residents or employees moving to the area, much less provide opportunities for current residents to find more suitable rentals as their housing needs change. Renters are "stuck" in their homes, and subject to burdening rent increases.

- A 5% vacancy level, while still low, provides some choice and availability of units for residents and employees. To increase the vacancy rate to 5%, approximately 50 additional rental units are needed.
- To also provide housing for persons who are now camping or living in motel rooms would require about 120 additional units.

Rentals Needed for a Functional Market	
Total rentals (2021)	990
Number of rentals if 5% vacancy rate	1,040
New rental units needed	50
Units needed for unhoused persons	120
Total rentals needed	170

Future (Keep-Up) Needs

Retiring employees

Employers will need to fill the jobs vacated by retirees in addition to any newly created jobs. Some retirees will leave the area upon retirement; however, when they sell their homes, the majority will be purchased by second-home owners or remote workers rather than local employees.

About 15% of employee/household survey respondents that work in Teton County, Idaho, stated they expect to retire over the next five years. Assuming that 80% of retiree homes will not be available to new employees filling vacated jobs, 335 homes will be needed to house employees filling jobs vacated by retirees.

About 80% of employees reside in the Teton Region. If this pattern is maintained, then 265 homes are needed within the Region.

Retiring employees	
% to retire by 2027	13%
# to retire	3,200
Employees per household	1.9
Total housing units	420
Needed housing units (80%)	335
% of employees living in the Teton Region	80%
Housing needed for Teton County, ID, employees to live in the Teton Region	265

New Jobs

To keep up with estimated job growth over the next five years (2,284 new jobs), approximately 920 additional housing units will be needed. Because the regional nature of this study focuses on the Teton Region as a whole, the below estimate shows how many housing units are needed to keep new workers in the Region based on current commuting patterns. The next section shows how many of these units may be needed in Teton County based on various assumptions.

About 80% of employees reside in the Teton Region. If this pattern is maintained, then 730 homes are needed locally.

Estimated Housing Needed by the Workforce Filling New Jobs, 2021 – 2022

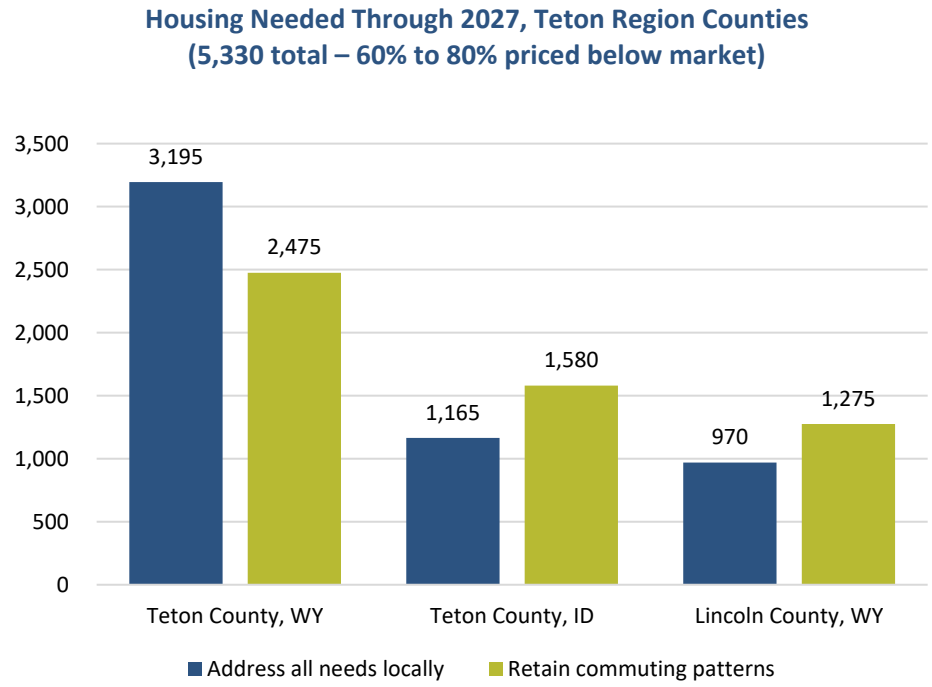
	Low
Increase in Jobs between 2021 to 2027	2,284
Jobs per Employee	1.31
Employees per household	1.9
Housing needed	920
% of employees living in the Teton Region	80%
Housing needed for Teton County, ID, employees to live in the Teton Region	730

Regional Distribution of Catch-Up and Keep-Up Needs

Based on estimated catch-up and keep-up needs in Teton County through 2027, an additional 1,165 housing units will be needed. The number of housing units needed in Teton County will vary depending upon whether the total housing need is provided locally, or if current commuting patterns within the

Teton Region are retained and units are constructed based on where employees presently live. As a bedroom community for Teton County, Wyoming, if current commute patterns are retained, then the number of units needed within Teton County increases because Teton County, Wyoming, employees will need homes.

- If each county in the Region addresses their full housing need locally, 1,165 homes are needed in Teton County.
- If current commuting patterns are retained, the number of units rises to 1,580.



In Teton County, Idaho, about 60% of the housing needed should be priced below-market. As discussed further below, this means ownership housing priced below $500,000 (150% AMI) and rentals priced below $1,500 per month (90% AMI).

Summary of Housing Needs Through 2027

	Address All Needs Locally	Retain Commuting Patterns
Catch-Up	**170**	**170**
Unfilled Jobs (reduce from 19% down to 5% unfilled)*	*335*	*475*
Functional rental supply	170	170
Keep-Up	**995**	**1,410**
New jobs (4.8% growth)	730	1,035
Retiring employees (15% retiring)	265	375
TOTAL through 2027	**1,165**	**1,580**
Below market (60% of units)	700	950
Market rate (40% of units)	465	630

*Housing needed to fill currently unfilled jobs is shown in the table to illustrate the existing shortage of housing related to filling current positions. This number, however, is largely a subset of the new job growth estimate so is not included in the overall total to conservatively prevent double-counting.

The figure below shows the total housing needs through 2027 in the study area based on whether all needs are addressed locally or if current commuting patterns are retained.

Needs by Own/Rent and Income

Ownership and rental housing for local employees and residents is needed. On the rental side, the majority of workers filling new jobs will rent homes (about 70%). Conversion of rentals to short term is also impacting renters in the region (an estimated 180 renter households had to move in the past three years due to this problem). On the ownership side, a significant percentage of current renters (44%) want to buy homes.[55] If ownership opportunities are provided, this can then free up rentals for occupancy. These dynamics support providing a higher ratio of rentals than currently exist, at about a 50:50 split.

The precise ratio, however, is dependent upon the community's desired direction and housing policy. Rentals are needed to help recruit new workers and residents to the region; ownership is needed to retain year-round residents and support community stability.

[55] See Regional Overview – Housing Problems for additional information

Summary of Housing Needs by Own/Rent Through 2027

	Low (housing aligned with job location)	High (housing aligned with current commute patterns)
Units needed through 2027	**1,165**	**1,580**
Ownership	580	790
Rental	585	790

The following table shows the income targeting for the additional units needed based on the income distribution of renter households that work in Teton County. As shown below:

- Market rate rentals in the county currently serve households earning about 90% AMI. The majority of rentals need to be priced below this, and about 50% should be priced below 80% AMI.
- There are 99 rentals in the pipeline for development, ranging from 30% AMI through market unrestricted prices. Rental development is hitting the core rental price points needed and will address 22% of identified need below 100% AMI. This supply will add an important boost to supply at this range.

Rental Units Needed by AMI through 2027, Teton County, ID

	AMI				
	≤50%	50.1% - 80%	80.1% - 100%	100.1% - 120%	>120%
Max. Income	$34,400	$55,000	$68,800	$82,560	>$82,560
Max. Affordable Rent	$850	$1,400	$1,700	$2,050	>$2,050
Renter Income Distribution	22%	30%	14%	8%	26%
Rental Units Needed by AMI*	**150**	**205**	**95**	**55**	**180**
Pipeline development	72		27	0	

Incomes at each AMI are reported for a 3-person household

* Units Needed total is based on the mid-point of the low and high housing need estimates

The following table shows the income targeting for the additional units needed based on the income distribution of owner households that work in Teton County.

- The majority of owners earn under 200% AMI. The current housing market provides some attached product that households earning 150% AMI could afford, but single family homes are generally priced for households earning 200% or more. The shift to this higher price point occurred largely within the past two years.[56]
- When considering ownership product for local residents and employees, most should be priced between $200,000 up to $550,000 (80% to 200% AMI). For housing policies that focus on providing homes for renters that want to buy, entry level product primarily between 50% AMI up to 120% should be the focus ($150,000 to $300,000).

[56] See Chapter 5 - Housing Market

- Fifty-five (55) units of ownership are in the development pipeline, about 75% of which will be priced for owners earning over 200% AMI, meeting about 33% of the estimated need in this income range. Another 15 homes are anticipated to be priced between $300,000 to $500,000, providing homes for upper-middle income buyers in the Valley. Homes from $300,000 up to $780,000, is also a prime purchase range for commuters from Teton County, Wyoming.

Ownership Units Needed by AMI through 2027, Teton County, ID

Northern Lincoln County, Wyoming

Chapter 1 – Report Snapshot and Recommendations

Overview of the Northern Lincoln County, Wyoming, Housing Needs Assessment

This Assessment centers on the understanding of what households can afford for housing in Northern Lincoln County (N. Lincoln County), and explores where their needs are being met, and where there are gaps. It uses the definition that housing is affordable when monthly housing costs (rent or mortgage, plus utilities, insurance, and property taxes) is equal to no more than 30% of a household's gross income (i.e., income before taxes).

Source: Dept. of Housing and Urban Development for a 3-person household
**Source: Blue Ribbon Demographics, LLC

The housing bridge, illustrated above, presents a picture of what affordability in N. Lincoln County, for its residents and workforce should look like. The bridge portrays a spectrum of housing that is affordable and most likely to be sought out by households in different income groups. It indicates the percentage of households earning incomes in each area median income range and the type of housing likely to be needed at the different income levels. The bridge depicts what may be ideal for most communities – the availability of housing that is affordable to households at all income levels and provides options for changing life circumstances.

It is from this perspective that the housing needs assessment was conducted. The housing bridge summarizes what you are about to read. It illustrates the mix of housing needed by residents making their living in the county and at which income level. It shows where the market is providing housing and

where it is not; and how much housing is needed to address current shortfalls and keep up with future job growth. More specifically:

- The rental housing market for residents and local employees searching for homes has gotten expensive for local wage earners. A three-person household earning about $70,000 per year coming to N. Lincoln County may find something that meets the definition of affordable on the market.
- Households making their living locally can find attached homes to buy (condominiums, townhomes, etc.) for around $440,000 (150% AMI). Market rate single family homes are now mostly over $600,000 (200% AMI). This is a big shift from just two years ago when three-fourths of homes were priced under $500,000.
- To address the amount of housing needed to catch up to current shortfalls and keep up with future job growth, ***about 60% of the approximately 970 to 1,275 homes needed by 2027 in N. Lincoln County will need to be priced below market***. This will require local policies, subsidies, and creative partnerships with local organizations, employers, and the private sector to produce.

Recommendations

The Path Forward

There is good momentum and foundation for addressing housing needs in the Teton Region. And continued momentum is needed to help address the gap of up to 1,275 homes. ***The magnitude of the issue requires a robust and regional response from all sectors of the community (public, private, non-profit) working collaboratively to engage community support and accelerate housing solutions.***

Recommendations

The below recommendations can be revised, expanded, and made more actionable through community conversations and policy direction by elected and appointed officials.

Regional Nature of Housing

The demand for homes in N. Lincoln County from local residents and employees, as well as workers in Teton County, Wyoming, is extensive and will continue. This means that, the extent to which each county in the Teton Region addresses their housing needs will affect housing needs in other communities in the Region. It is important to maintain a regional dialogue about the problem, recognize the local and regional implications of housing polices, and work together on solutions and policies that carry benefits and impacts across jurisdictions.

Develop a Housing Plan and Build Capacity

Develop a plan for expanding local resident and employee housing opportunities. Establish shared housing goals and objectives, inventory existing organizations and resources, build support and leadership through community outreach and education, and establish a prioritized plan of tasks to undertake. Several considerations are listed below.

- Establish an effective housing deed restriction to ensure homes that are produced, particularly with public land or subsidies, are occupied by local residents and employees. This includes local occupancy, employment, income and/or price appreciation limits. Several examples exist from the other counties in the Teton Region; learn from their experience.
- Build capacity to implement and manage the housing plan. Establish a housing authority or organization to take the lead on housing projects and programs by providing the time and expertise needed to plan, design, and implement identified strategies, as well as manage the housing that is produced. Housing created for local resident occupancy and long term affordability need to be actively monitored or they will be lost.

Increase the Diversity of Housing

The vast majority of housing in N. Lincoln County are single family homes. Increasing the diversity of housing types will support greater affordability and mobility in the market.

- Build rental housing. More rentals are needed. Provide stable rental housing in the community, meaning apartments that cannot be short-term rented. Low Income Housing Tax Credits (LIHTC) are a good source of financing for private developers, public agencies or public/private partnerships and will provide rentals affordable for households earning under 80% AMI; the core need in the county.
- Zone for multi-family. Ensure multi-family development is permitted in or near town centers and where services are available. This includes townhomes, multi-plexes, and higher densities for condominiums and apartments.
- Incentivize development of housing for residents. Provide development concessions for developers that restrict all or a portion of their development for occupancy by local residents and employees. This includes effective density bonus provisions (e.g., Teton County, Wyoming, 2-for-1 program); fee waivers or deferrals; lot setback, height, and design variances; parking reductions.
- Work with Habitat for Humanity of the Greater Teton Area to expand homeownership opportunities for lower income residents. Habitat's work in Teton County could potentially be expedited by efforts to engage the community and organize contributions of volunteer labor.
- Allow Accessory Residential Units in all or most zones. Provide incentives for units that owners agree to restrict for rental to local residents and employees, such as tap fee waivers and pre-approved designs.
- Protect and improve mobile home opportunities.
- Align infrastructure investments to support and facilitate affordable housing. Access federal funds and state passthroughs as infrastructure recovery funds become available. This includes American Rescue Plan Funds (ARPA) and Infrastructure and Jobs Act funding.
- Improve senior housing opportunities. Smaller, lower maintenance homes near town services, patio homes and attached product. Pair with targeted research to determine number, locations, unit types and service needs.

Identify Land and Partnership Opportunities

Inventory public, institutional, and private lands suitable for housing development. Explore partnership opportunities to develop needed resident and employee housing – rentals and ownership. Using a

RFP/RFQ process for locating experienced developers of LIHTC or affordable deed restricted ownership product is recommended.

Funding

The most successful housing programs have a layer of funding strategies, including revenue from housing rents and sales, transaction fees, local government sources, grants, loans, philanthropy, among others. Specific considerations include:

- Traditional state and federal resources - CDBG, HOME, USDA/Rural Development, Section 8.
- Low income housing tax credits (LIHTC) for rental development.
- American Rescue Plan Funds (ARPA) and Infrastructure and Jobs Act funding can be leveraged to help produce needed housing.
- Local funding options. Utilize funding structures already in place and explore expanded options, such as transient occupancy tax, excise and sales taxes, local general fund, development mitigation fees, private donations/philanthropy.
- Take advantage of Wyoming housing resources, such as Wyoming Community Development Authority and Wyoming Housing Network. These organizations offer guidance on establishing and funding housing programs.

Housing Programs

Establish programs that help local residents get into existing homes, keep their homes, and conduct needed renovations and repairs. Federal and state grants and loans – CDBG, HOME, USDA/Rural Development, Section 8 – are options to help finance programs. Funds are limited to households earning under 80% AMI. Examples include:

- Down payment assistance to help renters purchase and compete for homes;
- Rent, deposit, and utility assistance to help renters get into and retain rentals as costs rise; and
- Low interest home rehabilitation loans and grants to help current owners repair older homes or modify homes to meet growing family needs.

Transportation Investment

- Commuting and location preference data indicate that a significant share of the population will continue to commute to Teton County, WY for work. Locating development near transit stops and increasing transit frequency/duration will provide commute options for residents and help reduce the impact that commute costs have on housing affordability.
- Engage leaders and stakeholders locally and regionally to help mitigate impacts associated with a commuting workforce. Improve funding for a more robust regional public transit system.

Chapter 2 – Community Demographics

This chapter describes a few key characteristics of the people and households in N. Lincoln County, including growth over time, age, ethnicity, the mix of owner and renter households, and household income. These metrics provide a picture of community change over time and informs the size, type, and tenure mix of housing needed.

Population and Households

The population of N. Lincoln County, WY, increased by about 2,200 residents from 2010 to 2020 and almost 1,000 households. This amounts to a population increase of 1.7% per year on average, which is much higher than that of Wyoming (0.2%) over the same time period.

	2010	2020	% growth (2010 to 2020)
Population	12,578	14,817	18%

Sources: 2010 Census, 2020 Census

Age

The median age of N. Lincoln County residents increased from 38 to 40 years of age since 2011. This is mostly due to a modest increase in persons over 65, rather than any significant change in younger age groups.

The core workforce age 18 to 64 has changed very little since 2011. And persons under 18 shows little change, indicating that families are relatively stable.

Sources: 2011 and 2019 5-year ACS

Ethnicity

The racial and ethnic composition of N. Lincoln County has changed little in the last decade based on census information. The number of people who identify as Hispanic or Latino showed the largest increase in the county, growing by 71% to about 750 persons. This still represents a comparatively low 5% of the population. This demographic comprises a much higher percentage of the population in Teton County, Idaho (14%), and Teton County, Wyoming (17%).

As discussed in other sections of this report, Hispanic/Latino households have generally had a more difficult time locating suitable housing in the county than other households. On average, these households tend to be lower income and have larger households, contributing to their housing challenges.[57]

Hispanic or Latino Population: 2010 to 2020

	2010	2020	% change in population (2010 to 2020)
Hispanic or Latino	3.5%	5.0%	71%

Sources: 2010 Census, 2020 Census

Tenure (own or rent)

Owner-occupancy of homes in N. Lincoln County has been about 82% since 2000. This is a higher ownership rate than the other Teton Region counties. Homeownership helps build stability, security, and satisfaction among residents making their living in the region.[58]

The majority of households that commute into Teton County, Wyoming, for work from Lincoln County also own their homes (72%), supporting the long observed trend that when employees desire to purchase, they look to nearby lower-cost markets to do so.

Percent of Resident-Occupied Households by Tenure: 2011 - 2019

	Ownership		Rental	
	2010	2019	2010	2019
N. Lincoln County, WY	80%	82%	20%	18%

Source: 2010 Census, 2019 5-Year ACS

Unit Type

The 2021 employee/household survey asked respondents what type of home they occupy. About 85% of respondents from N. Lincoln County have least one person in their home that commutes into Teton County, Wyoming, for work. This information, therefore, provides insight into the extent to which commuters may compete with other residents for different types of homes.

[57] See Regional Overview – Housing Problems for more information
[58] See Regional Overview – Housing Problems for more information

- Overall, 78% of all households and 51% of renters live in single-family homes or cabins. About one-third of renters also reside in attached homes (e.g., apartments, townhomes/multi-plexes or condominiums).
- About 2% of respondents indicated they are currently not permanently housed, but rather couch surfing, camping, or living in a vehicle.
- Basement, shop, and cabin (no foundation) were among "other" types of units occupied by respondents.

Type of Housing Occupied by Tenure: N. Lincoln County, 2021

	Own	Rent	Total
Apartment or condominium	2%	18%	6%
Townhome/multi-plex	6%	15%	8%
Single-family house/Cabin	89%	51%	78%

Other*	1%	4%	2%
TOTAL	100%	100%	100%

Source: 2021 employee/household survey

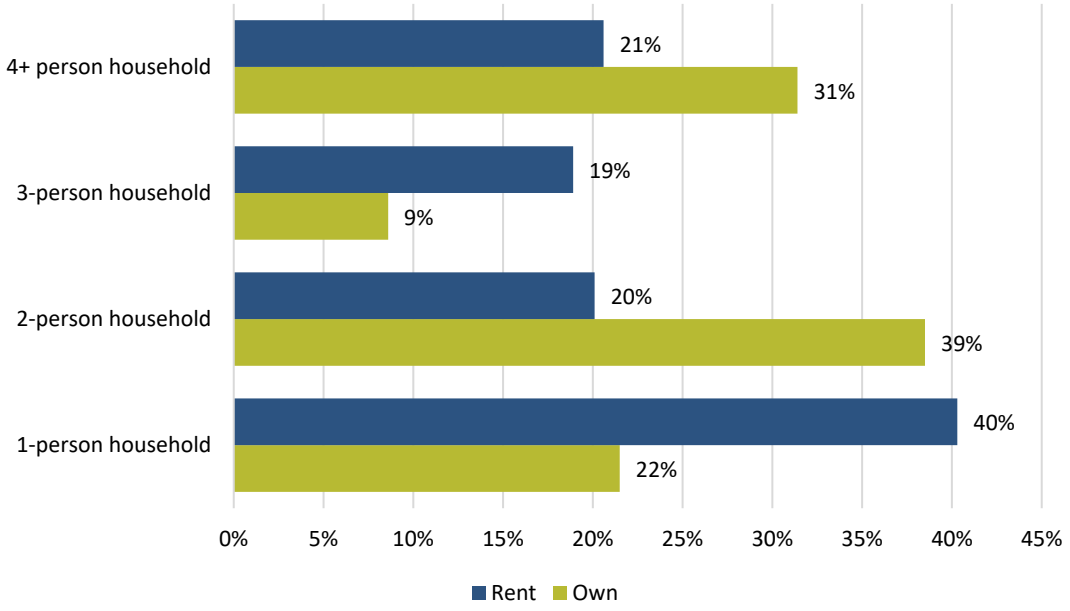
Household Size

The distribution of households by number of people per household by tenure helps to illustrate the size of homes needed by residents. The 2019 ACS estimates that there are about 2.9 persons per home on average in N. Lincoln County, which has remained fairly stable since 2011.

Average Household Size: 2011 to 2019

	2011 ACS	2019 ACS
Total households	2.9	2.9
Own	2.9	2.9
Rent	2.7	2.8

Sources: 2011 and 2019 5-year ACS



The recent fast rise in the cost of home both for rent and for sale and extremely short supply has forced many households to double-up or move in with family, if they have been able to stay in the area.[59] While these emergency housing measures have likely impacted the size of homes in the near term, when considering housing for local residents moving forward, household sizes prior to COVID are a better reflection of needs.

[59] See Regional Overview and Chapter 5 – Housing Market

The below chart reports the pre-COVID household size distribution, showing that:

- Renters are primarily 1-person (40%) households.
- Owners are also predominately 2-person (39%) and 4-or-more-person (31%) households. About one-third of households in the county are families with children, which is reflective of the high proportion of larger owners households.[60]

Household Distribution by Size and Tenure: 2019

Sources: 2019 5-year ACS

Household Income

The median family income reported by the U.S. Department of Housing and Urban Development (HUD) for a family of four increased from $76,100 in 2015 to $83,000 in 2021, an increase of 1.5% per year on average.

Median Family Income for N. Lincoln County, WY, 2021

Persons per Household	50% AMI	80% AMI	100% AMI	120% AMI
1	$29,050	$46,500	$58,100	$69,720
2	$33,200	$53,150	$66,400	$79,680
3	$37,350	$59,800	$74,700	$89,640
4	$41,500	$66,400	$83,000	$99,600
5	$44,850	$71,750	$89,700	$107,640
6	$48,150	$77,050	$96,300	$115,560

Source: HUD

[60] See Regional Overview

An understanding of how much households earn across the income spectrum is important in informing the availability and need for housing that N. Lincoln County residents and employees can afford.

The table below equates the median income of households in N. Lincoln County to the equivalent AMI level for a 3-person household, which is the average size of households in the county. There are clear distinctions between owners and renters in terms of income.

- Well over half of renters (61%) earn below 80% AMI.
- Owners are relatively evenly distributed among the below categories. About 23% earn between 80% and 120% AMI, which are typical income ranges for first time homebuyers.

Lincoln County, Wyoming, Household Distribution by AMI: 2021

	3-person AMI	Own	Rent	Total
<50%	$37,350	16%	38%	20%
50 - 80%	$59,800	16%	23%	17%

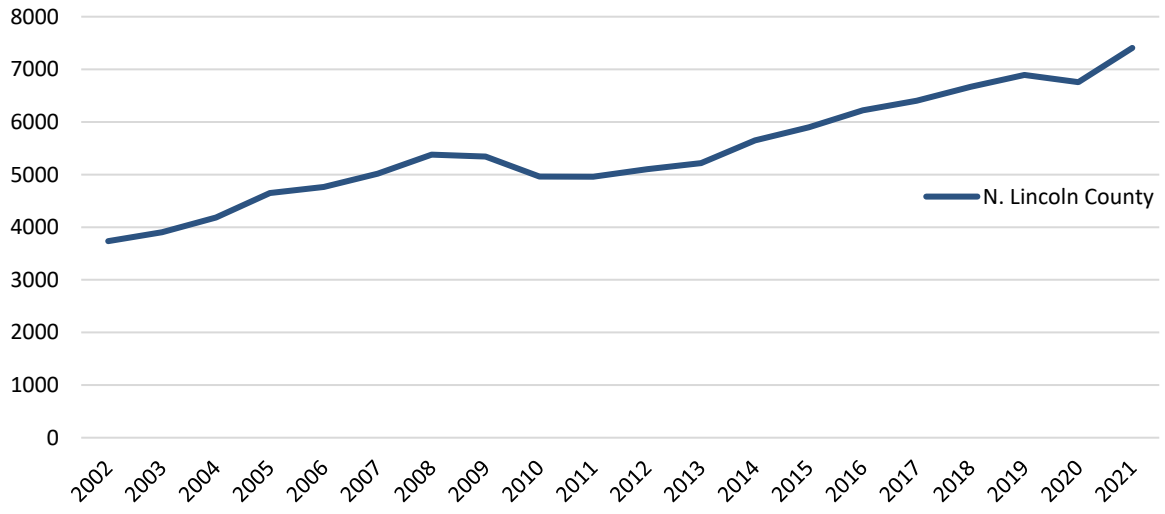
Chapter 3 – Jobs, Seasonality and Commuting

Jobs Estimates and Projections

There are about 7,400 jobs in N. Lincoln County, comprising about 66% of jobs in the county overall. Growth of jobs in N. Lincoln County has been stronger than the southern part of the county, rising 3.7% per year on average since 2001, whereas jobs in the south declined slightly. The growth rate in the county as a whole was only 1.9%.



Job Estimates and Projections, N. Lincoln County, WY: 2010 to 2027[61]

					Annual Growth Rate	
	2010	2015	2021 (est.)	2027	2011-2019	2021-2027
N. Lincoln County, WY	4,963	5,899	7,407	9,196	4.2%	3.7%

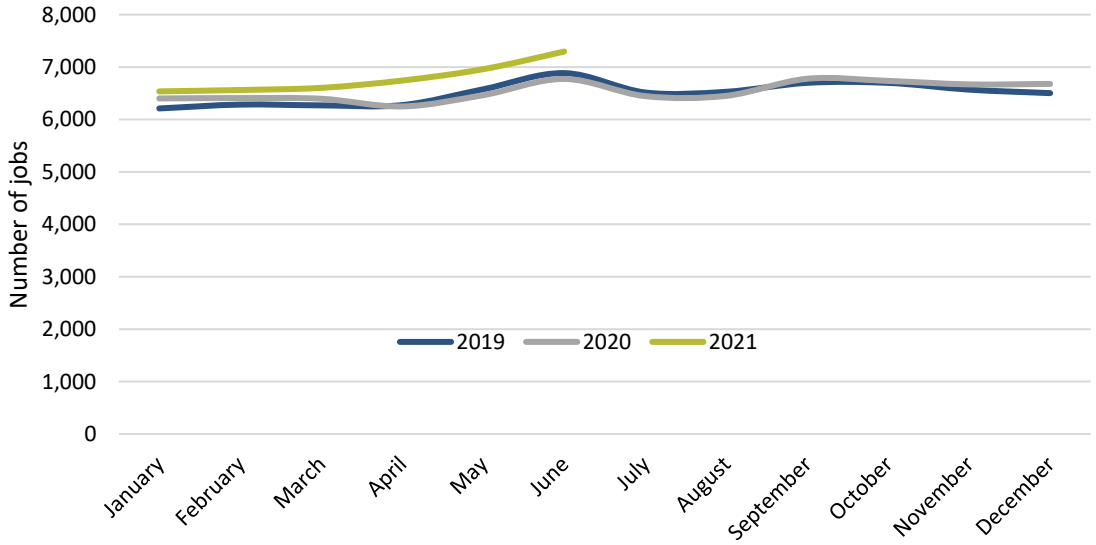
Source: QCEW, BEA, LEHD, Consultant Team

Jobs in N. Lincoln County were growing rapidly since 2011 (the low point of the prior recession) through 2019, at just over 4% per year. The Covid pandemic introduced a short-term drop in the number of jobs in 2020, but jobs more than recovered by the end of that year. Jobs through the first six months of 2021 increased 6% compared to the same period in 2019. Looking forward, job growth is expected to continue to be strong.[62]

Job Estimates: 2002 to 2021

Source: QCEW, BEA, LEHD, Consultant Team

[61] Estimates are calculated by adjusting the QCEW count of wage jobs by the BEA percentage of jobs held by proprietors to ensure all jobs (wage and proprietor) are included in the estimate.



[62] The long term growth rate from 2001 through 2019 was used to estimate future growth (3.7%).

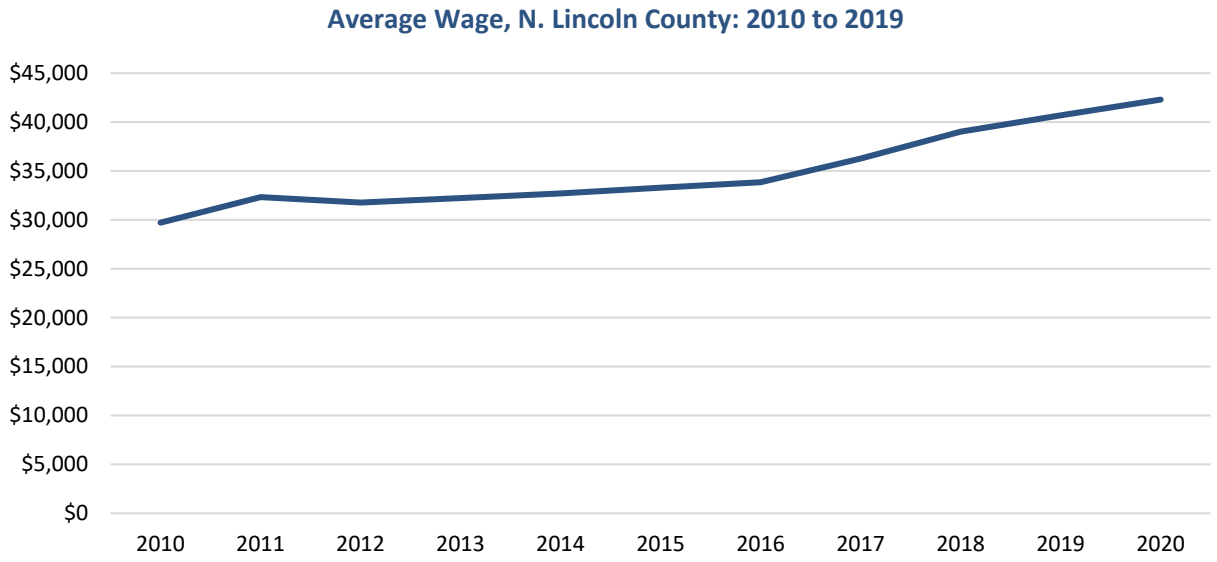
Seasonality of Jobs

June is the peak employment month, but it is not a dramatic peak compared to Teton County, Wyoming, and Teton County, Idaho, rising about 11%, or 675 jobs in 2019. The seasonality characteristics of Lincoln County have been quite consistent for the past 20 years.

The summer rise is mostly driven by construction jobs, with modest contribution from accommodation and food services and retail.

Jobs by Month: Lincoln, WY (entire County): 2019 - 2021

Source: QCEW



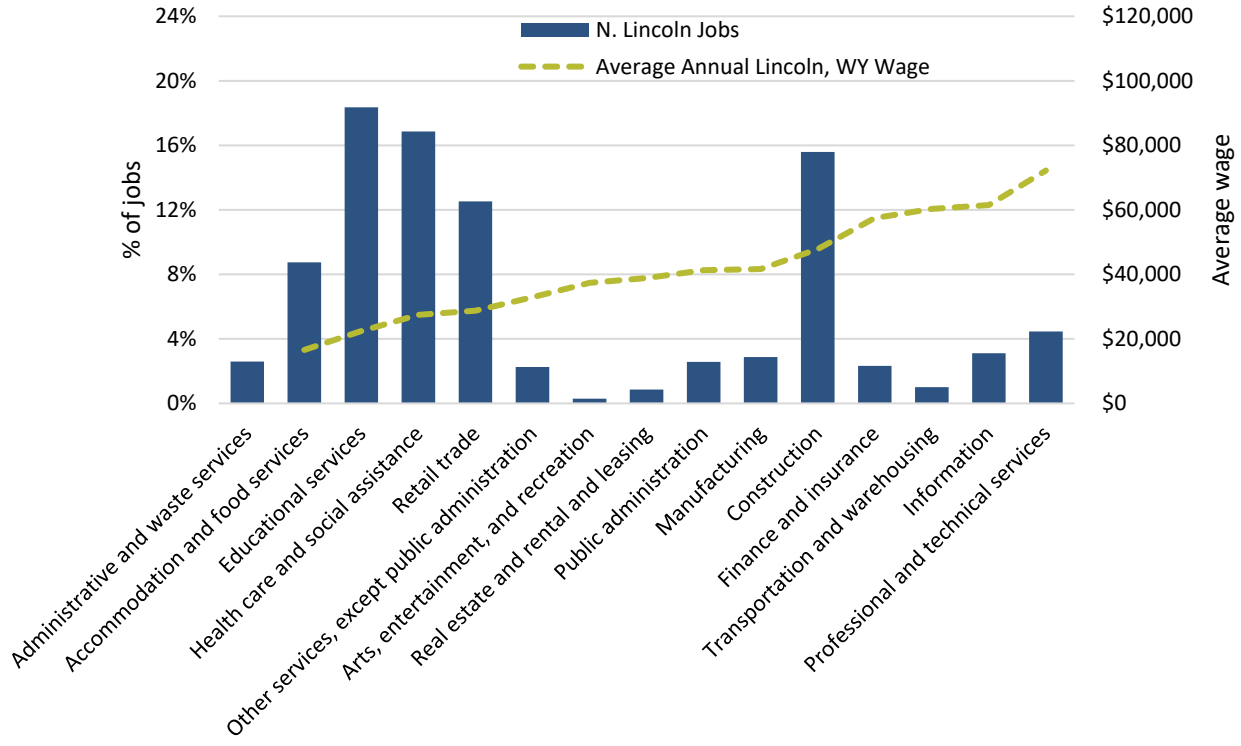
Baseline and Peak Employment, 2019

	Year-round Baseline Jobs	Peak Jobs (June)	Peak % over base
Lincoln County, WY	6,210	6,885	11%

Source: QCEW

Wages and Jobs by Sector

The average wage paid in N. Lincoln County, Wyoming, in 2020 was about $42,300, which is about 30% lower than in Teton County, Wyoming, but similar to that paid in Teton County, Idaho. Overall wage growth has picked up in the past 5 years, following recovery from the Great Recession, increasing an average of 4.9% per year since 2015. Preliminary 2021 wage data indicates growth will continue.



Source: QCEW

Three N. Lincoln County industries account for 51% of the jobs.

- Educational services account for over 18% of jobs, but it is one of the lowest paying industries. It is also a sector that has declined over the past 5 years.
- Health care and social services, also a low paying industry, accounts for another 17% of jobs.
- Construction, which pays more than the average wage, is the third largest sector, accounting for 16% of jobs in 2019. Construction jobs have increased the past couple of years.

Jobs (2019, N. Lincoln County) and Wages (2020, Lincoln County) by Industry Sector

Jobs per Employee and Employees per Household

The number of jobs per employee and the number of employees per employed household are used to translate job growth into the number of housing units needed by workers to fill new jobs.

- Workers in the Teton Region, hold about 1.3 jobs on average during the year. Households in N. Lincoln County have about 1.7 employees per household.
- The number of jobs held fluctuates with the seasons. Employees hold an average of 1.4 jobs over the summer and 1.3 jobs over the winter. Many employees, particularly in lower paid service positions, hold more than one job. This was noted both by employers, as well as respondents to the survey.

Average Jobs per Employee by Season: Teton Region

Year-round Jobs per Employee	Additional Summer Season Jobs	Additional Winter Season Jobs	Average jobs held during the year
1.1	0.3	0.2	1.3

Commuting

About 17% of employees who work in N. Lincoln County commute into the area for work from homes outside of the county. This reflects average year-round commuting, meaning it includes employees filling year-round and seasonal jobs. This equates to about 935 workers traveling into the county for work.

# of commuters:	N. Lincoln County, WY
Total jobs (2021)	7,400
Jobs/employee	1.3
Employees filling jobs	5,650
% commuting in for work	17%
# commuting in for work	935

Source: QCEW, BEA, 2019 5-Year ACS, LEHD, consultant team

To the extent employees are commuting into Lincoln County, they are coming from areas outside the Teton Region. Very few commute from Teton County, Wyoming, where housing costs are much higher.

Conversely, about 65% of workers living in N. Lincoln County commute to Teton County, Wyoming for work. Lincoln County represents an informal bedroom community to the large employment center in Teton County, Wyoming, providing less expensive ownership and rental options for Teton County, Wyoming, workers than available nearer their job. With escalating

> *"I live in Afton but work in Jackson because I can't afford to work in Afton and live in Afton..."*
>

When workers find homes in N. Lincoln County, often household members end up also taking jobs locally, which benefits local businesses when unemployment rates are low and labor is scarce. This is shown below, where about one-third of households that have an adult that commutes to Teton County, Wyoming, for work, also has at least one adult who also works in N. Lincoln County. When workers get weary of the commute, all household members may take jobs locally.

> *"When our landlord sold their house in Jackson we decided to buy in Alpine... It was the best decision ever... If I can find a good paying good in Alpine, I'll never go to Jackson again."*

"Living in Alpine wouldn't be so bad, if there were more bus schedule options available. Only able to take the bus if you work an 8-5 job."

"[H]ave second job to pay for gas to commute to Jackson."

-2021 Employee/household survey comments

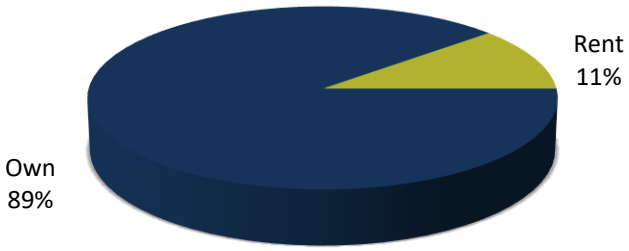
Unfilled Jobs

With unfilled positions, businesses struggle to provide quality services and operate profitably. Because employees need housing, which is scarcely available in the Teton Region, increasing housing options for local workers provides an important competitive advantage for attracting employees to fill vacant positions.[64]

Although a handful of Lincoln County employers responded to the survey (10 businesses), respondents reported that 16% of jobs were unfilled, which is similar to that reported by Teton County, Idaho, and Teton County, Wyoming, employers. This aligns with other information above, indicating that changes in jobs and the N. Lincoln County economy are more in line with the Teton Region rather than counties to the south or east.

	Unfilled Jobs
# jobs unfilled	1,185
% jobs unfilled	16%

Source: 2021 Employer survey



[64] See Regional Overview; see also Teton County reports Chapter 3 – Jobs, Seasonality, and Commuting for a summary of 2021 Employer survey results on how the scarcity and high cost of housing impacts their ability to fill jobs and recruit and retain employees.

Retiring Employees

Ten (10) percent of survey respondents working N. Lincoln County, and 16% of employees living in N. Lincoln County in total, expect to retire within five (5) years.

- Pending retirees tend to hold more senior positions and be skilled staff.
- Housing is a primary concern. Nearly all of employees that expect to retire have stable housing because they own their homes. Many purchased 10 or 20 years ago or during the 2007/08 recession. New employees struggle to find homes to rent and the vast majority will not earn enough to purchase.
- Some retiring employees will stay in the community. For those that decide to move, the homes they vacate likely not be affordable for the employees who follow.

Tenure of Employees in the Teton Region that Plan to Retire Within 5 Years:

Source: 2021 Employee/Household Survey

Pending retirees and the aging population present potential other challenges. For retired residents that prefer to age in place, lower maintenance, smaller patio homes or attached product are often desired as residents age. The need for senior care services and life care or assisted care options will also increase. Finally, rising property taxes are a burden on income-earning households in fast rising home price markets, and can be a particular challenge for senior households on fixed incomes.

"Have to sell in order to retire. Cost of living is too high for a fixed income."

-2021 Employee/household survey comment

Chapter 4 – Housing Inventory

Housing Units – Number and Occupancy

N. Lincoln County, WY has 6,998 housing units. Housing units have been added at a rate of about 1.9% per year since 2015, which is over four times the rate during the previous five years (about 0.4% on average).

Housing Unit Estimates, N. Lincoln County, WY: 2010 to 2021

	2010	2015	2021 (est)	2015-2021 Annual Growth Rate
Housing Units	6,113	6,246	7,000	1.9%

Occupancy

About 82% of N. Lincoln housing units are occupied by resident households. The other 18% are second homes, short-term rentals, or vacant in the transition of being sold or rented. Occupancy of homes in N. Lincoln County increased from 76% in 2010.

Types of Units

There is little diversity in the housing stock in N. Lincoln County. Housing units are predominately single-family homes (84%). About 4% of units are multi-family and 9% are mobile homes, which are more affordable options for local employees. Increasing the diversity of housing types would support greater affordability and mobility in the market.

Housing unit occupancy by income level indicates the extent to which different housing types may provide "naturally occurring" affordable housing. When considering policies that can improve affordability for residents, ensuring that zoning codes allow more affordable product types to be built is important.

The below table shows the type of housing units occupied by income level (AMI) in the Teton Region based on 2021 employee/household survey responses. The sample includes respondents that are residing in market rate housing, meaning that the table excludes respondents that are living in employer-assisted or income-, employment-, rent- or price-limited homes. As shown:

- Households with incomes greater than 120% AMI are more likely than other households to live in single family homes and less likely to live in multi-family units.
- Just over one-third of households earning between 80% and 120% AMI are occupying multi-family units (apartments, condominiums, or townhomes/multi-plexes). Almost one-half (45%) of households earning under 50% AMI occupy attached product.
- Accessory dwelling units predominately provide housing for households earning between 50% to 120% AMI.
- Households earning under 80% AMI are the most likely to reside in mobile homes. They are also most likely to not be permanently housed currently, but rather couch surfing, camping, or living in a vehicle.

Type of Unit Occupied by AMI: Teton Region, 2021
(Respondents Residing in Market Rate Homes)

	Less than 50%	50 to 80%	80 to 120%	120 to 200%	Over 200%
Apartment or condominium	33%	25%	22%	10%	9%

Age of Units

Development in N. Lincoln County accelerated in the 2000's, when about 28% of the area's housing stock was constructed. Development slowed significantly during the 2007/08 recession, but beginning in 2015, construction has again picked up.

This is different from development patterns in Teton County, Wyoming, in which the largest percentage of housing stock was constructed in the 1990's (25%), and construction slowed down in the 2000's (20% of units built).

Income Restricted/Subsidized Housing

There is one apartment complex in N. Lincoln County that is income- and rent-restricted to remain affordable for residents. Alpine Park Apartments is a low-income housing tax credit project (LIHTC) that was put into service in 2019. The 24 units are priced affordable for households earning below 80% AMI (or about $60,000 for a 3-person household). Units are 100% occupied.

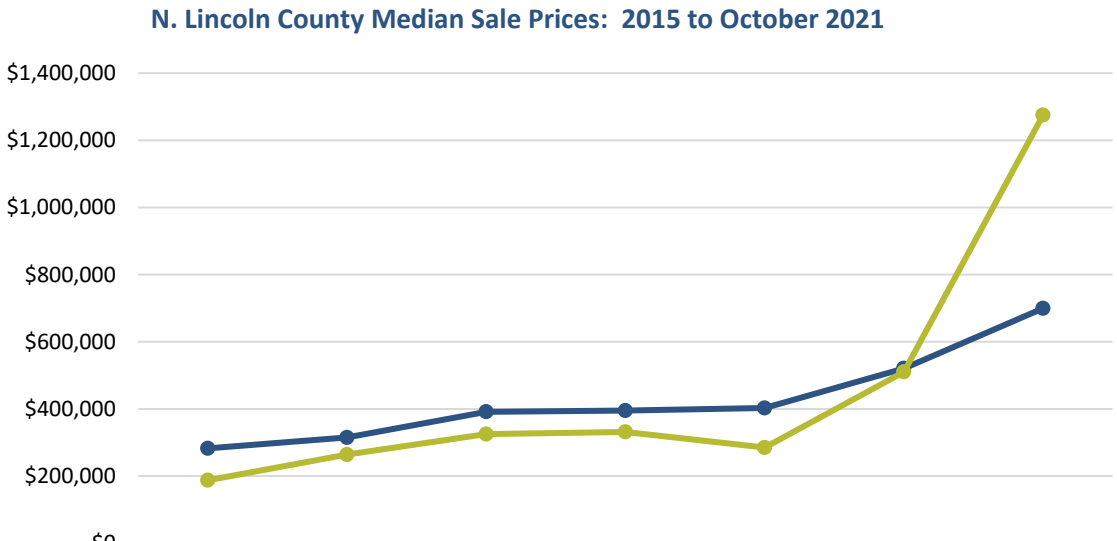
Chapter 5 – Housing Market

This chapter evaluates how key aspects of the housing market in Teton County, Idaho, have changed in recent years. It provides an overview of:

- Home sale and rental prices,
- Recent and current availability of homes,
- The affordability of homes to local residents and employees, and
- Real estate agent and property manager observations about housing market changes in the past 20 months during the COVID-19 pandemic.



Home Ownership Market

The housing market in N. Lincoln County is relatively small, consisting of only about 75 home sales per year on average from 2015 to 2020, or roughly 6 per month. Therefore, readers should note that percentages included herein are based on relatively small numbers of transactions.

Price Trends (2015 to October 2021)

Home sale prices have escalated over the past few years to levels that are unaffordable to most local residents and employees.

- From 2015 to 2020 the median price of a single family home increased by 13% per year on average; condos and townhomes (attached product) increased by 22% per year on average.
- The median sale price of attached product during the first ten months of 2021 was $699,500 for a single family home.
- Only 9 attached homes (i.e., condominiums or townhomes) sold through October 2021. The median sale price was over $1 million. Most were luxury properties complete with an airplane hanger. Only two units sold for under $500,000.

	2015	2016	2017	2018	2019	2020	2021 YTD [1]
Single Family	$282,500	$315,000	$391,500	$395,000	$402,500	$520,500	$699,500
Attached	$187,500	$264,000	$325,000	$331,250	$285,000	$510,000	$1,275,000

Note: inclusive of sales with a known price greater than zero

Price Per Square Foot

To better understand price trends and to normalize differences in home size, the table below evaluates changes in the average annual sale price per square foot from 2015 through sales in the first ten months of 2021. As shown:

- From 2015 to 2020, the price per square foot of single family homes and attached product increased by 10% per year on average, respectively.
- The average price per square foot of single family homes sold in the first ten months of 2021 increased by 54% over the 2020 average, and 185% for attached product.

Price increases far exceed the change in local average wages (4.9% per year) since 2015, meaning that affordability for locals is eroding.

Average Sale Price Per Square Foot: 2015 to October 2021

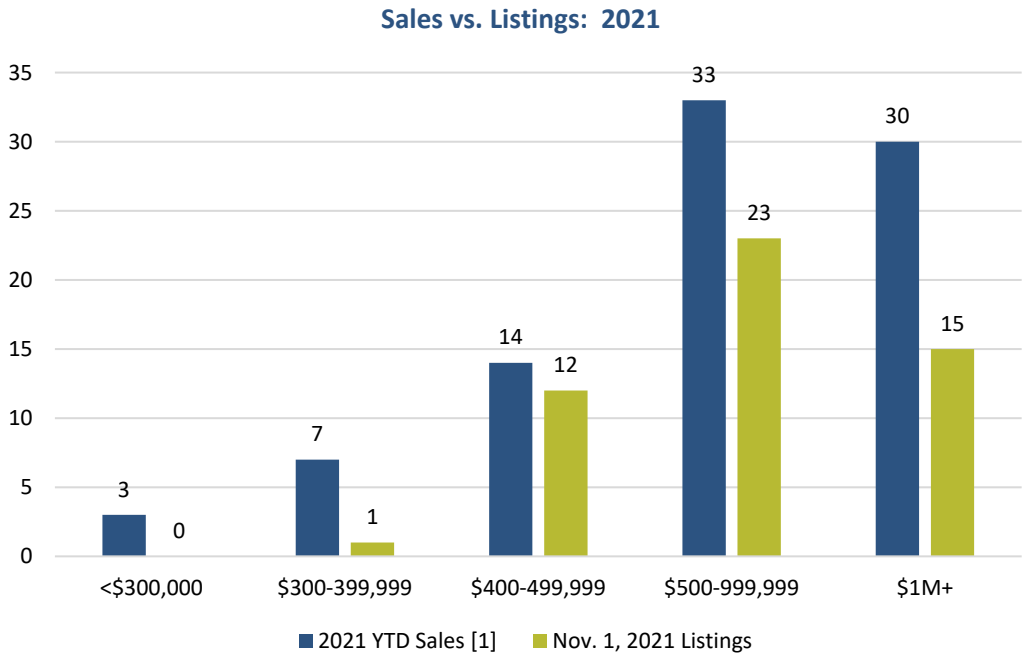
	Single Family	Attached
2015	$187	$125
2016	$229	$188
2017	$269	$135
2018	$232	$178
2019	$225	$216
2020	$296	$201
2021 YTD [1]	$456	$572
CAGR 2015-2020	10%	10%
% change 2020 to 2021 YTD [1]	54%	185%

Note: inclusive of sales with a known price greater than zero
[1] last sale on Oct 29, 2021
Source: MLS, consultant team

Homes for sale under $300,000 have all but disappeared from the market in recent years, and, over the last two years, homes priced between $300,000 to $500,000 have significantly declined.

- The share of sales under $300,000 fell from 58% in 2015 to 3% in 2021 – a drop of 55 percentage points. Forty-six (46) sales under $300,000 occurred in 2015, down to only 3 sales in 2020.
- The share of sales between $300,000 and $500,000 fell from 51% in 2019 to 24% in 2021. The option of finding homes for $500,000 or less in N. Lincoln County is quickly disappearing.

Home Sale Price Distribution by Year: 2015 to October 2021



Note: inclusive of sales with a known price greater than zero
[1] last sale on Oct 29, 2021
Source: MLS, consultant team

Availability

From 2015 through 2019, about 75 homes were sold each year on average in N. Lincoln County. This rose by about 30% (97 homes sold) in 2020. The pace of buying continued to be high in the first 10 months of 2021 with 87 home sales.

There were 51 homes listed for sale as of November 1, 2021, only 13 of which (25%) were priced below $500,000. Ten of these were condos and townhomes listed for about $440,000 each.

Source: MLS, consultant team

A general industry standard is that when the number of homes available for sale is below a 6-month supply, it is a seller's market – meaning that there are more buyers than homes available to purchase, resulting in rising prices.

The 51 homes listed in November 2021 equates to 6.3-months of supply, generally indicating a good supply of homes for sale. The inventory drops, however, to 3.3-months for homes priced under $500,000. In other words, homes at prices that residents and area employees can afford are in short supply. Conversely, homes priced over $500,000 represent 9.3-months of inventory. The local housing market is not meeting local resident and employee needs.

Local Workforce Affordability

The scarcity of homes for sale poses a challenge to all buyers, regardless of income. It is a more significant challenge, however, for local residents and employees. The majority of residents who own earn between 50% up to 200% AMI (65%); only 18% earn above this level. Homes priced above $600,000 may be of interest to commuters from Teton County, Wyoming, where wages are higher, but most N. Lincoln County residents need lower priced homes.

> *"I cannot afford to buy or rent a home. when our child graduates in the next couple of years we will be moving."*
>
> *-2021 Employee/household survey comment*

- Only four homes were listed for sale under $400,000 at the start of November 2021. Homes in this price range are now essentially non-existent.
- With only 18 homes for sale in the $400,000's and 85% of listings over $500,000, the option to buy a home is increasingly out of reach for the local workforce.

Affordability of Current Listings Compared to Average Household Income

AMI	Max Affordable Price (3-person household) [1]	Owner Household Distribution	Nov. 1, 2021, Listings	
			Single Family	Attached
0-50%	$155,200	16%	0%	0%
50.1-80%	$248,500	16%	0%	0%
80.1-100%	$310,400	13%	0%	0%
100.1-120 %	$372,500	10%	3%	0%
120.1-150%	$465,600	13%	3%	77%
150.1-200%	$620,800	13%	13%	8%
200.1-300%	$931,100	11%	37%	8%
>300%	>$931,100	7%	45%	8%

Rental Market

Rent Trends and Local Workforce Affordability

Compared to local wages, the rents in N. Lincoln County are more affordable than in Teton County, Idaho, or Teton County, Wyoming. That does not, however, mean that rents are generally affordable for residents.

- Recent rent rises have occurred in the Teton Region at rates of 9% or more per year over the past several years.
- Renters on the 2021 survey report that their recent yearly rent increase was anywhere from $200 to $1,200 per month, averaging $470.
- Rent increases far exceed increases in wages (4.9% per year on average since 2015), meaning that rentals are becoming less affordable for residents.

> *"We have always worked full time jobs sometimes more than one. It's heart breaking the more we save it still never enough to afford a home because of the pricing increases."*
>
> *-2021 Employee/household survey comment*

Based on survey responses, current renters in the county need an income of about $63,000 on average to afford the overall average rent (about 84% AMI). Advertised rentals, which is what new households coming to the county are likely to find, require a household to earn 91% AMI on average, or an income of $68,000 for a 3-person household.

Rent Prices by Bedroom Size: 2021

	0/1-bedroom	2-bedroom	3+-bedroom	Overall Avg.
October-November 2021 average listed rent	$995*	$1,467	$2,229	$1,702

Availability

As a general rule, vacancy rates at or below 3% are very low, double-digit vacancy rates are very high, and a vacancy rate of around 6% that is trending downward typically indicates to developers that construction of additional units should begin.

Perhaps more significant to the struggles of renters in N. Lincoln County is the lack of supply and the resulting continued upper pressure on rents. The high and rising rents are driven by the extreme shortage of rentals and strong demand. The pandemic brought a wave of remote workers to the Teton Region, which property managers noted are able to pay much higher rates than local wages can support. This is paired with the continued demand from workers in Teton County, Wyoming, particularly as more are forced to move out of the county due to loss of rental supply.[65]

A search for advertised rentals over a two month period from October to November 2021, only produced 14 rental listings. This is equivalent to less than a 1% vacancy rate per month, which is extremely low. When vacancy rates are this low, the rental market is near capacity and cannot absorb new residents or employees moving to the area. This results in several issues, all of which are being experienced throughout the Teton Region:

- Renters have difficulty moving from one unit to another as their circumstances change;
- Renters are vulnerable to increasing levels of cost burden, because there is nowhere to move to if the landlord seeks to increase their rent;
- Renters fear reporting needed repairs to landlords due to concerns of retaliation through rent increases or nonrenewal of lease;
- New employees struggle to find housing when hired by local businesses;
- Rents increase at rates much faster than incomes; and
- Landlords have little incentive to make repairs and capital investments.

"My daughter pays $800 for a studio in Afton and it is all she can find to rent. Small, old, and expensive but there is nothing else to rent."

"Due to housing be so high in demand, the landlord feels justified in raising the rent an additional $700 per year."

-2021 Employee/household survey comment

[65] See Regional Overview – Forced to Move

Chapter 6 – Housing Units Needed

This section addresses the question:

> *How many additional housing units are needed to address housing deficiencies for residents and support the labor force needed to sustain businesses and the economy.*

Needs are projected through 2027 and quantified in two categories:

- Catch-Up Needs – the number of housing units needed now to address current deficiencies in housing based on employees needed to fill unfilled jobs and the number of units needed for a functional rental supply.
- Keep-Up Needs – the number of units needed to keep-up with future housing demand through 2027 based on job growth and jobs vacated by retiring employees. Housing shortages worsen when local job growth and the need for more workers exceeds the growth in available housing units.

This section estimates housing units needed to support employers, keep up with future job growth and improve housing options for area residents based on information presented in other sections of this report. Estimates are a subset of the total demand for housing in the county. Estimates do not include current waitlists for housing, overcrowding, or households that will be forced to leave due to housing conditions.[66] Nor do figures represent the entire housing market – remote workers or retirees moving in from elsewhere, second homeowner purchases, and other market segments, which are outside the scope of this analysis.

Catch-up Needs (Current Conditions)

Unfilled jobs

Labor is in short supply, both locally and nationally. In such a competitive environment, the near-zero rental vacancy rates, and high and rising home prices and rents, make it even more difficult to attract the already scarce labor pool to the area. Eighty-percent (81%) of Teton Region employers responding to the 2021 employer survey stated that the lack of housing affected their ability to find and keep employees. More housing that local employees can afford is needed for businesses to hire and retain the workers they need to thrive.

Employer survey respondents reported that 16% of jobs were unfilled this summer, which is high and has been affecting business operations and employee satisfaction. Because 100% of jobs are rarely filled, the following estimate seeks to lower the unfilled job rate to 5%, which was more typical prior to the pandemic.

About 85% of employees reside in the Teton Region. If this pattern is maintained, then 310 homes are needed locally to bring the current 16% unfilled job rate down to a 5% rate.

[66] See Regional Overview – Housing Problems

Units needed to help fill jobs	
A. Current unfilled jobs (16%)	1,185
B. Reduced unfilled jobs (5%)	370
Jobs to fill (A – B)	815
Jobs per employee	1.3
Employees per household	1.7
Housing units needed	365
% of employees living in the Teton Region	85%
Housing needed for N. Lincoln County employees to live in the Teton Region	310

While this catch up need is important to understand for relieving current business employee shortages, much of this figure is also incorporated in the estimate of future job growth. This potential for double-counting is addressed in the summary of housing needs later in this section.

Functional Rental Supply

The current rental supply in the county is not functional because vacancies are about 1%, placing substantial upward pressure on rents. When vacancy rates are this low, the rental market is near capacity and cannot absorb new residents or employees moving to the area, much less provide opportunities for current residents to find more suitable rentals as their housing needs change. Renters are "stuck" in their homes, and subject to burdening rent increases.

A 5% vacancy level, while still low, provides some choice and availability of units for residents and employees. To increase the vacancy rate to 5%, approximately 55 additional rental units are needed.

Rentals Needed for a Functional Market	
Total rentals (2021)	1,030
Number of rentals if 5% vacancy rate	1,085
New rental units needed	55

Future (Keep-Up) Needs

Retiring employees

Employers will need to fill the jobs vacated by retirees in addition to any newly created jobs. Some retirees will leave the area upon retirement; however, when they sell their homes, the majority will be purchased by second-home owners or remote workers rather than local employees.

About 10% of employee/household survey respondents that are employed in Lincoln County stated that they expect to retire over the next five years. Assuming that 80% of retiree homes will not be available to new employees filling vacated jobs, 335 homes will be needed.

About 85% of employees reside in the Teton Region. If this pattern is maintained, then 230 homes are needed locally.

Retiring employees	
% to retire by 2027	10%
# to retire	570
Employees per household	1.7
Total housing units	335
Needed housing units (80%)	270
% of employees living in the Teton Region	85%
Housing needed for N. Lincoln County employees to live in the Teton Region	230

New Jobs

To keep up with estimated job growth over the next five years (1,789 new jobs), approximately 805 additional housing units will be needed. Because the regional nature of this study focuses on the Teton Region as a whole, the below estimate shows how many housing units are needed to keep new workers in the Region based on current commuting patterns. The next section shows how many of these units may be needed in N. Lincoln County based on various assumptions.

About 85% of employees reside in the Teton Region. If this pattern is maintained, then 685 homes are needed locally.

Estimated Housing Needed by the Workforce Filling New Jobs, 2021 – 2022

	Low
Increase in Jobs between 2021 to 2027	1,789
Jobs per Employee	1.31
Employees per household	1.7
Housing needed	805
% of employees living in the Teton Region	85%
Housing needed for N. Lincoln County employees to live in the Teton Region	685

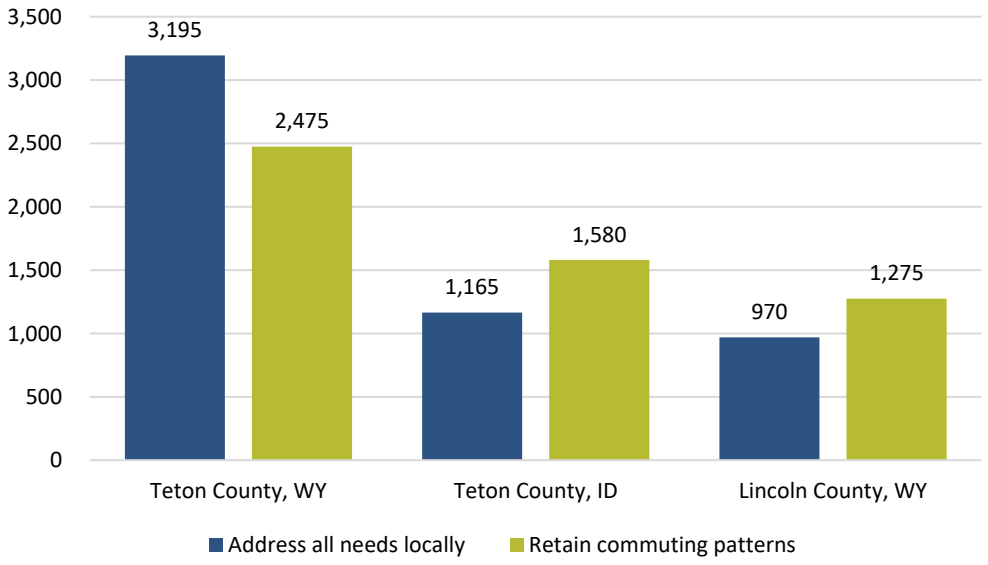
Regional Distribution of Catch-Up and Keep-Up Needs

Based on estimated catch-up and keep-up needs in N. Lincoln County through 2027, an additional 970 housing units will be needed to support employees, residents, and businesses in N. Lincoln County. The number of housing units needed in N. Lincoln County will vary depending upon whether the total housing need is provided locally, or if current commuting patterns within the Teton Region are retained and units are constructed based on where employees presently live. As a bedroom community for Teton County, Wyoming, if current commute patterns are retained, then the number of units needed within N. Lincoln County increases because Teton County, Wyoming, employees will need homes.

- If each county in the Region addresses their full housing need locally, 970 homes are needed in N. Lincoln County.

- If current commuting patterns are retained, the number of units rises to 1,275.

In N. Lincoln County, Wyoming, about 60% of the housing needed should be priced below-market. As discussed further below, this means ownership housing priced below $600,000 (200% AMI) and rentals priced below $1,600 per month (90% AMI).



Summary of Housing Needs Through 2027

	Address All Needs Locally	Retain Commuting Patterns
Catch-Up	**55**	**55**
Unfilled Jobs (reduce from 16% down to 5% unfilled)	*310*	*415*
Functional rental supply	55	55
Keep-Up	**915**	**1,220**
New jobs (3.7% growth)	685	915
Retiring employees (10% retiring)	230	305
TOTAL through 2027	**970**	**1,275**
Below market (60% of units)	580	765
Market rate (40% of units)	390	510

*Housing needed to fill currently unfilled jobs is shown in the table to illustrate the existing shortage of housing related to filling current positions. This number, however, is largely a subset of the new job growth estimate so is not included in the overall total to conservatively prevent double-counting.

The figure below shows the total housing needs through 2027 in the study area based on whether all needs are addressed locally or if current commuting patterns are retained.

Housing Needed Through 2027, Teton Region Counties
(5,330 total – 60% to 80% priced below market)

Needs by Own/Rent and Income

Ownership and rental housing for local employees and residents is needed. On the rental side, the majority of workers filling new jobs will rent homes (about 70%). On the ownership side, a significant percentage of current renters residing in the Teton Region want to buy homes (43%).[67] If ownership opportunities are provided, this can then free up rentals for occupancy. These dynamics support providing a higher ratio of rentals than currently exist, at about a 50:50 split.

The precise ratio, however, is dependent upon the community's desired direction and housing policy. Rentals are needed to help recruit new workers and residents to the region; ownership is needed to retain year-round residents and support community stability.

Summary of Housing Needs by Own/Rent Through 2027

	Low (housing aligned with job location)	High (housing aligned with current commute patterns)
Units needed through 2027	**970**	**1,275**
Ownership	485	635
Rental	485	640

The following table shows the income targeting for the additional units needed based on the income distribution of renter households residing in N. Lincoln County. As shown below:

- Market rate rentals in the county currently serve households earning about 90% AMI.[68] Resident renters primarily earn under 80% AMI (62%), which is where most rentals should be targeted.
- New development in the pipeline should be considered in light of the below to assess where the current market is providing rentals compared to the price points that residents and employees can afford. For example, new rentals in Teton County, Wyoming, can be built at about the 120% AMI level for that county without subsidy; new unsubsidized rentals in Teton County, Idaho, are averaging about 90% AMI.

Rental Units Needed by AMI Through 2027, N. Lincoln County, WY

	AMI				
	≤50%	50.1% - 80%	80.1% - 100%	100.1% - 120%	>120%
Max. Income	$37,350	$59,800	$74,700	$89,640	>$89,640
Max. Affordable Rent	$935	$1,495	$1,870	$2,240	>$2,240
Renter Income Distribution	39%	23%	9%	3%	26%
Rental Units Needed by AMI*	**220**	**130**	**50**	**15**	**145**

Incomes at each AMI are reported for a 3-person household

* Units Needed total is based on the mid-point of the low and high housing need estimates

[67] See Regional Overview – Housing Problems

[68] See Chapter 5 – Housing Market

The following table shows the income targeting for additional units needed based on the income distribution of owner households that reside in N. Lincoln County.

- The majority of owners earn under 120% AMI; however producing homes for ownership for households earning under 60% AMI is often not feasible except through self-help build programs, such as Habitat for Humanity.
- The core first-time homebuyer market earns between 50% up to 120% AMI, comprising close to 50% of owners in N. Lincoln County. Only one home is currently listed for sale at a price affordable at this income range (e.g., below $400,000).
- The current housing market provides some attached product that households earning up to 150% AMI could afford (e.g., priced between $400,000 and $600,000), but single family homes are generally priced for households earning 200% or more. The shift to this higher price point occurred largely within the past two years.[69]
- When considering ownership product for local residents and employees, most should be priced between $200,000 up to $600,000 (80% to 200% AMI); very few resident owners have incomes above this amount. For renters looking to buy, product priced for households earning primarily between 50% AMI up to 120% should be the focus ($160,000 to $400,000). Homes priced from $300,000 up to $750,000 is also a prime purchase range for Teton County, Wyoming, employees that are wanting to buy homes.

Ownership Units Needed by AMI Through 2027, N. Lincoln County, WY

	AMI					
	≤50%	50.1% - 80%	80.1% - 120%	120.1 - 200%	200.1 - 300%	>300%
Max. Income	$37,350	$59,800	$89,640	$149,400	$224,100	>$224,100
Max. Affordable Purchase Price*	$155,200	$248,500	$372,500	$620,800	$931,100	>$931,100

Incomes at each AMI are reported for a 3-person household

*Assumes 4.5% interest rate 30-year loan, 5% down, and 20% of costs to taxes, insurance, HOA

** Units Needed total is based on the mid-point of the low and high housing need estimates

[69] See Chapter 5 – Housing Market

Appendices

Appendix A – Study Methodology, Data Sources, Definitions, and Acknowledgements

Primary Research

Primary research was conducted to generate information beyond that available from existing public sources and included:

- 2021 Employee/Household Survey
- 2021 Employer Survey
- Interviews/focus group

The survey instruments, data output, and open ended comments from these surveys are attached as an appendix to this report

2021 Employee/Household Survey

To obtain responses needed for the depth of analysis conducted, several distribution methods were utilized and included outreach to both the English- and Spanish-speaking community. Outreach occurred throughout Teton County, Wyoming, and Teton County, Idaho, with significant assistance from these communities, as follows:

- An on-line survey in English and Spanish. The link for the survey was distributed by:
  - Chambers of commerce to their membership;
  - Major employers to their employees;
  - Media (newspapers and radio stations);
  - Sharing via social networks; and
  - Social service and housing organizations to persons they serve.
- Outreach to the Spanish-speaking community. The consultant team worked closely with members of the housing stakeholder group and local organizations to do targeted outreach to the Spanish-speaking community. Our goal was to receive a representative response from this population. We procured the services of Voices JH for this purpose. Voices JH worked with 6 community leaders from the Latinx community to assist in this outreach. These individuals gathered responses to the survey through a variety of means, including texting the survey, calling personal contacts and helping them fill it out over the phone, meeting them at their homes to assist them in taking the survey, working with community organizations to reach their clients, and canvassing outside public spaces. Outreach was conducted in Jackson, Victor, Driggs, Tetonia, Alta, and Alpine.
- Survey instruments. Two employee/household survey instruments were used. At the recommendation of local organizations conducting outreach to the Spanish-speaking community, a shortened version of the Spanish version of the survey was created to make it easier to conduct via personal interviews in a timely manner. Care was taken to ensure that core questions needed for this analysis were retained to maintain data integrity and representation.

- A total of 3,478 valid responses were received from residents, representing 23% of households and 19% of employees in Teton County, Wyoming, and Teton County, Idaho. Most responses were from employees in the local workforce. Responses received from Lincoln County respondents primarily work in Teton County, Wyoming, or Teton County, Idaho given that outreach for the survey was conducted within these two counties.

The table below shows the number of surveys received based on where respondents live and by survey type:

	Regional Total	Teton County, WY	Teton County, ID	N. Lincoln County, WY	Outside of Region
Online English	3,478	2,143	659	254	39
Online Spanish	81	273	97	13	0
Interviews – Spanish	302				
Total	3,478	2,416	756	267	39

Source: Consultant team

Survey results were compared to the 2010 US Census for key variables and weighted, where needed, to ensure that responses represent the population as a whole in each county and the region. Weighting occurred by whether respondents own or rent their homes, type of household (E.g., live alone, couples with children, etc.), age, and income/AMI level.

Importantly, weighting for the Hispanic/Latino community was not needed, which is rare. The representative sample received through local outreach assistance means that there are sufficient responses to conduct crosstabs with multiple questions to learn more about their specific housing needs. While this study reports on big picture observations where responses from this and other populations differ from the Region overall, it is beyond the scope of this study to conduct a specific analysis on this population. Importantly, however, this data is available for a deeper dive if a specialized study is conducted.

The margin of error for survey tabulations is within 1.5% at the 95% confidence level. This means that, for tabulations involving the entire Region, there would be 95% confidence that any given percent reported is no more than plus or minus 1.5 percentage points from what is actually the case. When results are provided independently for Teton County, Idaho, and Teton County, Wyoming, tabulations are within 2% to 3%.

2021 Employer Survey

The employer survey was distributed to businesses in Teton County, Wyoming, and Teton County, Idaho. Distribution occurred through direct outreach from the Housing Stakeholder Group and their connections, local Chambers, economic development groups, newspapers, and social media. The survey probed the number of employees, where workers live (commute patterns), employee retention and

recruitment issues, unfilled jobs, retiring employees, and specifics on the provision of housing units and/or assistance to employees.

A total of 262 businesses responded, representing 8% of businesses in both Teton County, Wyoming, and Teton County, Idaho, and 33% of jobs. A total of 206 have locations in Teton County, Wyoming (excluding Alta); 64 have locations in Teton County, Idaho and Alta; and 10 have locations in Lincoln County, Wyoming.

Interviews and focus group

Interviews were conducted with numerous employers, real estate agents, property managers, non-profits, government organizations, community residents, builders/developers, elected officials, and other stakeholders to supplement data needs and gather local perspectives on community housing concerns, issues, impacts, and observations. A focus group was also conducted with the Young Professionals of the Tetons to understand their particular challenges with building careers and families in the Teton Region.

Secondary Data

A variety of sources of published information were used in the preparation of this report, including but not limited to:

- 2000, 2010, 2020 (limited) US Census data and population projections. This information is used to identify changes in the Teton Region residents and households over time and identify the demographics of the Area.
- American Community Survey data (ACS) to understand general trends since the 2010 Census.
- Employment information from the Quarterly Census of Employment and Wages (QCEW) and US Bureau of Economic Analysis (BEA).
- 2021 Area Median Income from the Federal Department of Housing and Urban Development (HUD).
- Current MLS listings, recent home sales and historic sale trends acquired through local real estate agent assistance.
- Property ownership and residential records acquired through the respective Assessor offices.
- Various records from Teton Region planning and building departments, including Teton County, Wyoming, the town of Jackson, Teton County, Idaho, and the city of Driggs and city of Victor.
- Existing reports, including the 2014 Western Greater Yellowstone Region Housing Needs Assessment (Rees Consulting, et al), 2021 Jackson & Teton County Annual Housing Supply Plan, Teton County Joint Housing Authority Supply Plan.

Consultant Team Responsibilities

Wendy Sullivan of WSW Consulting served as the project manager for the Regional Housing Needs Assessment.

Numerous firms assisted WSW Consulting in preparation of this report:

- Williford LLC (Willa Williford)
- Navigate, LLC (Christine Walker)
- Urban Rural Continuum (Andrew Coburn)
- OPS Strategies (Alex Norton)

Christine Walker, Local Associate
Andrew Coburn, Research Analyst
Alex Norton, Research Analyst

Definitions/Terminology

Affordable Housing	As used in this report, housing is affordable if the monthly rent or mortgage payment is equal to or less than 30% of gross household income (before taxes). This definition may vary from federal or state programs, which may include utilities, homeowners association fees, or other housing costs.
Area Median Income (AMI)	A term that generally refers to the median incomes published annually for counties by the US Department of Housing and Urban Development (HUD). AMI is used to set income and rent limits for affordable housing programs statutorily linked to HUD income limits (e.g. low-income housing tax credit rentals). Common affordability categories used are as follows: • Extremely Low Income – At or below 30% AMI • Very Low Income –Between 31% and 50% AMI • Low Income – From 51% to 80% AMI • Moderate Income – From 81% to 120% AMI *Note: Jackson/Teton County Affordable Housing Department uses slightly different figures derived from those published annually by HUD. Reference to AMI or equivalent household incomes in the Teton County, Wyoming section use these figures rather than HUD unless stated otherwise.*
American Community Survey (ACS)	The ACS is part of the Decennial Census Program of the U.S. Census. The survey was fully implemented in 2005, replacing the decennial census long form. Because it is based on a sample of responses, its use in smaller areas (under 65,000 persons) is best suited for monitoring general changes over time rather than for precise estimates due to margins of error.

Average household size	This refers to the number of persons living in a housing unit and includes all adults and children.
Catch-up Needs	The number of housing units needed to catch up to meet the current shortfall in housing available for residents.
Cost Burdened	When housing costs exceed 30% of a household's gross (pretax) income. Housing costs include rent or mortgage and may or may not include utilities, homeowner association fees, transportation or other necessary costs depending upon its application.
COVID-19 / COVID	Coronavirus disease 2019, causing global pandemic starting March 2020 and extensive local public health precautions.
Employee Housing	Housing intended for and affordable to employees and households earning local wages.
FHA	Federal Housing Administration, provides secondary market for residential mortgages.
HOA	Home Owners Association, typically part of condominium developments.
HUD	Housing and Urban Development; federal agency providing funding and regulations for low income housing.
Keep-up Needs	Keep-up refers to the number of housing units needed to keep up with job growth and retiring employees to ensure housing is available for employees filling new or vacated jobs through 2027.
LAUS	Local area unemployment statistics
LEHD	Longitudinal Employer-Household Dynamics
LIHTC	Low Income Housing Tax Credit – a federal program to stimulate capital investment in affordable rental housing, administered in Colorado by the Colorado Housing and Finance Authority.
Local Resident Housing	For the purpose of this report, housing that is intended to be affordable or suitable for Teton Region employees and full-time

	residents. The term encompasses the full range of affordability levels for local residents – from very local income to 120% AMI or more.
MLS	Multiple Listing Service used for purchase and sale of residential real estate
Occupied housing unit	Occupied housing unit means housing units that are occupied by persons that consider the South Shore Region as their usual place of residence or that have no usual place of residence elsewhere. (US Census definition). Occupied units are also referred to as resident households in this report.

Acknowledgements

We would like to thank everyone who gave their time, assistance, knowledge, and expertise to this process. Information in this report relied on participation from many individuals and organizations through interviews, data sharing, focus groups, outreach, etc. We are grateful for the time given by everyone we reached out to. We would like to give particular thanks to the Housing Stakeholder Committee, who were instrumental in this entire process.

Housing Stakeholder Committee

Adrian Croke - Community Safety Network
Ali Cohane - Local Restauranteur
Alison Lee - Jackson Hole Housing Trust
Anna Olsen - Jackson Hole Chamber
Anne Cresswell - Jackson Hole Housing Trust
Anne Schuler - Small Business Owner, Planning Commissioner
April Norton - Town of Jackson/Teton County WY Housing
Brett McPeak - Real Estate
Chris Neubecker - Teton County Planning Dept
Cristina Briones - Voices JH
Elizabeth Hutchings - Shelter JH
Gillian Chapman - Teton County School District (TCSD)
Isabel Zumel - One22
Ivan Jimenez - JH Food Rescue
John Frechette - Local Small Business Owner
John Kren - St. John's Health
Jordan Rich - Voices JH
Kris Greenville - Teton Habitat

Housing Stakeholder Committee
Kristi Malone - Tonw of Jackson/Teton County WY Housing
Kyle Fowler - Jackson Hole Conservation Alliance
Laura West Soltau - Teton Literacy Center
Laurie Andrews - Community Foundation
Marina Chapeton - Teton Literacy Center
Mary Kate Buckley - Jackson Hole Mountain Resort (JHMR)
Melissa Turley - Teton Village Association
Rob Deslauries - Teton Village Developer
Sharel Lund - One22
Skye Schell - Jackson Hole Conservation Alliance
Stacy Stoker - Jackson Hole Affordable Housing
Stephanie Thomas - TC Seach & Rescue

Tyler Sinclair - Town of Jackson Planning and Building Dept
Wendy Martinez - Teton Habitat, Planning Commission
August Christensen - Teton Valley Housing Crisis Task Force
Betsy Hawkins - Community Resource Center
Brian McDermott - Teton Regional Economic Coalition (TREC)
Doug Self - City of Driggs, Community Development Director
Shawn Hill - Valley Advocates for Responsible Development

Information presented in this report is as much based on data and numbers as it is on the experiences and observations of those living in the community, which would not have been possible without local participation. We appreciate the opportunity to work with dedicated communities seeking to better understand and address the housing needs of local residents and employees for the benefit of the communities, economy, and health of the Teton Region.

Appendix B - Teton County WY/Jackson Housing Tools Matrix

Tools / Programs	Definition or Overview	Notes	In Use In		Units Since 2014
LAND USE PLANNING			**Jackson**	**Teton County**	
Accessory Residential Units	Allow Accessory Residential in all or most zones. Provide incentives to build/convert space to ARUs, can be in form of additional density, tap fee waiver or reduction, subsidy to owner, etc. Note that ARUs here do not include units accessory to commercial uses, just accessory to single-family homes (traditional ADUs).	ARU Pilot Program – will launch Q2 2022 Housing may begin compliance on ARU and Town considering adding deed restriction requirement. County ARUs not typically used for long term rentals.	Yes. Town has allowed ARUs in all zones since 2015; allowed in most zones except single family since 1994	Yes. County allows ARUs in all zones except S-TC; primarily considered guesthouses. Employee residency would be more beneficial.	Teton County: 168 town of Jackson: 45
Aligning Planning Documents	Strategic Priority on Affordable housing in all local planning documents, budget setting, and work plans. Consistent recognition of housing as policy priority and alignment between all Planning and Housing Documents.	Priority Driven Budget Process for town of Jackson. Greater alignment of funding for infrastructure, transit, complete neighborhoods, etc could also support housing efforts.	Yes. Some.	Yes. Limited	
Aligning Community Infrastructure Investments	Strategic alignment of infrastructure investments to support affordable housing. Recommend being aggressive in accessing federal funds and state passthroughs as infrastructure recovery funds become available.	Town has moved up and provided infrastructure funding to support housing i.e. Westview townhomes, Hidden Hollow, etc. Town will complete an Impact Investment category (CP Policy 4.3.b) in our 5-year Capital Improvement Plan	Yes, some with more in Process.	Yes, with additional opportunities to support connect to water and sewer, support “complete neighborhoods” and transit.	
Annexation Policies	Negotiating affordable housing as part of annexation agreements.	Prohibited by the State in 2021 at request of Teton County large landowner	No.	No.	
Density Bonus 2:1	2:1 – Ability to maximize building envelope – two market rate square feet for every affordable square foot.	Implemented in 2018. Applies in Jackson Transitional Zones NH-1, NM-2, OR, CR-1, CR-2, CR-3 & DC-2, DC (LDR Div. 7.8)	Yes	No.	Jackson: 140
Density Bonus PUD process			Eliminated in 2018.		

Tools / Programs	Definition or Overview	Notes	In Use In		Units Since 2014
LAND USE PLANNING			**Jackson**	**Teton County**	
Fast Track Processing	Gives priority to development applications with affordable and/or workforce housing.	Implemented in 2018 in Jackson (LDR Sec. 7.8.3.C) No public hearings required. Design review still required in Town.	Yes.	No.	Jackson: 84
Height Variance	Fourth Floor allowed	Allowed in CR-3 zone (LDR Sec. 2.2.13.E.4) This code was a migration from PUD rules in 2018. Hasn't been used in new form yet, minimum lot size is two acres. Consider allowing on smaller lots.	Yes – limited.	n/a	Mi
Fee Waivers or Deferrals	Water/sewer tap fees, building permit or other fees waived in part or whole to reduce cost to build affordable or locals housing. General funds or other sources need to cover cost of fees waived. Deferred fees/taxes (use, property) can take risk away from development by requiring payment upon sale or occupancy of a unit.	Town of Jackson fees waived for 100% deed restricted housing as of July 2021 County allows fee waivers if an application "demonstrates bona-fide community benefit for the whole of Teton County." Is not guaranteed nor automatically waived	Yes – codified in 2020, and has been used on all 100% DR projects in recent years.	No. Nothing codified – can be requested through community benefit category.	Jackson: greater than 300 County: no recent examples.
Inclusionary Zoning (IZ)	Requiring a percentage of residential units in new subdivisions to be affordable housing. Market homes support development of affordable units.	Eliminated in 2018 for both Town and County. Had been in place since 1995.	No	No	

Tools / Programs	Definition or Overview	Notes	In Use In		Units Since 2014
Parking Reductions	Reduced parking requirements for workforce and affordable housing	Town allows parking reductions through Administrative Relief. Implemented in 2018; most DR projects seek it. County also allows parking requirements to be adjusted through administrative relief, with demonstration that a lesser standard is workable due to anticipated parking demand and alternative transportation is available.	Yes -	Yes - limited	
Widespread Zoning for multifamily housing (over eight units/building)	Community or Deed Restricted Housing is allowed by right in most.	Town Zoning allows residential buildings with 8 or more units in zones NH-1, NM-2, CR-1, CR-2, CR-3, DC and DC-2 County allows multifmaily in WC, BC-TC, but few properties have this zoning.	Yes – potential to further expand?	No	
REQUIREMENTS			**Jackson**	**Teton County**	
Residential Mitigation	Requiring new homes to contribute to housing for employees relative to demand generated by residential units. Mitigation rate may increase with house size. Fees in lieu provide revenue stream that fluctuates with building activity. Nexus required.	LDR Division 6.3	Yes	Yes	Generally fee-in-lieu, which is reinvested by Housing Department

Tools / Programs	Definition or Overview	Notes	In Use In		Units Since 2014
Commercial Mitigation	Requiring new commercial development to provide housing for a portion of employees generated. Nexus required. Alternatives in application and compliance methods (on site, off site, land, fees in lieu) create flexibility yet complexity.	LDR Division 6.3	Yes	Yes	108 deed-restricted since 2016 across Town and County
FUNDING			**Jackson**	**Teton County**	
Real Estate Transfer Fee		Currently not allowed by State; working to allow at State level			
Lodging Tax		Does not directly fund housing	Yes – but not for housing	Yes – but not for housing	
LIHTC		WY QAP requirements are hard for Jackson projects to be competitive. Applied multiple times without success, currently have application in to WCDA.	Maybe – Flat Creek Apts currently under consideration	No.	
Federal and State Funds		Apply for LIHTC, HOME, NHTF and CDBG regularly, rarely receive awards	Habitat received $500k HOME for 445 E Kelly, Flat Creek Apts applied for CDBG, HOME, NHTF, LIHTC pending ARPA –$3million pending	$4 million ARPA pending	
Community Foundation		One-off grants thus far. The Jackson/Teton County Affordable Housing Department has been working with them to create some kind of PRI or other loan fund for housing.	Yes – limited	Yes - limited	

Tools / Programs	Definition or Overview	Notes	In Use In		Units Since 2014
Economic Development / Chambers		Tourism Improvement District is being considered at state level, Chamber is actively supporting.	No	No	
General Fund Allocations		ACTIVE – details from April	Yes. $1m - $2m/year	Yes. $1m/year	
Private Donations		Housing Trust and Habitat Jackson/Teton Affordable Housing Department	Yes	Yes	
Below market debt		Jackson St. Apartments	Yes	Yes	
Program-related investment		Jackson St. Apartments	Yes	Yes	
Realtors/Voluntary Transfer		Community Housing Fund Created in 2021	Yes	??	
Special Purpose Excise Tax		$5.5 million passed in 2019, long history of support, and several SPET that did not pass.	Yes	??	
PARTNERSHIP TOOLS			**Jackson**	**Teton County**	
RFQ/RFP process	RFQ/RFP process effective for selecting development partners on government or institutionally owned land. Can also be used with subsidy funds, in addition to or in place of land.	Jackson/Teton County Affordable Housing Department Supply Plan	Yes. 3 projects with Town property	Yes. 1 project with County property	114 units since 2017

Tools / Programs	Definition or Overview	Notes	In Use In		Units Since 2014
Employer Assisted Housing / Partnerships	Master leasing new development, mortgage assistance, units for temporary relocation. Public/non-profit sector can provide technical assistance to help develop projects. Housing for emergency services personnel and seasonal workers often provided by employers. • Lots of employers are providing housing assistance • Jackson/Teton County Affordable Housing Department & Housing Trust conduct housing needs assessments for businesses (HD is free, HT charges a nominal rate)	Lots of activity in the space… not specifically codified or incentivized. For those building units, may bank units for future mitigation requirements (think: Hotel Jackson, JHMR, etc.) Other partnerships are underway.	Yes, for example Westview TH – Town allowed 8 units to be employer owned Workforce Rental restricted.	Yes, for example Mercill Condos – County allowed 12 units to be employer owned Workforce Rentals.	
PRESERVATION TOOLS			**Jackson**	**Teton County**	
Acquisition of Market Units	Usually involves buying down units with public funds. Deed restrictions imposed for permanent affordability.		No	No	
Compliance Management	Monitoring deed restrictions eligibility and ongoing compliance, collecting data, ensuring program integrity.	Performed by Housing Dept.	Yes	Yes	
Expiring Deed Restriction Preservation		Performed by Housing Dept.	Yes	Yes	1 recently, several being monitored
Deed Restriction Purchase	Preservation Program lead by JTCHA is to deed restrict existing units for rental or homeownership to local employees. Must make 75% of income in Teton County. Program also implements an appreciation cap.	Preservation Program implemented by the Jackson/Teton County Affordable Housing Department in February 2021. $1 million set aside.	Yes	Yes?	3 units secured and with 1 pending
Housing Rehabilitation and Weatherization	Repairing, updating, enlarging, improving energy efficiency, and providing handicapped accessibility, typically with Federal or State grants. Staff/time intensive.	Discussed during Landlord-Tenant stakeholder group meetings, but ultimately not pursued due to staff capacity	No	No	

Tools / Programs	Definition or Overview	Notes	In Use In		Units Since 2014
No-Net Loss/Redevelopment Policy	Requiring replacement of housing occupied by the workforce and residents when redevelopment occurs. Similarly priced units should be replaced on site or another site, or a fee-in-lieu of replacement could be allowed.	Debated by electeds in 2017 and not included	No	No	
Property Management	Contracting to provide property management of rental units for local employees. Could work both ways – public/non-profit sector hires private firm or private sector hires public/non-profit. Could be used with Employer Assisted Housing and conversion of STR's to LTR's.	Yes – Redmond Street Rentals, partnered with Housing Trust to provide. Flat Creek Apts, partner with BlueLine Development to provide.	No	No	
Right of First Refusal	Non-profit, HA or government entity securing right of first refusal on key multi-family properties or mobile home parks to ensure the chance for affordability of the property ever sells.		No	No	
STR Conversion	Providing rent guarantees and property management in exchange for renting units long term that were vacant or rented short term.		No	No	
STR Restrictions	Requiring licensing, limiting number of permits, limiting the number in defined areas, occupancy requirements based on local housing or income, prohibiting STR of deed restricted housing etc.	More enforcement may be needed.	Permit and License; limited locations	No.	

Appendix C - Teton County Idaho Housing Tools Matrix

Tools / Programs	Definition or Overview	In Use In		
LAND USE PLANNING		**Driggs**	**Victor**	**Teton County / HA**
Accessory Residential Units	Allow Accessory Residential in all or most zones. Providing incentives such as additional density, tap fee waiver or reduction, subsidy to owner, etc can enhance the tool.	Yes. Allowed in all zones. Tap fees waived.	Yes. Allowed in all zones. Tap fees waived.	HA is preparing an ADU guide and permit-ready ADU plans, and is considering a shared-equity model like Dweller.com
Aligning Planning Documents	Strategic Priority on Affordable housing in all local planning documents, budget setting, and work plans.	Yes – partially. Teton County Affordable Housing Strategic Plan adopted and referenced in new Comprehensive Plan. Housing is an eligible use of local sales tax. Still formulating budget & work plan to meet strategic priorities.	Yes – partially. Teton County Affordable Housing Strategic Plan adopted and referenced in new Comprehensive Plan. Housing is an eligible use of local sales tax. Still formulating budget & work plan to meet strategic priorities.	Yes – partially. Adopted AHSP, but 2012 Comp Plan not updated. Prioritizing affordable housing in work plans & budgeting.
Aligning Community Infrastructure Investments	Strategic alignment of infrastructure investments to support affordable housing. Access federal funds and state passthroughs.	Using CDBG funds to support LIHTC housing project. Urban Renewal Agency supporting with TIF revenue.	No.	No.
Annexation Policies	Negotiating affordable housing as part of annexation agreements.	Policy included in adopted TCAHSP, and is being implemented, but lacks clear standards or guidance on what to negotiate.	Policy included in adopted TCAHSP. No implementation to date.	N/A.
Density Bonus	Increased density in exchange for building affordable/workforce housing.	Only in PUDs currently. As part of adopted TCAHSP policy, negotiate affordable component with any zone change to increased density.	No.	No.

Tools / Programs	Definition or Overview	In Use In		
Fast Track Processing	Gives priority to development applications with affordable and/or workforce housing.	No.	No.	No.
Height Variance?	Workforce/affordable housing able to better utilize land through set back, height, other variances.	In mixed-use zones, allow 10ft height bonus if any residential use on upper floors, but no income or occupancy restriction.	No.	No.
Fee Waivers or Deferrals	Water/sewer tap fees, building permit or other fees waived in part or whole to reduce cost to build affordable or locals housing. General funds or other sources need to cover cost of fees waived. Deferred fees/taxes (use, property) can take risk away from development by requiring payment upon sale or occupancy of a unit.	Impact fees waived for affordable housing as defined in state statute (<80% AMI). Possible use of sales tax to cover fees. No deferred tax program.	No.	No.
Inclusionary Zoning (IZ)	Requiring a percentage of residential units in new subdivisions to be affordable housing. Market homes support development of affordable units.	No adopted policy, but City has started requesting at least 50% workforce housing restriction in large-scale (>20 units) developments. Voluntary.	No.	No.
Parking Reductions	Reduced parking requirements for workforce/affordable housing.	No. 1/1BR, 1.5/2BR+ multi-family.	No, but only 1 per unit across all residential.	No.
Widespread Zoning for multifamily housing	Within Cities and Towns, most zone districts allow for attached product that makes efficient use of land and is cost effective to build, including duplexes, townhouses, apartments and condos.	Yes. Multi-family is allowed in all mixed-use zones. Comp Plan enables widespread multi-family via rezoning.	Yes. Multi-family is allowed in all mixed-use zones. Comp Plan enables widespread multi-family via rezoning.	No; dense development is directed to cities.

Tools / Programs	Definition or Overview	In Use In		
Voluntary Agreements	Seek developer participation in providing workforce housing as part of the entitlement process.	Current practice (developing policy) at any rezone application is to negotiate workforce housing mitigation and adopt conditional zone change agreement.	TBD	TBD
REQUIREMENTS		**Driggs**	**Victor**	**Teton County / HA**
Residential Mitigation	Requiring new homes to contribute to housing for employees relative to demand generated by residential units. Mitigation rate may increase with house size. Fees in lieu provide revenue stream that fluctuates with building activity. Nexus required.	No. Not legal in Idaho, except through negotiation at annexation, conditional zone change or possibly large scale subdivision.	No.	No.
Commercial Mitigation	Requiring new commercial development to provide housing for a portion of employees generated. Nexus required. Alternatives in application and compliance methods (on site, off site, land, fees in lieu) create flexibility yet complexity.	No. Not legal in Idaho, except through negotiation at annexation, conditional zone change or possibly large scale subdivision.	No.	No.
FUNDING FOR HOUSING		**Driggs**	**Victor**	**Teton County / HA**
Local Lodging Tax	Some or all local lodging tax dedicated to workforce housing	Yes. 3% Housing is an eligible use; may designate a portion for housing to enable bond repayment.	Yes. Increased lodging tax to 6% and included housing as an eligible use of funds.	No.
Community Foundation		No. Driggs does not receive funding through CFTV.	No.	Housing Authority is eligible to receive funding through CFTV
Economic Development/Chambers		TREC helps with research and lobbying as a Chamber.		

Tools / Programs	Definition or Overview	In Use In		
General Fund Allocations		Not cash, but pays salary for staff to support Housing Authority.	Yes, $5000 operating funds to Housing Authority.	Yes, $40,000 operating funds to Housing Authority
Private Donations		No.	No.	Yes. Foundation funding expected for new Executive Director position.
Realtors/Voluntary Transfer		No.	No.	Yes – Housing Authority funded from CommunityHousingFund.com
Special Purpose Excise Tax		No.	No.	No.
Urban Renewal		Yes. Can help fund public improvements for projects in district. Helping w/ Depot Square LIHTC project currently.	Yes, has a URA.	No.
Real Estate Transfer Fee		Real Estate Transfer Tax not legal in Idaho, but Grand Targhee in WY has a transfer tax of .5% that is for affordable housing that can be built in Driggs.	No.	No.
LIHTC		Yes. 1 Active. 2 Previous.	1 previous project.	No.
Federal and State Funds		Idaho Governor announced Gap Financing program will be launched in 2022. Idaho Housing Trust Fund remains unfunded despite state surplus.		Considering allocation of ARPA funding for affordable housing development.

Tools / Programs	Definition or Overview	In Use In		
PARTNERSHIP TOOLS		**Driggs**	**Victor**	**Teton County / HA**
Land Banking	Use publicly owned land for workforce/affordable development. Make strategic purchases of land for future housing development.	Yes. Driggs donated 1ac for LIHTC project.	Yes. Victor donating 3ac to Housing Authority.	Yes, County donating .6 acre to Housing Authority.
RFQ/RFP process	RFQ/RFP process effective for selecting development partners on public land that is currently land banked. Can also be used with subsidy funds, in place of land.	Yes; in partnership with Joint Housing Authority.	Yes; in partnership with Joint Housing Authority.	Yes; in partnership with Joint Housing Authority.
Employer Assisted Housing/Partnerships	Master leasing new development, mortgage assistance, units for temporary relocation. Public/non-profit sector can provide technical assistance to help develop projects. Housing for emergency services personnel and seasonal workers often provided by employers.	No partnerships; large employers (Grand Targhee, Teton Valley Health, City) providing/building employee housing.	No partnerships; large employers (Grand Targhee, Teton Valley Health) providing/building employee housing.	No partnerships; large employers (Grand Targhee, Teton Valley Health) providing/building employee housing.
Downpayment Assistance	Support first time homebuyers with downpayment loans or grants.	Not yet; identified as a strategy to consider. CRCTV operates a rental deposit loan program.	Not yet; identified as a strategy to consider. CRCTV operates a rental deposit loan program.	Not yet; identified as a strategy to consider. CRCTV operates a rental deposit loan program.
PRESERVATION TOOLS		**Driggs**	**Victor**	**Teton County / HA**
Acquisition of Market Units	Usually involves buying down units with public funds. Deed restrictions imposed for permanent affordability.	No.	No.	No.
Compliance Management	Monitoring deed restrictions eligibility and ongoing compliance, collecting data, ensuring program integrity.	Not yet; HA will serve this function.	Not yet; HA will serve this function.	Not yet; HA will serve this function.
Deed Restriction Purchase	Purchase a deed restriction from an existing owner; property may continue as homeownership or long-term rental.	No.	No.	No.

Housing Rehabilitation and Weatherization	Repairing, updating, enlarging, improving energy efficiency, and providing handicapped accessibility, typically with Federal or State grants. Staff/time intensive.	Regional via EICAP: https://www.eicap.org/	Regional via EICAP: https://www.eicap.org/	Regional via EICAP: https://www.eicap.org/
No-Net Loss/Redevelopment Policy	Requiring replacement of housing occupied by the workforce and residents when redevelopment occurs. Similarly priced units should be replaced on site or another site, or a fee-in-lieu of replacement could be allowed.	No.	No.	No.
Property Management	Contracting to manage affordable rental units. Could work both ways – public/non-profit sector hires private firm or private sector hires public/non-profit. Could be used with Employer Assisted Housing and conversion of STR's to LTR's.	No.	No.	No.
Right of First Refusal	Securing a right of first refusal on "naturally occurring affordable housing" properties, so public sector or non-profit can purchase and preserve, forestalling condo and STR conversions.	No.	No.	No.
STR Conversion	Providing rent guarantees and property management in exchange for renting units long term that were vacant or rented short term.	No.	No.	No.

Tools / Programs	Definition or Overview	In Use In		
STR Restrictions	Requiring licensing, limiting number of permits, limiting the number in defined areas, occupancy requirements based on local housing or income, prohibiting STR of deed restricted housing etc.	Require permit and have standards for safety, parking, trash, etc., and collect lodging tax. Idaho statute prohibits a ban (and potentially a cap, which can be found equivalent to a ban). Negotiating prohibitions in some new developments and in all deed-restricted housing.	Requires business license; collects lodging tax.	No.

Note: Tetonia is a participating jurisdiction in the Teton County Joint Housing Authority. Tetonia has set intentions in their Comprehensive Plan to make land use regulations more favorable for a variety of housing types and price points.

Appendix D – Survey Instruments

Employee Survey – Housing Needs, Challenges, and Preferences

1. In which community do you live in or nearest to?

	Where do you live?
Lincoln County, WY	
Alpine	☐
Etna	☐
Star Valley Ranch	☐
Thayne	☐
Afton, Fairview, Smoot	☐
Other Lincoln County, WY _____	☐
Teton County, ID	
Driggs	☐
Victor	☐
Tetonia	☐
Other Teton County, ID _____	☐
Teton County, WY	
Jackson	☐
Alta	☐
Hoback	☐
Kelly, Moran, Colter Bay	☐
Rafter J Ranch, South Park	☐
Teton Village	☐
Wilson, Moose Wilson Road	☐
Teton or Yellowstone National Parks	☐
Other Teton County, WY _____	☐
Other Location _____	☐

2. Do you live in the region:
   - ☐ Year round or most of the year (i.e., 8-months or more)
   - ☐ Part time - How many months in each season? #____ Spring/Summer #____ Fall/Winter
     If part time – are you: ☐ part time resident ☐ seasonal employee ☐ Other_____

3. How long have you resided in the region and your current home?

	Lived In Region	Lived in Current Home
Less than 1 year	☐	☐
1 to 2 years	☐	☐
3 to 5 years	☐	☐
6 to 10 years	☐	☐
More than 10 years	☐	☐

4. When you last moved, how hard was it to find housing that met your needs and that you could afford?
   - ☐ Not difficult
   - ☐ Moderately difficult
   - ☐ Very difficult
   - ☐ I have yet to find such housing

5. How do you feel about the issue of people who work in the region being able to find suitable housing they can afford?
   - ☐ It is the most critical problem
   - ☐ One of the more serious problems
   - ☐ A problem among others needing attention
   - ☐ One of our lesser problems
   - ☐ I don't believe it is a problem

6. In what type of home do you live?
   - ☐ Single-family house/Cabin
   - ☐ Apartment or condominium
   - ☐ Townhome/duplex/triplex/fourplex
   - ☐ Mobile home
     - ☐ on rented space ☐ on owned land
   - ☐ Accessory dwelling/in-law/caretaker unit
   - ☐ Dormitory housing
   - ☐ Motel/Hotel
   - ☐ Tent/Camper/RV/Car/Van
   - ☐ Couch surfing/staying with friends
   - ☐ Other _____

7. How many bedrooms are in your home? #____

8. Which of the following best describes your current household (include yourself and others living in your home or dorm room)?
   - ☐ I live alone
   - ☐ Single parent with child(ren) at home
   - ☐ Couple, no child(ren) at home
   - ☐ Couple with child(ren) at home
   - ☐ Unrelated roommates
   - ☐ Immediate and extended family members
   - ☐ Family members and unrelated roommates
   - ☐ Other: _____

9. How many people live in your household? _____ # people in total ____ # under 18

10. Where within the region would you most like to live if housing you could afford is available?

	Where Do You Most Want to Live?
Lincoln County, WY	
Alpine	☐
Etna	☐
Star Valley Ranch	☐
Thayne	☐
Afton, Fairview, Smoot	☐
Other Lincoln County, WY _____	☐
Teton County, ID	
Driggs	☐
Victor	☐
Tetonia	☐
Other Teton County, ID _____	☐
Teton County, WY	
Jackson	☐
Alta	☐
Hoback	☐
Kelly, Moran, Colter Bay	☐
Rafter J Ranch, South Park	☐
Teton Village	☐
Wilson, Moose Wilson Road	☐
Teton or Yellowstone National Parks	☐
Other Teton County, WY _____	☐
Other Location _____	☐

11. Do you:
    - ☐ Own
    - ☐ Rent
    - ☐ Lease to own
    - ☐ Caretake
    - ☐ Other _____

12. Do you live in:
    - ☐ Free market housing
    - ☐ Restricted housing or employer-provided housing (such as deed restricted ownership; rentals with price, income or employment limits; etc.)

13. Within which age categories do household members fall (check all that apply)?
    - ☐ Under 5
    - ☐ 5 to 17
    - ☐ 18 to 29
    - ☐ 30 to 44
    - ☐ 45 to 64
    - ☐ 65 and over

14. Which choice best describes your satisfaction with your current residence?

Very Dissatisfied	Somewhat Dissatisfied	Somewhat Satisfied	Very Satisfied
1	2	3	4

15. Why are you not fully satisfied with your residence? (Respond if 1, 2, or 3 above)
    (Check all that apply)
    - ☐ Currently rent, prefer to buy
    - ☐ Too small/overcrowded
    - ☐ Too expensive
    - ☐ Needs repairs/poor condition (GOTO Q16)
    - ☐ Pets not allowed
    - ☐ Too far from work
    - ☐ Disturbance from nearby short term rentals
    - ☐ I need to have roommates and would prefer not to
    - ☐ Other reason _____

16. (IF "Needs repairs" checked in Q15) If your home needs repairs, why have repairs not been made? (CHECK ALL THAT APPLY)
    - ☐ Cost of repair - too expensive
    - ☐ Do not want to spend more money on the home
    - ☐ Unable to get qualified contractor
    - ☐ Landlord not taking responsibility
    - ☐ Have not notified the landlord – concerned I might lose my rental or have rent increased
    - ☐ Other_____

17. If you rent your home, have you been forced to move for any of the following reasons within the past 3 years? (MARK ALL THAT APPLY)
    - ☐ I do not rent my home
    - ☐ Had to move when rental was sold
    - ☐ Had to move when rental was converted into a short term/vacation rental
    - ☐ Had to move when the owner of my rental moved in
    - ☐ Had to move due to significant rent increase → how much was your last rent increase $_____
    - ☐ Other reason _____
    - ☐ NONE OF THE ABOVE – I have not been forced to move

18. (if any of b thru f selected above) How many times have you been forced to move over the past 3 years?
    #_____

19. Within the next 5 years do you plan to:
    - ☐ Stay in your current residence
    - ☐ Move into a different home within the region ---- Because you: ☐ want to ☐ have to (ANSWER Q20 to 23)
    - ☐ Leave the region ---------- Because you: ☐ want to ☐ have to (GOTO Q24)

      (if leaving) -> Why are you leaving the region? _____

IF YOU PLAN TO MOVE INTO A DIFFERENT HOME IN THE REGION:

20. If you will be moving within the region, do you prefer to:
    - ☐ Own
    - ☐ Rent
    - ☐ Either own or rent

21. How many bedrooms does your household need? #_____

22. Since land is expensive, sites suitable for housing are limited and construction costs are high, it may not be possible to build or provide the home you desire at your preferred price in the community where you most want to live. Trade-offs may be necessary, such as paying a higher price for a smaller home in your preferred community. Please rank the following home considerations, with 1 being the consideration that is most important to you (and that you are least willing to compromise on) and 4 being least important.

    Rank from 1 "most important" to 4 "least important"

    - ____ Location - a home in the community where you most want to live
    - ____ Price - a home that is the most affordable option for the minimum size you need; the best value.
    - ____ Size – number of bedrooms and space is important.
    - ____ Type – you want to live in your preferred home type (e.g., single family home, townhome, condominium, etc.).

23. Would you have interest in purchasing a deed restricted home in your preferred community/county of residence? This is home priced below market value so that it is affordable to purchase (affordable means that you pay no more than 30% of your income for mortgage). The deed restriction would limit resale price appreciation (typically to no more than 3% per year on average) and require that homes be sold to households with at least one person who works in your preferred county of residence.
    - ☐ I would purchase a deed restricted home to live in my preferred community
    - ☐ I would not purchase a deed restricted home
    - ☐ Unsure/need more information

24. How much do you have available for a down payment? *Include the portion of home equity you could spend on a down payment if you were to sell a home you now own.*

    $_____

25. How many adults (18 and over) in your household, including yourself, are:

_____# Employed
_____# Unemployed and looking for work
_____# Retired

If no one is employed in your household, please skip to Q. 40

26. How many full-time plus part-time jobs do employed adults in your household (persons 18 or over only) work year round and in each season? Enter the number of jobs you work and the number of combined jobs all other adults in your household work.

	Adult #1 (You)	Adult #2	Adult #3	Adult #4
# Year Round job(s)				
# Summer seasonal job(s)				
# Winter seasonal job(s)				

27. Where do you and other adults (persons 18 or over only) in your household work? (MARK ALL THAT APPLY) Please note the primary location of your job(s) for each season. If you work at the same job year round, please mark BOTH boxes.

YOU			OTHER WORKERS	
Summer	Winter	Work Location	Summer	Winter
		Lincoln County, WY		
☐	☐	Alpine	☐	☐

29. Do employed adults in your household:
    - ☐ Work at home/home office
    - ☐ Travel to a job/office for work
    - ☐ Both work at home and travel to another job/office location

30. If some adults in your household work at home, will they continue to work at home in the future? (MARK ALL THAT APPLY)
    - ☐ Yes, will work exclusively at home
    - ☐ Yes, will split time between home and business/job location
    - ☐ No, will no longer work at home
    - ☐ It depends upon the work policies of employer

31. When do you plan on retiring?
    - ☐ Within 2 years
    - ☐ Within 3 to 5 years
    - ☐ Within 6 to 10 years
    - ☐ More than 10 years from now

32. When commuting to work, how many days per week do you use each of the following modes of travel in an average week?

	Enter # days/week
1) Car (One person)	_____
2) Bus	_____
3) Carpool/Vanpool (2+ people)	_____
4) Bike or walk	_____
5) Telecommute.....	_____
6) Other: _____	_____

33. Please indicate which of the following types of help with housing you would consider for you and your household. *Use a scale of 1 =Would not consider to 5=Would definitely consider.*

	Would not consider/ do not need		Might consider		Would definitely consider	Don't know
Down payment assistance to buy a home	1	2	3	4	5	dk
Rent assistance to lower the amount you pay for rent	1	2	3	4	5	dk
Low interest rehabilitation loan for home improvements	1	2	3	4	5	dk
Assistance with security deposit/first month rent	1	2	3	4	5	dk
Utility payment assistance	1	2	3	4	5	dk
Other _____	1	2	3	4	5	dk

34. What is the race/ethnicity of all household members? Please check all that apply
    - ☐ Caucasian/Non-Hispanic White
    - ☐ Hispanic/Latino
    - ☐ African American/Black
    - ☐ American Indian
    - ☐ Asian
    - ☐ At least one household member is two or more races
    - ☐ Other _____

35. Do you speak a language other than English as your first language? ☐ Yes ☐ No

It is very important that we know about your income and housing expenses to fully understand housing needs. Please remember that this survey is confidential.

36. What is your household's estimated monthly cost of housing? (please enter "$0" if you do not pay any of the below)

$_____ Monthly Rent or Mortgage Payment
$_____ Monthly Taxes & Insurance (if not included in mortgage payment)
$_____ Monthly Utilities – gas, electric, water (if not included in rent)
$_____ Monthly HOA Fees, if applicable
$_____ Monthly Child care, if applicable

37. What is the estimated gross annual income of all household members combined (before taxes)? Please remember that this survey is CONFIDENTIAL.

$_____ per year

38. Do you have any additional comments related to housing in the area?_____
_____

Thank you very much for your participation!

4. **How long has your business or organization been in operation?**
   ☐ <1 year ☐ 1-2 years ☐ 3-5 years ☐ 6-10 years ☐ Over 10 years

5. **Including yourself, approximately how many employees does your business employ in each county at various times of the year?**
   ☐ I am the only employee in my business (SKIP the following tables) OR
   ☐ I employ other employees in my business (fill out applicable tables)

   (only the tables for those counties in which the business is located will appear in the online version)

Teton County, ID:

NUMBER OF EMPLOYEES (include yourself)	Base year round employment	Highest summer employment (Jun – Sept)	Highest winter employment (Nov – Mar)
Full time (30+ hours/week)			
Part time (30 hours or less per week)			

Lincoln County, WY:

NUMBER OF EMPLOYEES (include yourself)	Base year round employment	Highest summer employment (Jun – Sept)	Highest winter employment (Nov – Mar)
Full time (30+ hours/week)			
Part time (30 hours or less per week)			

Teton County, WY:

NUMBER OF EMPLOYEES (include yourself)	Base year round employment	Highest summer employment (Jun – Sept)	Highest winter employment (Nov – Mar)
Full time (30+ hours/week)			
Part time (30 hours or less per week)			

6. **About what percentage of your seasonal employees return to work for you from prior seasons?**
   _____**%**

7. **Do you typically hire J-1 employees?**
   ☐ Yes ☐ No

8. **(IF YES) How many J-1s have you hired:**
   2018/19 _____#
   Currently (2021) _____#
   In the future (2022/23) _____#

9. **How many positions with your business are currently unfilled?**

NUMBER OF UNFILLED JOBS	Year round jobs	Seasonal jobs
Full time (30+ hours/week)		
Part time (30 hours or less per week)		

10. **How would you rate your ability to find/attract qualified employees for your business?**
    Never a problem – can always find who I need (SKIP to Q13)
    - ☐ Slight problem
    - ☐ Moderate problem
    - ☐ Significant problem – almost always have unfilled jobs

11. **In the past year, have you experienced any of the following issues in finding or keeping qualified employees? (Select all that apply)**
    - ☐ Unskilled applicants
    - ☐ No/few applicants
    - ☐ Work ethic/dedication problems
    - ☐ Drug/substance abuse
    - ☐ Lack of housing
    - ☐ Lack of transportation
    - ☐ Lack of child care options
    - ☐ Long commute/tired of commuting
    - ☐ Other common issues _____
    - ☐ NONE OF THE ABOVE

12. **Please elaborate on the above:**_____

13. **How many people, in your estimation did not accept a job or left your employment in the past 12 months because they lacked or could not find housing they could afford in the area?**

    Left employment #_____

    Turned down employment # _____

14. **How many of your employees have been working for you for the following time periods?**
    _____# Less than one year
    _____# One to two years
    _____# Two to five years
    _____# Five to 10 years
    _____# 10 years or more

15. **Has your business experienced any of the following problems related to being understaffed? (Mark all that apply)**

2018/19	2020/21	
☐	☐	Employees covering multiple jobs/positions
☐	☐	Decreased level of service/unsatisfied customers
☐	☐	Employee dissatisfaction/frustration/burnout
☐	☐	Increased employee turnover
☐	☐	Unskilled employees filling positions
☐	☐	Inability to grow the business
☐	☐	Owner working extra hours to compensate for too few staff
☐	☐	Reduced business hours/periodically closed doors due to being understaffed → do you have any comments on estimated lost revenue or business hours?_____
☐	☐	NONE OF THE ABOVE/NOT APPLICABLE

16. **Do you have any other comments regarding business challenges encountered?**

    _____

17. To the best of your knowledge, where do your employees live? Please enter the approximate number of employees that reside in each location.

Introductory Section

Administration and Finance

December 27, 2023

To the Honorable Mayor, Members of the Town Council, and the Citizens of the Town of Jackson:

The Wyoming statutes require all cities, towns, and counties to issue an annual report on its financial position and activity prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), and audited in accordance with auditing standards generally accepted in the United States of America by a firm of licensed certified public accountants or the Wyoming Office of State Audit. Pursuant to that requirement, we hereby issue the Annual Comprehensive Financial Report (ACFR) of the Town of Jackson for the fiscal year ended June 30, 2023.

The Town of Jackson' financial statements have been audited by Jones Simkins LLC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Town of Jackson for the fiscal year ended June 30, 2023, are free of misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the Town of Jackson's financial statements for the fiscal year ended June 30, 2023, are fairly presented in conformity with GAAP.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A compliments this letter of transmittal and should be read in conjunction with it. The MD&A can be found on 11s 13-21.

PROFILE OF THE GOVERNMENT

The Town of Jackson, incorporated in 1914, is located in Teton County near the Wyoming and Idaho border south of the Grand Teton and Yellowstone National Parks. The town currently has a land area of nearly 4 square miles and an estimated population of 10,760. The Town of Jackson is empowered to levy 8 mills of property tax on both real and personal properties located within its boundaries. The Town implemented a property tax of 0.5 mills during 2022. This is the first property tax assessment by the Town since 1977. It is also empowered by state statute to extend its corporate limits by annexation, which is done periodically when deemed appropriate by the Town Council.

The Town of Jackson is governed by city code under Wyoming Statutes with a council-mayor form of government. Policy-making and legislative authority are vested in a Town Council consisting of the mayor and four council members. The Town Council is responsible, among other things, for passing ordinances, resolutions, adopting the budget, appointing commissions, authorities, and committees, and hiring the town manager, town attorney and municipal judge. The town manager is responsible for carrying out the policies and ordinances of the Town Council, for overseeing the day-to-day operations of the town government, and for appointing the heads of the various departments. The council is elected on a non-partisan basis. All four council members and the mayor are elected at large. Council members serve staggered four-year terms, with elections occurring every even year. Effective 2017, the mayor serves a four-year term.

The Town of Jackson provides a full range of services, including police and fire protection; construction and maintenance of streets and infrastructure; recreational facilities and pathways, water, sewage, and transit services. Additionally, the town owns rental properties for employees.

FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the Town of Jackson operates.

Local economy. The Town of Jackson is located at the southern entrance to Grand Teton and Yellowstone National Parks in the northwest corner of Wyoming. Dramatic mountain peaks, including the Tetons, the Gros Ventres, and Snow King form a breathtaking backdrop to our valley (called Jackson Hole). The Town of Jackson is home to a little over 10,700 people and another 12,900 live in the unincorporated county (Teton).

Jackson's economy is centered on tourism and lifestyle. Approximately four million guests visit each year and more than 700,000 skier days are tallied at the Jackson Hole Mountain Resort. The abundance of outdoor recreation opportunities, the unsurpassed scenic beauty, the prevalence of many species of wildlife, the lack of individual state income tax, and the high quality of life give Jackson unsurpassed appeal as a place to live, visit and recreate.

At fiscal year-end, the Town of Jackson's employment picture, at a 1.7% unemployment rate (Teton County), is healthier than the 3.8% national average. The state of Wyoming has an unemployment rate of 3.1%.

FINANCIAL INFORMATION

Management of the town is responsible for establishing and maintaining internal control designed to ensure that the assets of the government are protected from loss, theft, or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgments by management.

This report consists of management's representations concerning the finance of the town. As a result, management assumes full responsibility for the completeness and reliability of all the information and content presented in this ACFR. Additionally, management asserts that, to the best of their knowledge and belief, this financial report is complete and reliable in all material respects.

Budgetary Controls. The annual budget serves as the foundation for the Town of Jackson's financial planning and control. All departments, authorities, and commissions of the town submit requests for appropriation to the town manager in February of each year. The town manager uses these requests as the starting point for developing a proposed budget. The town manager then presents this recommended budget to the council for review prior to May 15. The council is required to hold public hearings on the proposed budget and to adopt a final budget no later than June 30, the close of the town's fiscal year. The appropriated budget is prepared by fund, function (e.g., public safety), department (e.g., police), and division (e.g., patrol). Department heads may make transfers of appropriation within a departmental division. Transfers of appropriations between funds and departments, however, require the approval of the Town Council. Budget-to-actual comparisons are provided in this report for each individual governmental fund which an appropriated annual budget has been adopted. For the general fund and major special revenue funds, this comparison is presented starting on page 28 of the basic financial statements. For non-major special revenue funds, with appropriated annual budgets, this comparison is presented in the governmental fund subsection of this report, which starts on page 65.

Long-term Financial Planning. The Town's strategic vision is laid out in a Council bi-annual Work Plan, supported by a five-year financial model and Capital Improvement Program. The Plan identifies the Town's strategic intent and identifies areas for emphasis and funding. The Town's near-term and long-term fiscal planning are focused on accomplishing Work Plan objectives. A five-year financial model and Capital Improvement Program are maintained to assess the attainability and sustainability of these objectives.

The Town Council supports and understands that the main area of focus for the Town of Jackson is the provision of core services, maintaining the current level of service already supported and approved through the annual budget, and most importantly those services that directly contribute to and maintain the health, safety, and welfare of the citizens and guests to our community. A brief summary includes:

Safety and security provided through law enforcement, fire protection, building safety and inspection, animal control, contractor licensing, and municipal court and prosecution services.

Infrastructure, facility and public asset management provided through street, sidewalk and right of way maintenance and snow removal services, engineering, preventive and proactive facility management, and parking enforcement.

Health and well-being provided through water treatment and distribution, sewer collection and treatment, emergency medical services, and victim services.

Development and economic oversight provided through code compliance, planning and development review, permit processing, and business, liquor, taxi, special event, and rental licensing.

Accessibility and livability provided through public transit, community and affordable housing, parks and recreation, and pathway creation and maintenance.

Internal services for the Town of Jackson organization that support the efficiency and effectiveness of our local government provided through information technology support, records management and access, fleet maintenance, public information, legal services, personnel services, financial accounting, and overall coordination, administration, leadership and management of government services and day to day operations.

Major Budget Initiatives.

To continue to be a resilient community, we will need to preserve and maintain General Fund Reserves to have the resources to adapt to uncertain times ahead. Looking ahead, recurring expenses are expected to exceed recurring revenues. We must continue evaluating our revenue streams and expenditures, to determine how to ensure a balanced budget into the future.

Due in part to COVID-19 pandemic we reinforced the importance of our fiduciary responsibility to maintain and continue building a strong, resilient community in the short, mid, and long-term. Due to years of prudent budgeting and planning, the Town was able to respond to reduced revenues projected and maintain a well-resourced and responsive Town government to close fiscal year 2023.

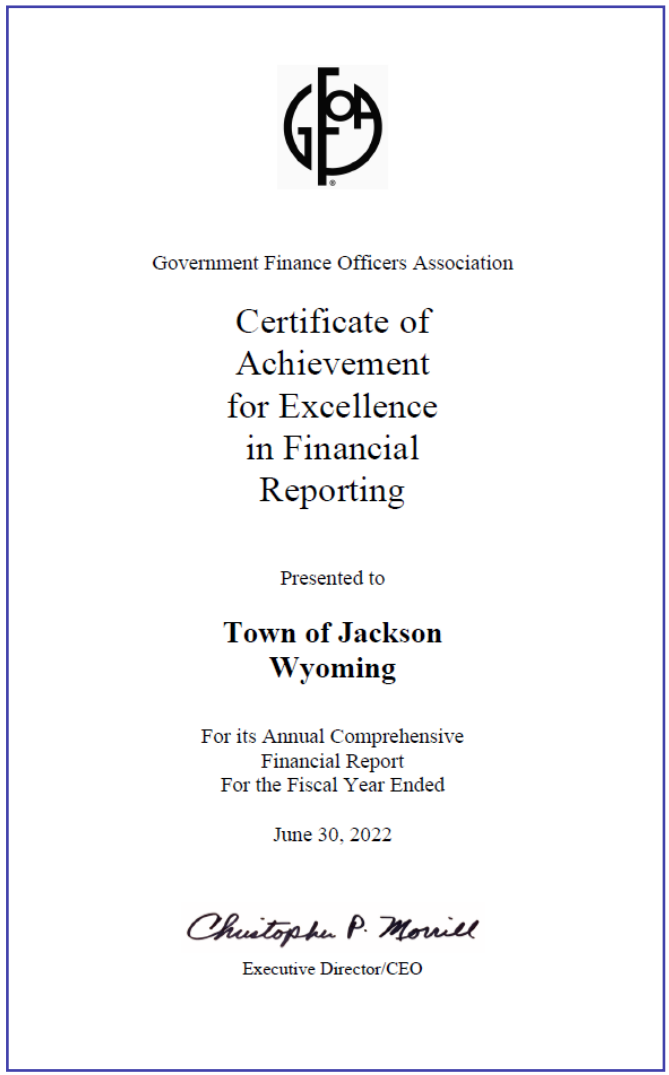
The Town will need to prioritize our core services, capital projects and consider reducing funding to the areas of lower priority and/or work to consider a new funding source(s) to maintain current Town program services and capital improvement projects. As our community changes, various core services continue to see increased need year-over-year. The Town simply does not have the capacity to absorb such continuous growth without increasing revenue or reducing existing program services and capital projects.

Single Audit. As a recipient of federal awards, the town is also responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations related to those programs. The internal controls are subject to periodic evaluations by town management and external auditors.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Jackson, Wyoming for its comprehensive financial report for the fiscal year ending June 30, 2022. This is the 37th year the town has received this prestigious award. In order to be awarded the Certificate of Achievement, the government must publish an easily readable and efficiently organized annual comprehensive financial report. This report satisfies both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program's requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.



The preparation of this report could not be accomplished without the professional, efficient services of the Finance Department staff. We would like to express our appreciation to all members of the staff, with special recognition for the assistance contributed by Finance Manager Melanie Adams and Senior Deputy Treasurer Pauline Scholes. Due credit also should be given to the mayor and the council for their support in planning and conducting the operations of the town in a responsible and progressive manner.

Certificate of Achievement for Excellence in Financial Reporting

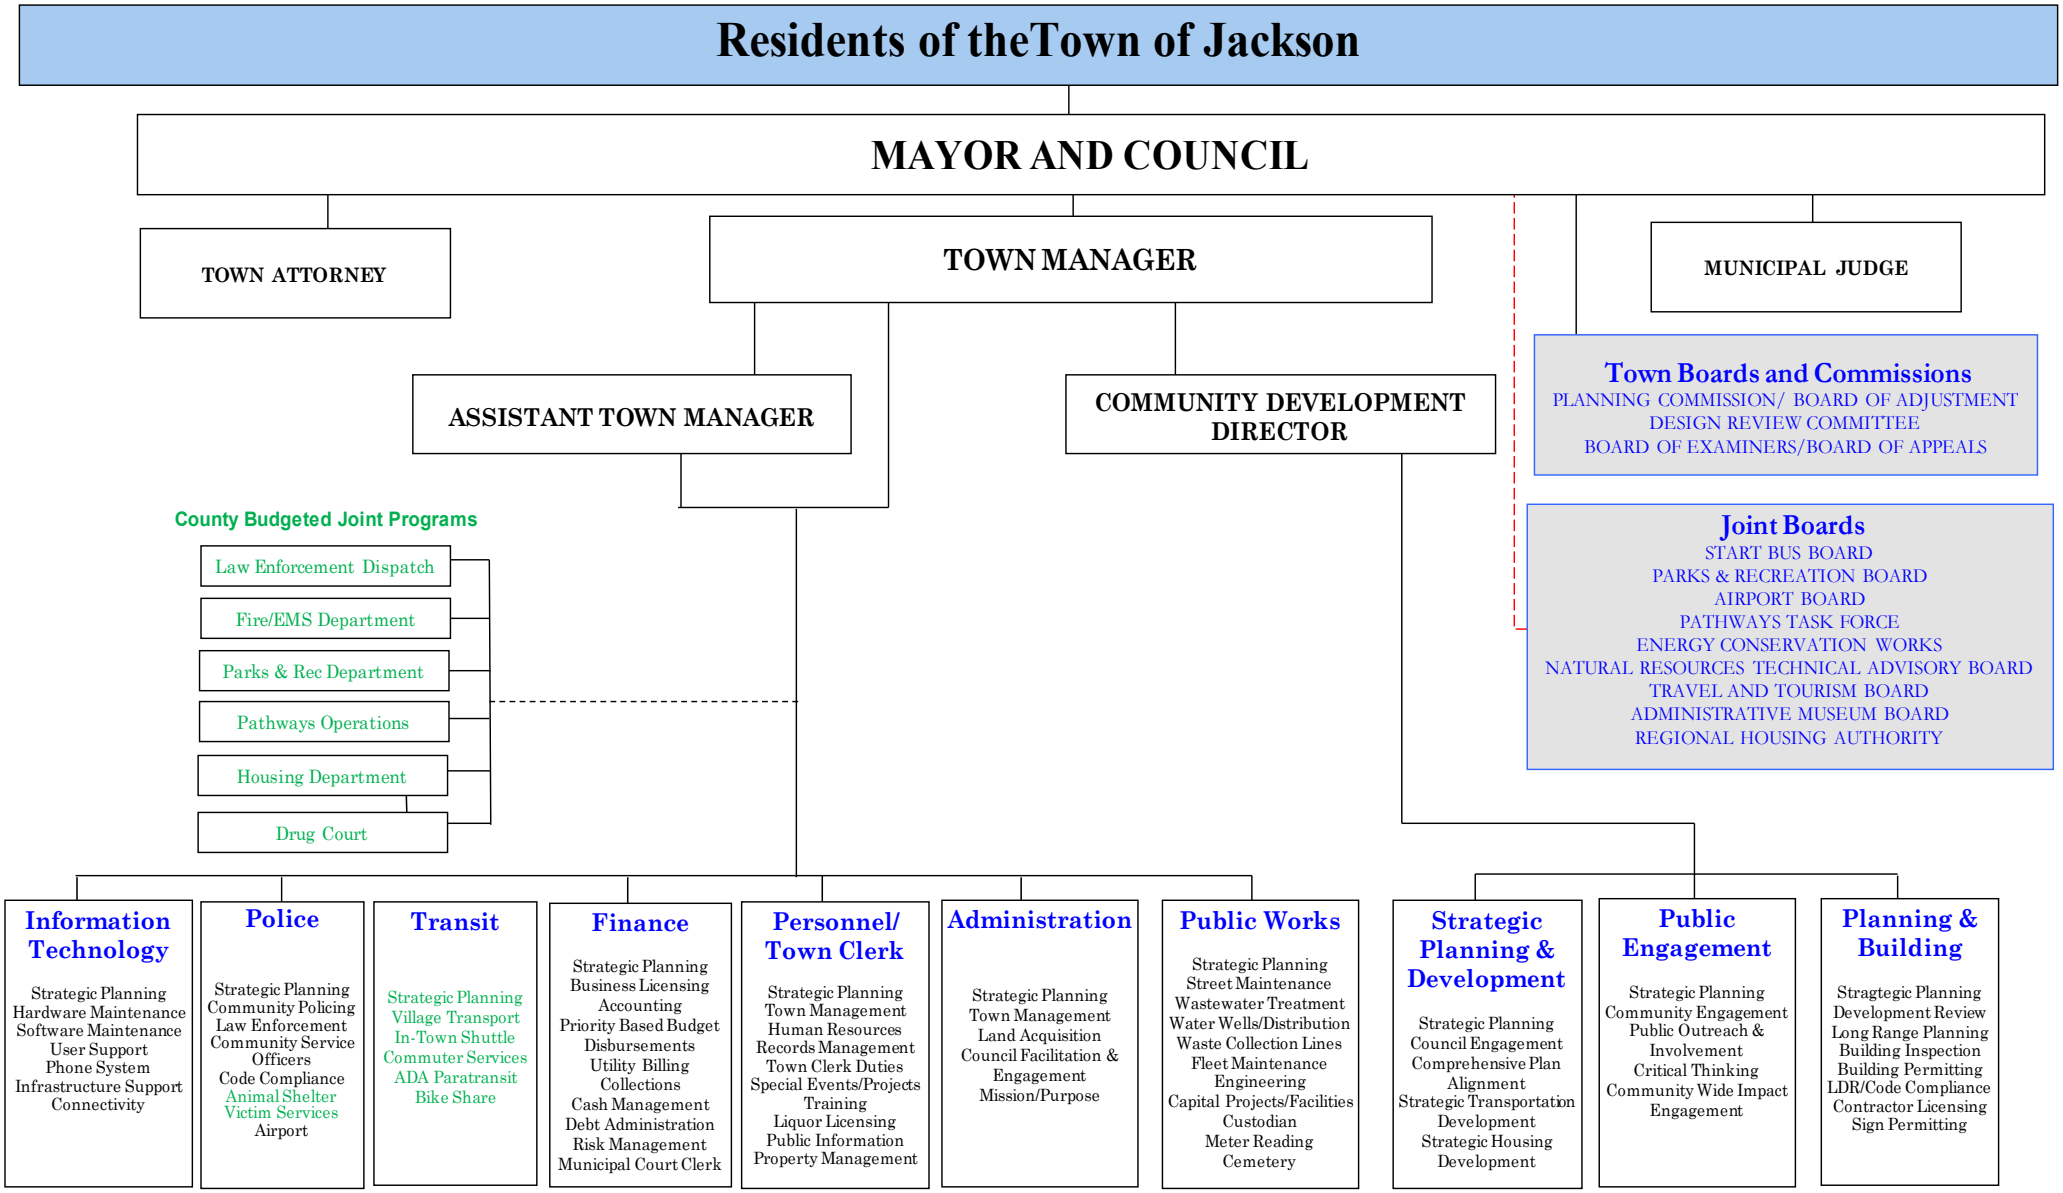
Presented to

Town of Jackson Wyoming

For its Annual Comprehensive Financial Report For the Fiscal Year Ended

June 30, 2022

Christopher P. Morrill



Executive Director/CEO

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate for Excellence in Financial Reporting to the Town of Jackson, Wyoming for its annual comprehensive financial report for the fiscal year ended June 30, 2022.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

INDEPENDENT AUDITOR'S REPORT

To the Mayor and Town Council
Town of Jackson, Wyoming

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Jackson, Wyoming (the Town), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town, as of June 30, 2023, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund and START Bus System Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Independent Member of PrimeGlobal | The Association of Advisory and Accounting Firms

Responsibilities of Management for the Financial Statements

The Town's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of proportionate share of the net pension liability, and the schedule of contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The supplementary information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Change in Accounting Principle

As described in the notes to the financial statements, the Town adopted new accounting guidance, GASB Statement No. 96, Subscription-Based Information Technology Arrangements. Our opinion is not modified with respect to this matter.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 27, 2023 on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of the Town of Jackson (Town), we offer readers of the Town's basic financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2023. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1-4 of this report.

OVERVIEW OF THE BASIC FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

COMPONENTS OF THE ANNUAL FINANICAL REPORT

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the Town of Jackson's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the Town's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The statement of activities presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net positions are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the Town of Jackson that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town include general government, public safety, public works, health and welfare, community development, transit, and recreation and culture. The business-type activities of the Town include water and sewage utilities.

The government-wide financial statements can be found on pages 22-23 of this report.

Fund financial statements. The fund financial statements focus on current available resources and are organized and operated on the basis of funds, each of which is defined as fiscal and accounting entity with a self-balancing set of accounts established for the purpose of carrying on specific or attaining certain objectives in accordance with special regulations, restriction or limitations. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories: governmental funds, and proprietary funds. The Town does not maintain any fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Town's near term

financial decisions. Both the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and change in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town maintains four major governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, one special revenue fund, and two capital project funds, all of which are considered major funds. Data from eleven other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The Town adopts an annual appropriated budget for its general and special revenue funds. A budgetary comparison statement has been provided for those funds to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 24-30 of this report.

Proprietary funds. The Town of Jackson maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the governmental-wide financial statements. The Town uses enterprise funds to account for its water and sewage operations. Internal service funds are accounting devices used to accumulate and allocate costs internally among the Town's various functions. The Town uses internal service funds to account for its fleet management, employee insurance (self insurance), information technology (IT), and central equipment operations. Because all of these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water and sewage utilities. Both are considered major funds of the Town. Conversely, all internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 31-35 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are not reported in the governmental-wide financial statements because the resources of those funds are not available to support the Town of Jackson's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The Town of Jackson currently maintains no fiduciary funds.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the financial statements can be found on pages 36-56 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the Town's funding obligation related to participation in a defined benefit plan. Required supplementary information can be found on pages 57-60 of this report.

The combining statements referred to earlier in connection with non-major governmental funds and internal service funds can be found immediately following the required supplementary information.

Combining and individual fund statements can be found on pages 61-75.

FINANCIAL HIGHLIGHTS

- The Town's net position (assets and deferred outflows of resources minus liabilities and deferred inflows of resources) increased by 8.8% as a result of this year's operations. The net position of the Town's governmental activities increased $19,915,715 (10.8%) and net position of the Town's business-type activities increased $454,813 (1.0%).
- Overall, capital assets (net of accumulated depreciation and amortization) increased $25,374,043. Capital assets of governmental activities increased $25,283,216 (20%) and capital assets of business-type activities increased $90,827 (0.3%). Significant governmental capital assets acquisitions included: $15,065,925 for Core Services Maintenance Facility construction, $5,271,683 for 12 transit buses, $2,282,561 in street and sidewalk improvements, and $609,581 in fleet equipment and vehicles. Significant business-type capital assets acquisitions included: $654,089 in water line infrastructure, $156,669 for well #9 development, and $416,131 in sewer line installation. The capital increases in the business activities are offset by $1,712,635 in current year depreciation and amortization.

- The Town's long-term liabilities increased $6,887,382 (63%). The increase was a result of a $6,168,664 increase in net pension liability, $520,005 increase in lease liabilities and $278,519 increase in subscription liability to implement GASB 96. See note I-J "Implementation of new accounting principles" on page 43 for detailed disclosure.
- At the close of the current fiscal year, the Town's governmental funds reported total ending fund balances of $61,048,419, a decrease of $3,583,517 (6%). The decrease is mainly due to a $6,556,465 decrease in the 2019 SPET Fund for construction of the Core Services Maintenance Facility.
- The General Fund's total fund balance decreased $6,153,012 (25%) to $18,726,713. The ending fund balance is 48% of General Fund expenditures. $4,035,491 of the fund balance is assigned to the FY2024 budget to fund several one-time projects.

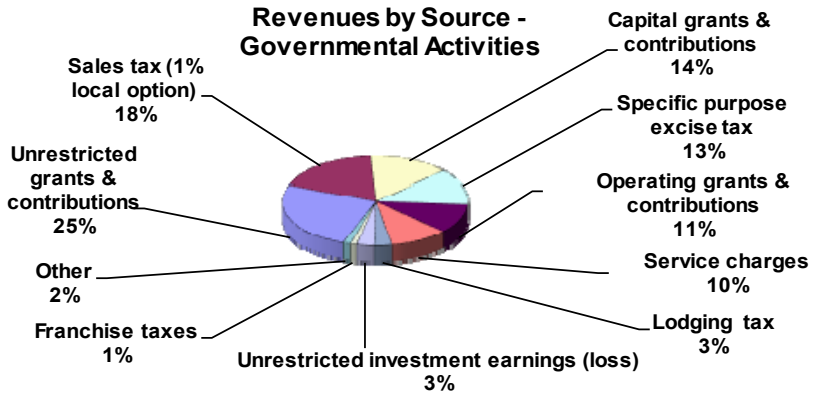
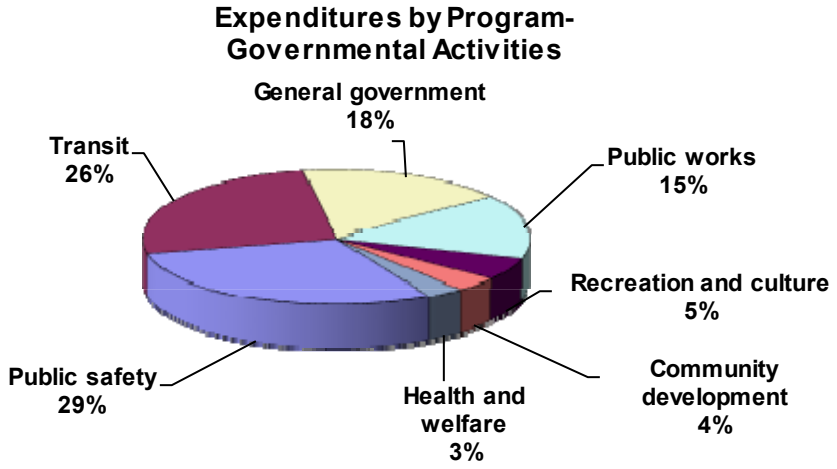
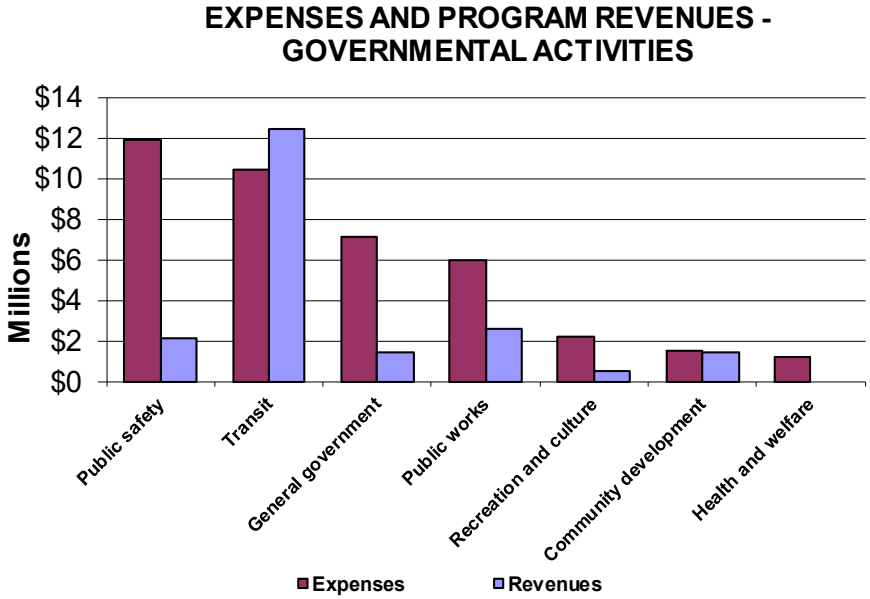
Unrestricted	38,726,212	34,038,953	13,542,349	13,052,610	52,268,561	47,091,563
Total net position	$ 204,059,247	$ 184,143,532	$ 47,007,496	$ 46,552,683	$ 251,066,743	$ 230,696,215



By far the largest portion of the Town's net position (74%) reflects investments in capital assets (e.g. land, buildings, structures, systems, machinery, equipment, infrastructure, and intangible assets), net of any related debt used to acquire those assets that is still outstanding. The Town uses assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's investment in capital assets is reported net of related debt, it should be noted that resources needed to repay this debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.



A small portion of the Town's net position (7%) represents resources that are subject to external restrictions on how they can be used. The $8,183,886 decrease in governmental activities restricted net position is primarily due to 2019 Special Purpose Excise Tax (SPET) project expenditures for Core Services Maintenance Facility.



The remaining unrestricted net position of $52,268,561 may be used to meet one-time obligations to citizens and creditors. Of the unrestricted net positions, $13,542,349 (26%) is attributable to business-type activities. The unrestricted governmental activities net position increased $4,687,259 (14%), while business-type activities unrestricted net position increased $489,739 (3.8%). The government-wide total unrestricted net position increase of $5,176,998 (9.9%) is primarily due to specific purpose excise tax increases and interest earnings. Business-type capital assets increased by $90,827 (0.3%) due to FY2023 additions previously discussed.

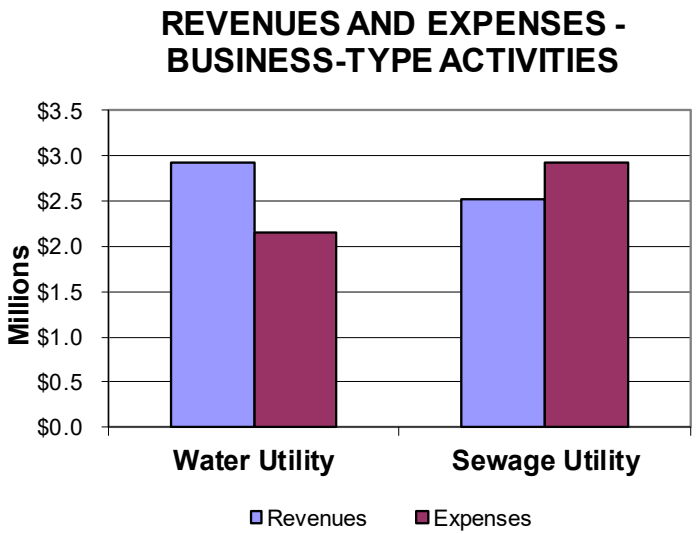
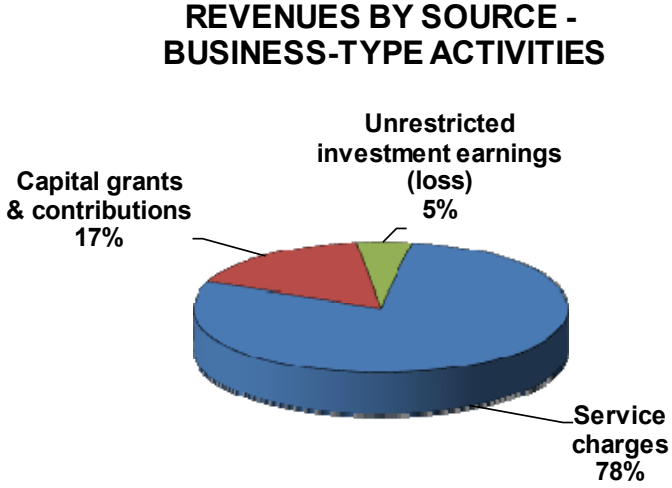
Governmental Activities. The most significant revenue (25%) of the governmental activities are $14.8M in unrestricted grants and state shared revenue. The majority of the revenue in the state-shared category consists of the 4% state-shared sales and use tax ($12.9M) followed by federal mineral royalties ($.5M), gasoline tax ($.5M), severance tax ($.4M) and in various Teton County reimbursements ($.4M). The 1% local option (5th cent) sales tax makes up the second highest source of revenue ($10.5M or 18%) in the governmental funds. The revenue generated from the 5th cent sales tax is split evenly between the general fund and capital projects fund. Capital grants and contributions make up the third highest source of revenue ($8.2M or 14%) in the governmental funds.

Public Safety (police, fire/EMS, building inspector, victim services, animal shelter and dispatch) expenses (29%) was the most significant followed by Transit (26%), General Government (18%), Public Works (15%), Recreation and Culture (5%), Community Development (4%), and Health and Welfare (3%). Included in these amounts is $5,781,952 of depreciation and amortization expense, which is 14% of the total expenses for governmental activities.



Governmental revenues increased $15,143,935 (35%), in the current year, with the most significant portion of the increase attributable to higher capital grants and contributions ($7,042,264) and operating grants and contributions ($2,616,043). Capital grants were significantly higher due to federal grants for



twelve transit bus purchases. Operating grants were higher due to Teton County and federal matches for START Bus System service increases.

Governmental activities expenses increased $6,587,391 (20%) in the current year. The most significant changes in program expenses were as follows:

- General government expenses increased $425,051 (6%). The majority of the increase is due to total compensation increases.
- Public safety expenses increased $2,375,381 (25%). The increase is related to pension expense, total compensation increases, and contributions to Dispatch (Teton County).
- Public works expenses increased $817,803 (16%). The increase is related to increases in total compensation and street maintenance.
- Health & Welfare expenses increased $205,878 (20%) to meet request increases from local non-profits.
- Transit operating expenses increased $2,583,999 (33%). The increase is related to total compensation increases, increased service levels and BUILD grant administration.
- Recreation and culture expenses decreased $500,086 (19%), primarily due to a decrease in operating match for Parks and Recreation (Teton County) department.
- Interest expense increased $24,725 (82%) due to GASB 87 lease and GASB 96 subscription arrangement accounting.

There were no other programs with significant or unusual changes.

Business-type activities. Business-type activities increased the Town's net position by $454,813 (1%). In the prior year, the business-type activities increased the Town's net position by 397,212 (0.9%).

Key elements of the change are as follows:

Water Fund operating revenues increased $312,480 (12%), which is reflective rate increases effective July 1, 2022. Sewage Fund operating revenues increased $151,300 (6%), rate increases effective July 1, 2022.

Capital grants and contributions totaled $1,174,196, 31% higher than the prior year total of $897,205. Capital grants and contributions include capacity and tap fees charged to new customers and intergovernmental grants for capital improvements. Capacity and tap fees increased due to a few large developments in the current year coupled with fee increases. Depreciation and amortization expenses in the water and sewage utilities for fiscal year 2023 were $699,865 and $1,012,750, respectively.

FINANCIAL ANALYSIS OF THE TOWN'S FUNDS

Governmental funds. The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, spendable fund balances may serve as a useful measure of a government's net resources available for expenditure at the end of the fiscal year.

At June 30, 2023, the Town's governmental funds reported total ending fund balances of $61,048,419, a decrease of $3,583,517 (6%) when compared with the prior year. Nearly 30% or $18,054,440 of the total ending fund balances constituted restricted fund balances, which are considered unavailable for appropriation for general operations. The prior year restricted fund balances totaled $26,238,326. The decrease is mostly attributable to 2019 SPET project expenditures for the Core Services Maintenance Facility exceeding tax revenues.

At the end of the fiscal year, the General Fund reported a fund balance of $18,726,713 decreasing $6,153,012 (25%) from the prior year. General fund operating revenues were $1,673,209 (6%) more than the prior fiscal year and operating expenditures increased by $2,348,567 (12%). Transfers in increased by $557,215 (42%), primarily due to indirect cost allocations for staff. Transfers out increased by $8,967,912 (115%). This is due to one-time transfers to the Capital Projects Fund to fund multiple, large capital projects.

General Fund expenditures increased $2,348,567 (12%). Salaries and salary related expenditures (Wyoming Retirement, Workers' Compensation, health insurance, etc.) increased $1,303,468 (13%) for all functions. Increase is primarily due to wage increases and 3.5 additional full-time equivalents.

The START Bus System Fund net change in fund balance was negative by $214,997 (11%). Operating expenditures were $14,812,016. Much of the fund balance decrease is due to labor increases and contracted services to meet approximately 7,000 additional service hours. There were $6,289,989 in capital outlays during the fiscal year related to purchasing twelve transit buses. Intergovernmental revenues increased to $10,477,320 from the prior year total of $3,735,481. This is due to US Department of Transportation grant matches of approximately 80% for eleven bus purchases. Transit fares increased $36,169 from the prior year reflecting increased ridership. The Town contributed $1,797,732 and Teton County contributed $1,928,990 for a total of $3,726,722 to the fund in fiscal year 2023.

The 5th Cent Capital Project Fund saw its fund balance increase $12,127,222 (271%) to $16,599,149. The General Fund transferred $16,106,207 in 5th Cent sales tax to the fund in FY2023, an increase of $9,855,965 from FY2022. This is due to one-time transfers to the Capital Projects Fund to fund multiple, large capital projects.

The 2019 SPET Fund saw its fund balance decrease $6,556,465 to $11,548,282. This is due to construction beginning on the Core Services Maintenance Facility and project expenditures exceeding tax collections. This fund will collect taxes specific to voter approved projects and begin to decrease when those projects begin in future years.

Proprietary funds. The proprietary funds financial statements provide the same type of information found in the government-wide financial statements, but in greater detail.

The water utility's net position increased $536,869 (3%) from the prior fiscal year. In 2023, operating revenues increased $312,480 (12%). Capital contributions increased to $299,683 from $224,754 in the previous year (33%). Operating expenses increased $158,281 (8%) to $2,110,181. The 2023 operating income of $821,586 includes $699,885 in depreciation and amortization.

The sewage utility's net position decreased $92,663 (.3%) in the fiscal year ending June 30, 2023. Sewage utility operating revenues increased $151,300 (6%) to $2,524,540 and the utility's operating expenses increased $514,075 (21%) to $2,946,328. Capital contributions increased $202,062 (30%) from $672,451 to $874,513. The $421,788 operating loss includes $1,012,750 in depreciation and amortization.

Other factors of the changes in income from operations have previously been discussed in the government-wide financial analysis of business-type activities.

GENERAL FUND BUDGETARY HIGHLIGHTS

The differences between the 2023 original budget and the final amended budget are adopted by council resolution throughout the year.

General Fund revenues totaled $30,636,180 and fell short the final budget by $655,548 (2%). General taxes and intergovernmental revenues were $615,452 (5%) and $748,737 (5%) lower than budget, respectively. This is due to sales tax related revenues which were budgeted to increase 8% over FY2023 actuals. However, this major revenue source increased 3.1%. This decrease is directly attributable to tourism and sales tax generating transactions returning to historical norms after the COVID-19 pandemic spikes.

General Fund operating expenditures totaled $21,909,840. This was $2,774,217 (11%) less than the final amended budget and $2,504,887 (10%) less than the adopted budget. Including transfers out, supplemental appropriations from budget amending council actions increased the original budget by $434,987 (1%). The majority of this increase was for a mid-year compensation study implementation resulting in employee wage and benefit increases. In fiscal year 2023, no divisions finished the year over budget.

The General Fund year end fund balances since 2013 are as follows:

Year	Amount	Year	Amount
2014	$ 5,450,770	2019	$ 8,683,289
2015	7,049,752	2020	12,158,856
2016	7,484,300	2021	18,020,470
2017	7,650,890	2022	24,879,725
2018	8,329,716	2023	18,726,713

Capital assets. The Town's investment in capital assets for its governmental and business-type activities at June 30, 2023 totaled $184,312,617 (net of accumulated depreciation and amortization). This investment in capital assets included land, construction in progress, structures, systems, machinery and equipment, intangible assets, right to use assets and infrastructure. Right to use assets – subscription asset is a new asset implemented this fiscal year due to GASB 96 as previously discussed.

Major governmental activities capital assets include: $15,065,925 for Core Services Maintenance Facility construction, $5,271,683 for 12 transit buses, $2,282,561 in street and sidewalk improvements. The total government-wide capital asset increase over the prior fiscal year is approximately $25,374,043; governmental activities increased 20% and business-type activities increased 0.3%.

Additional information on the Town's capital assets can be found in the notes to the financial statements on pages 47-48.

Long-term liabilities. The Town's outstanding long-term liabilities--including notes payable, accrued interest payable, and net pension liability—totaled $17,904,166 at June 30, 2023. Governmental long-term and business-type long-term liabilities increased primarily due to net pension liability increase and GASB 96 subscription liability implementation.

Additional information on the Town's long-term liabilities can be found in the notes to the financial statements on pages 50-56 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- The unemployment rate for the Teton County, Wyoming area for June 30, 2023 was 1.7%, which is below the state average (3.1%) and below the national average (3.8%).
- Due in part to COVID-19 pandemic we reinforced the importance of our fiduciary responsibility to maintain and continue building a strong, resilient community in the short, mid, and long-term. Due to years of prudent budgeting and planning, the Town was able to respond to reduced revenues projected and maintain a well-resourced and responsive Town government to close fiscal year 2023.
- To continue to be a resilient community, we will need to preserve and maintain General Fund Reserves to have the resources to adapt to uncertain times ahead. Looking ahead, recurring expenses are expected to exceed recurring revenues. We must continue evaluating our revenue streams and expenditures, to determine how to ensure a balanced budget into the future.
- The Town will need to prioritize our core services, capital projects and consider reducing funding to the areas of lower priority and/or work to consider a new funding source(s) to maintain current Town program services and capital improvement projects. As our community changes, various core services continue to see increased need year-over-year. The Town simply does not have the capacity to absorb such continuous growth without increasing revenue or reducing existing program services and capital projects.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Town's finances for all those interested in governmental finance. Questions concerning any information in the report or requests for additional information should be addressed to Town of Jackson, Finance Department, P.O. Box 1687, Jackson, WY 83001.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities
Year Ended June 30, 2023

Net change in fund balances--total governmental funds		$ (3,583,517)
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds reported capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation and amortization expense. This is the amount by which capital outlays exceeded depreciation and and amortization expense.		
Capital outlays	$ 29,981,614	
Depreciation and amortization	(4,997,243)	24,984,371
Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.		49,302
The net effect of transactions involving net pension liability, deferred outflows of resources related to pensions, deferred inflows of resources related to pensions, and pension expense is to decrease net position.		(1,251,524)
The net effect of transactions involving leases issued, debt service on lease liabilities, and lease conversion is to decrease net position.		(436,824)
Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of the internal service funds is reported with governmental activities.		153,907
Change in net position of governmental activities		$ 19,915,715

The notes to the financial statements are an integral part of this statement.

I. Summary of significant accounting policies

A. Description of government-wide financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. Governmental activities, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees and charges to external customers for support.

B. Reporting entity

The Town of Jackson was incorporated in 1914 and is a municipal corporation governed by an elected mayor and four-member governing council. The five-member mayor-council is elected on staggered, even-numbered years. The mayor and council members are elected at-large to four-year terms. The governing body appoints a manager to implement policies and oversee daily operations.

The accompanying financial statements present the governmental entities for which the government is considered to be financially accountable. The Town does not report any component units.

C. Basis of presentation - government-wide financial statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the Town's enterprise funds. Separate financial statements are provided for governmental funds and proprietary funds.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of inter-fund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

D. Basis of presentation - fund financial statements

The fund financial statements provide information about the Town's funds. Separate statements for each fund category; governmental and proprietary, are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The Town reports the following major governmental funds:

- The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.
- The 5th cent capital projects fund accounts for the acquisition and construction of the government's major capital facilities, other than those financed by the propriety funds and Specific Purpose Excise Tax (SPET) funds.
- The Southern Teton Area Rapid Transit (START) fund is a special revenue fund. It accounts for operational and capital transit system expenditures primarily financed by state and federal transit grants.
- The 2019 SPET fund accounts for expenditures related to the revenue generated by the 2019 specific purpose excise tax.

The Town reports the following enterprise funds:

- Water Fund. This enterprise fund accounts for the operations of the Town-owned water treatment and distribution system.
- Sewage Fund. This enterprise fund accounts for the operations of the Town-owned sewage collection and treatment system.

Additionally, the Town reports the following fund type:

Internal Service Funds. The operating activities for Employee Insurance, Fleet Management, Central Equipment, and Information Technology (IT) Services are reported in internal service funds because they provide services to other Town departments on a cost reimbursement basis.

During the course of operations, the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal service fund balances in the business-type activities column. Internal service fund services provided and used by other funds are not eliminated in consolidation. No overhead costs are charged to internal service funds requiring elimination.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

E. Measurement focus and basis of accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital outlay related to leases are reported as other financing sources.

Property taxes, sales taxes, franchise fees, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the government.

The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting.

F. Budgetary information

1. Budgetary basis of accounting

The Town uses the following procedures in establishing the budgetary data reflected in the accompanying financial statements:

- According to the laws of the State of Wyoming, all town budgets must be approved by their governing board not later than the third Tuesday in June.
- In May, the recommended budget for the following fiscal year is presented by the Town Manager to the Town Council. The budget includes recommended expenditures and the means of

financing them. Public meetings are held to obtain citizen comment.

- Prior to June 30, the Town Council legally adopts the budget through the passage of a resolution. The resolution sets the limit for expenditures for the year.
- The maximum legal expenditure permitted for the year is the total budget as adopted. The expenditure appropriations in the adopted budget are maintained in the Town's financial system by department within individual funds. Departmental appropriations may be amended during the year if approved by Council in the form of a budget amendment resolution.
- Department directors are generally authorized to transfer budgeted amounts within any specific department's expenditure appropriation. Any budget revisions requiring a transfer between departments must be approved by the Town Council. Additionally, budget revisions involving personnel or capital asset expenditures/expenses must be approved by the Town Council.
- Appropriations in all budgeted funds lapse at the end of the fiscal year even if they have related committed contracts. While all appropriations lapse at year end, valid outstanding committed contracts (those for which performance under the executory contract is expected in the next year) are re-appropriated and become part of the subsequent year's budget.

2. Excess of expenditures over appropriations

For the year ended June 30, 2023, expenditures exceeded appropriation in the Employee Housing Fund. This was due to GASB 87 implementation, non-cash basis budgetary transaction. Through four formal supplementary appropriations, the General Fund original budget increased 1%. Actual expenditures and other uses are 7.9% under the final amended budget.

G. Assets, liabilities, deferred outflows/inflows of resources, and net position/fund balance

1. Cash and cash equivalents

The government's cash and cash equivalents are cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

2. Investments

Cash and investment balances from all funds are combined and invested to the extent authorized by state statutes and Town investment policy. Earnings from such investments are allocated to respective funds on the basis of applicable cash balance participation by each fund. The interest receivable balance is reported as one amount in the General Fund while all other funds receive interest revenue distributions in cash.

Investments for the Town are reported at fair value.

3. Receivables

Account (trade) receivables are carried at original billing amount less an estimate made for doubtful receivables based on a review of all outstanding amounts on a regular basis. Management determines the allowance for doubtful accounts by identifying troubled accounts and by using historical experience applied to an aging of accounts. With council approval, trade receivables are written off when deemed uncollectible. Recoveries of trade receivables previously written off are recorded when received.

A receivable is considered past due if any portion of the receivable balance is outstanding for more than 30 days. Interest is charged on receivables that are outstanding for more than 30 days. Accrual of interest is not suspended until a receivable is determined to be uncollectible. Provisions for bad debts would be insignificant and immaterial and none has been made for 2023.

4. Short-term interfund receivables/payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet. Short-term inter-fund loans are classified as "interfund receivables/payables." Due to and due from other funds are closed to cash and cash equivalents at year end.

5. Inventories, prepaid items, and deposits

Materials and supplies are valued at cost, which approximates market value, using the first-in/first-out (FIFO) method. The consumption method is used to account for inventories. Inventory costs are recorded as expenditures when individual inventory items are consumed. In governmental funds, reported inventories are equally offset by nonspendable fund balance amounts, indicating that they do not constitute "available spendable resources" even though they are a component of net current assets. The net change in nonspendable fund balances is not presented because the combined statements of revenues, expenditures, and changes in fund balances reflects

the changes in total fund balances rather than just the spendable and nonspendable fund balances.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Certain payments made to lessors are considered security deposits. These funds are considered assets that will be returned. In the event any deposit is kept by lessor, an expenditure/expense will be recorded.

6. Leases and Service-Based IT Arrangements (Subscription)

A. Town as Lessee

The Town is a lessee for various buildings and an easement. The Town recognizes a lease liability and an right-to-use lease asset (lease asset) in the government-wide financial statements. The Town recognizes lease liabilities with an initial, individual value of $50,000 or more and the lease must be longer than one year including expected extensions.

At the commencement of a lease, the Town initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life. Key estimates and judgments related to leases include how the Town determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The Town uses the interest rate charged by the vendor as the discount rate. When the interest rate charged by the lessor is not provided, the Town generally uses its estimated incremental borrowing rate as the discount rate for subscription agreements.
- The lease term includes the noncancellable period of the lease.
- Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the Town is reasonably certain to exercise.

The Town monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

B. Town as Lessor

The Town is a lessor for multiple facilities and easements. The Town recognizes a lease receivable and a deferred inflow of resources in the government-wide and governmental fund financial statements.

At the commencement of a lease, the Town initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments include how the Town determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The Town uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease.
- Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The Town monitors changes in circumstances that would require a remeasurement of its lease, and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

C. Subscription based IT Arrangements

The Town is committed under various subscription agreements. The Town recognizes a subscription liability and an right-to-use subscription asset in the government-wide financial statements. The Town recognizes subscription liabilities with an initial, individual value of $50,000 or more and the agreement must be longer than one year including expected extensions.

At the commencement of a contract, the Town initially measures the subscription liability at the present value of payments expected to be made during the contract term. Subsequently, the subscription liability is reduced by the principal portion of contract payments made. The subscription asset is initially measured as the initial amount of the subscription liability, adjusted for contract payments made at or before the contract commencement date, plus certain initial direct costs. Subsequently, the subscription asset is amortized on a straight-line basis over its useful life. Key estimates and judgments related to contracts include how the Town determines (1) the discount rate it uses to discount the expected contract payments to present value, (2) contract term, and (3) contract payments.

- The Town uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the Town generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The contract term includes the noncancellable period of the contract.
- Contract payments included in the measurement of the subscription liability are composed of fixed payments and purchase option price that the Town is reasonably certain to exercise.

The Town monitors changes in circumstances that would require a remeasurement of its contract and will remeasure the subscription asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Subscription assets are reported with other capital assets and subscription liabilities are reported with long-term debt on the statement of net position.

7. Capital assets

Capital assets, including property, plant, and equipment, and infrastructure assets (e.g., roads, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than $10,000 ($20,000 for buildings and improvements and $50,000 for infrastructure) and an estimated useful life in excess of two years. Right to use assets are discussed in note below. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value on date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, equipment, and intangible assets with exhaustible useful lives are capitalized when acquired, and depreciation is provided using the straight-line method applied over the following estimated useful lives of the assets:

Buildings	10-50
Distribution systems	20-50
Infrastructure	20-50
Machinery and equipment	5-15
Right-to-use asset - buildings	2-99
Right-to-use asset – easements	2-99
Right-to-use asset – subscription asset	2-10
Other improvements	5-99
Intangible assets	5-99

Intangible assets lack physical substance, are nonfinancial in nature, and have an estimated useful life extending beyond a single reporting period. The term depreciation, as used in this footnote, includes amortization of intangible assets.
Capital assets transferred between funds are transferred at their net book value (cost less accumulated depreciation), as of the date of the transfer.

8. Deferred outflows and inflows of resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to future periods and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The Town has reported deferred outflows of resources related to pensions on the government-wide statement of net position, each proprietary fund statement of position, and the Fleet Management Fund within the Internal Service Fund statement of net position.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to future periods and so will not be recognized as an inflow of resources (revenue) until then. The Town has reported three deferred inflows of resources: pension related items, leases and property taxes. Pension items are reported on the government-wide statement of net position, each proprietary fund statement of position, and the Fleet Management Fund within the Internal Service Fund statement of net position. Leases are reported in both the governmental funds balance sheet and the entity-wide statement of net position. These amounts represent future revenues that will be collected per lease agreements and are not currently available to finance operations.

Property taxes for future periods are reported in both the governmental funds balance sheet and the entity-wide statement of net position. Property tax revenues are not recognized prior to the period which they are intended to finance, even if an enforceable lien is in place prior to the beginning of the intended period. Thus, property taxes received or receivable as of year-end, which are intended to finance the following fiscal year, are recorded as deferred inflows.

9. Pension related assets, liabilities, deferred outflows and inflows of resources

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wyoming Retirement System (the System) and additions to/deductions from the System's fiduciary net position have been determined on the same basis as they are reported by the System. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

10. Net position flow assumption

Sometimes the Town will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

It is the Town's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

11. Fund balance flow assumption

Sometimes the Town will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

12. Fund balance policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The Town itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance). The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the Town's highest level of decision-making authority. The Town council is the highest level of decision-making authority for the Town that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the Town for specific purposes but do not meet the criteria to be classified as committed. The Town council has, by resolution, authorized the Town Manager to assign fund balance. The council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

13. Long-term obligations

In the government-wide financial statements and in the proprietary fund types of the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statements of net position. If any, bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from actual debt

proceeds received, are reported as debt service expenditures. The Town's current debt obligations were issued without discounts or premiums and issuance costs were insignificant and immaterial.

14. Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

15. Reclassifications

Where presented, certain 2022 financial statement amounts have been reclassified to conform to the 2023 presentation.

H. Revenues and expenditures/expenses

1. Property Tax

Teton County assesses all taxable property other than centrally assessed property, which is assessed by the State of Wyoming, by January 1 of each year. The Town notifies its levy to Teton County by July 31. Properties taxes are levied on or about August 1 and are payable in two installments on September 1 and March 1. The Teton County Treasurer is responsible for billing and collecting property taxes for the Town. The Town receives monthly distributions for the prior month's collections by the County. Property tax revenues are recognized when levied to the extent that they result in current receivables which means collected within the current period or expected to be collected within 60 days after the period end to be used to pay liabilities of the current period.

2. Sales Tax

The Town imposes a 1% local optional sales and use tax (5th cent). The 5th cent sales tax is collected by the state and remitted monthly to the Town. Sales tax revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Additionally, the Town imposes a 1% specific purpose excise tax (SPET) for various voter-approved projects.

3. Lodging Tax

The lodging tax is a 2% tax that is added to a visitor's stay in any Teton County hotel, motel or rental property. It was approved by voters in November, 2010. The tax was reapproved on the ballot in November 2018. The Jackson Hole Travel and Tourism Joint Powers board is responsible for allocating 60% of the collected funds. Teton County and the Town of Jackson governments are responsible for the remaining 40% of the funds collected.

4. Entitlements, state shared revenues and grants (Intergovernmental revenues)

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Expenditure-driven grants are recognized in the fund financial statements as revenue when the qualifying expenditures have been incurred, all eligibility requirements have been met, and reimbursement is received within availability period. Included below are the ongoing state shared revenues and grants received by the Town.

Sales tax. The state levies a 4% general sales and use tax, with 31% of it returned to Wyoming towns and counties based on populations and location of sales.

America Rescue Plan (ARPA) Act. These are program allocation driven, one-time funds related to the COVID-19 pandemic. Funds were received via the United States Department of the Treasury.

Gasoline, cigarette, and severance taxes. These three taxes are all imposed by the state and returned to cities, towns and counties by various percentages determined by the Wyoming legislature.

Mineral Royalties. These are federal royalties paid to the state and passed down to cities, towns, and counties by percentages determined by the Wyoming legislature.

Federal Transit Administration (FTA). The FTA provides funding for 80% of administration, 57.5% of operations, and 80% of capital for qualifying bus system expenditures. In FY2023, the FTA provided additional Coronavirus Aid, Relief, and Economic Security (CARES) Act funds which provided for 100% of operations costs.

5. Program revenues

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the

operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

6. Compensated absences

Employees can sell-back up to 40 hours of accumulated paid time off (PTO) before the end of each fiscal year provided they meet certain requirements. All other accumulated PTO is forfeited. There are no accumulated balances for PTO. Compensatory time, if any, is accrued as wages payable at year end.

7. Proprietary funds operating and nonoperating revenues and expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water fund, sewer fund, and internal service funds are charges to customers for sales and services. The water fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

I. Federal Audit Requirements

The U.S. Office of Management and Budget (OMB) issued Uniform Administration Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), which establishes uniform cost principles and audit requirements for federal awards to non-federal entities and administrative requirements for all federal grants.

For 2023, the Town of Jackson audit was performed in accordance with Uniform Guidance. The auditor's report on consideration of the Town's internal control over financial reporting and tests of other matters are issued with this report.

J. Implementation of new accounting principles

For the year ending June 30, 2023, the Town reviewed the applicability of the following new pronouncement of the Governmental Accounting Standards Board (GASB): GASB Statement No. 96 Subscription Based IT Arrangements "subscription agreement." This Statement requires recognition of certain subscription-based information technology assets and liabilities that previously were classified as operating, subscription based agreements and recognized as inflows of resources or outflows of resources based upon the payment provisions of the agreement. It establishes a single model for information technology agreement accounting based upon the principle that software subscriptions are financing arrangements for the right to use an underlying asset. Subscription agreements with less than one-year terms or under $50,000 capitalization threshold do not qualify as technology agreements under this standard. Perpetual software licenses and subscription agreements that transfer ownership and contain no cancelation provisions are reported as debt by the Town and sale of an asset by the vendor. The requirements of this Statement apply to the Town and are implemented in this report.

II. Stewardship, compliance and accountability

A. Budgetary information

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are legally adopted by council resolution for all funds.

Formal budgetary integration is employed as a management control device during the year for the General and Special Revenue Funds. Budgetary control for Capital Project Funds is based on a project completion time cycle rather than on an annual basis, therefore, budgetary comparisons on an annual basis would not present meaningful information.

The Town follows these legal compliance procedures in establishing the budgetary data reflected in the financial statements:

1. The Town administrator submits a proposed operating budget, including proposed expenditures and means of financing them, to the town council prior to the beginning of the fiscal year commencing July 1.

2. Public hearings are conducted to obtain taxpayer comments.

3. Prior to June 30, the budget is legally enacted through the passage of a budget resolution.

4. Management may not legally exceed budgeted expenditures at the division level. Monitoring of budgets is maintained at the division level (i.e., police administration, police investigations, police patrols, etc.) and the category level (i.e., personal services; supplies; other services and charges; capital outlay)

within each division. Management can alter the budget at the category level within their division but cannot exceed the total budgeted expenditures for the division that was approved by the town council. During the year, four formal supplementary appropriations were made. However, the town council approves all payments of vouchers and payroll at its regular meetings held twice a month.

5. All budgeted appropriations lapse at the end of the fiscal year. The legal level of budgetary control (i.e. the level at which expenditures may not legally exceed appropriations) is at the department level.

Deficit fund equity

At June 30, 2023, there was one internal service fund (Fleet Management) with a deficit fund balance. Fleet management deficit is due mostly to net pension liability calculations.

IIII. Detailed notes on all activities and funds

A. Cash, cash equivalents and investments

Cash, cash equivalents, and investments at June 30, 2023 are classified in the accompanying financial statements as follows:

Statement of net position:		
Cash and cash equivalents	$	12,640,541
Investments		59,345,179
Total cash and investments	$	71,985,720

Cash and investments at June 30, 2023 consist of the following:

Cash:		
Cash on hand	$	300
Deposit with financial institutions		86,496
Cash equivalents:		
Short-term certificate of deposit		2,089,954
Money market funds		10,463,791
Investments:		
Federal agencies		13,562,360
WYO-STAR		45,782,819
Total cash, cash equivalents, and investments	$	71,985,720

Investments authorized by Wyoming statutes and Town investment policy

The following table identifies the investment types that are authorized for the Town by Wyoming state statute. The Town's investment policy does not restrict investment types beyond the limits set forth by state statute. The table also identifies any provisions in Town policy and state statutes that address interest rate risk, credit risk, and concentration risk. This table also applies to investments of debt proceeds held by bond trustee that are governed by provisions of debt agreements and similarly restricted by state statute.

Authorized Investment Type	Maximum Maturity	Maximum Percentage of Portfolio	Maximum Investment in One Issuer
U.S. treasury obligations	None	None	None
U.S. agency securities	None	None	None
Banker's acceptances	None	25%	None
Commercial paper	270 days	25%	None
Negotiable certificates of deposit	None	None	$250,000
Non-negotiable certificates of deposit	None	None	None
Repurchase agreements	None	25%	None

The Town has investments in WYO-STAR, a government investment pool operated by the State of Wyoming Treasurer's Office. WYO-STAR is available for investments of funds administered by any local government entity within the State of Wyoming. WYO-STAR is not registered with the SEC as an investment company. WYO-STAR is authorized and regulated by the laws of the State of Wyoming. Deposits in WYO-STAR are not insured or otherwise

guaranteed by the State of Wyoming, and participants share proportionally in any realized gains or losses on investments. WYO-STAR operates and reports to participants on an amortized cost basis. The income, gains, and losses, net of administration fees, of WYO-STAR are allocated monthly based on the participant's average balance in relation to the total balance of the pool. The fair value of the WYO-STAR investment pool is approximately equal to the value of the pool shares, $45,782,819.

B. Disclosures related to investment risk

Credit risk: Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Town polices restrict investments to the safest security types and require portfolio diversification so that potential losses on individual securities will be minimized. As of June 30, 2023, the Town's investments in U.S. Agencies are rated AA+ by Standard & Poor's and AAA by Moody's Investors Service. The Town's investments in negotiable certificates of deposit are below the F.D.I.C. $250,000 insurance limit per institution. Non-negotiable certificates of deposits exceeding $250,000 per institution must be collateralized by the limits defined in the custodial credit risk section of this footnote. The Town's investment in the brokerage money market mutual fund is unrated. Town investment policy limits investments to the safest types of securities, pre-qualifies financial institutions, brokers/dealers, intermediaries, and advisors, and requires investment portfolio diversification.

Custodial risk: Custodial risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial risk for investments is the risk that, in the event of failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to cover the value of its investment or collateral securities that are in possession of another party. Wyoming statutes do not contain legal requirements that would limit the exposure to custodial risk for deposits or investments, other than the following provision for deposits: Wyoming statutes require that all Town deposits be protected by insurance, surety bond, or collateral. Authorized collateral includes the legal investment described earlier, as well as certain first mortgage notes, and certain other state or local obligations. Wyoming statutes require that securities pledged as collateral be held in safekeeping by the public funds depositor or by any bank, other than the depository bank, chartered by the state of Wyoming, any national bank, other than the depository bank, authorized to do business in the state, any federal reserve bank or branch thereof, or any federal reserve system member bank. According to Town polices, the market value of the collateral must be a minimum of 105% of deposits not covered by insurance or bonds.

Interest Rate Risk: Interest rate risk is the risk that changes in market interest rate will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value is to changes in market interest rates. According to its investment policy, the Town manages its exposure to interest rate risk by purchasing a combination of shorter term and longer term investments. The Town also manages this risk by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide cash flow and liquidity for operations. Further, the Town purchases some securities that have interest rates that step-up over time. The Town monitors the interest rate risk inherent in its portfolio by measuring the weighted average maturity of its portfolio. The Town has no specific limitations with respect to this metric.

Investment Type	Fair Value	Maturity (in years)
Federal Agencies:		
Federal National Mortgage Assn.	$ 1,976,480	0.98
Federal Farm Credit Bank	3,806,960	1.01
Federal Home Loan Banks	7,778,920	0.86
WYO-STAR	45,782,819	0.00
	$ 59,345,179	
Portfolio weighted average maturity (yrs)		0.15

Concentration of Credit Risk: State statutes contain no limitations on the amount that can be invested in any one issuer. Investments in any one issuer representing approximately 5% or more of the Town's total investments are as follows:

Investment Type	Fair Value	Percent of Investment Portfolio
Federal Agencies:		
Federal National Mortgage Assn.	$ 1,976,480	3.3%
Federal Farm Credit Bank	3,806,960	6.4%
Federal Home Loan Banks	7,778,920	13.1%
WYO-STAR	45,782,819	77.1%

Fair Value: The Town categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The

hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The Town has the following recurring fair value measurements as of June 30, 2023:

The $13,562,360 in U.S. agency securities are determined by an independent pricing service using recently executed transactions, market price quotations, and pricing models that factor in, when applicable, interest rates, bond spreads, and volatility (Level 2 inputs).

Cash, cash equivalents, and investments are presented in the government-wide financial statements as follows:

	Cash and Cash Equivalents	Investments	Total
Governmental activities:			
General Fund	$ 1,974,049	$ 9,973,068	$ 11,947,117
Start Fund	-	-	-
5th Cent Capital Projects	3,098,837	15,296,919	18,395,756
2019 SPET	1,858,101	9,172,221	11,030,322
Nonmajor govermental	2,535,274	9,233,641	11,768,915
Internal service funds	747,295	3,741,267	4,488,562
Total	10,213,556	47,417,116	57,630,672
Business-type activities:			
Water	1,255,463	6,197,392	7,452,855
Sewage	1,160,915	5,730,671	6,891,586
Internal service funds	10,607	-	10,607
Total	2,426,985	11,928,063	14,355,048
Government-wide total	12,640,541	59,345,179	71,985,720
Total cash and investments	$ 12,640,541	$ 59,345,179	$ 71,985,720

C. Concentration of sales and revenues

Teton County School District and Snow King Resort (and affiliates) are the two largest customers of water and sewage. Teton County School District water purchases account for $95,455 (3%) and sewage charges account for $24,998 (1%) of total sales. Snow King water purchases account for $107,655 (4%) of the Water Fund's operating revenue and sewage charges account for $33,727 (1%) of the Sewage Fund's operating revenue.

D. Capital assets

Capital asset activities for the year end June 30, 2023 are as follows:

	Beginning Balance	Additions	Deletions	Ending Balance	Internal Service Fund Assets	Governmental Activities Total	Internal Service Fund Additons	Governmental Activities Additions
Governmental activities:								
Nondepreciable capital assets:								
Land	$ 32,699,452	$ 651,979	$ -	$ 33,351,431	$ -	$ 33,351,431	$ -	$ 651,979

Water Fund	$ 699,885
Sewer Fund	1,012,750
Total depreciation/amortization expenses - business-type activities	$ 1,712,635

E. Claims and judgements

The Town participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the Town may be required to reimburse the grantor government.

As of June 30, 2023, significant amounts of grant expenditures have not been audited by the granting agency, but the Town believes that disallowed expenditures discovered in subsequent audits, if any, will not have a material effect on any of the individual funds or the overall financial position of the Town. Additionally, unearned revenues are recognized in those funds that have received grant monies in advance of future reimbursable expenditures.

F. Receivables and unearned revenues

Accounts receivables and due from other governmental units: Due from other governmental units represent earned grant reimbursements or repayments owed for providing non-utility related services. The following are the accounts receivables and due from other governmental units at June 30, 2023:

	Accounts Receivable	Due from other Governments
Governmental activities:		
General Fund	$ -	$ 4,002,326
START Bus System	510,548	7,467,286
5th Cent Capital Projects	-	8,869
2019 SPET	8,145	2,436,428
Nonmajor funds	461,488	-
Internal service funds	340,705	52,911
Total governmental activities	1,320,886	13,967,820
Business-type activities		
Water Fund	256,012	-
Sewage Fund	352,209	-
Total business-type activities	608,221	-
Total	$ 1,929,107	$ 13,967,820

Lease receivable

During the current fiscal year, the Town leased eight facilities and easements. The leases range in term from 3 to 23 years with the longest expiring June 2044. Monthly payments ranged in value between $658 and $10,562. The Town recognized $381,043 in lease revenue and $128,603 in interest revenue during the current fiscal year related to these leases. As of June 30, 2023, the Town's receivable for lease payments was $2,731,179. Also, the Town has a deferred inflow of resources associated with this lease that will be recognized as revenue over the lease term. As of June 30, 2023, the balance of the deferred inflow of resources was $2,521,197.

Interfund receivables, payables and transfers: At June 30, 2023, there are interfund balances that are generally short-term loans used to cover temporary cash deficits in various funds. The interfund transfers generally are made for the purposes of distributing revenue from the general fund to other funds for capital projects and operations. Aside from utility transfers discussed below, no significant transfers during the fiscal year that were either non-routine in nature or inconsistent with the activities of the fund making the transfer.

The composition of interfund balances as of June 30, 2023 is as follows:

Receivable Fund	Payable Fund	Amount
General	Start Fund	$ 5,423,487
General	Fleet Management	582,653

On October 1, 2018, the Town approved an interfund loan each from the Water and Sewage funds to the Capital Projects fund to purchase property for office space and employee housing. The 5th Cent Capital Projects fund will repay the utility funds in monthly installments utilizing current interest rates earned on pooled cash over a five-year term. The interfund interest paid and received is recorded in transfers. These interfund loans were paid off during the year ended June 30, 2023.

Unearned revenues: Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. This deferred revenue type is specifically referred to as unearned revenue. At the end of the current fiscal year, the various components of unearned revenue reported in governmental funds were as follows:

	Court Bonds	Construction Bonds	Grants	Lease Deposits	Total
Governmental Fund Activities:					
Unearned revenue					
General Fund	$ 18,750	$ 1,840,287	$ 70,100	$ 11,500	$ 1,940,637
START Bus System	-	-	1,600	-	1,600
5th Cent Capital Fund	-	-	29,615	-	29,615
Employee Housing	-	-	-	60,202	60,202
Total	$ 18,750	$ 1,840,287	$ 101,315	$ 71,702	$ 2,032,054

Transfers: The following interfund transfers are reflected in the fund financial statements at June 30, 2023:

	Transfers In	Transfers Out
Governmental funds:		
General Fund	$ 1,894,246	$ 16,773,598
START	1,797,732	114,345
5th Cent Capital Projects	16,106,207	321,831
Nonmajor governmental	1,435,227	2,427,749
Total governmental funds	21,233,412	19,637,523
Enterprise funds:		
Water	3,513	725,112
Sewage	3,513	725,112
Total enterprise funds	7,026	1,450,224
Internal service funds	32,164	184,855
Total	$ 21,272,602	$ 21,272,602

The following schedule reflects each fund transfer:

In Fund	Out Fund	Amount	
General	Water	$ 725,112	(1)
General	Sewage	725,112	(1)
General	START	114,345	(1)

Capital Projects	Parking Exactions	800,000	(5)
START	Lodging Tax	1,482,927	(1)
START	Capital Projects	314,805	(5)
Capital Projects	General	15,306,207	(2)
Utility Funds	Capital Projects	7,026	(4)
Fleet Management	General	32,164	(1)
Affordable Housing	General	1,435,227	(3)
		$ 21,272,602	

Annual reimbursement for shared expenditures
(1) Annual transfer to subsidize fund operations
(2) Annual 5th cent transfer to capital projects
(3) Transfer for housing projects and joint affordable housing department
(4) Transfer for interfund receivable interest
(5) One-time transfer for capital project

G. Accounts Payable

Accounts payable consists of vendor and retainage payables. As of June 30, 2023, governmental fund vendor payables totaled $5,350,500 and retainage payables totaled $792,341. As of June 30, 2023, business-type activities vendor payables totaled $705,486 and retainage payables totaled $110,249.

H. Long-term liabilities

Notes payable: The Town currently has issued two notes payable:

The first is a $1,158,046, 4% note also with the WWDC. This note is secured by the revenues of the Water Fund and a mortgage on the assets of the water supply system. This 30 year note is also payable in equal annual installments.

The last is a $1,000,000, .5% loan from Wyoming Business Council to install additional infrastructure at Snow King Mountain. This note is secured by the revenues of the Water Fund. This 20 year note is payable in 19 annual installments of $52,552 with all unpaid principal and interest due in the 20th year.

The notes payable outstanding are as follows:

Governmental activities

Notes Payable	Final Maturity	Interest Rates	Issue Amount	Outstanding 6/30/2023
Snow King Infrastructure				
Snow King Loan	03/31/35	0.50%	$ 1,000,000	$ 612,863

Business-type activities

Notes Payable	Final Maturity	Interest Rates	Issue Amount	Outstanding 6/30/2023
Water supply and storage projects				
2010 WWDC note	11/11/41	4.00%	1,158,046	879,579

Annual debt service requirements to maturity for the notes payable are as follows:

Year ending June 30	Governmental activities Principal	Governmental activities Interest	Business-type activities Principal	Business-type activities Interest
2024	$ 49,488	$ 3,064	$ 31,787	$ 35,183
2025	49,735	2,817	33,058	33,912
2026	49,984	2,568	34,381	32,589
2027	50,234	2,318	35,756	31,214
2028	50,485	2,067	37,186	29,784
2029-2033	256,237	7,799	209,468	125,382
2034-38	106,701	1,602	254,850	80,000
2039-42	-	-	243,094	24,645
Total	$ 612,863	$ 22,235	$ 879,579	$ 392,709

Leases payable

The Town is committed under nine leases for buildings and easements entered into as lessee. The leases range between two and six years. As of June 30, 2023, the value of the lease liability was $895,324. The Town is required to make monthly principal and interest payments ranging between $1,500 and $11,050. The leases have an interest rate between 1% and 12%. The leases have estimated useful lives ranging between two and six years. The value of the right-to-use asset as of the end of the current fiscal year was $1,130,345 and had accumulated amortization of $284,100.

The future principal and interest lease payments as of June 30, 2023 were as follows:

Year ending June 30	Governmental activities Principal	Governmental activities Interest	Business-type activities Principal	Business-type activities Interest
2024	$ 186,472	$ 47,420	11,118	190
2025	169,125	37,760	11,380	154
2026	156,026	27,618	11,648	117
2027	165,179	16,554	11,922	79
2028	147,432	5,468	-	-
2029	25,022	193	-	-
Total	$ 849,256	$ 135,013	$ 46,068	$ 540

Subscription payable

The Town is committed under four subscription agreements for software. The agreements range between two and six years. As of June 30, 2023, the value of the subscription liability was $278,519. The Town is required to make annual principal and interest payments ranging between $12,314 and $46,545. The agreements have an interest rate between 3.34% and 4.02%. The right-to-use subscription assets have estimated useful lives ranging between two and six years. The value of the right-to-use asset as of the end of the current fiscal year was $464,823 and had accumulated amortization of $93,899.

During the year ended June 30, 2023, there were no additional variable payments or other payments associated with these subscriptions.

The following is a summary of changes in long-term liabilities reported in the government-wide financial statements for the year ended June 30, 2023:

	Beginning Balance	Additions/ Proceeds	Reductions/ Payments	Ending Balance	Due Within One Year
Governmental activities:					
Snow King Loan	$ 662,105	$ -	$ (49,242)	$ 612,863	$ 49,488
Leases payable	307,782	700,215	(158,741)	849,256	186,472
Subscription payable	-	377,792	(99,273)	278,519	103,253
Governmental activities total	969,887	1,078,007	(307,256)	1,740,638	339,213
Business-type activities:					
Water - storage	910,144	-	(30,565)	879,579	31,787
Leases payable	67,537	-	(21,469)	46,068	11,118
Business-type activities total	977,681	-	(52,034)	925,647	42,905
Government-wide total	$ 1,947,568	$ 1,078,007	$ (359,290)	$ 2,666,285	$ 382,118

Redemptions: None.

I. Risk management and litigation

The Town is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. For the past several years, the Town obtained coverage from various sources and has effectively managed risk through a number of employee education and prevention programs.

All risk management activities are accounted for in the appropriate fund. Expenditures and claims are recognized when it is probable that a loss has occurred, the amount of the loss can be reasonably estimated, and the loss amount exceeds insurance coverage. In determining claims, events that might create claims, but for which none have been reported, are considered.

The Town attorney estimates that the amount of actual or potential claims against the Town as of June 30, 2023 will not materially affect the financial condition of the Town.

Workers compensation coverage is provided through the state of Wyoming's Worker's Safety and Compensation Division. The Town pays an annual premium, reflecting a base rate plus an experience premium, to the division. Currently, the Town receives drug, alcohol, and safety program discounts.

The Town self-insures its health benefit coverage up to an annual $70,000 per claimant, with exception of laser coverage option. Stop-loss coverage is purchased from private insurers for amounts exceeding $70,000. For the year ended June 30, 2023, the Town exercised no laser coverage on any participants. Health benefit self-insurance activities are accounted for in the Employee Insurance Fund, an internal service fund.

Liability insurance is provided through Local Government Liability Pool (LGLP), a pooled self-insurance program. LGLP was created by the legislature specifically for local governments in Wyoming. The coverage amounts are the limits set by the Governmental Claims Act (W.S. 1-39-118). Current statutory limits are $250,000 per claimant with $500,000 per occurrence. Excess insurance coverage provides for out-of-state claims and Federal Civil Rights claims with the current limit of $5 million with a $1 million limit per occurrence. The LGLP policy has a $1,000 deductible.

Property and casualty insurances are provided by Wyoming Association of Risk Management (WARM) through a pooled self-insurance program. The WARM policy has a $5,000 deductible.

An analysis of claims activities for the last three fiscal periods ending on June 30 is presented below:

	2021	2023	2023
Paid losses	$33,696	$35,358	$32,361
Paid expenses	3,270	7,000	9,000
Reserves	25,965	14,895	-
Total incurred	$62,931	$57,253	$41,361

The Town's commercial insurance carrier has no set reserve losses or reserve expenses for claims filed after June 30, 2023 for incidents occurring prior to that date.

There were no significant reductions in insurance from the previous year and there were no settlements in excess of insurance coverage in each of the past three years.

J. Retirement plans

1. Defined benefit plans

The Town participates in the Wyoming Retirement System (the "System"), a statewide cost sharing multiple-employer public employee retirement system. The System is established and governed by the respective sections of Wyoming state statute. The statute provides for the administration of the

System under the direction of the Wyoming State Retirement Board whose members are appointed by the Governor. The System issues a publicly available financial report that includes financial statements and required supplementary information for the System. A copy of the report may be obtained by writing to the Wyoming Retirement System, 6101 Yellowstone Road, Suite 500, Cheyenne, Wyoming 82002, by calling 1-307-777-7691, or https://retirement.wyo.gov/About/Reports?#categories. Substantially all Town employees are eligible to participate in following retirement plans offered by the System based upon eligibility and hiring status: 1) Public Employees' Pension Plan; 2) Law Enforcement Pension Plan; and 3) Wyoming Deferred Compensation Plan.

Public Employees' Pension Plan

The Public Employees' Pension Plan (PEPP) is a cost sharing multiple employer defined benefit, contributory retirement plan covering substantially all full-time employees of the Town. PEPP statutorily requires 18.62% of the participant's salary to be contributed to PEPP. Contributions consist of 9.25% of the participant's salary as employee contributions and 9.37% as employer contributions. The amount of contributions designated as employee contributions represent the portion of total contributions that a participant retains ownership of and can elect to receive as a refund upon termination of employment. Employers can elect to cover all or a portion of the employee's contribution at their discretion. Through legislation passed during the 2012 legislative session, two tiers of benefits were established for participants of this plan.

- Tier 1, PEPP allows for normal retirement after four years of service and attainment of age 60. Early retirement is allowed provided the employee has completed four years of service and attained age 50 or 25 years of service but will result in a reduction of benefits based on the length of time remaining to age 60.

- Tier 2, PEPP allows for normal retirement after four years of service and attainment of age 65. Early retirement is allowed provided the employee has completed four years of service and attained age 55, or 25 or more years of service but will result in a reduction of benefits based on the length of time remaining to age 65. All employees may also retire upon normal retirement on the bases that the sum of the member's age and service is at least 85.

PEPP provides retirement, disability and death benefits according to predetermined formulas and allows retirees to select one of eight optional methods for receiving benefits, including two joint and survivor forms of benefits: a 100% joint and survivor annuity, and a 50% joint and survivor annuity. The benefit amounts under these options are determined on an actuarially equivalent basis. Any cost of living adjustment provided to retirees must be granted by the State Legislature. In addition, a cost of living adjustment will not be approved by the legislature unless the plan is 100% funded after the COLA is awarded.

Employees terminating prior to normal retirement can elect to withdraw all employee contributions plus accumulated interest through date of termination or, if they are vested, they may elect to remain in PEPP and be eligible for retirement benefits at age 50 (Tier 1 employees) and 55 (Tier 2 employees).

Contributions to PEPP for the year ended June 30, 2023 were $1,305,841.

Law Enforcement Pension Plan

The Wyoming Law Enforcement Pension Plan (LEPP) is a cost sharing multiple employer defined benefit, contributory plan covering all law enforcement employees of the Town. LEPP statutorily requires participants to contribute 8.6% of their salary to LEPP and the employer is required to contribute 8.6% of each participant's salary.

LEPP statutorily provides retirement, disability and death benefits according to predetermined formulas and allows employees to select one of seven optional methods for receiving benefits. Any cost of living adjustment provided to retirees must be granted by the State Legislature. In addition a cost of living adjustment will not be approved by the legislature unless LEPP is 100% funded after the COLA is awarded. Participants may withdraw from LEPP at any time and receive refunds of participant contributions plus accumulated interest.

Contributions to LEPP for the year ended June 30, 2023 were $484,598.

Wyoming Deferred Compensation Plan

The Plan administered by the System is an IRS Section 457 Deferred Compensation Plan. This Plan is available as a supplemental plan to the defined benefit retirement plans. Contributions may be made into this Plan (subject to plan and Internal Revenue Code limitations) by employees and employer contributions at rates determined by the Town.

2. **Pension Liabilities, Expense and Deferred Outflows of Resources Related to Pensions**

At June 30, 2023, the Town reported an entity-wide net pension liability of $15,216,682 of which $13,902,333 is related to governmental activities and $550,239 and $764,110 is related to the Town's water and sewer funds, respectively.

Plan	Proportionate Share	Pension Liability
PEPP	0.367419%	$ 10,040,865
LEPP	1.519374%	$ 5,175,817
Total net pension liability		$ 15,216,682

The net pension liability was measured as of December 31, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2022 and rolled-forward using generally accepted actuarial procedures. The proportion of the net pension liability was based upon actual historical employer contributions to the plan from the census data submitted to the plan for pay periods ending in 2022.

For the year ended June 30, 2023, the Town recognized entity-wide pension expense of $1,794,321. The PEPP recognized an expense of $799,153. The LEPP recognized an expense of $995,168. At June 30, 2023, the Town reported entity-wide deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	PEPP	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	$ 50,354	$ 63,650
Net difference between projected and actual earnings on pension plan investments	864,321	-
Changes in assumptions	269,472	-
Change in proportion	886,266	-
Contributions subsequent to the measurement date	736,901	-
	$ 2,807,314	$ 63,650

	LEPP	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	$ 122,212	$ 163,221
Net difference between projected and actual earnings on pension plan investments	363,257	-
Changes in assumptions	2,143,509	800,450
Change in proportion	287,684	63,719
Contributions subsequent to the measurement date	240,273	-
	$ 3,156,935	$ 1,027,390

Deferred outflows of resources related to pensions resulting from Town contributions of $977,174 made subsequent to the measurement date will be recognized as a reduction of the net pension liability in the upcoming fiscal year. Other amounts reported as deferred outflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ending June 30,	Net Deferred Outflows (Inflows) of Resources PEPP	LEPP
2024	$ 201,949	$ 542,744
2025	498,321	887,546
2026	372,112	38,710
2027	934,381	420,272
	$ 2,006,763	$ 1,889,272

Asset Class	Allocation	20 Year Arithmetic Expected Real Return
Cash	0.50%	0.32%
Gold	1.50%	
Fixed Income	20.00%	0.72%
Equity	51.50%	9.00%
Marketable Alternatives	16.00%	6.02%
Private Real Assets	10.50%	7.67%
Totals	100.00%	

Actuarial Assumptions

The total pension liability in the December 31, 2022, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	PEPP	LEPP
Projected salary increases, includes inflation	2.50% to 6.50%	5.25% TO 9.25%
Assumed inflation rate	2.25%	2.25%
Investment Rate of Return	6.80%	6.80%

Mortality rates were based on the RP-2014 Employee Mortality Table, fully generational, for Males and Females, as appropriate, with adjustments for mortality improvements based on Scale MP-2017.

Discount Rate

The discount rate used to measure the total pension liability for PEPP was 6.8% and LEPP was 5.53%. The projection of cash flows used to determine the discount rate assumed contributions from participating employers will be made based on the actuarially determined rates based on the Board's funding policy, which establishes the contractually required rates under Wyoming State Statutes. Based on those assumptions, the Systems' fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

Sensitivity of the proportionate share of the net pension liability to changes in the discount rate:

The following presents the proportionate share of the net pension liability calculated using the PEPP discount rate of 6.80% and the LEPP discount rate of 5.53%, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease	Discount Rate	1% Increase
PEPP	5.80%	6.80%	7.80%
Proportionate share of net pension liability	$ 14,826,753	$ 10,040,865	$ 6,074,663
LEPP	4.53%	5.53%	6.53%
Proportionate share of net pension liability	7,789,900	5,175,817	3,074,638

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued Wyoming Retirement System financial report.

K. Committed contracts

At June 30, 2023, the Town had the following remaining commitments for uncompleted construction and equipment purchase contracts:

Fund/Project	Remaining Contract
START	
6 Buses	4,294,308
BUILD Grant	451,134
On-Demand	205,395
Capital Projects	
Chip Seal	275,160
2006 SPET	
North King	255,384
2019 SPET	
Core Services Vehicle Maintenance Facility	17,467,490
Water	
North King	320,180
Well House	131,320
Sewer	
North King	180,515
Gill Avenue	286,934
Flat Creek	354,100
Central Equipment Fund	
Dumptruck	238,664

In 2008, the Town created a shared-appreciation mortgage program as a recruitment tool for key personnel. At June 30, 2023, the Town's commitments totaled $266,500.

L. Fund changes and fund balances

Amounts for specific purposes by fund and fund balance classifications for the year ended June 30, 2023, are as follows:

Classification/Fund	Purpose	Amount
Nonspendable		
General Fund	Prepaid items	$ 4,537
START Bus System	Prepaid items	4,714
5th Cent Capital Projects	Prepaid items	5,000
Restricted		
General Fund	Victim services	13,732
2010 SPET	Energy	121,656
2006 SPET	Pathways/Sidewalks	258,247
2014 SPET	Pedestrian/Complete Streets	3,242,287
2016 SPET	Landslide mitigation	334,001
2019 SPET	Facility/Stormwater	11,548,282
Parking Exactions	Parking improvements	216,181
Parks Exactions	Park improvements	547,244
Affordable Housing	Housing options	420,316
Lodging Tax	Visitor impacts	816,420
Animal Care	Animal shelter	536,074
Assigned		
Employee Housing	Employee housing	2,649,056
Affordable Housing	Housing options	2,106,630
Parking Exactions	Parking management	1,152,616
5th Cent Capital Projects	Various improvements	16,594,149
START Bus System	Transit	1,768,833
General Fund	Subsequent year's budget	4,035,491
Unassigned		
General Fund		14,672,953
Total fund balances		$ 61,048,419

For the year ended June 30, 2023, the Town closed the following fund(s):
2017 SPET

For the same period, the Town opened the following fund(s):
None

Statistical Section

TOWN OF JACKSON
WYOMING

Statistical Information

(unaudited)

The Statistical Section is included to provide financial statement users with additional historical perspective, context, and detail for them to use in evaluating the information contained within the financial statements, notes to the financial statements, and required supplementary information with the goal of providing the user a better understanding of the Town's economic condition.

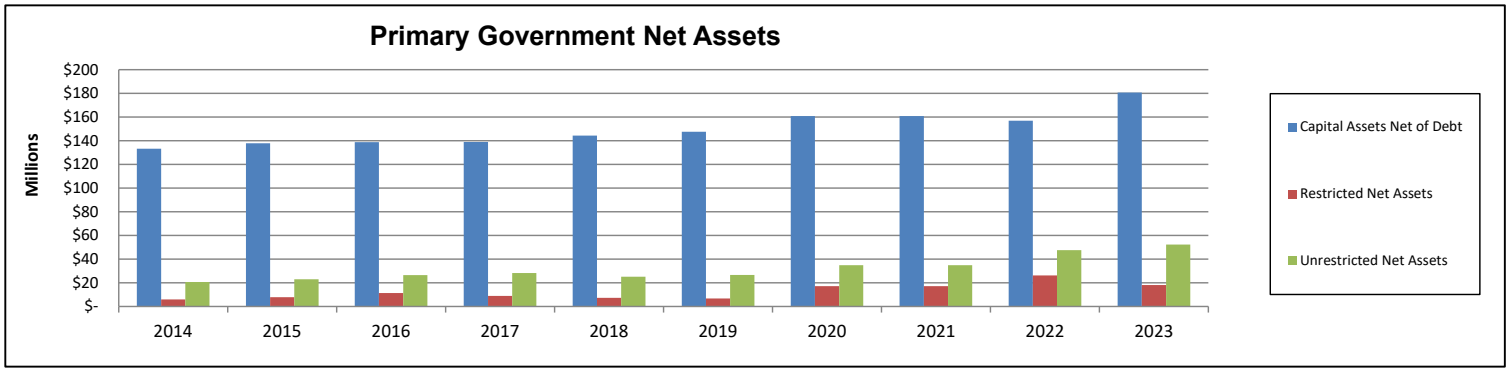
Contents

Financial Trends
These schedules contain information to help the reader understand how the Town's financial performance and well-being have changed over time.

Revenue capacity
These schedules contain information to help the reader assess the Town's most significant local revenue sources.

Debt capacity
These schedules contain information to help the reader assess the affordability of the Town's current levels of outstanding debt and the Town's ability to issue additional debt in the future.

Demographic and economic information
These schedules offer demographic and economic indicators to help the reader understand the environment within which the Town's financial activities take place.



Operating information
These schedules contain service and infrastructure data to help the reader understand how the information in the Town's financial report relates to the services the Town provides and activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year.

Change 2014-2023	114.5%	10.9%	-55.9%	9.2%	11.4%	-100.0%	81.9%

Notes: (1) As of June 30, 2004, the 4% state sales and use tax is distributed 69% to the state and 31% to cities, towns and counties. Of the 31%, 1% is distributed proportionately based on population and 30% is distributed proportionately based on the sales tax collected in each county.

(2) The gasoline tax is distributed 57.5% to the state, 13.5% and 14% to counties, and 15% to cities and towns. City and town distributions are based 75% on proportionate sales in cities and towns and 25% on proportionate populations for the same.

(3) The cigarette tax is distributed 33 1/3% to incorporated cities, towns, and counties proportionately to sales derived in each. The remaining 66 2/3% is distributed 38 1/4% to the state's general fund and the remaining 61 3/4% is distributed in the preceding manner.

(4) The severance tax distribution to cities and towns is 9.25% of the total in the state severance tax distribution tax account (up to $155,000,000) in proportion to population.

Direct and Overlapping Governmental Activities Debt
As of June 30, 2023

(Unaudited)

Teton County assessed valuation	3,972,145,024
Town of Jackson assessed valuation	896,178,816
Town of Jackson percent of total	22.6%

Direct and overlapping debt governmental activity debt	Total Debt 6/30/2023 (1)	Percent Applicable	Town's Share of Debt 6/30/2023 (2)
Teton County	$ 2,117,703	22.6%	$ 477,787
Town of Jackson	612,863	100.0%	612,863
Total direct and overlapping governmental activities debt	$ 2,730,566		$ 1,090,650

Ratio to assessed valuations	
Direct debt	0.07%
Total direct and overlapping debt	0.12%

Notes: (1) Excludes enterprise revenue debt, specific purpose excise tax supported debt and lease obligations.

(2) Overlapping governments are those that coincide, at least in part, with geographic boundaries of the town. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the town. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire burden borne by residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, therefore responsible for repaying the debt, of each overlapping government.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Mayor and Town Council
Town of Jackson, Wyoming

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Jackson, Wyoming (the Town) as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements, and have issued our report thereon dated December 27, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Town's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Independent Member of PrimeGlobal | The Association of Advisory and Accounting Firms

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the Town of Jackson, Wyoming's (the Town) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the Town's major federal programs for the year ended June 30, 2023. The Town's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Town complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Town and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the Town's compliance with the compliance requirements referred to above.

Independent Member of PrimeGlobal | The Association of Advisory and Accounting Firms

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the Town's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Town's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Town's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Town's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Town's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing

their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTE 1 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the Town of Jackson under programs of the federal government for the year ended June 30, 2023. The information in this schedule is·presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Town of Jackson, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Town of Jackson.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE 3 - INDIRECT COST RATE

The Town of Jackson has not elected to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

Introductory Section

Administration and Finance

December 27, 2024

To the Honorable Mayor, Members of the Town Council, and the Citizens of the Town of Jackson:

The Wyoming statutes require all cities, towns, and counties to issue an annual report on its financial position and activity prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), and audited in accordance with auditing standards generally accepted in the United States of America by a firm of licensed certified public accountants or the Wyoming Office of State Audit. Pursuant to that requirement, we hereby issue the Annual Comprehensive Financial Report (ACFR) of the Town of Jackson for the fiscal year ended June 30, 2024.

The Town of Jackson' financial statements have been audited by Jones Simkins LLC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Town of Jackson for the fiscal year ended June 30, 2024, are free of misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the Town of Jackson's financial statements for the fiscal year ended June 30, 2024, are fairly presented in conformity with GAAP.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A compliments this letter of transmittal and should be read in conjunction with it. The MD&A can be found on pages 13-22.

PROFILE OF THE GOVERNMENT

The Town of Jackson, incorporated in 1914, is located in Teton County near the Wyoming and Idaho border south of the Grand Teton and Yellowstone National Parks. The town currently has a land area of nearly 4 square miles and an estimated population of 10,600. The Town of Jackson is empowered to levy 8 mills of property tax on both real and personal properties located within its boundaries. The Town implemented a property tax of 0.5 mills during 2022. This is the first property tax assessment by the Town since 1977. It is also empowered by state statute to extend its corporate limits by annexation, which is done periodically when deemed appropriate by the Town Council.

The Town of Jackson is governed by city code under Wyoming Statutes with a council-mayor form of government. Policy-making and legislative authority are vested in a Town Council consisting of the mayor and four council members. The Town Council is responsible, among other things, for passing ordinances, resolutions, adopting the budget, appointing commissions, authorities, and committees, and hiring the town manager, town attorney and municipal judge. The town manager is responsible for carrying out the policies and ordinances of the Town Council, for overseeing the day-to-day operations of the town government, and for appointing the heads of the various departments. The council is elected on a non-partisan basis. All four council members and the mayor are elected at large. Council members serve staggered four-year terms, with elections occurring every even year. Effective 2017, the mayor serves a four-year term.

The Town of Jackson provides a full range of services, including police and fire protection; construction and maintenance of streets and infrastructure; recreational facilities and pathways, water, sewage, and transit services. Additionally, the town owns rental properties for employees.

FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the Town of Jackson operates.

Local economy. The Town of Jackson is located at the southern entrance to Grand Teton and Yellowstone National Parks in the northwest corner of Wyoming. Dramatic mountain peaks, including the Tetons, the Gros Ventres, and Snow King form a breathtaking backdrop to our valley (called Jackson Hole). The Town of Jackson is home to a little over 10,600 people and another 12,600 live in the unincorporated county (Teton).

Jackson's economy is centered on tourism and lifestyle. Approximately four million guests visit each year and more than 700,000 skier days are tallied at the Jackson Hole Mountain Resort. The abundance of outdoor recreation opportunities, the unsurpassed scenic beauty, the prevalence of many species of wildlife, the lack of individual state income tax, and the high quality of life give Jackson unsurpassed appeal as a place to live, visit and recreate.

At fiscal year-end, the Town of Jackson's employment picture, at a 1.7% unemployment rate (Teton County), is healthier than the 4.1% national average. The state of Wyoming has an unemployment rate of 2.9%.

FINANCIAL INFORMATION

Management of the town is responsible for establishing and maintaining internal control designed to ensure that the assets of the government are protected from loss, theft, or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgments by management.

This report consists of management's representations concerning the finance of the town. As a result, management assumes full responsibility for the completeness and reliability of all the information and content presented in this ACFR. Additionally, management asserts that, to the best of their knowledge and belief, this financial report is complete and reliable in all material respects.

Budgetary Controls. The annual budget serves as the foundation for the Town of Jackson's financial planning and control. All departments, authorities, and commissions of the town submit requests for appropriation to the town manager in February of each year. The town manager uses these requests as the starting point for developing a proposed budget. The town manager then presents this recommended budget to the council for review prior to May 15. The council is required to hold public hearings on the proposed budget and to adopt a final budget no later than June 30, the close of the town's fiscal year. The budget is prepared by fund (general), function (e.g., public safety), department (e.g., police), and division (e.g., patrol). All expenditures require the approval of the Town Council. Budget-to-actual comparisons are provided in this report for each individual governmental fund which an annual budget has been adopted. For the general fund and major special revenue funds, this comparison is presented starting on page 29 of the basic financial statements. For non-major special revenue funds, with annual budgets, this comparison is presented in the governmental fund subsection of this report, which starts on page 67.

Long-term Financial Planning. The Town's strategic vision is laid out in a Council bi-annual Work Plan, supported by a five-year financial model and

Capital Improvement Program. The Plan identifies the Town's strategic intent and identifies areas for emphasis and funding. The Town's near-term and long-term fiscal planning are focused on accomplishing Work Plan objectives. A five-year financial model and Capital Improvement Program are maintained to assess the attainability and sustainability of these objectives.

The Town Council supports and understands that the main area of focus for the Town of Jackson is the provision of core services, maintaining the current level of service already supported and approved through the annual budget, and most importantly those services that directly contribute to and maintain the health, safety, and welfare of the citizens and guests to our community. A brief summary includes:

Safety and security provided through law enforcement, fire protection, building safety and inspection, animal control, contractor licensing, and municipal court and prosecution services.

Infrastructure, facility and public asset management provided through street, sidewalk and right of way maintenance and snow removal services, engineering, preventive and proactive facility management, and parking enforcement.

Health and well-being provided through water treatment and distribution, sewer collection and treatment, emergency medical services, and victim services.

Development and economic oversight provided through code compliance, planning and development review, permit processing, and business, liquor, taxi, special event, and rental licensing.

Accessibility and livability provided through public transit, community and affordable housing, parks and recreation, and pathway creation and maintenance.

Internal services for the Town of Jackson organization that support the efficiency and effectiveness of our local government provided through information technology support, records management and access, fleet maintenance, public information, legal services, personnel services, financial accounting, and overall coordination, administration, leadership and management of government services and day to day operations.

Major Budget Initiatives.

To continue to be a resilient community, we will need to preserve and maintain General Fund Reserves to have the resources to adapt to uncertain times ahead. Looking ahead, recurring expenses are expected to exceed recurring revenues. We must continue evaluating our revenue streams and expenditures, to determine how to ensure a balanced budget into the future.

Due in part to COVID-19 pandemic we reinforced the importance of our fiduciary responsibility to maintain and continue building a strong, resilient community in the short, mid, and long-term. Due to years of prudent budgeting and planning, the Town was able to respond to reduced revenues projected and maintain a well-resourced and responsive Town government to close fiscal year 2024.

The Town will need to prioritize our core services, capital projects and consider reducing funding to the areas of lower priority and/or work to consider a new funding source(s) to maintain current Town program services and capital improvement projects. As our community changes, various core services continue to see increased need year-over-year. The Town simply does not have the capacity to absorb such continuous growth without increasing revenue or reducing existing program services and capital projects.

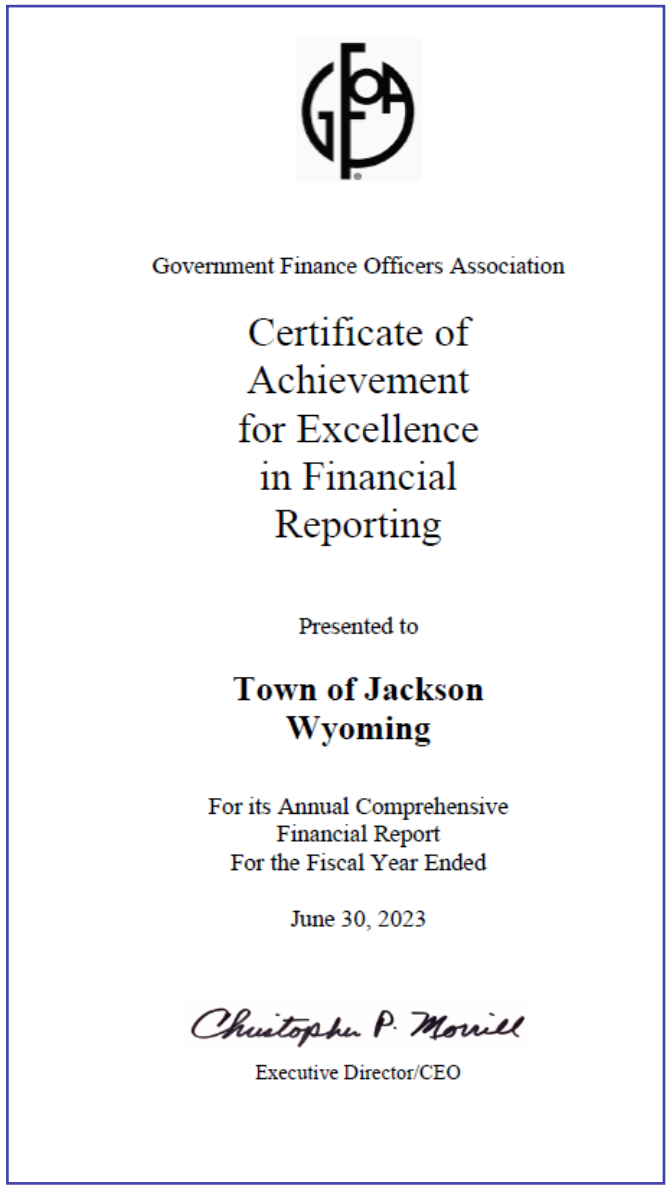
Single Audit. As a recipient of federal awards, the town is also responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations related to those programs. The internal controls are subject to periodic evaluations by town management and external auditors.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Jackson, Wyoming for its comprehensive financial report for the fiscal year ending June 30, 2023. This is the 38th year the town has received this prestigious award. In order to be awarded the Certificate of Achievement, the government must publish an easily readable and efficiently organized annual comprehensive financial report. This report satisfies both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program's requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

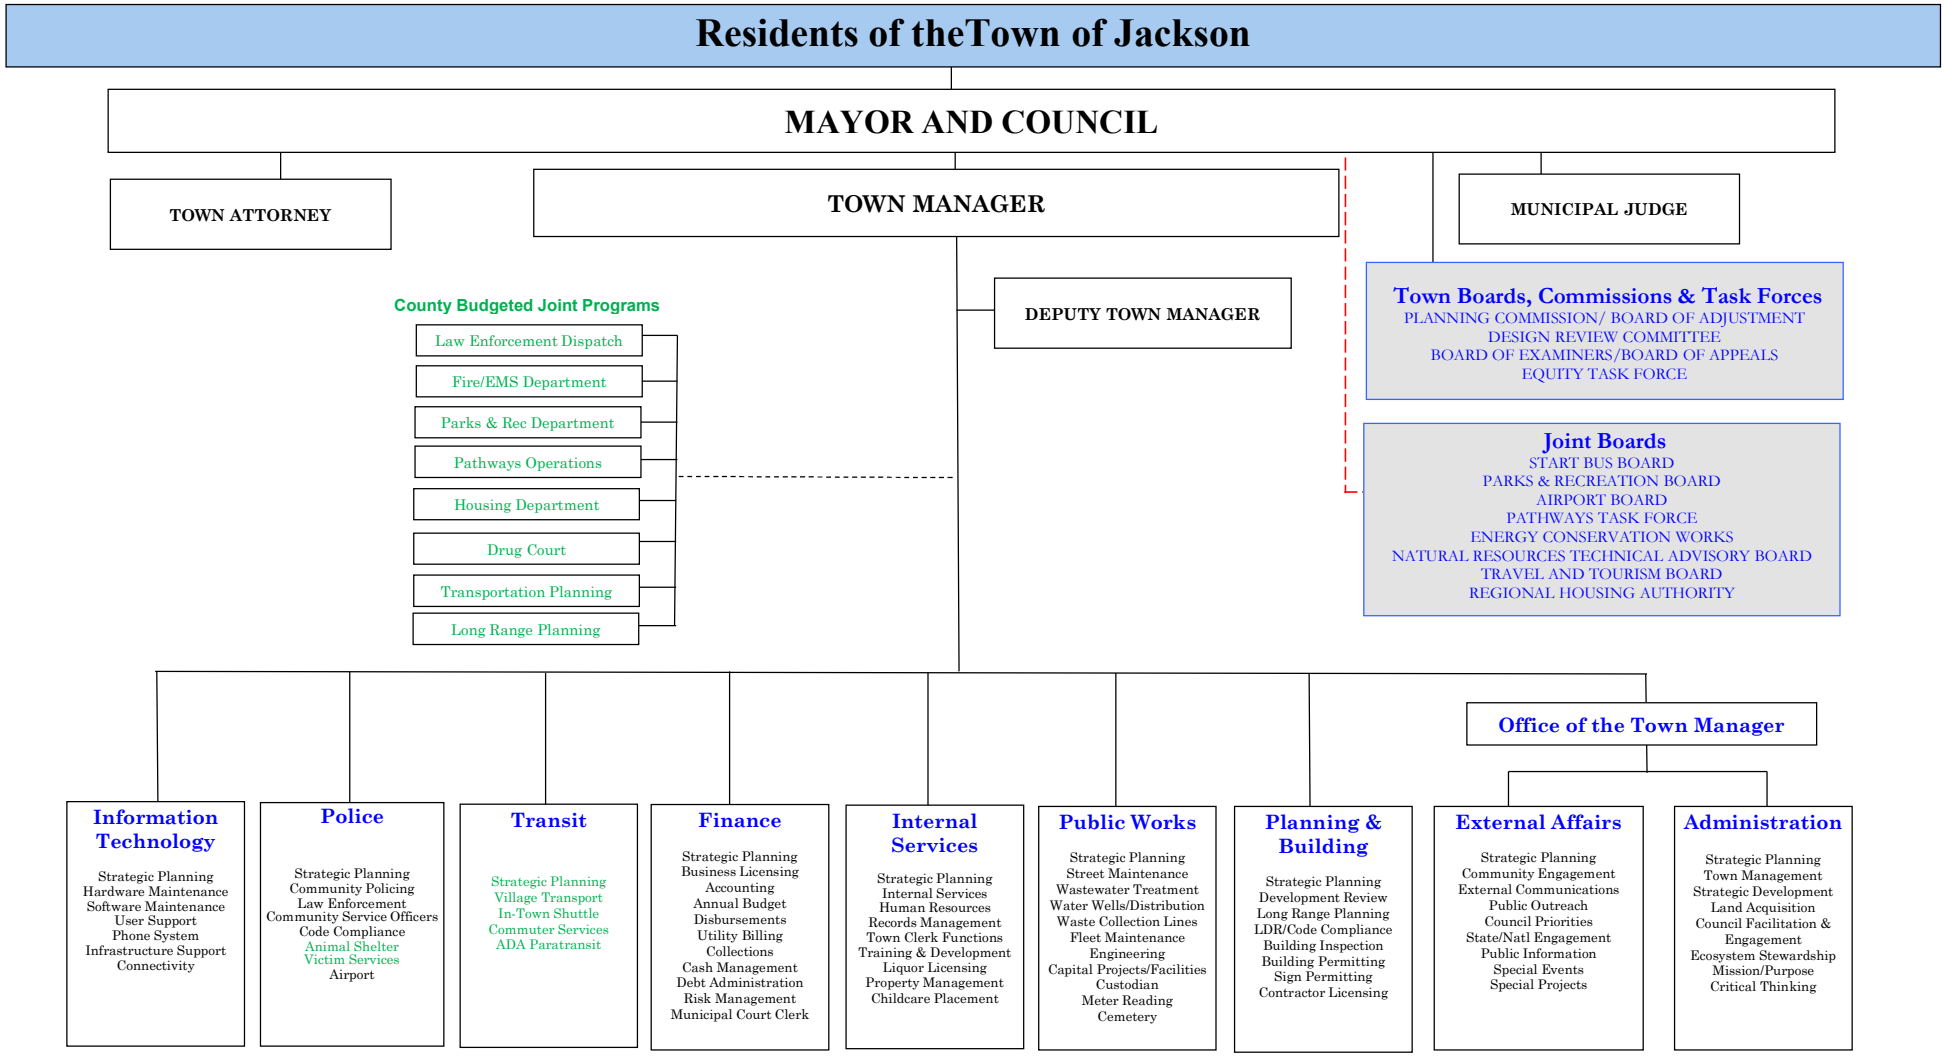
The preparation of this report could not be accomplished without the professional, efficient services of the Town Finance Department staff. We would like to express our appreciation to all members of the staff, with special recognition for the assistance contributed by Finance Manager Melanie



Adams and Senior Deputy Treasurer Pauline Scholes. Due credit also should be given to the mayor and the council for their support in planning and conducting the operations of the town in a responsible and progressive manner.

Tyler Sinclair
Town Manager

Kelly Thompson
Finance Director



The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate for Excellence in Financial Reporting to the Town of Jackson, Wyoming for its annual comprehensive financial report for the fiscal year ended June 30, 2023.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

INDEPENDENT AUDITOR'S REPORT

To the Mayor and Town Council
Town of Jackson, Wyoming

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Jackson, Wyoming (the Town), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town, as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund and START Bus System Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (GAS), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Independent Member of PrimeGlobal | The Association of Advisory and Accounting Firms

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and GAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and GAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of proportionate share of the net pension liability, and the schedule of contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The supplementary information listed in the table of contents, including the accompanying schedule of expenditures of federal awards as required by *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 27, 2024 on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of the Town of Jackson (Town), we offer readers of the Town's basic financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2024. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1-4 of this report.

OVERVIEW OF THE BASIC FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

COMPONENTS OF THE ANNUAL FINANICAL REPORT

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the Town of Jackson's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the Town's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The statement of activities presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net positions are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the Town of Jackson that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town include general government, public safety, public works, health and welfare, community development, transit, and recreation and culture. The business-type activities of the Town include water and sewage utilities.

The government-wide financial statements can be found on pages 23-24 of this report.

Fund financial statements. The fund financial statements focus on current available resources and are organized and operated on the basis of funds, each of which is defined as fiscal and accounting entity with a self-balancing set of accounts established for the purpose of carrying on specific or attaining certain objectives in accordance with special regulations, restriction or limitations. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories: governmental funds, and proprietary funds. The Town does not maintain any fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Town's near term

financial decisions. Both the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and change in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town maintains four major governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, one special revenue fund, and two capital project funds, all of which are considered major funds. Data from eleven other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The Town adopts an annual appropriated budget for its general and special revenue funds. A budgetary comparison statement has been provided for those funds to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 25-31 of this report.

Proprietary funds. The Town of Jackson maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the governmental-wide financial statements. The Town uses enterprise funds to account for its water and sewage operations. Internal service funds are accounting devices used to accumulate and allocate costs internally among the Town's various functions. The Town uses internal service funds to account for its fleet management, employee insurance (self insurance), information technology (IT), and central equipment operations. Because all of these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water and sewage utilities. Both are considered major funds of the Town. Conversely, all internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 32-36 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are not reported in the governmental-wide financial statements because the resources of those funds are not available to support the Town of Jackson's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The Town of Jackson currently maintains no fiduciary funds.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the financial statements can be found on pages 37-58 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the Town's funding obligation related to participation in a defined benefit plan. Required supplementary information can be found on pages 59-62 of this report.

The combining statements referred to earlier in connection with non-major governmental funds and internal service funds can be found immediately following the required supplementary information.

Combining and individual fund statements can be found on pages 63-78.

FINANCIAL HIGHLIGHTS

- The Town's net position (assets and deferred outflows of resources minus liabilities and deferred inflows of resources) increased by 4.3% as a result of this year's operations. The net position of the Town's governmental activities increased $8,751,417 (4.3%) and net position of the Town's business-type activities increased $2,064,040 (4.4%).
- Overall, capital assets (net of accumulated depreciation and amortization) increased $16,864,288. Capital assets of governmental activities increased $17,505,735 (12%) and capital assets of business-type activities decreased $941,447 (1.9%). Significant governmental capital assets acquisitions included: $16,136,599 for Core Services Maintenance Facility construction, $4,310,340 for six transit buses, $798,164 for START intelligent transit system software and hardware, $539,381 in infrastructure improvements, and $865,390 in fleet equipment and vehicles which includes ten police vehicles. Significant business-type capital assets acquisitions included: $993,090 for water line infrastructure, $79,969 for west Jackson water transmission project design, and $1,389,087 in sewer line installation. The

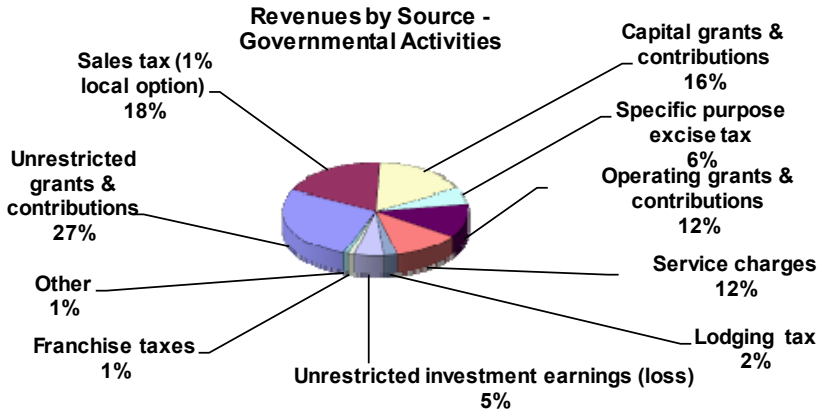
capital increases in the business-type activities are offset by $1,688,646 in current year depreciation and amortization.

- The Town's long-term liabilities decreased $3,640,425 (23%). The decrease was a result of a $3,576,301 decrease in net pension liability, $36,932 increase in lease liabilities and $112,053 decrease in subscription liability.
- At the close of the current fiscal year, the Town's governmental funds reported total ending fund balances of $52,584,678, a decrease of $8,463,741 (14%). The decrease is mainly due to a $9,951,832 decrease in the 5th Cent Capital Projects Fund for construction of the Core Services Maintenance Facility.
- The General Fund's total fund balance increased $345,715 (2%) to $19,072,428. The ending fund balance is 54% of General Fund expenditures. $2,539,368 of the fund balance is assigned to the FY2025 budget.

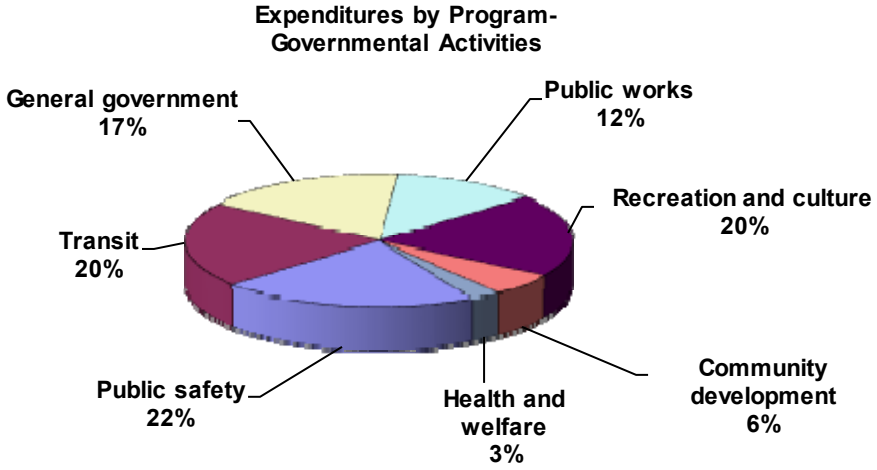
GOVERNMENT-WIDE FINANCIAL ANALYSIS

NET POSITION

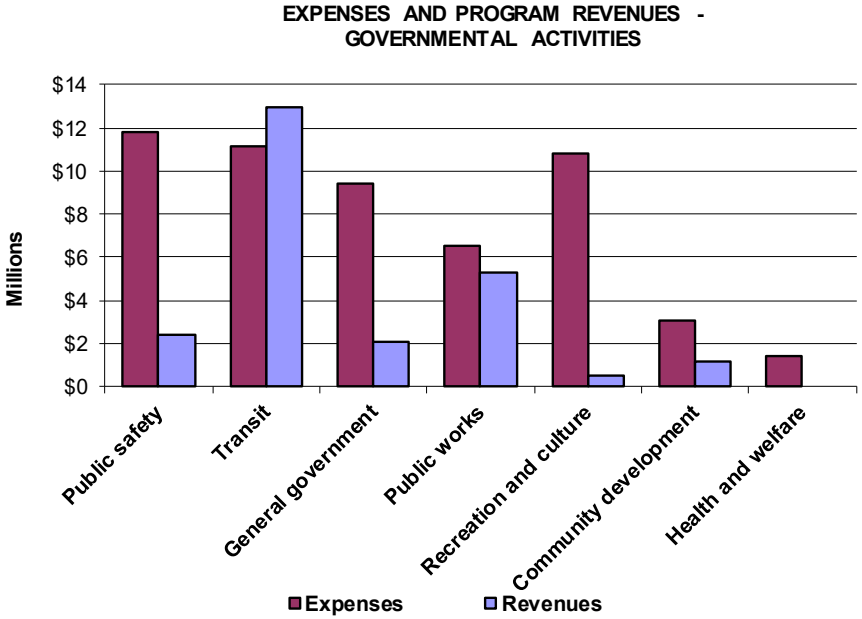
	Governmental Activities		Business-type Activities		Total Government	
	2024	2023	2024	2023	2024	2023
Current and other assets	$ 69,386,271	$ 76,877,407	$ 17,308,131	$ 15,267,241	$ 86,694,402	$ 92,144,648
Capital assets	167,317,309	149,811,574	33,859,596	34,501,043	201,176,905	184,312,617
Total assets	236,703,580	226,688,981	51,167,727	49,768,284	287,871,307	276,457,265
Deferred outflow of resources	3,984,952	5,596,771	321,953	367,478	4,306,905	5,964,249
Other liabilities	9,464,800	8,531,540	231,615	879,938	9,696,415	9,411,478
Long-term liabilities	12,002,546	15,642,971	2,136,606	2,239,996	14,139,152	17,882,967
Total Liabilities	21,467,346	24,174,511	2,368,221	3,119,934	23,835,567	27,294,445
Deferred inflow of resources	6,410,522	4,051,994	49,923	8,332	6,460,445	4,060,326
Net position:						
Net investment in capital assets	165,064,537	147,278,595	32,976,854	33,465,147	198,041,391	180,743,742
Restricted	17,981,418	18,054,440	-	-	17,981,418	18,054,440
Unrestricted	29,764,709	38,726,212	16,094,682	13,542,349	45,859,391	52,268,561
Total net position	$ 212,810,664	$ 204,059,247	$ 49,071,536	$ 47,007,496	$ 261,882,200	$ 251,066,743



By far the largest portion of the Town's net position (76%) reflects investments in capital assets (e.g. land, buildings, structures, systems, machinery, equipment, infrastructure, and intangible assets), net of any related debt used to acquire those assets that is still outstanding. The Town uses assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's investment in capital assets is reported net of related debt, it should be noted that resources needed to repay this debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.



A small portion of the Town's net position (7%) represents resources that are subject to external restrictions on how they can be used. The $73,022 decrease in governmental activities restricted net position is primarily due to 2019 Special Purpose Excise Tax (SPET) project expenditures for Core Services Maintenance Facility exceeding SPET collections. The remaining unrestricted net position of $45,859,391 may be used to meet one-time obligations to citizens and creditors. Of the unrestricted net position, $16,094,682 (35%) is attributable to business-type activities. The unrestricted governmental activities net position decreased $8,961,503 (23%), while



business-type activities unrestricted net position increased $2,552,333 (18.8%). The government-wide total unrestricted net position decrease of $6,409,170 (14.0%) is primarily due to Core Services Maintenance Facility construction within the 5th Cent Capital Projects Fund. Business-type capital assets decreased by $641,447 (1.9%) due to accumulated depreciation increase exceeding capital asset acquisitions.

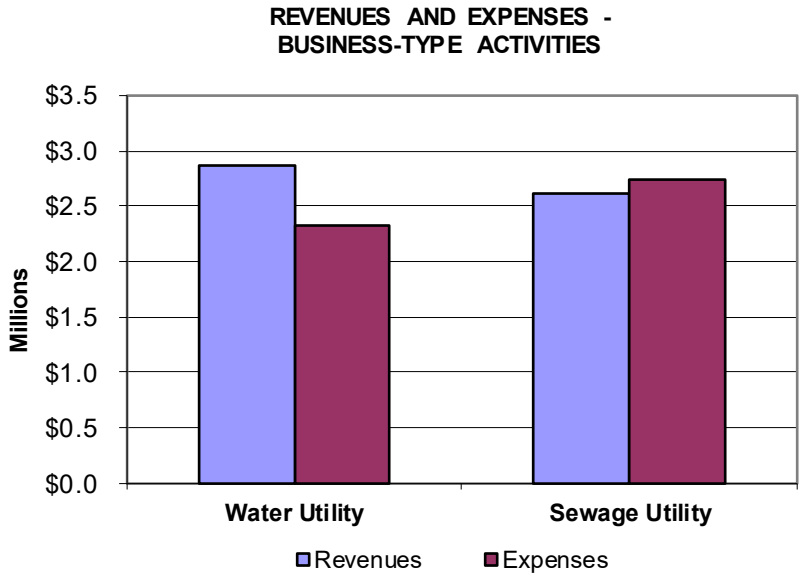
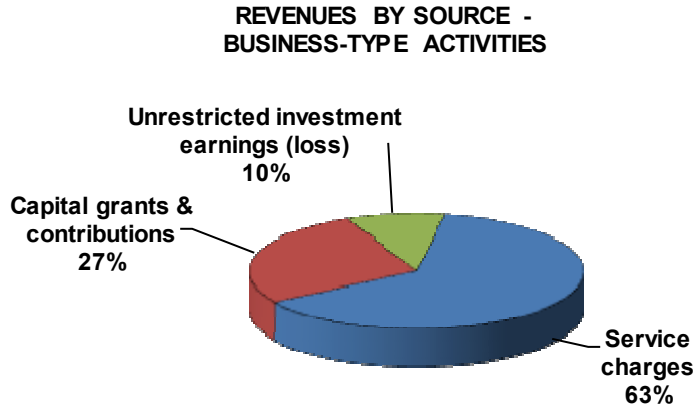
Governmental Activities. The most significant revenue (27%) of the governmental activities are $16.2M in unrestricted grants and state shared revenue. The majority of the revenue in the state-shared category consists of the 4% state-shared sales and use tax ($13.6M) followed by federal mineral royalties ($.5M), gasoline tax ($.5M), various Teton County reimbursements ($.5M), and severance tax ($.4M). The 1% local option (5th cent) sales tax makes up the second highest source of revenue ($11.1M or 18%) in the governmental funds. The revenue generated from the 5_{th} cent sales tax is split evenly between the general fund and capital projects fund. Capital grants and contributions make up the third highest source of revenue ($9.9M or 16%) in the governmental funds.

Public Safety (police, fire/EMS, building inspector, victim services, animal shelter and dispatch) expenses (22%) was the most significant followed by Transit (20%), Recreation and Culture (20%), General Government (17%), Public Works (12%), Community Development (6%), and Health and Welfare (3%). Included in these amounts is $5,734,371 of depreciation and amortization expense, which is 12% of the total expenses for governmental activities.



Governmental revenues increased $2,548,101 (4%), in the current year, with the most significant portion of the increase attributable to higher capital grants and



contributions ($1,695,679) and operating grants and contributions ($1,219,147). Capital grants were higher due to $4,159,078 received from Teton County towards completion of the Core Services Maintenance. Operating grants were higher due to Teton County and federal matches for START Bus System service increases.

Governmental activities expenses increased $13,816,291 (34%) in the current year. The most significant changes in program expenses were as follows:

- General government expenses increased $2,280,000 (32%). The majority of the increase is due to total compensation increases and capital outlay.
- Public safety expenses decreased $149,364 (1%). The decrease is related to pension expense being lower than prior year.
- Public works expenses increased $543,060 (9%). The increase is related to increases in total compensation and street maintenance.
- Health & Welfare expenses increased $198,644 (16%) to meet request increases from local non-profits.
- Transit operating expenses increased $743,009 (7%). The increase is related to total compensation increases and increased service levels.
- Recreation and culture expenses increased $8,598,027 (392%), primarily due to an increase in the operating match for Parks and Recreation (Teton County) department and Town share of the Recreation Center Renovation.
- Interest expense increased $21,083 (38%) due to GASB 87 lease and GASB 96 subscription arrangement accounting.

There were no other programs with significant or unusual changes.

Business-type activities. Business-type activities increased the Town's net position by $2,064,040 (4%). In the prior year, the business-type activities increased the Town's net position by $454,813 (1%).

Key elements of the change are as follows:

Water Fund operating revenues decreased $62,464 (2%), which is reflective of lower irrigation volume. Sewage Fund operating revenues increased $95,943 (4%), mainly due to increased connections and tourism.

Capital grants and contributions totaled $2,356,617, 101% higher than the prior year total of $1,174,196. Capital grants and contributions include capacity and tap fees charged to new customers and intergovernmental grants for capital improvements. Capacity and tap fees increased due to a few large developments in the current year coupled with fee increases. Depreciation and amortization expenses in the water and sewage utilities for fiscal year 2024 were $751,459 and $937,187, respectively.

FINANCIAL ANALYSIS OF THE TOWN'S FUNDS

Governmental funds. The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, spendable fund balances may serve as a useful measure of a government's net resources available for expenditure at the end of the fiscal year.

At June 30, 2024, the Town's governmental funds reported total ending fund balances of $52,584,678, a decrease of $8,463,741 (14%) when compared with the prior year. Nearly 34% or $17,981,418 of the total ending fund balances constituted restricted fund balances, which are considered unavailable for appropriation for general operations. The prior year restricted fund balances totaled $18,054,440. The decrease is mostly attributable to 2019 SPET project expenditures for the Core Services Maintenance Facility exceeding tax revenues.

At the end of the fiscal year, the General Fund reported a fund balance of $19,072,428 increasing $345,715 (2%) from the prior year. General Fund operating revenues were $3,104,729 (10%) more than the prior fiscal year and operating expenditures increased by $4,225,831 (19%). Transfers in increased by $50,562 (3%), primarily due to indirect cost allocations for staff. Transfers out decreased by $7,569,267 (45%). This is due to one-time transfers to the Capital Projects Fund to fund multiple, large capital projects in the prior year.

General Fund expenditures decreased $4,225,831 (19%). Salaries and salary related expenditures (Wyoming Retirement, Workers' Compensation, health insurance, etc.) increased $1,047,274 (9%) for all functions. Increase is primarily due to a 7.3% wage increase and $2,648,730 increase in Teton County joint departments.

The START Bus System Fund net change in fund balance was positive by $1,372,532 (77%). Total expenditures were $14,080,975. Operating expenditures increased $212,312, mainly due to labor increases. There were $5,324,935 in capital outlays during the fiscal year related to purchasing six transit buses, Stilson Transit Center design and fare technology. Intergovernmental revenues increased to $408,662 from the prior year total of $10,477,320. This is due to US Department of Transportation grant matches of approximately 80% for the bus purchases. Transit fares increased $181,534 from the prior year. $142,976 of the fare increase is due to the new airport shuttle service. The Town contributed $2,614,309 and Teton County contributed $2,064,278 for a total of $4,678,587 to the fund in fiscal year 2024.

The 5th Cent Capital Project Fund saw its fund balance decrease $9,951,832 (60%) to $6,647,317. The General Fund transferred $6,434,838 in 5th Cent sales tax to the fund in FY2024, a decrease of $8,871,369 from FY2023. This is due to one-time transfers to the Capital Projects Fund to fund multiple, large capital projects.

The 2019 SPET Fund saw its fund balance decrease $752,917 to $10,795,365. This is due to construction on the Core Services Maintenance Facility and project expenditures exceeding tax collections. This fund has received all $29,000,000 in SPET revenues. The fund will continue to decrease due to project expenditures in future years.

Proprietary funds. The proprietary funds financial statements provide the same type of information found in the government-wide financial statements, but in greater detail.

The water utility's net position increased $836,369 (4%) from the prior fiscal year. In 2024, operating revenues decreased $62,464 (2%). Capital contributions increased to $646,373 from $299,683 in the previous year (116%). Operating expenses increased $196,532 (9%) to $2,306,713. The 2024 operating income of $562,590 includes $751,459 in depreciation and amortization.

The sewage utility's net position increased $1,213,897 (4%) in the fiscal year ending June 30, 2024. Sewage utility operating revenues increased $95,943 (4%) to $2,620,483 and the utility's operating expenses decreased $204,579 (7%) to $2,741,749. Capital contributions increased $835,731 (96%) from

$874,513 to $1,710,244. The $121,266 operating loss includes $937,187 in depreciation and amortization.

Other factors of the changes in income from operations have previously been discussed in the government-wide financial analysis of business-type activities.

GENERAL FUND BUDGETARY HIGHLIGHTS

The differences between the 2024 original budget and the final amended budget are adopted by council resolution throughout the year.

General Fund revenues totaled $33,740,909 and exceeded the final budget by $1,934,313 (6%). General taxes and intergovernmental revenues were $249,119 (2%) and $435,235 (3%) higher than budget, respectively. This is due to sales tax related revenues which were budgeted to increase 3% over FY2024 actuals. However, this major revenue source increased 6%. This increase is attributable to tourism and sales tax generating transactions increasing over FY2023.

General Fund operating expenditures totaled 26,135,671. This was $2,422,564 (8%) less than the final amended budget and $1,961,981 (7%) less than the adopted budget. Including transfers out, supplemental appropriations from budget amending Council actions increased the original budget by $553,425 (1.5%). The majority of this increase was for the Town share of Teton County joint departments who increased due to a compensation study implementation. In fiscal year 2024, no divisions finished the year over budget.

The General Fund year end fund balances since 2014 are as follows:

Year	Amount	Year	Amount
2015	$ 7,049,752	2020	$ 12,158,856
2016	7,484,300	2021	18,020,470
2017	7,650,890	2022	24,879,725
2018	8,329,716	2023	18,726,713
2019	8,683,289	2024	19,072,428

Capital assets. The Town's investment in capital assets for its governmental and business-type activities at June 30, 2024 totaled $201,176,905 (net of accumulated depreciation and amortization). This investment in capital assets included land, construction in progress, structures, systems, machinery and equipment, intangible assets, right to use assets and infrastructure.

Major governmental activities capital assets include: $16,136,599 for Core Services Maintenance Facility construction, $4,310,340 for six transit buses, $798,164 for START intelligent transit system software and hardware, $539,381 in infrastructure improvements, and $865,390 in fleet equipment and vehicles which includes ten police vehicles. The total government-wide capital asset increase over the prior fiscal year is approximately $16,864,288; governmental activities increased 12% and business-type activities decreased 9%.

Additional information on the Town's capital assets can be found in the notes to the financial statements on pages 48-49.

LONG-TERM LIABILITIES

Long-term liabilities. The Town's outstanding long-term liabilities - including notes payable, accrued interest payable, and net pension liability - totaled $14,159,551 at June 30, 2024. Governmental long-term and business-type long-term liabilities decreased primarily due to net pension liability decrease.

Additional information on the Town's long-term liabilities can be found in the notes to the financial statements on pages 51-57 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- The unemployment rate for the Teton County, Wyoming area for June 30, 2024 was 1.7%, which is below the state average (2.9%) and below the national average (4.1%).
- In this budget, the Town continues to focus on staff retention and maintaining standard departmental budgets to provide expected levels of service while considering prudent requests for modest increases focused on staff retention and matching service levels with capacity.
- To continue to be a resilient community, we will need to preserve and maintain General Fund Reserves to have the resources to adapt to uncertain times ahead. Looking ahead, recurring expenses are expected to exceed recurring revenues. We must continue evaluating our revenue streams and expenditures, to determine how to ensure a balanced budget into the future.
- The Town will need to prioritize our core services, capital projects and consider reducing funding to the areas of lower priority and/or work to consider a new funding source(s) to maintain current Town program services and capital improvement projects. As our community changes, various core services continue to see increased need year-over-year. The Town simply does not have the capacity to absorb such continuous growth without increasing revenue or reducing existing program services and capital projects.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Town's finances for all those interested in governmental finance. Questions concerning any information in the report or requests for additional information should be addressed to Town of Jackson, Finance Department, P.O. Box 1687, Jackson, WY 83001.

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position June 30, 2024

Total fund balances - governmental funds		$ 52,584,678
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.		
Land	$ 33,351,431	
Construction in progress	33,335,691	
Buildings, structures and improvements	74,496,052	
Machinery and equipment	29,757,008	
Intangible	6,119,667	
Right to use asset - buildings	1,189,013	
Infrastructure	62,296,062	
Accumulated depreciation and amortization	(77,262,105)	163,282,819
Deferred outflows of resources related to pensions are not reported in the funds.		3,984,952
Long-term liabilties, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.		
Accrued interest payable		(702)
Lease liability		(886,188)
Note payable		(563,375)
Net pension liability		(10,386,517)
Deferred inflows of resources related to pensions are not reported in the funds.		(3,079,513)
Certain lease revenues are considered unavailable and therefore not reported in the funds.		304,167
Internal service funds are used by management to charge the costs of employee insurance, fleet management, IT services, and central equipment to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position:		
Cash and cash equivalents	$ 2,433,626	
Investments	1,807,181	
Accounts receivable	51,490	
Due from other governmental units	80,630	
Inventories	627,890	
Prepaid items	119,499	
Machinery and equipment, net	3,706,966	
Right to Use - subsciption asset, net	327,524	
Interfund Payable - pooled cash	(752,214)	
Accounts payable	(651,239)	
Accrued wages payable	(14,544)	
Subscription liability	(166,466)	7,570,343
NET POSITION OF GOVERNMENTAL ACTIVITIES		$ 212,810,664

The notes to the financial statements are an integral part of this statement.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities
Year Ended June 30, 2024

Net change in fund balances--total governmental funds		$ (8,463,741)
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds reported capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation and amortization expense. This is the amount by which capital outlays exceeded depreciation and and amortization expense.		
Capital outlays	$ 22,621,812	
Depreciation and amortization	(5,734,371)	16,887,441
Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.		49,550
The net effect of transactions involving net pension liability, deferred outflows of resources related to pensions, deferred inflows of resources related to pensions, and pension expense is to decrease net position.		(135,769)
The net effect of transactions involving leases issued, debt service on lease liabilities, and lease conversion is to decrease net position.		(107,537)
Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of the internal service funds is reported with governmental activities.		521,473
Change in net position of governmental activities		$ 8,751,417

The notes to the financial statements are an integral part of this statement.

I. Summary of significant accounting policies

A. Description of government-wide financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. Governmental activities, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees and charges to external customers for support.

B. Reporting entity

The Town of Jackson was incorporated in 1914 and is a municipal corporation governed by an elected mayor and four-member governing council. The five-member mayor-council is elected on staggered, even-numbered years. The mayor and council members are elected at-large to four-year terms. The governing body appoints a manager to implement policies and oversee daily operations.

The accompanying financial statements present the governmental entities for which the government is considered to be financially accountable. The Town does not report any component units.

C. Basis of presentation - government-wide financial statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the Town's enterprise funds. Separate financial statements are provided for governmental funds and proprietary funds.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of inter-fund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

D. Basis of presentation - fund financial statements

The fund financial statements provide information about the Town's funds. Separate statements for each fund category; governmental and proprietary, are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The Town reports the following major governmental funds:

- The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.
- The 5th cent capital projects fund accounts for the acquisition and construction of the government's major capital facilities, other than those financed by the propriety funds and Specific Purpose Excise Tax (SPET) funds.
- The Southern Teton Area Rapid Transit (START) fund is a special revenue fund. It accounts for operational and capital transit system expenditures primarily financed by state and federal transit grants.
- The 2019 SPET fund accounts for expenditures related to the revenue generated by the 2019 specific purpose excise tax.

The Town reports the following enterprise funds:

- Water Fund. This enterprise fund accounts for the operations of the Town-owned water treatment and distribution system.
- Sewage Fund. This enterprise fund accounts for the operations of the Town-owned sewage collection and treatment system.

Additionally, the Town reports the following fund type:

Internal Service Funds. The operating activities for Employee Insurance, Fleet Management, Central Equipment, and Information Technology (IT) Services are reported in internal service funds because they provide services to other Town departments on a cost reimbursement basis.

During the course of operations, the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal service fund balances in the business-type activities column. Internal service fund services provided and used by other funds are not eliminated in consolidation. No overhead costs are charged to internal service funds requiring elimination.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

E. Measurement focus and basis of accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital outlay related to leases are reported as other financing sources.

Property taxes, sales taxes, franchise fees, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the government.

The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting.

F. Budgetary information

1. Budgetary basis of accounting

The Town uses the following procedures in establishing the budgetary data reflected in the accompanying financial statements:

- According to the laws of the State of Wyoming, all town budgets must be approved by their governing board not later than the third Tuesday in June.
- In May, the recommended budget for the following fiscal year is presented by the Town Manager to the Town Council. The budget includes recommended expenditures and the means of

financing them. Public meetings are held to obtain citizen comment.

- Prior to June 30, the Town Council legally adopts the budget through the passage of a resolution. The resolution sets the limit for expenditures for the year.
- The maximum legal expenditure permitted for the year is the total budget as adopted. The expenditure appropriations in the adopted budget are maintained in the Town's financial system by department within individual funds. Departmental appropriations may be amended during the year if approved by Council in the form of a budget amendment resolution.
- Department directors are generally authorized to transfer budgeted amounts within any specific department's expenditure appropriation. Any budget revisions requiring a transfer between departments must be approved by the Town Council. Additionally, budget revisions involving personnel or capital asset expenditures/expenses must be approved by the Town Council.
- Appropriations in all budgeted funds lapse at the end of the fiscal year even if they have related committed contracts. While all appropriations lapse at year end, valid outstanding committed contracts (those for which performance under the executory contract is expected in the next year) are re-appropriated and become part of the subsequent year's budget.

2. Excess of expenditures over appropriations

For the year ended June 30, 2024, expenditures exceeded appropriation in the Employee Housing Fund. This was due to GASB 87 implementation, non-cash basis budgetary transaction. Through four formal supplementary appropriations, the General Fund original budget increased 2%. Actual expenditures and other uses are 7.3% under the final amended budget.

G. Assets, liabilities, deferred outflows/inflows of resources, and net position/fund balance

1. Cash and cash equivalents

The government's cash and cash equivalents are cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

2. Investments

Cash and investment balances from all funds are combined and invested to the extent authorized by state statutes and Town investment policy. Earnings from such investments are allocated to respective funds on the basis of applicable cash balance participation by each fund. The interest receivable balance is reported as one amount in the General Fund while all other funds receive interest revenue distributions in cash.

Investments for the Town are reported at fair value.

3. Receivables

Account (trade) receivables are carried at original billing amount less an estimate made for doubtful receivables based on a review of all outstanding amounts on a regular basis. Management determines the allowance for doubtful accounts by identifying troubled accounts and by using historical experience applied to an aging of accounts. With council approval, trade receivables are written off when deemed uncollectible. Recoveries of trade receivables previously written off are recorded when received.

A receivable is considered past due if any portion of the receivable balance is outstanding for more than 30 days. Interest is charged on receivables that are outstanding for more than 30 days. Accrual of interest is not suspended until a receivable is determined to be uncollectible. Provisions for bad debts would be insignificant and immaterial and none has been made for 2024.

4. Short-term interfund receivables/payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet. Short-term inter-fund loans are classified as "interfund receivables/payables." Due to and due from other funds are closed to cash and cash equivalents at year end.

5. Inventories, prepaid items, and deposits

Materials and supplies are valued at cost, which approximates market value, using the first-in/first-out (FIFO) method. The consumption method is used to account for inventories. Inventory costs are recorded as expenditures when individual inventory items are consumed. In governmental funds, reported inventories are equally offset by nonspendable fund balance amounts, indicating that they do not constitute "available spendable resources" even though they are a component of net current assets. The net change in nonspendable fund balances is not presented because the combined statements of revenues, expenditures, and changes in fund balances reflects

the changes in total fund balances rather than just the spendable and nonspendable fund balances.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Certain payments made to lessors are considered security deposits. These funds are considered assets that will be returned. In the event any deposit is kept by lessor, an expenditure/expense will be recorded.

6. Leases and Service-Based IT Arrangements (Subscription)

A. Town as Lessee

The Town is a lessee for various buildings and an easement. The Town recognizes a lease liability and an right-to-use lease asset (lease asset) in the government-wide financial statements. The Town recognizes lease liabilities with an initial, individual value of $50,000 or more and the lease must be longer than one year including expected extensions.

At the commencement of a lease, the Town initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life. Key estimates and judgments related to leases include how the Town determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The Town uses the interest rate charged by the vendor as the discount rate. When the interest rate charged by the lessor is not provided, the Town generally uses its estimated incremental borrowing rate as the discount rate for subscription agreements.
- The lease term includes the noncancellable period of the lease.
- Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the Town is reasonably certain to exercise.

The Town monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

B. Town as Lessor

The Town is a lessor for multiple facilities and easements. The Town recognizes a lease receivable and a deferred inflow of resources in the government-wide and governmental fund financial statements.

At the commencement of a lease, the Town initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments include how the Town determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The Town uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease.
- Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The Town monitors changes in circumstances that would require a remeasurement of its lease, and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

C. Subscription based IT Arrangements

The Town is committed under various subscription agreements. The Town recognizes a subscription liability and a right-to-use subscription asset in the government-wide financial statements. The Town recognizes subscription liabilities with an initial, individual value of $50,000 or more and the agreement must be longer than one year including expected extensions.

At the commencement of a contract, the Town initially measures the subscription liability at the present value of payments expected to be made during the contract term. Subsequently, the subscription liability is reduced by the principal portion of contract payments made. The subscription asset is initially measured as the initial amount of the subscription liability, adjusted for contract payments made at or before the contract commencement date, plus certain initial direct costs. Subsequently, the subscription asset is amortized on a straight-line basis over its useful life. Key estimates and judgments related to contracts include how the Town determines (1) the discount rate it uses to discount the expected contract payments to present value, (2) contract term, and (3) contract payments.

- The Town uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the Town generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The contract term includes the noncancellable period of the contract.
- Contract payments included in the measurement of the subscription liability are composed of fixed payments and purchase option price that the Town is reasonably certain to exercise.

The Town monitors changes in circumstances that would require a remeasurement of its contract and will remeasure the subscription asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Subscription assets are reported with other capital assets and subscription liabilities are reported with long-term debt on the statement of net position.

7. Capital assets

Capital assets, including property, plant, and equipment, and infrastructure assets (e.g., roads, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than $10,000 ($20,000 for buildings and improvements and $50,000 for infrastructure) and an estimated useful life in excess of two years. Right to use assets are discussed in note below. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value on date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, equipment, and intangible assets with exhaustible useful lives are capitalized when acquired, and depreciation is provided using the straight-line method applied over the following estimated useful lives of the assets:

Buildings	10-50
Distribution systems	20-50
Infrastructure	20-50
Machinery and equipment	5-15
Right-to-use asset - buildings	2-99
Right-to-use asset – easements	2-99
Right-to-use asset – subscription asset	2-10
Other improvements	5-99
Intangible assets	5-99

Intangible assets lack physical substance, are nonfinancial in nature, and have an estimated useful life extending beyond a single reporting period. The term depreciation, as used in this footnote, includes amortization of intangible assets.
Capital assets transferred between funds are transferred at their net book value (cost less accumulated depreciation), as of the date of the transfer.

8. Deferred outflows and inflows of resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The Town has reported deferred outflows of resources related to pensions on the government-wide statement of net position, each proprietary fund statement of position, and the Fleet Management Fund within the Internal Service Fund statement of net position.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until then. The Town has reported three deferred inflows of resources: pension related items, leases and property taxes. Pension items are reported on the government-wide statement of net position, each proprietary fund statement of position, and the Fleet Management Fund within the Internal Service Fund statement of net position. Leases are reported in both the governmental funds balance sheet and the entity-wide statement of net position. These amounts represent future revenues that will be collected per lease agreements and are not currently available to finance operations.

Property taxes for future periods are reported in both the governmental funds balance sheet and the entity-wide statement of net position. Property tax revenues are not recognized prior to the period which they are intended to finance, even if an enforceable lien is in place prior to the beginning of the intended period. Thus, property taxes received or receivable as of year-end, which are intended to finance the following fiscal year, are recorded as deferred inflows.

9. Pension related assets, liabilities, deferred outflows and inflows of resources

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wyoming Retirement System (the System) and additions to/deductions from the System's fiduciary net position have been determined on the same basis as they are reported by the System. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

10. Net position flow assumption

Sometimes the Town will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

It is the Town's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

11. Fund balance flow assumption

Sometimes the Town will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

12. Fund balance policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The Town itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance). The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the Town's highest level of decision-making authority. The Town council is the highest level of decision-making authority for the Town that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the Town for specific purposes but do not meet the criteria to be classified as committed. The Town council has, by resolution, authorized the Town Manager to assign fund balance. The council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

13. Long-term obligations

In the government-wide financial statements and in the proprietary fund types of the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statements of net position. If any, bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from actual debt

proceeds received, are reported as debt service expenditures. The Town's current debt obligations were issued without discounts or premiums and issuance costs were insignificant and immaterial.

14. Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

15. Reclassifications

Where presented, certain 2023 financial statement amounts have been reclassified to conform to the 2024 presentation.

H. Revenues and expenditures/expenses

1. Property Tax

Teton County assesses all taxable property other than centrally assessed property, which is assessed by the State of Wyoming, by January 1 of each year. The Town notifies its levy to Teton County by July 31. Properties taxes are levied on or about August 1 and are payable in two installments on September 1 and March 1. The Teton County Treasurer is responsible for billing and collecting property taxes for the Town. The Town receives monthly distributions for the prior month's collections by the County. Property tax revenues are recognized when levied to the extent that they result in current receivables which means collected within the current period or expected to be collected within 60 days after the period end to be used to pay liabilities of the current period.

2. Sales Tax

The Town imposes a 1% local optional sales and use tax (5th cent). The 5th cent sales tax is collected by the state and remitted monthly to the Town. Sales tax revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Additionally, Teton County imposes a 1% specific purpose excise tax (SPET) for various voter-approved projects. Teton County distributes SPET tax to the Town for projects that the Town manages.

3. Entitlements, state shared revenues and grants (Intergovernmental revenues)

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Expenditure-driven grants are recognized in the fund financial statements as revenue when the qualifying expenditures have been incurred, all eligibility requirements have been met, and reimbursement is received within availability period. Included below are the ongoing state shared revenues and grants received by the Town.

Sales tax. The state levies a 4% general sales and use tax, with 31% of it returned to Wyoming towns and counties based on populations and location of sales.

Lodging tax. The state levies a 5% lodging tax that is added to a visitor's stay in any Teton County hotel, motel or rental property. 3% is distributed to the state and used to fund the Wyoming Office of Tourism and the Wyoming Tourism Board. 2% is distributed to the Town and County and allocated based on point of sale. The Jackson Hole Travel and Tourism Joint Powers board is responsible for allocating 60% of the collected funds. Teton County and the Town are responsible for the remaining 40% of the funds collected.

America Rescue Plan (ARPA) Act. These are program allocation driven, one-time funds related to the COVID-19 pandemic. Funds were received via the United States Department of the Treasury.

Gasoline, cigarette, and severance taxes. These three taxes are all imposed by the state and returned to cities, towns and counties by various percentages determined by the Wyoming legislature.

Mineral Royalties. These are federal royalties paid to the state and passed down to cities, towns, and counties by percentages determined by the Wyoming legislature.

Federal Transit Administration (FTA). The FTA provides funding for 80% of administration, 56.56% of operations, and 80% of capital for qualifying bus system expenditures. In FY2024, the FTA provided additional Coronavirus Aid, Relief, and Economic Security (CARES) Act funds which provided for 100% of operations costs.

4. Program revenues

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and

contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

5. Compensated absences

Employees can sell-back up to 40 hours of accumulated paid time off (PTO) before the end of each fiscal year provided they meet certain requirements. All other accumulated PTO is forfeited. There are no accumulated balances for PTO. Compensatory time, if any, is accrued as wages payable at year end.

6. Proprietary funds operating and nonoperating revenues and expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water fund, sewer fund, and internal service funds are charges to customers for sales and services. The water fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

I. Federal Audit Requirements

The U.S. Office of Management and Budget (OMB) issued Uniform Administration Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), which establishes uniform cost principles and audit requirements for federal awards to non-federal entities and administrative requirements for all federal grants.

For 2024, the Town of Jackson audit was performed in accordance with Uniform Guidance. The auditor's report on consideration of the Town's internal control over financial reporting and tests of other matters are issued with this report.

II. Stewardship, compliance and accountability

A. Budgetary information

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are legally adopted by council resolution for all funds.

Formal budgetary integration is employed as a management control device during the year for the General and Special Revenue Funds. Budgetary control for Capital Project Funds is based on a project completion time cycle rather than on an annual basis, therefore, budgetary comparisons on an annual basis would not present meaningful information.

The Town follows these legal compliance procedures in establishing the budgetary data reflected in the financial statements:

1. The Town Manager submits a proposed operating budget, including proposed expenditures and means of financing them, to the town council prior to the beginning of the fiscal year commencing July 1.

2. Public hearings are conducted to obtain taxpayer comments.

3. Prior to June 30, the budget is legally enacted through the passage of a budget resolution.

4. Management may not legally exceed budgeted expenditures at the division level. Monitoring of budgets is maintained at the division level (i.e., police administration, police investigations, police patrols, etc.) and the category level (i.e., personal services; supplies; other services and charges; capital outlay) within each division. Management can alter the budget at the category level within their division but cannot exceed the total budgeted expenditures for the division that was approved by the town council. During the year, four formal supplementary appropriations were made. However, the town council approves all payments of vouchers and payroll at its regular meetings held twice a month.

5. All budgeted appropriations lapse at the end of the fiscal year. The legal level of budgetary control (i.e. the level at which expenditures may not legally exceed appropriations) is at the department level.

Deficit fund net position

At June 30, 2024, there was one internal service fund (Fleet Management) with a deficit fund net position. Fleet management deficit is due mostly to net pension liability calculations.

IIII. Detailed notes on all activities and funds

A. Cash, cash equivalents and investments

Cash, cash equivalents, and investments at June 30, 2024 are classified in the accompanying financial statements as follows:

Statement of net position:		
Cash and cash equivalents	$	42,516,668
Investments		28,919,473
Total cash and investments	$	71,436,141

Cash and investments at June 30, 2024 consist of the following:

Cash:		
Cash on hand	$	300
Deposit with financial institutions		342,144
Cash equivalents:		
Short-term certificate of deposit		24,675,559
Money market funds		17,498,665
Investments:		
Federal agencies		11,970,510
WYO-STAR		16,948,963
Total cash, cash equivalents, and investments	$	71,436,141

Investments authorized by Wyoming statutes and Town investment policy

The following table identifies the investment types that are authorized for the Town by Wyoming state statute. The Town's investment policy does not restrict investment types beyond the limits set forth by state statute. The table also identifies any provisions in Town policy and state statutes that address interest rate risk, credit risk, and concentration risk. This table also applies to investments of debt proceeds held by bond trustee that are governed by provisions of debt agreements and similarly restricted by state statute.

Authorized Investment Type	Maximum Maturity	Maximum Percentage of Portfolio	Maximum Investment in One Issuer
U.S. treasury obligations	None	None	None
U.S. agency securities	None	None	None
Banker's acceptances	None	25%	None
Commercial paper	270 days	25%	None
Negotiable certificates of deposit	None	None	$250,000
Non-negotiable certificates of deposit	None	None	None
Repurchase agreements	None	25%	None

The Town has investments with WYO-STAR, an investment pool authorized by the State of Wyoming and regulated by the Wyoming State Treasurer with oversight by the Wyoming State Loan and Investment Board. WYO-STAR issues separate external financial statements which can be obtained from the Wyoming State Treasurer's Office. WYO-STAR is not registered with the SEC as an investment company. Deposits in WYO-STAR are not insured or otherwise guaranteed by the State of Wyoming, and participants share proportionately in any realized gains or losses on investments. The fair value of the WYO-STAR investment pool is approximately equal to the value of the pool shares, $16,948,963.

B. Disclosures related to investment risk

Credit risk: Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Town polices restrict investments to the safest security types and require portfolio diversification so that potential losses on individual securities will be minimized. As of June 30, 2024, the Town's investments in U.S. Agencies are rated AA+ by Standard & Poor's and AAA by Moody's Investors Service. The Town's investments in negotiable certificates of deposit are below the F.D.I.C. $250,000 insurance limit per institution. Non-negotiable certificates of deposits exceeding $250,000 per institution must be collateralized by the limits defined in the custodial credit risk section of this footnote. The Town's investment in the brokerage money market mutual fund is unrated. Town investment policy limits investments to the safest types of securities, pre-qualifies financial institutions, brokers/dealers, intermediaries, and advisors, and requires investment portfolio diversification.

Custodial risk: Custodial risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial risk for investments is the risk that, in the event of failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to cover the value of its investment or collateral securities that are in possession of another party. Wyoming

statutes do not contain legal requirements that would limit the exposure to custodial risk for deposits or investments, other than the following provision for deposits: Wyoming statutes require that all Town deposits be protected by insurance, surety bond, or collateral. Authorized collateral includes the legal investment described earlier, as well as certain first mortgage notes, and certain other state or local obligations. Wyoming statutes require that securities pledged as collateral be held in safekeeping by the public funds depositor or by any bank, other than the depository bank, chartered by the state of Wyoming, any national bank, other than the depository bank, authorized to do business in the state, any federal reserve bank or branch thereof, or any federal reserve system member bank. According to Town polices, the market value of the collateral must be a minimum of 105% of deposits not covered by insurance or bonds.

Interest Rate Risk: Interest rate risk is the risk that changes in market interest rate will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value is to changes in market interest rates. According to its investment policy, the Town manages its exposure to interest rate risk by purchasing a combination of shorter term and longer term investments. The Town also manages this risk by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide cash flow and liquidity for operations. Further, the Town purchases some securities that have interest rates that step-up over time. The Town monitors the interest rate risk inherent in its portfolio by measuring the weighted average maturity of its portfolio. The Town has no specific limitations with respect to this metric.

Investment Type	Fair Value	Maturity (in years)
Federal Agencies:		
US Tresury Bills	$ 3,991,560	0.14
Federal Farm Credit Bank	3,999,400	0.01
Federal Home Loan Banks	3,979,550	0.17
WYO-STAR	16,948,963	0.00
	$ 28,919,473	
Portfolio weighted average maturity (yrs)		0.05

Concentration of Credit Risk: State statutes contain no limitations on the amount that can be invested in any one issuer. Investments in any one issuer representing approximately 5% or more of the Town's total investments are as follows:

Investment Type	Fair Value	Percent of Investment Portfolio
Federal Agencies:		
US Tresury Bills	$ 3,991,560	13.8%
Federal Farm Credit Bank	3,999,400	13.8%
Federal Home Loan Banks	3,979,550	13.8%
WYO-STAR	16,948,963	58.6%

Fair Value: The Town categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The Town has the following recurring fair value measurements as of June 30, 2024:

The $11,970,510 in U.S. agency securities are determined by an independent pricing service using recently executed transactions, market price quotations, and pricing models that factor in, when applicable, interest rates, bond spreads, and volatility (Level 2 inputs).

The fair value of the Town's position in WYO-STAR of $16,948,963 is the same as the value of the pool shares held by the Town (net asset value). WYO-STAR operates and reports monthly statements to participants on an amortized cost basis. The income, gains, and losses, net of administration fees, of WYO-STAR are allocated to participants monthly on the ratio of the participant's share to the total funds in WYO-STAR based on the participant's average daily balance. At June 30, the investments are valued at fair value, and participants are informed of the fair value valuation factor that enables them to adjust their statement balances to fair value (Level 2 inputs).

Cash, cash equivalents, and investments are presented in the government-wide financial statements as follows:

	Cash and Cash Equivalents	Investments	Total
Governmental activities:			
General Fund	$ 10,277,557	$ 7,159,688	$ 17,437,245
Start Fund	133,090	-	133,090
5th Cent Capital Projects	6,527,302	4,525,595	11,052,897
2019 SPET	6,754,662	4,683,231	11,437,893
Nonmajor govermental	7,367,844	4,607,985	11,975,829
Internal service funds	2,592,736	1,807,181	4,399,917
Total	33,653,191	22,783,680	56,436,871
Business-type activities:			
Water	4,647,706	3,222,409	7,870,115
Sewage	4,201,997	2,913,384	7,115,381
Internal service funds	13,774	-	13,774
Total	8,863,477	6,135,793	14,999,270
Government-wide total	42,516,668	28,919,473	71,436,141
Total cash and investments	$ 42,516,668	$ 28,919,473	$ 71,436,141

C. Concentration of sales and revenues

Snow King Mountain Resort and Blair Place Apartments are the two largest customers of water. Snow King Mountain Resort water purchases account for $118,135 (4%) and Blair Place Apartments water purchases account for $87,158 (3%) of the Water Fund's operating revenue. Wilson Sewer District and Spring Creek Improvement Service District are the two largest customers of sewage. Wilson Sewer District sewage charges account for $88,307 (3%) and Spring Creek Improvement Service District sewage charges account for $81,769 (3%) of the Sewage Fund's operating revenue.

D. Capital assets

Capital asset activities for the year end June 30, 2024 are as follows:

	Beginning Balance	Additions	Deletions	Ending Balance	Internal Service Fund Assets	Governmental Activities Total	Internal Service Fund Additons	Governmental Activities Additions
Governmental activities:								
Nondepreciable capital assets:								
Land	$ 33,351,431	$ -	$ -	$ 33,351,431	$ -	$ 33,351,431	$ -	$ -

Additions to construction in progress represent new construction in progress minus projects transferred to infrastructure or buildings for completed projects.

Depreciation and amortization was charged to function/programs as follows:

Governmental acitivities:	
General government	$ 1,544,289
Public safety	319,117
Public works	2,070,134
Recreation and culture	527,187
Transit	2,063,273
Total depreciation/amortization expenses - governmental activities	6,524,000
Internal service fund depreciation on capital assets charged to the various functions based on usage.	(789,629)
Depreciation expense excluding internal service fund.	$ 5,734,371
Business-type activities:	
Water Fund	$ 751,459
Sewer Fund	937,187
Total depreciation/amortization expenses - business-type activities	$ 1,688,646

E. Claims and judgements

The Town participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the Town may be required to reimburse the grantor government.

As of June 30, 2024, significant amounts of grant expenditures have not been audited by the granting agency, but the Town believes that disallowed expenditures discovered in subsequent audits, if any, will not have a material effect on any of the individual funds or the overall financial position of the Town. Additionally, unearned revenues are recognized in those funds that have received grant monies in advance of future reimbursable expenditures.

F. Receivables and unearned revenues

Accounts receivables and due from other governmental units: Due from other governmental units represent earned grant reimbursements or repayments owed for providing non-utility related services. The following are the accounts receivables and due from other governmental units at June 30, 2024:

	Accounts Receivable	Due from other Governments
Governmental activities:		
General Fund	$ -	$ 4,704,510
START Bus System	4,509	3,674,542
5th Cent Capital Projects	-	184,468
Nonmajor funds	796,928	-
Internal service funds	51,490	80,630
Total governmental activities	852,927	8,644,150
Business-type activities		
Water Fund	286,354	-
Sewage Fund	441,380	-
Total business-type activities	727,734	-
Total	$ 1,580,661	$ 8,644,150

Lease receivable

During the current fiscal year, the Town leased 9 facilities and easements. The leases range in term from 3 to 23 years with the longest expiring June 2044. Monthly payments ranged in value between $681 and $10,985. The Town recognized $416,327 in lease revenue and $117,864 in interest revenue during the current fiscal year related to these leases. As of June 30, 2024, the Town's receivable for lease payments was $3,157,790. Also, the Town has a deferred inflow of resources associated with this lease that will be recognized as revenue over the lease term. As of June 30, 2024, the balance of the deferred inflow of resources was $2,867,995.

Interfund receivables, payables and transfers: At June 30, 2024, there are interfund balances that are generally short-term loans used to cover temporary cash deficits in various funds. The interfund transfers generally are made for the purposes of distributing revenue from the general fund to other funds for capital projects and operations. Aside from utility transfers discussed below, no significant transfers during the fiscal year that were either non-routine in nature or inconsistent with the activities of the fund making the transfer.

The composition of interfund balances as of June 30, 2024 is as follows:

Receivable Fund	Payable Fund	Amount
General	Fleet Management	$ 752,214
Water	5th Cent Capital Projects	600,730
Sewage	5th Cent Capital Projects	600,730

On August 1, 2022, the Town approved an interfund loan each from the Water and Sewage funds to the 5th Cent Capital Projects fund to fund the Core Maintenance Facility project. The 5th Cent Capital Projects fund will repay the utility funds in monthly installments utilizing current interest rates earned on pooled cash over a five-year term. The interfund interest paid and received is recorded in transfers.

Unearned revenues: Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. This deferred revenue type is specifically referred to as unearned revenue. At the end of the current fiscal year, the various components of unearned revenue reported in governmental funds were as follows:

	Court Bonds	Construction Bonds	Grants	Customer Deposits	Total
Governmental Fund Activities:					
Unearned revenue					
General Fund	$ 9,980	$ 1,864,890	$ 90,149	$ 11,500	$ 1,976,519
Employee Housing	-	-	-	70,383	70,383
Total	9,980	1,864,890	90,149	81,883	2,046,902
Business-type activities:					
Unearned revenue					
Water	-	-	-	6,000	6,000
Total	-	-	-	6,000	6,000
Government-wide total	$ 9,980	$ 1,864,890	$ 90,149	$ 87,883	$ 2,052,902

Transfers: The following interfund transfers are reflected in the fund financial statements at June 30, 2024:

	Transfers In	Transfers Out
Governmental funds:		
General Fund	$ 1,944,808	$ 9,204,331
START	2,614,309	134,087
5th Cent Capital Projects	6,457,438	54,456
Nonmajor governmental	1,548,303	1,608,426
Total governmental funds	12,564,858	11,001,300
Enterprise funds:		
Water	11,728	785,273
Sewage	11,728	785,273
Total enterprise funds	23,456	1,570,546
Internal service funds	97,069	113,537
Total	$ 12,685,383	$ 12,685,383

The following schedule reflects each fund transfer:

In Fund	Out Fund	Amount	
General	Water	$ 785,273	(1)
General	Sewage	785,273	(1)
General	START	134,087	(1)
General	Employee Housing	87,846	(1)
General	Animal Care	61,392	(1)
General	Employee Insurance	90,937	(1)
START	General	1,155,121	(5)
START	Lodging Tax	1,459,188	(1)
Capital Projects	General	6,434,838	(2)
Capital Projects	IT Services	22,600	(5)
Central Equipment	Capital Projects	31,000	(5)
IT Services	General	66,069	(5)
Utility Funds	Capital Projects	23,456	(4)
Affordable Housing	General	1,548,303	(3)
		$ 12,685,383	

Annual reimbursement for shared expenditures
(1) Annual transfer to subsidize fund operations
(2) Annual 5th cent transfer to capital projects
(3) Transfer for housing projects and joint affordable housing department
(4) Transfer for interfund receivable interest
(5) One-time transfer for capital project

G. Accounts Payable

Accounts payable consists of vendor and retainage payables. As of June 30, 2024, governmental activities vendor payables totaled $6,391,744 and retainage payables totaled $636,743. As of June 30, 2024, business-type activities vendor payables totaled $174,091 and there were not retainage payables.

H. Long-term liabilities

Notes payable: The Town currently has issued two notes payable:

The first is a $1,158,046, 4% note also with the WWDC. This note is secured by the revenues of the Water Fund and a mortgage on the assets of the water supply system. This 30-year note is also payable in equal annual installments.

The last is a $1,000,000, .5% loan from Wyoming Business Council to install additional infrastructure at Snow King Mountain. This note is secured by the revenues of the Water Fund. This 20-year note is payable in 19 annual installments of $52,552 with all unpaid principal and interest due in the 20th year.

The notes payable outstanding are as follows:

Governmental activities

Notes Payable	Final Maturity	Interest Rates	Issue Amount	Outstanding 6/30/2024
Snow King Infrastructure				
Snow King Loan	03/31/35	0.50%	$ 1,000,000	$ 563,375

Business-type activities

Notes Payable	Final Maturity	Interest Rates	Issue Amount	Outstanding 6/30/2024
Water supply and storage projects				
2010 WWDC note	11/11/41	4.00%	1,158,046	847,792

Annual debt service requirements to maturity for the notes payable are as follows:

Year ending June 30	Governmental activities Principal	Governmental activities Interest	Business-type activities Principal	Business-type activities Interest
2025	$ 49,735	$ 2,817	$ 33,058	$ 33,912
2026	49,984	2,568	34,381	32,589
2027	50,234	2,318	35,756	31,214
2028	50,485	2,067	37,186	29,784
2029	50,737	1,815	38,673	28,296
2030-2034	257,518	5,243	217,847	117,003
2035-39	54,682	1,602	265,044	69,806
2040-42	-	-	185,847	14,921
Total	$ 563,375	$ 18,430	$ 847,792	$ 357,526

Leases payable

The Town is committed under eleven leases for buildings and easements entered into as lessee. The leases range between two and six years. As of June 30, 2024, the value of the lease liability was $921,138. The Town is required to make monthly principal and interest payments ranging between $1,500 and $11,159. The leases have an interest rate between 1% and 12%. The leases have estimated useful lives ranging between two and six years. The value of the right-to-use asset as of the end of the current fiscal year was $1,256,550 and had accumulated amortization of $405,546.

The future principal and interest lease payments as of June 30, 2024 were as follows:

Year ending June 30	Governmental activities Principal	Governmental activities Interest	Business-type activities Principal	Business-type activities Interest
2025	$ 256,892	$ 52,581	11,380	154
2026	264,789	35,454	11,648	117
2027	233,621	17,484	11,922	79
2028	111,895	4,326	-	-
2029	18,991	159	-	-
Total	$ 886,188	$ 110,004	$ 34,950	$ 350

Subscription payable

The Town is committed under four subscription agreements for software. The agreements range between two and six years. As of June 30, 2024, the value of the subscription liability was $166,466. The Town is required to make annual principal and interest payments ranging between $12,314 and $44,641. The agreements have an interest rate between 3% and 4%. The right-to-use subscription assets have estimated useful lives ranging between two and six years. The value of the right-to-use asset as of the end of the current fiscal year was $568,010 and had accumulated amortization of $240,486.

During the year ended June 30, 2024, there were no additional variable payments or other payments associated with these subscriptions.

The future principal and interest lease payments as of June 30, 2024 were as follows:

Year ending June 30	Governmental activities Principal	Interest
2025	$ 97,736	$ 6,399
2026	56,732	2,763
2027	11,998	482
Total	$ 166,466	$ 9,644

The following is a summary of changes in long-term liabilities reported in the government-wide financial statements for the year ended June 30, 2024:

	Beginning Balance	Additions/ Proceeds	Reductions/ Payments	Ending Balance	Due Within One Year
Governmental activities:					
Snow King Loan	$ 612,863	$ -	$ (49,488)	$ 563,375	$ 49,735
Leases payable	849,256	409,386	(372,454)	886,188	256,892
Subscription payable	278,519	248,731	(82,265)	166,466	97,736
Governmental activities total	1,740,638	658,117	(504,207)	1,616,029	404,363
Business-type activities:					
Water - storage	879,580	-	(31,788)	847,792	33,058
Leases payable	46,068	-	(11,118)	34,950	11,380
Business-type activities total	925,648	-	(42,906)	882,742	44,438
Government-wide total	$ 2,666,286	$ 658,117	$ (547,113)	$ 2,498,771	$ 448,801

Redemptions: None.

I. Risk management and litigation

The Town is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. For the past several years, the Town obtained coverage from various sources and has effectively managed risk through a number of employee education and prevention programs.

All risk management activities are accounted for in the appropriate fund. Expenditures and claims are recognized when it is probable that a loss has occurred, the amount of the loss can be reasonably estimated, and the loss amount exceeds insurance coverage. In determining claims, events that might create claims, but for which none have been reported, are considered.

The Town attorney estimates that the amount of actual or potential claims against the Town as of June 30, 2024 will not materially affect the financial condition of the Town.

Workers compensation coverage is provided through the state of Wyoming's Worker's Safety and Compensation Division. The Town pays an annual premium, reflecting a base rate plus an experience premium, to the division. Currently, the Town receives drug, alcohol, and safety program discounts.

The Town self-insures its health benefit coverage up to an annual $70,000 per claimant, with exception of laser coverage option. Stop-loss coverage is purchased from private insurers for amounts exceeding $70,000. For the year ended June 30, 2024, the Town exercised no laser coverage on any participants. Health benefit self-insurance activities are accounted for in the Employee Insurance Fund, an internal service fund.

Liability insurance is provided through Local Government Liability Pool (LGLP), a pooled self-insurance program. LGLP was created by the legislature specifically for local governments in Wyoming. The coverage amounts are the limits set by the Governmental Claims Act (W.S. 1-39-118). Current statutory limits are $250,000 per claimant with $500,000 per occurrence. Excess insurance coverage provides for out-of-state claims and Federal Civil Rights claims with the current limit of $5 million with a $1 million limit per occurrence. The LGLP policy has a $1,000 deductible.

Property and casualty insurances are provided by Wyoming Association of Risk Management (WARM) through a pooled self-insurance program. The WARM policy has a $5,000 deductible.

An analysis of claims activities for the last three fiscal periods ending on June 30 is presented below:

	2022	2023	2024
Paid losses	$35,358	$32,361	$88,076
Paid expenses	7,000	9,000	13,415
Reserves	14,895	-	34,478
Total incurred	$57,253	$41,361	$135,969

The Town's commercial insurance carrier has no set reserve losses or reserve expenses for claims filed after June 30, 2024 for incidents occurring prior to that date.

There were no significant reductions in insurance from the previous year and there were no settlements in excess of insurance coverage in each of the past three years.

J. Retirement plans

1. Defined benefit plans

The Town participates in the Wyoming Retirement System (the "System"), a statewide cost sharing multiple-employer public employee retirement system. The System is established and governed by the respective sections of Wyoming state statute. The statute provides for the administration of the System under the direction of the Wyoming State Retirement Board whose members are appointed by the Governor. The System issues a publicly available financial report that includes financial statements and required supplementary information for the System. A copy of the report may be obtained by writing to the Wyoming Retirement System, 6101 Yellowstone Road, Suite 500, Cheyenne, Wyoming 82002, by calling 1-307-777-7691, or https://retirement.wyo.gov/About/Reports?#categories. Substantially all Town employees are eligible to participate in following retirement plans offered by the System based upon eligibility and hiring status: 1) Public Employees' Pension Plan; 2) Law Enforcement Pension Plan; and 3) Wyoming Deferred Compensation Plan.

Public Employees' Pension Plan

The Public Employees' Pension Plan (PEPP) is a cost sharing multiple employer defined benefit, contributory retirement plan covering substantially all full-time employees of the Town. PEPP statutorily requires 18.62% of the participant's salary to be contributed to PEPP. Contributions consist of 9.25% of the participant's salary as employee contributions and 9.37% as employer contributions. The amount of contributions designated as employee contributions represent the portion of total contributions that a participant retains ownership of and can elect to receive as a refund upon termination of employment. Employers can elect to cover all or a portion of the employee's contribution at their discretion. Through legislation passed during the 2012 legislative session, two tiers of benefits were established for participants of this plan.

- Tier 1, PEPP allows for normal retirement after four years of service and attainment of age 60. Early retirement is allowed provided the employee has completed four years of service and attained age 50 or 25 years of service but will result in a reduction of benefits based on the length of time remaining to age 60.

- Tier 2, PEPP allows for normal retirement after four years of service and attainment of age 65. Early retirement is allowed provided the employee has completed four years of service and attained age 55, or 25 or more years of service but will result in a reduction of benefits based on the length of time remaining to age 65. All employees may also retire upon normal retirement on the bases that the sum of the member's age and service is at least 85.

PEPP provides retirement, disability and death benefits according to predetermined formulas and allows retirees to select one of eight optional methods for receiving benefits, including two joint and survivor forms of benefits: a 100% joint and survivor annuity, and a 50% joint and survivor annuity. The benefit amounts under these options are determined on an actuarially equivalent basis. Any cost of living adjustment provided to retirees must be granted by the State Legislature. In addition, a cost of living adjustment will not be approved by the legislature unless the plan is 100% funded after the COLA is awarded.

Employees terminating prior to normal retirement can elect to withdraw all employee contributions plus accumulated interest through date of termination or, if they are vested, they may elect to remain in PEPP and be eligible for retirement benefits at age 50 (Tier 1 employees) and 55 (Tier 2 employees).

Contributions to PEPP for the year ended June 30, 2024 were $1,593,184.

Law Enforcement Pension Plan

The Wyoming Law Enforcement Pension Plan (LEPP) is a cost sharing multiple employer defined benefit, contributory plan covering all law enforcement employees of the Town. LEPP statutorily requires 17.20% of the participant's salary to be contributed to LEPP. LEPP statutorily requires participants to contribute 8.6% of their salary to LEPP and the employer is required to contribute 8.6% of each participant's salary.

LEPP statutorily provides retirement, disability and death benefits according to predetermined formulas and allows employees to select one of seven optional methods for receiving benefits. Any cost of living adjustment provided to retirees must be granted by the State Legislature. In addition a cost of living adjustment will not be approved by the legislature unless LEPP is 100% funded after the COLA is awarded. Participants may withdraw from LEPP at

any time and receive refunds of participant contributions plus accumulated interest.

Contributions to LEPP for the year ended June 30, 2024 were $508,446.

Wyoming Deferred Compensation Plan

The Plan administered by the System is an IRS Section 457 Deferred Compensation Plan. This Plan is available as a supplemental plan to the defined benefit retirement plans. Contributions may be made into this Plan (subject to plan and Internal Revenue Code limitations) by employees and employer contributions at rates determined by the Town.

For the year ended June 30, 2024, employee contributions were $294,034 and employer contributions were $66,124.

2. **Pension Liabilities, Expense and Deferred Outflows of Resources Related to Pensions**

At June 30, 2024, the Town reported an entity-wide net pension liability of $11,640,381 of which $10,386,517 is related to governmental activities and $552,082 and $701,782 is related to the Town's water and sewer funds, respectively.

Plan	Proportionate Share	Net Pension Liability
PEPP	0.420014%	$ 9,535,088
LEPP	1.558506%	$ 2,105,293
Total net pension liability		$ 11,640,381

The net pension liability was measured as of December 31, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2024 and rolled-forward using generally accepted actuarial procedures. The proportion of the net pension liability was based upon actual historical employer contributions to the plan from the census data submitted to the plan for pay periods ending in 2023.

For the year ended June 30, 2024, the Town recognized entity-wide pension expense of $366,895. The PEPP recognized an expense of $238,077. The LEPP recognized an expense of $128,818. At June 30, 2024, the Town reported entity-wide deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	PEPP	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	$ 184,219	$ 41,654
Net difference between projected and actual earnings on pension plan investments	-	337,991
Changes in assumptions	97,877	-
Change in proportion	1,340,127	-
Contributions subsequent to the measurement date	826,087	-
	$ 2,448,310	$ 379,645

	LEPP	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	$ 183,117	$ 109,912
Net difference between projected and actual earnings on pension plan investments	-	126,951
Changes in assumptions	1,181,122	2,500,702
Change in proportion	238,766	12,226
Contributions subsequent to the measurement date	255,590	-
	$ 1,858,595	$ 2,749,791

Deferred outflows of resources related to pensions resulting from Town contributions of $1,081,677 made subsequent to the measurement date will be recognized as a reduction of the net pension liability in the upcoming fiscal year. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ending June 30,	Net Deferred Outflows (Inflows) of Resources PEPP	LEPP
2025	$ 478,255	$ 74,985
2026	370,711	(738,153)
2027	860,439	(315,951)
2028	(466,827)	(167,667)
	$ 1,242,578	$ (1,146,786)

Actuarial Assumptions

The total pension liability in the 2023, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	PEPP	LEPP
Projected salary increases, includes inflation	2.50% to 6.50%	5.25% TO 9.25%
Assumed inflation rate	2.25%	2.25%
Investment Rate of Return	6.80%	6.80%

PEPP mortality rates were based on the Pub-2010 General Employee Mortality Table, amount weighted, fully generational, projected with the MP-2020 Ultimate Scale.

LEPP mortality rates were based on the Pub-2010 Safety Employee Mortality Table, amount weighted, fully generational, projected with the MP-2020 Ultimate Scale.

Discount Rate

The discount rate used to measure the total pension liability was 6.8% for both the PEPP and LEPP. The projection of cash flows used to determine the discount rate assumed contributions from participating employers will be made based on the actuarially determined rates based on the Board's funding policy, which establishes the contractually required rates under Wyoming State Statutes. Based on those assumptions, the Systems' fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

Asset Class	Allocation	20 Year Arithmetic Expected Real Return
Cash	0.50%	-0.30%
Gold	1.50%	0.70%
Fixed Income	20.00%	3.80%
Equity	51.50%	8.20%
Marketable Alternatives	16.00%	5.23%
Private Real Assets	10.50%	7.48%
Totals	100.00%	6.61%

Sensitivity of the proportionate share of the net pension liability to changes in the discount rate:

The following presents the proportionate share of the net pension liability calculated using the PEPP discount rate of 6.80% and the LEPP discount rate of 6.80%, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease	Discount Rate	1% Increase
PEPP	5.80%	6.80%	7.80%
Proportionate share of net pension liability	$ 15,142,031	$ 9,535,088	$ 4,888,626
LEPP	5.80%	6.80%	7.80%
Proportionate share of net pension liability	4,248,370	2,105,293	352,816

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued Wyoming Retirement System financial report.

K. Committed contracts

At June 30, 2024, the Town had the following remaining commitments for uncompleted construction and equipment purchase contracts:

Fund/Project	Remaining Contract
START	
BUILD Grant	270,580
Capital Projects	
Chip Seal	254,500
Core Services Vehicle Maintenance Facility	1,070,025
Water	
West Jackson Water Transmission Project	736,269
S. Millward Waterline	971,360
Central Equipment Fund	
Street Sweeper	299,897
IT Vehicle	60,414

In 2008, the Town created a shared-appreciation mortgage program as a recruitment tool for key personnel. At June 30, 2024, the Town's commitments totaled $266,500.

L. Fund changes and fund balances

Amounts for specific purposes by fund and fund balance classifications for the year ended June 30, 2024, are as follows:

Classification/Fund	Purpose	Amount
Nonspendable		
General Fund	Prepaid items	$ 2,508
START Bus System	Prepaid items	66,130
Restricted		
General Fund	Victim services	12,745
2010 SPET	Energy	128,383
2006 SPET	Sidewalks	17,727
2014 SPET	Pedestrian/Complete Streets	3,266,138
2016 SPET	Landslide mitigation	351,404
2019 SPET	Complete Streets/Stormwater	10,795,365
2022 SPET	Employee housing	522,013
Parking Exactions	Parking improvements	228,723
Parks Exactions	Park improvements	601,793
Affordable Housing	Housing options	1,206,612
Lodging Tax	Visitor impacts	280,079
Animal Care	Animal shelter	570,436
Assigned		
Employee Housing	Employee housing	2,943,351
Affordable Housing	Housing options	1,212,260
Parking Exactions	Parking management	1,594,570
5th Cent Capital Projects	Various improvements	6,647,317
START Bus System	Transit	3,079,949
General Fund	Subsequent year's budget	2,539,368
Unassigned		
General Fund		16,517,807
Total fund balances		$ 52,584,678

For the year ended June 30, 2024, the Town closed the following fund(s):
None

For the same period, the Town opened the following fund(s):
2022 SPET

SCHEDULE OF THE PROPORTIONATE SHARE OF THE NET PENSION LIABILITY

Public Employees' Pension Plan

	December 31, 2014	December 31, 2015	December 31, 2016	December 31, 2017	December 31, 2018	December 31, 2019	December 31, 2020	December 31, 2021	December 31, 2022	December 31, 2023
Proportion of the net pension liability	0.2477%	0.2588%	0.2691%	0.2887%	0.2955%	0.3029%	0.3058%	0.3344%	0.3674%	0.4200%

Statistical Section

TOWN OF JACKSON
WYOMING

Statistical Information

(unaudited)

The Statistical Section is included to provide financial statement users with additional historical perspective, context, and detail for them to use in evaluating the information contained within the financial statements, notes to the financial statements, and required supplementary information with the goal of providing the user a better understanding of the Town's economic condition.

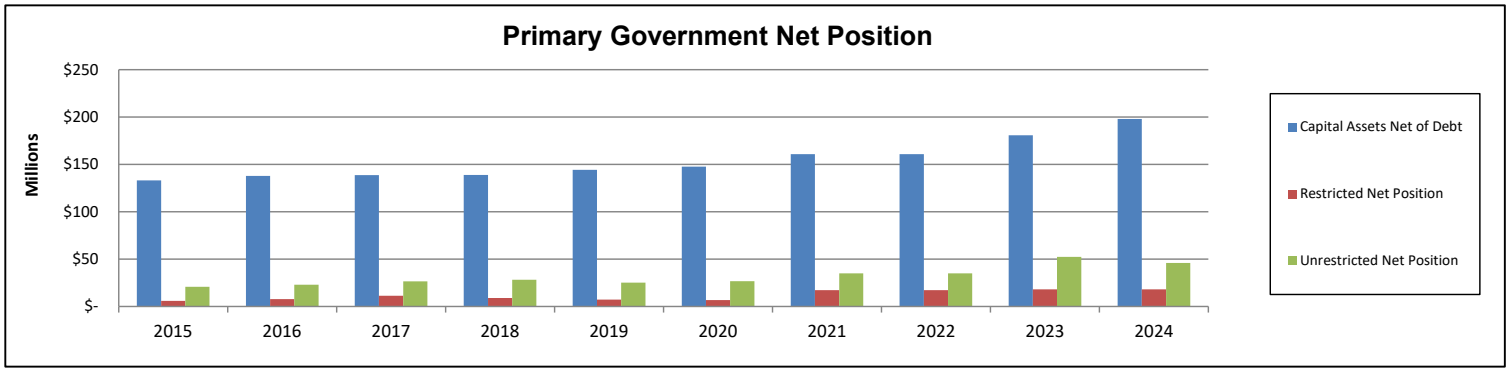
Contents

Financial Trends
These schedules contain information to help the reader understand how the Town's financial performance and well-being have changed over time.

Revenue capacity
These schedules contain information to help the reader assess the Town's most significant local revenue sources.

Debt capacity
These schedules contain information to help the reader assess the affordability of the Town's current levels of outstanding debt and the Town's ability to issue additional debt in the future.

Demographic and economic information
These schedules offer demographic and economic indicators to help the reader understand the environment within which the Town's financial activities take place.



Operating information
These schedules contain service and infrastructure data to help the reader understand how the information in the Town's financial report relates to the services the Town provides and activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year.

Change 2013-2024	105.6%	0.6%	-60.5%	7.6%	10.4%	-100.0%	73.0%

Notes: (1) As of June 30, 2004, the 4% state sales and use tax is distributed 69% to the state and 31% to cities, towns and counties. Of the 31%, 1% is distributed proportionately based on population and 30% is distributed proportionately based on the sales tax collected in each county.

(2) The gasoline tax is distributed 57.5% to the state, 13.5% and 14% to counties, and 15% to cities and towns. City and town distributions are based 75% on proportionate sales in cities and towns and 25% on proportionate populations for the same.

(3) The cigarette tax is distributed 33 1/3% to incorporated cities, towns, and counties proportionately to sales derived in each. The remaining 66 2/3% is distributed 38 1/4% to the state's general fund and the remaining 61 3/4% is distributed in the preceding manner.

(4) The severance tax distribution to cities and towns is 9.25% of the total in the state severance tax distribution tax account (up to $155,000,000) in proportion to population.

Direct and Overlapping Governmental Activities Debt
As of June 30, 2024

(Unaudited)

Teton County assessed valuation	4,107,313,200
Town of Jackson assessed valuation	926,028,959
Town of Jackson percent of total	22.5%

Direct and overlapping debt governmental activity debt	Total Debt 6/30/2024 (1)	Percent Applicable	Town's Share of Debt 6/30/2024 (2)
Teton County	$ 2,125,596	22.5%	$ 479,234
Town of Jackson	563,375	100.0%	563,375
Total direct and overlapping governmental activities debt	$ 2,688,971		$ 1,042,609

Ratio to assessed valuations	
Direct debt	0.06%
Total direct and overlapping debt	0.11%

Notes: (1) Excludes enterprise revenue debt, specific purpose excise tax supported debt and lease obligations.

(2) Overlapping governments are those that coincide, at least in part, with geographic boundaries of the town. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the town. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire burden borne by residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, therefore responsible for repaying the debt, of each overlapping government.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Mayor and Town Council
Town of Jackson, Wyoming

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Jackson, Wyoming (the Town) as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements, and have issued our report thereon dated December 27, 2024.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Town's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Independent Member of PrimeGlobal | The Association of Advisory and Accounting Firms

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the Town of Jackson, Wyoming's (the Town) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the Town's major federal programs for the year ended June 30, 2024. The Town's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Town complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Town and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the Town's compliance with the compliance requirements referred to above.

Independent Member of PrimeGlobal | The Association of Advisory and Accounting Firms

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the Town's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Town's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Town's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Town's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Town's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing

their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTE 1 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the Town of Jackson under programs of the federal government for the year ended June 30, 2024. The information in this schedule is·presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Town of Jackson, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Town of Jackson.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE 3 - INDIRECT COST RATE

The Town of Jackson has not elected to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

Introductory Section

Administration and Finance

December 29, 2025

To the Honorable Mayor, Members of the Town Council, and the Citizens of the Town of Jackson:

The Wyoming statutes require all cities, towns, and counties to issue an annual report on its financial position and activity prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), and audited in accordance with auditing standards generally accepted in the United States of America by a firm of licensed certified public accountants or the Wyoming Office of State Audit. Pursuant to that requirement, we hereby issue the Annual Comprehensive Financial Report (ACFR) of the Town of Jackson for the fiscal year ended June 30, 2025.

The Town of Jackson' financial statements have been audited by Jones Simkins LLC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Town of Jackson for the fiscal year ended June 30, 2025, are free of misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the Town of Jackson's financial statements for the fiscal year ended June 30, 2025, are fairly presented in conformity with GAAP.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A compliments this letter of transmittal and should be read in conjunction with it. The MD&A can be found on pages 13-22.

PROFILE OF THE GOVERNMENT

The Town of Jackson, incorporated in 1914, is located in Teton County near the Wyoming and Idaho border south of the Grand Teton and Yellowstone National Parks. The town currently has a land area of nearly 4 square miles and an estimated population of 10,680. The Town of Jackson is empowered to levy 8 mills of property tax on both real and personal properties located within its boundaries. The Town implemented a property tax of 0.5 mills during 2022. This is the first property tax assessment by the Town since 1977. It is also empowered by state statute to extend its corporate limits by annexation, which is done periodically when deemed appropriate by the Town Council.

The Town of Jackson is governed by city code under Wyoming Statutes with a council-mayor form of government. Policy-making and legislative authority are vested in a Town Council consisting of the mayor and four council members. The Town Council is responsible, among other things, for passing ordinances, resolutions, adopting the budget, appointing commissions, authorities, and committees, and hiring the town manager, town attorney and municipal judge. The town manager is responsible for carrying out the policies and ordinances of the Town Council, for overseeing the day-to-day operations of the town government, and for appointing the heads of the various departments. The council is elected on a non-partisan basis. All four council members and the mayor are elected at large. Council members serve staggered four-year terms, with elections occurring every even year. Effective 2017, the mayor serves a four-year term.

The Town of Jackson provides a full range of services, including police and fire protection; construction and maintenance of streets and infrastructure; recreational facilities and pathways, water, sewage, and transit services. Additionally, the town owns rental properties for employees.

FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the Town of Jackson operates.

Local economy. The Town of Jackson is located at the southern entrance to Grand Teton and Yellowstone National Parks in the northwest corner of Wyoming. Dramatic mountain peaks, including the Tetons, the Gros Ventres, and Snow King form a breathtaking backdrop to our valley (called Jackson Hole). The Town of Jackson is home to a little over 10,700 people and another 12,600 live in the unincorporated county (Teton).

Jackson's economy is centered on tourism and lifestyle. Approximately four million guests visit each year and more than 700,000 skier days are tallied at the Jackson Hole Mountain Resort. The abundance of outdoor recreation opportunities, the unsurpassed scenic beauty, the prevalence of many species of wildlife, the lack of individual state income tax, and the high quality of life give Jackson unsurpassed appeal as a place to live, visit and recreate.

At fiscal year-end, the Town of Jackson's employment picture, at a 2.3% unemployment rate (Teton County), is healthier than the 4.1% national average. The state of Wyoming has an unemployment rate of 3.3%.

FINANCIAL INFORMATION

Management of the town is responsible for establishing and maintaining internal control designed to ensure that the assets of the government are protected from loss, theft, or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgments by management.

This report consists of management's representations concerning the finance of the town. As a result, management assumes full responsibility for the completeness and reliability of all the information and content presented in this ACFR. Additionally, management asserts that, to the best of their knowledge and belief, this financial report is complete and reliable in all material respects.

Budgetary Controls. The annual budget serves as the foundation for the Town of Jackson's financial planning and control. All departments, authorities, and commissions of the town submit requests for appropriation to the town manager in February of each year. The town manager uses these requests as the starting point for developing a proposed budget. The town manager then presents this recommended budget to the council for review prior to May 15. The council is required to hold public hearings on the proposed budget and to adopt a final budget no later than June 30, the close of the town's fiscal year. The budget is prepared by fund (general), function (e.g., public safety), department (e.g., police), and division (e.g., patrol). All expenditures require the approval of the Town Council. Budget-to-actual comparisons are provided in this report for each individual governmental fund which an annual budget has been adopted. For the general fund and major special revenue funds, this comparison is presented starting on page 29 of the basic financial statements. For non-major special revenue funds, with annual budgets, this comparison is presented in the governmental fund subsection of this report, which starts on page 67.

Long-term Financial Planning. The Town's strategic vision is laid out in a Council bi-annual Work Plan, supported by a five-year financial model and

Capital Improvement Program. The Plan identifies the Town's strategic intent and identifies areas for emphasis and funding. The Town's near-term and long-term fiscal planning are focused on accomplishing Work Plan objectives. A five-year financial model and Capital Improvement Program are maintained to assess the attainability and sustainability of these objectives.

The Town Council supports and understands that the main area of focus for the Town of Jackson is the provision of core services, maintaining the current level of service already supported and approved through the annual budget, and most importantly those services that directly contribute to and maintain the health, safety, and welfare of the citizens and guests to our community. A brief summary includes:

Safety and security provided through law enforcement, fire protection, building safety and inspection, animal control, contractor licensing, and municipal court and prosecution services.

Infrastructure, facility and public asset management provided through street, sidewalk and right of way maintenance and snow removal services, engineering, preventive and proactive facility management, and parking enforcement.

Health and well-being provided through water treatment and distribution, sewer collection and treatment, emergency medical services, and victim services.

Development and economic oversight provided through code compliance, planning and development review, permit processing, and business, liquor, taxi, special event, and rental licensing.

Accessibility and livability provided through public transit, community and affordable housing, parks and recreation, and pathway creation and maintenance.

Internal services for the Town of Jackson organization that support the efficiency and effectiveness of our local government provided through information technology support, records management and access, fleet maintenance, public information, legal services, personnel services, financial accounting, and overall coordination, administration, leadership and management of government services and day to day operations.

Major Budget Initiatives.

To continue to be a resilient community, we will need to preserve and maintain General Fund Reserves to have the resources to adapt to uncertain times ahead. Looking ahead, recurring expenses are expected to exceed recurring revenues. We must continue evaluating our revenue streams and expenditures, to determine how to ensure a balanced budget into the future.

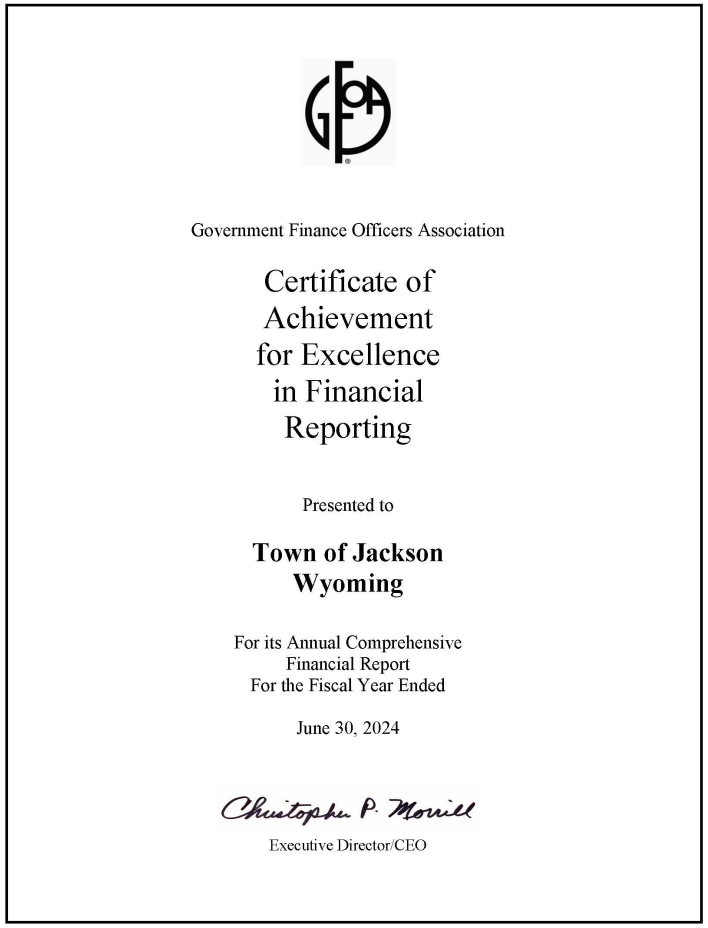
Due in part to COVID-19 pandemic we reinforced the importance of our fiduciary responsibility to maintain and continue building a strong, resilient community in the short, mid, and long-term. Due to years of prudent budgeting and planning, the Town was able to respond to reduced revenues projected and maintain a well-resourced and responsive Town government to close fiscal year 2025.

The Town will need to prioritize our core services, capital projects and consider reducing funding to the areas of lower priority and/or work to consider a new funding source(s) to maintain current Town program services and capital improvement projects. As our community changes, various core services continue to see increased need year-over-year. The Town simply does not have the capacity to absorb such continuous growth without increasing revenue or reducing existing program services and capital projects.

Single Audit. As a recipient of federal awards, the town is also responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations related to those programs. The internal controls are subject to periodic evaluations by town management and external auditors.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Jackson, Wyoming for its comprehensive financial report for the fiscal year ending June 30, 2024. This is the 39th year the town has received this prestigious award. In order to be awarded the Certificate of Achievement, the government must publish an easily readable and efficiently organized annual comprehensive financial report. This report satisfies both accounting principles generally accepted in the United States of America and applicable legal requirements.



A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program's requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

The preparation of this report could not be accomplished without the professional, efficient services of the Town Finance Department staff. We would like to express our appreciation to all members of the staff, with special recognition for the assistance contributed by Finance Manager Melanie

Adams and Senior Deputy Treasurer Pauline Scholes. Due credit also should be given to the mayor and the council for their support in planning and conducting the operations of the town in a responsible and progressive manner.

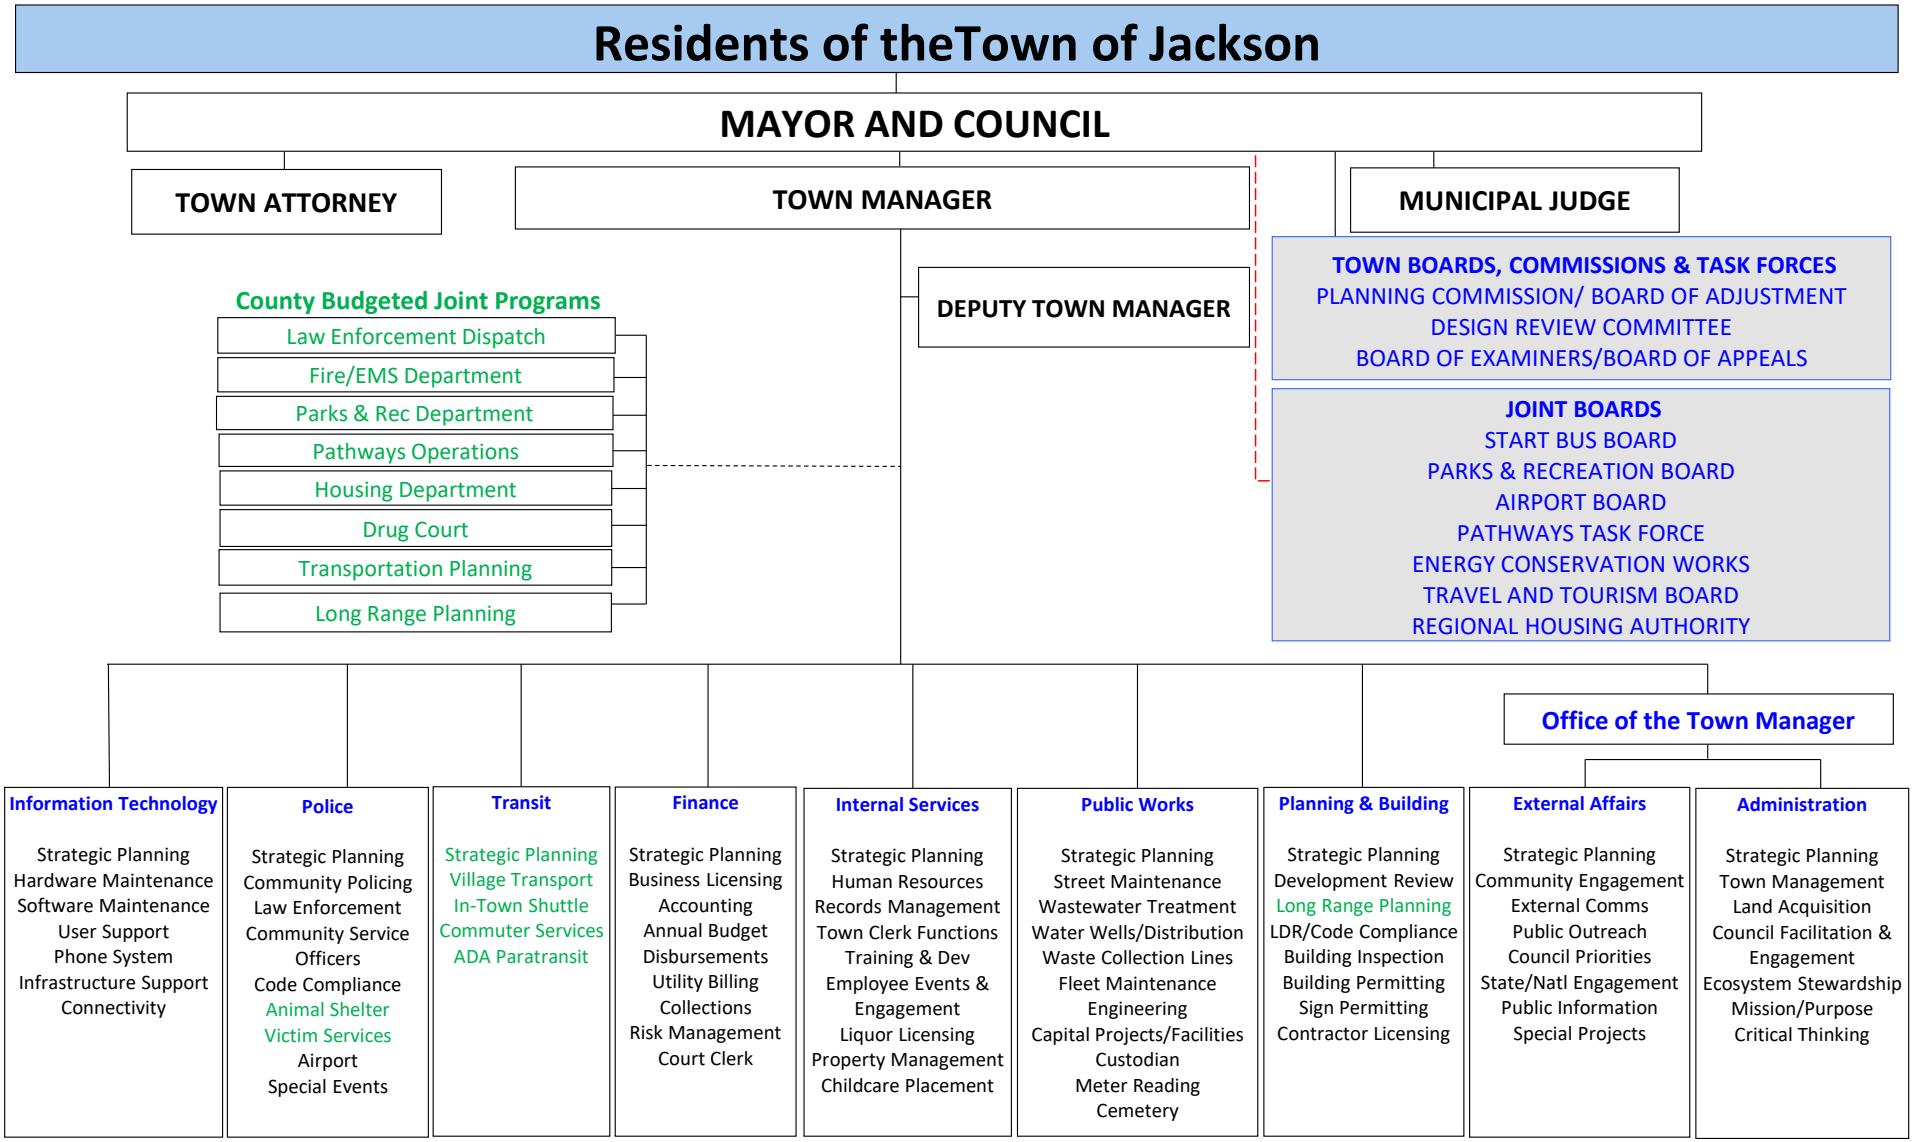
Christopher P. Morrill



Executive Director/CEO

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate for Excellence in Financial Reporting to the Town of Jackson, Wyoming for its annual comprehensive financial report for the fiscal year ended June 30, 2024.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

INDEPENDENT AUDITOR'S REPORT

To the Mayor and Town Council
Town of Jackson, Wyoming

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Jackson, Wyoming (the Town), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town, as of June 30, 2025, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund and START Bus System Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (GAS), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Independent Member of PrimeGlobal | The Association of Advisory and Accounting Firms

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and GAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and GAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of proportionate share of the net pension liability, and the schedule of contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The supplementary information listed in the table of contents, including the accompanying schedule of expenditures of federal awards as required by *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 29, 2025 on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of the Town of Jackson (Town), we offer readers of the Town's basic financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2025. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1-4 of this report.

OVERVIEW OF THE BASIC FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

COMPONENTS OF THE ANNUAL FINANICAL REPORT

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the Town of Jackson's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the Town's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The statement of activities presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net positions are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the Town of Jackson that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town include general government, public safety, public works, health and welfare, community development, transit, and recreation and culture. The business-type activities of the Town include water and sewage utilities.

The government-wide financial statements can be found on pages 23-24 of this report.

Fund financial statements. The fund financial statements focus on current available resources and are organized and operated on the basis of funds, each of which is defined as fiscal and accounting entity with a self-balancing set of accounts established for the purpose of carrying on specific or attaining certain objectives in accordance with special regulations, restriction or limitations. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories: governmental funds, and proprietary funds. The Town does not maintain any fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Town's near term

financial decisions. Both the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and change in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town maintains four major governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, one special revenue fund, and two capital project funds, all of which are considered major funds. Data from eleven other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The Town adopts an annual appropriated budget for its general and special revenue funds. A budgetary comparison statement has been provided for those funds to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 25-31 of this report.

Proprietary funds. The Town of Jackson maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the governmental-wide financial statements. The Town uses enterprise funds to account for its water and sewage operations. Internal service funds are accounting devices used to accumulate and allocate costs internally among the Town's various functions. The Town uses internal service funds to account for its fleet management, employee insurance (self insurance), information technology (IT), and central equipment operations. Because all of these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water and sewage utilities. Both are considered major funds of the Town. Conversely, all internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 32-36 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are not reported in the governmental-wide financial statements because the resources of those funds are not available to support the Town of Jackson's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The Town of Jackson currently maintains no fiduciary funds.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the financial statements can be found on pages 37-58 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the Town's funding obligation related to participation in a defined benefit plan. Required supplementary information can be found on pages 59-62 of this report.

The combining statements referred to earlier in connection with non-major governmental funds and internal service funds can be found immediately following the required supplementary information.

Combining and individual fund statements can be found on pages 63-78.

FINANCIAL HIGHLIGHTS

- The Town's net position (assets and deferred outflows of resources minus liabilities and deferred inflows of resources) increased by 4.3% as a result of this year's operations. The net position of the Town's governmental activities increased $38,697,519 (18.2%) and net position of the Town's business-type activities increased $1,656,483 (3.4%).
- Overall, capital assets (net of accumulated depreciation and amortization) increased $37,662,307. Capital assets of governmental activities increased $35,510,631 (21%) and capital assets of business-type activities decreased $2,151,676 (6.4%). Significant governmental capital assets acquisitions included: $38,920,592 for Recreation Center Expansion, $759,868 for Core Services Maintenance Facility construction, $595,578 for a new fuel island, $440,859 for Gregory Lane improvements, and $1,461,018 in fleet equipment and vehicles. Significant business-type capital assets acquisitions included: $985,367 for South Millward water line, $1,895,173 for west Jackson water transmission construction, and $589,675 for Gregory Lane water and sewer infrastructure. The capital increases in the business-

type activities are offset by $1,720,922 in current year depreciation and amortization.

- The Town's long-term liabilities increased $81,077 (1%). The increase was a result of a $82,793 decrease in notes payable, $450,205 decrease in net pension liability, $245,234 decrease in lease liabilities and $859,309 increase in subscription liability.
- At the close of the current fiscal year, the Town's governmental funds reported total ending fund balances of $58,389,615, an increase of $5,804,936 (11%). The increase is mainly due to a $2M increase in the 5th Cent Capital Projects Fund from unspent projects and a $1.25M grant in the Affordable Housing Fund.
- The General Fund's total fund balance decreased $336,764 (2%) to $18,735,664. The ending fund balance is 51% of General Fund expenditures. $2,716,152 of the fund balance is assigned to the FY2026 budget.

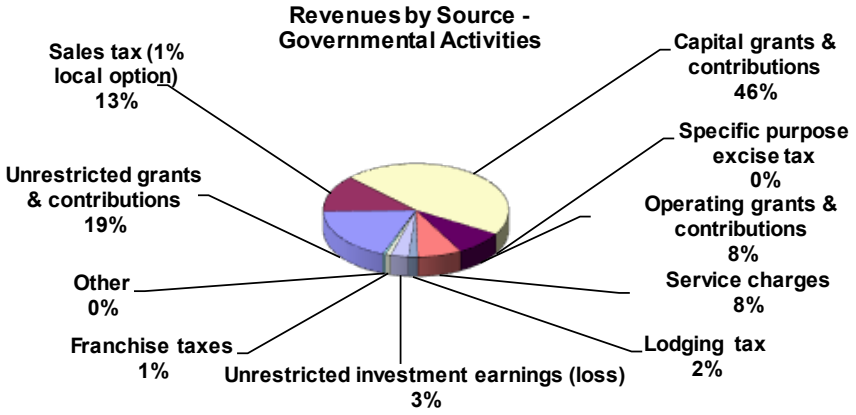
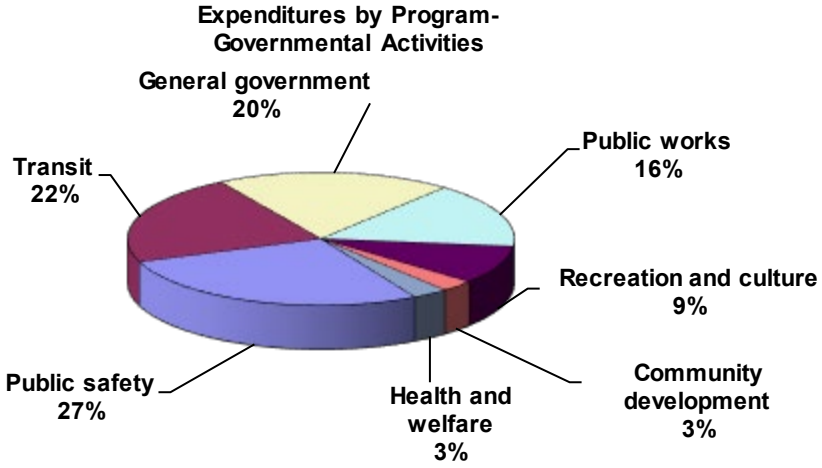
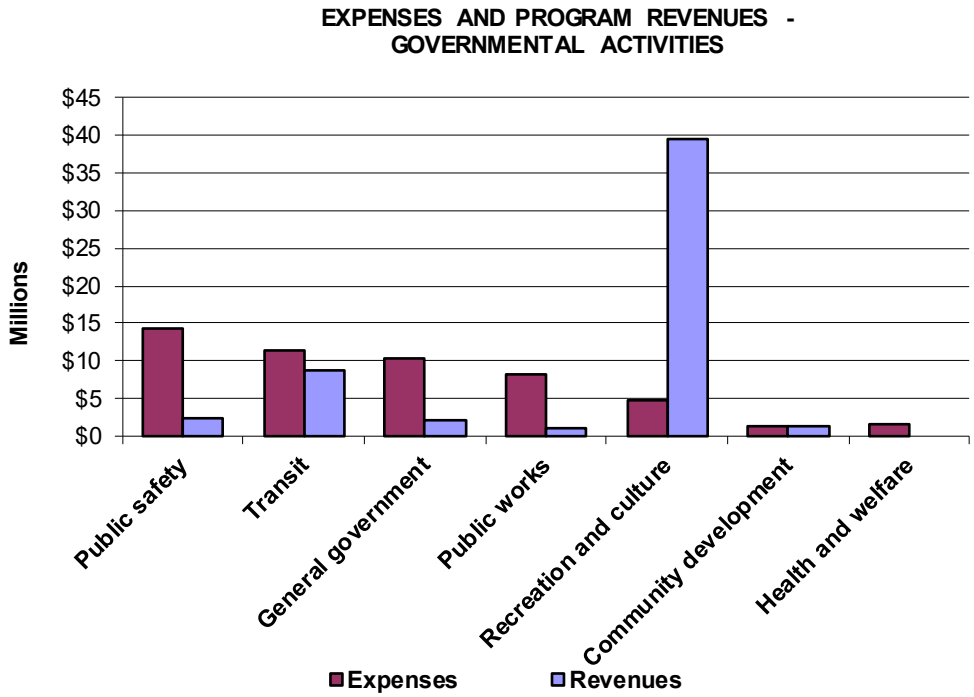
Deferred inflow of resources	6,036,055	6,410,522	160,827	49,923	6,196,882	6,460,445
Net position:						
Net investment in capital assets	200,701,431	165,064,537	35,038,244	32,976,854	235,739,675	198,041,391
Restricted	18,396,536	17,981,418	-	-	18,396,536	17,981,418
Unrestricted	32,410,216	29,764,709	15,689,775	16,094,682	48,099,991	45,859,391
Total net position	$ 251,508,183	$ 212,810,664	$ 50,728,019	$ 49,071,536	$ 302,236,202	$ 261,882,200



By far the largest portion of the Town's net position (78%) reflects investments in capital assets (e.g. land, buildings, structures, systems, machinery, equipment, infrastructure, and intangible assets), net of any related debt used to acquire those assets that is still outstanding. The Town uses assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's investment in capital assets is reported net of related debt, it should be noted that resources needed to repay this debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.



A small portion of the Town's net position (6%) represents resources that are subject to external restrictions on how they can be used. The $415,118



increase in governmental activities restricted net position is primarily due to restricted revenue increases in the Affordable Housing Fund and Lodging Tax Fund that will be allocated in subsequent years. The remaining unrestricted net position of $48,099,991 may be used to meet one-time obligations to citizens and creditors. Of the unrestricted net position, $15,689,775 (33%) is attributable to business-type activities. The unrestricted governmental activities net position increased $2,645,508 (9%), while business-type activities unrestricted net position decreased $404,907 (2.5%). The government-wide total unrestricted net position increase of $2,240,600 (4.7%) is primarily due to incomplete capital projects in the 5th Cent Capital Projects Fund. Business-type capital assets increased by $2,151,676 (6.4%) due to capital asset acquisitions exceeding accumulated depreciation increase.

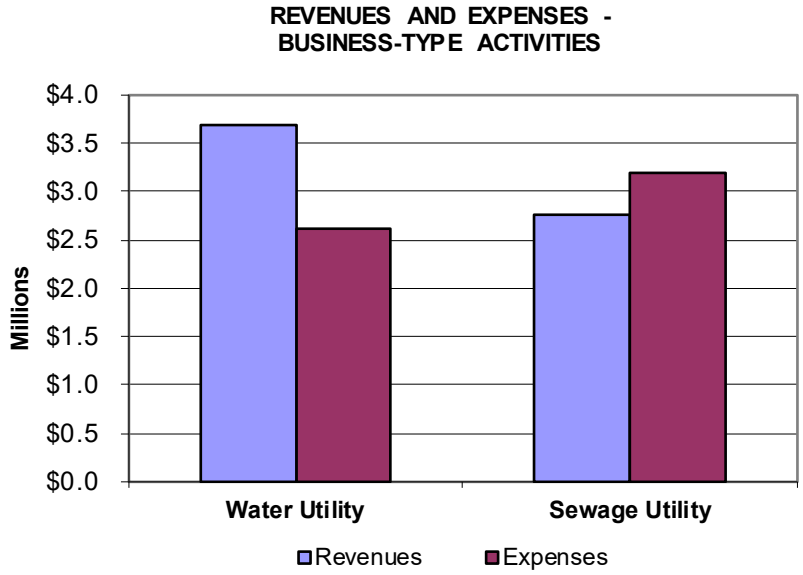
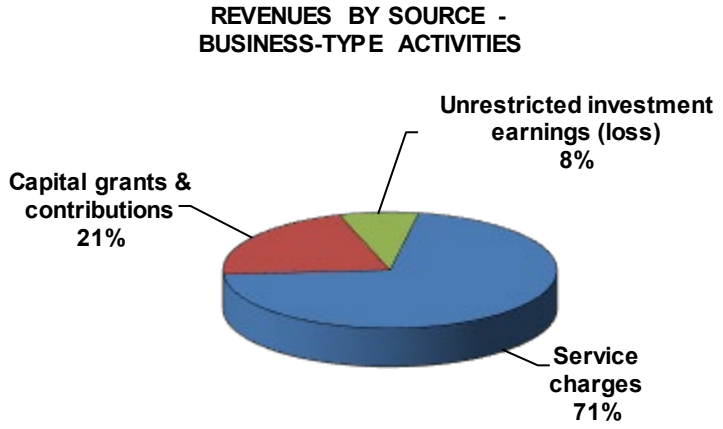
Governmental Activities. The most significant revenue (46%) of the governmental activities is $41.0M in capital grants and contributions. The majority of this is due to a $38M contribution from Teton County for the Recreation Center Expansion. The unrestricted grants and contributions makes up the second highest source of revenue ($16.7M or 19%) in the governmental activities. The majority of the revenue in the state-shared category consists of the 4% state-shared sales and use tax ($13.9M) followed by federal mineral royalties ($.6M), gasoline tax ($.5M), various Teton County reimbursements ($.5M), and severance tax ($.4M). The 1% local option (5th cent) sales tax revenue make up the third highest source of revenue ($11.4M or 13%) in the governmental activities. Revenue generated from the 5th cent sales tax is split evenly between the general fund and capital projects fund.

Public Safety (police, fire/EMS, building inspector, victim services, animal shelter and dispatch) expenses (27%) was the most significant followed by Transit (22%), General Government (20%), Public Works (16%), Recreation and Culture (9%), Community Development (3%), and Health and Welfare (3%). Included in



these amounts is $7,547,509 of depreciation and amortization expense, which is 16% of the total expenses for governmental activities.



Governmental revenues increased $27,891,502 (45%), in the current year, with the most significant portion of the increase attributable to higher capital grants and contributions ($31,082,978) and unrestricted grants and contributions ($467,808). Capital grants were higher due to $38M received from Teton County towards completion of the Recreation Center Expansion. Unrestricted grants were higher due to an increase in sales tax revenues.

Governmental activities expenses decreased $1,972,198 (4%) in the current year. The most significant changes in program expenses were as follows:

- General government expenses increased $878,423 (9%). The majority of the increase is due to personnel wage and benefit increases.
- Public safety expenses increased $2,527,246 (22%). The increase is related to personnel wage and benefit increases, pension expense being higher than prior year and contributions to Teton County Fire/EMS and radio system increase.
- Public works expenses increased $1,693,995 (26%). The increase is related to increases in personnel wage and benefit and street maintenance.
- Health & Welfare expenses increased $127,136 (9%) to meet request increases from local non-profits.
- Community development decreased $1,618,658 (53%) due to decreased contributions to affordable housing projects from the prior year.
- Transit operating expenses increased $310,669 (3%). The increase is related to personnel wage and benefit increases and increased service levels.
- Recreation and culture expenses decreased $5,902,758 (55%), primarily due to a decrease in the Town share of the Recreation Center Expansion.
- Interest expense increased $11,749 (15%) due to GASB 87 lease and GASB 96 subscription arrangement accounting.

There were no other programs with significant or unusual changes.

Business-type activities. Business-type activities increased the Town's net position by $1,656,483 (3%). In the prior year, the business-type activities increased the Town's net position by $2,060,040 (4%).

Key elements of the change are as follows:

Water Fund operating revenues increased $810,926 (28.3%), which is reflective of increased irrigation volume. Sewage Fund operating revenues increased $131,399 (5.0%), mainly due to increased connections and tourism.

Capital grants and contributions totaled $1,923,435, 18% lower than the prior year total of $2,356,617. Capital grants and contributions include capacity and tap fees charged to new customers and intergovernmental grants for capital improvements. Capacity and tap fees decreased due to a few large developments in the prior year. Depreciation and amortization expenses in the water and sewage utilities for fiscal year 2025 were $738,482 and $982,440, respectively.

FINANCIAL ANALYSIS OF THE TOWN'S FUNDS

Governmental funds. The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, spendable fund balances may serve as a useful measure of a government's net resources available for expenditure at the end of the fiscal year.

At June 30, 2025, the Town's governmental funds reported total ending fund balances of $58,389,615, an increase of $5,804,936 (11%) when compared with the prior year. Nearly 32% or $18,396,536 of the total ending fund balances constituted restricted fund balances, which are considered unavailable for appropriation for general operations. The prior year restricted fund balances totaled $17,981,418. The increase is primarily due to restricted revenue increases in the Affordable Housing Fund and Lodging Tax Fund that will be allocated in subsequent years

At the end of the fiscal year, the General Fund reported a fund balance of $18,735,664 decreasing $336,764 (2%) from the prior year. General Fund operating revenues were $602,475 (2%) more than the prior fiscal year and operating expenditures increased by $3,274,192 (13%). Transfers in increased by $303,213 (16%), primarily due to indirect cost allocations for staff. Transfers out decreased by $1,686,025 (18%). This is due to a decrease in one-time transfers to the START Fund for bus purchases from the prior year.

General Fund expenditures increased $3,274,192 (13%). Salaries and salary related expenditures (Wyoming Retirement, Workers' Compensation, health insurance, etc.) increased $1,712,650 (14%) for all functions. Increase is primarily due to a 7.1% wage increase, Sworn Officer wage increase and $865,325 increase in Teton County joint departments.

The START Bus System Fund net change in fund balance was positive by $1,082,839 (34%). Total expenditures were $8,878,103. Operating expenditures increased $30,096, mainly due to labor increases. There was $90,713 in capital outlays during the fiscal year related to improving the radio system. Intergovernmental revenues decreased to $6,302,062 from the prior year total of $10,885,982. This is due to US Department of Transportation grant matches of approximately 80% for prior year bus purchases. Transit fares increased $63,862 from the prior year, the majority of which is due to the airport shuttle service. The Town contributed $1,154,767 and Teton County contributed $1,363,822 for a total of $2,518,589 to the fund in fiscal year 2025.

The 5th Cent Capital Project Fund saw its fund balance increase $2,003,192 (30%) to $8,650,510. The General Fund transferred $5,715,283 in 5th Cent sales tax to the fund in FY2025, a decrease of $719,555 from FY2024. This is due to one-time transfers to the Capital Projects Fund to fund multiple, large capital projects in FY2024.

The 2019 SPET Fund saw its fund balance increase $46,971 to $10,842,336. This is due to interest revenue exceeding construction expenditures at the Core Services Maintenance Facility and Gregory Lane projects. This fund has received all $29,000,000 in SPET revenues. The fund should decrease in future years as project expenditures increase.

Proprietary funds. The proprietary funds financial statements provide the same type of information found in the government-wide financial statements, but in greater detail.

The water utility's net position increased $2,108,053 (10%) from the prior fiscal year. In 2025, operating revenues increased $810,926 (28%). Capital contributions decreased to $152,520 from $646,373 in the previous year (76%). Operating expenses increased $200,798 (9%) to $2,507,511. The 2025 operating income of $1,172,718 includes $738,482 in depreciation and amortization.

The sewage utility's net position decreased $317,678 (1%) in the fiscal year ending June 30, 2025. Sewage utility operating revenues increased $131,399 (5%) to $2,751,882 and the utility's operating expenses increased $301,578 (11%) to $3,043,327. Capital contributions decreased $1,224,405 (72%) from

$1,710,244 to $485,839. The $291,445 operating loss includes $982,440 in depreciation and amortization.

Other factors of the changes in income from operations have previously been discussed in the government-wide financial analysis of business-type activities.

GENERAL FUND BUDGETARY HIGHLIGHTS

The differences between the 2025 original budget and the final amended budget are adopted by council resolution throughout the year.

General Fund revenues totaled $34,343,384 and exceeded the final budget by $1,372,025 (4%). General taxes and intergovernmental revenues were $317,628 (3%) and $184,602 (1%) higher than budget, respectively. This is due to sales tax related revenues which were budgeted to increase 3% over FY2024 estimates. However, this major revenue source increased 2%. This increase is attributable to tourism and sales tax generating transactions increasing over FY2024.

General Fund operating expenditures totaled $29,409,863. This was $1,778,964 (6%) less than the final amended budget and $672,200 (2%) less than the adopted budget. Including transfers out, supplemental appropriations from budget amending Council actions increased the original budget by $1,400,789 (4%). The majority of this increase was for Sworn Officer wage increase and a decrease in personnel vacancies. In fiscal year 2025, no divisions finished the year over budget.

The General Fund year end fund balances since 2016 are as follows:

Year	Amount	Year	Amount
2016	$ 7,484,300	2021	$ 18,020,470
2017	7,650,890	2022	24,879,725
2018	8,329,716	2023	18,726,713
2019	8,683,289	2024	19,072,428
2020	12,158,856	2025	18,735,664

Capital assets. The Town's investment in capital assets for its governmental and business-type activities at June 30, 2025 totaled $238,839,212 (net of accumulated depreciation and amortization). This investment in capital assets included land, construction in progress, structures, systems, machinery and equipment, intangible assets, right to use assets and infrastructure.

Major governmental activities capital assets include: $38,920,592 for Recreation Center Expansion, $759,868 for Core Services Maintenance Facility construction, $595,578 for a new fuel island, $440,859 for Gregory Lane improvements, and $1,461,018 in fleet equipment and vehicles. The total government-wide capital asset increase over the prior fiscal year is

approximately $37,662,307; governmental activities increased 21% and business-type activities increased 6%.

Additional information on the Town's capital assets can be found in the notes to the financial statements on pages 48-49.

LONG-TERM LIABILITIES

Total	$ 12,059,029	$ 12,003,248	$ 2,180,769	$ 2,156,303	$ 14,239,798	$ 14,159,551

Long-term liabilities. The Town's outstanding long-term liabilities - including notes payable, accrued interest payable, and net pension liability - totaled $14,239,798 at June 30, 2025. Governmental long-term and business-type long-term liabilities increased primarily due to subscription liability increase.

Additional information on the Town's long-term liabilities can be found in the notes to the financial statements on pages 51-57 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- The unemployment rate for the Teton County, Wyoming area for June 30, 2025 was 2.3%, which is below the state average (3.3%) and below the national average (4.1%).
- In this budget, the Town continues to focus on staff retention and maintaining standard departmental budgets to provide expected levels of service while considering prudent requests for modest increases focused on staff retention and matching service levels with capacity.
- To continue to be a resilient community, we will need to preserve and maintain General Fund Reserves to have the resources to adapt to uncertain times ahead. Looking ahead, recurring expenses are expected to exceed recurring revenues. We must continue evaluating our revenue streams and expenditures, to determine how to ensure a balanced budget into the future.
- The Town will need to prioritize our core services, capital projects and consider reducing funding to the areas of lower priority and/or work to consider a new funding source(s) to maintain current Town program services and capital improvement projects. As our community changes, various core services continue to see increased need year-over-year. The Town simply does not have the capacity to absorb such continuous growth without increasing revenue or reducing existing program services and capital projects.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Town's finances for all those interested in governmental finance. Questions concerning any information in the report or requests for additional information should be addressed to Town of Jackson, Finance Department, P.O. Box 1687, Jackson, WY 83001.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities
Year Ended June 30, 2025

Net change in fund balances--total governmental funds		$ 5,804,936
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds reported capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation and amortization expense. This is the amount by which capital outlays exceeded depreciation and and amortization expense.		
Capital outlays	$ 2,546,166	
Depreciation and amortization	(7,547,509)	(5,001,343)
Govermental funds do not report the contribution of capital assets from third parties. However, the Statement of Activities reports these third part contributions as capital grans and contributions.		38,945,252
Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.		49,797
The net effect of transactions involving net pension liability, deferred outflows of resources related to pensions, deferred inflows of resources related to pensions, and pension expense is to decrease net position.		(433,108)
The net effect of transactions involving leases issued, debt service on lease liabilities, and lease conversion is to increase net position.		221,034
Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of the internal service funds is reported with governmental activities.		(889,050)
Change in net position of governmental activities		$ 38,697,519

The notes to the financial statements are an integral part of this statement.

Statement of Revenues, Expenditures and Changes in Fund Balance

Schedule of noncash investing, capital and financing activities:				
Increase (Decrease) in fair value of investments	$ 5,900	$ 6,559	$ 12,459	$ 2,204
Increase (Decrease) in right to use - subsciption asset	130,975	-	130,975	1,212,543
Increase (Decrease) in subscription liability	130,975	-	130,975	1,212,543

The notes to the financial statements are an integral part of this statement.

I. Summary of significant accounting policies

A. Description of government-wide financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. Governmental activities, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees and charges to external customers for support.

B. Reporting entity

The Town of Jackson was incorporated in 1914 and is a municipal corporation governed by an elected mayor and four-member governing council. The five-member mayor-council is elected on staggered, even-numbered years. The mayor and council members are elected at-large to four-year terms. The governing body appoints a manager to implement policies and oversee daily operations.

The accompanying financial statements present the governmental entities for which the government is considered to be financially accountable. The Town does not report any component units.

C. Basis of presentation - government-wide financial statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the Town's enterprise funds. Separate financial statements are provided for governmental funds and proprietary funds.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of inter-fund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

D. Basis of presentation - fund financial statements

The fund financial statements provide information about the Town's funds. Separate statements for each fund category; governmental and proprietary, are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The Town reports the following major governmental funds:

- The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.
- The 5th cent capital projects fund accounts for the acquisition and construction of the government's major capital facilities, other than those financed by the propriety funds and Specific Purpose Excise Tax (SPET) funds.
- The Southern Teton Area Rapid Transit (START) fund is a special revenue fund. It accounts for operational and capital transit system expenditures primarily financed by state and federal transit grants.
- The 2019 SPET fund accounts for expenditures related to the revenue generated by the 2019 specific purpose excise tax.

The Town reports the following enterprise funds:

- Water Fund. This enterprise fund accounts for the operations of the Town-owned water treatment and distribution system.
- Sewage Fund. This enterprise fund accounts for the operations of the Town-owned sewage collection and treatment system.

Additionally, the Town reports the following fund type:

Internal Service Funds. The operating activities for Employee Insurance, Fleet Management, Central Equipment, and Information Technology (IT) Services are reported in internal service funds because they provide services to other Town departments on a cost reimbursement basis.

During the course of operations, the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal service fund balances in the business-type activities column. Internal service fund services provided and used by other funds are not eliminated in consolidation. No overhead costs are charged to internal service funds requiring elimination.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

E. Measurement focus and basis of accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital outlay related to leases are reported as other financing sources.

Property taxes, sales taxes, franchise fees, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the government.

The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting.

F. Budgetary information

1. Budgetary basis of accounting

The Town uses the following procedures in establishing the budgetary data reflected in the accompanying financial statements:

- According to the laws of the State of Wyoming, all town budgets must be approved by their governing board not later than the third Tuesday in June.
- In May, the recommended budget for the following fiscal year is presented by the Town Manager to the Town Council. The budget includes recommended expenditures and the means of

financing them. Public meetings are held to obtain citizen comment.

- Prior to June 30, the Town Council legally adopts the budget through the passage of a resolution. The resolution sets the limit for expenditures for the year.
- The maximum legal expenditure permitted for the year is the total budget as adopted. The expenditure appropriations in the adopted budget are maintained in the Town's financial system by department within individual funds. Departmental appropriations may be amended during the year if approved by Council in the form of a budget amendment resolution.
- Department directors are generally authorized to transfer budgeted amounts within any specific department's expenditure appropriation. Any budget revisions requiring a transfer between departments must be approved by the Town Council. Additionally, budget revisions involving personnel or capital asset expenditures/expenses must be approved by the Town Council.
- Appropriations in all budgeted funds lapse at the end of the fiscal year even if they have related committed contracts. While all appropriations lapse at year end, valid outstanding committed contracts (those for which performance under the executory contract is expected in the next year) are re-appropriated and become part of the subsequent year's budget.

2. Excess of expenditures over appropriations

For the year ended June 30, 2025, no General Fund division or special revenue fund expenditures exceeded appropriations. Through four formal supplementary appropriations, the General Fund original budget increased 3.7%. Actual expenditures and other uses are 4.8% under the final amended budget.

G. Assets, liabilities, deferred outflows/inflows of resources, and net position/fund balance

1. Cash and cash equivalents

The government's cash and cash equivalents are cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

2. Investments

Cash and investment balances from all funds are combined and invested to the extent authorized by state statutes and Town investment policy. Earnings from such investments are allocated to respective funds on the basis of applicable cash balance participation by each fund. The interest receivable balance is reported as one amount in the General Fund while all other funds receive interest revenue distributions in cash.

Investments for the Town are reported at fair value.

3. Receivables

Account (trade) receivables are carried at original billing amount less an estimate made for doubtful receivables based on a review of all outstanding amounts on a regular basis. Management determines the allowance for doubtful accounts by identifying troubled accounts and by using historical experience applied to an aging of accounts. With council approval, trade receivables are written off when deemed uncollectible. Recoveries of trade receivables previously written off are recorded when received.

A receivable is considered past due if any portion of the receivable balance is outstanding for more than 30 days. Interest is charged on receivables that are outstanding for more than 30 days. Accrual of interest is not suspended until a receivable is determined to be uncollectible. Provisions for bad debts would be insignificant and immaterial and none has been made for 2025.

4. Short-term interfund receivables/payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet. Short-term inter-fund loans are classified as "interfund receivables/payables." Due to and due from other funds are closed to cash and cash equivalents at year end.

5. Inventories, prepaid items, and deposits

Materials and supplies are valued at cost, which approximates market value, using the first-in/first-out (FIFO) method. The consumption method is used to account for inventories. Inventory costs are recorded as expenditures when individual inventory items are consumed. In governmental funds, reported inventories are equally offset by nonspendable fund balance amounts, indicating that they do not constitute "available spendable resources" even though they are a component of net current assets. The net change in nonspendable fund balances is not presented because the combined statements of revenues, expenditures, and changes in fund balances reflects

the changes in total fund balances rather than just the spendable and nonspendable fund balances.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Certain payments made to lessors are considered security deposits. These funds are considered assets that will be returned. In the event any deposit is kept by lessor, an expenditure/expense will be recorded.

6. Leases and Service-Based IT Arrangements (Subscription)

A. Town as Lessee

The Town is a lessee for various buildings and an easement. The Town recognizes a lease liability and an right-to-use lease asset (lease asset) in the government-wide financial statements. The Town recognizes lease liabilities with an initial, individual value of $50,000 or more and the lease must be longer than one year including expected extensions.

At the commencement of a lease, the Town initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life. Key estimates and judgments related to leases include how the Town determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The Town uses the interest rate charged by the vendor as the discount rate. When the interest rate charged by the lessor is not provided, the Town generally uses its estimated incremental borrowing rate as the discount rate for subscription agreements.
- The lease term includes the noncancellable period of the lease.
- Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the Town is reasonably certain to exercise.

The Town monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

B. Town as Lessor

The Town is a lessor for multiple facilities and easements. The Town recognizes a lease receivable and a deferred inflow of resources in the government-wide and governmental fund financial statements.

At the commencement of a lease, the Town initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments include how the Town determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The Town uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease.
- Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The Town monitors changes in circumstances that would require a remeasurement of its lease, and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

C. Subscription based IT Arrangements

The Town is committed under various subscription agreements. The Town recognizes a subscription liability and a right-to-use subscription asset in the government-wide financial statements. The Town recognizes subscription liabilities with an initial, individual value of $50,000 or more and the agreement must be longer than one year including expected extensions.

At the commencement of a contract, the Town initially measures the subscription liability at the present value of payments expected to be made during the contract term. Subsequently, the subscription liability is reduced by the principal portion of contract payments made. The subscription asset is initially measured as the initial amount of the subscription liability, adjusted for contract payments made at or before the contract commencement date, plus certain initial direct costs. Subsequently, the subscription asset is amortized on a straight-line basis over its useful life. Key estimates and judgments related to contracts include how the Town determines (1) the discount rate it uses to discount the expected contract payments to present value, (2) contract term, and (3) contract payments.

- The Town uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the Town generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The contract term includes the noncancellable period of the contract.
- Contract payments included in the measurement of the subscription liability are composed of fixed payments and purchase option price that the Town is reasonably certain to exercise.

The Town monitors changes in circumstances that would require a remeasurement of its contract and will remeasure the subscription asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Subscription assets are reported with other capital assets and subscription liabilities are reported with long-term debt on the statement of net position.

7. Capital assets

Capital assets, including property, plant, and equipment, and infrastructure assets (e.g., roads, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than $10,000 ($20,000 for buildings and improvements and $50,000 for infrastructure) and an estimated useful life in excess of two years. Right to use assets are discussed in note below. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value on date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, equipment, and intangible assets with exhaustible useful lives are capitalized when acquired, and depreciation is provided using the straight-line method applied over the following estimated useful lives of the assets:

Buildings	10-50
Distribution systems	20-50
Infrastructure	20-50
Machinery and equipment	5-15
Right-to-use asset - buildings	2-99
Right-to-use asset – easements	2-99
Right-to-use asset – subscription asset	2-10
Other improvements	5-99
Intangible assets	5-99

Intangible assets lack physical substance, are nonfinancial in nature, and have an estimated useful life extending beyond a single reporting period. The term depreciation, as used in this footnote, includes amortization of intangible assets.
Capital assets transferred between funds are transferred at their net book value (cost less accumulated depreciation), as of the date of the transfer.

8. Deferred outflows and inflows of resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The Town has reported deferred outflows of resources related to pensions on the government-wide statement of net position, each proprietary fund statement of position, and the Fleet Management Fund within the Internal Service Fund statement of net position.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until then. The Town has reported three deferred inflows of resources: pension related items, leases and property taxes. Pension items are reported on the government-wide statement of net position, each proprietary fund statement of position, and the Fleet Management Fund within the Internal Service Fund statement of net position. Leases are reported in both the governmental funds balance sheet and the entity-wide statement of net position. These amounts represent future revenues that will be collected per lease agreements and are not currently available to finance operations.

Property taxes for future periods are reported in both the governmental funds balance sheet and the entity-wide statement of net position. Property tax revenues are not recognized prior to the period which they are intended to finance, even if an enforceable lien is in place prior to the beginning of the intended period. Thus, property taxes received or receivable as of year-end, which are intended to finance the following fiscal year, are recorded as deferred inflows.

9. Pension related assets, liabilities, deferred outflows and inflows of resources

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wyoming Retirement System (the System) and additions to/deductions from the System's fiduciary net position have been determined on the same basis as they are reported by the System. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

10. Net position flow assumption

Sometimes the Town will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

It is the Town's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

11. Fund balance flow assumption

Sometimes the Town will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

12. Fund balance policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The Town itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance). The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the Town's highest level of decision-making authority. The Town council is the highest level of decision-making authority for the Town that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the Town for specific purposes but do not meet the criteria to be classified as committed. The Town council has, by resolution, authorized the Town Manager to assign fund balance. The council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

13. Long-term obligations

In the government-wide financial statements and in the proprietary fund types of the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statements of net position. If any, bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from actual debt

proceeds received, are reported as debt service expenditures. The Town's current debt obligations were issued without discounts or premiums and issuance costs were insignificant and immaterial.

14. Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

15. Reclassifications

Where presented, certain 2024 financial statement amounts have been reclassified to conform to the 2025 presentation.

H. Revenues and expenditures/expenses

1. Property Tax

Teton County assesses all taxable property other than centrally assessed property, which is assessed by the State of Wyoming, by January 1 of each year. The Town notifies its levy to Teton County by July 31. Properties taxes are levied on or about August 1 and are payable in two installments on September 1 and March 1. The Teton County Treasurer is responsible for billing and collecting property taxes for the Town. The Town receives monthly distributions for the prior month's collections by the County. Property tax revenues are recognized when levied to the extent that they result in current receivables which means collected within the current period or expected to be collected within 60 days after the period end to be used to pay liabilities of the current period.

2. Sales Tax

The Town imposes a 1% local optional sales and use tax (5th cent). The 5th cent sales tax is collected by the state and remitted monthly to the Town. Sales tax revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Additionally, Teton County imposes a 1% specific purpose excise tax (SPET) for various voter-approved projects. Teton County distributes SPET tax to the Town for projects that the Town manages.

3. Entitlements, state shared revenues and grants (Intergovernmental revenues)

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Expenditure-driven grants are recognized in the fund financial statements as revenue when the qualifying expenditures have been incurred, all eligibility requirements have been met, and reimbursement is received within availability period. Included below are the ongoing state shared revenues and grants received by the Town.

Sales tax. The state levies a 4% general sales and use tax, with 31% of it returned to Wyoming towns and counties based on populations and location of sales.

Lodging tax. The state levies a 5% lodging tax that is added to a visitor's stay in any Teton County hotel, motel or rental property. 3% is distributed to the state and used to fund the Wyoming Office of Tourism and the Wyoming Tourism Board. 2% is distributed to the Town and County and allocated based on point of sale. The Jackson Hole Travel and Tourism Joint Powers board is responsible for allocating 60% of the collected funds. Teton County and the Town are responsible for the remaining 40% of the funds collected.

American Rescue Plan (ARPA) Act. These are program allocation driven, one-time funds related to the COVID-19 pandemic. Funds were received via the Wyoming Office of State Lands & Investments.

Gasoline, cigarette, and severance taxes. These three taxes are all imposed by the state and returned to cities, towns and counties by various percentages determined by the Wyoming legislature.

Mineral Royalties. These are federal royalties paid to the state and passed down to cities, towns, and counties by percentages determined by the Wyoming legislature.

Federal Transit Administration (FTA). The FTA provides funding for 80% of administration, 56.56% of operations, and 80% of capital for qualifying bus system expenditures. In FY2025, the FTA via Idaho Transportation Department provided additional Coronavirus Aid, Relief, and Economic Security (CARES) Act funds which provided for 100% of operations costs.

4. Program revenues

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and

contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

5. Compensated absences

Employees can sell-back up to 40 hours of accumulated paid time off (PTO) before the end of each fiscal year provided they meet certain requirements. All other accumulated PTO is forfeited. There are no accumulated balances for PTO. Compensatory time, if any, is accrued as wages payable at year end.

6. Proprietary funds operating and nonoperating revenues and expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water fund, sewer fund, and internal service funds are charges to customers for sales and services. The water fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

I. Federal Audit Requirements

The U.S. Office of Management and Budget (OMB) issued Uniform Administration Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), which establishes uniform cost principles and audit requirements for federal awards to non-federal entities and administrative requirements for all federal grants.

For 2025, the Town of Jackson audit was performed in accordance with Uniform Guidance. The auditor's report on consideration of the Town's internal control over financial reporting and tests of other matters are issued with this report.

II. Stewardship, compliance and accountability

A. Budgetary information

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are legally adopted by council resolution for all funds.

Formal budgetary integration is employed as a management control device during the year for the General and Special Revenue Funds. Budgetary control for Capital Project Funds is based on a project completion time cycle rather than on an annual basis, therefore, budgetary comparisons on an annual basis would not present meaningful information.

The Town follows these legal compliance procedures in establishing the budgetary data reflected in the financial statements:

1. The Town Manager submits a proposed operating budget, including proposed expenditures and means of financing them, to the town council prior to the beginning of the fiscal year commencing July 1.

2. Public hearings are conducted to obtain taxpayer comments.

3. Prior to June 30, the budget is legally enacted through the passage of a budget resolution.

4. Management may not legally exceed budgeted expenditures at the division level. Monitoring of budgets is maintained at the division level (i.e., police administration, police investigations, police patrols, etc.) and the category level (i.e., personal services; supplies; other services and charges; capital outlay) within each division. Management can alter the budget at the category level within their division but cannot exceed the total budgeted expenditures for the division that was approved by the town council. During the year, four formal supplementary appropriations were made. However, the town council approves all payments of vouchers and payroll at its regular meetings held twice a month.

5. All budgeted appropriations lapse at the end of the fiscal year. The legal level of budgetary control (i.e. the level at which expenditures may not legally exceed appropriations) is at the division level.

Deficit fund net position

At June 30, 2025, there was one internal service fund (Fleet Management) with a deficit fund net position. Fleet management deficit is due mostly to net pension liability calculations.

IIII. Detailed notes on all activities and funds

A. Cash, cash equivalents and investments

Cash, cash equivalents, and investments at June 30, 2025 are classified in the accompanying financial statements as follows:

Statement of net position:		
Cash and cash equivalents	$	26,300,000
Investments		46,191,498
Total cash and investments	$	72,491,498

Cash and investments at June 30, 2025 consist of the following:

Cash:		
Cash on hand	$	381
Deposit with financial institutions		1,188,984
Cash equivalents:		
Short-term certificate of deposit		22,706,217
Money market funds		2,404,418
Investments:		
Federal agencies		28,406,220
WYO-STAR		17,785,278
Total cash, cash equivalents, and investments	$	72,491,498

Investments authorized by Wyoming statutes and Town investment policy

The following table identifies the investment types that are authorized for the Town by Wyoming state statute. The Town's investment policy does not restrict investment types beyond the limits set forth by state statute. The table also identifies any provisions in Town policy and state statutes that address interest rate risk, credit risk, and concentration risk. This table also applies to investments of debt proceeds held by bond trustee that are governed by provisions of debt agreements and similarly restricted by state statute.

Authorized Investment Type	Maximum Maturity	Maximum Percentage of Portfolio	Maximum Investment in One Issuer
U.S. treasury obligations	None	None	None
U.S. agency securities	None	None	None
Banker's acceptances	None	25%	None
Commercial paper	270 days	25%	None
Negotiable certificates of deposit	None	None	$250,000
Non-negotiable certificates of deposit	None	None	None
Repurchase agreements	None	25%	None

The Town has investments with WYO-STAR, an investment pool authorized by the State of Wyoming and regulated by the Wyoming State Treasurer with oversight by the Wyoming State Loan and Investment Board. WYO-STAR issues separate external financial statements which can be obtained from the Wyoming State Treasurer's Office. WYO-STAR is not registered with the SEC as an investment company. Deposits in WYO-STAR are not insured or otherwise guaranteed by the State of Wyoming, and participants share proportionately in any realized gains or losses on investments. The fair value of the WYO-STAR investment pool is approximately equal to the value of the pool shares, $17,785,278.

B. Disclosures related to investment risk

Credit risk: Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Town polices restrict investments to the safest security types and require portfolio diversification so that potential losses on individual securities will be minimized. As of June 30, 2025, the Town's investments in U.S. Agencies are rated AA+ by Standard & Poor's and AA1 by Moody's Investors Service. The Town's investments in negotiable certificates of deposit are below the F.D.I.C. $250,000 insurance limit per institution. Non-negotiable certificates of deposits exceeding $250,000 per institution must be collateralized by the limits defined in the custodial credit risk section of this footnote. The Town's investment in the brokerage money market mutual fund is unrated. Town investment policy limits investments to the safest types of securities, pre-qualifies financial institutions, brokers/dealers, intermediaries, and advisors, and requires investment portfolio diversification.

Custodial risk: Custodial risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial risk for investments is the risk that, in the event of failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to cover the value of its investment or collateral securities that are in possession of another party. Wyoming

statutes do not contain legal requirements that would limit the exposure to custodial risk for deposits or investments, other than the following provision for deposits: Wyoming statutes require that all Town deposits be protected by insurance, surety bond, or collateral. Authorized collateral includes the legal investment described earlier, as well as certain first mortgage notes, and certain other state or local obligations. Wyoming statutes require that securities pledged as collateral be held in safekeeping by the public funds depositor or by any bank, other than the depository bank, chartered by the state of Wyoming, any national bank, other than the depository bank, authorized to do business in the state, any federal reserve bank or branch thereof, or any federal reserve system member bank. According to Town polices, the market value of the collateral must be a minimum of 105% of deposits not covered by insurance or bonds.

Interest Rate Risk: Interest rate risk is the risk that changes in market interest rate will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value is to changes in market interest rates. According to its investment policy, the Town manages its exposure to interest rate risk by purchasing a combination of shorter term and longer term investments. The Town also manages this risk by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide cash flow and liquidity for operations. Further, the Town purchases some securities that have interest rates that step-up over time. The Town monitors the interest rate risk inherent in its portfolio by measuring the weighted average maturity of its portfolio. The Town has no specific limitations with respect to this metric.

Investment Type	Fair Value	Maturity (in years)
Federal Agencies:		
US Treasury Bills	$ 9,846,480	0.38
US Treasury Bonds	18,559,740	2.00
WYO-STAR	17,785,278	0.00
	$ 46,191,498	
Portfolio weighted average maturity (yrs)		0.88

Concentration of Credit Risk: State statutes contain no limitations on the amount that can be invested in any one issuer. Investments in any one issuer representing approximately 5% or more of the Town's total investments are as follows:

Investment Type	Fair Value	Percent of Investment Portfolio
Federal Agencies:		
US Treasury Bills	$ 9,846,480	21.3%
US Treasury Bonds	18,559,740	40.2%
WYO-STAR	17,785,278	38.5%

Fair Value: The Town categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The Town has the following recurring fair value measurements as of June 30, 2025:

The $28,406,220 in U.S. agency securities are determined by an independent pricing service using recently executed transactions, market price quotations, and pricing models that factor in, when applicable, interest rates, bond spreads, and volatility (Level 2 inputs).

The fair value of the Town's position in WYO-STAR of $17,785,278 is the same as the value of the pool shares held by the Town (net asset value). WYO-STAR operates and reports monthly statements to participants on an amortized cost basis. The income, gains, and losses, net of administration fees, of WYO-STAR are allocated to participants monthly on the ratio of the participant's share to the total funds in WYO-STAR based on the participant's average daily balance. At June 30, the investments are valued at fair value, and participants are informed of the fair value valuation factor that enables them to adjust their statement balances to fair value (Level 2 inputs).

Cash, cash equivalents, and investments are presented in the government-wide financial statements as follows:

	Cash and Cash Equivalents	Investments	Total
Governmental activities:			
General Fund	$ 5,401,582	$ 9,685,366	$ 15,086,948
Start Fund	880,371	1,582,774	2,463,145

Total cash and investments	$ 26,300,000	$ 46,191,498	$ 72,491,498

C. Concentration of sales and revenues

Snow King Mountain Resort and Blair Place Apartments are the two largest customers of water. Snow King Mountain Resort water purchases account for $151,828 (4.2%) and Blair Place Apartments water purchases account for $128,802 (3.5%) of the Water Fund's operating revenue. Wilson Sewer District and Spring Creek Improvement Service District are the two largest customers of sewage. Wilson Sewer District sewage charges account for $101,329 (3.7%) and Spring Creek Improvement Service District sewage charges account for $98,847 (3.6%) of the Sewage Fund's operating revenue.

D. Capital assets

Capital asset activities for the year end June 30, 2025 are as follows:

	Beginning Balance	Additions	Deletions	Ending Balance
Governmental activities:				
Nondepreciable capital assets:				
Land	$ 33,351,431	$ -	$ -	$ 33,351,431

Additions to construction in progress represent new construction in progress minus projects transferred to infrastructure or buildings for completed projects.

Depreciation and amortization was charged to function/programs as follows:

Governmental acitivities:	
General government	$ 1,770,655
Public safety	358,509
Public works	2,904,602
Recreation and culture	1,342,929
Transit	2,189,479
Total depreciation/amortization expenses - governmental activities	8,566,174
Internal service fund depreciation on capital assets charged to the various functions based on usage.	(1,018,665)
Depreciation expense excluding internal service fund.	$ 7,547,509
Business-type activities:	
Water Fund	$ 738,482
Sewer Fund	982,440
Total depreciation/amortization expenses - business-type activities	$ 1,720,922

E. Claims and judgements

The Town participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the Town may be required to reimburse the grantor government.

As of June 30, 2025, significant amounts of grant expenditures have not been audited by the granting agency, but the Town believes that disallowed expenditures discovered in subsequent audits, if any, will not have a material effect on any of the individual funds or the overall financial position of the Town.

F. Receivables and unearned revenues

Accounts receivables and due from other governmental units: Due from other governmental units represent earned grant reimbursements or repayments owed for providing non-utility related services. The following are the accounts receivables and due from other governmental units at June 30, 2025:

	Accounts Receivable	Due from other Governments
Governmental activities:		
General Fund	$ -	$ 4,944,306
START Bus System	-	1,748,739
5th Cent Capital Projects	-	119,903
Nonmajor funds	-	280,306
Internal service funds	169,391	65,672
Total governmental activities	169,391	7,158,926
Business-type activities		
Water Fund	348,698	285,873
Sewage Fund	397,765	2,700
Total business-type activities	746,463	288,573
Total	$ 915,854	$ 7,447,499

Lease receivable

During the current fiscal year, the Town leased 9 facilities and easements. The leases range in term from 3 to 23 years with the longest expiring June 2044. Monthly payments ranged in value between $705 and $11,424. The Town recognized $527,421 in lease revenue and $125,549 in interest revenue during the current fiscal year related to these leases. As of June 30, 2025, the Town's receivable for lease payments was $2,939,833. Also, the Town has a deferred inflow of resources associated with this lease that will be recognized as revenue over the lease term. As of June 30, 2025, the balance of the deferred inflow of resources was $2,574,683.

Interfund receivables, payables and transfers: At June 30, 2025, there are interfund balances that are generally short-term loans used to cover temporary cash deficits in various funds. The interfund transfers generally are made for the purposes of distributing revenue from the general fund to other funds for capital projects and operations. Aside from utility transfers discussed below, no significant transfers during the fiscal year that were either non-routine in nature or inconsistent with the activities of the fund making the transfer.

The composition of interfund balances as of June 30, 2025 is as follows:

Receivable Fund	Payable Fund	Amount
General	Fleet Management	$ 734,178
General	Animal Care	3,248
Water	5th Cent Capital Projects	710,446
Sewage	5th Cent Capital Projects	710,446

On August 1, 2022, the Town approved an interfund loan each from the Water and Sewage funds to the 5th Cent Capital Projects fund to fund the Core Maintenance Facility project. The 5th Cent Capital Projects fund will repay the utility funds in monthly installments utilizing current interest rates earned on pooled cash over a five-year term. The interfund interest paid and received is recorded in transfers.

Unearned revenues: Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. This deferred revenue type is specifically referred to as unearned revenue. At the end of the current fiscal year, the various components of unearned revenue reported in governmental funds were as follows:

	Court Bonds	Construction Bonds	Grants	Customer Deposits	Total
Governmental Fund Activities:					
Unearned revenue					
General Fund	$ 7,981	$ 1,089,739	$ 112,973	$ 11,500	$ 1,222,193
Employee Housing	-	-	-	70,011	70,011
Total	7,981	1,089,739	112,973	81,511	1,292,204
Business-type activities:					
Unearned revenue					
Water	-	-	-	-	-
Total	-	-	-	-	-
Government-wide total	$ 7,981	$ 1,089,739	$ 112,973	$ 81,511	$ 1,292,204

Transfers: The following interfund transfers are reflected in the fund financial statements at June 30, 2025:

	Transfers In	Transfers Out
Governmental funds:		
General Fund	$ 2,248,021	$ 7,518,306
START	1,154,767	153,398
5th Cent Capital Projects	5,916,350	64,854
Nonmajor governmental	1,638,898	1,412,376
Total governmental funds	10,958,036	9,148,934
Enterprise funds:		
Water	32,427	847,172
Sewage	32,427	847,172
Total enterprise funds	64,854	1,694,344
Internal service funds	140,000	319,612
Total	$ 11,162,890	$ 11,162,890

The following schedule reflects each fund transfer:

In Fund	Out Fund	Amount	
General	Water	$ 847,172	(1)
General	Sewage	847,172	(1)
General	START	153,398	(1)
General	Employee Housing	115,185	(1)
General	Animal Care	166,549	(1)
General	Employee Insurance	118,545	(1)
START	General	24,125	(5)
START	Lodging Tax	1,130,642	(1)
Capital Projects	General	5,715,283	(2)
Capital Projects	IT Services	201,067	(5)
Fleet Management	General	140,000	(1)
Utility Funds	Capital Projects	64,854	(4)
Affordable Housing	General	1,638,898	(3)
		$ 11,162,890	

Annual reimbursement for shared expenditures
(1) Annual transfer to subsidize fund operations
(2) Annual 5th cent transfer to capital projects
(3) Transfer for housing projects and joint affordable housing department
(4) Transfer for interfund receivable interest
(5) One-time transfer for capital project

G. Accounts Payable

Accounts payable consists of vendor and retainage payables. As of June 30, 2025, governmental activities vendor payables totaled $3,103,653 and retainage payables totaled $12,689. As of June 30, 2025, business-type activities vendor payables totaled $575,237 and retainage payables totaled $134,724.

H. Long-term liabilities

Notes payable: The Town currently has issued two notes payable:

The first is a $1,158,046, 4% note also with the WWDC. This note is secured by the revenues of the Water Fund and a mortgage on the assets of the water supply system. This 30-year note is also payable in equal annual installments.

The last is a $1,000,000, .5% loan from Wyoming Business Council to install additional infrastructure at Snow King Mountain. This note is secured by the revenues of the Water Fund. This 20-year note is payable in 19 annual installments of $52,552 with all unpaid principal and interest due in the 20th year.

The notes payable outstanding are as follows:

Governmental activities

Notes Payable	Final Maturity	Interest Rates	Issue Amount	Outstanding 6/30/2025
Snow King Infrastructure				
Snow King Loan	03/31/35	0.50%	$ 1,000,000	$ 513,640

Business-type activities

Notes Payable	Final Maturity	Interest Rates	Issue Amount	Outstanding 6/30/2025
Water supply and storage projects				
2010 WWDC note	11/11/41	4.00%	1,158,046	814,734

Annual debt service requirements to maturity for the notes payable are as follows:

Year ending June 30	Governmental activities Principal	Governmental activities Interest	Business-type activities Principal	Business-type activities Interest
2026	$ 49,984	$ 2,568	$ 34,381	$ 32,589
2027	50,234	2,318	35,756	31,214
2028	50,485	2,067	37,186	29,784
2029	50,737	1,815	38,673	28,296
2030	50,991	1,561	40,220	26,750
2031-2035	261,209	3,955	226,560	108,289
2036-2040	-	-	275,645	59,204
2041-2042	-	-	126,313	7,487
Total	$ 513,640	$ 14,284	$ 814,734	$ 323,613

Leases payable

The Town is committed under eleven leases for buildings and easements entered into as lessee. The leases range between two and six years. As of June 30, 2025, the value of the lease liability was $675,904. The Town is required to make monthly principal and interest payments ranging between $1,600 and $4,205. The leases have an interest rate between 1% and 12%. The leases have estimated useful lives ranging between two and six years. The value of the right-to-use asset as of the end of the current fiscal year was $1,213,915 and had accumulated amortization of $600,551.

The future principal and interest lease payments as of June 30, 2025 were as follows:

Year ending June 30	Governmental activities Principal	Governmental activities Interest	Business-type activities Principal	Business-type activities Interest
2026	$ 276,230	$ 33,668	11,648	117
2027	256,869	15,180	11,922	79
2028	107,427	2,835	-	-
2029	11,808	66	-	-
Total	$ 652,334	$ 51,749	$ 23,570	$ 196

Subscription payable

The Town is committed under seven subscription agreements for software. The agreements range between two and six years. As of June 30, 2025, the value of the subscription liability was $1,025,775. The Town is required to make annual principal and interest payments ranging between $12,480 and $158,603. The agreements have an interest rate between 4% and 5%. The right-to-use subscription assets have estimated useful lives ranging between two and six years. The value of the right-to-use asset as of the end of the current fiscal year was $1,702,597 and had accumulated amortization of $373,745.

During the year ended June 30, 2025, there were no additional variable payments or other payments associated with these subscriptions.

The future principal and interest lease payments as of June 30, 2025 were as follows:

Year ending	Governmental activities		Business-type activities	
June 30	Principal	Interest	Principal	Interest
2026	$ 352,924	$ 44,662	$ 31,977	$ 2,623
2027	312,075	28,696	33,263	1,337
2028	144,270	14,333	-	-
2029	151,266	7,336	-	-
Total	$ 960,535	$ 95,027	$ 65,240	$ 3,960

The following is a summary of changes in long-term liabilities reported in the government-wide financial statements for the year ended June 30, 2025:

	Beginning Balance	Additions/ Proceeds	Reductions/ Payments	Ending Balance	Due Within One Year
Governmental activities:					
Snow King Loan	$ 563,375	$ -	$ (49,735)	$ 513,640	$ 49,984
Leases payable	886,188	139,032	(372,886)	652,334	276,229
Subscription payable	166,466	1,212,543	(418,474)	960,535	352,924
Governmental activities total	1,616,029	1,351,575	(841,095)	2,126,509	679,137
Business-type activities:					
Water - storage	847,793	-	(33,059)	814,734	34,381

Redemptions: None.

I. Risk management and litigation

The Town is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. For the past several years, the Town obtained coverage from various sources and has effectively managed risk through a number of employee education and prevention programs.

All risk management activities are accounted for in the appropriate fund. Expenditures and claims are recognized when it is probable that a loss has occurred, the amount of the loss can be reasonably estimated, and the loss amount exceeds insurance coverage. In determining claims, events that might create claims, but for which none have been reported, are considered.

The Town attorney estimates that the amount of actual or potential claims against the Town as of June 30, 2025 will not materially affect the financial condition of the Town.

Workers compensation coverage is provided through the state of Wyoming's Worker's Safety and Compensation Division. The Town pays an annual premium, reflecting a base rate plus an experience premium, to the division. Currently, the Town receives drug, alcohol, and safety program discounts.

The Town self-insures its health benefit coverage up to an annual $90,000 per claimant, with exception of laser coverage option. Stop-loss coverage is purchased from private insurers for amounts exceeding $90,000. For the year ended June 30, 2025, the Town exercised no laser coverage on any participants. Health benefit self-insurance activities are accounted for in the Employee Insurance Fund, an internal service fund.

Liability insurance is provided through Local Government Liability Pool (LGLP), a pooled self-insurance program. LGLP was created by the legislature specifically for local governments in Wyoming. The coverage amounts are the limits set by the Governmental Claims Act (W.S. 1-39-118). Current statutory limits are $250,000 per claimant with $500,000 per occurrence. Excess insurance coverage provides for out-of-state claims and Federal Civil Rights claims with the current limit of $5 million with a $1.5 million limit per occurrence. The LGLP policy has a $1,000 deductible.

Property and casualty insurances are provided by Wyoming Association of Risk Management (WARM) through a pooled self-insurance program. The WARM policy has a $5,000 deductible.

An analysis of claims activities for the last three fiscal periods ending on June 30 is presented below:

	2023	2024	2025
Paid losses	$32,361	$88,076	$63,077
Paid expenses	9,000	13,415	56,000
Reserves	-	34,478	65,000
Total incurred	$41,361	$135,969	$184,077

The Town's commercial insurance carrier has no set reserve losses or reserve expenses for claims filed after June 30, 2025 for incidents occurring prior to that date.

There were no significant reductions in insurance from the previous year and there were no settlements in excess of insurance coverage in each of the past three years.

J. Retirement plans

1. Defined benefit plans

The Town participates in the Wyoming Retirement System (the "System"), a statewide cost sharing multiple-employer public employee retirement system. The System is established and governed by the respective sections of Wyoming state statute. The statute provides for the administration of the System under the direction of the Wyoming State Retirement Board whose members are appointed by the Governor. The System issues a publicly available financial report that includes financial statements and required supplementary information for the System. A copy of the report may be obtained by writing to the Wyoming Retirement System, 6101 Yellowstone Road, Suite 500, Cheyenne, Wyoming 82002, by calling 1-307-777-7691, or https://retirement.wyo.gov. Substantially all Town employees are eligible to participate in following retirement plans offered by the System based upon eligibility and hiring status: 1) Public Employees' Pension Plan; 2) Law Enforcement Pension Plan; and 3) Wyoming Deferred Compensation Plan.

Public Employees' Pension Plan

The Public Employees' Pension Plan (PEPP) is a cost sharing multiple employer defined benefit, contributory retirement plan covering substantially all full-time employees of the Town. PEPP statutorily requires 18.62% of the participant's salary to be contributed to PEPP. Contributions consist of 9.25% of the participant's salary as employee contributions and 9.37% as employer contributions. The amount of contributions designated as employee contributions represent the portion of total contributions that a participant retains ownership of and can elect to receive as a refund upon termination of employment. Employers can elect to cover all or a portion of the employee's contribution at their discretion. Through legislation passed during the 2012 legislative session, two tiers of benefits were established for participants of this plan.

- Tier 1, PEPP allows for normal retirement after four years of service and attainment of age 60. Early retirement is allowed provided the employee has completed four years of service and attained age 50 or 25 years of service but will result in a reduction of benefits based on the length of time remaining to age 60.

- Tier 2, PEPP allows for normal retirement after four years of service and attainment of age 65. Early retirement is allowed provided the employee has completed four years of service and attained age 55, or 25 or more years of service but will result in a reduction of benefits based on the length of time remaining to age 65. All employees may also retire upon normal retirement on the bases that the sum of the member's age and service is at least 85.

PEPP provides retirement, disability and death benefits according to predetermined formulas and allows retirees to select one of eight optional methods for receiving benefits, including two joint and survivor forms of benefits: a 100% joint and survivor annuity, and a 50% joint and survivor annuity. The benefit amounts under these options are determined on an actuarially equivalent basis. Any cost of living adjustment provided to retirees must be granted by the State Legislature. In addition, a cost of living adjustment will not be approved by the legislature unless the plan is 100% funded after the COLA is awarded.

Employees terminating prior to normal retirement can elect to withdraw all employee contributions plus accumulated interest through date of termination or, if they are vested, they may elect to remain in PEPP and be eligible for retirement benefits at age 50 (Tier 1 employees) and 55 (Tier 2 employees).

Contributions to PEPP for the year ended June 30, 2025 were $1,739,493.

Law Enforcement Pension Plan

The Wyoming Law Enforcement Pension Plan (LEPP) is a cost sharing multiple employer defined benefit, contributory plan covering all law enforcement employees of the Town. LEPP statutorily requires 19.00% of the participant's salary to be contributed to LEPP. LEPP statutorily requires participants to contribute 9.50% of their salary to LEPP and the employer is required to contribute 9.50% of each participant's salary.

LEPP statutorily provides retirement, disability and death benefits according to predetermined formulas and allows employees to select one of seven optional methods for receiving benefits. Any cost of living adjustment provided to retirees must be granted by the State Legislature. In addition a cost of living adjustment will not be approved by the legislature unless LEPP is 100% funded after the COLA is awarded. Participants may withdraw from LEPP at any time and receive refunds of participant contributions plus accumulated interest.

Contributions to LEPP for the year ended June 30, 2025 were $584,199.

Wyoming Deferred Compensation Plan

The Plan administered by the System is an IRS Section 457 Deferred Compensation Plan. This Plan is available as a supplemental plan to the defined benefit retirement plans. Contributions may be made into this Plan (subject to plan and Internal Revenue Code limitations) by employees and employer contributions at rates determined by the Town.

For the year ended June 30, 2025, employee contributions were $300,100 and employer contributions were $66,250.

2. **Pension Liabilities, Expense and Deferred Outflows of Resources Related to Pensions**

At June 30, 2025, the Town reported an entity-wide net pension liability of $11,190,176 of which $9,931,880 is related to governmental activities and $549,486 and $708,810 is related to the Town's water and sewer funds, respectively.

Plan	Proportionate Share	Net Pension Liability
PEPP	0.434053%	$ 9,052,491
LEPP	1.591544%	$ 2,137,685
Total net pension liability		$ 11,190,176

The net pension liability was measured as of December 31, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2025 and rolled-forward using generally accepted actuarial procedures. The proportion of the net pension liability was based upon actual historical employer contributions to the plan from the census data submitted to the plan for pay periods ending in 2024.

For the year ended June 30, 2025, the Town recognized entity-wide pension expense of $881,980. The PEPP recognized an expense of $542,337. The LEPP recognized an expense of $339,643. At June 30, 2025, the Town reported entity-wide deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	PEPP	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	$ 586,975	$ 10,898
Net difference between projected and actual earnings on pension plan investments	-	1,146,131
Changes in assumptions	-	-
Change in proportion	881,801	-
Contributions subsequent to the measurement date	769,969	-
	$ 2,238,745	$ 1,157,029

	LEPP	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	$ 404,274	$ 53,511
Net difference between projected and actual earnings on pension plan investments	-	419,009
Changes in assumptions	166,994	1,563,491
Change in proportion	158,912	-
Contributions subsequent to the measurement date	351,666	-
	$ 1,081,846	$ 2,036,011

Deferred outflows of resources related to pensions resulting from Town contributions of $1,121,635 made subsequent to the measurement date will be recognized as a reduction of the net pension liability in the upcoming fiscal year.

Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ending June 30,	Net Deferred Outflows (Inflows) of Resources PEPP	LEPP
2026	$ 351,644	$ (720,731)
2027	865,005	(288,133)
2028	(615,258)	(193,178)
2029	(289,646)	(103,789)
	$ 311,745	$ (1,305,831)

Actuarial Assumptions

The total pension liability in the 2025 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	PEPP	LEPP
Projected salary increases, includes inflation	2.50% to 6.50%	5.25% to 9.25%
Assumed inflation rate	2.25%	2.25%
Investment Rate of Return	6.80%	6.80%

PEPP mortality rates were based on the Pub-2010 General Employee Mortality Table, amount weighted, fully generational, projected with the MP-2020 Ultimate Scale.

LEPP mortality rates were based on the Pub-2010 Safety Employee Mortality Table, amount weighted, fully generational, projected with the MP-2020 Ultimate Scale.

Discount Rate

The discount rate used to measure the total pension liability was 6.8% for both the PEPP and LEPP. The projection of cash flows used to determine the discount rate assumed contributions from participating employers will be made based on the actuarially determined rates based on the Board's funding policy, which establishes the contractually required rates under Wyoming State Statutes. Based on those assumptions, the Systems' fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

Asset Class	Allocation	20 Year Arithmetic Expected Real Return
Cash	0.50%	0.40%
Gold	1.50%	0.90%
Fixed Income	20.00%	4.22%
Equity	51.50%	8.19%
Marketable Alternatives	16.00%	5.38%
Private Real Assets	10.50%	7.74%
Totals	100.00%	6.75%

Sensitivity of the proportionate share of the net pension liability to changes in the discount rate:

The following presents the proportionate share of the net pension liability calculated using the PEPP discount rate of 6.80% and the LEPP discount rate of 6.80%, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease	Discount Rate	1% Increase
PEPP	5.80%	6.80%	7.80%
Proportionate share of net pension liability	$ 15,079,540	$ 9,052,491	$ 4,061,340
LEPP	5.80%	6.80%	7.80%
Proportionate share of net pension liability	4,484,229	2,137,685	219,162

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued Wyoming Retirement System financial report.

K. Committed contracts

At June 30, 2025, the Town had the following remaining commitments for uncompleted construction and equipment purchase contracts:

Fund/Project	Remaining Contract
START	
Two Coach Buses	1,760,000
Capital Projects	
Chip Seal, Patching, Overlay	841,928
Gregory Lane Complete Street	1,526,975
2014 SPET	
Gregory Lane Complete Street	877,419
2019 SPET	
Gregory Lane Complete Street	7,883,420
Water	
West Jackson Water Transmission Project	787,023
Gregory Lane Complete Street	2,848,319
Sewer	
Gregory Lane Complete Street	3,505,511

In 2008, the Town created a shared-appreciation mortgage program as a recruitment tool for key personnel. At June 30, 2025, the Town's commitments totaled $266,500.

L. Fund changes and fund balances

Amounts for specific purposes by fund and fund balance classifications for the year ended June 30, 2025, are as follows:

Classification/Fund	Purpose	Amount
Nonspendable		
General Fund	Prepaid items	$ 144,301
START Bus System	Prepaid items	297,855
5th Cent Capital Projects	Prepaid items	82,486
Restricted		
General Fund	Victim services	14,318
2010 SPET	Energy	39,204
2006 SPET	Sidewalks	17,727
2014 SPET	Pedestrian/Complete Streets	3,091,479
2016 SPET	Landslide mitigation	366,615
2019 SPET	Complete Streets/Stormwater	10,842,336
2022 SPET	Employee housing	542,238
Parking Exactions	Parking improvements	229,380
Parks Exactions	Park improvements	656,495
Affordable Housing	Housing options	1,470,340
Lodging Tax	Visitor impacts	594,916
Animal Care	Animal shelter	531,488
Assigned		
Employee Housing	Employee housing	3,238,521
Affordable Housing	Housing options	3,546,759
Parking Exactions	Parking management	1,607,025
5th Cent Capital Projects	Various improvements	8,568,024
START Bus System	Transit	3,931,063
General Fund	Subsequent year's budget	2,716,152
Unassigned		
General Fund		15,860,893
Total fund balances		$ 58,389,615

For the year ended June 30, 2025, the Town closed the following fund(s):
None

For the same period, the Town opened the following fund(s):
None

Statistical Section

TOWN OF JACKSON
WYOMING

Statistical Information

(unaudited)

The Statistical Section is included to provide financial statement users with additional historical perspective, context, and detail for them to use in evaluating the information contained within the financial statements, notes to the financial statements, and required supplementary information with the goal of providing the user a better understanding of the Town's economic condition.

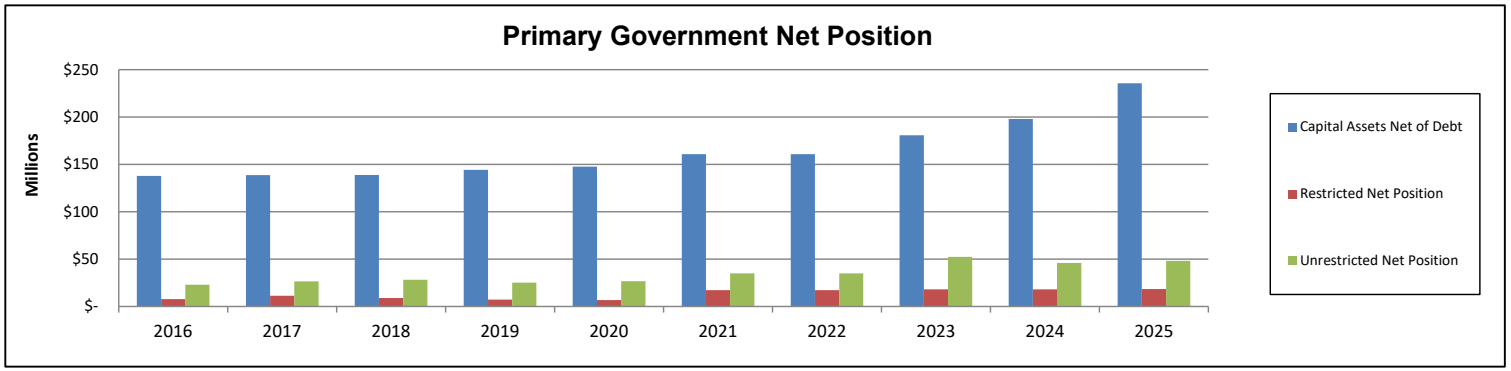
Contents

Financial Trends
These schedules contain information to help the reader understand how the Town's financial performance and well-being have changed over time.

Revenue capacity
These schedules contain information to help the reader assess the Town's most significant local revenue sources.

Debt capacity
These schedules contain information to help the reader assess the affordability of the Town's current levels of outstanding debt and the Town's ability to issue additional debt in the future.

Demographic and economic information
These schedules offer demographic and economic indicators to help the reader understand the environment within which the Town's financial activities take place.



Operating information
These schedules contain service and infrastructure data to help the reader understand how the information in the Town's financial report relates to the services the Town provides and activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year.

Change 2016-2025	97.6%	7.8%	-65.3%	6.4%	8.3%	-63.8%	66.9%

Notes: (1) As of June 30, 2004, the 4% state sales and use tax is distributed 69% to the state and 31% to cities, towns and counties. Of the 31%, 1% is distributed proportionately based on population and 30% is distributed proportionately based on the sales tax collected in each county.

(2) The gasoline tax is distributed 57.5% to the state, 13.5% and 14% to counties, and 15% to cities and towns. City and town distributions are based 75% on proportionate sales in cities and towns and 25% on proportionate populations for the same.

(3) The cigarette tax is distributed 33 1/3% to incorporated cities, towns, and counties proportionately to sales derived in each. The remaining 66 2/3% is distributed 38 1/4% to the state's general fund and the remaining 61 3/4% is distributed in the preceding manner.

(4) The severance tax distribution to cities and towns is 9.25% of the total in the state severance tax distribution tax account (up to $155,000,000) in proportion to population.

Direct and Overlapping Governmental Activities Debt
As of June 30, 2025

(Unaudited)

Teton County assessed valuation	3,790,660,268
Town of Jackson assessed valuation	858,318,379
Town of Jackson percent of total	22.6%

Direct and overlapping debt governmental activity debt	Total Debt 6/30/2025 (1)	Percent Applicable	Town's Share of Debt 6/30/2025 (2)
Teton County	$ 2,243,915	22.6%	$ 508,089
Town of Jackson	2,126,509	100.0%	2,126,509
Total direct and overlapping governmental activities debt	$ 4,370,424		$ 2,634,598

Ratio to assessed valuations	
Direct debt	0.25%
Total direct and overlapping debt	0.31%

Notes: (1) Excludes enterprise revenue debt and specific purpose excise tax supported debt.

(2) Overlapping governments are those that coincide, at least in part, with geographic boundaries of the town. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the town. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire burden borne by residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, therefore responsible for repaying the debt, of each overlapping government.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Mayor and Town Council
Town of Jackson, Wyoming

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Jackson, Wyoming (the Town) as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements, and have issued our report thereon dated December 29, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Town's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Independent Member of PrimeGlobal | The Association of Advisory and Accounting Firms

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the Town of Jackson, Wyoming's (the Town) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the Town's major federal programs for the year ended June 30, 2025. The Town's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Town complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Town and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the Town's compliance with the compliance requirements referred to above.

Independent Member of PrimeGlobal | The Association of Advisory and Accounting Firms

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the Town's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Town's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Town's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Town's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Town's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing

their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTE 1 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the Town of Jackson under programs of the federal government for the year ended June 30, 2025. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Town of Jackson, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Town of Jackson.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE 3 - INDIRECT COST RATE

The Town of Jackson has not elected to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

RESOLUTION 25-13

A RESOLUTION ADOPTING THE FISCAL YEAR 2026 BUDGET FOR THE TOWN OF JACKSON, WYOMING.

WHEREAS, the Town of Jackson is subject to the provisions of the Uniform Municipal Fiscal Procedures Act as specified by Wyoming Statutes (W.S. 16-4-101 through 16-4-124); and

WHEREAS, pursuant to the Uniform Municipal Fiscal Procedures Act, the governing body for the Town of Jackson is required, by resolution or ordinance, to make the necessary appropriations and adopt a budget, subject to future amendment, for fiscal year 2026.

NOW, THEREFORE, BE IT RESOLVED, by the Town Council of the Town of Jackson, Wyoming, in regular session duly assembled, that the budget for fiscal year ending June 30, 2026 shall be as follows:

TOWN OF JACKSON, WYOMING
ADOPTED BUDGET FOR FISCAL YEAR 2026

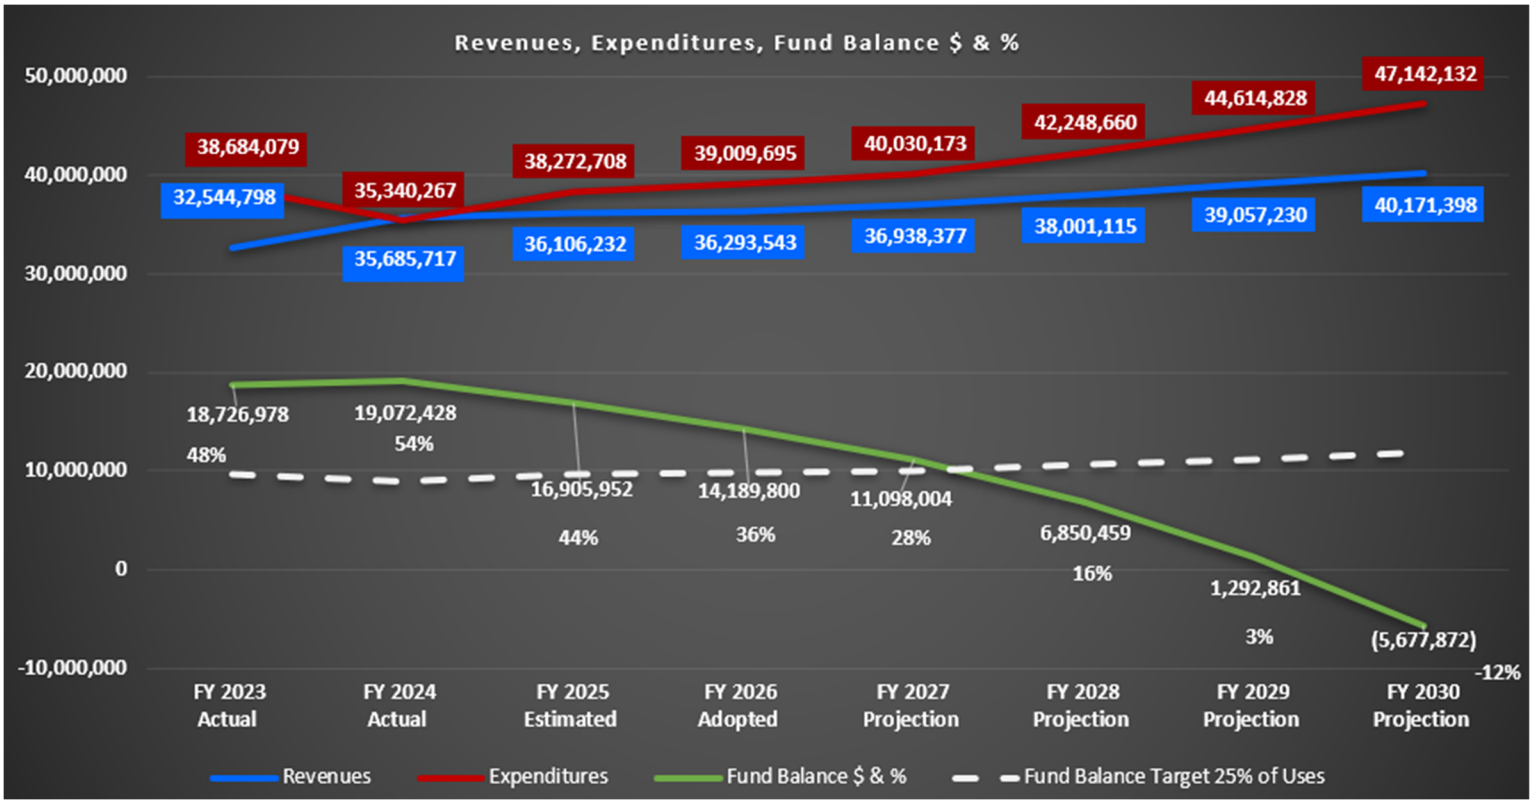
Jackson, WY 83001

Dear Mayor Arne Jorgensen and Members of Town Council:

Transmitted here is the adopted Budget for the Town of Jackson for Fiscal Year 2026 (FY26) July 1, 2025 - June 30, 2026. Town staff continues to work to balance current needs, be resilient, and prepare for dynamic times, recognizing our responsibility to current and future generations. Fiscal transparency is a key priority for the organization, and this budget was prepared in accordance with Wyoming Statutes and Town Ordinances. This budget includes a continued focus on staff retention and a standard budget approach, addressing prudent requests, and some modest increases. We aim to keep pace with inflation and continue to meet needs of the community and organization. The Town's budget provides the following to our community.

- Investment in the Town's incredible staff including retaining and recruiting employees who provide quality services on which our community can rely.
- Resources to maintain and protect critical infrastructure including water and sewer.
- Clean drinking water, community safety, and consistent snow removal.
- Rebuilding of Gregory Lane above and below ground.
- A prudent reserve account for resilience and unforeseen challenges.



The budget addresses the high value the Town places on its employees, recognizing staff as the organization's greatest asset. The Pay Philosophy Town Council adopted states, *"The Town is committed to showing how much it values its employees through comprehensive compensation and benefits packages. The Town of Jackson's philosophy is to retain the incredible staff we have and recruit new employees that fit into our organizational culture and philosophy..."* Council has adopted an annual two step wage adjustment process including: 1) A cost of labor adjustment (4.7% for FY26) and 2) An annual increase (2.5% this year). These updates are a critical part of the Town's employee retention strategy, and I view them as crucial for all Town of Jackson staff.

This past year, the Town worked cooperatively with Teton County to place a Special Purpose Excise Tax (SPET) for a new Justice center on the November ballot. Part of this negotiation was the inclusion of a revised Town/County funding split if the SPET measure was approved that will take effect for FY26. With the successful passable of the SPET ballot, this budget incorporates the approved change to the split for Joint Departments from 46%/54% (Town/County) to a 43%/57% (Town/County). This means the Town is contributing about $650,000 in Operations and $130,000 in Capital, totaling $780,000 less to Joint Departments. Along with this shift, the Town and County agreed to review Joint Powers Agreements and consider funding and governance for all joint departments and services, during FY26.

An addition to this year's budget is the inclusion of Information Technology (IT) broken out by department, with line items for Town wide IT expenses and software and another for department specific software expenses. IT expenses have grown significantly over the past five years with a shift to subscription-based software and increased reliance on technology to support the Town's day-to-day functions. We will continue to discuss and consider IT expenses more thoroughly both Town-wide and at the department level to ensure we are making conscious and prudent decisions in this area.

Annual streets maintenance, the Gregory Lane rebuild, and continuation of the BUILD grant projects including the Stilson Transit Center, are the focal points for capital funding this year. We are also continuing to prioritize expansion of funds for annual street maintenance, to maintain current infrastructure. Rebuilding Gregory Lane is the single largest public works project the Town has taken on to date. This project is fully funded in the adopted budget including a contingency in the General Fund to cover potential increases in materials and/or labor as we update this integral corridor over the next 2 fiscal years. The Stilson Transit Center which is being managed by the Town is also a critical project to help ensure our community can meet its transportation goals.

The Town has been monitoring and discussing the recent trend of annual expenditures exceeding revenues and using the General Fund to make up the difference. This trend, shown in the chart below, projects that within five years the Town's revenues and General fund will no longer cover expenditures. This year's adopted budget is balanced using $2.7 million from the General Fund, which is less than the $3 million utilized in FY25. This is still a temporary solution though, which we will not be able to count on forever. This trend, and potential strategies to address it, will continue to be the focus of Strategic Budgeting discussions throughout the year.

At your retreat this past January, Council committed to continue to work on Strategic Budgeting to align current and future community needs with revenues. This process will begin in earnest once the FY26 budget is complete. This hard work, beginning to plan for projected financial needs and building into a resilient future, could lead to changes either in increased revenue, a reduction of services/expenditures, or most likely both. This budget relies on traditional revenue resources and includes modest increases related to staff retention and inflation anticipating the start of deeper work on a forward-looking Strategic Budgeting over the next year.

Also at its annual retreat, Council developed a clear list of priorities and associated projects for this calendar year. The adopted FY26 budget complements this effort with funding identified for work on a Stormwater Management Plan, Ecosystem Health Indicators, and revaluating the 2:1 Workforce Housing Bonus just to highlight a few items. Staff finds it reassuring to have these priorities laid out in advance, providing the ability to plan both financially and policy-wise.

In summary, the goals of the FY26 budget are to continue to work to retain and recruit a quality workforce for years to come, to support the rebuild and construction of Gregory Lane and the Stilson Transit Center, and to maintain our critical street infrastructure while continuing to explore organizational efficiencies.

With these overall goals in mind, the Town is working to ensure its fiscal responsibility by maintaining approximately 25% of total expenditures in its reserve fund for resilience, emergencies, or other unforeseen challenges. The FY26 adopted budget projects a general fund total of 36% of expenditures (25% reserve, 11% discretionary) going beyond our policy to have at least 25% in reserve and maintaining a solid contingency in the General Fund should unplanned for needs arise. As we continue to weather volatility, the Town will monitor expenditures and revenues closely and report quarterly about how projections and expenses are tracking in order to make adjustments, if necessary.

The FY26 budget is the product of a considerable team effort, from front line employees through Department Directors and especially the amount of time and effort provided by Finance Director Kelly Thompson. Thompson does an incredible job crunching numbers, organizing data, and preparing spreadsheets and charts for analysis. I am immensely grateful for the Town's incredible staff and our commitment to serving our community.

Sincerely,

Tyler Sinclair
Town Manager

EXPENDITURE FUNDS

The adopted budget for all funds excluding transfers out for FY26 is $94,802,195, up from an estimated $69,463,718 in FY25. The significant increase from last year is due to the Gregory Lane rebuild, START Bus purchases, and installation of EV Charging Stations. The bubble chart on the next page shows a breakdown of operating and capital expenditures, and Figure 1 below illustrates Town reserves, revenues, and expenditures for Fiscal Years 2024, 2025 and 2026.

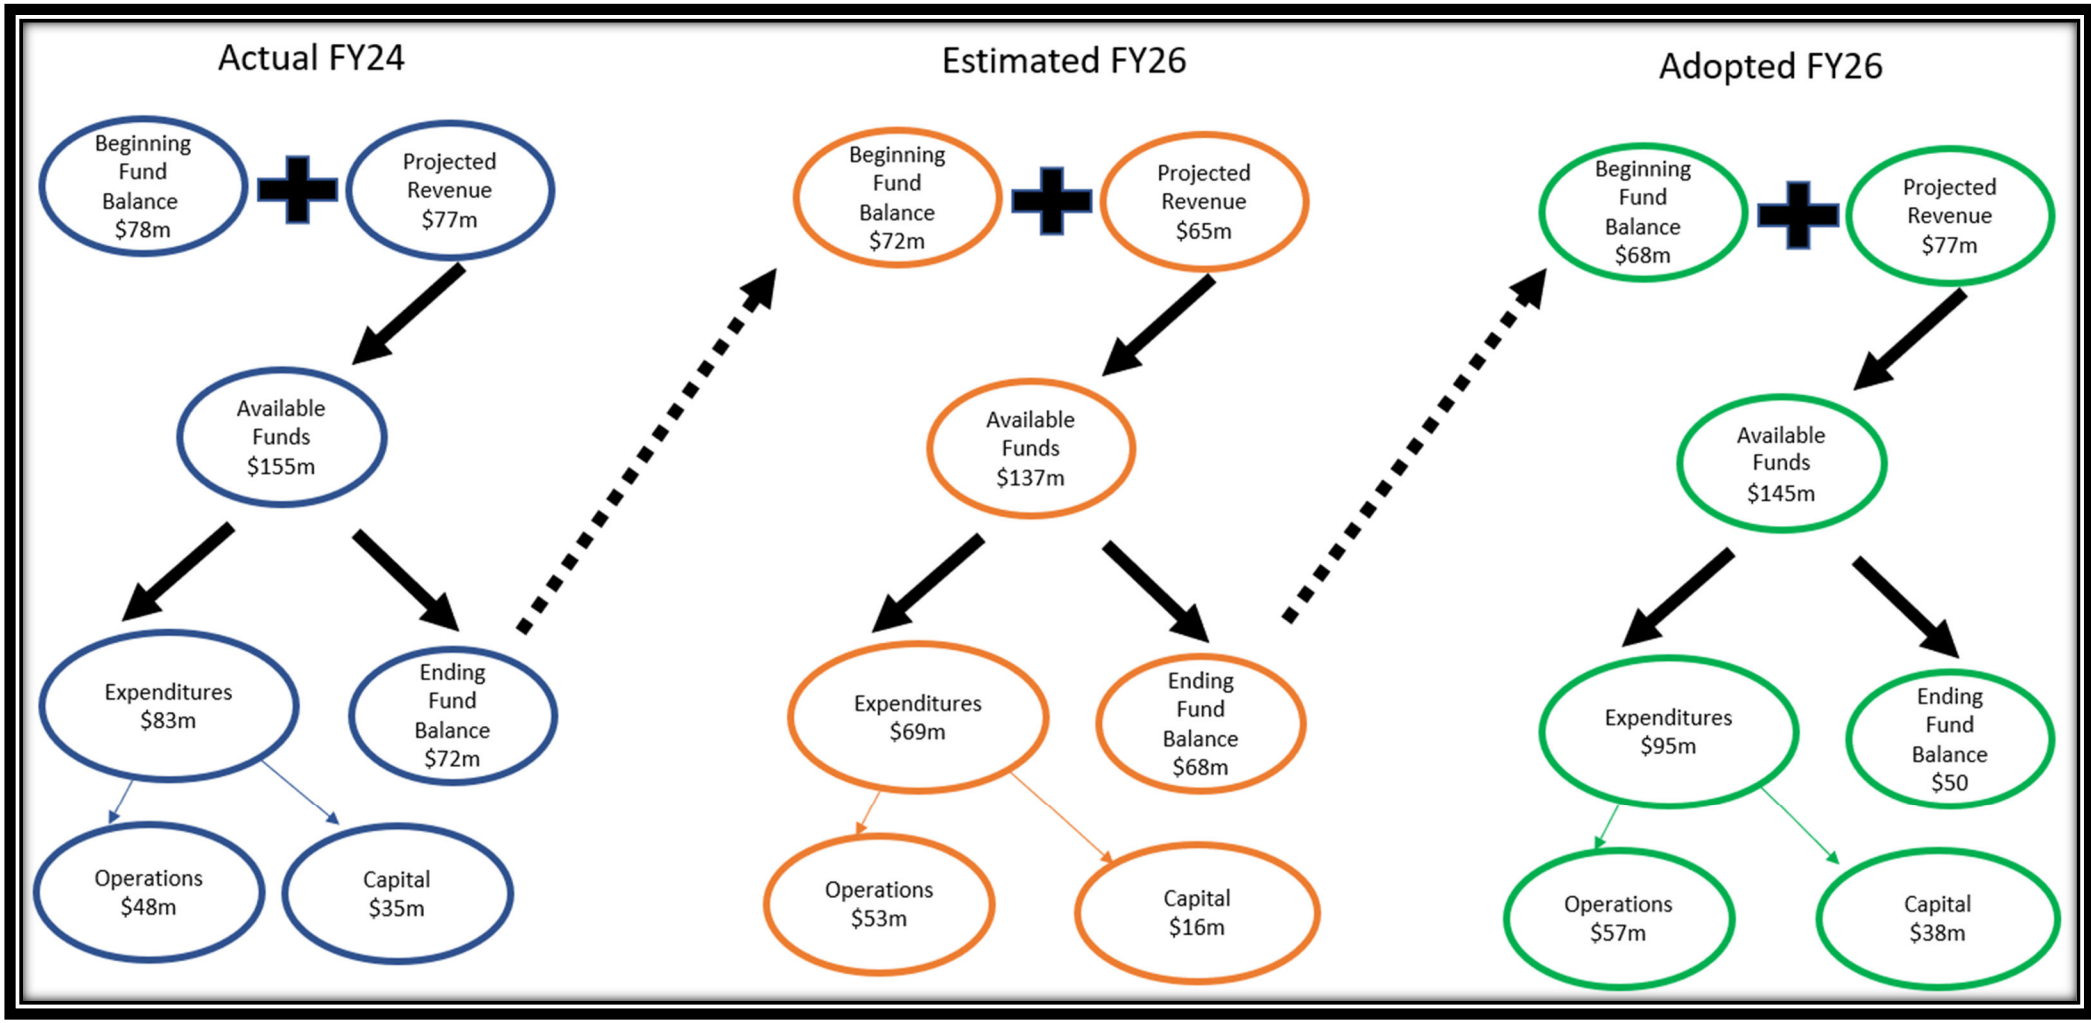
The General Fund Budget for FY26 is $39,009,695, a $736,987 increase from FY25's estimated expenditures. The General Fund supports traditional government services (public safety, street maintenance, planning, general government, etc.), which do not need to be accounted for in any other funds. The major contributor to this year's increase is $1,180,000 for employee compensation offset by reductions in professional services, community initiatives and efficiencies in other areas.

For Personnel, the adopted budget includes 3.64 new full-time employees (FTEs) to help maintain current core levels of service including 2.10 for START variable drivers and 1.0 for a Facilities Maintenance Technician. For Employee Benefits, this budget includes a 7.2% wage increase comprised of a 4.7% cost of labor adjustment per the compensation plan and a 2.5% annual increase.

Health care costs are projected to increase approximately 18%, driven by claims, reinsurance, and an increase in FTE participants and their family members. Internal charge rates were kept flat in FY2025 due to a healthy fund balance. Due to a high claim year in FY2025, the health plan internal charge rate to respective funds increased by 3% in FY26. Staff notes that the Town will be reviewing our overall benefits over the next year as part of Strategic Budgeting, which could lead to changes in this area for FY27. In addition, staff notes with success filling vacant positions there may be increased expenditures for claims and premiums, which would mean a reduced health care fund balance.

Pooled Special Revenue Funds are budgeted to spend $21,115,188. This includes the START Fund, Employee Housing Fund, Affordable Housing Fund, Park Exaction Fund, Animal Care Fund, Parking Exactions Fund, and Lodging Tax Fund. The largest Special Revenue Fund is the START Fund, accounting for revenues and expenditures ($9.9M operations and $7.4M capital) for the transit system. Including, $6,800,000 for 8 bus replacements and $390,000 for three bus shelters.

Enterprise Funds account for revenues and expenses related to Water and Wastewater utility systems. Enterprise funds are legally required to be supported with user fees and revenues. The Water and Wastewater Funds account for both operating and capital costs for each of these utility funds. This budget includes $5.2M in water capital expenditures to improve water supply in West Jackson and Gregory Lane and $4.1M in wastewater capital improvements including Gregory Lane, Vine Street, and Broadway.



Internal Service Funds provide support on a cost-reimbursement basis, including Fleet Maintenance, Employee Insurance, Information Technology Services, and Central Equipment (Town vehicles like police cars, snowplows, front-end loaders, and other work trucks). The approved budget makes significant capital investments in this area totaling $700,000 in seven vehicles and a snow blower. These funds have little or no external revenue but receive revenue from departmental charges and internal transfers.

For our Capital Improvement Program (CIP), half of the 5th cent local option sales tax revenue is allocated to the Capital Projects Fund to build new infrastructure and preserve, protect, and extend the life of

current public infrastructure and assets. Including all capital project funds, this budget includes $20,057,997 in capital expenditures. Significant projects include:

- $11,328,864 Gregory Lane Complete Street
- $5,579,868 EV Charging Stations
- $1,619,000 Vine Street Complete Street
- $1,150,000 Broadway ADA Improvements
- $1,530,000 Annual Street Maintenance

TOWN OF JACKSON ORGANIZATION

A Look at the Budget by Fund

One way of looking at the budget is by fund. A fund is a separate accounting entity created to account for specific revenue and expense activity. The Town of Jackson has several fund groupings, which are reviewed herein. The fund groupings are listed below:

Governmental Funds - funds generally used to account for tax-supported activities. There are five different governmental fund types, including a General Fund, Special Revenue Funds, Debt Service Funds, Capital Projects Funds, and Permanent Funds.

- General Fund - one of five governmental fund types that typically serve as the chief operating fund of a government. The General Fund is used to account for all financial resources except those required to be accounted for in another fund.

- Special Revenue Funds - used to account for the revenue derived from specific taxes or other earmarked revenue sources that are restricted by law or administrative action to expenditures for specified purposes. Special Revenue funds of the Town include Affordable Housing, Parking Exactions, Park Exactions, Employee Housing, Animal Care, Lodging Tax Fund and the START Bus System.

- Capital Projects Funds - established to account for resources used for the acquisition and construction of capital facilities by the Town, except those financed by proprietary funds. Capital Projects funds of the Town include those financed with a portion of the 5th Cent sales tax, Specific Purpose Excise Taxes (2006, 2010, 2014, 2016, 2019 and 2022), and Intergovernmental (grants, state shared, etc.).

- Debt Service Funds – are used to account for the accumulation of resources for, and the payment of general long-term debt principal and interest. Town has no outstanding general long-term debt.

- Permanent Funds – used to account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support governmental programs.

Proprietary Funds are funds that focus on the determination of operating income, changes in net assets (or cost recovery), financial position, and cash flows. There are two different types of proprietary funds: Enterprise funds and Internal Service funds.

- Enterprise Funds - established to account for the operations and financing of self-supporting activities of a governmental unit that renders services on a user charge basis to the general public, similar to private business enterprises. Enterprise funds of the Town include the Water and Sewage Utilities.

- Internal Service Funds - used to account for the financing of centralized services to different funds and Town departments on a cost reimbursement basis (including replacement costs). Internal Service funds of the Town include the Employee Insurance (health benefits), Fleet Management, Central Equipment, and Information Technology (IT) Services Funds.

General Fund

The General Fund is the Town's main principal fund, which accounts for all resources and services that are not required by law or management practice to be accounted for in another fund. Currently, the General Fund accounts for revenues by type (i.e. taxes, licenses and permits, fines and forfeitures, charges for services, etc.) and expenditures by function (i.e. general government, public safety, etc.). Functions are divided into departments such as the police department, public works, planning, etc. Some larger departments are divided into divisions (police patrol, investigations). The state-shared 4% sales tax and the 1% local option sales tax combined are the largest sources of revenue in the General Fund, accounting for about ***76%*** of total General Fund operating revenues. The General Fund's largest operating expenditure is personnel (employee wages and benefits) comprising approximately 41% of total fund uses. Transfers out account for 18% of total fund uses.

The General Fund includes the following functions: 1) General Government; 2) Public Safety; 3) Public Works; 4) Community Health & Human Services; 5) Community Initiatives; 6) Culture and Recreation.

General Fund Revenues

General taxes consist of the one percent local option sales tax (5th Cent) and franchise taxes on the gross sales of electricity, gas, cable, trash, telephone, and recycling service in Town. Because the Town has 46% of the County's population, the local option tax is split 46% for the Town and 54% for the County. The 5th Cent sales tax supports General Fund operations and capital projects. Consistent with historical practice, the General Fund will retain 50% of the 5th Cent to support operations and the remaining 50% will transfer to the Capital Projects Fund to fund projects. Both the state-wide and optional local sales taxes are projected to increase by 3% over the 2025 estimate. Most franchise taxes are calculated at 10% of the gross sales of the particular service provided within the community by private entities

General Taxes	FY2023 Actual	FY2024 Actual	FY2025 Amended	FY2025 Estimated	FY2026 Requested	FY2026 Recomm'd	FY2026 Adopted	% Change FY25 Amend

Fee Schedule
The fee schedule is adopted by resolution. These resolutions may occur annually with the budget or throughout the year as adjustments arise. This schedule drives various revenue items within the Licenses & Permits and Charges for Services divisions. Council reviews current and potential new fees during the budget process. In FY2026, most fees will incur a 2.34% increase over FY2025, which is tied to the U.S Bureau of Labor Statistics Denver CPI. Please see https://www.jacksonwy.gov/325/Permits-Applications for the current fee schedule.

Licenses and Permits revenues are primarily business licenses, liquor licenses and building permits. These three will account for 63% of the total $1,710,578 budgeted for all licenses and permits. Building permits are impacted by external economic factors and internal development policies adopted by elected Town officials. Other licenses include contractor and animal licenses, and other permits include development, rodeo contract, and grading. The budget shows a 11% increase from FY2025.

Intergovernmental revenues typically come from federal, state, and county governments. Some of the revenues are passed through other governmental units, such as federal grants awarded to states, which are then distributed to local governments. Wyoming distributes 31% of the 4% state sales taxes generated locally and varying percentages of gasoline, cigarette, and severance taxes to municipalities throughout the state. The State also distributes a portion of its federal mineral royalties to local governments.

Intergovernmental	FY2023 Actual	FY2024 Actual	FY2025 Amended	FY2025 Estimated	FY2026 Requested	FY2026 Recomm'd	FY2026 Adopted	% Change FY25 Amend

Charges for services for the General Fund are 6% of total fund revenues. Further, Teton County provides revenue generating parks, recreation, and EMS services to the Town. The Town reimburses the County for its share of expenses after revenues are subtracted.

Charges for services include plan review fees, cemetery fees, vehicle inspections, false alarm response income, and police services. In 2012, the Jackson Hole Airport started reimbursing the Town annually for police protection services. The FY2026 amount increased to $763,780.

Fines and forfeitures account for approximately 1% of the Town's budgeted revenues. The license plate recognition system (LPR) provides more effective parking enforcement.

Miscellaneous revenues account for approximately 3% of the Town's budgeted revenues. The current yield on 2-year U.S. Treasuries has is approximately 3.9%. Interest earnings are estimated to be consistent with 2025 across all funds. Miscellaneous revenues also include $512,184 in facility and property lease revenues.

Joint Departments

The Town and County partner to provide single source services to residents and visitors. The Town provides START Bus (Special Revenue Fund), Victim Services, and Animal Shelter services. The County provides Fire/EMS, Emergency Management, Communication Center (Dispatch), Pathways, Parks & Recreation, and Affordable Housing services. The costs of these services (net of revenues) have been historically shared 45% by the Town and 55% by the County based on the 2010 Census. This changed to 46% Town and 54% County on July 1, 2022 based on the 2020 Census. The split changes to 43% Town and 57% County in FY2026 per a new MOU.

* Affordable Housing and Pathways - capital projects are not shared, each entity fully funds their capital projects

Fund Balance

The adopted budget reduces the fund balance $2,716,152.

ADOPTED BUDGET FOR FISCAL YEAR 2026

Beginning Fund Balance		$ 16,905,952
Fund Balance as % of Total Expenditures		40%
Sources of Funds:		
Revenues	$ 33,656,069	
Recurring Transfers In	2,637,474	
Non-recurring Transfer In	-	
Total Sources		36,293,543
Use of Funds:		
Expenditures	32,062,908	
Recurring Transfers Out	6,946,787	
Non-recurring Transfers Out	-	
Total Uses		39,009,695
Net Operating Surplus (Deficit)		$ (2,716,152)
Ending Fund Balance		$ 14,189,800
Fund Balance as % of Total Expenditures		36%

- General Fund net operating revenue shall equal or exceed net operating expenditures. Net operating revenue is defined as total revenue plus any recurring transfers-in for allocated services. Net operating expenditures are defined as total expenditures plus recurring transfers-out to the Affordable Housing Fund.
- Due to the General Fund's reliance on elastic revenue sources and the historical uncertainty surrounding expenditures, the annual General Fund unreserved ending fund balance target is 25% of that year's estimated net operating expenditures. However, the General Fund unreserved ending fund balance will always equal or exceed at least 20% of the prior year's net operating expenditures.

Fund balances are important indicators of the Town's fiscal health and management's stewardship. Spending fund balances for on-going operations leads to suboptimal decision making by both policy makers and managers. Additionally, fund balances allow the Town to respond to unexpected events.

Special Revenue Funds
Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specific purposes.

Affordable Housing Fund
The Affordable Housing Fund accounts for the Town's share of the Jackson/Teton County Affordable Housing Department and for housing developer exactions to be used for the purpose of creating additional affordable and employee housing units. The fund contributed more than $10M cash and land to multiple community housing projects over the last 6 years, please see a list of projects in the Housing Department Supply Plan and the Community Housing Trust Project List.

For FY26, the fund will contribute $594,985 to the Jackson/Teton County Affordable Housing Department. Projected fund balance at the end of FY26 is $5,139,563. This consists of $1,473,118 in restricted housing exactions and $3,666,445 in assigned funds. This fund balance can be used to purchase property on which restricted workforce housing will be built in accordance with the Housing Action Plan and Annual Housing Supply Plan and is available for Town Council to appropriate.

Parking Exactions Fund
The Parking Exactions Fund consists of $256,055 in restricted parking exactions and $1,609,875 in assigned funds. The restricted funds

account for developer parking exactions that are restricted for the purchase of land for parking or development of new parking facilities. The assigned funds are made up largely from Public Right of Way permit fees and parking garage fees. Projected fund balance at the end of FY26 is $1,865,930.

Parks Exactions Fund
The Parks Exactions Fund accounts for developer exactions to be used for the purchase of land for parks and pathways or for the construction of park amenities and pathways. The only FY2026 project is $600,000 Karns Meadow Master Plan and Conditional Use Permit. Projected fund balance at the end of FY26 is $97,593.

Employee Housing Fund
The Employee Housing Fund accounts for the rental income and rental costs associated with the Town's employee housing program. Operating surpluses, where rents exceed costs of maintenance, are expected to occur and are expected to be retained within the Employee Housing Fund to cover possible future operating deficits, fund long-term maintenance, partially fund facilities staff performing a portion of the property management duties, and to expand the program in future years. The Town currently owns 32 employee rental units at West Snow King. As a result of land contribution and funding, the Town currently holds rights of first purchase or rental with the Community Housing Trust including 6 rights of first purchase in their general inventory, 3 rights of first purchase or rental in their general inventory that includes rentals at Redmond Street Rentals, and 5 rights of first purchase restricted to King Street Condos. As a result of land contribution and funding, the Town currently holds rights of first purchase or rental with the Housing Department including 4 rights of first purchase at the Kelly Place Condos, 4 rights of first rental at the Flat Creek Housing project currently under construction, and 8 rights of first purchase at the S4 project scheduled to commence construction in FY26. The Town currently holds primary leases on 11 additional units in the community that are then leased to Town employees as well. The projected ending fund balance for FY26 is $2,760,473.

Animal Care Fund
The Animal Care Fund is primarily supported by donations for specific animal shelter needs. The projected ending fund balance for FY26 is $444,606.

Lodging Tax Fund
The Lodging Tax Fund accounts for the 30% visitor impact services portion of lodging tax collections. The adopted budget includes a projected 2.5% increase over the FY25 estimate. The FY26 budget funds the Town's 43% share of START operations. Projected fund balance at the end of FY26 is $907,513.

START Bus System Fund
The START Bus System Fund (START) accounts for revenue and expenditures, both operational and capital, associated with the START Bus Transit System.

The financial policies and goals currently established for START Fund are as follows:

- The target for the START balance is 15% of annual operating expenditures. Operating expenditures are defined as all non-capital expenditures plus the indirect cost allocation transfer to the General Fund.

- The Lodging Tax funds the Town's share of the START operating shortfall.

The projected ending fund balance for FY26 is $1,937,239. Transit operations are particularly sensitive to changes in fuel prices and parts. FY26 includes increases over FY25 service levels for Teton Village Summer service and van pool program. Please see START Operations-Plan for current and historical Operation Plans. For FY26, subsidies from Town and from Teton County are $1,320,867 and $1,750,917 respectively. Additionally, START is budgeting federal and state revenues for 9 bus acquisitions.

Capital Project Funds

The Capital Project Funds section includes revenue budgets and expenditure appropriations for capital project funds and the departments within them. Capital Project Funds are designed to account for funds that are legally restricted or locally designated for specific capital projects.

Capital Projects Fund (5th Cent)

The Capital Projects Fund accounts for financing and procurement of design and construction of capital improvements not accounted for in other capital project or proprietary funds. The major on-going source of revenue for the Capital Projects Fund is derived from the "5th-cent" transfer of sales tax from the General Fund. Other revenues include SPET revenues and state and federal grants.

Wyoming legislators biennially pass legislation distributing state-shared revenues to Wyoming local governments. "Over-the-cap" state-shared revenues for FY26 are forecast to be 362,257. These "over-the-cap" revenues will be used for capital projects.

The financial policies and goals currently established for the Capital Projects Fund are as follows:

- The Capital Projects Fund historically receives a portion of the 1% Local Option Tax (5th cent) from the General Fund on an annual basis. For FY 2026, the annual transfer consists of 50% of the 1% local option tax collected which is $ 5,709,500.

- A Five-Year Capital Improvements Plan will be adopted and updated annually and will include all projects that anticipate funding from the 1% Local Option Tax (5th cent), the Specific Purpose Excise Tax (6th cent), other capital project funds, the Utility Funds, and developer exactions.

- The projected ending fund balance for FY26 is $6,481,415.

The Town's Five-Year Capital Improvements Plan is a separate document with separate request and approval processes. Please see page 140 for a detailed list of projects in the five-year plan.

2014 Specific Purpose Excise Tax (SPET) Fund

The 2014 SPET Fund accounts for the 2014 authorization of Specific Purpose Excise Tax (6th cent sales tax) revenue that is restricted to projects related to specific street projects ($3.25M and stormwater projects in Town ($250K). The FY26 ending fund balance is projected at $2,224,242. The fund balance is available for street projects.

2016 Specific Purpose Excise Tax (SPET) Fund

The 2016 SPET Fund accounts for the 2016 authorization of Specific Purpose Excise Tax (6th cent sales tax) revenue that is restricted to mitigation for the West Broadway Landslide. Landslide mitigation was completed in the fall of 2018. Ongoing expenditures remain to monitor the landslide. The FY26 ending fund balance is projected at $353,706.

2019 Specific Purpose Excise Tax (SPET) Fund

The 2019 SPET Fund accounts for the 2019 authorization of Specific Purpose Excise Tax (6th cent sales tax) revenue that is restricted to Core Services Vehicle Maintenance Facility ($18.5M), Town of Jackson Downtown Water Quality Improvement Infrastructure – Cache Creek Project ($2M), and Gregory Lane – Street, Stormwater and Sewer Infrastructure, and Safe Routes to School ($8.5). The FY26 ending fund balance is projected at $3,874,549. The fund balance is available for Cache Creek and Gregory Lane ballot items.

2022 Specific Purpose Excise Tax (SPET) Fund

The 2022 SPET Fund accounts for the latest authorization of Specific Purpose Excise Tax (6th cent sales tax) revenue that is restricted to pedestrian improvements ($3M), employee housing ($10M), and energy projects ($5M). The FY26 ending fund balance is projected at $1,967,013. The fund balance is available for pedestrian improvements and employee housing.

Enterprise Funds
The Water and Sewage Utility Funds operate as enterprise, or business-type, funds that account for resources used to provide water and sanitary sewer service. The Town develops, records, monitors, and reports its budget on a modified accrual basis for all funds, including the Utility Funds. Budgets for the Utility Funds are produced in a manner similar to those of the General Fund, Special Revenue Funds, and Capital Project Funds. This allows certain Utility Fund transactions, such as asset purchases and principal payments on debt, to be recorded as expenses and to be subject to appropriation.

The working capital in the Water Utility Fund is projected to decrease by $3,619,003 during FY26. The working capital in the Sewage Utility Fund is projected to decrease by $3,074,035 during FY26. The projected ending working capital balance for the Water Utility Fund at the end of FY26 is $1,443,137. The projected ending working capital balance for the Sewage Utility Fund at the end of FY26 is $4,731,771. The Utility Funds currently have sufficient working capital balance reserves ($6.2 million, combined after FY26).

In FY2021, a comprehensive rate and capacity study was completed to develop a rate structure that incorporates current service expansion and plan for future growth 20-30 years from now. Rates were updated effective January 1, 2024. There will be rate reviews with potential adjustments on an annual basis going forward.

Internal Service Funds
This proprietary fund-type may be used to report any activity that provides goods and services to other funds, departments, or agencies of the primary government (Town of Jackson), or to other governments, on cost-reimbursement basis. The Town has four internal service funds: Central Equipment Fund, Employee Insurance Fund, Fleet Management Fund, and Information Technology Services Fund.

Employee Insurance Fund
The Employee Insurance Fund accounts for all costs of the employee health insurance plan. Employee Insurance Fund revenue is generated from charges to all funds containing employee benefit costs: General, START Bus System, Water Utility, Sewage Utility, and Fleet Management. The charges correspond to the amount of each fund's employee health care costs. This funding method attempts to moderate the annual fluctuations to each fund for employee health care expenditures.

The FY26 budget projects a 18% increase in plan member coverage costs compared to the FY25 estimate. This is due to increases in claims, reinsurance, and participants. Due to a high claim year in FY2024, the health plan internal charge rate to the respective funds increased by 7% in FY26. The projected FY26 ending fund balance of $719,2970 is sufficient to meet all "stop loss" insurance requirements.

Fleet Management Fund
The Fleet Management Fund provides fuel and maintenance services to both the Town and County. The largest customer is the START Bus System. The fund maintains fuel and parts inventories and employees including a fleet manager and five mechanics. Significant expense related to operating and maintaining the Core Maintenance Facility were new in FY25. The projected FY26 ending fund balance is negative $200,746. Staff plans to address and discuss the sustainability of this fund over the next year.

Central Equipment Fund

The Central Equipment Fund accounts for the accumulation of resources to be used for the replacement of vehicles and heavy equipment.

The financial policies and goals currently established for Central Equipment Fund are as follows:

- The target for the Central Equipment Fund shall allow for the timely replacement of equipment as projected over a ten-year planning horizon.
- Annual contributions from participating divisions shall be equal to the annual depreciation calculated on the acquired equipment plus an inflation factor.

The estimated value of all vehicles and heavy equipment (excluding START Bus System and enterprise funds) is approximately $6.8 million. Accumulated depreciation on central equipment fund assets is approximately $3.8 million. The adopted budget purchases 7 vehicles and 2 pieces of equipment totaling $485,349. The projected ending working capital balance for the Central Equipment Fund at the end of FY26 is $429,731.

Information Technology (IT) Services Fund

The IT Services Fund pools IT related costs and distributes them to each division by user. Pooled costs include hardware, software, communications, and contract maintenance costs. Personnel costs remain in the general government function of the General Fund.

The financial policies and goals currently established for IT Services Costs are as follows:

- The target for the IT Services Fund unreserved balance shall allow for the timely replacement of hardware and software as projected over a five-year planning horizon.
- Annual contributions from participating divisions shall be equal to the annual depreciation for hardware and software plus communications and contract maintenance costs distributed to related division by the number of users.

FY26 projects total $224,000. The projected fund balance for the IT Services Fund at the end of FY26 is $200,746.

MAJOR REVENUES

SALES TAX REVENUE

Sales tax revenue consists of the four percent statewide sales tax and the optional 5th cent local sales tax. In the past, the optional 5th cent was split between the General Fund and the Capital Projects Fund based on the Town's assessed valuation. For FY 2025, the General Fund will retain 50% of the total and the other 50% will transfer to the Capital Projects Fund. Both the statewide and optional local sales taxes are projected to rise by 2% over the 2025 estimate.

INTERGOVERNMENTAL REVENUE

CARES and ARPA grants support various one-time capital projects across multiple funds. Federal Transit Administration grants support operating and capital expenditures in the START Bus System Fund. Operating and Capital grants typically account for 57% and 80% of qualifying expenditures, respectively. WYDOT operating grants far exceeded historical levels in FY25. Therefore, increased funding is not expected in FY26.

UTILITY REVENUES – CHARGES FOR SERVICES

In 2023, the Town passed ordinances updating tiered volume and base rates. The FY26 budget uses the new rates in the revenue forecasts in both utility services. Water and sewage sales do not include capital contributions such as capacity and tap fees. There are two customers accounting for more than 7% of water sales.

MAJOR EXPENDITURES

PERSONNEL

Personnel expenditure consists of wages and benefits for all full-time, part-time, and seasonal employees. The FY26 adopted budget includes an 7.2% salary increase and 3.64 new FTEs .

The budget maintains the deferred compensation match of $1,000 per employee.

Current Debt Obligations

Description	Original Amount	Remaining Amount	Interest Rate	Last Pay Year
2010 WWDC-Note	$ 1,158,046	$ 814,734	4.0%	2042
WBC Snow King	1,000,000	513,640	0.5%	2035
Total		$ 1,328,374		

Long-term debt consists of two notes from the State of Wyoming: a loan from the Wyoming Water Development Commission (WWDC) and a loan from the Wyoming Business Council (WBC). The Town has not adopted a formal debt policy. The WBC Snow King debt service is funded by Snow King Mountain lease payment.

The following schedule summarizes debt service payments for all two notes payable the next three years and beyond:

	Loans	
Year	Principal	Interest
2026	84,365	35,157
2027	85,990	33,532
2028	87,671	31,851
2029	89,410	30,111
2030	91,466	28,055
2031-42	889,472	180,521
Total	$ 1,328,374	$ 339,227

Legal Debt Margin

The Town's legal debt limit is four percent of its total assessed valuation. The 2025 assessed valuations are pending State approval in August. Based on the estimated 2025 assessed valuation of $872,338,998, the Town's legal debt margin can be calculated as follows:

Total Assessed Valuation (2025 Estimate)		$ 872,388,998
Debt Limit = 4% of Assessed Valuation		$ 34,895,560
Amount of Debt Applicable to Debt Limit:		
Total General Long-Term Debt Loans Payable	$ 1,328,374	
Less: Assets Available in Debt Service Fund	$ -	
Total Amount of Debt Applicable to Debt Limit		$ 1,328,374
Legal Debt Margin		$ 33,567,186

Transfers-In and Transfers-Out are typically the last items reported before the net change in fund balances on the GAAP based statement of revenues, expenditures, and changes in fund balances. In the budget, Transfers-In appear in the same grouping with revenues and Transfers-Out appear in the same grouping with expenditures. To reduce confusion, efforts should be made to reduce the number of interfund transfers.

General Fund transfers-in include allocation of costs for public works yard operations to the Water Utility Fund and Sewer Utility Fund. Some general government administrative-type costs are allocated to the utility funds on 10% basis and 3% to START Bus System. General Fund provides transfers-out to Affordable Housing and START to subsidize operational and capital expenditures. Finally, the repayment of interfund payables is not budgeted as a transfer.

TOWN OF JACKSON, WYOMING

Adopted Budget
For the Fiscal Year Ending June 30, 2026

FIVE – YEAR CAPITAL IMPROVEMENT PROGRAM

WHAT IS THE CAPITAL IMPROVEMENT PLAN DEVELOPMENT PROCESS?

Assign Project Titles
· Make the title descriptive of the work.
· The title of the project should be based on the problem to be solved at a location, rather than titling based on the solution.
· Group projects in a meaningful way within each department. A project title of Boomerang Improvements won't work if it includes everything from the kitchen sink replacement to the cart path overlay. It is a judgment decision.

Formulate Project Descriptions
· Include the target activities to be completed each year on the project. This should be a brief statement of the work that will be performed and its location.

Formulate Project Cost Estimates
· The costs of each project are broken down into any of the following categories:
    Land Acquisition
    Planning/Design/Construction
    Vehicles/Equipment/Furnishing

Document Project Justifications
The following should be considered:
· Reason the project is necessary
· Related projects
· Coordination efforts required with other agencies
· Mandates and deadlines for compliance
· Service Impact
· Revenues that could be generated as a result of the project
· Community goal references
· Safety requirements.

Document Operating Impact
Projects are not accepted for consideration without operating impact statements. Record the initial operating costs in the year they will most likely occur. It will be assumed that the costs will continue from that point on, unless information is provided otherwise.

Unfunded Projects:
· All projects not funded are placed on an unfunded list.

Present product to the Town Council for review and final consideration
· Five-year funded Capital Improvements
· Ranked list of unfunded needs.

HOW DOES THE CAPITAL IMPROVEMENT PROGRAM IMPACT THE OPERATING BUDGET?

All capital improvement projects are required to show the operating budget impact at the time the projects are submitted for consideration in the Capital Improvement Program. This includes the number of full time equivalent positions that would be needed or could be eliminated and the cost or savings for salaries/benefits, supplies/services, and equipment. It would not be prudent to make funding decisions in favor of a project the Town could not afford to maintain, staff, or provide equipment for.

Capital improvements can impact the budget by increasing or decreasing revenues and expenditures. Revenues could be increased if the improvement attracts new businesses (building permits, sales tax, and property tax). The improvement could also increase expenditures. Perhaps an expansion requires new employees, additional maintenance services, or additional utility costs. Construction of a new street may require additional costs for police patrol services, snow and ice removal, or street light utility costs. Perhaps new technology could make the operation of a plant more efficient resulting in a reduction in power costs, utility costs, and personnel costs (reduction in overtime or man-hours).

Many projects are associated with an avoidance of future costs that are difficult to measure. The cost of maintenance should not exceed the benefit of the asset. The priority for available capital project funds has been to lengthen the lives of existing facilities and infrastructure. Most of the Town of Jackson's projects fall into this category.

HOW IS CITIZEN INPUT INCORPORATED IN THE CIP DEVELOPMENT PROCESS?

The citizens are involved in the capital improvements plan through participation at council meetings, and through citizen boards, commissions, and participation in public meetings, work sessions and public hearings.

Participation in Citizen Boards and Commissions:

Several disciplines within the Town have a citizen board or commission that helps to identify and prioritize needs within their scope of interest. These priorities are reflected in the department head numeric ranking of the project when it is initially submitted for consideration. The citizen boards and commissions are particularly influential with regard to the addition of a project to the plan and the priority it has within the scope of needs for the community.

Participation in Public Meetings:

Each year in the spring, a workshop is held to inform the Town Council and all interested citizens about the proposed budget for the year. A session within this workshop is devoted to capital improvements. Since annual appropriations are required by statute, one required public hearing is held in conjunction with the operating budget each year. Capital improvements typically represent 20% of the total budget and are considered carefully.

Beyond participation in boards and public meetings, the Town makes a considerable effort to inform the citizens through various publications, news releases, and the Town's website.

HOW IS THE CAPITAL IMPROVEMENT PLAN FORMULATED?

The following time line is a specific listing of the steps used to develop the Capital Improvement Plan:

December: The Finance Department distributes "CIP Budget Request Instructions" along with prior year submissions.

July: Existing projects roll forward one year. There is also dialogue reminding departments about the general philosophies mentioned earlier in this discussion. Each project is evaluated by the department head. New projects are then submitted to the Finance Department and entered into the database along with updates or changes to existing projects.

April: The Budget staff finalizes the plan by shifting funding priorities as necessary and incorporating new projects, particularly in years six through ten. The Town manager determines the overall budget recommendation.

May: Work sessions are held to consider budget issues (for operating and for capital improvements).

June: The first and second public hearings are held, and the budget is appropriated.

HOW IS THE CAPITAL IMPROVEMENT PROGRAM FINANCED?

In analyzing the financial viability of the capital improvements in the 2026-2030 plan the Town has three basic choices for methods of financing: pay-as-you-go, joint power agreement development authority capital leasing, and debt financing. The following sources provide revenue for the three financing methods.

General Fund revenues, such as sales taxes, local government aid, and service charges use current revenues to finance capital outlays. Annually, the General Fund transfers a portion of the 5th cent to capital project funds for a variety of capital projects, which may include other funding sources.

Two Internal service funds accumulate resources for regularly planned equipment purchases through rental charges to various divisions within benefiting funds. The Central Equipment Fund reduces the impact of large equipment purchases on annual divisional expenditures by essentially amortizing the cost of such equipment to the division through rental charges. The rental charge also includes a small inflation factor to provide for the future replacement of that item. The IT Services Fund functions essentially in the same manner by purchasing and leasing computer related equipment.

Enterprise fund revenues, which are derived from user charges, are used to finance capital improvements and equipment necessary for delivering a specific service. Additionally, accumulated revenues in enterprise funds can be transferred to other funds to provide financing for capital asset acquisitions.

Specific purpose excise taxes (SPET) is major source of revenue for funding voter approved projects. The Town currently has four SPET project funds open: 2014, 2016, 2019, and 2022.

Debt issuance is used to finance large capital improvements. Revenue bonds and Rural Water Development notes can or are used to finance improvements to the Town's water and sewage utilities.

Federal and state grants provide funding for various capital improvement projects. Currently, the town receives so-called "over-the-cap" aid payments, which are currently used for capital expenditures. Other sources come from grants, donations, reserves, and other governmental units that share boundaries.

TOWN OF JACKSON, WYOMING

Adopted Budget
For the Fiscal Year Ending June 30, 2026

APPENDIXES

Financial Management Polices

Budgetary Practices

Each department prepares its own budget for review by the Town Manager. The budget is approved by resolution of the Town Council at an advertised public hearing. By Town Municipal Code, the operating and capital budgets (together, the "budget") are recommended at the divisional level.

During the year, it is the responsibility of the Town Manager to administer the budget. The Town Manager can propose amendments to the Town Council for the current budget. The Town will strive to adopt an annual General Fund budget in which expenditures, net of one-time expenditures, do not exceed projected recurring revenues. As a management policy, budgetary control is maintained in all funds at the program level by Department Directors.

Budget Process

Overall, the budget process takes approximately five months, ending in June with adoption of the budget for the following fiscal year beginning on July 1. The process begins each January with the Town Council reviewing/establishing the goals upon which the Town's budget will be built. In January, the Town Council, Town Manager and staff meet at a mid-year retreat, during which town-wide goals are discussed and re-affirmed. In February, every department submits its budget to the Finance Department for compilation and eventual review by the Town Manager. From March through April, the Town Manager carefully reviews, evaluates and prioritizes each department's budget submissions for new and additional services, positions, capital projects and supplemental budget requests. During this time, the Finance Department provides the Town Manager with support in studying the revenues and expenditures for the upcoming fiscal year. Typically in March-April, the Town Manager and Finance staff meet with each department in order to conduct a final review of their respective budgets and to resolve any final details. Once all the final issues are decided by the Town Manager, the Finance Department begins to prepare the recommended budget document. The recommended budget is brought forth to the town council by May 15th of each year. At which time the Town Council may direct any revisions to the Town Manager's recommended budget. The Town Council approves the budget at an advertised public hearing in June.

DRAFT FY 2026 Budget Schedule (updated 1/31/2025)

Action	Date
Budget instructions given to departments	January 10, 2025
Budget request are due from Departments to Finance Director	February 20, 2025
Presentation of consolidated budget requests to Town Manager	February 21, 2025
Town Manager reviews all budget requests and meets with Town Directors	March 4 - March 7, 2025
Joint Department Submissions Due (Town and County)	March 3, 2025
Town Manager reviews all budget requests and meets with Joint Department Directors	March 13, 2025

Newspaper publication of recommended budget sent to paper by 3:00 PM	May 14, 2025
Budget Summary Appears in paper	May 21, 2025
Budget Workshop (if needed) - Final Council Edits	
Public Hearing and adoption of final budget	June 16, 2025
Copy of newspaper advertisement sent to state audit department	June 16, 2025
Publication and distribution of formal budget document	July 31, 2025

Basis of Budgeting

Budgets for all Governmental Funds (e.g., the General Fund) are prepared on a modified accrual basis. Briefly, this means that obligations of the Town are budgeted as expenditures, but revenues are recognized only when they are measurable and available.

The proprietary funds (for example Water Utility) also recognize expenditures as when a commitment is made. Revenues, however, are recognized when they are obligated to the Town. As an example, revenue from the sale of water is recognized when the service is provided.

In all cases (Governmental and Proprietary Funds), appropriations lapse for goods and services that are not received by year-end. The Annual Comprehensive Financial Report (ACFR) shows the status of the Town's finances on the basis of generally accepted accounting principles (GAAP). In most cases this conforms to the way the Town prepares its budget. Exceptions are as follows:

a. The compensated absences liability is accrued as an expense when earned by employees (GAAP) as opposed to being expended when paid (budget). Currently, the Town pays any accrued compensated absences on an annual basis.

b. Principal payments on long-term debt within the proprietary funds are applied to the outstanding liability on a GAAP basis, as opposed to being expended on a budget basis.

c. Capital outlay within the proprietary funds are recorded as assets on a GAAP basis and expended on a budget basis.

d. Depreciation expense and pension liability adjustments are recorded on a GAAP basis only.

e. Sales of land held for resale are recorded as a gain or loss (GAAP) as opposed to revenue when the land is sold (budget).

f. Purchases of land held for resale are recorded as assets on a GAAP basis and expended on a budget basis.

Capital Improvement Program practices:

Along with the operating budget, the Town Manager submits a Capital Improvement Program (CIP) to the Town Council. The CIP provides information on improvements to the Town's public facilities for the ensuing fiscal year and four years thereafter. The first year of the plan establishes a capital budget for the new fiscal year. The remaining four years serve as a guide for use in determining the long-term capital priorities of the Town. The CIP is recommended at the department level. CIP expenditures are accounted for in a variety of funds including, but not limited to, the Capital Projects Funds and the Enterprise Funds and are funded by a variety of sources. The Town strives to maintain a high reliance on pay-as-you-go financing for its capital improvements in order to maintain debt within prudent limits.

Cash Management/Investment Practices

The majority of unrestricted cash is combined into one pooled operating account to facilitate effective management of the Town's resources.

The Town Treasurer (Finance Director) invests temporarily idle funds in accordance with Wyoming Statutes (W.S. 9-1-416 and W.S. 9-4-831). The Town's investment policy, as adopted by the Town Council is slightly more restrictive. Permissible investments include obligations of the U.S. Government, Federal Agencies, Government Sponsored Enterprises Medium Term Notes, Certificates of Deposit, Bankers Acceptances; Commercial Paper rated the highest quality by the major national rating services, State of Wyoming State Treasurer's Asset Reserve (WYOSTAR) Investment Fund, Repurchase Agreements, and Money Market Mutual Funds. The provisions of W.S. 9-4-820 and 9-4-821 require that banks and savings and loan institutions collateralize all deposits of public funds. The Town of Jackson also requires collateralization of time deposits and repurchase agreements. Banks and savings and loan associations are authorized to use any of the investments as specified in W.S. 9-4-820 and 9-4-821 as collateral. In order to anticipate market changes and provide a level of security for all funds, the collateralization level will be 105% of the market value of principle and accrued interest. Collateral will always be held by a third party. Clearly marked evidence of ownership (safekeeping receipt) will be supplied to the Town of Jackson and retained.

Accounting, Auditing and Reporting Practices

The basis of accounting within governmental fund types used by the Town is modified accrual. Under this method of accounting, revenue is recorded when susceptible to accrual, which is when both measurable and available for the funding of current appropriations.

Further, expenditures are recognized when the related fund liability is incurred. Under the modified accrual basis of accounting, principal and interest on long-term debt are recorded as fund liabilities when due. All enterprise and internal service funds follow the accrual basis of accounting. Under this method of accounting, revenues are recognized when earned and expenses are recorded when incurred.

The Town places continued emphasis on maintenance of an accounting system that provides strong internal budgetary and accounting controls. It is designed to provide reasonable assurances for both the safeguarding of assets against loss from unauthorized use or disposition, and the reliability of financial records for preparing financial statements and reports, such as the budget and the Town's ACFR, as well as the maintenance and accountability of assets.

The Town of Jackson issues an ACFR in accordance with generally accepted accounting principles outlined by the Governmental Accounting Standards Board.

An independent audit of the Town's ACFR is performed annually.

Revenue and Expenditure Policies

The Town will strive to adopt an annual General Fund budget in which expenditures, net of one-time expenditures, do not exceed projected recurring revenues.

A five-year financial planning model, including revenues and expenditures, is prepared annually for all major funds to provide strategic perspective to each annual budget process.

On an annual basis, the Town will evaluate/set fees and rates at levels that fully recover total direct and indirect costs.

If new budget appropriation needs are identified at an interim period during the fiscal year, at the department level, formal budgetary authority will be requested from the Town Council.

When making appropriations, the Town will budget in a manner that uses the most allowable restrictive resources first.

Capital Financing and Debt Management Policies

Long-term borrowing will not be used to finance current operations or normal maintenance.

All debt issued, including use of the lease-purchase method, will be repaid within a period not to exceed the expected useful lives of the improvements financed by the debt.

The Town will strive to maintain a high reliance on pay-as-you-go financing for its capital improvements.

The Town will maintain a minimum unreserved fund balance in the General Fund of 25 percent of General Fund budgeted expenditures and recurring transfers.

Annually, a five-year budget will be developed analyzing all anticipated operating and capital expenditures by year and identify associated funding sources.

RESOLUTION 25-18, APPENDIX A
FEE SCHEDULE, EFFECTIVE JULY 22, 2025

This Schedule excludes Water, Sewer, and Capacity Fees found in Title 13

Business License		**$ Current Fee**
5.16.010	**Sales Tax Collecting**	
	less than 10 employees	133.00

Planning Permit	$ Current Fee
Fee Waiver	
The Town Council may reduce, defer, or waive application fees upon request if the proposed project advances significant community goals, which include but are not limited to, the following:	
1. A project that is sponsored by a governmental entity, or a project that received public funding.	
2. A project that provides extraordinary charitable, civic, educational, or similar benefits to the community.	
Such requests shall be submitted, for action by the Town Council, to the Planning Director within 30 days of receipt and prior to the submittal of an application. All requests shall be made prior to initiating a project as set forth in LDR Division 5100.	
Fees are non-refundable once processing has commenced unless staff has determined that the permit is unnecessary.

** Actual costs include administrative and overhead costs.	

Plumbing Permits		**$ Current Fee**
15.24.030	**Plumbing and Fuel Gas Permits**	
	For issuing each permit	56.00
	For each plumbing fixture on one trap or set of fixtures on one trap (including water, drainage piping and backflow protection)	18.00
	For each building sewer and trailer park sewer	29.00
	Rainwater systems – per drain (inside building)	18.00
	For each water heater and/or vent	18.00
	For each gas-piping system of one to five outlets	18.00
	For each additional gas-piping system outlet, per outlet	6.00
	For each industrial waste pretreatment interceptor including its trap and vent, excepting kitchen type grease interceptors functioning as fixture traps	18.00
	For each installation, alteration or repair of water piping and/or water treating equipment, each fixture	18.00
	For each repair or alteration of drainage or vent piping, each fixture	18.00
	For each lawn sprinkler system on any one meter including backflow protection devices	18.00
	For atmospheric-type vacuum breakers not included in Item #10:	1.00
	1 to 5 each	18.00
	over 5 each	6.00
	For each backflow protective device, other than atmospheric-type vacuum breakers:	
	2 inch diameter and smaller	18.00
	over 2 inches in diameter	29.00
	Install Hydronic Heating- up to 1000 sq. ft	25.00
	Install Hydronic Heating- 1001 sq. ft. - 2500 sq. ft	39.00
	Install Hydronic Heating- 2501 sq. ft. - 5000 sq. ft	56.00
	Install Hydronic Heating- 5001 sq. ft. and over	85.00
	For each Fire Sprinkler System	18.00
	Inspections	
	Inspections outside normal business hours	113.00/hr
	Re-inspection fee	85.00/hr
	Inspections for which no fee is specifically indicated	85.00/hr
	Additional plan review required by changes, additions, or revisions to approved plans (minimum charge 1 hour)	113.00/hr

Flood Damage Prevention		**$ Current Fee**
15.30.110	**Floodplain Development Permit**	
	Non-refundable Application Fee	53.00
	Scale of project is determined by the Floodplain Administrator and examples of projects are included in the application:	

	Small Scale	317.00
	Large Scale	794.00
	Floodplain Map Revision (CLOMR and LOMR) Application	1,271.00
	Permit Revisions: half the cost of the original permit	
	Variance Application	794.00
	No Fee Specifically Indicated	155.00/hr
	Compliance Fees: Two times the regular fee (Failure to obtain permit prior to commencing the work - not including Emergency Waiver)	
	Third Party Technical Review	Actual Cost

GLOSSARY OF TERMS

ADOPTED BUDGET
This is a financial program forming the basis for fiscal year appropriations as adopted by the Mayor and Town Council. The adopted budget contains both the annual operating and capital budgets.

APPROPRIATION
Legal act authorization to make expenditures and incur obligations for specific purposes. Appropriations are limited in amount and time they may be expended. Total appropriations include the original adopted budget and any supplemental adjustments made throughout the year, hence the Amended Budget.

BUDGET MESSAGE
A written explanation of the budget and the Town of Jackson's financial plan and priorities presented by the Town Administrator to the Mayor and Council.

CAPITAL IMPROVEMENT PROGRAM (CIP)
A long-term budgeting and planning tool through which needed capital projects are identified, evaluated, prioritized, priced, and discussed.

CAPITAL PROJECT
The acquisition, creation, or extension of the useful life of a fixed asset that has a life expectancy greater than one year and a monetary value greater than $10,000, such as a police car, land, or public building. Major repair or renovation of an existing asset and general planning and design activities are also considered capital projects under certain circumstances.

CAPITAL PROJECT FUND
A governmental fund type used to account for the financial resources to be used for the acquisition or construction of major capital assets, other than those financed by the enterprise funds.

CHARGES FOR SERVICES
Charges or fees established to recover part or all of the costs incurred in the provision of services. These charges are based on the

philosophy that the recipient of the benefits should pay for the services. These are also referred to as user fees.

DEBT SERVICE FUND
A Fund established to accumulate resources to retire external debt, such as bonds.

DEFICIT
A negative change in fund balance or working capital is referred to as a deficit (expenditures and other uses exceed revenues and other sources).

ENTERPRISE FUND
A fund established to account for operations that are financed and operated in a manner similar to private business enterprises. Enterprise funds are usually self-supporting. The Town of Jackson has two enterprise funds, the Water Utility Fund and the Sewage Utility Fund.

FISCAL YEAR
A twelve-month period that determines the time frame for financial reporting, budgeting, and accounting. At the end of the fiscal year, the financial position and results of operations are determined. The Town of Jackson's fiscal year is July 1 to June 30.

FULL-TIME EQUIVALENT (FTE)
Used to denote the number of person hours necessary to fill a permanent position. A full-time position is normally 40 hours per week for the entire fiscal year and is designated as 1.0 FTE. A 0.5 FTE may be a half-time position for the entire year or a full-time position to begin or end in the middle of the year.

FUND
A fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, that are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

FUND BALANCE
The difference between assets and liabilities, accounted for on a modified accrual basis, reported in a governmental fund.

FUND TYPE
Governmental fund types include the general fund, special revenue funds, debt service funds, capital project funds, and permanent funds. Proprietary fund types include enterprise funds and internal service funds. Fiduciary fund types include pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. The Town of Jackson adopts a budget for the General Fund, Special Revenue Funds, Capital Project Funds, and Enterprise Funds.

GENERAL FUND
The general fund is the operating fund of the Town of Jackson. The General Fund accounts for all financial resources except for those required by law or management necessity to be accounted for in another fund.

INTERNAL SERVICE FUND
This proprietary fund type provides services to other funds on a cost reimbursement basis.

INTERFUND TRANSFER
The flow of assets from one fund to another fund to finance activities without a requirement for repayment.

LEGAL DEBT LIMIT
The maximum amount of general obligation debt allowed under Wyoming State statutes. The current limit is four percent of total assessed valuation.

LEGAL LEVEL OF BUDGETARY CONTROL
The level at which a government's management may not reallocate resources without specific approval from the legislative body. The Town of Jackson's legal level of budgetary control is at the divisional/departmental level.

LOCAL OPTION SALES TAX (5TH-CENT SALES TAX)
The 1% county-wide sales tax has been made "permanent" by both Teton County and the Town of Jackson. Although proceeds from this tax are completely unrestricted, the Town of Jackson has designated a portion of the tax for capital expenditures. An annual transfer is made from the General Fund to the Capital Projects Fund. This tax is split with the county based on latest Census count.

LODGING TAX – GENERAL
The 10% portion of the voter-approved levy on hotels/motels/lodges that can be used for expenditures incurred for any purpose. The levy began on April 1, 2011, will be in effect for four years, and is distributed based on point-of-sale.

LODGING TAX – VISITOR IMPACT
The 30% portion of the voter-approved levy on hotels/motels/lodges that can only be used for expenditures incurred to provide services for visitors. The levy began on April 1, 2011, will be in effect for four years, and is distributed based on point-of-sale.

NET OPERATING EXPENDITURES
As defined by policy for the General Fund – total expenditures plus the recurring transfers-out to the Employee Insurance Fund, the START Bus System Fund, and the Public Works Shop Fund.

NET OPERATING REVENUE
As defined by policy for the General Fund – total revenue plus the recurring transfers-in from the Capital Projects Fund.

NET OPERATING SURPLUS
The condition in which net operating revenue exceed net operating expenditures

RECOMMENDED BUDGET
The financial program prepared by the Town Manager and submitted to the Mayor and Town Council for review.

REQUESTED BUDGET

The budget put forth by the various department directors and managers for Town Manager consideration.

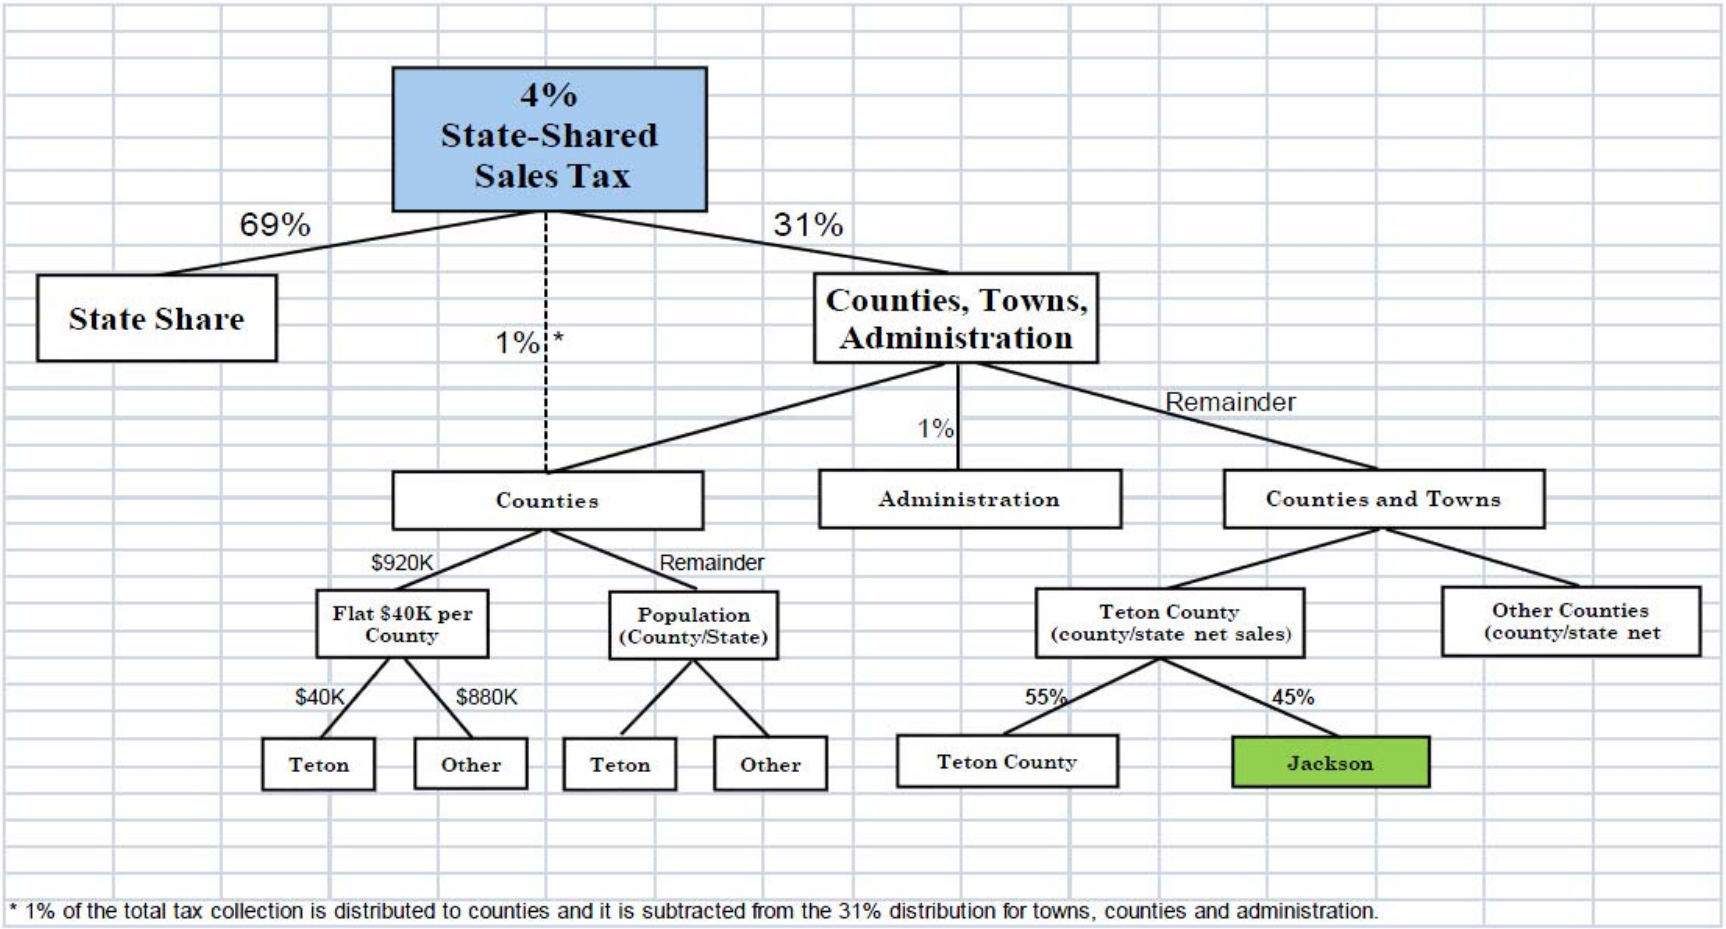
SPECIAL REVENUE FUND

A governmental fund type used to account for the proceeds of specific revenue sources that are legally restricted to expenditure for specified purposes.

SPECIFIC PURPOSE EXCISE TAX (6TH-CENT SALES TAX)

Formally called Capital Facilities Tax, this 1% sales tax requires voter authorization for specific projects as submitted by local governments and non-profit entities. Once all authorized projects have been funded, new projects are submitted for voter authorization.

STATE FOUR PERCENT SALES TAX (4-CENTS SALES TAX)



A 4% sales tax applied by the State of Wyoming and partially shared-back (31%) to counties and municipalities based on population. This tax is split with the county based on latest Census count.

SUPPLEMENTAL BUDGET REQUEST

A financial plan that is presented to the Mayor and Town Council subsequent to the passage of the adopted budget to recognize unexpected needs or to spend unanticipated revenue.

SURPLUS

A positive change in fund balance or working capital is referred to as a surplus (Revenues and other sources exceed expenditures and other uses).

* 1% of the total tax collection is distributed to counties and it is subtracted from the 31% distribution for towns, counties and administration.

RE: REPORT OF ANTICIPATED GEOTECHNICAL CONDITIONS, 910 SMITH LANE, TETON COUNTY, WYOMING
PROJECT NO: 22132

Dear Mr. Long,

We are pleased to present this Report of Anticipated Geotechnical Conditions for the proposed new residences at 910 Smith Lane, in Teton County, Wyoming. This report describes site conditions observed in adjacent properties to the project site and presents engineering analyses and recommendations for future proposed buildings.

In summary, based on our experience in the immediate area, the project site is underlain by sandy gravels and cobbles identified as alluvium, which are expected to be a suitable load bearing layer for the anticipated foundation loads. Groundwater in the area is influenced by seasonal snowmelt and runoff into Flat Creek. Peak runoff is expected in June and fluctuates seasonally. Peak groundwater levels at surrounding sites were observed to be 5-ft to 10-ft below the ground surface.

If you have any questions about this report, or if we may provide other services to you, please contact us. As the project progresses, we will be available to answer questions.

Respectfully submitted,

JORGENSEN GEOTECHNICAL, LLC

1.0 INTRODUCTION

At the request of Toby Long, Jorgensen Geotechnical (JG) proposed to conduct a geotechnical site investigation for the future residences at 910 Smith Lane in Teton County, Wyoming (Figure 1), in two phases. The first phase consisted of reviewing geotechnical observations from past projects surrounding the proposed project site to create this Report of Anticipated Geotechnical Conditions The second phase will consist of excavating and logging exploratory test pits during the demolition process of the existing residence to verify assumed soil conditions presented in the first phase (i.e. Report of Anticipated Geotechnical Conditions) and to observe site-specific soil and groundwater conditions. The scope of services included in phase one involves examining site conditions at two sites adjacent to the project site, performing engineering analyses, providing recommendations to support the design and construction of foundation elements, and furnishing this Anticipated Geotechnical Conditions Report.

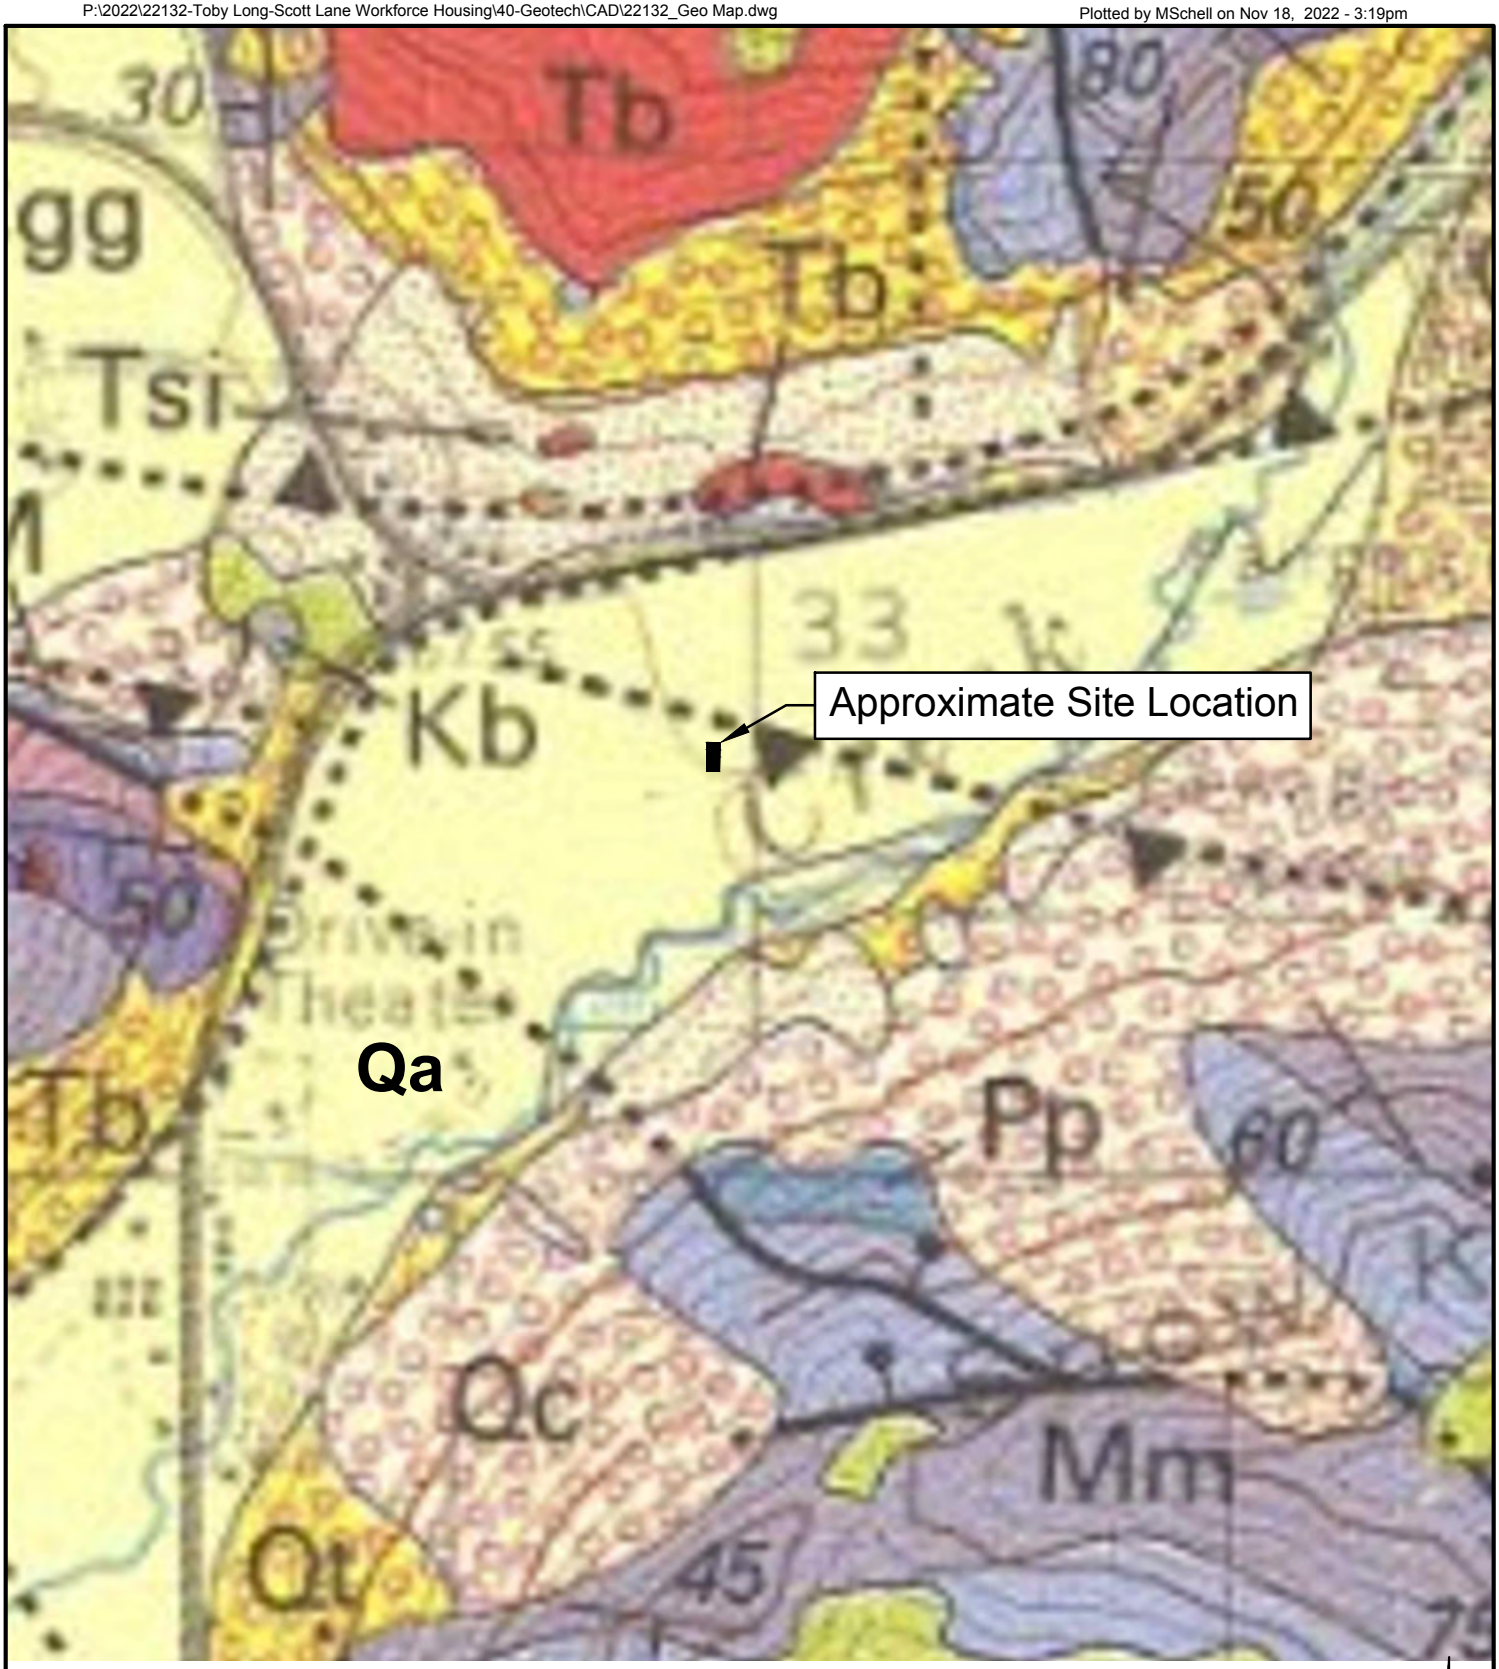
2.0 PROPOSED CONSTRUCTION

Plans provided to Jorgensen Geotechnical by ch x tld dated October 19, 2022, indicate a three-story apartment building which will encompass two lots. The bottom level is designed to be a parking garage while the upper two levels are various sized living units. We assume that the development will comprise modular structures stick-built off site then transported to the site and placed on the foundation system. Hardscapes are anticipated to be stick built onsite and the foundation system for the proposed development will be a combination of slab-on-grade and crawlspace construction.

3.0 INVESTIGATION PROCEDURES

3.1 Field Investigation

No field investigation was conducted during this phase of the project. A geotechnical site investigation (phase 2) will be scheduled in the future following this Report of Anticipated Geotechnical Conditions.



3.2 Report Preparation

This report describes the geologic site conditions and includes a site location and geologic map (Figure 1). The report provides engineering analyses and recommendations for the design and construction of foundation elements associated with the proposed construction.

4.0 SITE CONDITIONS

4.1 Description

Two 0.12-acre parcels are located where Snow King Ave terminates into Maple Way in the town of Jackson, Teton County, Wyoming (Figure 1). The northern property located at 910 Smith Lane, sits at the intersection of Scott Lane and Smith Lane, and the southern property, located at 915 Simon Lane, is at the intersection of Simon Lane and Scott Lane. Both lots are currently occupied by existing single-family residences. The southern edge of this property lies approximately 500-ft north from the bank of Flat Creek, at about 6,160-feet above mean sea level (AMSL), according to the Teton County MapServer. The site is relatively flat and is located on alluvial flood plain deposits. Based on our experience in the area, surrounding properties contain mostly sandy gravel and cobbles with varying small amounts of fine-grained material such as silt and clay.

Map symbols: Qa - Alluvium - stream and river deposits

From Love et. al, Geologic Map of Grand Teton National Park, 1992

DRAFTED BY: MS REVIEWED BY: CHL PROJECT NUMBER 22132	SHEET TITLE: Figure 1 Site Location and Geologic Map	PROJECT TITLE: Anticipated Conditions 910 Smith Lane Teton County, Wyoming	JORGENSEN Geotechnical, LLC 307-733-5150 www.jorgeng.com

4.2 Geology

The site is found on the Geologic Map of the Grand Teton National Park, Teton County, Wyoming (Love, et al., 1992), which is adapted as Figure 1. The map indicates the project site is covered by Quaternary-aged alluvial deposits. Alluvial deposits are described as stream and river deposits and are typically dominated by medium to large cobbles in a sandy matrix. In general, soil observations from sites nearby the project area agree with mapped geology.

Numerous Quaternary (i.e., relatively young and assumed active) faults have been mapped in Western Wyoming (Case, 1997; USGS, 2006), notably, the Teton fault system which lies approximately 7 miles to the northwest of the project, respectively. Slip rates on the Teton fault is estimated to be between 0.2 mm/yr and 1.0 mm/yr. As seen in Figure 1, the project site is surrounded by many older or Class B faults, notably the Jackson and Cache Creek Thrust faults, but these are believed to be inactive or pose little geological threat.

4.3 Soils

In general, previous site investigations in the surrounding area indicate the proposed site is likely underlain by sandy gravels and cobbles ("pit-run"), overlain by several feet of gravelly fill and topsoil. Test pits in these areas were excavated to depths ranging from 12 to 16-feet below the existing ground surface and the cobbles were observed to increase in size and volume with depth. These soils were logged as comprising 70-90% gravel and cobbles with 15-30% of the material consisting of sands with a small percentage of fines. Inconsistent lenses of sand were observed in some of these areas so it is important to note that sandy lenses of material could be present at the project site. Soils will be verified during the proposed phase 2 of the project. Assumed site soils are expected to provide adequate support for the anticipated foundation loads.

Due to the current residences on the project site, it is likely there are undocumented construction fills lain during previous construction. These could include unconsolidated silty or sandy gravels and be several feet thick.

4.4 Groundwater

Due to the project's proximity to Flat Creek, groundwater will fluctuate in response to snowmelt, runoff, and flows in Flat Creek in the spring and summer months. Typically, peak seasonal groundwater levels occur between mid-June and early-July. Groundwater monitoring information from surrounding areas in Teton County (accessed from Womack & Associates and Jorgensen reports) indicate peak groundwater levels ranged anywhere from 5-ft to 10-ft below ground surface (bgs). We assumed 4-ft bgs for engineering calculations. It is prudent to assume these past values do not represent the highest possible groundwater levels. For planning and design, we suggest assuming water may rise higher than these measured values and act accordingly to keep crawlspace areas and parking structures dry. We recommend any water-sensitive mechanical equipment to be placed above ground.

Depending on the time of year construction begins, dewatering may be required to prevent the subgrade soils from "pumping" during compaction and enable them to be compacted to a non-yielding condition. Dewatering operations, if employed, should lower the water level to a minimum of 2-ft below the bottom of foundation excavation. Alternatively, to avoid dewatering, earthwork activities should be planned between October and April when water levels are predicted to be lower.

4.5 Earthquakes and Seismicity

The project site is located within the Intermountain Seismic Belt, a zone of seismicity that extends from southern Utah through eastern Idaho, western Montana and western Wyoming (Smith and Arabasz, 1991). Predicted recurrence intervals for maximum credible earthquakes have passed for most of the fault systems capable of generating magnitude 7.5 events in western Wyoming (Case, 1997), implying the risk of major earthquakes is relatively high.

Ground motion accelerations should be derived for the project site in accordance with the general procedure defined in the International Building Code (IBC). The IBC references ASCE 7-16 to determine the ground motion accelerations. Based on subsurface soils, mapped geology, and our experience in the area, the site is classified as Site Class D ("Stiff Soil"). For your convenience, Seismic Design Maps (SEAOC, 2019) values are summarized in Table 4-1.

Table 4-1: U.S. Seismic Deign Maps Summary

Maximum Considered Earthquake (MCE) Spectral Response Acceleration Parameters	
Short Period (S_s) = 1.046	
1-Second Period (S_1) = 0.345	
Site Coefficients and Adjusted MCE Spectral Response Acceleration Parameters	
F_a = 1.082	S_{MS} = 1.132
F_v = 1.955	*S_{M1} = 0.674
Design Spectral Response Parameters	
S_{DS} = 0.755	
*S_{D1} = 0.450	

Note: Values for F_v are based on linear interpolation of Table 11.4-2 of ASCE Standard 7-16. Values for $S_{M1,}$ and S_{D1} are calculated from F_v. Per Section 11.4.8 of ASCE 7-16, if the proposed structure foundation will include seismic isolators or damping systems, a site response analysis shall be performed in accordance with Section 21.1 ASCE of 7-16.

The site is in an area of moderate seismic activity. The current peak horizontal acceleration (PGA) with a probability of occurrence of 2% in 50 years is approximately 0.464g (USGS, 2014). This has been applied in this report for the analysis of seismic lateral loading on retaining walls (Section 5.3).

The provisions of the IBC are intended to provide uniform levels of performance for structures depending on their occupancy and use and the risk inherent to their failure. The approach adopted in the IBC is intended to provide a uniform margin of safety against collapse at the design ground motion. The design earthquake ground motion is selected at a ground shaking level that is 2/3 of the maximum considered earthquake (MCE) ground motion, which has a likelihood of exceedance of 2% in 50 years (corresponding to a return period of about 2,500 years). The owner should be aware that the IBC is not intended to prevent damage or loss of function during a major earthquake; it is intended to reduce the risk of loss of life. Structural design should follow the level of risk tolerable to the owner.

4.6 Geologic and Geotechnical Hazards

In our opinion, the most significant geologic hazard to the project site is its close proximity to the Teton Fault system, which is roughly 7 miles to the northwest of the project site. The owner should be aware that in the event of a large magnitude earthquake, strong ground shaking and ground cracking could potentially cause damage to structures (Smith et al., 1993). The owners may wish to consider the option of carrying earthquake insurance in addition to homeowner's insurance. However, the distance from any Quaternary (i.e., relatively young) faults implies surface rupture at the project site is unlikely to occur.

Loose, saturated sands and silty sands, and in some cases, silts and gravels may liquefy when exposed to seismic shaking. The gravels and cobbles observed throughout adjacent sites are unlikely to liquefy in a seismic event. Liquefaction, if it were to occur, could cause differential settlement, particularly if a structure is placed partially on sand or undocumented fills, and partially on stony alluvium. However, liquefaction is unlikely to cause lateral spreading, which is major slope movement commonly responsible for catastrophic damage during earthquakes, at this relatively flat site.

5.0 ENGINEERING ANALYSIS

5.1 Settlement

Significant consolidation (e.g., greater than 1-inch total settlement or 0.5-inches differential settlement) of the anticipated stony alluvial deposits is not anticipated. Sandy topsoil and all construction fills shall be completely removed from under foundation elements. Foundation elements should be placed in direct contact with the underlying stony alluvium or compacted structural fill. If additional lenses of loose sand, fine-grained material, or fill are observed within the stony material, they should be removed and replaced with approved structural fill or native stony alluvium and compacted following the recommendations of Section 6.4.

5.2 Bearing Capacity

Bearing capacity of soil refers to its ability to resist shear failure under load. It is assumed any overlying topsoil will be removed, and footings will be placed directly on compacted native alluvium or imported stony fill. Compaction methods and specifications are discussed in Section 6.4. Soil parameters were derived based on assumed soil conditions and established empirical estimates (CANMET, 1982). The bearing capacity of the gravel and cobble alluvium was estimated using Terzaghi's bearing capacity equation for isolated strip footings (Bowles, 1996). Allowable bearing capacity is estimated to be 6,000 psf for approved foundation soils, assuming that topsoil and any other deleterious materials are removed prior to fill placement (if required).

Soil bearing capacity is dependent not only on the soil strength, but also geometry of the foundation elements and peak groundwater levels. The estimate above assumes 2-ft wide strip footings placed a minimum of 3-ft below final grade, with groundwater levels at 4-ft bgs (conservatively estimated as the highest observed groundwater level at nearby sites, and the proximity of the project site to Flat Creek). If footing size and depth differs remarkably from these assumptions, this office should be notified to evaluate if the soil will support the proposed loading. It is often the case that heavily loaded, isolated footings may be optimized (i.e., made smaller) using a larger bearing capacity, thereby reducing the quantity of concrete. Please contact Jorgensen for an evaluation.

5.3 Lateral Loads on Foundation Walls

Lateral pressures were calculated using methods suggested by Bowles (1996). Lateral pressures were calculated for at-rest, active, and passive conditions presented in Table 5-1. These values assume native or imported stony material (e.g., "pit-run") will be used as backfill. We have assumed an estimated internal friction angle of 35° and a unit weight of 135 pcf based on visual classification of the soils. Calculations assume level backfill against foundation walls or retaining walls.

Table 5-1: Lateral Pressure Parameters for Native Stony Site Soils

Condition	Coefficient of Earth Pressures	γK (equivalent fluid pressure)
Static Conditions		
Level Backfill	K_o = 0.43	58 pcf
	K_a = 0.27	37 pcf
	K_p = 3.69	498 pcf
Earthquake Conditions		
Level Backfill	K_{ae} = 0.42	57 pcf
	K_{pe} = 3.21	433 pcf

5.3.1 Active Pressures

For lateral pressure design of retaining walls, which are allowed to deflect and develop an active soil wedge, the calculated equivalent fluid pressure (γK_a) is 37 pcf (pounds per cubic foot). This pressure distribution would be equivalent to a force of approximately $18.5H^2$ pounds per horizontal foot of wall acting at one-third the wall height (H) above the base.

Lateral pressures on retaining walls from earthquakes were estimated using the Mononobe-Okabe equations (Bowles, 1996; Duncan et al., 1990). Because the maximum accelerations occur only briefly during an earthquake, it is common practice when designing dams and other earth structures to reduce the design acceleration to ½ of the maximum design accelerations (Hynes-Griffin and Franklin, 1984) Thus, we have calculated seismic lateral pressures using a horizontal acceleration k_h of 0.232g (½ of k_h max) per the USGS (2014).

Research has indicated that lateral pressures due to earthquakes are non-hydrostatic in distribution, and the resultant acts above the lower third-point of the wall (Baker, et al., 1990). Accordingly, active soil pressures must be divided into two components that act at different wall heights. The static force acts at the lower third-point, as discussed above. The resultant force from seismic lateral pressures is applied at 60% of the wall height above the base with a magnitude equal to the difference between seismic and static active pressures; i.e., ½ (γK_{ae} - γK_a)H^2 or $10H^2$ pounds per horizontal foot wall applied.

5.3.2 At-Rest Pressures

For lateral pressure design of basement walls, which are restrained and not allowed to deflect, the calculated equivalent fluid pressure (γK_o) is 58 pcf. Design control of such walls shall be whichever generates the higher resultant force: at-rest pressures or active seismic pressures.

5.3.3 Passive Pressures

For passive pressure design, the calculated equivalent fluid pressure (γK_p) is 498 pcf, assuming a horizontal ground surface adjacent to the wall and reduced to 433 pcf for seismic conditions. Passive pressure design should neglect loose fill and soil located within the frost.

5.4 Soil Friction

Terzaghi et al. (1996) suggests the use of internal strength of the soil for the friction angle along a concrete base in granular soils, with a maximum value of 30°. Accordingly, a friction value of 0.58, which is the tangent of 30°, is suggested if foundations elements are founded on native stony alluvium or imported stony fill. The friction value may be combined with the passive pressure to resist horizontal loads.

6.0 RECOMMENDATIONS

6.1 Foundations

In our opinion, the existing native stony alluvium, consisting of sandy gravels and cobble, is likely to provide adequate support for anticipated foundation loads. We recommend the building foundation systems be placed entirely on native stony material or compacted structural fill consisting of imported "pit-run" or re-compacted stony site soil. Topsoil, any additional fine-grained alluvial soils, or previously imported fill should be entirely removed from below foundation elements. Over-excavation under footings shall extend to competent stony soils and a minimum of one footing width beyond the edges of the footing.

The building code for Teton County requires that footings be placed at a minimum depth of 34 inches from finished grade, with a minimum foundation exposure of 6 inches above finished grade. Minor cracks in the foundation walls, floor slabs, and sheetrock are normal and should not be a cause for concern. A structural engineer should review the plans to check that adequate lateral restraint is provided to foundation walls by the floor joists.

6.2 Site Preparation

Prior to the placement of structural fills or foundation elements, the site should be cleared and stripped of topsoil, organic debris and any roadbase or other previously undocumented fill. No brush, roots, frozen material, or other deleterious or unsuitable materials shall be incorporated in the foundation subgrade or structural fill. We recommend the foundation bear directly on the native sandy cobble alluvium or an approved structural fill comprising recompacted native stony soils or imported "pit-run". If unexpected fills or obstructions are encountered during site clearing or excavation, such features should be removed and the excavation thoroughly cleaned prior to backfill placement and/or construction. All exposed subgrade surfaces should be free of mounds and depressions which could prevent uniform compaction. All excavations should be inspected by representative of Jorgensen prior to fill or concrete placement, especially if questionable materials are exposed.

During excavation for the foundation footings, removal of large cobbles may disturb and loosen the surrounding material. All disturbed areas should be compacted with a smooth-drum vibratory roller, in vibratory mode with a minimum of three passes, prior to placement structural fill and footing construction. The actual number of passes should be determined by observing whether the surface is yielding after each pass. If the surface appears to be yielding, the number of passes should be increased until a non-yielding condition is observed and approved by Jorgensen.

As discussed in Section 4.4, depending on the time of year construction begins, groundwater levels may be at or near the bottom of footing elevation making compaction difficult, if not impossible. Dewatering efforts may be required to compact the alluvial soils to a non-yielding condition. If employed, dewatering operations should be able to lower the water level to at least 4-ft below the bottom of the excavation in order to reduce the possibility of pumping during fill placement.

6.3 Excavation and Cut Slope Stability

OSHA regulations (29CFR1926) appear to classify the alluvium as Type C soil. Simple cut slopes should be no steeper than 1.5H:1V. These are recommendations based on observations made at the time of the investigation. The contractor shall be responsible for adherence to OSHA and other safety regulations based on soil and groundwater conditions at the time of construction.

6.4 Final Backfilling and Grading

Properly compacted backfill and site drainage are important. Stony fill (e.g., site-derived sandy gravel and cobble alluvium or imported "pit-run") will compact into a dense, strong, well-draining engineered fill, and strict moisture control is usually not required, making it a preferred alternative for many contractors for exterior backfills, utility trenches, and subbase under interior and exterior slabs. However, compaction testing with a nuclear density gauge is usually problematic due to the presence of large stones. Therefore, we recommend compacting stony fills using a **method specification**, for which Table 6-1 provides initial guidelines.

Table 6-1: Compaction Parameters for Stony Fill

Compactor Type	Lift Thickness	Maximum Particle Size	Minimum Number of Passes*
5-ton vibratory	12 inches	9-inch**	3
1.5-ton vibratory	9 inches	6-inch	5
Hand-held	4 inches	4-inch	5

*The actual number of passes should be determined by observing whether the surface is yielding after each pass. If the surface appears to be yielding, the number of passes should be increased until a non-yielding condition is observed.

** Occasional clasts to 12-inch are permitted, if encountered, but should not be nested.

The method specification may be established as follows:

- The contractor will place fill in loose lifts no greater than specified in Table 6-1 for whichever class of compactor is used.
- Fill will be compacted with the *minimum* number of passes specified in Table 6-1. The actual number of passes should be determined by observing compaction after each pass to determine if the surface is non-yielding. If the fill surface appears to be yielding, the number of passes should be increased until a non-yielding condition is observed.
- Once the number of passes is determined, this **method** (unique to the material type, compactor, lift thickness, and number of passes) may be continued for the rest of the project as long as fill material properties and subgrade soil conditions remain the same.

It is important to establish a method specification as early in the construction as possible and apply it consistently for the entirety of the project. Jorgensen should observe lift thickness, number of passes, and equipment used during compaction. Additional guidance on construction observations may be found in Section 6.9.

Exterior backfills should be placed as early as possible. Do not over-compact exterior backfills against "green" foundation walls. Utility trenches should also be backfilled in lifts and lightly compacted. The stony soils will require a vibrating smooth-drum roller or vibratory plate (i.e., hoe-pack or "jumping jack") for compaction.

6.5 Interior Slabs-on-Grade

Interior slabs should be at least 4 inches thick, and any slabs bearing vehicles should be at least 6 inches thick, or as approved by a Structural Engineer. Minor floor cracking of slab-on-grade construction is difficult, if not impossible, to prevent. Such cracking is normal and should be expected to occur with time.

Buildings are almost never free of cracks, and cracking is caused by many factors other than soil movement, such as concrete shrinkage or curling, or daily and seasonal variability in temperature and humidity.

An impermeable layer (usually plastic) is suggested beneath the slab, underlain by 4 inches of clean drain gravel that will act as a capillary break to reduce dampness. Two options are available to reduce the tendency for the concrete to crack or curl as it dries:

1. A blotter layer may be placed under the slab. In the past, loose sand has been used for this purpose, but is no longer recommended. A cover of 4 inches of trimmable, compactible, granular material may be placed over the sheeting to receive the concrete slab. This material usually consists of "crusher run material", which varies in size from about 1.5-inch down to rock dust. Alternatively, 3 inches of fine graded material such as crusher fines or manufactured sand may be used.

2. The blotter layer may be eliminated if the concrete is reinforced properly. If the contractor needs additional guidance on slab reinforcement, a Structural Engineer should provide it.

Three articles from the American Concrete Institute (ACI) that discuss these options are listed in the references section. We are able to offer additional guidance if requested.

6.6 Exterior Slabs-on-Grade

Exterior slabs (e.g., sidewalks, patios, driveways, hardscapes, etc.) typically sustain the greatest damage. Cracking is almost impossible to avoid, and freeze-thaw adds to the difficulty caused by soil movement. Performance of exterior slabs in areas underlain by fine grained materials or fill will be improved by over-excavation and replacement with 6 to 12-inches of road mix gravel (e.g., WYDOT Grading H), or recompacted site material. Prior to placement and compaction of the gravel, the surface of the excavation should be rolled and compacted. The gravel should be separated from the sand using a non-woven separation fabric (e.g., Mirafi 140N).

Exterior slabs should be at least 4 inches thick, 6 inches if supporting vehicles, or as approved by the Structural Engineer. Exterior slabs should not be tied to foundation walls. Any movement of exterior slabs may be transmitted to the foundation walls, resulting in damage. Posts for patios or other exterior columns should not bear on exterior slabs. If the slabs settle or rise, the movement can be transmitted to the post, resulting in damage to the structure. Expansion joints are recommended in all concrete flatwork.

6.7 Crawlspace Ventilation and Radon

There is a slight risk that seasonal groundwater or surface water fluctuations may result in dampness or water entering crawl space areas. Ventilation to reduce moisture and potential accumulation of radon gas is required by code for habited and inhabited spaces below grade. Placing a Class 1 vapor retarder in the crawlspace may reduce ventilation requirements. Care should be taken while installing such a vapor retarder to avoid water overtopping, and subsequently compromising, the system. Evaluation of radon was beyond the scope of work; local codes should be followed and specialty contractors employed, if necessary. A capillary break layer may be necessary to accommodate a radon vent pipe under slabs-on-grade (Section 6.5). The building contractor is ultimately responsible for following building codes.

6.8 Reinforcing, Utilities Testing, and Concrete Considerations

Footings, slabs, and foundation walls should be reinforced to resist differential movement. Consultation with a Structural Engineer to specify adequate reinforcement is suggested. Water and sewer lines should be pressure tested before backfilling. Exterior concrete should contain 5% to 7% entrained air.

6.9 Observation during Construction

Recommendations in this report are contingent upon our involvement. If any unexpected soils or conditions are revealed during construction, this office should be notified immediately to survey the conditions and make necessary modifications. All excavations and foundation subgrades should be observed by a representative of JG prior to fill or concrete placement, especially if questionable materials are exposed. Notice shall be provided at a minimum of 24 hours before the requested observation.

We are able to provide the most value observing site conditions at the following times:

1. Upon completion of site preparation to verify stony alluvial soils have been reached and prepared in accordance with Section 6.2,
2. During the placement of the first couple lifts of structural fill, if required, to observe compaction (i.e., develop a method specification, see Section 6.4), and
3. Once the site has been prepped to the bottom of footing elevation to witness a proof roll with the compactor.

7.0 LIMITATIONS

This report has been prepared based on inherently limited data. Actual site conditions may vary. These services have been performed in a manner consistent with the level of care and skill ordinarily exercised by members of the profession currently practicing under similar conditions. No other warranty is made or implied.

This report is site-specific and has been prepared in support of the proposed project. The report is for the sole use of the current property owner and their design and construction team and shall be considered non-transferable to future property owners without the written consent of Jorgensen Geotechnical. Under no circumstances are the figures and text to be used separately.

8 PROJECT NARRATIVE

THE PROJECT CONSISTS OF 13 WORKFORCE HOUSING UNITS CONSTRUCTED WITHIN A NEW THREE-STORY BUILDING, WHICH INCLUDES COVERED PARKING SPACES ON THE FIRST LEVEL, WITH THE RESIDENTIAL UNITS IN TWO FLOORS ABOVE. THE RESIDENTIAL UNITS WILL BE CONSTRUCTED USING MODULAR CONSTRUCTION METHODS, MINIMIZING DISRUPTION TO THE NEIGHBORHOOD DURING CONSTRUCTION AND ACCELERATING THE PROJECT TIMELINE.

THE ARCHITECTURE REFLECTS A SIMPLE AND ELEGANT MODERN FORM, WITH AN ARTISTIC STRRET WALL AND AND INVITING ENTRY. THE PROJECT MAINTAINS A CONSISTENT AND UNIFORM FAÇADE WHILE THE OVERALL MASSING OF THE BUILDING UTILIZES A SHIFT IN MATERIALS, FAMILIAR TO THE MOUNTAIN MODERN LANGUAGE PROPOSED FOR THIS PROJECT. THE BUILDING WILL BE AN ATTRACTIVE ADDITION TO THE MIDTOWN AREA AND WILL PROVIDE MUCH-NEEDED HOUSING TO THE LOCAL COMMUNITY.

JACKSON DEVELOPMENT

355 SCOTT LANE JACKSON, WY 83001

TOWN OF JACKSON: WILDLAND URBAN INTERFACE

WUI PERMIT #: T-WUI2025-0038
STATUS: APPROVED; IGNITION RESISTANT CONSTRUCTION, IR2
NOTES: 1. AREA FIRE HAZARD IS MODERATE
2. WATER SUPPLY IS CONFOMRING
3. DEFENSIBLE SPACE OF 30 FEET CANNOT BE MET, THEREFORE IR2 = IGNITION-RESISTANT CONSTRUCTION IN ACCORDANCE WITH SECTION 505 IS REQUIRED
4. GC REQUIRED TO PULL WUIC FINAL INSPECTION

6 TOWN WILDLAND URBAN INTERFACE

BUILDING CODE COMPLIANCE (2021 INTERNATIONAL BUILDING CODE)

BUILDING INFORMATION

PIDN:	22-41-16-32-4-05-001				
	22-41-16-32-4-05-011				
SITE AREA:	10,390.26 SQ FT				

CHAPTER 3: OCCUPANCY CLASSIFICATION AND USE:

SECTION 302.1: OCCUPANCY CLASSIFICATION

LEVEL	GROUP	CLASSIFICATION	COMMENTS		
LEVEL 01	R-2	RESIDENTIAL			
LEVEL 01	S-2	ENCLOSED PARKING GARAGE	AS PER SECTION 406.2, 406.4 & 406.6		
LEVEL 02 & 03	R-2	RESIDENTIAL			

CHAPTER 5: GENERAL BUILDING HEIGHTS AND AREAS

TABLE 504.3: ALLOWABLE BUILDING HEIGHT IN FEET ABOVE GRADE PLANE

		ALLOWED	PROPOSED	COMMENTS	
OCCUPANCY CLASSIFICATION	SEE FOOTNOTES	TYPE VA			
S-2	S	70'	10' 1-1/4"		
R-2	S	70'	33' 7"		

S = BUILDING EQUIPPED THROUGHOUT WITH AN AUTOMATIC SPRINKLER SYSTEM INSTALLED IN ACCORDANCE WITH SECTION 903.3.1.1

CHAPTER 5: GENERAL BUILDING HEIGHTS AND AREAS

TABLE 504.4: ALLOWABLE NUMBER OF STORIES ABOVE GRADE PLANE

		ALLOWED	PROPOSED	COMMENTS	
OCCUPANCY CLASSIFICATION	SEE FOOTNOTES	TYPE VA			
S-2	S	5	1		
R-2	S	4	3		

S = BUILDING EQUIPPED THROUGHOUT WITH AN AUTOMATIC SPRINKLER SYSTEM INSTALLED IN ACCORDANCE WITH SECTION 903.3.1.1

CHAPTER 5: GENERAL BUILDING HEIGHTS AND AREAS

TABLE 506.2: ALLOWABLE AREA FACTOR IN SQUARE FEET

		ALLOWED	PROPOSED	COMMENTS	
OCCUPANCY CLASSIFICATION	SEE FOOTNOTES	TYPE VA			
S-2	SM	63,000 SQ FT	4,071 SQ FT		
R-2	SM	36,000 SQ FT	10,657 SQ FT		

SM = BUILDINGS TWO OR MORE STORIES ABOVE GRADE PLANE EQUIPPED THROUGHOUT WITH AN AUTOMATIC SPRINKLER INSTALLED IN ACCORDANCE WITH SECTION 903.3.1.1

5 CODE COMPLIANCE

SECTION R301 CLIMATE ZONES:

WYOMING: 7 TETON

R402.1.2 INSULATION AND FENESTRATION CRITERIA

R402.1.3 R-VALUE ALTERNATIVES:

TABLE R402.1.3 INSULATION MINIMUM R-VALUES AND FENESTRATION REQUIRMENTS BY COMPONENT [a]

CLIMATE ZONE	FENESTRATION U-FACTOR [b]	SKYLIGHT [b] U-FACTOR	GLAZED FENESTRATION SHGC [b,e]	CEILING R-VALUE	WOOD FRAME [c] WALL R-VALUE	MASS WALL [i] R-VALUE	FLOOR R-VALUE	BASEMENT WALL R-VALUE [c,i]	SLAB R-VALUE & DEPTH [d]	CRAWL SPACE WALL R-VALUE
7	0.3 [i]	0.55	NR	60	30 or 20&5ci[c] or 13&10ci or 0&20ci[c]	19/21	38	15ci or 19 or 13&5ci	10ci, 4 FT	15ci or 19 or 13&5ci

NR = NOT REQUIRED
ci = CONTINUOUS INSULATION

a.) R-VALUES ARE MINIMUMS. U-FACTORS AND SHGC ARE MAXIMUMS. WHERE INSULATION IS INSTALLED IN A CAVITY THAT IS LESS THAN THE LABEL OR DESIGN THICKNESS OF THE INSULATION, THE INSTALLED R-VALUE OF THE INSULATION SHALL BE NOT LESS THAN THE R-VALUE SPECIFIED IN THE TABLE.
b.) THE FENESTRATION U-FACTOR COLUMN EXCLUDES SKYLIGHTS. THE SHGC COLUMN APPLIES TO ALL GLAZED FENESTRATION.
c.) "5 ci or 13" MEANS R-5 CONTINUOUS INSULATION (ci) ON THE INTERIOR OR EXTERIOR SURFACE OF THE WALL OR R-13 CAVITY INSULATION ON THE INTERIOR SIDE OF THE WALL. "10 ci or 13" MEANS R-10 CONTINUOUS INSULATION (ci) ON THE INTERIOR OR EXTERIOR SURFACE OF THE WALL OR R-13 CAVITY INSULATION ON THE INTERIOR SIDE OF THE WALL. "15 ci or 19 or 13 & 5 ci" MEANS R-15 CONTINUOUS INSULATION (ci) ON THE INTERIOR OR EXTERIOR SURFACE OF THE WALL; OR R-19 CAVITY INSULATION ON THE INTERIOR SIDE OF THE WALL; OR R-13 CAVITY INSULATION ON THE INTERIOR OF THE WALL IN ADDITION TO R-5 CONTINUOUS INSULATION ON THE INTERIOR OR EXTERIOR SURFACE OF THE WALL.
d.) R-5 INSULATION SHALL BE PROVIDED UNDER THE FULL SLAB AREA OF A HEATED SLAB IN ADDITION TO THE REQUIRED SLAB EDGE INSULATION R-VALUE FOR SLABS AS INDICATED IN THE TABLE. THE SLAB EDGE INSULATION FOR HEATED SLABS SHALL NOT BE REQUIRED TO EXTEND BELOW THE SLAB.
e.) NOT USED.
f.) NOT USED.
g.) THE FIRST VALUE IS CAVITY INSULATION; THE SECOND VALUE IS CONTINUOUS INSULATION. THERFORE, AS AN EXAMPLE, "13 & 5" MEANS R-13 CAVITY INSULATION PLUS R-5 CONTINUOUS INSULATION.
h.) MASS WALLS SHALL BE IN ACCORDANCE WITH SECTION R402.2.5. THE SECOND R-VALUE APPLIES WHERE MORE THAN HALF OF THE INSULATION IS ON THE INTERIOR OF THE MASS WALL
i.) A MAXIMUM U-FACTOR OF 0.32 SHALL APPLY IN CLIMATE ZONES 3 THROUGH 8 TO VERTICAL FENESTRATION PRODUCTS INSTALLED IN BUILDINGS LOCATED EITHER:
1.) ABOVE 4,000 FEET IN ELEVATION, OR
2.) IN WINDBORNE DEBRIS REGIONS WHERE PROTECTION OF OPENINGS IS REQUIRED BY SECTION R301.2.1.2 OF THE INTERNATIONAL RESIDENTIAL CODE.

4 ENERGY COMPLIANCE

TOWN OF JACKSON: LAND DEVELOPMENT REGULATIONS

ZONING: NH-1: NEIGHBORHOOD HIGH DENSITY 1
USE: ATTACHED SINGLE-FAMILY UNITS (6.1.4.C)
DENSITY: (E.1)
INDIVIDUAL USE (MAX): 8,000 SQFT HABITABLE- EXCLUDING BASEMENT

2.2.9. NH-1: NEIGHBORHOOD HIGH DENSITY 1

PRIMARY BUILDING SETBACKS (SEC. 9.4.8.)
PRIMARY STREET (MIN): 20'-0"
SECONDARY STREET (MIN): 10'-0"

REAR (MIN): 20'-0"

SITE DEVELOPMENT SETBACKS
ALL SITE DEVELOPMENT, EXCLUDING DRIVEWAYS, SIDEWALKS, OR PARKING.
PRIMARY/ SECONDARY STREET (MIN): SAME AS PRIMARY BUILDING
SIDE INTERIOR/ REAR (MIN): 5'-0"

LANDSCAPING (DIV. 5.5.)
LANDSCAPING SURFACE RATIO (MIN) (SEC. 9.4.6.D.)
GROSS SITE AREA: 10,390 SQFT
LSR REQUIRED: 10,390 SQFT x .21 LSR = 2,181.9 SQFT OF LSR REQUIRED
2,426 SQFT LSR PROVIDED *(SEE SHEETS L300 & L301 FOR AREA CALCULATIONS)*
PLANT UNITS (MIN)
1 PER 1,000 SQFT LSR = 2.1 PLANT UNITS REQUIRED
3.3 PLANT UNITS PROVIDED *(SEE SHEET L301 FOR PLANT UNIT CALCULATIONS)*

ACCESS
DRIVEWAY WIDTH IN PRIMARY/ SECONDARY STREET SETBACK (MAX): 20'-0"

DRIVEWAY SETBACKS (*EXCLUDES 20' MAX DRIVEWAY ALLOWED IN PRIMARY/ SECONDARY STREET SETBACK)*
PRIMARY STREET (MIN): 20'-0"
SECONDARY STREET (MIN): 10'-0"
SIDE INTERIOR (MIN): 1'-0"

DESIGN GUIDELINES (DIV. 5.8.)
THE DESIGN GUIDELINES APPLY TO ALL RESIDENTIAL AND NONRESIDENTIAL DEVELOPMENT OF THREE ATTACHED UNITS OR GREATER.

PRIMARY BUILDING HEIGHT (SEC. 9.4.9.)
HEIGHT (MAX): ROOF PITCH ≤ 3/12: 3 STORIES, NOT TO EXCEED 35'-0"

SCALE OF DEVELOPMENT (SEC. 9.4.13.)
FLOOR AREA RATIO (FAR MAX)
DEED RESTRICTED HOUSING EXEMPTION (SEC. 7.8.3.): FLOOR AREA MEETING THE APPLICABILITY STANDARDS OF THIS SECTION IS EXEMPT FROM CALCULATION OF THE MAXIMUM FLOOR AREA RATIO (FAR).
WORKFORCE HOUSING FLOOR AREA BONUS (SEC. 7.8.4.): FLOOR AREA MEETING THE APPLICABILITY STANDARDS OF THIS SECTION IS EXEMPT FROM CALCULATION OF THE MAXIMUM FLOOR AREA RATIO (FAR).
INDIVIDUAL BUILDING (MAX GROSS FLOOR AREA): 10,000 SQFT

FENCING
HEIGHT (MAX)
IN STREET YARD: 4'-0"
IN SIDE OR REAR YARD: 6'-0"
SETBACK (MIN)
PRIMARY OR SECONDARY STREET/ SIDEWALK (MIN): 1'-0"
SIDE OR REAR LOT LINE: 0'-0"

PARKING
1/DU 0-1 BEDROOMS 500 SQFT MAX; OTHERWISE 1.5/DU
8 DWELLING UNITS x 1 = 8 PARKING SPACES
5 DWELLING UNITS x 1.5 = 7.5 = 8 PARKING SPACES
16 PARKING REQUIRED: PROVIDING 14 PARKING SPACES *(AS PER PERMIT # P24-076 FINAL LETTER OF APPROVAL)*
(SEE SHEET A-101 FOR PARKING SPACE COUNT)

REFUSE AND RECYCLING (SEC. 6.4.2)
TRASH AND RECYCLING ENCLOSURE REQUIRED *(SEE SHEET A-101 FOR TRASH AREA LOCATION).*

REQUIRED DISABILITY PARKING (SEC. 6.2.2.C)
1-25 PARKING SPACES PROVIDED = 1 DISABILITY SPACE REQUIRED: PROVIDING 1 DISABILITY SPACE (*SEE SHEET A-101 FOR PARKING LAYOUT)*

ONE IN EVERY EIGHT DISABILITY SPACES SHALL HAVE AN ACCESS AISLE WHICH IS A MINIMUM OF 8 FEET WIDE (RATHER THAN 5 FEET) AND SHALL BE SIGNED "VAN ACCESSIBLE.": PROVIDING 1 VAN ACCESSIBLE SPACE (*SEE SHEET A-101 FOR PARKING LAYOUT)*

REQUIRED BICYCLE PARKING (SEC. 6.2.2.D)
ONE BICYCLE PARKING SPACE SHALL BE PROVIDED FOR EVERY 10 VEHICLE SPACES REQUIRED.
16 PARKING SPACES / 10 = 1.6 BICYCLE PARKING REQUIRED: PROVIDING 6 BICYCLE SPACES *(SEE SHEET L301 FOR BICYCLE PARKING LOCATION)*

TOWN OF JACKSON: PLANNING & BUILDING DEPARTMENT

SHEET

G-001.00

© TOBYLONGDESIGN 2025

SECTION 1: GENERAL CONDITIONS

1. ONLY THE HIGHEST QUALITY OF WORKMANSHIP SHALL BE CONSIDERED ACCEPTABLE AND SHALL BE FIRMLY SECURED AND RELATIVE TO ELEVATIONS AND DIMENSIONS AS SHOWN IN THE DRAWINGS; TRUE TO PLUMB, LEVEL, SQUARE, AND LINE.

2 . ALL WORK SHALL CONFORM WITH ALL APPLICABLE CODES AND ORDINANCES AND WITH ACCEPTED LOCAL STANDARDS OF THE TRADES.

3. ALL NAILING SHALL CONFORM TO THE BEFORE MENTIONED BUILDING CODE REGULATIONS, OR 2007 C.B.C. (2008 L.A.C.B.C), U.O.N.

4. INDIVIDUAL PRINTS OR PARTIAL SETS OF PRINTS SHALL BE CONSIDERED PART OF THE WHOLE SET OF THESE DRAWINGS AND SPECIFICATIONS FOR THIS PROJECT. THE RECIPIENT OF INDIVIDUAL PRINTS OR PARTIAL SETS SHALL BE RESPONSIBLE FOR INFORMATION AND INTENT NOT REPRESENTED ON THE INDIVIDUAL SHEETS OR PARTIAL SETS BUT FOUND ELSEWHERE IN THESE DRAWINGS AND SPECIFICATIONS. THE GENERAL CONTRACTOR SHALL MAKE AVAILABLE ALL NECESSARY DRAWINGS (INCLUDING THESE GENERAL NOTES) TO SUBCONTRACTORS AND SUPPLIERS.

5. THE GENERAL CONTRACTOR SHALL BE RESPONSIBLE FOR COORDINATIING ALLL ASPECTS OF THE WORK AND SHALL INFORM THE OWNER OF HIS WORK SCHEDULE AND ANY ANTICIPATED CHANGES THAT MAY OCCUR IN IT. PLACE ORDERS FOR ALL MATERIALS INCLUDED IN THE WORK BY GENERAL CONTRACTOR OR SUBCONTRACTORS IN TIME TO PREVENT ANY DELAYS IN THE CONSTRUCTION SCHEDULE OR COMPLETION OF THE WORK. LIKEWISE, THE CONTRACTOR SHALL ADVISE THE OWNER OF THE CRITICAL PATH FOR SCHEDULING FOR THE ORDERING OF ALL/ANY OWNER PROVIDED MATERIALS.

6. THE GENERAL CONTRACTOR SHALL NOT PROCEED WITH ANY WORK WHICH HE BELIEVES TO BE CONTRARY TO HIS KNOWLEDGE OF GOOD CONSTRUCTION STANDARDS AND PRACTICES AND SHALL NOT USE ANY SUBSTANDARD MATERIALS.

7. THE GENERAL CONTRACTOR SHALL INFORM THE OWNER OF ANY COSTS OF MATERIALS, LABOR, OVERHEAD AND PROFIT WHICH ARE CAUSED BY ANY CHANGES OR ADDITIONS IN THE WORK INTENDED BY THESE PLANS AND SPECIFICATIONS PRIOR TO ORDERING MATERIALS AND PROCEEDING WITH THE WORK.

8. THE GENERAL CONTRACTOR SHALL BE RESPONSIBLE TO THE OWNER FOR THE ACTS AND OMISSIONS BY HIMSELF AND OF HIS EMPLOYEES AND SUBCONTRACTORS, INVOLVED IN THE COMPLETION OF WORK CONTRACTED.

9. THE GENERAL CONTRACTOR SHALL BE EXPECTED TO INSPECT THE SITE FOR CONDITIONS AFFECTING WORK AND FOR ANTICIPATING THE EFFECTS OF THOSE CONDITIONS UPON HIS WORK.

10. DETAILS NOT USUALLY SHOWN OR SPECIFIED BUT NECESSARY FOR THE PROPER INSTALLATION OR CONFORMANCE WITH CODES OR STANDARDS LISTED HEREIN SHALL BE INCLUDED IN THE WORK. THE CONTRACTOR SHALL NOTIFY THE ARCHITECT OF THE NEED FOR ANY ADDITIONAL INFORMATION OR MATERIALS NECESSARY FOR THE CONSTRUCTION OF THE DESIGN AS ILLUSTRATED IN THE DRAWINGS.

11. ALL WORK AND MATERIAL OR EQUIPMENT SHALL BE GUARANTEED FOR A MINIMUM OF ONE YEAR FROM DATE OF SUBSTANTIAL COMPLETION.

12. RELATIVE REFERENCE ELEVATIONS SHALL BE ESTABLISHED AT THE SITE. PROTECT AND MAINTAIN BENCHMARKS FOR THE DURATION OF THE PROJECT, AS NEEDED FOR THE ACCURATE CONSTRUCTION OF THE PROJECT.

13. ITEMS NOTED "NOT IN CONTRACT", "N.I.C.", OR "PROVIDED BY OWNER" ARE TO BE NEITHER FURNISHED NOR INSTALLED UNDER THIS CONTRACT, BUT ARE SHOWN FOR INFORMATIONAL PURPOSES ONLY. VERIFY THESE REQUIREMENTS WITH THE OWNER TO RESOLVE THE NEED FOR ANY ADDITIONAL WORK FOR OWNER PROVIDED MATERIALS THAT MAY BE UNANTICIPATED BY THESE DRAWINGS. CONTACT THE ARCHITECT FOR CLARIFICATION OR ASSISTANCE WITH THIS EVALUATION.

14. THE GENERAL CONTRACTOR SHALL COMPLETLEY FAMILIARIZE HIM/HERSELF WITH THE EXISTING CONIDTIONS AND THE DESIGN AS ILLUSTRATED AND SPECIFIED IN THE DRAWINGS. THE GENERAL CONTRACTOR WILL REPORT ANY AND ALL DISCREPANCIES OR OMISSIONS FOUND IN THE DRAWINGS AND SPECIFICATIONS TO ARCHITECT. ALL WORK AFFECTED SHALL NOT PROCEED UNTIL ANY CLARIFICATION OR REVISION HAS BEEN COMPLETED OR PERMISSION TO CONTINUE IS GIVEN.

15. ALL INFORMATION SHOWN ON THE DRAWINGS RELATIVE TO EXISTING CONDITIONS IS GIVEN AS THE BEST PRESENT KNOWLEDGE, BUT WITHOUT GUARANTEE OF ACCURACY. WHERE ACTUAL CONDITIONS CONFLICT WITH THE DRAWINGS, THEY SHALL BE REPORTED TO ARCHITECT SO THAT PROPER REVISIONS CAN BE MADE.

16. THE CONTRACT DOCUMENTS REPRESENT THE FINISHED STRUCTURE AND DO NOT INDICATE THE METHODS OF CONSTRUCTION. THE GENERAL CONTRACTOR SHALL SUPERVISE AND DIRECT THE WORK AND SHALL BE SOLELY RESPONSIBLE FOR CONSTRUCTION MEANS, METHODS, TECHNIQUES, SEQUENCES, AND PROCEDURES.

17. OBSERVATION VISITS TO THE SITE BY FIELD REPRESENTATIVES OF THE ARCHITECT AND/OR STRUCTURAL ENGINEER SHALL NOT INCLUDE INSPECTIONS OF THE PROTECTIVE MEASURES OR THE CONSTRUCTION PROCEDURES, AND THESE VISITS SHALL NOT BE CONSTRUED AS SUCH. ANY SUPPORT SERVICES PERFORMED BY THE ARCHITECT AND/OR STRUCTURAL ENGINEER DURING THE CONSTRUCTION SHALL BE DISTINGUISHED FROM CONTINUOUS AND DETAILED INSPECTION SERVICES AS FURNISHED BY OTHERS. THESE SUPPORT SERVICES PERFORMED BY THE ARCHITECT AND/OR STRUCTURAL ENGINEER, WHETHER OF MATERIAL OR WORK AND WHETHER PERFORMED PRIOR TO, DURING, OR AFTER COMPLETION OF CONSTRUCTION, ARE PERFORMED SOLELY FOR THE PURPOSE OF ASSISTING IN QUALITY CONTROL AND IN ACHEIVING GENERAL CONFORMITY WITH CONTRACT DOCUMENTS, BUT DO NOT GUARANTEE CONTRACTOR'S PERFORMANCE AND SHALL NOT BE CONSTRUED AS SUPERVISION OF CONSTRUCTION.

SECTION 2: DIMENSIONS, MEASUREMENTS, AND LAYOUT

1. DIMENSIONS SHALL TAKE PRECEDENCE OVER GRAPHIC REPRESENTATIONS. SCALING OF THE DRAWINGS FOR DIMENSIONS OR LOCATIONS OF MATERIALS OR EQUIPMENT IS CONSIDERED UNACCEPTABLE.

2. LARGER SCALE DRAWINGS TAKE PRECEDENCE OVER SMALLER SCALE DRAWINGS.

3. NOTES AND DETAILS ON DRAWINGS SHALL TAKE PRECEDENCE OVER THESE GENERAL NOTES AND TYPICAL DETAILS. WRITTEN SPECIFICATIONS TAKE PRECEDENCE OVER GRAPHIC REPRESENTATION OF MATERIALS AND ITEMS AS WELL AS THEIR LOCATIONS.

4. DIMENSIONS TO SIDE OR CENTER OF DOORS OR WINDOWS ARE TO ROUGH OPENINGS. LOCATE ROUGH OPENINGS NOT DIMENSIONED FRAMING DISTANCE (KING AND TRIM STUDS) FROM CLOSEST WALLS OR CENTER BETWEEN WALLS.

5. THE GENERAL CONTRACTOR SHALL BE RESPONSIBLE FOR LOCATING AND LAYING OUT THE WORK (INCLUDING GRADES AND ELEVATIONS). THE GENERAL CONTRACTOR WILL EXERCISE PROPER PRECAUTION TO VERIFY FIGURES SHOWN ON THE DRAWINGS WHILE LAYING OUT THE WORK, AND BE RESPONSIBLE FOR ALL ERRORS RESULTING FROM FAILURE TO EXERCISE SUCH PRECAUTION.

SECTION 3: SUBCONTRACTORS

1. EACH SUBCONTRACTOR SHALL FURNISH A CERTIFICATE OF INSURANCE TO THE GENERAL CONTRACTOR INDICATING POLICY CONDITIONS AND LIMITS OF LIABILITY INSURANCE PRIOR TO STARTING THE WORK. EACH SUBCONTRACTOR SHALL PROVIDE THE GENERAL CONTRACTOR WITH PROOF OF WORKMAN'S COMPENSATION FOR EACH OF HIS EMPLOYEES.

2. EACH TRADE SHALL COORDINATE ITS WORK AS IS PRACTICAL AND WILL INTERFERE AS LITTLE AS POSSIBLE WITH THE WORK OF OTHER TRADES AND PERSONS. IT WILL BE ASSUMED THAT EACH TRADE HAS ACCEPTED THE QUALITY OF THE WORK OF OTHERS UPON WHICH HIS WORK MUST BE APPLIED.

3. DURING PROGRESS OF WORK MAINTAIN PREMISES FREE OF UNNECESSARY ACCUMULATION OF TOOLS, EQUIPMENT, SURPLUS MATERIALS, AND DEBRIS. EACH SUBCONTRACTOR SHALL BE RESPONSIBLE FOR CLEANING UP AFTER THEIR RESPECTIVE WORK, AS WELL AS MAINTAINING A CLEAN AND ORDERLY SITE.

4. STORE AND HANDLE MATERIALS AND EQUIPMENT SO AS TO PREVENT DAMAGE AFFECTING APPEARANCES, PERFORMANCE OF MATERIAL, EQUIPMENT OR FINISHED WORK. IN THE EVENT OF DAMAGE, PROMPTLY MAKE REPAIRS OR REPLACEMENTS AND BE RESPONSIBLE FOR COSTS INCURRED AND TIME REQUIRED FOR REPAIRS OR REPLACEMENTS AT NO ADDITIONAL COST TO THE OWNER.

5. ALL SUBCONTRACTORS SHALL REMOVE AND REDO DEFECTIVE WORK AS DETERMINED BY THE GENERAL CONTRACTOR OR THE DESIGNER AT NO ADDITIONAL COST TO THE GENERAL CONTRACTOR OR OWNER.

6. EACH SUBCONTRACTOR SHALL GUARANTEE MATERIALS AND WORKMANSHIP AGAINST DEFECTS WHICH MAY OCCUR UNDER NORMAL USAGE FOR A PERIOD OF ONE (1) YEAR AFTER FINAL ACCEPTANCE.

SECTION 4: PERMITS, FEES, INSPECTIONS, REGULATIONS, AND COVENANTS

1. PERMITS AND LICENSES NECESSARY TO PERFORM THE WORK SHALL BE SECURED BY THE GENERAL CONTRACTOR.

2. THE GENERAL CONTRACTOR SHALL OBTAIN ALL CODE CHECKS, INSPECTIONS, AND LABORATORY INVESTIGATIONS REQUIRED BY ORDINANCES, CODES, RULES AND REGULATIONS, BUILDING INSPECTORS, CITY OR COUNTY ENGINEERS, ETC.

3. THE GENERAL CONTRACTOR AND SUBCONTRACTORS SHALL COMPLY WITH ALL COVENANTS AND REQUIREMENTS OF THE SUBDIVISION (IF ANY) AS IF INCLUDED IN THESE DOCUMENTS.

SECTION 5: TEMPORARY FACILITIES AND CONTROLS

1. ALL CONSTRUCTION EQUIPMENT REQUIRED TO PERFORM THE WORK TO BE FURNISHED BY THE GENERAL CONTRACTOR.

2. THE GENERAL CONTRACTOR SHALL PROVIDE AND PAY FOR POWER, LIGHT, WATER, AND HEAT AS REQUIRED DURING CONSTRUCTION.

3. SUBCONTRACTORS AND THEIR EMPLOYEES SHALL BE PROVIDED AND ALLOWED USE OF SANITARY FACILITIES ON THE PREMISES.

SECTION 6: GENERAL SITE WORK

1. PROTECT ALL EXISTING TREES, VEGETATION, OBJECTS, AND STRUCTURES FROM DAMAGE OR REMOVAL EXCEPT THOSE DESIGNATED FOR REMOVAL ON THE DRAWINGS, OR BY THE OWNER, OR THE LANDSCAPE DESIGNER AND ARCHITECT.

2. MINIMIZE ACCESS AND MATERIAL STORAGE AREAS AS INDICATED BY THE OWNER, OR LANDSCAPE DESIGNER AND ARCHITECT.

3. THE GENERAL CONTRACTOR WILL CHECK WITH UTILITY COMPANIES AND THE OWNER FOR ACTUAL LOCATIONS OF ANY UNDERGROUND UTILITIES BEFORE STARTING OPERATIONS. ACTIVE UNDERGROUND UTILITIES SHALL BE ADEQUATELY PROTECTED FROM DAMAGE AND IF DAMAGED SHALL BE IMMEDIATELY REPAIRED AT NO EXTRA COST TO THE OWNER.

4. THE LOCATIONS AND ROUTING OF UTILITIES AS SHOWN ON THE SITE PLAN ARE DIAGRAMMATIC IN NATURE AND SHOWS APPROXIMATE LOCATION OF UTILITIES AND EQUIPMENT. EXACT ROUTING OR LOCATIONS OF EQUIPMENT TO BE GOVERNED BY SITE CONDITIONS AND MINOR CHANGES REQUIRED AND DETERMINED ON SITE.

5. ANY SOILS DATA, INCLUDING SOILS REPORT, IN ITS ENTIRETY SHALL BE INCLUDED AS PART OF THESE CONTRACT DOCUMENTS. FOR RECOMMENDED SOIL BEARING PRESSURE FOUNDATION MATERIAL, AND SITE GRADING, SEE SOILS REPORT AND GEOLOGICAL REPORT, IF APPLICABLE.

SECTION 7: GRADING

1. ROUGH GRADING WORK AND FINISH GRADING SHALL BE BY THE EXCAVATING CONTRACTOR AND COORDINATED BY THE LANDSCAPE DESIGNER AND ARCHITECT.

2. GRADE TO SMOOTH, UNIFORM SURFACE TO ELEVATIONS, SHOWN OR REQUIRED FOR POSITIVE DRAINAGE, FROST PROTECTION, AND CLEARANCES.

3. SLOPE ALL GRADES A MINIMUM 1/4" PER FOOT AWAY FROM FOUNDATIONS, WALLS, WALKWAYS, DECKS, ETC.

4. NEW TOPSOIL, IF REQUIRED, SHALL BE REASONABLY FREE OF OBNOXIOUS WEEDS, STONES, LUMPS, PLANTS OR THEIR ROOTS, STICKS OR OTHER EXTRANEOUS MATTER, AND SHALL NOT BE WORKED IN A FROZEN OR MUDDY CONDITION.

5. REFER TO GEOTECH REPORT FOR ADDITIONAL REQUIREMENTS AND SPECIFICATIONS

SECTION 8: EXCAVATION

1. EXCAVATE TO GRADES INDICATED IN THE DRAWINGS AND TO ALLOW FOOTINGS TO BEAR DIRECTLY ON UNDISTURBED SOIL AT THE MINIMUM REQUIRED DEPTH TO PROVIDE FROST PROTECTION.

2. IF EXCAVATION TO DESIGN ELEVATIONS DISCLOSES UNSUITABLE BEARING SOIL AT THAT LEVEL, OBTAIN AUTHORIZATION FROM THE SOILS OR STRUCTURAL ENGINEER OR ARCHITECT BEFORE PROCEEDING WITH ADDITIONAL EXCAVATION. ADDITIONAL EXCAVATION COSTS SHALL BE DETERMINED AND AGREED TO WITH THE OWNER PRIOR TO PROCEEDING WITH ADDITIONAL WORK.

3. IF DURING THE COURSE OF EXCAVATION, SOLID ROCK FORMATIONS ARE ENCOUNTERED, REQUIRING DRILLING AND/OR BLASTING, THE ADDITIONAL COSTS SHALL BE THE OWNER'S RESPONSIBILITY AND SHALL BE DETERMINED AND AGREED TO WITH THE OWNER PRIOR TO PROCEEDING WITH ADDITIONAL WORK.

4. THE GENERAL CONTRACTOR SHALL PROVIDE FOR DE-WATERING OF EXCAVATIONS FROM EITHER SURFACE WATER, GROUND WATER, OR SEEPAGE AS NECESSARY.

5. BARRICADE OPEN HOLES, TRENCHES, AND DEPRESSIONS OCCURRING AS PART OF THE WORK. PROVIDE AND INSTALL ALL CRIBBING, SHORING AND BRACING REQUIRED TO SAFELY RETAIN EARTH EMBANKMENTS.

SECTION 9: BACKFILLING

1. THESE NOTES ARE TO BE FOLLOWED UNLESS DIRECTED OTHERWISE BY THE SOILS ENGINEER, STRUCTURAL ENGINEER, ARCHITECT, OR BUILDING OFFICIAL. CONTACT THE ARCHITECT FOR CLARIFICATION AND/OR ADDITIONAL INFORMATION REGARDING THIS ISSUE.

2. ALL FILL SHALL BE FREE-DRAINING, PREDOMINATELY GRANULAR MATERIAL AND FREE OF ORGANIC AND EXPANSIVE MATERIAL AND CAREFULLY PLACED TO PROTECT ALL WORK AND MECHANICALLY COMPACTED IN 6" LIFTS AROUND FOUNDATION, UNDER SLABS, AND ADJACENT STEM WALLS, TO 90% OF ASTM D1557-78.

3. ALL FILL UNDER FOOTINGS TO BE COMPACTED TO 95% OF ASTM D698.

4. BACKFILL SHALL NOT BE PLACED AGAINST BASEMENT AND RETAINING WALLS UNTIL CONCRETE OR MASONRY GROUT HAS REACH ITS 28 DAY STRENGTH AND WALLS ARE STABILIZE WITH COMPLETED AND ANCHORED STRUCTURAL FLOOR FRAMING.

SECTION 10: TREES, PLANTS, AND GROUND COVER

1. RESEEDING OF DAMAGED PORTIONS OF THE LAWN AROUND EXCAVATED AREAS AS REQUIRED TO REFURBISH TO ITS ORIGINAL CONDITION AND APPEARANCE SHALL BE THE OWNERS RESPONSIBILITY UNLESS AGREED TO OTHERWISE, WHERE APPLICABLE

SECTION 11: GENERAL CONCRETE WORK

1. NO CONCRETE WORK SHALL BE PLACED ON FROZEN, SOFT, LOOSE, WET, OR SOGGY SOIL.

2. BOTTOM OF EXCAVATIONS SHALL BE CLEAN, FLAT, AND FREE OF ANY LOSE DIRT, DEBRIS, OR ORGANIC MATERIAL.

3. PROVIDE AND INSTALL BLOCK-OUTS, UTILITY SLEEVES, CONNECTORS, ETC. AS SHOWN AND AS NECESSARY.

4. PROVIDE AND INSTALL INSULATION, VAPOR BARRIERS EXPANSION JOINTS, LEVELING BED, REINFORCEMENT, ETC. AS SHOWN AND REQUIRED.

5. VERIFY ALL SOIL CONDITIONS. ALL FOOTING SIZES ARE CALCULATED FOR A SOIL BEARING CAPACITY AS SHOWN.

6. PROVIDE OVER-EXCAVATION AND COMPACTED BACKFILL AS REQUIRED.

7. CHAMFER ALL EXPOSED EDGES OF CONCRETE 3/4" (MIN), U.O.N.

8. PROVIDE 1/2" EXPANSION JOINT MATERIAL BETWEEN ALL CONCRETE SLABS (1" RIGID FOAM AT INSULATED AND RADIANT SLABS) AND ABUTTING CONCRETE OR MASONRY WALLS.

SECTION 12: CONCRETE REINFORCEMENT

1. REINFORCING STEEL SHALL BE DEFORMED BARS IN ACCORDANCE WITH ASTM A-615; GRADE 40 FOR REINFORCED SIZES #4 AND SMALLER, GRADE 60 FOR REINFORCED SIZES #5 AND LARGER.

2. CONCRETE SLAB REINFORCEMENT SHALL BE 6 X 6 10/10 WELDED WIRE FABRIC OR FIBER MESH REINFORCING; U.O.N. LAP WWF 12" AT SPLICES.

3. STEEL REINFORCEMENT SHALL BE CLEAN AND FREE OF RUST, SCALE, DIRT OR GREASE.

4. ALL REINFORCING STEEL, ANCHOR BOLTS, DOWELS AND OTHER INSERTS SHALL BE SECURELY FASTENED IN THE FORMS PRIOR TO INSPECTION TO INSURE MINIMUM CONCRETE COVER AS FOLLOWS:FOOTINGS: CONCRETE PLACED AGAINST EARTH3" CONCRETE PLACED AGAINST FORMS EXPOSED TO EARTH2"WALLS: INTERIOR FACE3/4" ;EXTERIOR FACE1-1/2". SLABS: TOP OR BOTTOM1". PIERS: EXTERIOR FACE1-1/2"

5. MINIMUM LAP AND BEND FOR ALL REBAR SHALL BE 48 DIAMETERS.

6. MINIMUM 48 HOUR NOTICE SHALL BE GIVEN ARCHITECT PRIOR TO EACH DAY OF POUR FOR STEEL INSPECTION.

7. SILLS SHALL BE BOLTED TO CONCRETE WITH 1/2" DIAMETER ANCHOR BOLTS FOR SDC D OR 5/8" DIAMETER FOR SDC E OR F. FOUNDATION BOLTS SHALL BE EMBEDDED AT LEAST 7" IN THE CONCRETE OR MASONRY FOUNDATION WITHSPACED NOT MORE THAN 6' APART AND PROVIDED WITH 0.229" X 3" X 3" PLATE WASHERS.

SECTION 13: CONCRETE

1. PORTLAND CEMENT SHALL CONFORM TO ASTM C-150 (TYPE II) UNLESS ALKALINE SOILS ARE PRESENT.

2. WATER SHALL BE FIT TO DRINK.

3. FINE AGGREGATES SHALL BE NATURAL SAND OR CRUSHED STONE OR GRAVEL TO 1/4" MAXIMUM. COARSE AGGREGATES SHALL BE CRUSHED STONE OR GRAVEL 1/4" TO 1-1/2" AND NOT GREATER THAN 1/5 OF THICKNESS AT WALLS AND FOOTINGS, AND NOT GREATER THAN 1/3 OF THICKNESS AT SLABS.

4. CONCRETE SHALL BE PLACED WITH A MAXIMUM SLUMP OF 4". USE PLASTICIZERS WHERE MORE WORKABLE CONCRETE IS DESIRED.

5. CONCRETE SHALL BE MAINTAINED IN A MOIST CONDITION FOR A MINIMUM OF FIVE (5) DAYS AFTER PLACEMENT. ALTERNATE METHODS OF CURING WILL BE APPROVED IF SATISFACTORY PERFORMANCE CAN BE DEMONSTRATED.

6. CONCRETE SHALL ACHIEVE A MINIMUM OF 3,000 PSI COMPRESSION STRENGTH AT 28 DAYS, UNLESS NOTED OTHERWISE IN THE ARCHITECTURAL OR STRUCTURAL DRAWINGS.

SECTION 14: PROTECTION AND CURING

1. ALL CONCRETE SHALL BE PROTECTED FROM INJURIOUS ACTION OF THE ELEMENTS AND DEFACEMENT OF ANY NATURE DURING CONSTRUCTION OPERATIONS.

2. PROVIDE AND MAINTAIN PROPER CURING CONDITIONS REQUIRED FOR ALL CONCRETE WORK IN ACCORDANCE WITH ACI 301-72 (REVISED 1975), U.O.N. IN ARCHITECTURAL OR STRUCTURAL DRAWINGS AND/OR SPECIFICATIONS.

SECTION 15: NON-SHRINK GROUT

1. NON-SHRINK GROUT SHALL BE CEMENT BASED WITH A MINIMUM COMPRESSIVE STRENGTH OF 3,000 PSI WHEN TESTED IN ACCORDANCE WITH ASTM C-109.

2. GROUT SHALL BE MIXED AND PLACED IN ACCORDANCE WITH MANUFACTURER'S RECOMMENDATIONS.

SECTION 16: GENERAL MASONRY WORK

1. REMOVE ALL MORTAR STAINS AS A RESULT OF NEW MASONRY WORK.

2. SEE CONCRETE NOTES FOR REINFORCING DESCRIPTION.

SECTION 17: MORTAR AND GROUT

1. ALL MORTAR FOR REINFORCED MASONRY WALLS SHALL BE AS PER C.B.C 2007 (L.A.C.B.C. 2008) TABLE 2103A.8(2) AND SHALL ATTAIN A MINIMUM COMPRESSIVE STRENGTH OF 1,800 PSI AT 28 DAYS, U.O.N. IN THE ARCHITECTURAL AND/OR STRUCTURAL DRAWINGS AND/OR SPECIFICATIONS.

2. ALL MORTAR SHALL BE MIXED BY MECHANICAL MEANS AND PROPORTIONED BY ACCURATE MEASUREMENT.

3. ALL GROUT FOR GROUTED VOIDS SHALL ATTAIN A MINIMUM COMPRESSIVE STRENGTH AT 28 DAYS OF 2,000 PSI. FINE GROUT SHALL BE A MIX OF ONE PART PORTLAND CEMENT AND 2 1/4 TO 3 PARTS SAND. COARSE GROUT SHALL BE ONE PART PORTLAND CEMENT AND 2 1/4 TO 3 PARTS SAND, AND 2 PARTS (MAX) PEA GRAVEL (3/8"). SEE C.B.C 2007 (L.A.C.B.C. 2008) TABLE 2103A.12.

4. CEMENT SHALL CONFORM TO ASTM C-150. THE USE OF PLASTIC/MASONRY CEMENTS WILL NOT BE ALLOWED.

5. WATER SHALL BE FIT TO DRINK.

SECTION 18: UNIT MASONRY AND STONE/BRICK VENEER

1. CONCRETE MASONRY UNITS TO BE ASTM C 90-70 GRADE N TYPE 1, 1000 PSI, ASTM C331 AND C33 MOISTURE CONTENT 30% MAXIMUM OF TOTAL ABSORPTION.

2. ALL VENEER SHALL BE ANCHORED TO STRUCT. ELEMENTS USING CORROSION RESISTANT ANCHOR TIES. TIES SHALL BE A MIN 22 GA X 1" WITH MAX VERT AND HORIZ SPACING OF 16" O.C.

3. NO MASONRY WORK SHALL BE LAID WHEN THE TEMPERATURE OF THE OUTSIDE AIR IS BELOW THAT REQUIRED BY THE MORTAR PRODUCT FOR PROPER INSTALLATION AND CURING, UNLESS PROVISION IS MADE TO MAINTAIN THE MASONRY ABOVE THIS TEMPERATURE AND KEEP IT FROM FREEZING.

SECTION 19: GENERAL METAL WORK

1. PROVIDE AND INSTALL ALL STRUCTURAL STEEL, CONNECTORS, FASTENERS AND ACCESSORIES AS SHOWN ON THE DRAWINGS, MATERIALS LIST, AND AS REQUIRED FOR PROPER INSTALLATION OF STRUCTURAL MEMBERS.

2. PRIME ALL EXPOSED STEEL MEMBERS WITH RUSTOLEUM #5769 PRIOR TO FINISH COAT.

3. MATERIALS, STANDARDS, AND DETAILS SHALL CONFORM TO APPLICABLE AISC STANDARDS.

SECTION 20: STRUCTURAL STEEL

1. STRUCTURAL STEEL SHALL CONFORM TO ASTM A-36.

2. TUBE AND PIPE COLUMNS SHALL CONFORM TO ASTM A-500 GRADE B AND ASTM A-53.

3. ALL WELDING SHALL BE DONE BY CERTIFIED WELDERS, CERTIFIED FOR THE TYPE OF WELDS REQUIRED FOR THE JOB.

4. ALL STEEL TO STEEL CONNECTIONS SHALL BE MADE WITH A-325 HIGH STRENGTH BOLTS.

SECTION 21: PREFABRICATED METAL CONNECTORS

1. PROVIDE AND INSTALL ALL METAL CONNECTORS AS SHOWN AND REQUIRED FOR PROPER INSTALLATION OF STRUCTURAL MEMBERS.

2. USE SIMPSON STRONG-TIE CONNECTORS OR EQUAL. FOLLOW MANUFACTURER'S RECOMMENDATIONS FOR FASTENERS. C.ALL FABRICATED BEAM AND POST CONNECTORS SHALL BE OF SAME WIDTH OF STRUCTURAL MEMBER PLUS 1/16" TO 1/8" MAXIMUM.

3. HOLES IN FABRICATED CONNECTORS FOR BOLTS SHALL BE THE SAME DIAMETER OF THE BOLT PLUS 1/16" MAXIMUM.

SECTION 22: GENERAL CARPENTRY

A.TAKE CARE TO AVOID SPLITTING OF FRAMING AND FINISH MATERIALS DURING INSTALLATION.

B.APPROPRIATE CONNECTORS AND FASTENERS SHALL BE USED (WHETHER INDICATED OR NOT) TO PROVIDE PROPER INSTALLATION OF STRUCTURAL MEMBERS AND FINISH PIECES TO DEVELOP THEIR STRENGTH, RIGIDITY, AND PROPER INSTALLATION AND APPEARANCES FOR THE PURPOSES FOR WHICH THEY ARE INTENDED.

SECTION 23: FASTENERS

1. FRAMING: COMMON WIRE NAILS AS SHOWN AND REQUIRED.

2. EXTERIOR TRIM AND SIDING: RUST RESISTANT STAINLESS STEEL; HOT-DIPPED GALVANIZED, OR HIGH-TENSION STRENGTH ALUMINUM NAILS. MINIMUM EMBEDMENT OF 1-1/2" INTO SOLID NAILING.

3. DECKING: 2 (MIN)-3" DECK SCREWS, AT EACH JOIST PER PIECE; COUNTERSUNK.

4. INTERIOR TRIM: FINISH NAILS; BLIND NAIL WHERE PRACTICAL; COUNTERSINK HEADS WHERE FACE NAILING.

5. POST AND BEAM: BOLT, SCREW OR NAIL AS SHOWN OR REQUIRED.

6. ROOF DECKING: 10D AT 6" O.C. AT EDGES, 10D AT 10" O.C. FIELD.

7. FLOOR DECKING: GLUE WITH CONSTRUCTION ADHESIVE AT EACH JOIST, 10D AT 6" O.C. AT EDGES; 10D AT 10" O.C. FIELD.

8. .LEDGERS: LAG SCREWS AS INDICATED.

9. FABRICATED CONNECTORS: AS INDICATED OR AS REQUIRED OR PER MANUFACTURER REQM.TS.

SECTION 24: FRAMING CARPENTRY AND MATERIALS

1. ALL DIMENSION LUMBER SHALL BE S4S, UNO. USE ONLY GRADED LUMBER AND WOOD PRODUCTS AS NOTED AND APPROPRIATE. MATERIALS MUST BE SOUND, SEASONED, WELL MANUFACTURED, FREE FROM WARP WITH MAXIMUM MOISTURE CONTENT OF 19%. JOISTS TO HAVE 1 1/2" (MIN) BEARING ON WOOD OR METAL OR 3" (MIN) ON MASONRY.

2. ALL MANUFACTURED 'I-JOIST' (LPI, BCI, TJI, ETC) MEMBERS TO BE INSTALLED PER MANUFACTURER REQUIREMENTS. PROVIDE 1 3/4" BEARING (MIN) AT JOIST AND RAFTER ENDS AND 3 1/2" (MIN) AT INTERMEDIATE SUPPORTS. SUBSTITUTIONS FOR SPECIFIED MEMBERS MUST MEET DESIGN CRITERIA . PROVIDE WEB STIFFENERS AS NECESSARY.

3. ALL GLULAMINATED BEAMS AND COLUMNS SHALL BE OF COMBINATION 24F-V4 (24F-V8 FOR CONTINUOUS OR CANTILEVERED BEAMS), AND SHALL BE FABRICATED OF DOUGLAS FIR LAMINATIONS AND EXTERIOR GLUES, PER AITC STANDARD 117. CAMBER SHALL BE AS SHOWN. ARCHITECTURAL FINISH STANDARDS SHALL BE APPLIED FOR EXPOSED BEAMS. PROVIDE 1 1/2" (MIN) BEARING AT ENDS; U.O.N.

4. ALL TRUSSES TO BE ENGINEERED AND PREFABRICATED BY THE TRUSS MANUFACTURER. VERIFY ALL LAYOUTS, BEARING CONDITIONS, SPANS, SIZES, ETC PRIOR TO PLACING ORDER.

5. ALL HEADERS BELOW 6'-0" SPAN TO BE PROVIDED WITH 1 1/2" (MIN) BEARING. ALL HEADERS OVER 6'-0" SPAN TO BE PROVIDED WITH 3" (MIN) BEARING; U.O.N.

SECTION 24: FRAMING CARPENTRY AND MATERIALS - CONTINUED FROM SHEET A0.1

6. SILL PLATES AND OTHER STRUCTURAL WOOD MEMBERS TO BE IN CONTACT WITH CONCRETE OR MASONRY SHALL BE PRESSURE-TREATED HEM-FIR. FOUNDATION GRADE REDWOOD (AN ENDANGERED SPECIES) SHALL BE USED ONLY AS INDICATED ON THE DRAWINGS OR AS NECESSARY FOR APPEARANCE.

7. FLOOR AND ROOF DECKING SHALL BE INSTALLED WITH GRAIN PERPENDICULAR TO JOISTS OR RAFTERS, WHILE BEARING ON A MINIMUM OF THREE JOISTS OR RAFTERS.

8. LAY OUT PLUMBING LINES PRIOR TO JOIST LAYOUT. ADJUST JOIST LAYOUT AND HEADER-OFF FOR PLUMBING REQUIREMENTS AS REQUIRED.

9. POSTS SHALL BE AS SHOWN AND AS NECESSARY, AND SHALL PROVIDE SECURE, SOLID, AND FULL BLOCKING AT ALL BEARING POINTS DOWN TO THE FOUNDATION.

10. STAGGER TOP AND DOUBLE PLATE JOINTS 4'-0" (MINIMUM) AT EXTERIOR WALLS AND BEARING PARTITIONS. OVERLAP PLATES AT ALL CORNERS.

11. INSTALL A MINIMUM OF THREE STUDS WITH BLOCKING AT EVERY CORNER FOR WALL AND FINISH CONNECTIONS AND INSTALLATIONS.

12. ALL LOAD BEARING STUDS AND FLOOR JOISTS SHALL BE STACK-FRAMED, U.O.N.

13. DOUBLE JOISTS AND RAFTERS AT ALL OPENINGS UNLESS SHOWN OTHERWISE.

14. PROVIDE CONTINUOUS SOLID BRIDGING AT 8'-0" O.C. (MAX.) BETWEEN ALL FLOOR JOISTS AND RAFTERS, UNLESS INDICATED OTHERWISE.

15. PROVIDE CONTINUOUS BLOCKING BETWEEN JOISTS AND RAFTERS AT ALL BEARING POINTS.

16. PROVIDE BLOCKING UNDER PARALLEL EXTERIOR WALLS AND WALL PARTITIONS @ 4'-0" O.C. (MAX) AND AS NECESSARY.

17. PROVIDE 2 X BLOCKING, FURRING, NAILERS, SHIMS, ETC REQUIRED FOR INSTALLATION OF WALL FINISH MATERIALS, CABINETS, CLOSET SHELVING AND RODS, BATHROOM ACCESSORIES, SOFFITS, TRIM, ETC.

18. ALL WALLS SHALL BE FIRE STOPPED WITH 2 X BLOCKING OR OTHER APPROVED MATERIAL @ FLOOR, CEILING, AND AT INTERVALS NOT TO EXCEED 8 FEET (VERTICALLY BETWEEN FLOOR AND CEILING).

19. PROVIDE SWAY BRACING AS REQUIRED; PER UBC 2517 (G) 3 AND AS SHOWN.

20. INSULATE ALL FRAMING CAVITIES WITH FIBERGLASS (I.E., PARTITION NAILERS, RIMS, CORNERS, ETC) DURING FRAMING AND BEFORE COVERING THESE CAVITIES TO RENDER INACCESSIBLE.

SECTION 25: EXTERIOR SIDING AND TRIM CARPENTRY

1. CAULK ALL EXTERIOR JOINTS AROUND SIDING JOINTS, WINDOWS AND DOORS.

2. INSTALL 15# FELT, BUILDING PAPER, OR TYVEK OVER WALL SHEATHING PRIOR TO SIDING INSTALLATION.

3. INSTALL SIDING PER MANUFACTURER'S RECOMMENDATIONS AND REQUIREMENTS.

SECTION 26: EXTERIOR DECKS, STAIRS, AND RAILINGS

1. ALL STRUCTURAL MEMBERS SHALL BE PRESSURE-TREATED HEM-FIR.

2. INSTALL SHEET METAL FLASHING BEHIND WALL AND UNDER DECKING.

3. INSTALL 2X DECKING WITH 3/16" SPACING BETWEEN MEMBERS.

SECTION 27: FINISH CARPENTRY

1. INTERIOR TRIM MATERIAL SHALL BE INSTALLED AS PER THE HIGHEST STANDARDS OF CRAFTSMANSHIP READY FOR FINISHES AS SPECIFIED.

2. SAND, STAIN, AND FINISH INTERIOR TRIM PRIOR TO INSTALLATION.

3. FILL ALL NAIL HOLES WITH COLOR PUTTY TO MATCH STAIN COLOR.

SECTION 28: INTERIOR STAIRS AND RAILINGS

1. STAIRS SHALL CONFORM TO ALL APPLICABLE CODES AND REQUIREMENTS AND SHALL BE AS PER OWNER INPUT DURING THE CONSTRUCTION PROCESS. VERIFY THE DESIGN AND SPECIFICATIONS OF THE STAR CONSTRUCTION WITH THE OWNER PRIOR TO CONSTRUCTION.

2. STAIR PARTS SHALL BE SITE BUILT AND INSTALLED BY THE GENERAL CONTRACTOR AS SHOWN IN THE DRAWINGS.

3. PROVIDE BLOCKING AS REQUIRED FOR RIGID AND SOLID BEARING FOR STAIR TREADS.

4. SCREW AND PLUG BALUSTERS, RAILS, AND CAP WITH DECK SCREWS AND CONTRASTING PLUGS AS REQUIRED.

SECTION 29: CUSTOM CASEWORK

A. PERFORM WORK TO CUSTOM QUALITY IN ACCORDANCE WITH "QUALITY STANDARDS" OF THE ARCHITECTURAL WOODWORK INSTITUTE (AWI).

B. HARDWARE SHALL BE AS SELECTED BY OWNER TO MATCH EXISTING.

C. PROVIDE AND SECURELY INSTALL 3/4" CDX, EXTERIOR GRADE PLYWOOD TOPS FOR THINSET COUNTER TOPS.

D. PROVIDE CUTOUTS FOR PLUMBING FIXTURES, INSERTS, APPLIANCES, OUTLET BOXES, AND OTHER FIXTURES AND
FITTINGS. VERIFY LOCATIONS OF CUTOUTS FROM ON-SITE DIMENSIONS. SEAL CONTACT SURFACES OF CUT EDGES.

E. SAND WORK SMOOTH AND SET EXPOSED NAILS. APPLY WOOD FILLER IN EXPOSED NAIL INDENTATIONS. ON ITEMS TO RECEIVE TRANSPARENT FINISHES, USE WOOD FILLER WHICH MATCHES SURROUNDING SURFACES AND OF TYPES RECOMMENDED FOR APPLIED FINISHES. STAIN AND FINISH ALL EXPOSED EXTERIOR SURFACES. SEAL, CONCEALED AND SEMI-CONCEALED SURFACES.

F. SET AND SECURE CASEWORK IN PLACE RIGID, PLUMB, AND LEVEL. USE PURPOSE DESIGNED FIXTURE ATTACHMENTS AT CONCEALED LOCATIONS FOR WALL MOUNTED COMPONENTS. SECURE CABINET AND COUNTER BASES TO FLOOR USING APPROPRIATE ANGLES AND ANCHORAGES. COUNTER-SINK ANCHORAGE DEVICES AT EXPOSED LOCATIONS USED TO WALL MOUNT COMPONENTS, AND CONCEAL WITH SOLID PLUGS OF SPECIES TO MATCH SURROUNDING WOOD. FINISH FLUSH WITH SURROUNDING SURFACES.

G. ADJUST DOORS, DRAWERS, HARDWARE, FIXTURES AND OTHER MOVING OR OPERATING PARTS TO FUNCTION SMOOTHLY AND CORRECTLY. CLEAN CASEWORK, COUNTERS, SHELVES, HARDWARE, FITTINGS AND FIXTURES.

SECTION 30: GENERAL THERMAL AND MOISTURE PROTECTION

A. PROVIDE AND MAINTAIN CONTINUOUS AND CLEAR PASSAGE OF AIR ABOVE INSULATION AND BELOW ROOF DECKING,
FROM SOFFIT TO RIDGE, HIP, OR END WALL VENTS. PROVIDE LATERAL FLOW @ VALLEYS, SKYLIGHTS, ETC.
B.PROVIDE AND INSTALL ALL INSULATIONS, CAULKING, SEALANTS, VAPOR BARRIERS, ROOFING, VENTILATION, SIDINGS AND TRIMS, AND FLASHING, ETC. AND THEIR ACCESSORIES AS SHOWN AND REQUIRED TO PROVIDE A WEATHER-TIGHT SEAL, ELIMINATE INFILTRATION, MINIMIZE HEAT LOSS AND TO PROVIDE A PROTECTED, ENERGY EFFICIENT STRUCTURE.

SECTION 31: DAMP PROOFING & MEMBRANE WATERPROOFING

A. MAINTAIN AMBIENT AND SURFACE TEMPERATURES ABOVE 40° FOR 24 HOURS BEFORE APPLICATION, AND CONTINUOUSLY UNTIL DAMP PROOFING HAS CURED.

B. DO NOT APPLY DAMP PROOFING TO DAMP, FROZEN, DIRTY, DUSTY, OR DECK SURFACES UNACCEPTABLE TO APPLICATOR. CLEAN AND PREPARE SURFACES TO RECEIVE DAMP PROOFING IN ACCORDANCE WITH MANUFACTURER'S INSTRUCTIONS. PRIME SURFACES IN ACCORDANCE WITH MANUFACTURER'S INSTRUCTIONS. PERMIT PRIMER TO DRY.

C. VERIFY SURFACES ARE SOLID, FREE OF FROZEN MATTER, LOOSE PARTICLES, CRACKS, PITS, ROUGH PROJECTIONS, AND FOREIGN MATTER DETRIMENTAL TO ADHESION AND APPLICATION OF DAMP PROOFING.

D. VERIFY ITEMS WHICH PENETRATE SURFACES TO RECEIVE DAMP PROOFING ARE SECURELY INSTALLED. APPLY MEMBRANE TO SEAL PENETRATIONS, SMALL CRACKS, AND HONEYCOMB IN SUBSTRATE. USE ONLY MEMBRANE WATERPROOFING AT HIGH WATER AREAS.

E. APPLY 2 COATS OF COLD APPLIED ASPHALT BITUMEN DAMP PROOFING ON ALL EXTERIOR FOUNDATION WALLS., U.O.N. APPLY EACH COAT OF COLD BITUMEN WITH ROLLER OR BRUSH AT A CONTINUOUS AND UNIFORM RATE AS PER MANUFACTURER'S INSTRUCTIONS. APPLY FROM 2 INCHES BELOW FINISH GRADE ELEVATION TO TOP OF FOOTINGS.

F. PROTECT FINISHED DAMP PROOFING FROM DAMAGE DURING BACKFILL OPERATIONS.

SECTION 32: VENTILATION

A. PROVIDE CONTINUOUS 2" VENTILATION SPACE ABOVE ROOF INSULATION AND BELOW ROOF DECKING, FROM CONTINUOUS SOFFIT VENTS TO RIDGE VENTS, AS SHOWN AND NECESSARY.

B. PROVIDE ATTIC AND CRAWL SPACE VENTILATION AT A RATIO OF 1 SQUARE FOOT OF VENT PER 150 SQUARE FEET OF FLOOR AREA. A PROPERLY SIZED, HUMIDITY CONTROLLED FAN WITH INTAKE AND EXHAUST VENTS IS ALSO CONSIDERED ACCEPTABLE AT CRAWL SPACE AREAS.

SECTION 33: VAPOR AND AIR RETARDERS

A. CAREFULLY INSTALL ALL VAPOR BARRIERS TO PROVIDE A CONTINUOUS SEAL AGAINST WATER VAPOR.

B. OVERLAP ALL SEAMS AND THOROUGHLY STAPLE WHILE AVOIDING WRINKLES IN THE SHEETING.

C. AVOID PENETRATIONS AND UNNECESSARY CUTTING OF THE BARRIER OR UNDERLAYMENT.

D. CLOSELY CUT BARRIER AT WINDOW, DOOR, AND SKYLIGHT OPENINGS. INSTALL VAPOR BARRIER PIECES AT INSIDE CORNERS OF FRAMING.

E. CLOSELY CUT BARRIER AT ELECTRICAL OUTLETS AND SWITCHES, ETC. RESEAL PERIMETER WITH CAULK OR SPRAY FOAM INSULATION.

F. LAP PERMEABLE ROOFING AND WALL UNDERLAYMENTS A MINIMUM OF 2".

G. ALL VAPOR BARRIERS TO CRAWL SPACE FLOORS IN WET LOCATIONS.

SECTION 34: INSULATION

A. INSULATE ALL EXTERIOR FRAMING CAVITIES THAT WILL BECOME INACCESSIBLE WHILE FRAMING (IE. HEADERS, CORNERS. PARTITION NAILERS, ETC.) WITH FIBERGLASS., U.O.N.

B. INSTALL 1 X 6 SILL SEALER AT ALL EXTERIOR INTERFACES BETWEEN WOOD FRAMING AND STONE MASONRY.

C. LOOSELY INSTALL FIBERGLASS OR OTHER INSULATION BETWEEN DOOR, WINDOW, AND SKYLIGHT JAMBS AND FRAMING TO AVOID BENDING OF JAMBS.

D. INSTALL ALL INSULATION TO MAINTAIN A CONTINUOUS THERMAL LAYER BETWEEN THE INTERIOR AND EXTERIOR.

E. INSULATE ALL HEATING AND PLUMBING DUCTS AND PIPING TO MINIMIZE HEAT LOSS FOR THE LENGTH OF THEIR RUNS. PROVIDE ADEQUATE INSULATION AND TO PREVENT THE FREEZING OF WATER PIPING IN UNHEATED AREAS.

SECTION 35: ROOFING

A. INSTALL NEW FELT PAPER UNDERLAYMENT AS SHOWN. LAP A MINIMUM OF 2" AND THOROUGHLY STAPLE WHILE AVOIDING WRINKLES IN THE SHEETING. AVOID PENETRATIONS AND UNNECESSARY CUTTING OF THE UNDERLAYMENT.

B. INSTALL ROOFING, RIDGE VENTILATION, AND FLASHING, ETC. AND THEIR ACCESSORIES AS SHOWN AND REQUIRED TO PROVIDE A WEATHER-TIGHT SEAL, STRAIGHT AND TRUE, AND WITH FASTENERS SET.

SECTION 36: SIDING

A. CAULKING SHALL BE APPLIED AT ALL JOINTS BETWEEN SIDING AND SIDING, AND BETWEEN SIDING AND TRIM.

B. GALVANIZED (U.O.N.) DRIP CAP FLASHING SHALL BE PROVIDED AND INSTALLED AT TOPS OF ALL WINDOWS, DOORS, HORIZONTAL JOINTS BETWEEN SIDING, TRIM, AND OTHER EXTERIOR FINISHES AND AS REQUIRED.

C. INSTALL 15# FELT, BUILDING PAPER, OR TYVEK OVER WALL SHEATHING PRIOR TO SIDING INSTALLATION.

SECTION 39: SHEET METAL FLASHING AND TRIM

A. EXERCISE CARE WHEN WORKING ON OR ABOUT ROOF SURFACES, OR OTHER WATER IMPERVIOUS MEMBRANES, TO AVOID DAMAGING OR PUNCTURING UNDERLAYMENT, ROOFING, OR FLASHINGS.

B. VERIFY ROOF OPENINGS, CURBS, PIPES, SLEEVES, DUCTS, OR VENTS THROUGH ROOF ARE SOLIDLY SET. BEGINNING OF INSTALLATION MEANS ACCEPTANCE OF EXISTING CONDITIONS.

C. PROVIDE AND INSTALL 26 GAUGE GALVANIZED SHEET METAL FLASHING AS SHOWN AND REQUIRED AT CONCEALED AND EXPOSED AREAS. COLOR AT EXPOSED AREAS TO MATCH ROOFING; UNO.

D. INSTALL FLASHING SLEEVES AND COLLARS (PROVIDED BY THE GENERAL CONTRACTOR) FOR ELECTRICAL AND PLUMBING ITEMS PROTRUDING THROUGH ROOFING MATERIAL. INSTALL STARTER AND EDGE STRIPS, AND CLEATS BEFORE STARTING INSTALLATION. FIT FLASHINGS TIGHT IN PLACE. MAKE CORNERS SQUARE, SURFACES TRUE AND STRAIGHT IN PLANES, AND LINES ACCURATE TO PROFILES.

E. SECURE FLASHINGS IN PLACE USING CONCEALED FASTENERS. WHEN USING EXPOSED FASTENERS, THEY ARE TO BE OF THE SAME FINISH AS THE FLASHINGS. APPLY PLASTIC CEMENT COMPOUND BETWEEN METAL FLASHINGS AND FELT FLASHINGS.

SECTION 40: CAULKING AND SEALANTS

A. CAULK ALL EXTERIOR JOINTS AROUND SIDING JOINTS, WINDOWS AND DOORS.

B. USE COLORED CAULK AT EXPOSED AREAS TO BLEND WITH ADJACENT MATERIALS OR CAULK TO ACCEPT MATERIAL FINISH.

C. WARM ALL CAULKING AND SEALANTS PRIOR TO USE, PER THE MANUFACTURERS RECOMMENDATIONS.

SECTION 41: GENERAL WINDOW, DOORS, SKYLIGHTS, AND HARDWARE

A. PROVIDE PROPER ROUGH OPENINGS FOR ALL WINDOWS AND DOORS. PREPARE OPENING TO PERMIT CORRECT INSTALLATION OF WINDOW UNIT AND AIR AND VAPOR BARRIER SEAL.

B. PROVIDE AND INSTALL ALL WINDOWS, DOORS, AND HARDWARE AND THEIR ACCESSORIES AS SHOWN AND ACCORDING TO MANUFACTURER'S RECOMMENDATIONS FOR COMPLETE AND PROPER INSTALLATION.

C. ALL BEDROOM EGRESS WINDOWS SHALL HAVE A NET CLEAR OPENING HEIGHT DIMENSION NO LESS THAN 24" AND A NET CLEAR
OPENING WIDTH NO LESS THAN 20" AND THE NET CLEAR OPENING MUST EQUAL 5.7 SQ. FT. MIN.
THE MAXIMUM FINISHED SILL HEIGHT MUST BE NO GREATER THAN 44" ABOVE THE FINISHED FLOOR.

D. CONTRACTOR SHALL PROVIDE A COPY OF THE WINDOW ORDER TO THE ARCHITECTS PRIOR TO PLACING ORDERS FOR THE WINDOWS FOR VERIFICATION OF REQUIRED DIMENSIONAL CRITERIA PER THE APPROVED PLANS

SECTION 42: DOORS

A. ALL INTERIOR AND EXTERIOR DOORS SHALL BE PREHUNG, BORED, AND DRILLED UNLESS NOTED OTHERWISE ON THE DOOR SCHEDULE AND INSTALLED BY THE GENERAL CONTRACTOR.

B. ALL EXTERIOR DOORS TO INCLUDE FULL WEATHERSTRIPPING AND ADJUSTABLE THRESHOLD AS PROVIDED BY THE DOOR
MANUFACTURER.

C. PROVIDE SOLID CORE, 1HR. RATED DOOR WITH CLOSER FOR SEPARATION BETWEEN GARAGE AND LIVING AREAS.

SECTION 43: SECTIONAL OVERHEAD DOORS

A. OVERHEAD SECTIONAL DOOR, DOOR OPERATOR, HARDWARE, TRACK, CONTROLS, AND ALL ACCESSORIES TO BE PROVIDED AND INSTALLED BY A QUALIFIED AND EXPERIENCED COMPANY

B. OVERHEAD SECTION DOOR SHALL BE INSULATED WITH RIGID FOAM INSULATION AND TO INCLUDE FULL PERIMETER WEATHERSTRIPPING AS PROVIDED BY THE DOOR MANUFACTURER, INCLUDING 'ADJUSTABLE' BOTTOM.

SECTION 44: WOOD WINDOWS

A. ALL WOOD WINDOWS SHALL BE PRE-MANUFACTURED WITH EXTRUDED ALUMINUM CLADDING, HIGH-ALTITUDE INSULATING GLAZING, WEATHERSTRIPPING, INSECT SCREENS (OPERABLE UNITS ONLY), OPERATING AND LOCKING HARDWARE (AS SELECTED BY THE OWNER) AND WITHOUT JAMB EXTENSIONS. ALL WINDOWS TO BE PROVIDE AND INSTALLED BY THE GENERAL CONTRACTOR IN ACCORDANCE WITH MANUFACTURER'S INSTRUCTIONS AND RECOMMENDATIONS. MAXIMUM DIAGONAL DISTORTION TO BE: 1/16" MEASURED WITH STRAIGHT EDGE, CORNER TO CORNER. ADJUST FOR SMOOTH AND BALANCED WINDOW MOVEMENT. WINDOW UNITS SHALL BE FABRICATED TO MANUFACTURER'S STANDARD FABRICATION REQUIREMENTS.

B. SEE THE WINDOW AND DOOR SCHEDULE FOR INFORMATION AND SPECIFICATION REGARDING THE WINDOWS IN THIS PROJECT.

SECTION 45: DOOR HARDWARE

A .PACKAGE HARDWARE ITEMS INDIVIDUALLY; LABEL AND IDENTIFY PACKAGE WITH DOOR OPENING CODE TO MATCH HARDWARE SCHEDULE.

B. MAINTAIN ALIGNMENT WITH ADJACENT WORK. SECURE ASSEMBLY TYPE WITHOUT DISUNION OR STRESS.

C. PROVIDE SPECIAL WRENCHES AND TOOLS APPLICABLE TO EACH DIFFERENT OR SPECIAL HARDWARE COMPONENTS. PROVIDE MAINTENANCE TOOLS AND ACCESSORIES SUPPLIED BY HARDWARE COMPONENT MANUFACTURER.

D. ALL DOOR LOCKS TO BE MASTER KEYED AS DIRECTED BY OWNER. SUPPLY TWO KEYS FOR EACH LOCK.

E. ALL HARDWARE AND TRIM ITEMS SHALL BE SELECTED BY THE OWNER AND PROVIDED AND INSTALLED BY THE GENERAL CONTRACTOR; UNO.

F. MOUNTING HEIGHTS FOR HARDWARE FROM FINISHED FLOOR TO CENTER LINE OF HARDWARE ITEM SHALL BE AS INDICATED BELOW. VERIFY ALL MOUNTING HEIGHTS WITH MANUFACTURER OF HARDWARE ITEM TO INSURE COMPLIANCE WITH APPLICABLE CODES.

H. 1. LOCK SETS:38" 2.DOOR PULLS:42" 3.DEAD LOCKS:60"

SECTION 46: GENERAL PLUMBING AND MECHANICAL

A. THE DRAWINGS ARE CONSIDERED SCHEMATIC AND ARE SHOWN AS A GUIDE FOR THE PLUMBING AND HEATING SYSTEMS. SUBMIT A PLUMBING AND HEATING DESIGN, WITH POSSIBLE OPTIONS, TO THE ARCHITECT, GENERAL CONTRACTOR, OR OWNER, ALONG WITH THE BID FOR WORK TO BE PERFORMED, IN IT'S ENTIRETY, AS SHOWN ON THE SUBMITTED PLUMBING AND HEATING DESIGN.

B. PROVIDE AND INSTALL SHUT-OFF VALVE ON COLD WATER LINE AT THE WATER HEATER.

C. VERIFY ROUTING AND SIZES OF ALL NEW EQUIPMENT, FIXTURES, AND PLUMBING PRIOR TO BEGINNING WORK.

D. PROVIDE AND INSTALL ALL FIXTURES, PIPING, AND FITTINGS FOR TIE-IN TO NEW PLUMBING FIXTURES FOR COMPLETE MECHANICAL SYSTEM.

E. OFFSET PIPING, ETC. AS NECESSARY TO ACCOMMODATE STRUCTURE, BEAMS, COLUMNS, ETC. AND EXISTING PLUMBING LINES. COORDINATE CUTTING OR DRILLING OF STRUCTURAL MEMBERS WITH THE GENERAL CONTRACTOR TO FACILITATE PIPING RUNS AND TO AVOID DAMAGE.

F. THE PLUMBING AND HEATING CONTRACTOR SHALL ACCEPT FULL RESPONSIBILITY IN THE FORM OF PAYMENT TO THE GENERAL CONTRACTOR FOR COSTS INCURRED TO REPAIR, TO THE SATISFACTION OF THE OWNER, ANY COMPROMISING OF STRUCTURAL MEMBERS, WORK OF OTHER TRADES, FINISHES, OR OTHER DAMAGE CAUSED WHILE ON SITE AND PERFORMING PLUMBING AND HEATING WORK.

G. COORDINATE THE INSTALLATION OF THE HEATING SYSTEM AND HOT WATER SYSTEM WITH THE GENERAL CONTRACTOR TO INSURE ALL COMPONENTS OF EQUIPMENT AND CONTROLS ARE INCLUDED AND CONNECTED AS WELL AS LOCATIONS OF HEATING UNITS AND FLOOR TUBING.

H. PROVIDE AND INSTALL ALL GAS PIPING VERIFYING REQUIRED SIZE AND STUB-IN LOCATION.

I. COORDINATE ALL OPENINGS REQUIRED THROUGH ROOFS OR WALLS WITH THE GENERAL CONTRACTOR. PROVIDE THESE OPENINGS AND WEATHER-TIGHT SEALS FOR ALL BUILDING PENETRATIONS. ASSIST THE GENERAL CONTRACTOR IN THE INSTALLATION OF THESE SEALS.

J. PROVIDE AND INSTALL RANGE HOOD AND CLOTHES DRYER VENTS TO THE OUTSIDE, PER CODE REQUIMENTS.

K. INSPECT WATER SUPPLY MAIN TO DETERMINE WATER PRESSURE LEVEL AND SYSTEM BEST SUITED FOR INCREASING PRESSURE LEVEL TO SATISFACTION OF THE OWNER.

SECTION 47: PLUMBING FIXTURES

A.ALL PLUMBING FIXTURES TO BE PROVIDED AND INSTALLED BY THE PLUMBING CONTRACTOR; UNLESS OTHER ARRANGEMENTS ARE MADE WITH THE OWNER.

SECTION 48: GENERAL ELECTRICAL

A. ALL ELECTRICAL WORK SHALL BE PERFORMED BY A LICENSED ELECTRICIAN.

B. THE ELECTRICAL CONTRACTOR SHALL GUARANTEE MATERIALS AND WORKMANSHIP AGAINST DEFECTS WHICH MAY OCCUR UNDER NORMAL USAGE FOR A PERIOD OF ONE (1) YEAR AFTER FINAL ACCEPTANCE. ALL GUARANTEE TIME PERIODS PROVIDED BY EQUIPMENT MANUFACTURER'S SHALL CONTINUE TO BE IN EFFECT.

C. THE ELECTRICAL WORK SHALL INCLUDE THE SUPPLY AND INSTALLATION OF ALL ROUGH-IN MATERIALS, DEVICES, TRIM, AND SCHEDULED FIXTURES AS REQUIRED AND NECESSARY FOR ALL ELECTRICAL, TELEPHONE, APPLIANCES, AND EQUIPMENT, ETC; UNO.

D. THE ELECTRICAL CONTRACTOR SHALL COORDINATE THE INSTALLATION OF THE MECHANICAL SYSTEMS WITH THE MECHANICAL CONTRACTOR TO INSURE ALL COMPONENTS OF EQUIPMENT AND CONTROLS ARE INCLUDED AND WIRED. ALL ELECTRICAL POWER WIRING, LOW VOLTAGE CONTROL WIRING, FUSES, CONDUIT, AND SWITCHES SHALL BE PROVIDED AND INSTALLED BY THE ELECTRICAL CONTRACTOR. THERMOSTATS SHALL BE PROVIDED AND INSTALLED BY THE MECHANICAL CONTRACTOR.

E. CUTTING, DRILLING, AND CHASING OF THE BUILDING SURFACES AS REQUIRED FOR SUPPORT, ANCHORAGE, AND PASSAGE OF ELECTRICAL EQUIPMENT SHALL BE DONE BY THE ELECTRICAL CONTRACTOR. WHERE STRUCTURAL MEMBERS ARE INVOLVED, THE GENERAL CONTRACTOR'S APPROVAL SHALL BE FIRST OBTAINED.

F. THE ELECTRICAL CONTRACTOR SHALL ACCEPT FULL RESPONSIBILITY IN THE FORM OF PAYMENT TO THE GENERAL CONTRACTOR FOR COSTS INCURRED TO REPAIR, TO THE SATISFACTION OF THE OWNER, ANY COMPROMISING OF STRUCTURAL MEMBERS, WORK OF OTHER TRADES, FINISHES, OR OTHER DAMAGE CAUSED WHILE ON SITE AND PERFORMING ELECTRICAL WORK.

G. PROVIDE AND INSTALL BATHROOM EXHAUST FANS VENTED TO THE OUTSIDE.

H. PROVIDE AND INSTALL A MINIMUM OF ONE SWITCHED LIGHT IN EACH ATTIC SPACE AND THREE SWITCHED LIGHTS IN THE UNDER FLOOR CRAWL SPACE; UNO.

I.PROVIDE AND INSTALL BATTERY POWERED SMOKE DETECTORS AS SHOWN AND REQUIRED.

SECTION 49: PANEL CONSTRUCTION

A. CONTRACTOR SHALL CAREFULLY REVIEW THE PANEL DRAWINGS TO EVALUATE THE APPROPRIATE STORAGE AND ASSEMBLY PROCESS. ANY ERRORS OR DISCREPANCIES IDENTIFIED IN THE PANEL DRAWINGS RELATIVE TO THE DESIGN/ENGINEERING OF THE BUILDING, SHALL BE BROUGHT TO THE ATTENTION OF THE ARCHITECT IMMEDIATELY FOR RESOLUTION.

B. CONTRACTOR SHALL PROVIDE ADEQUATE SITE AREA FOR THE PROPER RECEIVING, UNLOADING AND STORAGE OF ALL PANELS ON THE JOB SITE. THE CONTRACTOR SHALL INSPECT ALL PANELS, CONNECTORS, AND TOOLS AT THE TIME OF DELIVERY AND ALERT THE ARCHITECT AND MANUFACTURER OF ANY DEFICIENT OR DAMAGED PANELS.
CONTRACTOR SHALL ACCEPT ALL RESPONSIBILITY FOR THE PANELS FOLLOSWING THE DELIVERY OF THE PANELS AND SHALL PAY FOR ANY REPLACEMENT PANELS REQUIRED

FOR THE PROJECT. ALL PANELS AND CONNECTORS/SPLINES SHALL BE STORED IN ACCORADACE WITH THE REQUIRMENTS OF THE MANUFACTURER.

C. PANELS SHALL BE UNLOADED TO FACILITATE THE CONSTRUCTION PROCESS, AND SHALL BE STACKED TO ALLOW FOR ACCESS TO EACH PANEL IN ACCORDANCE WITH THE SEQUENCE FOR ASSEMBLY.

D. THE CONTRACTOR SHALL COORDINATE WITH ALL M/E/P SUB-CONTRACTORS/LABOR FOR THE INSTALLATION OF ALL ELECTRICAL AND UTILITY DISTRIBUTION IN THE PANELS WALLS PRIOR TO THE ASSEMBLY OF THE PANELS.

E. ALL ROUGH M/E/P CONTAINED IN THE PANELS SHALL BE REVIEWED WITH THE LOCAL BUILDING INSPECTOR PRIORTO THE ASSEMBLY OF THE WALLS.

F. VERIFY ALL BUILDING AND PANEL DIMENSIONS W/ P-DWGS. BEFORE & DURING INSTALLATION OF STRUCTURAL PANELS

G. ALL PENETRATIONS AND MODIFICATIONS TO THE PANELS MADE IN THE FIELD SHALL BE IN ACCORADANCE WITH THE STRUCTURAL DRAWINGS AND THE LIMITATIONS/REQUIREMENTS OF THE MANUFACTURER.

H. VERIFY ALL OPENINGS IN PANEL ASSEMBLIES W/ P-DWGS. & WINDOW SHEDULE BEFORE AND DURING INSTALLATION OF STRUCTURAL PANELS.

I. ALL PANELS SHALL BE CONNECTED AND INSTALLED PER THE MANUFACTURER REQUIREMENTS AND THE STRUCTURAL DRAWINGS.

J. PANELS SHALL BE SEALED AND CAULKED IN ACCORANCE WITH ALL MANUFACTURER RECOMMENDATIONS.

K. DO NOT FINAL NAIL OR SET FINAL CONNECTIONS IN SECTIONS OF THE PANEL ASSEMBLY UNTIL ALL DIMENSIONS HAVE BEEN CONFIRMED.

L. CONTACT PANEL MANUFACTURER OR ARCHITECT WITH ANY QUESTIONS RELATED TO THE CONTRUCTION AND FINISHING PROCESSES.

M. CONTACT PROJECT ARCHITECT OR CLEVER HOMES IMMEDIATELY UPON DISCOVERY OF DISCREPANCIES AND STOP STRUCTURAL PANEL INSTALLATION UNTIL RESOLVED.

N. THERE SHALL BE NO SEALANT BEADS APPLIED AT THE WOOD-TO-WOOD, WOOD-TO-OSB, OR OSB-TO-OSB INTERFACES. SEALANT MAY BE APPLIED AT FOAM-TO-WOOD INTERFACES AND WITH 'SIP' TAPE. FOLLOW MANUFACTURER'S WRITTEN INSTRUCTIONS.

8 ACCESSIBLE TOILETS & TUBS

ACCESSIBILITY REQUIREMENTS

THE FOLLOWING NOTES AND REQUIRMENTS ARE PER:
2024 INTERNATIONAL BUILDING CODE CHAPTER 11: ACCESSIBILITY
REFERENCE STANDARD ICC/ANSI A117.1-2017

SECTION 1102 COMPLIANCE

1102.1 DESIGN. BUILDINGS AND FACILITIES SHALL BE DESIGNED AND CONSTRUCTED TO BE ACCESSIBLE IN ACCORDANCE WITH THIS CODE AND ICC A117.1.

SECTION 1104 ACCESSIBLE ROUTE

1104.1 SITE ARRIVAL POINTS. AT LEAST ONE ACCESSIBLE ROUTE WITHIN THE SITE SHALL BE PROVIDED FROM PUBLIC TRANSPORTATION STOPS, ACCESSIBLE PARKING, ACCESSIBLE PASSENGER LOADING ZONES, AND PUBLIC STREETS OR SIDEWALKS TO THE ACCESSIBLE BUILDING ENTRANCE SERVED.

1104.2 WITHIN A SITE. AT LEAST ONE ACCESSIBLE ROUTE SHALL CONNECT ACCESSIBLE BUILDINGS, ACCESSIBLE FACILITIES, ACCESSIBLE ELEMENTS AND ACCESSIBLE SPACES THAT ARE ON THE SAME SITE.

1104.4 MULTISTORY BUILDINGS AND FACILITIES. AT LEAST ONE ACCESSIBLE ROUTE SHALL CONNECT EACH ACCESSIBLE STORY, MEZZANINE AND OCCUPIED ROOFS IN MULTILEVEL BUILDINGS AND FACILITIES.

SECTION 1105 ACCESSIBLE ENTRANCES

1105.1 PUBLIC ENTRANCES. IN ADDITION TO ACCESSIBLE ENTRANCES REQUIRED BY SECTIONS 1105.1.2 THROUGH 1105.1.8, AT LEAST 60 PERCENT OF ALL PUBLIC ENTRANCES SHALL BE ACCESSIBLE.

SECTION 1108 DWELLING UNITS AND SLEEPING UNITS

1108.3 ACCESSIBLE SPACES. ROOMS AND SPACES AVAILABLE TO THE GENERAL PUBLIC OR AVAILABLE FOR USE BY RESIDENTS AND SERVING ACCESSIBLE UNITS, TYPE A UNITS OR TYPE B UNITS SHALL BE ACCESSIBLE. ACCESSIBLE SPACES SHALL INCLUDE TOILET AND BATHING ROOMS, KITCHEN, LIVING AND DINING AREAS AND ANY EXTERIOR SPACES, INCLUDING PATIOS, TERRACES AND BALCONIES.

1108.6.2 GROUP R-2. ACCESSIBLE UNITS, TYPE A UNITS AND TYPE B UNITS SHALL BE PROVIDED IN GROUP R-2 OCCUPANCIES IN ACCORDANCE WITH SECTIONS 1108.6.2.1 THROUGH 1108.6.2.3.

1108.6.2.2 TYPE B UNITS. WHERE THERE ARE FOUR OR MORE DWELLING UNITS OR SLEEPING UNITS INTENDED TO BE OCCUPIED AS A RESIDENCE IN A SINGLE STRUCTURE, EVERY DWELLING UNIT AND SLEEPING UNIT INTENDED TO BE OCCUPIED AS A RESIDENCE SHALL BE A TYPE B UNIT.

REFERENCE STANDARD: SECTION 1104 TYPE B UNITS

1104.1.1 CLEAR FLOOR SPACE. FOR TYPE B UNITS, CLEAR FLOOR SPACES SHALL BE 48 INCHES (1220 MM) MINIMUM IN LENGTH AND 30 INCHES (760 MM) MINIMUM IN WIDTH.

1104.1.2 MAILBOXES. MAILBOXES SERVING TYPE B UNITS SHALL BE PERMITTED AN UNOBSTRUCTED SIDE REACH RANGE AT 54 INCHES (1370 MM) MAXIMUM ABOVE THE FLOOR.

1104.2 PRIMARY ENTRANCE. THE PRIMARY ENTRANCE SHALL BE ON AN ACCESSIBLE ROUTE FROM PUBLIC AND COMMON AREAS. THE PRIMARY ENTRANCE SHALL NOT BE TO A BEDROOM UNLESS IT IS THE ONLY ENTRANCE.

1104.3.1 LOCATION. AT LEAST ONE ACCESSIBLE ROUTE SHALL CONNECT ALL SPACES AND ELEMENTS THAT ARE A PART OF THE UNIT. ACCESSIBLE ROUTES SHALL COINCIDE WITH OR BE LOCATED IN THE SAME AREA AS A GENERAL CIRCULATION PATH.

1104.3.2 COMPONENTS. ACCESSIBLE ROUTES SHALL CONSIST OF ONE OR MORE OF THE FOLLOWING ELEMENTS: WALKING SURFACES WITH A SLOPE NOT STEEPER THAN 1:20, DOORS AND DOORWAYS, RAMPS, ELEVATORS, AND PLATFORM LIFTS.

1104.4.2 CHANGES IN LEVEL. CHANGES IN LEVEL SHALL COMPLY WITH SECTION 303.

*1104.5.1 PRIMARY ENTRANCE DOOR.*THE PRIMARY ENTRANCE DOOR TO THE UNIT SHALL COMPLY WITH SECTION 404.

EXCEPTIONS:

2. FOR THE MANEUVERING CLEARANCE AT SWINGING DOORS FOR THE FRONT APPROACH DIRECTION ON THE PUSH SIDE, THE DIMENSION PERPENDICULAR TO THE DOOR SHALL BE 48 INCHES (1220 MM) MINIMUM.
3. FOR THE MANEUVERING CLEARANCE AT SLIDING AND FOLDING DOORS FOR THE FRONT APPROACH DIRECTION, THE DIMENSION PERPENDICULAR TO THE DOOR SHALL BE 48 INCHES (1220 MM) MINIMUM.
4. FOR DOORWAYS WITHOUT DOORS, THE DIMENSION PERPENDICULAR TO THE DOORWAY FOR THE FRONT DIRECTION SHALL BE 48 INCHES (1220 MM) MINIMUM.

1104.5.2 USER PASSAGE DOORWAYS. DOORWAYS INTENDED FOR USER PASSAGE SHALL COMPLY WITH SECTION 1104.5.2.

1104.5.2.1 CLEAR WIDTH. DOORWAYS SHALL HAVE A CLEAR OPENING OF 313/4 INCHES (805 MM) MINIMUM. CLEAR OPENING OF SWINGING DOORS SHALL BE MEASURED BETWEEN THE FACE OF THE DOOR AND STOP, WITH THE DOOR OPEN 90 DEGREES.

1104.5.2.2 THRESHOLDS. THRESHOLDS SHALL COMPLY WITH SECTION 303.

1104.5.2.3 AUTOMATIC DOORS. AUTOMATIC DOORS SHALL COMPLY WITH SECTION 404.3.

1104.7 ELEVATORS. ELEVATORS SERVING THE UNIT SHALL COMPLY WITH SECTIONS 407, 408 OR 409.

1104.9 OPERABLE PARTS. LIGHTING CONTROLS, ELECTRICAL SWITCHES AND RECEPTACLE OUTLETS, ENVIRONMENTAL CONTROLS, ELECTRICAL PANELBOARDS, AND USER CONTROLS FOR SECURITY OR INTERCOM SYSTEMS SHALL COMPLY WITH SECTIONS 309.3 AND 1104.1.1.

1104.10 LAUNDRY EQUIPMENT. WASHING MACHINES AND CLOTHES DRYERS SHALL COMPLY WITH SECTION 1104.10.

1104.10.1 CLEAR FLOOR SPACE. A CLEAR FLOOR SPACE SHALL BE PROVIDED FOR EACH WASHING MACHINE AND CLOTHES DRYER. A PARALLEL APPROACH SHALL BE PROVIDED FOR A TOP LOADING MACHINE. A FORWARD OR PARALLEL APPROACH SHALL BE PROVIDED FOR A FRONT LOADING MACHINE.

1104.11.1 GRAB BAR AND SHOWER SEAT REINFORCEMENT. REINFORCEMENT SHALL BE PROVIDED FOR THE FUTURE INSTALLATION OF GRAB BARS AND SHOWER SEATS AT WATER CLOSETS, BATHTUBS, AND SHOWER COMPARTMENTS. WHERE WALLS ARE LOCATED TO PERMIT THE INSTALLATION OF GRAB BARS AND SEATS COMPLYING WITH SECTION 604.5 AT WATER CLOSETS; GRAB BARS COMPLYING WITH SECTION 607.4 AT BATHTUBS; AND FOR GRAB BARS AND SHOWER SEATS COMPLYING WITH SECTIONS, 608.3, 608.2.1.3, 608.2.2.3 AND 608.2.3.2 AT SHOWER COMPARTMENTS; REINFORCEMENT SHALL BE PROVIDED FOR THE FUTURE INSTALLATION OF GRAB BARS AND SEATS COMPLYING WITH THOSE REQUIREMENTS.

EXCEPTIONS:

2. AT WATER CLOSETS REINFORCEMENT FOR THE SIDE WALL VERTICAL GRAB BAR COMPONENT REQUIRED BY SECTION 604.5 IS NOT REQUIRED.
3. AT WATER CLOSETS WHERE WALL SPACE WILL NOT PERMIT A GRAB BAR COMPLYING WITH SECTION 604.5.2, REINFORCEMENT FOR A REAR WALL GRAB BAR 24 INCHES (610 MM) MINIMUM IN LENGTH CENTERED ON THE WATER CLOSET SHALL BE PROVIDED.
4. AT WATER CLOSETS WHERE A SIDE WALL IS NOT AVAILABLE FOR A 42-INCH (1065 MM) GRAB BAR COMPLYING WITHSECTION 604.5.1, REINFORCEMENT FOR A SIDEWALL GRAB BAR, 24 INCHES (610 MM) MINIMUM IN LENGTH, LOCATED 12 INCHES (305 MM) MAXIMUM FROM THE REAR WALL, SHALL BE PROVIDED.

1104.11.3 TOILET AND BATHING AREAS. EITHER ALL TOILET AND BATHING AREAS PROVIDED SHALL COMPLY WITH SECTION 1104.11.3.1 (OPTION A), OR ONE TOILET AND BATHING AREA SHALL COMPLY WITH SECTION 1104.11.3.2 (OPTION B).

1104.11.3.2 OPTION B. ONE OF EACH TYPE OF FIXTURE PROVIDED SHALL COMPLY WITH SECTION 1104.11.3.2. THESE FIXTURES SHALL BE IN A SINGLE TOILET/BATHING AREA, SUCH THAT TRAVEL BETWEEN FIXTURES DOES NOT REQUIRE TRAVEL THROUGH OTHER PARTS OF THE UNIT.

1104.12 KITCHENS. KITCHENS SHALL COMPLY WITH SECTION 1104.12.

FLOOR AREA (SEC. 9.4.5.)

FLOOR AREA IS THE AREA OF ALL FLOORS INTERIOR TO AN ENCLOSED BUILDING THAT HAVE AT LEAST 5 FEET OF CLEARANCE BETWEEN FLOOR AND CEILING. FLOOR AREA SHALL BE MEASURED TO THE EXTERIOR FACE OF THE STRUCTURAL MEMBERS OF THE WALL. ROOFED ARCHITECTURAL RECESSES AND OPEN COVERED PORCHES ARE NOT CONSIDERED INTERIOR TO THE BUILDING. A BUILDING WITH AT LEAST 50% OF ITS PERIMETER OPEN TO THE OUTSIDE SHALL NOT BE CONSIDERED ENCLOSED.

SCALE OF DEVELOPMENT (SEC. 9.4.13.)

FLOOR AREA MEETING THE APPLICABILITY STANDARDS OF THIS SECTION IS EXEMPT FROM CALCULATION OF THE MAXIMUM FLOOR AREA RATIO (FAR). SEE SECTION 9.4.13 ON DETAIL #3/G-001.

DEFINED TERMS (DIV. 9.5)

HABITABLE FLOOR AREA. HABITABLE FLOOR AREA IS THE FLOOR AREA THAT CAN BE USED FOR LIVING PURPOSES, USUALLY HAVING ACCESS TO HEAT, PLUMBING, AND ELECTRICITY. HABITABLE FLOOR AREA INCLUDES STUDIOS, EXERCISE ROOMS, OFFICES, AND SIMILAR SPACES. IT ALSO INCLUDES FOYERS, HALLWAYS, RESTROOMS, STORAGE, AND OTHER COMMON AREAS WITHIN A BUILDING. HABITABLE FLOOR AREA DOES NOT INCLUDE BARNS, GARAGES, OR UNFINISHED ATTIC SPACE.

- EXIT SIGN; AS PER IBC SECTION 1013.

GENERAL NOTES

1. AS PER SEC. 202: AREA, BUILDING: THE AREA INCLUDED WITHIN SURROUNDING EXTERIOR WALLS, OR EXTERIOR WALLS AND FIRE WALLS, EXCLUSIVE OF VENT SHAFTS AND COURTS. AREAS OF THE BUILDING NOT PROVIDED WITH SURROUNDING WALLS SHALL BE INCLUDED IN THE BUILDING AREA IF SUCH AREAS ARE INCLUDED WITHIN THE HORIZONTAL PROJECTION OF THE ROOF OR FLOOR ABOVE.
2. AS PER SEC. 202: FLOOR AREA, GROSS: THE FLOOR AREA WITHIN THE INSIDE PERIMETER OF THE EXTERIOR WALLS OF THE BUILDING UNDER CONSIDERATION, EXCLUSIVE OF VENT SHAFTS AND COURTS, WITHOUT DEDUCTION FOR CORRIDORS, STAIRWAYS, RAMPS, CLOSETS, THE THICKNESS OF INTERIOR WALLS, COLUMNS OR OTHER FEATURES. THE FLOOR AREA OF A BUILDING, OR PORTION THEREOF, NOT PROVIDED WITH SURROUNDING EXTERIOR WALLS SHALL BE THE USABLE AREA UNDER THE HORIZONTAL PROJECTION OF THE ROOF OR FLOOR ABOVE. THE GROSS FLOOR AREA SHALL NOT INCLUDE SHAFTS WITH NO OPENINGS OR INTERIOR COURTS.

NOTES

This survey was conducted in July 2022 and prepared under the direction of Matthew Gotham, Wyoming PLS 13002, and does not include an engineering review.

Locations of utilities depicted hereon are limited to visible structures; underground locations must be located prior to any construction activity.

A title report has not been provided and easements of sight or record may exist that are not shown hereon.

Elevations were derived using GPS RTK observation methods and reference NAVD88. Site benchmark elevation is 6159.55' at SW corner of Lot 36.

Record dimensions shown are from that Plat of record in the Office of the Clerk of Teton County as 0191.

BASIS OF BEARING for this survey is N00°39'54"E along the east line of Section 32.

Plotted by jCameron on May 16, 2025 - 4:05pm
Ver. 18.0

GENERAL PROJECT NOTES:

1. PROJECT SCOPE: CONSTRUCTION WILL INCLUDE A 3-STORY COMMERCIAL CONDOMINIUM WITH 13 UNITS DESIGNATED FOR AFFORDABLE HOUSING AND WORKFORCE HOUSING.

2. PROJECT LOCATION: 910 SMITH LANE AND 915 SIMON LANE, JACKSON, WY (PIDN 22-41-16-32-4-05-001 AND 22-41-16-32-4-05-011)

3. PROPERTY ZONING, OVERLAYS AND FLOODWAYS:
   ZONE: NEIGHBORHOOD HIGH DENSITY 1 (NH-1)
   SCENIC OVERLAY: NOT WITHIN
   NATURAL RESOURCES OVERLAY: NOT WITHIN
   WILDLAND-URBAN INTERFACE: NOT WITHIN
   FLOOD ZONE: WITHIN ZONES X

4. PROJECT SCHEDULE: CONSTRUCTION TO BEGIN FALL 2024 AND TO BE COMPLETE FALL 2026.

5. PROPERTY AREA: 10,390 SF±

   TOTAL AREA OF DISTURBANCE: 14,318 SF±
   - CONSTRUCTION OF ROADWAY AND RESIDENCES

   AREA OF DISTURBANCE WITHIN SLOPES OF:
   5% OR LESS 11,387 SF±
   MORE THAN 5% UP TO 15% 2,531 SF±
   MORE THANK 15% 400 SF±

   IMPERVIOUS SURFACE:
   DRIVEWAY AND PARKING 5,927 SF (57% OF LOT)

6. SNOW STORAGE REQUIREMENT: 2.5% * 5,927 SF = 148 SF
   -LANDSCAPE AREA ON NORTHERN PORTION OF PROPERTY TO BE USED

7. BASE MAPPING PREPARED FROM GROUND SURVEY PERFORMED BY JORGENSEN ASSOCIATES, INC. IN JULY 2022. ELEVATIONS WERE DERIVED USING GPS RTK OBSERVATION METHODS AND REFERENCE NAVD88. SITE BENCHMARK ELEVATION IS 6159.55' AT THE SOUTH-WEST CORNER OF LOT 36.

8. ALL PROPOSED FENCING SHALL MEET THE WILDLIFE FRIENDLY FENCING STANDARDS AS DEFINED IN SECTION 5.1.2 OF THE TETON COUNTY LAND DEVELOPMENT REGULATIONS. NO PERMANENT FENCING CURRENTLY PROPOSED FOR THIS PROJECT.

9. ALL PROPOSED REFUSE/RECYCLING CONTAINERS SHALL BE CERTIFIED BEAR-RESISTANT ACCORDING TO SECTION 5.2.2 OF THE TETON COUNTY LAND DEVELOPMENT REGULATIONS.

REVEGETATION SPECIFICATIONS:
(FOLLOW MITIGATION PLAN. FOLLOW THESE SPECIFICATIONS WHERE NOTHING IS SPECIFIED ON MITIGATION PLANS OR BY LANDSCAPE ARCHITECT.)

1. SEED MIXTURES:

COMMON NAME	LBS/ACRE
IDAHO FESCUE	6 LBS/ACRE
MOUNTAIN BROME	10 LBS/ACRE
THICKSPIKE WHEATGRASS	12 LBS/ACRE
WESTERN WHEATGRASS	12 LBS/ACRE
ALPINE TIMOTHY	12 LBS/ACRE

   TOTAL PURE LIVE SEED APPLICATION RATE 52 LBS/ACRE

2. EXISTING VEGETATION IS TO BE MAINTAINED TO THE EXTENT POSSIBLE.

3. ALL AVAILABLE TOPSOIL FROM EXCAVATIONS SHALL BE STRIPPED AND STORED ONSITE FOR REUSE IN REESTABLISHING VEGETATION. SUPPLEMENT NATIVE TOPSOIL WHERE NECESSARY TO REESTABLISH VEGETATION. DO NOT STOCKPILE DEEPER THAN 4 FT IF AREA IS AVAILABLE.

4. SEED MIXES CONTAINING NATIVE FLOWERING PLANTS SUCH AS LUPINE, YARROW AND PAINTBRUSH ARE ACCEPTABLE.

5. ALL SEED SHALL COMPLY WITH WYOMING SEED LAW. SEED SHALL BE PURCHASED FROM A DEALER LICENSED WITH THE WYOMING DEPARTMENT OF AGRICULTURE. CERTIFICATIONS FOR THE SEED MIX SHALL BE PROVIDED TO THE ENGINEER PRIOR TO SEEDING.

6. A LAYER OF TOPSOIL SHALL BE PLACED ON AREAS STRIPPED FOR GRADING, PRIOR TO REVEGETATION. TOPSOIL SHALL BE UNIFORMLY SPREAD ON PREPARED SURFACES PRIOR TO SEEDING. REMOVE FOREIGN MATERIALS, WEEDS AND UNDESIRABLE PLANTS FROM THE PREPARED SOIL PRIOR TO SEEDING.

7. HARD PACKED OR CAKED TOPSOIL SURFACES SHALL BE SCARIFIED OR DISKED PRIOR TO SEEDING. REVEGETATE ALL DISTURBED AREAS AS SOON AS PRACTICAL AFTER GRADING.

8. SEED SHALL BE UNIFORMLY DISTRIBUTED OVER THE SURFACE BY APPROVED MECHANICAL BROADCASTING DEVICES AND THE GROUND SHALL BE IMMEDIATELY RAKED OR DRAGGED TO COVER THE SEED.

9. SEEDING SHALL BE PERFORMED BETWEEN THE TIME THE FROST LEAVES THE GROUND IN THE SPRING AND BEFORE THE FROST ENTERS THE GROUND IN THE FALL.

10. WEEDS SHALL BE CONTROLLED BY SPRAYING, LIMITING DISTURBANCE AREA, OR OTHER MEANS FOR THE DURATION OF THE PROJECT, BOTH PRIOR TO REVEGEATION AND WHILE REVEGETATION ESTABLISHES.

GENERAL CONSTRUCTION NOTES & SPECIFICATIONS:

1. ALL SITE WORK SHALL BE PERFORMED IN ACCORDANCE WITH THE FOLLOWING RULES, REGULATIONS AND STANDARDS AS MODIFIED BY THE PLANS:
   - LATEST EDITION OF WYOMING PUBLIC WORKS STANDARD SPECIFICATIONS
   - LATEST EDITION OF TOWN OF JACKSON LAND DEVELOPMENT REGULATIONS

2. CONTRACTOR SHALL VERIFY ALL DIMENSIONS IN THE FIELD AND SHALL PROMPTLY NOTIFY THE ENGINEER OF ANY VARIATIONS OR DISCREPANCIES.

3. CONTRACTOR SHALL VERIFY ALL DIMENSIONS IN THE FIELD AND SHALL PROMPTLY NOTIFY THE ENGINEER OF ANY VARIATIONS OR DISCREPANCIES.

4. THE CONTRACTOR SHALL PROTECT ALL EXISTING SURVEY MONUMENTATION DESIGNATED TO REMAIN, FROM ANY DAMAGE DURING CONSTRUCTION OPERATIONS. ANY EXISTING MONUMENTS DISTURBED BY THE CONTRACTOR SHALL BE RESET AT THE CONTRACTOR'S OWN EXPENSE. THE CONTRACTOR AND ENGINEER SHALL NOTE THOSE MONUMENTS IN THE FIELD PRIOR TO CONSTRUCTION.

5. CONTRACTOR SHALL REMOVE ALL MATERIALS, TOOLS, EQUIPMENT, AND CONSTRUCTION DEBRIS FROM THE SITE IMMEDIATELY AFTER COMPLETION OF THE WORK TASK. NO CONSTRUCTION DEBRIS SHALL BE DISPOSED OF AT THE WORK SITE.

6. CONTRACTOR SHALL ACTIVELY MINIMIZE THE AMOUNT OF DUST DEBRIS, AND NOXIOUS FUMES INTO THE AIR. BURNING WILL NOT BE PERMITTED AS A MEANS OF DISPOSAL OR CLEANING AT THE SITE. FUGITIVE DUST WILL BE CONTROLLED BY WATERING DURING DRY PERIODS OR AS REQUIRED BY ENGINEER.

7. CONTRACTOR SHALL MAKE EVERY EFFORT TO MINIMIZE DISTURBANCE OF PRIVATE PROPERTY BY HIS OPERATIONS. CONTRACTOR SHALL NOTIFY OWNER, OCCUPANT, AND ENGINEER PRIOR TO CONDUCTING ANY OPERATION THAT REQUIRES THE REMOVAL, REPLACEMENT, OR DAMAGE TO PRIVATE PROPERTY.

8. ALL EROSION CONTROL MEASURES AND STRUCTURES SHALL BE IN-PLACE AND PROPERLY INSTALLED PRIOR TO SITE DISTURBANCE OR STOCKPILING MATERIALS. EROSION CONTROL STRUCTURES SHALL BE CONSTRUCTED AND MAINTAINED BY CONTRACTOR UNTIL VEGETATION IS RE-ESTABLISHED IN DISTURBED AREAS. CONTRACTOR SHALL MAINTAIN AND MONITOR OPERATIONS THROUGHOUT THE PROJECT TO PREVENT EROSION. CONTRACTOR'S OPERATIONS SHALL NOT INJURE OR DISTURB TREES OR VEGETATION EXISTING OUTSIDE THE GRADING AREA. REFER TO EROSION CONTROL DETAILS.

9. PLACE SILT BARRIERS AT LOW POINTS AND DISCHARGE POINTS FROM THE SITE. THOSE LOCATIONS SHOWN ON THE PLANS ARE ADVISORY AND ACTUAL FIELD CONDITIONS SHALL DETERMINE LOCATIONS.

10. ALL CONSTRUCTION STAGING, PROCESSING, AND STOCKPILE AREAS SHALL BE AS DESIGNATED ON THE PLANS OR AS SPECIFICALLY APPROVED BY OWNER. DISTURBED AREAS SHALL BE RECLAIMED AND RESEEDED. USE OF TEMPORARY CONSTRUCTION STAGING AREAS SHALL CONFORM TO THE APPLICABLE PERMITS AND EASEMENT AGREEMENTS.

11. ALL REFUSE RESULTING FROM CLEARING AND GRUBBING OPERATIONS SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO HAUL OFF AND DISPOSE. CONTRACTOR SHALL NOT BURN ON THE SITE UNLESS SPECIFICALLY PERMITTED BY THE PROPERTY OWNER IN WHICH CASE ALL LOCAL REGULATIONS SHALL APPLY. THE AUTHORITY TO BURN SHALL NOT RELIEVE THE CONTRACTOR IN ANY WAY FROM DAMAGES WHICH MAY RESULT FROM HIS OPERATIONS. IN NO CASE SHALL ANY MATERIAL BE LEFT ON THE PROJECT, SHOVED ONTO ABUTTING PRIVATE PROPERTIES, OR BE BURIED IN EMBANKMENTS OR TRENCHES ON THE PROJECT.

12. CLEARING LIMITS FOR EXCAVATION AND GRADING SHALL BE AS SHOWN ON THE PLANS OR AS DIRECTED BY THE ENGINEER. CLEARING SHALL BE LIMITED TO THE REMOVAL OF STUMPS, TREES, BRUSH, AND DEBRIS REQUIRED FOR THE TRENCH EXCAVATION AND SUBGRADE CONSTRUCTION. EXISTING VEGETATION AND LARGE TREES SHALL BE PRESERVED TO THE GREATEST PRACTICABLE EXTENT.

13. AGGREGATE MATERIALS SHALL BE OBTAINED FROM APPROVED SOURCES. RAW GRAVEL MATERIAL FOR THE PRODUCTION OF BEDDING AND SUBBASE AGGREGATES MAY BE OBTAINED FROM THE EXCAVATIONS LOCATED ON THE PROJECT SITE AS AGREED TO WITH THE OWNER OR FROM EXCAVATED MATERIAL FROM THE TRENCH. AGGREGATE STOCKPILES SHALL BE ALLOWED TO DRAIN PRIOR TO PLACEMENT OF THE MATERIAL TO PREVENT SATURATING THE SUBGRADE AND CREATING SOFT SPOTS.

14. FILL MATERIAL SHALL BE SUITABLE ON-SITE OR IMPORTED MATERIAL WITH ROCK NO LARGER THAN 6 INCHES IN DIAMETER. LARGER MATERIAL MAY BE PLACED ONLY WHEN AUTHORIZED BY THE ENGINEER.

15. TOPSOIL STRIPPING FOR ROADS, DRIVEWAYS, PATHWAYS OR UTILITY LINES SHALL INCLUDE THE EXCAVATION OF SOD, TOPSOIL, AND UNSUITABLE SOILS SUCH AS CLAY, SILT, AND ORGANIC MATERIALS TO A COMPACTED SUBGRADE DEPTH WHERE SOUND GRAVEL FOUNDATION MATERIALS ARE ENCOUNTERED, OR AS OTHERWISE DIRECTED BY ENGINEER.

16. SUBGRADE, PIT RUN SUBBASE, AND SITE FILL MATERIALS SHALL BE MECHANICALLY COMPACTED TO A MINIMUM OF 95% OF MAXIMUM DRY DENSITY AS DETERMINED BY ASTM D698 (AASHTO T-99 - STANDARD PROCTOR DENSITY) IN LIFTS NOT TO EXCEED 8 INCHES IN LOOSE THICKNESS.

17. CRUSHED GRAVEL BASE MATERIAL SHALL BE GRADING H. CRUSHED GRAVEL BASE COURSES SHALL BE MECHANICALLY COMPACTED TO A MINIMUM OF 95% OF MAXIMUM DRY DENSITY AS DETERMINED BY ASTM D1557 (AASHTO T-180 - MODIFIED PROCTOR DENSITY).

18. GEOTEXTILE FABRIC MAY BE USED IN PLACE OF OVER EXCAVATION IN THE EVENT UNSUITABLE SOIL EXISTS OR EXCESSIVE TOPSOIL STRIPPING IS REQUIRED TO REACH COMPETENT ALLUVIAL MATERIAL. GEOTEXTILE FABRIC OR GRID SPECIFICATIONS MUST BE APPROVED BY THE GEOTECHNICAL ENGINEER.

19. ALL EXCAVATED MATERIALS INCLUDING STRIPPED AND SALVAGED TOPSOIL SHALL BE STOCKPILED AND PROCESSED ON-SITE.

20. TOPS OF CUT AND FILL SLOPES SHALL BE ROUNDED TO AVOID RAVELING AND EROSION.

21. TRACKED VEHICLES SHALL USE A PROTECTIVE MATERIAL TO PRESERVE CYCLE TRACK. REPAIR OF TRACK DAMAGE SHALL BE AT CONTRACTORS EXPENSE.

22. ALL EXCAVATION ACTIVITIES SHALL COMPLY WITH PERMIT REQUIREMENTS ISSUED FOR THE PROJECT. CONTRACTOR SHALL REVIEW AND BE RESPONSIBLE FOR PERMIT COMPLIANCE.

23. INSTALLATION OF CULVERTS SHOULD BE ADJUSTED TO BE LOCATED AT THE LOW SPOT OF DRAINAGE.

24. CONSTRUCTION WATER SHALL BE OBTAINED BY THE CONTRACTOR.

25. CONSTRUCTION STAKING WILL BE PROVIDED BY THE OWNER. CONTRACTOR SHALL MAKE EVERY EFFORT TO MAINTAIN STAKING. CONTRACTOR SHALL PAY FOR REPLACING STAKING THAT IS DAMAGED BY THEIR ACTION.

26. NO FUEL STORAGE IS PERMITTED ON SITE.

GENERAL CIVIL UTILITY NOTES:

1. THE LOCATIONS OF EXISTING UTILITIES AND PIPELINES SHOWN ON THE DRAWINGS ARE GENERAL. THE EXACT LOCATION OF THESE FACILITIES MAY NOT BE SHOWN ACCURATELY ON THE DRAWINGS. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO CONTACT THE UTILITY AND/OR PIPELINE COMPANIES IN THE AREA OF PLANNED WORK AND SECURE EXACT LOCATIONS FOR THOSE UTILITIES. THE CONTRACTOR SHALL REQUEST THE OWNER OF THE UTILITY TO PROVIDE THE NATURE, LOCATION, AND ELEVATION OF THE UTILITY AT EACH LOCATION AND AT WHATEVER INTERVAL IS NECESSARY FOR THE WORK. IF THE UTILITY COMPANY CANNOT OR WILL NOT PROVIDE THE INFORMATION, THE CONTRACTOR SHALL OBTAIN THE INFORMATION BY WHATEVER MEANS NECESSARY. THE CONTRACTOR SHALL SHOW THE NATURE, LOCATION, AND ELEVATION OF THE UTILITY ON THE ENGINEER'S CONTRACT DRAWINGS AND PROVIDE A COPY OF THE INFORMATION TO THE OWNER. NO TRENCHING OR EXCAVATION OPERATIONS SHALL TAKE PLACE UNTIL ALL UTILITY AND PIPELINE COMPANIES HAVE BEEN CONTACTED AND LOCATIONS AND ELEVATIONS OF THE UTILITIES AND PIPELINES CONFIRMED.

2. CONTRACTOR SHALL LOCATE ALL BURIED UTILITIES PRIOR TO CONSTRUCTION. EXISTING UNDERGROUND UTILITIES ARE SHOWN USING THE BEST AVAILABLE INFORMATION, BUT ARE NOT WARRANTED TO BE COMPLETE OR ACCURATE.THE CONTRACTOR WILL CALL THE UTILITY NOTIFICATION ONE CALL OF WYOMING, AT 1-800-844-2476, OR 811, FOR UTILITY LOCATIONS AT LEAST 2 BUSINESS DAYS, NOT INCLUDING THE DAY OF ACTUAL NOTIFICATION, PRIOR TO ANY EXCAVATION.

3. CONTRACTOR SHALL NOT INTERRUPT UTILITIES PROVIDING SERVICES TO PROPERTIES ADJACENT TO THE WORK, EXCEPT AS SPECIFICALLY APPROVED BY THE AUTHORITY HAVING JURISDICTION. SERVICES DAMAGED OR INTERRUPTED BY CONTRACTOR'S OPERATION SHALL BE IMMEDIATELY REPAIRED OR REPLACED AT THE CONTRACTOR'S EXPENSE. WHEN INTERRUPTION OF SERVICE IS APPROVED, CONTRACTOR SHALL NOTIFY OCCUPANT 24 HOURS PRIOR TO THE INTERRUPTION.

4. CONTRACTOR SHALL MAINTAIN WATER, SEWER, AND STORMWATER SLOPES CONSISTENT WITH THE PROFILES. ABRUPT ELEVATION CHANGES ARE NOT PERMITTED AND MAY REQUIRE ADDITIONAL AIR RELEASE VALVES OR BLOW-OFFS AT THE CONTRACTORS EXPENSE.

5. MAINTAIN SEPARATION BETWEEN WATER PIPES AND SEWER PIPES/MANHOLES AS SHOWN ON PLANS, MEASURED EDGE TO EDGE. MAINTAIN A MINIMUM OF 18 INCHES VERTICAL SEPARATION AT WATER-SEWER PIPE CROSSINGS. WHERE SEWER PIPE CROSSES ABOVE WATER PIPE, SPECIAL CONSTRUCTION IS REQUIRED. SEE TYPICAL DETAILS.

6. SANITARY SEWER MAIN LINES, SERVICE LINES AND FITTINGS SHALL BE SDR35 PVC AND CONFORM TO ASTM D-3034, UNLESS SHOWN OTHERWISE.

7. DEFLECT PIPE AS NECESSARY TO MAINTAIN SEPARATION BETWEEN WATER LINES AND SEWER LINES. MAXIMUM DEFLECTION 3° OR 11 INCHES FOR 8" AND 10" PIPE. DEFLECTION MAY ONLY BE MADE AFTER JOINING.

8. CONTINUOUS RIGID TYPE A PIPELINE INSULATION SHALL BE PROVIDED AS SHOWN ON THE TYPICAL TRENCH DETAIL, AT ALL LOCATIONS WHERE DEPTH OF COVER IS LESS THAN 5 FEET FOR SEWER MAINS AND SERVICES; AND LESS THEN 7 FEET FOR WATER MAINS AND SERVICES OR AS SHOWN ON THE PLANS.

9. ALL TRENCH BACKFILL SHALL BE TYPE A. MATERIALS USED FOR BEDDING AND BACKFILL SHALL BE CAREFULLY DEPOSITED IN LAYERS SUITABLE TO THE EQUIPMENT USED FOR COMPACTION, WETTED TO 3% BELOW TO 2% ABOVE OPTIMUM MOISTURE CONTENT, AND COMPACTED TO AT LEAST 96% OF MAXIMUM DENSITY AS DETERMINED BY AASHTO T-99 (STANDARD PROCTOR). COMPACTION BY FLOODING WILL NOT BE PERMITTED. TYPE B TRENCH BACKFILL SHALL NOT BE ALLOWED, UNLESS AUTHORIZED BY THE ENGINEER.

10. NO MORE THAN 30 FEET OF OPEN TRENCH SHALL BE PERMITTED WHEN THE CONTRACTOR'S PIPE INSTALLATION OPERATION IS INACTIVE. ALL OPEN TRENCH AREAS SHALL BE BARRICADED WITH SAFETY FENCE WHEN CONTRACTOR'S PIPE INSTALLATION CREW IS INACTIVE.

11. ENGINEER SHALL BE CONTACTED PRIOR TO PRIOR TO TESTING TO WITNESS TESTING.

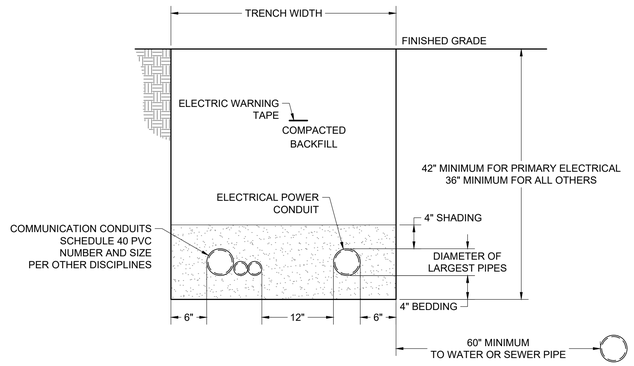
Ver. 8.0.0 Plotted by JCarneiro on May 16, 2025 - 4:05pm

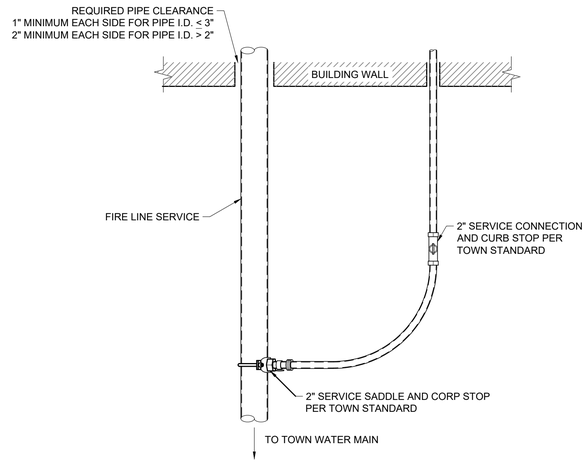


NOTE

1. TRENCH BACKFILL BELOW THE SURFACE SHALL MEET THE FOLLOWING CRITERIA:
   - TYPE A: 95% MODIFIED PROCTOR DENSITY.
   - TYPE B: DENSITY APPROXIMATELY EQUAL TO SURROUNDING SOILS.
2. COMPACTION OF NATIVE TRENCH BACKFILL, WITH ALL ROCK LARGER THAN 6" REMOVED, SHALL BE CARRIED OUT IN 2' LIFTS.
3. PIPE BEDDING SHALL BE PLACED IN 6" LIFTS AND THOROUGHLY COMPACTED WITH A JUMPING JACK TO PROVIDE UNIFORM PIPE SUPPORT.
4. UNLESS OTHERWISE DIRECTED, ALL BASE COURSE AND GRAVEL SURFACE REPLACEMENT SHALL BE INSTALLED PER WPWSS SECTION 02231, PART 3.03.
5. ALL TRENCH EXCAVATION SHALL CONFORM TO WYOMING OCCUPATIONAL HEALTH AND SAFETY ADMINISTRATION (WYOSHA) REGULATIONS.
6. PIPE ELEVATION SHALL BE PER PLANS. IF THE DEPTH SPECIFIED ON THE PLAN CANNOT BE ACHIEVED, NOTIFY THE ENGINEER.
7. PROVIDE INSULATION ACCORDING TO THE FOLLOWING CRITERIA:
   - 7.1. WHERE COVER OVER WATER OR PRESSURE SEWERS IS LESS THAN 7 FEET, PROVIDE 1 LAYER OF 2" THICK INSULATION.
   - 7.2. WHERE COVER OVER WATER OR PRESSURE SEWERS IS LESS THAN 6 FEET, PROVIDE 2 LAYERS OF 2" THICK INSULATION.
   - 7.3. WHERE SANITARY SEWER OR STORM LINES ARE LESS THAN 5 FEET, PROVIDE 1 LAYER OF 2" THICK INSULATION.
   - 7.4. WHERE SANITARY SEWER OR STORM LINES ARE LESS THAN 4 FEET, PROVIDE 2 LAYERS OF 2" THICK INSULATION.
   - 7.5. DEPTH OF COVER SHALL NOT BE LESS THAN 5 FEET FOR WATER OR PRESSURE SEWER LINES, OR LESS THAN 3 FEET FOR SANITARY SEWER OR STORM LINES WITHOUT APPROVAL FROM THE ENGINEER.

TYPICAL PIPE TRENCH DETAIL

NOT TO SCALE

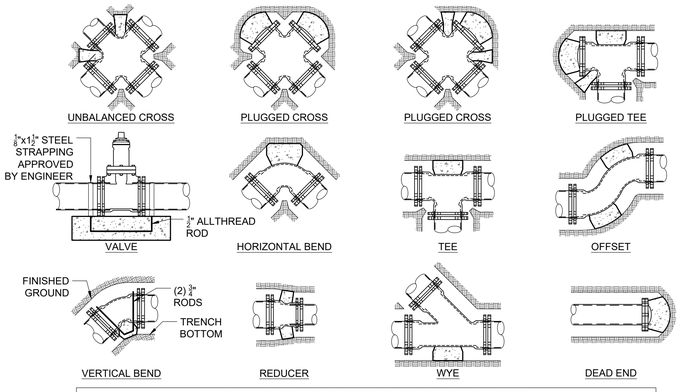


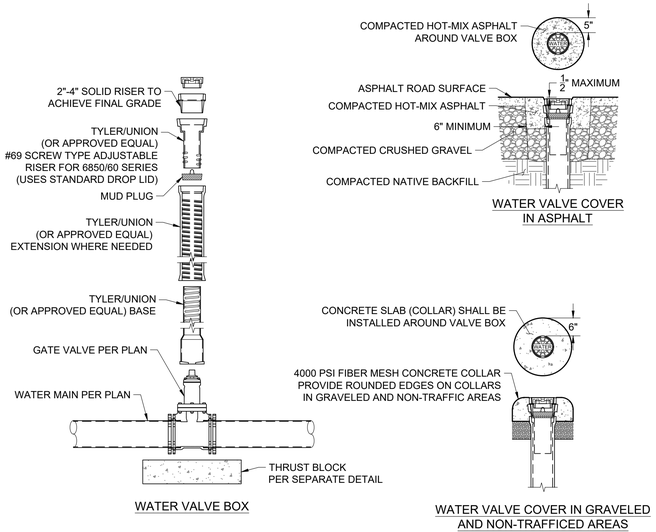
NOTE

1. WHEN ELECTRICAL CONDUCTORS CROSS OVER OR UNDER WATER AND/OR SEWER PIPES THERE SHALL BE A MINIMUM OF 12" VERTICAL SEPARATION. IN ADDITION, THE ELECTRICAL CONDUCTORS SHALL BE PROTECTED WITH NOT LESS THAN 48" OF SUITABLE PVC OR RIGID STEEL CONDUIT WITH NO LESS THAN 24" ON EITHER SIDE OF THE CROSSING.
2. CUSTOMER INSTALLED CONDUIT MUST BE INSPECTED PRIOR TO BACKFILLING. IF NOT INSPECTED, TRENCH MAY BE REJECTED.
3. ALL TRENCHES ARE TO BE INSPECTED PRIOR TO BACKFILLING.
4. 18" SEPARATION MUST BE OBTAINED BETWEEN HDPE GAS PIPE AND POWER CABLE OR TRENCH WILL BE REJECTED.
5. BEDDING AS SHADING MATERIAL MUST BE SMOOTH, FREE OF ROCKS, AND MUST BE ABLE TO SIFT THROUGH A ¼" SCREEN (SAND RECOMMENDED).

CABLE UTILITY TRENCH DETAIL

NOT TO SCALE



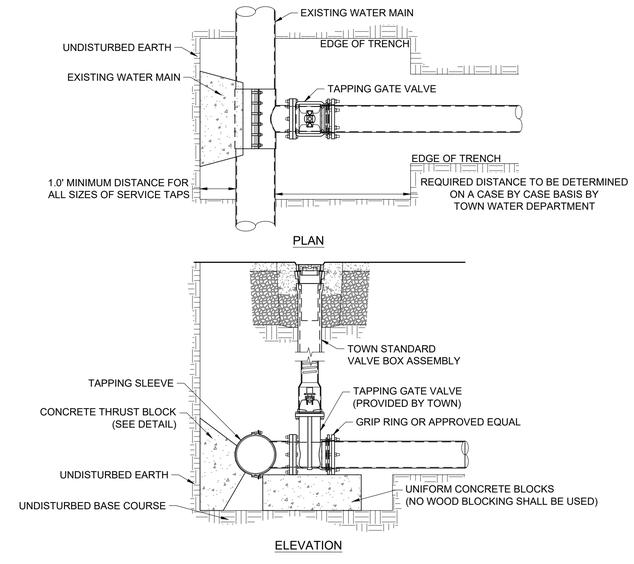


NOTE

1. FIRE SERVICE LINE ENTRY INTO BUILDING OR STRUCTURE SHALL BE SUBJECT TO REGULATIONS OF AND REVIEW BY THE TOWN OF JACKSON BUILDING DEPARTMENT AND FIRE MARSHALL.

FIRE LINE WITH 2" WATER SERVICE DETAIL

NOT TO SCALE REVISED TOJ W-110



NOTE

1. ADJUST WATER VALVE BOX UPWARD OR DOWNWARD AS REQUIRED. FINAL ADJUSTMENT SHALL BE MADE AFTER PAVING AND BEFORE SEAL COATING, OR AFTER LANDSCAPING
2. MUD PLUGS ARE REQUIRED TO BE PLACED IN ALL VALVE BOXES

WATER VALVE & COLLAR ASSEMBLY DETAIL

NOT TO SCALE

NOTE

1. THE TOWN SHALL COMPLETE THE TAPPING OF THE MAIN. NO OTHER PERSONS SHALL COMPLETE TAP WITHOUT CONSENT OF TOWN. ALL OTHER WATER MAIN WORK SHALL BE THE RESPONSIBILITY OF THE OWNER.
2. TRENCH WILL BE EXCAVATED TO MEET ALL WYOSHA STANDARDS PRIOR TO TAPPING.
3. EXCAVATION OF TAPPING LOCATION SHALL BE APPROVED BY TOJ WATER DEPARTMENT PRIOR TO TAPPING.

GENERAL RCP NOTES

1. REFER TO SHEETS G-002 & G-003 FOR ADDITIONAL GENERAL NOTES.
2. REFER TO ELECTRICAL DRAWINGS FOR LIGHTING AND POWER REQUIREMENTS.
3. SEE MECHANICAL SHEETS FOR EQUIPMENT AND DUCT LAYOUT. THERE SHALL BE NO EXPOSED MECHANICAL EQUIPMENT AND DUCTWORK. ALL EQUIPMENT TO BE WITHIN A 1HR RATED DROPPED CEILING AND ALL DUCTWORK TO BE CONCEALED IN 1HR RATED SOFFIT AND COORDINATED WITH RCP PLAN AND WINDOW LAYOUT.
4. SEE LIGHTING SCHEDULE FOR LIGHT FIXTURE TYPE.
5. SINGLE AND MULTIPLE STATION SMOKE ALARMS SHALL COMPLY WITH IBC 2021 SECTION 907.2.11.
6. CARBON MONOXIDE DECTECTION SHALL COMPLY WITH IBC 2021 SECT1ON 915.
7. REFER TO ELECTRICAL DRAWINGS FOR POWER PLANS AND EXTERIOR LIGHTING LAYOUT AND SPECIFICATION.
8. REFER TO FIRE PROTECTION DRAWINGS FOR SPRINKLER LAYOUT. COORDINATE SPRINKLER SYSTEM WITH MEP AND STRUCTURAL.

50 - 54 STC

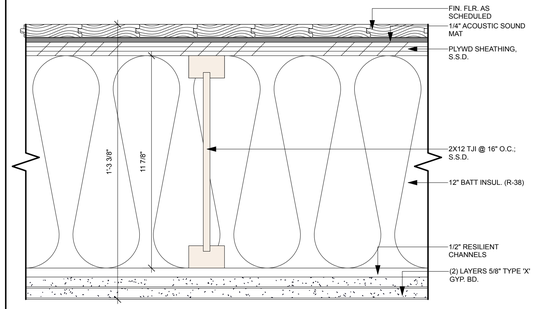
W25 **INTERIOR WALL - UNIT**

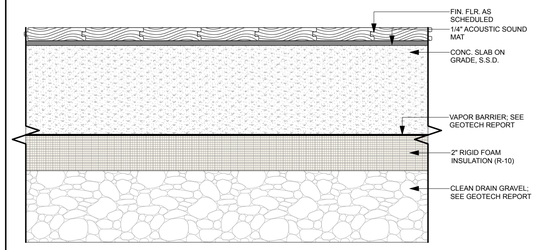
1-HR
GA FILE NO. WP 3115
UL DESIGNS U305

GENERAL WALL TYPE NOTES



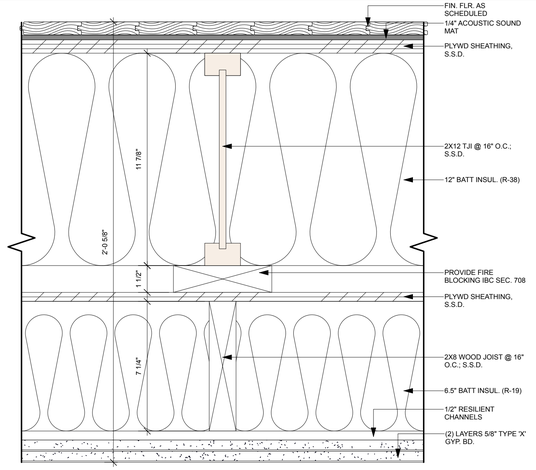
1. PROVIDE FIREBLOCKING AND DRAFTSTOPPING AS PER SECTION 718.
2. WALLS, PARTITIONS AND FLOOR-CEILING ASSEMBLIES SEPARATING DWELLING UNITS AND SLEEPING UNITS FROM EACH OTHER OR FROM PUBLIC OR SERVICE AREAS SHALL HAVE A SOUND TRANSMISSION CLASS OF NOT LESS THAN 50 WHERE TESTED IN ACCORDANCE WITH ASTM E90, OR HAVE A NORMLIZED NOISE ISOLATION CLASS (NNIC) RATING OF NOT LESS THAN 45 IF FIELD TESTED, IN ACCORDANCE WITH ASTM E336 FOR AIRBORNE NOISE.
3. SEE SHEET A-501 FOR FIRE PENETRATION AND JOINT DETAILS.
4. AS PER IBC SECTION 602.4.4.1 FIRE-RETARDANT-TREATED-WOOD FRAMING AND SHEATING COMPLYING WITH 2302.2 SHALL BE PERMITTED WITHIN EXTERIOR WALL ASSEMBLIES WITH A 2-HOUR RATING OR LESS.

1 PARTITION TYPES — SCALE: 3" = 1'-0"



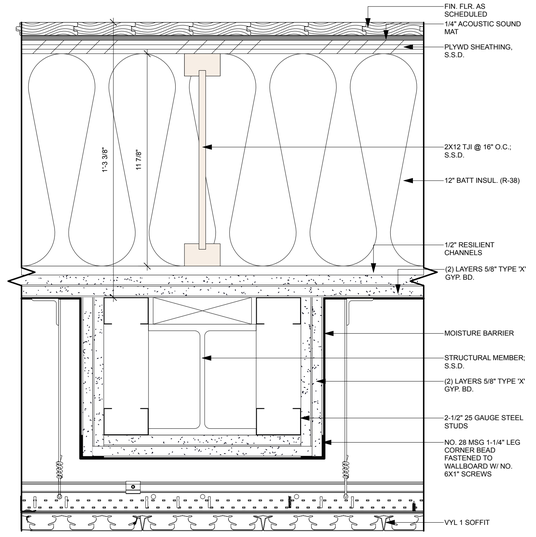
F6 **1-HR ROOF - CEILING**

1-HR
GA FILE NO. RC 2601
ROOFS SHALL HAVE A ROOF ASSEMBLY THAT COMPLIES WITH NOT LESS THAN A CLASS A RATING WHEN TESTED IN ACCORDANCE WITH ASTM E108 OR UL 790, OR AN APPROVED NONCOMBUSTIBLE ROOF COVERING.



F8 **1-HR FLOOR - CEILING**

1-HR
GA FILE NO. FC 5011
UL DESIGNS L570
60 - 64 STC



F1 **FLOOR - SLAB**

F5 **1-HR MOD FLOOR - CEILING**

1-HR
GA FILE NO. FC 5011
UL DESIGNS L570
60 - 64 STC

F8.1 **1-HR FLOOR - CEILING - PARKING**

1-HR
GA FILE NO. FC 5011
UL DESIGNS L570
60 - 64 STC

GENERAL FLOOR TYPE NOTES

1. PROVIDE FIREBLOCKING AND DRAFTSTOPPING AS PER SECTION 718.
2. WALLS, PARTITIONS AND FLOOR-CEILING ASSEMBLIES SEPARATING DWELLING UNITS AND SLEEPING UNITS FROM EACH OTHER OR FROM PUBLIC OR SERVICE AREAS SHALL HAVE A SOUND TRANSMISSION CLASS OF NOT LESS THAN 50 WHERE TESTED IN ACCORDANCE WITH ASTM E90, OR HAVE A NORMLIZED NOISE ISOLATION CLASS (NNIC) RATING OF NOT LESS THAN 45 IF FIELD TESTED, IN ACCORDANCE WITH ASTM E336 FOR AIRBORNE NOISE.
3. SEE SHEET A-501 FOR FIRE PENETRATION AND JOINT DETAILS.

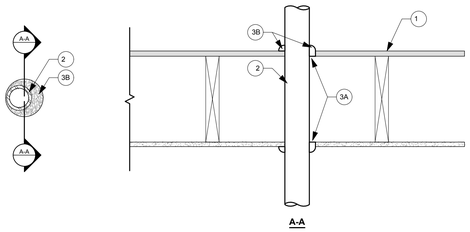
SHEET

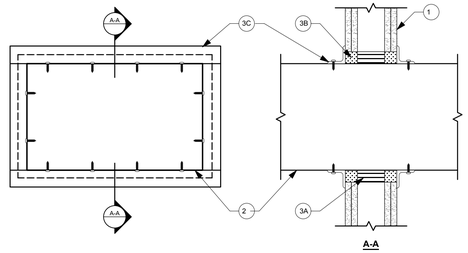
A-500.00



© TOBYLONGDESIGN 2025

SYSTEM NO. HW-S-0116

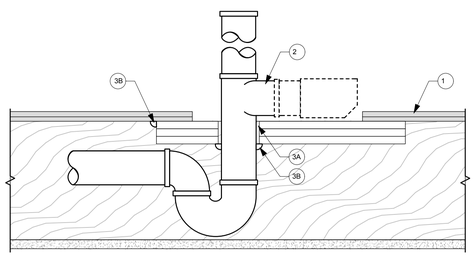
1. FLOOR OR ROOF ASSEMBLY — 1 HR FIRE-RATED FLOOR OR ROOF ASSEMBLY.
2. WALL ASSEMBLY — 1 HR FIRE-RATED GYPSUM WALL ASSEMBLY.
3. JOINT SYSTEM — MAX SEPARATION BETWEEN THE BOTTOM OF THE CEILING AND THE TOP OF THE WALL IS 1/2 IN. (13 MM). MIN 5/8 IN. (16 MM) THICKNESS OF FILLMATERIAL INSTALLED TO FILL THE JOINT, FLUSH WITH EACH SURFACE OF THE WALL.



1 1 HR RATED HEAD OF WALL JOINT
Scale: N.T.S.

SYSTEM NO. F-C-1069

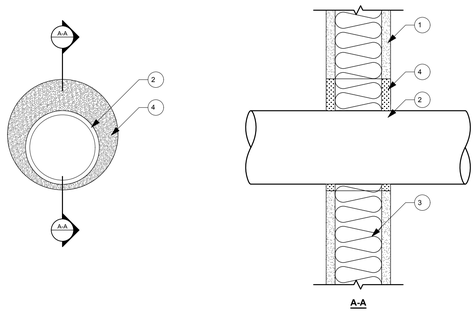
1. FLOOR - CEILING ASSEMBLY — 1 HR FIRE-RATED FLOOR OR ROOF ASSEMBLY.
2. THROUGH PENETRANTS — ONE METALLIC PIPE, CONDUIT OR TUBING TO BE INSTALLED EITHER CONCENTRICALLY OR ECCENTRICALLY WITHIN THE FIRESTOP SYSTEM. THE SPACE BETWEEN PIPES, CONDUITS OR TUBING AND PERIPHERY OF OPENING SHALL BE MIN 0 IN. (POINT CONTACT) TO MAX 7/8 IN. PIPE, CONDUIT OR TUBING TO BE RIGIDLY SUPPORTED ON BOTH SIDES OF FLOOR OR WALL ASSEMBLY.
A. STEEL PIPE — NOM 8 IN. DIAM (OR SMALLER) SCHEDULE 40 (OR HEAVIER) STEEL PIPE.
C. CONDUIT — NOM 4 IN. DIAM (OR SMALLER) STEEL ELECTRICAL METALLIC TUBING OR NOM 6 IN. DIAM (OR SMALLER) STEEL CONDUIT.
3. FIRESTOP SYSTEM — THE FIRESTOP SYSTEM SHALL CONSIST OF THE FOLLOWING:
A. PACKING MATERIAL — (OPTIONAL) — FOAM BACKER ROD FIRMLY PACKED INTO OPENING AS A PERMANENT FORM. PACKINGMATERIAL TO BE RECESSED FROM TOP SURFACE OF FLOOR AND BOTTOM SURFACE OF CEILING AS REQUIRED TO ACCOMODATE THEREQUIRED THICKNESS OF FILL MATERIAL.
B. FILL, VOID OR CAVITY MATERIAL - CAULK — MIN 1/2 IN. THICKNESS OF FILL MATERIAL APPLIED WITHIN THE ANNULUS, FLUSH WITHTOP SURFACE OF THE FLOOR AND BOTTOM SURFACE OF THE CEILING.



2 1HR RATED THROUGH PENETRATION METALLIC
Scale: N.T.S.

SYSTEM NO. W-L-7009

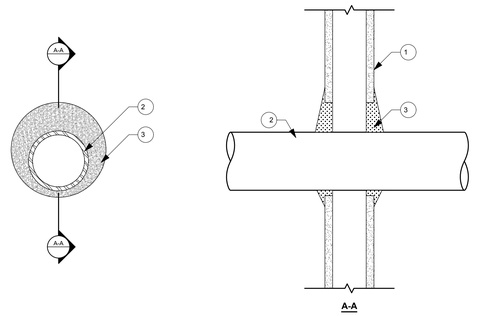
1. WALL ASSEMBLY — 1 HR FIRE-RATED WALL ASSEMBLY.
2. STEEL DUCT — MAX 12 IN. BY 12 IN. (305 BY 305 MM) NO. 24 GAUGE (OR HEAVIER) STEEL DUCT TO BE INSTALLED VERTICALLY ORHORIZONTALLY WITHIN THE FIRESTOP SYSTEM. THE ANNULAR SPACE BETWEEN THE STEEL DUCT AND THE PERIPHERY OF THE FRAMED OPENINGSHALL BE MIN 1/4 IN. (6 MM) TO MAX 2 IN. (51 MM). STEEL DUCT TO BE RIGIDLY SUPPORTED ON BOTH SIDES OF WALL ASSEMBLY.
3. FIRESTOP SYSTEM — THE FIRESTOP SYSTEM SHALL CONSIST OF THE FOLLOWING:
A. PACKING MATERIAL — MIN 2-1/2 IN. (64 MM) THICKNESS OF MIN 4 PCF (64 KG/M) MINERAL WOOL BATT INSULATION FIRMLYPACKED BETWEEN FRAMED OPENING AND STEEL DUCT AS A PERMANENT FORM.
B. FILL, VOID OR CAVITY MATERIAL - SEALANT — MIN 5/8 IN. (16 MM)THICKENSS OF FILL MATERIAL APPLIED WITHIN THE ANNULUS ON BOTH SURFACES OF WALL.
C. STEEL RETAINING ANGLES — MIN 2 BY 2 BY 0.030 IN. (51 BY 51 BY 0.76 MM) STEEL ANGLES CUT TO FIT THE CONTOUR OF THESTEEL DUCT WITH A 1 IN. (25 MM) LAP ON BOTH SURFACES OF WALL.



3 1HR RATED THROUGH PENETRATION STEEL DUCT
Scale: N.T.S.

SYSTEM NO. F-C-2189

1. FLOOR - CEILING ASSEMBLY — 1 HR FIRE-RATED FLOOR - CEILING ASSEMBLY.
2. DRAIN PIPING — NOM 2 IN. (51 MM) DIAM (OR SMALLER) SCHEDULE 40 CELLULAR OR SOLID CORE PVC OR ABS PIPE AND DRAIN FITTINGSCEMENTED TOGETHER AND PROVIDED WITH PVC OR ABS BATHTUB WASTE/OVERFLOW FITTING.
3. FIRESTOP SYSTEM — THE FIRESTOP SYSTEM SHALL CONSIST OF THE FOLLOWING:
A. FILL, VOID OR CAVITY MATERIAL - WRAP STRIP — NOM 3/16 IN. (5 MM) THICK BY 1 IN. (25 MM) WIDE INTUMESCENT WRAPSTRIP.
B. FILL, VOID OR CAVITY MATERIAL - CAULK — MIN 1/2 IN. (13 MM) DIAM BEAD OF SEALANT TO BE APPLIED AROUND THE PERIMETER OF THE GYPSUM BOARD AT ITS INTERFACE WITH THE WOOD FLOOR.



4 1HR RATED THROUGH PENETRATION DRAIN PIPE
Scale: N.T.S.

SYSTEM NO. W-L-1039

1. WALL ASSEMBLY — 1 HR FIRE-RATED WALL ASSEMBLY.
2. THROUGH PENETRANTS — ONE METALLIC PIPE, CONDUIT OR TUBING TO BE INSTALLED EITHER CONCENTRICALLY OR ECCENTRICALLY WITHIN THE FIRESTOP SYSTEM. PIPE, CONDUIT OR TUBING TO BE RIGIDLY SUPPORTED ON BOTH SIDES OF WALL ASSEMBLY.
A. STEEL PIPE — NOM 4 IN. DIAM (OR SMALLER) SCHEDULE 10 (OR HEAVIER) STEEL PIPE. THE ANNULAR SPACE SHALL BE MIN 1/4 TOMAX 1-5/8 IN.
B. CONDUIT — NOM 4 IN. DIAM OR SMALLER STEEL ELECTRICAL METALLIC TUBING OR STEEL CONDUIT. THE ANNULAR SPACE SHALL BEMIN 1/4 TO MAX 1-5/8 IN.
3. FORMING MATERIAL — MIN 2-1/2 IN. THICKNESS OF MIN 3.5 PCF MINERAL WOOL BATT INSULATION FIRMLY PACKED INTO OPENING AS APERMANENT FORM. FORMING MATERIAL TO BE RECESSED FROM BOTH SURFACES OF WALL TO ACCOMMODATE THE REQUIRED THICKNESS OF FILLMATERIAL.
4. FILL, VOID OR CAVITY MATERIAL — MIN 1/2 IN. THICKNESS OF FILL MATERIAL APPLIED WITHIN THE ANNULUS, FLUSH WITH BOTH SURFACES OF WALL.

5 1HR RATED THROUGH PENETRATION METALLIC
Scale: N.T.S.

SYSTEM NO. W-L-1087

1. WALL ASSEMBLY — 1 HR FIRE-RATED WALL ASSEMBLY.
2. THROUGH PENETRANTS — ONE METALLIC PIPE, CONDUIT OR TUBING TO BE INSTALLED EITHER CONCENTRICALLY OR ECCENTRICALLY WITHIN THE FIRESTOP SYSTEM. PIPE, CONDUIT OR TUBING TO BE RIGIDLY SUPPORTED ON BOTH SIDES OF WALL ASSEMBLY.
A. STEEL PIPE — NOM 4 IN. DIAM (OR SMALLER) SCHEDULE 10 (OR HEAVIER) STEEL PIPE. THE ANNULAR SPACE SHALL BE MIN 1/4 TOMAX 1-1/4 IN.
B. CONDUIT — NOM 4 IN. DIAM OR SMALLER STEEL ELECTRICAL METALLIC TUBING OR STEEL CONDUIT. THE ANNULAR SPACE SHALL BEMIN 1/4 TO MAX 1-1/4 IN.
3. FILL, VOID OR CAVITY MATERIAL — MIN 5/8 IN. THICKNESS OF FILL MATERIAL APPLIED WITHIN THE ANNULUS, FLUSH WITH BOTH SURFACES OF WALL.

Scale: 1/4" = 1'-0"

GENERAL DOOR NOTES

1. REFER TO ACCESSIBILITY SHEET FOR DOOR MANUVERING CLEARANCES AND DOOR THRESHOLD DETAILS.
2. SEE FLOOR PLANS FOR SWING DIRECTION.
3. VERIFY ALL WALL THICKNESSES IN FIELD PRIOR TO ORDER.
4. VERIFY ALL R.O. AND FRAME DIMS WITH PROPRIETARY DOOR FRAME MANUFACTURER'S STANDARDS AND REQUIREMENTS.
5. SEE HARDWARE SCHEDULES FOR DOOR HARDWARE GROUPS.
6. ALL GLASS DOOR PANELS SHALL BE CLEAR TEMPERED GLASS, U.O.N. PROVIDE SAFETY GLAZING AS REQUIRED BY 2021 IBC.
7. GLAZING IN EXTERIOR DOORS TO BE LOW-E INSULATED GLASS UNITS U.O.N.
8. PROVIDE SINGLE GLAZING FOR LITES IN INTERIOR DOORS, U.O.N.
9. FOR ALL EXIT DOORS:
   A. DOORS SHALL BE OPENABLE FROM THE INSIDE WITHOUT THE USE OF A KEY OR SPECIAL KNOWLEDGE OR EFFORT.
   B. FLUSH OR SURFACE BOLTS ARE PROHIBITED.
10. COORDINATE KEYING HIERARCHY WITH OWNER.
11. COORDINATE ADDITIONAL DOOR HARDWARE WITH OWNER INCLUDING BUT NOT LIMITED TO INTERCOM, KEY FOB, POWER OPERATED, AND /OR SENSOR OPENING.
12. ALL DOORS INTO STAIR ENCLOSURES ARE TO BE MAINTAINED SELF-CLOSING OR AUTOMATIC CLOSING.
13. ALL INTERIOR DOORS TO BE SOLID CORE OR SOLID WOOD, U.O.N
14. WHERE DOOR HARDWARE OPERATES BY PUSH OR PULL, THE OPERATIONAL FORCE TO UNLATCH THE DOOR SHALL NOT EXCEED 15 POUNDS (67 N).
15. FOR INTERIOR SWINGING EGRESS DOORS THAT ARE MANUALLY OPERATED, OTHER THAN DOORS REQUIRED TO BE FIRE RATED, THE FORCE FOR PUSHING OR PULLING OPEN THE DOOR SHALL NOT EXCEED 5 POUNDS (22 N).
16. FOR OTHER SWINGING DOORS, SLIDING DOORS OR FOLDING DOORS, AND DOORS REQUIRED TO BE FIRE RATED, THE DOOR SHALL REQUIRE NOT MORE THAN A 30-POUND (133 N) FORCE TO BE SET IN MOTION AND SHALL MOVE TO A FULL-OPEN POSITION WHEN SUBJECTED TO NOT MORE THAN A 15-POUND (67 N) FORCE.
17. SMOOTH 10" MIN. KICK PANEL IS TO BE PROVIDED AT ALL EXTERIOR DOORS
18. DRYER CLOSET DOOR TO BE LOUVERED AND HAVE AN OPEN AREA GREATER THAN 100 SQIN.
19. PROVIDE KNOX BOX ENTRY SYSTEM. PROVIDE ACCESS KEY INSIDE KNOX BOX AS REQUIRED BY THE FIRE DVISION. AT ALL ENTRANCES TO THE BUILDING AND ADJACENT OT FIRE RISER ROOM, FIRE ALARM CONTROL ROOM AND FIRE PUMP ROOM.
20. ELECTRIC GATES SHALL HAVE KNOX KEY SWITCHES FOR FIRE DEPARTENT ACCESS.
21. DOOR CLOSERS SHALL BE ADJUSTED SO THAT THE CLOSIING SPEED IS 5 SECONDS MINIMUM FROM 90˚ TO 12˚.

VYL 1	VINYL SOFFIT	TBD	TBD	SEE FOOTNOTE 1.
WD1	CEDAR SIDING	DELTA MILLWORKS	WESTERN RED CEDAR STK SMOOTH; COYOTE FINISH; 1X6	STAIN W/ 2 COATS AND SEAL ON THE BACKSIDE. SEE FOOTNOTE 1.
WD2	CEDAR DECKING	DELTA MILLWORKS	WESTERN RED CEDAR STK SMOOTH; COYOTE FINISH; 1X6	STAIN W/ 2 COATS AND SEAL ON THE BACKSIDE. SEE FOOTNOTE 1.
WD3	CEDAR SOFFIT	DELTA MILLWORKS	WESTERN RED CEDAR STK SMOOTH; COYOTE FINISH; 1X6	STAIN W/ 2 COATS AND SEAL ON THE BACKSIDE. SEE FOOTNOTE 1.
RF1	ROOFING	DUROLAST	PVC WHITE MEMBRANE	ROOFS SHALL HAVE A ROOF ASSEMBLY THAT COMPLIES WITH NOT LESS THAN A CLASS A RATING WHEN TESTED IN ACCORDANCE WITH ASTM E108 OR UL 790, OR AN APPROVED NONCOMBUSTIBLE ROOF COVERING.
MISC 1	PERFORATED MURAL	TBD	PERFORATED METAL SCREEN & CNC CUT METAL MURAL	SEE SHEET A-603 FOR ADDITONAL DETAILS AND SPECIFICATIONS.

EXTERIOR FINISH NOTES

1. EXTERIOR WALLS OF BUILDINGS OR STRUCTURES SHALL BE CONSTRUCTED PER SECTION 505.5 OF THE IWUIC 2024.
1. SAMPLES TO BE PROVIDED TO ARCHITECT FOR FINAL APPROVAL.
2. REFER TO MFR. GUIDELINES AND INSTALLATION METHODS.
3. ANY ALTERNATES ARE TO BE SUBMITTED TO THE ARCHITECT FOR APPROVAL PRIOR TO PURCHASE AND INSTALLATION.

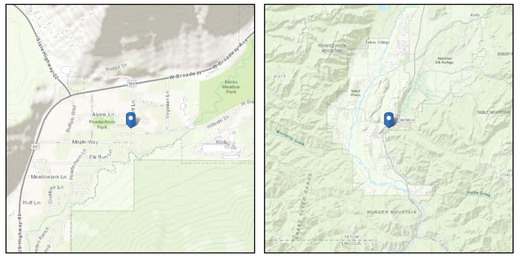
PROJECT INFORMATION & INTRODUCTION



ASCE 7 Hazards Report

Address:
910 Smith Ln
Jackson, Wyoming
83001

Standard: ASCE/SEI 7-16
Risk Category: II
Soil Class: D - Stiff Soil

Latitude: 43.471243
Longitude: -110.782753
Elevation: 0 ft (NAVD 88)

Wind

Results:

Wind Speed	105 Vmph
10-year MRI	75 Vmph
25-year MRI	81 Vmph
50-year MRI	86 Vmph
100-year MRI	91 Vmph

Data Source: ASCE/SEI 7-16, Fig. 26.5-1B and Figs. CC.2-1–CC.2-4, and Section 26.5.2
Date Accessed: Wed Dec 28 2022

Value provided is 3-second gust wind speeds at 33 ft above ground for Exposure C Category, based on linear interpolation between contours. Wind speeds are interpolated in accordance with the 7-16 Standard. Wind speeds correspond to approximately a 7% probability of exceedance in 50 years (annual exceedance probability = 0.00143, MRI = 700 years).

Site is not in a hurricane-prone region as defined in ASCE/SEI 7-16 Section 26.2.

Seismic

Site Soil Class: D - Stiff Soil
Results:

S_S :	1.046	S_{D1} :	N/A
S_1 :	0.345	T_L :	8
F_a :	1.082	PGA :	0.464

100% SUBMITTAL SET

WOOD FRAMING

1. SAWN LUMBER: ALL STRUCTURAL SAWN LUMBER SHALL BE DOUGLAS FIR LARCH WITH 19% MAXIMUM MOISTURE CONTENT OF THE FOLLOWING GRADES, CONFORMING TO STANDARD GRADING RULES FOR WEST COAST LUMBER NO. 17, UNLESS NOTED OTHERWISE. THE LUMBER GRADES AS SPECIFIED BELOW MEET MINIMUM REQUIREMENTS:

LUMBER GRADES	
CONDITION	GRADE
PLATES & BLOCKING	STANDARD OR BETTER
STUDS TO 10'-0" IN HEIGHT	STANDARD OR BETTER
STUDS OVER 10'-0" IN HEIGHT	#2
2x RAFTER JOISTS	#2
4x6 THROUGH 4x12 BEAMS, HEADER & POSTS	#2
4x14 BEAMS, HEADERS & POSTS	#1
4x4 POSTS, HEADERS	#2
6x AND LARGER POSTS, BEAMS, STRINGERS	#1

2. GRADE STAMPS: WHERE POSSIBLE ALL LUMBER GRADE STAMPS SHALL REMAIN ON LUMBER AFTER INSTALLATION. CONVENTIONAL LUMBER SHALL MEET DOC PS 20 REQ.

3. PRESSURE TREATED LUMBER: ALL EXPOSED EXTERIOR WOOD AND WOOD BEARING ON CONCRETE OR MASONRY SHALL BE PRESSURE TREATED FIR. ALL NAILS TO PLATES TREATED w/ BORATE MAY BE STANDARD NAILS, FOR ALL OTHER PRESSURE TREATED PLATES, USE HOT DIP GALVANIZED NAILS.

4. PLYWOOD/OSB: EACH WOOD-BASED STRUCTURAL-USE PANEL USED FOR DIAPHRAGM CONSTRUCTION SHALL BE IDENTIFIED BY A REGISTERED STAMP OR BRAND OF AN ICC-APPROVED COMPLIANCE ASSURANCE AGENCY.WOOD-BASED STRUCTURAL-USE PANELS SHALL MEET THE REQUIREMENTS OF DOC PS 1 OR PS 2. ALL PANELS SHALL BE GLUED WITH EXTERIOR TYPE GLUE MEETING APA SPECIFICATIONS. PANELS PERMANENTLY EXPOSED TO THE OUTDOORS SHALL BE EXTERIOR TYPE.

5. METAL CONNECTORS: ALL METAL CONNECTORS SHALL BE THOSE MANUFACTURED BY SIMPSON STRONG TIE OR USP LUMBER CONNECTORS. THE NAILS FOR THESE CONNECTORS SHALL BE AS SPECIFIED BY THE MANUFACTURERS FOR CAPACITY OF THE HARDWARE. ALL CALLOUTS REFER TO SIMPSON PRODUCT CODES AND NAMES. REFER TO CROSS REFERENCE TABLES PROVIDED BY USP IN THEIR PRODUCT CATALOGS.

6. FIRE STOPS: PROVIDE FIRE STOPS AT ALL INTERSECTIONS OF STUD WALLS AT FLOOR, CEILING AND ROOF. FIRE STOPS SHALL BE 2x NOMINAL THICKNESS OF WOOD AND SHALL BE THE FULL WIDTH OF THE ENCLOSED SPACE. PLACE FIRESTOPS AT A MAXIMUM SPACING OF 10'-0" IN THE VERTICAL DIRECTION. PROVIDE 2x FIRE STOPS IN ALL FURRED SPACES, VERTICAL AND HORIZONTAL, AND AT A MAXIMUM SPACING OF 10'-0" IN EACH DIRECTION AND AT THE SAME LINES AS FIRE STOPS IN ADJACENT STUD WALLS.

7. BOLT HOLES: IN WOOD SHALL BE 1/16" LARGER THAN THE NOMINAL BOLT DIAMETER . ALL BOLTS SHALL HAVE A STANDARD CUT WASHER UNDER HEAD AND NUT UNLESS NOTED OTHERWISE. INSPECTOR TO VERIFY.

8. BOLTS: ALL BOLTS USED FOR WOOD CONNECTIONS SHALL BE ASTM A307, U.N.O. ALL NUTS AND BOLTS SHALL BE RE-TIGHTENED PRIOR TO THE APPLICATION OF SHEATHING, PLASTER, ETC.

9. NOTCHING & CUTTING: STRUCTURAL MEMBERS SHALL NOT BE CUT FOR PIPES, ETC. UNLESS SPECIFICALLY DETAILED. NOTCHING OF HORIZONTAL STRUCTURAL MEMBERS SHALL CONFORM TO THE BUILDING CODE. NOTCHING AND BORING OF STUDS AND TOP PLATES SHALL CONFORM TO THE BUILDING CODE.

10. JOIST BLOCKING: PROVIDE 2x BLOCKING BETWEEN JOISTS AND RAFTERS AT ALL BEARING SUPPORTS U.N.O. CROSS BRIDGING OR SOLID BLOCKING SHALL BE PROVIDED AT 8'-0" O.C. MAXIMUM FOR ALL JOISTS UNLESS BOTH EDGES ARE HELD IN LINE FOR THEIR ENTIRE LENGTH.

11. JOIST HANGERS: FOR I-JOISTS, PROVIDE SIMPSON 'IUS' HANGER. FOR CONVENTIONAL JOIST, USE SIMPSON 'LUS' HANGER, OR EQUIVALENT.

12. BEAM BEARING: ALL BEAMS TO BE SUPPORTED WITH FULL BEARING UNLESS NOTED OTHERWISE.

13. CONVENTIONAL FRAMING: ALL CONVENTIONAL FRAMED PORTIONS OF THE STRUCTURE ARE TO BE CONSTRUCTED PER IBC SECTION 2308 .

14. WALLS ON WOOD FLOOR: PROVIDE SINGLE FLOOR JOIST BELOW NON-BEARING, PARALLEL WALLS 10'-0" OR LONGER.

15. FINGER JOINTED STUDS: IT IS STRUCTURALLY ACCEPTABLE TO USE STRUCTURAL GLUED (FINGER-JOINTED) LUMBER. ALL FINGER-JOINTED LUMBER MUST BE 'CER EXT JNTS' AND CONFORM WITH THE WWPA'S GLUED PRODUCTS PROCEDURES AND QUALITY CONTROL. FINGER-JOINTED LUMBER IS TO BE STAMPED WITH 'CER EXT JNTS' AND MAY BE USED INTERCHANGEABLE WITH ANY SOLID-SAWN LUMBER PRODUCT OF THE SAME SPECIES AND GRADES. PLEASE REFER TO LUMBER SPECIFICATION IN THE STRUCTURAL GENERAL NOTES AND CALCULATIONS.

16. PLATE WASHERS AT NON-SILL PLATE APPLICATION: MINIMUM SIZE FOR SQUARE PLATE WASHERS: (REFER TO SILL PLATE ANCHORAGE DETAIL FOR SILL PLATE WASHER REQUIREMENTS.)

PLATE WASHERS NON SILL PLATE APPLICATION	
BOLT SIZE	PLATE WASHER SIZE
½"	2" x 2" x 2"
⅝"	2½" x 2½" x 2½"
¾"	2⅞" x 2⅞" x 2⅞"
⅞"	3⅜" x 3" x 3"
1"	3⅞" x 3½" x 3½"

MANUFACTURED LUMBER PRODUCTS

1. MANUFACTURED LUMBER: ALL MANUFACTURED SHALL HAVE ICC APPROVAL FOR THE LATEST BUILDING CODE.

2. SIZES & STRENGTH: THE FOLLOWING MINIMUM DESIGN VALUES MUST BE ACHIEVED FOR EACH TYPE OF MANUFACTURED LUMBER SPECIFIED ON THE STRUCTURAL PLANS.

STRUCTURAL COMPOSITE LUMBER			
BEAM TYPE	MINIMUM DESIGN VALUES		
	Fb (PSI)	Fv (PSI)	E (PSI x 10 ^ 6)
PSL - PARALLAM	2,900	290	2.2
LVL - MICROLAM	2,600	285	1.9
LSL - TIMBERSTRAND	2,325	310	1.55
RIM - TIMBERSTRAND	1,700	400	1,3

3. I-JOISTS: PROVIDE FLOOR I-JOISTS AS MANUFACTURED BY I-LEVEL OR APPROVED EQUAL. THE FLOOR I-JOIST SIZES NOTED ON PLAN REFERENCE I-LEVEL PRODUCT.

4. FOR UNPROTECTED EXTERIOR APPLICATIONS, CONTRACTOR TO PROVIDE EXTERIOR GRADE PRODUCTS OF EQUIVALENT DESIGN CAPACITY PER MANUFACTURER REQUIREMENTS. CONTRACTOR TO IMMEDIATELY NOTIFY THE STRUCTURAL EOR OF ANY DISCREPANCIES, PRIOR TO THE START OF CONSTRUCTION.

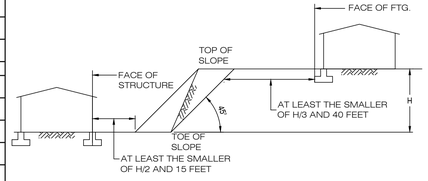
NAILS

1. DIAPHRAGM NAILING: ALL FLOOR SHEATHING, ROOF SHEATHING AND SHEAR PANELS CONSTRUCTED USING WOOD-BASED STRUCTURAL-USE PANELS SHALL BE FASTENED WITH COMMON NAILS. HARDWARE SHALL BE NAILED PER MANUFACTURER'S REQUIREMENTS, OTHERWISE SHORT NAILS MAY BE USED. NAILING SHALL BE PER THE BUILDING CODE UNLESS NOTED OTHERWISE ON THE PLANS OR DETAILS.

2. NAIL GUNS: MUST BE EQUIPPED WITH A FLUSH NAILER ATTACHMENT FOR NAILING OF PLYWOOD SHEAR WALLS, FLOOR SHEATHING AND ROOF SHEATHING.

3. NAIL MANUFACTURING: ALL NAILS MUST BE DOMESTICALLY MANUFACTURED & MEET THE REQUIREMENTS OF THE CURRENT BUILDING CODE.

4. GALVANIZED NAILS: ALL NAILS INTO PRESSURE TREATED LUMBER SHALL BE HOT DIPPED GALVANIZED OR OTHER APPROVED COATING TO RESIST CORROSION UNLESS PRESSURE TREATED PLATE IS TREATED WITH BORATE.



PROPRIETARY ANCHORAGES AND FASTENERS

1. ANCHORAGES:
   - 1.1. DRILL AND EPOXY ANCHORS: SIMPSON SET-XP EPOXY ADHESIVE SYSTEM USING THREADED STEEL RODS CONFORMING TO ASTM-F1554, GRADE 36, OR REINFORCING STEEL CONFORMING TO ASTM A615 OR A706, GRADE 60, COMPLYING WITH ICC ES ESR 2508. INSTALLERS TO BE CERTIFIED BY MANUFACTURER.
   - 1.2. SIMPSON 3G EPOXY ADHESIVE SYSTEM USING THREADED STEEL RODS CONFORMING TO ASTM-F1554, GRADE 36, OR REINFORCING STEEL CONFORMING TO ASTM A615 OR A706, GRADE 60, COMPLYING WITH ICC ES ESR 4057. INSTALLERS TO BE CERTIFIED BY MANUFACTURER.
   - 1.3. MECHANICAL ANCHORS:
     - 1.3.1. HILTI KWIK BOLT-III CARBON STEEL EXPANSION ANCHORS COMPLYING WITH ICC ESR-1385.
     - 1.3.2. HILTI KWIK BOLT-TC CARBON STEEL EXPANSION ANCHORS COMPLYING WITH ICC ES REPORT NO. 1917
     - 1.3.3. SIMPSON TITEN HD ANCHORS STEEL SCREW ANCHORS COMPLYING WITH ICC ESR-2713.
       - 1.3.3.1. TITEN HD ANCHORS SHALL BE STAINLESS STEEL IN EXPOSED WET ENVIRONMENTS.
   - 1.4. WELDED SHEAR STUDS: NELSON 3SL FLUX FILLED, HEADED STUD ANCHORS, 60,000 PSI MINIMUM ULTIMATE TENSILE STRENGTH, AUTOMATICALLY END WELDED IN FIELD CONFIRMING TO ASTM A108 AND COMPLYING WITH ICC ES REPORT NO. 2856.
   - 1.5. WELDED DEFORMED ANCHORS: NELSON D2L, COLD ROLLED, DEFORMED STEEL REINFORCING BARS CONFORMING TO ASTM A496 AND COMPLYING WITH ICC ES REPORT NO. 2907.
2. FASTENERS:
   - 2.1. POWDER ACTUATED FASTENERS: HILTI XCP, COMPLYING WITH CURRENT ICC ES REPORT NO. 2379. PROVIDE APPROPRIATE WASHER BETWEEN FASTENER HEAD AND LIGHT GAUGE METAL OR WOOD SURFACE.
     - 2.1.1. POWDER-DRIVEN FASTENERS SHALL NOT BE USED TO ANCHOR SILL PLATES EXCEPT AT INTERIOR NON-BEARING WALL NOT DESIGN AS SHEAR WALLS.
   - 2.2. SELF-DRILLING METAL SCREWS (INDICATED 'SCREWS' ON DRAWINGS): MINIMUM 0.292-INCH HEAD DIAMETER SELF-DRILLING/SELF-TAPPING STEEL SCREWS COMPLYING WITH ICC ES REPORT. MINIMUM YIELD STRESS, FY=33 KSI.
   - 2.3. FASTENERS, INCLUDING NUTS AND WASHERS, IN CONTACT WITH PRESERVATIVE-TREATED WOOD SHALL BE HOT DIPPED ZINC-COATED GALVANIZED STEEL, STAINLESS STEEL, SILICON BRONZE OR COPPER. STAPLES SHALL BE OF STAINLESS STEEL. FASTENERS OTHER THAN NAILS, STABLES, TIMBER RIVETS, WOOD SCREWS AND LAG SCREWS SHALL BE PERMITTED TO BE OF MECHANICALLY DEPOSITED ZINC-COATED STEEL WITH COATING WEIGHTS IN ACCORDANCE WITH ASTM B695, CLASS 55 MINIMUM.
     - 2.3.1. EXCEPTION: PLAIN CARBON STEEL FASTENERS, INCLUDING NUTS AND WASHERS, IN SBX/DOT AND ZINC BORATED PRESERVATIVE WOOD IN AN INTERIOR, DRY ENVIRONMENT SHALL BE PERMITTED.
3. INSTALLATION: SEE MANUFACTURER'S WRITTEN INSTRUCTIONS AND REFERENCED ICC ES REPORT.
4. TESTING FOR DRILL AND EPOXY ANCHORS:
   - 4.1. SPECIAL INSPECTION: SPECIAL INSPECTOR WILL PERFORM CONTINUOUS SPECIAL INSPECTION DURING INSTALLATION.
5. MATERIALS NOT TO BE PENETRATED BY FASTENERS OR ANCHORAGES: POST-TENSIONED CONCRETE AND PRECAST, PRESTRESSED CONCRETE UNLESS SPECIFICALLY DETAILED HEREIN OR AS ACCEPTED IN WRITING BY ARCHITECT (STRUCTURAL ENGINEER). WHEN INSTALLATION IS PERMITTED, LOCATE PRESTRESSING AND POST-TENSIONED TENDONS ACCURATELY PRIOR TO INSTALLATION.
6. DRILLING HOLES IN EXISTING CONCRETE OR MASONRY FOR ANCHORAGES: USE NON-PNEUMATIC, ROTARY HAMMER TOOLS WITH ANSI COMPLIANT NON-REBAR CUTTING DRILL BITS TO DRILL HOLES OF PROPER TOLERANCES. LOCATE EXISTING REBAR INCLUDING PRESTRESSING AND POST-TENSIONING TENDONS USING NON-HAZARDOUS, NONDESTRUCTIVE METHODS WITH ACCURATE LOCATION TOLERANCES PLUS OR MINUS ½" INCH PRIOR TO DRILLING HOLES TO AVOID CUTTING OR DAMAGING. HOLES SHALL BE THOROUGHLY CLEANED PER MANUFACTURERS WRITTEN RECOMMENDATIONS PRIOR TO INSTALLATION OF ANCHORAGES.
7. DELETERIOUS MATERIALS: KEEP ANCHORAGES, INCLUDING HOLES FOR DRILL AND EPOXY ANCHORS AND MECHANICAL ANCHORS, FREE OF DUST, GREASE, AND OTHER MATERIALS THAT IMPAIR BOND.
8. EXTERIOR PROPRIETARY ANCHORS & FASTENERS:
   - 8.1. FOR EXTERIOR APPLICATIONS & CORROSIVE ENVIRONMENTS, ALL ANCHORS SHOULD BE GALVANIZED OR STAINLESS STEEL. CONTRACTOR TO VERIFY AND PROVIDE GALVANIZED OR STAINLESS STEEL ANCHORAGE PER MANUFACTURER REQUIREMENTS. CONTRACTOR TO IMMEDIATELY NOTIFY THE STRUCTURAL EOR OF ANY DISCREPANCIES, PRIOR TO THE START OF CONSTRUCTION
9. EXTERIOR ANCHOR BOLTS AND POST BASES SHALL BE GALVANIZED AND SHALL HAVE AT LEAST TWO GALVANIZED NUTS ABOVE THE BASE PLATE.

REINFORCING STEEL

1. REINFORCING STEEL:
   - A. ALL BARS, U.N.O.: ASTM A615, GRADE 60
   - B. BARS TO BE WELDED: ASTM A706, GRADE 60
   - C. ADDITIONAL REQUIREMENTS FOR BARS, EXCLUDING TIES, IN DUCTILE MOMENT RESISTING FRAMES AND BOUNDARY ELEMENTS IN SHEAR WALLS: NO ADDITIONAL REQUIREMENTS IF ASTM A706, GRADE 60 BARS USED. ASTM615, GRADE 60 BARS ARE PERMITTED PROVIDED ACTUAL YIELD STRENGTH BASED ON MILL TESTS DOES NOT EXCEED SPECIFIED YIELD STRENGTH BY MORE THAN 18,000 PSI (PRETESTS SHALL NOT EXCEED THIS VALUE BY MORE THAN AN ADDITIONAL 3,000 PSI) AND RATIO OF ACTUAL ULTIMATE TENSILE STRESS TO ACTUAL TENSILE YIELD STRENGTH IS NOT LESS THAN 1.25.
2. WIRE AND SPIRAL REINFORCING:
   - A. SMOOTH WELDED WIRE FABRIC (W.W.F.): ASTM A185, FY=65 KSI, FLAT SHEETS ONLY. DO NOT USE ROLLED MESH. LAP SPACES (1 FOOT MINIMUM). OFFSET LAPS IN ADJACENT SHEETS TO AVOID CONTINUOUS LAPS.
   - B. DEFORMED WIRE STIRRUPS (D4 AND LARGER ONLY): ASTM A497, FY=65 KSI.
   - C. SPIRAL REINFORCING: ASTM A82, GRADE 60
3. SHOP DRAWINGS: ACI 315, PART B. SHOW REINFORCING STEEL PLACEMENT INCLUDING SIZES, QUANTITIES, SPACING, CLEARANCES, SPLICE LOCATIONS, LAP LENGTHS, AND CONCRETE COVERAGE AND SUBMIT TO ARCHITECT (STRUCTURAL ENGINEER). PROMPTLY NOTIFY ARCHITECT (STRUCTURAL ENGINEER) PRIOR TO DEVELOPING SHOP DRAWINGS IF INSUFFICIENT CLEAR DISTANCES BETWEEN REINFORCING STEEL AND OTHER CONGESTION IS ENCOUNTERED. NOTIFY SPECIAL INSPECTOR OF ADJUSTMENTS MADE FORM APPROVED CONTRACT DOCUMENTS WHICH ARE INDICATED ON ACCEPTED SHOP DRAWINGS THAT FACILITATE FIELD PLACEMENT OF REINFORCING STEEL AND CONCRETE.
4. SPLICE LOCATIONS: SPLICE #5 BARS AND LARGER ONLY AT LOCATIONS INDICATED. IF ADDITIONAL SPLICE LOCATIONS ARE PROPOSED, PROMPTLY NOTIFY ARCHITECT (STRUCTURAL ENGINEER) PRIOR TO DEVELOPING SHOP DRAWINGS.
   - A. SPLICES IN WALLS: LOCATE SPLICES IN HORIZONTAL BARS AT WELL-STAGGERED LOCATIONS. DO NOT SPLICE VERTICAL BARS EXCEPT AT HORIZONTAL SUPPORTS SUCH AS FLOOR AND ROOF DIAPHRAGMS.
5. MINIMUM CLEARANCES BETWEEN PARALLEL REINFORCING STEEL INCLUDING DISTANCE BETWEEN SETS OF SPLICED BARS: 1" OR 1 db, WHICHEVER IS GREATER. 1 ½" OR 1½ db WHICHEVER IS GREATER, AT COLUMNS, PIERS, AND PILASTERS ONLY. FOR BUNDLED BARS, MINIMUM CLEAR DISTANCES BETWEEN UNITS OF BUNDLED BARS SHALL BE SAME AS SINGLE BARS EXCEPT BAR DIAMETER IS DERIVED FROM EQUIVALENT TOTAL AREA OF BUNDLE.
6. DOWELS AT CONSTRUCTION JOINTS: PROVIDE DOWELS MATCHING SIZE AND QUANTITY OF REINFORCING STEEL INTERRUPTED AT CONSTRUCTION JOINTS, UNLESS DETAILED OTHERWISE.
7. PLACEMENT OF BARS IN WALLS: PLACE VERTICAL BARS CLOSEST TO WALL SURFACES AT CURTAINS CONTAINING VERTICAL AND HORIZONTAL BARS OF THE SAME SIZE. IN CURTAINS WHICH VERTICAL AND HORIZONTAL BARS ARE OF DIFFERENT SIZES OR SPACING, PLACE LAYER WITH MOST STEEL AREA CLOSEST TO NEAR WALL SURFACE.
8. BARS TERMINATING AT WALLS, COLUMNS, BEAMS, AND FOUNDATIONS: EXTEND BARS TO WITHIN 2" (3" AT CONCRETE POURED AGAINST EARTH) OF FAR FACE OF WALL, COLUMN, BEAM OR FOUNDATION AND PROVIDE STANDARD ACI 90-DEGREE HOOK UNLESS DETAILED OTHERWISE.
9. BARS INTERRUPTED BY STRUCTURAL STEEL: EXTEND BARS TO WITHIN 2" OF STEEL FACE AND PROVIDE STANDARD ACI 90-DEGREE HOOK UNLESS DETAILED OTHERWISE.
10. WELDING: AWS D1.4, EXCEPT AS MODIFIED BY APPLICABLE CODE STANDARD 19-1. SEE RGA #3-77 OF CITY OF LOS ANGELES 'R' BOOK FOR ADDITIONAL REQUIREMENTS IF GOVERNING CODE AUTHORITY IS CITY OF LOS ANGELES DEPARTMENT OF BUILDING AND SAFETY.
    - A. ACCEPTABLE REINFORCING STEEL FOR WELDING ASTM A706: IF WELDING OF REINFORCING STEEL OTHER THAN A706 IS DESIRED, SUBMIT PROPOSED PROCEDURE, INDICATING CONFORMANCE TO APPLICABLE CODE AND REQUIREMENTS OF GOVERNING CODE AUTHORITY, TO ARCHITECT (STRUCTURAL ENGINEER) FOR ACCEPTANCE AND TO GOVERNING CODE AUTHORITY FOR APPROVAL PRIOR TO EXECUTION.
    - B. WELDER CERTIFICATION: GOVERNING CODE AUTHORITY.
11. BENDING: BEND COLD UNLESS OTHERWISE ACCEPTED BY ARCHITECT (STRUCTURAL ENGINEER). DO NOT FIELD-BEND REINFORCING STEEL BARS EMBEDDED IN CONCRETE UNLESS OTHERWISE ACCEPTED IN WRITING BY ARCHITECT (STRUCTURAL ENGINEER).
12. LAP SPLICES: PROVIDE CLASS B SPLICES UNLESS INDICATED OTHERWISE.

SET BACK AT SLOPES STEEPER THAN 1:1

SET BACK AT SLOPES OVER 1:3 TO 1:1

FOUNDATIONS ON OR ADJACENT TO SLOPES STEEPER THAN ONE UNIT VERTICAL IN THREE UNITS HORIZONTAL SHALL COMPLY WITH THE SETBACK LIMITS ABOVE. IF SETBACK LIMITS ARE LES THAN INDICATED, A SITE SPECIFIC GEOTECHNICAL REPORT IS REQUIRED PER 2022 IBC SECTION 1808A.7)

CONCRETE

1. CONCRETE COMPRESSIVE STRENGTH: ALL CONCRETE SHALL ATTAIN A MINIMUM COMPRESSIVE STRENGTH AS SHOWN IN THE TABLE 2 BELOW AT 28 DAYS, U.N.O. ON PLANS. SEE ALSO SULFATE CONTENT NOTES.
2. AGGREGATES IN CONCRETE: SHALL BE NATURAL SAND AND ROCK (150 LB/CU. FT) CONFORMING TO ASTM C33. AGGREGATE SHALL HAVE PROVEN SHRINKAGE CHARACTERISTICS OF LESS THAN 0.04% PER ASTM C-157. DO NOT CHANGE SOURCE OF AGGREGATE DURING COURSE OF WORK WITHOUT WRITTEN CONSENT OF ENGINEER.
3. CEMENT: SHALL BE PORTLAND CEMENT CONFORMING TO ASTM C150. CEMENT SHALL BE TYPE II OR AS REQUIRED TO SATISFY SITE SOIL CONDITIONS. REFER TO TABLE 4 FOR CONCRETE CEMENT REQUIREMENTS ON SOIL CONTAINING SULFATE. REFER TO TABLE 2 FOR MAXIMUM WATER TO CEMENT RATIO.

CONCRETE STRENGTH			
CONDITION	STRENGTH, f'c	WATER / CEMENT RATIO	MAX. SLUMP
CONCRETE STEMWALL	4,500 PSI	PER MIX DESIGN	PER MIX DESIGN
FOOTING	4,500 PSI	PER MIX DESIGN	PER MIX DESIGN

4. REBAR CLEAR COVER IN CONCRETE: THE FOLLOWING MINIMUM CLEAR DISTANCES BETWEEN REINFORCING STEEL AND FACE OF CONCRETE SHALL BE MAINTAINED UNLESS NOTED OTHERWISE:

REBAR CLEAR COVER FOR CAST-IN-PLACE CONCRETE MEMBERS			
CONCRETE EXPOSURE	MEMBER	REINFORCEMENT	SPECIFIED COVER
SLAB ON GRADE	ALL	ALL	CENTER OF SLAB OR 2" MIN
CONCRETE AGAINST & PERMANENTLY IN CONTACT WITH GROUND	ALL	ALL	3"
EXPOSED TO WEATHER OR IN CONTACT WITH GROUND	ALL	No. 6 THROUGH No. 18 BARS	2"
		No. 5 BAR, W31 OR D31 WIRE, AND SMALLER	1-1/2"
NOT EXPOSED TO WEATHER OR IN CONTACT WITH GROUND	SLABS, JOISTS, AND WALLS	No. 14 AND No. 18 BARS	1-1/2"
		No. 11 BAR AND SMALLER	⅝"
	BEAMS, COLUMNS, PEDESTALS, AND TENSION TIES	PRIMARY REINFORCEMENT, STIRRUPS, TIES, SPIRALS, AND HOOPS	1-1/2"

5. VIBRATION: VIBRATION OF CONCRETE SHALL BE IN ACCORDANCE WITH GENERAL PROVISIONS OUTLINED IN PORTLAND CEMENT ASSOCIATION SPECIFICATION ST26.
6. CURING: CONCRETE SHALL BE MAINTAINED AT IN A MOIST CONDITION FOR A MINIMUM OF FIVE DAYS AFTER ITS PLACEMENT. FOR CONCRETE OTHER THAN SLAB ON GRADE, APPROVED CURING COMPOUNDS MAY BE USED IN LIEU OF MOIST CURING. ONLY IF APPROVED BY THE ENGINEER OR ARCHITECT.
7. INSPECTIONS, TESTING & QUALITY ASSURANCE: REFER TO STRUCTURAL NOTE SHEETS FOR DEPUTY SPECIAL INSPECTION, TESTING & STRUCTURAL OBSERVATION REQUIREMENTS. A MINIMUM OF ONE COMPRESSION TEST AT 7 DAYS AND 2 TESTS AT 28 DAYS FOR ALL CONCRETE SAMPLES. TAKE TEST AT A FREQUENCY OF ONCE EVERY 150 CU. YDS OR 5,000 SQ. FT MINIMUM.
8. ANCHOR BOLTS, DOWELS, INSERTS: SHALL BE TIED IN PLACE PRIOR TO POURING CONCRETE.
9. CONSTRUCTION AND POUR JOINTS: LOCATIONS SHALL BE APPROVED BY ENGINEER PRIOR TO POURING CONCRETE.
10. FLY ASH: SHALL NOT BE USED IN CONCRETE.
11. FORMWORK: FORMWORK TOLERANCE SHALL IN ACCORDANCE WITH THE C.B.C. AND A.C.I. STANDARDS.
12. HOT AND COLD WEATHER CONCRETING:
    - A. HOT WEATHER CONCRETING: WHEN AIR TEMPERATURE RISES ABOVE 80° F AND HUMIDITY FALLS BELOW 25, THE CONTRACTOR SHALL FOLLOW HOT WEATHER CONCRETING IN ACCORDANCE WITH ACI 305 5-77. CONTRACTOR SHALL BE PREPARED TO USE FOG SPRAY OR OTHER PRECAUTIONS ACCEPTABLE TO ARCHITECT WHEN RATE OF EVAPORATION EQUALS OR EXCEEDS 0.2 POUNDS PER SQUARE FOOT PER HOUR.
    - B. COLD WEATHER CONCRETING: ADEQUATE EQUIPMENT SHALL BE PROVIDED FOR HEATING CONCRETE MATERIALS AND PROTECTING CONCRETE DURING FREEZING OR NEAR FREEZING WEATHER. ALL CONCRETE MATERIALS AND ALL REINFORCEMENT, FORMS FILLERS AND GROUND WITH WHICH THE CONCRETE IS TO CONTACT SHALL BE FREE FROM FROST. FROZEN MATERIAL OR MATERIALS CONTAINING ICE SHALL NOT BE USED. COLD WEATHER CONCRETING SHALL BE DONE IN ACCORDANCE WITH ACI 306 R-78. (LATEST EDITION)
13. PIPES IN CONCRETE: PIPES MAY PASS THROUGH STRUCTURAL CONCRETE IN SLEEVES, BUT SHALL NOT BE EMBEDDED THEREIN. PIPES OR DUCTS EXCEEDING ONE-THIRD THE SLAB OR WALL THICKNESS SHALL NOT BE PLACED IN THE STRUCTURAL CONCRETE UNLESS SPECIFICALLY DETAILED.
14. EXPOSED CORNERS: PROVIDE 3/4" CHAMFERS AT ALL EXPOSED CORNERS.
15. ARCHITECTURAL DETAILS: REFER TO ARCHITECTURAL DRAWINGS FOR REVEALS, AREAS OF TEXTURED CONCRETE OR SPECIAL FINISHES, ITEMS REQUIRED TO BE CAST INTO THE CONCRETE, CURBS AND SLAB DEPRESSIONS.
16. DRYPACK OR GROUT: SHALL HAVE A MINIMUM COMPRESSIVE STRENGTH OF 2,000 PSI AND SHALL NOT BE LESS THAN THE CONCRETE STRENGTH AND SHALL BE COMPOSED OF ONE PART PORTLAND CEMENT TO NOT MORE THAN THREE PARTS SAND.

EARTHWORK AND FOUNDATIONS

1. GEOTECHNICAL REPORT: PERFORM SOILS WORK COMPLYING WITH FOUNDATION DESIGN BASED ON RECOMMENDATIONS IN SOILS REPORT. SEE STRUCTURAL COVER SHEET FOR SOILS REPORT NUMBER AND DATE.
2. ALLOWABLE FOUNDATION DESIGN VALUES PER GEOTECHNICAL REPORT: VALUES BELOW MAY BE INCREASED 33 PERCENT FOR TRANSIENT LOADING.
   - A. BEARING CAPACITY: SEE PROJECT DESIGN CRITERIA
   - B. PASSIVE LATERAL BEARING PRESSURE: SEE PROJECT DESIGN CRITERIA
   - C. COEFFICIENT OF FRICTION: SEE PROJECT DESIGN CRITERIA
3. GRADING, EXCAVATIONS, BACKFILL AND COMPACTION OF BACKFILL: COMPLY WITH GEOTECHNICAL REPORT AND REQUIREMENTS OF GOVERNING CODE AUTHORITY AND PERFORMED ONLY UNDER CONTINUOUS SPECIAL INSPECTION OF GEOTECHNICAL ENGINEER.
4. PREPARATION OF SOIL UNDER BUILDING PAD: SEE GEOTECHNICAL REPORT FOR OVER-EXCAVATION OF EXISTING SOIL AND INSTALLATION OF PROPERLY COMPACTED BACKFILL.
5. FOUNDATION EXCAVATIONS: FOUNDATIONS ARE TO BEAR ON FIRM EXISTING SOIL OR APPROVED COMPACTED FILL AS INDICATED IN GEOTECHNICAL REPORT. EXCAVATIONS ARE TO BE INSPECTED BY GEOTECHNICAL ENGINEER PRIOR TO PLACEMENT OF REINFORCING STEEL AND FORMWORK. ENSURE EXCAVATIONS ARE CLEANS, DRY AND FREE OF DEBRIS OR LOOSE SOIL. SLOPE SIDES OF EXCAVATION NOT LESS THAN MINIMUM SLOPE INDICATED IN GEOTECHNICAL REPORT. CAST CONCRETE DIRECTLY AGAINST EXCAVATED SURFACES.
6. BACKFILLING OF RETAINING WALLS: PLACE AFTER COMPLETION AND INSPECTION OF WATERPROOFING. ADEQUATELY SH

CONCRETE EXPOSURE REQUIREMENTS

ACI 318-14 TABLE 19.3.1.1 - EXPOSURE CATEGORIES AND CLASSES

CATEGORY	CLASS	CONDITION	
F FREEZING AND THAWING	F0	CONCRETE NOT EXPOSED TO FREEZING-AND-THAWING CYCLES	
	F1	CONCRETE EXPOSED TO FREEZING-AND-THAWING CYCLES WITH LIMITED EXPOSURE TO WATER	
	F2	CONCRETE EXPOSED TO FREEZING-AND-THAWING CYCLES WITH FREQUENT EXPOSURE TO WATER	
	F3	CONCRETE EXPOSED TO FREEZING-AND-THAWING CYCLES WITH FREQUENT EXPOSURE TO WATER AND EXPOSURE TO DEICING CHEMICALS	
S SULFATE	S0	WATER SOLUBLE SULFATE (SO_4^{2-}) IN SOIL, PERCENT BY WEIGHT: SO_4^{2-} < 0.10	DISSOLVED SULFATE (SO_4^{2-}) IN WATER, PPM: SO_4^{2-} < 150
	S1	0.10 ≤ SO_4^{2-} < 0.20	150 ≤ SO_4^{2-} < 1500 OR SEAWATER
	S2	0.20 ≤ SO_4^{2-} ≤ 2.0	1500 ≤ SO_4^{2-} ≤ 10,000
	S3	SO_4^{2-} > 2.00	SO_4^{2-} > 10,000
W IN CONTACT WITH WATER	W0	CONCRETE DRY IN SERVICE CONCRETE IN CONTACT WITH WATER AND LOW PERMEABILITY IS NOT REQUIRED	
	W1	CONCRETE IN CONTACT WITH WATER AND LOW PERMEABILITY IS NOT REQUIRED	
C CORROSION PROTECTION OF REINFORCEMENT	C0	CONCRETE DRY OR PROTECTED FROM MOISTURE	
	C1	CONCRETE EXPOSED TO MOISTURE BUT NOT TO EXTERNAL SOURCES OF CHLORIDES	
	C2	CONCRETE EXPOSED TO MOISTURE AND AN EXTERNAL SOURCE OF CHLORIDES FROM DEICING CHEMICALS, SALT, BRACKISH WATER, SEAWATER, OR SPRAY FROM THESE SOURCES	

ACI 318-14 TABLE 19.3.2.1 - REQUIREMENTS FOR CONCRETE BY EXPOSURE CLASS

EXPOSURE CLASS	MAX W/CM	MIN f'c	ADDITIONAL MINIMUM REQUIREMENTS			
			AIR CONTENT			LIMITS ON CEMENTITIOUS MATERIALS
			ASTM C150	ASTM C595	ASTM C1157	CALCIUM CHLORIDE ADMIXTURE
F0	N/A	2500	NO TYPE RESTRICTION	NO TYPE RESTRICTION	NO TYPE RESTRICTION	NO RESTRICTION
F1	0.55	3500	PER TABLE 19.3.3.1			N/A
F2	0.45	4500	PER TABLE 19.3.3.1			N/A
F3	0.40 [a]	5000 [a]	PER TABLE 19.3.3.1			26.4.2.2(b)
			CEMENTITIOUS MATERIALS - TYPES			
S0	N/A	2500	NO TYPE RESTRICTION	NO TYPE RESTRICTION	NO TYPE RESTRICTION	NO RESTRICTION
S1	0.50	4000	II [4,5]	TYPES IP, IS, OR IT WITH (MS) DESIGNATION	MS	NO RESTRICTION
S2	0.45	4500	V [5]	TYPES IP, IS, OR IT WITH (HS) DESIGNATION	HS	NOT PERMITTED
S3	0.45	4500	V PLUS POZZOLAN OR SLAG CEMENT [6]	TYPES IP, IS, OR IT WITH (HS) DESIGNATION PLUS POZZOLAN OR SLAG CEMENT [6]	HS PLUS POZZOLAN OR SLAG CEMENT [6]	NOT PERMITTED
W0	N/A	2500	NONE			
W1	0.50	4000	NONE			
			MAXIMUM WATER SOLUBLE CHLORIDE ION (CL-) CONTENT IN CONCRETE, PERCENT BY WEIGHT OF CEMENT [7]		ADDITIONAL PROVISIONS	
			NON-PRESTRESSED-ISSUED CONCRETE	PRESTRESSED CONCRETE		
C0	N/A	2500	1.00	0.06	NONE	
C1	N/A	2500	0.30	0.06		
C2	0.40	5000	0.15	0.06	CONCRETE COVER [8]	

1. THE MAXIMUM W/CM LIMITS IN TABLE 19.3.2.1 DO NOT APPLY TO LIGHTWEIGHT CONCRETE.
2. FOR PLAIN CONCRETE, THE MAXIMUM W/CM SHALL BE 0.45 AND THE MINIMUM f'c SHALL BE 4,500 PSI.
3. ALTERNATIVE COMBINATIONS OF CEMENTITIOUS MATERIALS TO THOSE LISTED IN TABLE 19.3.2.1 ARE PERMITTED WHEN TESTED FOR SULFATE RESISTANCE AND MEETING THE CRITERIA IN 26.4.2.2(c).
4. FOR SEAWATER EXPOSURE, OTHER TYPES OF PORTLAND CEMENTS WITH TRI-CALCIUM ALUMINATE (C_3A) CONTENTS UP TO 10 PERCENT ARE PERMITTED IF THE W/CM DOES NOT EXCEED 0.40.
5. OTHER AVAILABLE TYPES OF CEMENT SUCH AS TYPE I OR TYPE III ARE PERMITTED IN EXPOSURE CLASSES S1 OR S2 IF THE C_3A CONTENTS ARE LESS THAN 8 PERCENT FOR EXPOSURE CLASS S1 OR LESS THAN 5 PERCENT FOR EXPOSURE CLASS S2.
6. THE AMOUNT OF THE SPECIFIC SOURCE OF THE POZZOLAN OR SLAG CEMENT TO BE USED SHALL BE AT LEAST THE AMOUNT THAT HAS BEEN DETERMINED BY SERVICE RECORD TO IMPROVE SULFATE RESISTANCE WHEN USED IN CONCRETE CONTAINING TYPE V CEMENT. ALTERNATIVELY, THE AMOUNT OF THE SPECIFIC SOURCE OF THE POZZOLAN OR SLAG CEMENT TO BE USED SHALL BE AT LEAST THE AMOUNT TESTED IN ACCORDANCE WITH ASTM C1012 AND MEETING THE CRITERIA IN 26.4.2.2(c).
7. WATER-SOLUBLE CHLORIDE ION CONTENT THAT IS CONTRIBUTED FROM THE INGREDIENTS INCLUDING WATER, AGGREGATES, CEMENTITIOUS MATERIALS, AND ADMIXTURES SHALL BE DETERMINED ON THE CONCRETE MIXTURE BY ASTM C1218 AT AGE BETWEEN 28 AND 42 DAYS.
8. CONCRETE COVER SHALL BE IN ACCORDANCE WITH 20.6.

REQUIRED SPECIAL INSPECTIONS AND TESTS OF CONCRETE CONSTRUCTION PER TABLE 1705.3

CHECK IF REQUIRED	TYPE	CONTINUOUS	PERIODIC
	INSPECT REINFORCEMENT, INCLUDING PRESTRESSING TENDONS, AND VERIFY PLACEMENT		X
	REINFORCING BAR WELDING:		
	VERIFY WELDABILITY OF REINFORCING BARS OTHER THAN ASTM A706;		X
	INSPECT SINGLE-PASS FILLET WELDS, MAXIMUM $\frac{5}{16}$"; AND		X
	INSPECT ALL OTHER WELDS	X	
	INSPECT ANCHORS CAST IN CONCRETE		X
	INSPECT ANCHORS POST-INSTALLED IN HARDENED CONCRETE MEMBERS		
	• ADHESIVE ANCHORS INSTALLED IN HORIZONTALLY OR UPWARDLY INCLINED ORIENTATIONS TO RESIST SUSTAINED TENSION LOADS	X	
	• MECHANICAL ANCHORS AND ADHESIVE ANCHORS NOT DEFINED ABOVE		X
X	VERIFY USE OF REQUIRED DESIGN MIX		X
	PRIOR TO CONCRETE PLACEMENT, FABRICATE SPECIMENS FOR STRENGTH TESTS, PERFORM SLUMP AND AIR CONTENT TESTS, AND DETERMINE THE TEMPERATURE OF THE CONCRETE	X	
	INSPECT CONCRETE AND SHOTCRETE PLACEMENT FOR PROPER APPLICATION TECHNIQUES	X	
	VERIFY MAINTENANCE OF SPECIFIED CURING TEMPERATURE AND TECHNIQUES		X
	INSPECT PRESTRESSED CONCRETE FOR:		
	• APPLICATION OF PRESTRESSING FORCES; AND	X	
	• GROUTING OF BONDED PRESTRESSING TENDONS	X	
	INSPECT ERECTION OF PRECAST CONCRETE MEMBERS		X
	VERIFY IN-SITU CONCRETE STRENGTH, PRIOR TO STRESSING OF TENDONS IN POST-TENSIONED CONCRETE AND PRIOR TO REMOVAL OF SHORES AND FORMS FROM BEAMS AND STRUCTURAL SLABS		X
	INSPECT FORMWORK FOR SHAPE, LOCATION AND DIMENSIONS OF THE CONCRETE MEMBER BEING FORMED		X

EXCEPTIONS:

1. ISOLATED SPREAD FOOTINGS OF BUILDINGS THREE STORIES OR LESS ABOVE GRADE PLANE THAT ARE FULLY SUPPORTED ON EARTH OR ROCK.

2. CONTINUOUS CONCRETE FOOTINGS SUPPORTING WALLS OF BUILDINGS THREE STORIES OR LESS ABOVE GRADE PLANE THAT ARE FULLY SUPPORTED ON EARTH OR ROCK WHERE:

   2.1. THE FOOTINGS SUPPORT WALLS OF LIGHT FRAME CONSTRUCTION;
   2.2. THE FOOTINGS ARE DESIGNED IN ACCORDANCE WITH 1809.7; OR
   2.3 THE STRUCTURAL DESIGN OF THE FOOTING IS BASED ON f'c= 2,500 PSI OR LESS, REGARDLESS OF THE COMPRESSIVE STRENGTH SPECIFIED IN THE IN THE CONSTRUCTION DOCUMENTS OR USED IN THE FOOTING CONSTRUCTION.

3. NON STRUCTURAL CONCRETE SLABS SUPPORTED DIRECTLY ON THE GROUND, INCLUDING PRESTRESSED SLABS ON GRADE, WHERE THE EFFECTIVE PRE-STRESS IS LESS THAN 150 PSI.

4. CONCRETE FOUNDATION WALLS CONSTRUCTED WITH TABLE 1807.1.6.2

5. CONCRETE PATIOS, DRIVEWAYS AND SIDEWALKS ON GRADE.

REQUIRED SPECIAL INSPECTIONS AND TESTS OF SOILS PER TABLE 1705.6

CHECK IF REQUIRED	TYPE	CONTINUOUS	PERIODIC
X	VERIFY MATERIALS BELOW SHALLOW FOUNDATIONS ARE ADEQUATE TO ACHIEVE THE DESIGN BEARING CAPACITY		X
X	VERIFY EXCAVATIONS ARE EXTENDED TO PROPER DEPTH AND HAVE REACHED PROPER MATERIAL		X
X	PERFORM CLASSIFICATION AND TESTING OF COMPACTED FILL MATERIALS		X
X	VERIFY USE OF PROPER MATERIALS, DENSITIES AND LIFT THICKNESS DURING PLACEMENT AND COMPACTION OF COMPACTED FILL	X	
X	PRIOR TO PLACEMENT OF COMPACTED FILL, INSPECT SUBGRADE AND VERIFY THAT SITE HAS BEEN PREPARED PROPERLY		X

EXCEPTIONS:

WHERE SECTION 1803 DOES NOT REQUIRE REPORTING OF MATERIALS AND PROCEDURES FOR FILL PLACEMENT, THE SPECIAL INSPECTOR SHALL VERIFY THAT THE IN-PLACE DRY DENSITY OF THE COMPACTED FILL IS NOT LESS THAN 90 PERCENT OF THE MAXI-MUM DRY DENSITY AT OPTIMUM MOISTURE CONTENT DETERMINED IN ACCORDANCE WITH ASTM D1557

REQUIRED SPECIAL INSPECTIONS FOR SEISMIC RESISTANCE PER 1705.12

STRUCTURAL WOOD PER 1705.12.2

CHECK IF REQUIRED	TYPE	CONTINUOUS	PERIODIC
	INSPECTION DURING FIELD GLUING OPERATIONS OF ELEMENTS OF THE SEISMIC FORCE-RESISTING SYSTEM.	X	
X	INSPECTION FOR NAILING, BOLTING, ANCHORING AND OTHER FASTENING OF ELEMENTS OF THE SEISMIC FORCE-RESISTING SYSTEM, INCLUDING WOOD SHEAR WALLS, WOOD DIAPHRAGMS, DRAG STRUTS, BRACES, SHEAR PANELS AND HOLD-DOWNS.		X

EXCEPTION:
SPECIAL INSPECTIONS ARE NOT REQUIRED FOR WOOD SHEAR WALLS, SHEAR PANELS AND DIAPHRAGMS, INCLUDING NAILING, BOLTING, ANCHORING AND OTHER FASTENING TO OTHER ELEMENTS OF THE SEISMIC FORCE-RESISTING SYSTEM, WHERE THE FASTENER SPACING OF THE SHEATHING IS MORE THAN 4 INCHES ON CENTER.

REQUIRED SPECIAL INSPECTIONS FOR WIND RESISTANCE PER 1705.12

SPECIAL INSPECTIONS FOR WIND RESISTANCE SPECIFIED IN SECTIONS 1705.12.1 THROUGH 1705.12.3, UNLESS EXEMPTED BY THE EXCEPTIONS TO SECTION 1704.2, ARE REQUIRED FOR BUILDINGS AND STRUCTURES CONSTRUCTED IN THE FOLLOWING AREAS:

1. IN WIND EXPOSURE CATEGORY B, WHERE V IS 150 MILES PER HOUR OR GREATER.

2. IN WIND EXPOSURE CATEGORY C OR D, WHERE V IS 140 MPH OR GREATER.

STRUCTURAL WOOD PER 1705.12.1

CHECK IF REQUIRED	TYPE	CONTINUOUS	PERIODIC
--	DURING FIELD GLUING OPERATIONS OF ELEMENTS OF THE MAIN WINDFORCE RESISTING SYSTEM	X	--
X	INSPECTION OF NAILING, BOLTING, ANCHORING AND OTHER FASTENING OF ELEMENTS OF THE MAIN WINDFORCE-RESISTING SYSTEM, INCLUDING WOOD SHEAR WALLS, WOOD DIAPHRAGMS, DRAG STRUTS, BRACES AND HOLD-DOWNS.	--	X

EXCEPTION:
SPECIAL INSPECTIONS ARE NOT REQUIRED FOR WOOD SHEAR WALLS, SHEAR PANELS AND DIAPHRAGMS, INCLUDING NAILING, BOLTING, ANCHORING AND OTHER FASTENING TO OTHER ELEMENTS OF THE MAIN WINDFORCE-RESISTING SYSTEM, WHERE THE LATERAL RESISTANCE IS PROVIDED BY STRUCTURAL SHEATHING, AND THE SPECIFIED FASTENER SPACING AT THE PANEL EDGES IS MORE THAN 4 INCHES (102 MM) ON CENTER.

WIND RESISTING COMPONENTS PER 1705.12.3

CHECK IF REQUIRED	TYPE	CONTINUOUS	PERIODIC
--	ROOF COVERING, ROOF DECK AND ROOF FRAMING CONNECTIONS.	--	X
--	EXTERIOR WALL COVERING AND WALL CONNECTIONS TO ROOF AND FLOOR DIAPHRAGMS AND FRAMING.	--	X

STRUCTURAL STEEL NOTES

1. FABRICATION & ERECTION: ALL FABRICATION & ERECTION SHALL CONFORM TO THE LATEST STANDARDS OF THE AMERICAN INSTITUTE OF STEEL CONSTRUCTION (AISC) SPECIFICATIONS FOR STRUCTURAL STEEL BUILDINGS.

2. ASTM SPECIFICATIONS: STRUCTURAL STEEL SHALL CONFORM TO THE FOLLOWING ASTM SPECIFICATIONS:

TABLE 1 - STEEL MATERIAL SPECIFICATIONS	
STEEL SHAPE	ASTM SPECIFICATION
W	A992 OR A572 GRADE 50
M, S, HP	A36 OR A572 GRADE 50
C - CHANNEL	A572 GRADE 50
L - ANGLE	A36
PLATES & BAR	A36
STEEL PIPE	A53 GRADE B
ROUND HSS	A500 GRADE B OR C
SQ. & RECT. HSS	A500 GRADE B OR C
MACHINE BOLTS	A325, A490, F1852, F2280
NUTS	A563, A194
WASHERS	F436
ANCHOR RODS	F1554-A36
SHEAR STUDS	A108

3. STEEL EXPOSED TO WEATHER OR CORROSIVE ENVIRONMENT: ALL STEEL EXPOSED TO WEATHER OR CORROSIVE ENVIRONMENT SHALL BE HOT DIP GALVANIZED AFTER FABRICATION IN COMPLIANCE WITH ASTM A123. ALL FIELD WELDS ON GALVANIZED STEEL SHALL BE TREATED WITH ZINC-RICH PAINT IN COMPLIANCE WITH ASTM A780.

4. STEEL FABRICATION: ALL STEEL FABRICATION SHALL BE PERFORMED IN A SHOP APPROVED BY THE GOVERNING JURISDICTION DEPARTMENT OF BUILDING & SAFETY.

5. STEEL FABRICATOR: THE STRUCTURAL STEEL FABRICATOR SHALL PROVIDE A SET OF SHOP FABRICATION DRAWINGS FOR APPROVAL TO THE ENGINEER OF RECORD. THE FABRICATOR SHALL NOT FABRICATE THE STEEL UNTIL THE ENGINEER OF RECORD HAS APPROVED THE SHOP DRAWINGS.

6. WELDING: ALL WELDING SHALL BE IN CONFORMANCE WITH THE LATEST AISC & AMERICAN WELDING SOCIETY (AWS) STANDARDS. ALL WELDING SHALL BE PERFORMED USING A SHIELDED ARC PROCESS USING APPROVED ELECTRODES CONFORMING TO AWS SPECIFICATION E70XX (LOW HYDROGEN). WELD MATERIAL SHALL COMPLY WITH AWS CERTIFICATION AND POSSESS A CHARPY V-NOTCH TOUGHNESS OF 20 FT-LBS AT -20 DEGREES F. WELDING SHALL BE PERFORMED BY ONLY AWS CERTIFIED WELDERS.

7. WELDING PROCEDURES: A WRITTEN WELDING PROCEDURE SPECIFICATIONS (WPS) PER AWS D1.1 SHALL BE DEVELOPED BY THE FABRICATOR/ERECTOR AND REVIEWED BY THE ENGINEER OF RECORD AND THE BUILDING DEPARTMENT.

8. ERECTION AIDS: THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL ERECTION AIDS AND JOINT PREPARATIONS THAT INCLUDE, BUT ARE NOT LIMITED TO, ERECTION ANGLES, LIFT HOLES AND OTHER AIDS, WELDING PROCEDURES, REQUIRED ROOT OPENINGS, ROOT FACE DIMENSIONS, GROOVE ANGLES, BACKING BARS, COPES, SURFACE ROUGHNESS AND UNEQUAL PARTS.

9. FIELD WELDING: FIELD WELDING SHALL BE PERFORMED BY A BUILDING DEPARTMENT CERTIFIED WELDERS. FIELD WELDING REQUIRES CONTINUOUS SPECIAL INSPECTION. PERIODIC FIELD SPECIAL INSPECTION IS ACCEPTABLE FOR FLOOR AND ROOF DECK WELDING, STUD WELDING & WELDING OF STAIR/HANDRAIL SYSTEMS.

10. BOLTING: BOLTING OF STRUCTURAL STEEL SHALL MEET THE RESEARCH COUNCIL ON STRUCTURAL CONNECTIONS (RCSC) 2000 EDITION SPECIFICATIONS FOR STRUCTURAL JOINTS USING A325 & A490 BOLTS FOR TYPES X, N & SC.

11. CAMBER: ALL STEEL BEAMS SHALL HAVE STANDARD MILL CAMBER UNLESS NOTED OTHERWISE ON THE STRUCTURAL PLANS.

QUALITY ASSURANCE (STRUCTURAL OBSERVATION, MATERIALS TESTING, AND SPECIAL INSPECTION)

1. STRUCTURAL OBSERVATION:
   A. COORDINATION RESPONSIBILITIES OF CONTRACTOR: NOTIFY ARCHITECT (STRUCTURAL ENGINEER) 48 HOURS IN ADVANCE OF CRITICAL STAGES OF CONSTRUCTION INDICATED BELOW SO VISITS MAY BE SCHEDULED BY STRUCTURAL OBSERVER. FAILURE BY CONTRACTOR TO MEET OBSERVATION SCHEDULE MAY REQUIRE REMOVAL OF SUBSEQUENT WORK FOR OBSERVATION. CONTRACTOR TO BEAR COSTS OF REMOVAL AND REPLACEMENT OF FINISHED WORK OR FRAMING DAMAGED BY REMOVAL PROCESS OR AS REQUIRED FOR CORRECTIVE ACTION.
   B. PRE-CONSTRUCTION MEETING: OWNER MAY COORDINATE AND CALL FOR MEETING BETWEEN ARCHITECT (STRUCTURAL ENGINEER) RESPONSIBLE FOR STRUCTURAL DESIGN, STRUCTURAL OBSERVER, CONTRACTOR, AFFECTED SUBCONTRACTORS AND SPECIAL INSPECTOR. STRUCTURAL OBSERVER WILL PRESIDE OVER THIS MEETING. PURPOSE OF MEETING IS TO IDENTIFY MAJOR STRUCTURAL ELEMENTS AND CONNECTIONS THAT AFFECT VERTICAL AND LATERAL LOAD RESISTING SYSTEMS OF STRUCTURE AND TO REVIEW SCHEDULE OF STRUCTURAL OBSERVATION, MATERIALS TESTING, AND SPECIAL INSPECTION OF PROJECT.
   C. CRITICAL STAGES OF CONSTRUCTION REQUIRING STRUCTURAL OBSERVATION:
      I. CASTING OF CONCRETE
      II. COVERING OF FRAMING

2. MILL TEST REPORTS CERTIFYING MATERIALS: CONTRACTOR TO SUBMIT MILL TEST REPORTS CERTIFYING REINFORCING STEEL, STRESSING TENDONS, AND STRUCTURAL STEEL ARE OF IDENTIFIABLE TESTED STOCK TO OWNER, SPECIAL INSPECTOR, ARCHITECT (STRUCTURAL ENGINEER) AND, UPON REQUEST, TO GOVERNING CODE AUTHORITY. ENSURE MATERIALS ARE PROPERLY TAGGED FOR IDENTIFICATION. IF MILL TEST REPORTS CANNOT BE MADE AVAILABLE OR IF MATERIAL CANNOT BE IDENTIFIED, TESTING LABORATORY WILL PERFORM TESTS AS DIRECTED BY ARCHITECT (STRUCTURAL ENGINEER). CONTRACTOR SHALL PAY TESTING RELATED TO TESTS AND INSPECTIONS OF UNIDENTIFIABLE MATERIALS FURNISHED WITHOUT MILL LABORATORY FOR COSTS TEST REPORTS, MATERIALS FOUND DEFICIENT AFTER INITIAL TESTS AND INSPECTIONS, OR MATERIALS REPLACING DEFICIENT MATERIALS.
   A. ULTRASONIC EXAMINATION OF HEAVY ROLLED SHAPES AND THICK PLATES AT PROPOSED WELDED MOMENT CONNECTIONS: WHERE COMPLETE PENETRATION GROOVE WELDS OCCUR AT GROUPS 4 AND 5 STRUCTURAL STEEL SHAPES, AS DEFINED IN ASTM A6, AND PLATES EXCEEDING 2 INCHES THICK, SUBMIT MILL TEST REPORTS TO ARCHITECT (STRUCTURAL ENGINEER) AND, UPON REQUEST, TO GOVERNING CODE AUTHORITY. MILL TEST REPORTS SHALL CERTIFY THAT CHARPY V-NOTCH TESTING WAS CONDUCTED IN COMPLIANCE WITH ASTM A6, SUPPLEMENTARY REQUIREMENT S5, INCLUDING IMPACT TEST COMPLYING WITH ASTM A673 AT FREQUENCY P WITH MINIMUM AVERAGE VALUE OF 20 FT.-LBS. ABSORBED ENERGY AT 70 DEGREES FAHRENHEIT.

3. CERTIFICATE OF COMPLIANCE FOR OFFSITE FABRICATION: SUBMIT FOR STRUCTURAL STEEL, GLU-LAMS, AND PLYWOOD-WEB JOISTS, PRECAST CONCRETE IN COMPLIANCE WITH APPLICABLE CODE SECTION 1701.7. SUBMIT TO OWNER, TESTING LABORATORY, ARCHITECT (STRUCTURAL ENGINEER) AND GOVERNING CODE AUTHORITY.

4. WELD TESTING AND INSPECTION: TESTING LABORATORY WILL SUBMIT WELD TEST RESULTS TO OWNER, CONTRACTOR, ARCHITECT (STRUCTURAL ENGINEER) AND, UPON REQUEST, TO GOVERNING CODE AUTHORITY. SEE SPECIFICATIONS FOR TESTING REQUIREMENTS NOT INDICATED ON STRUCTURAL DRAWINGS.

A. STRUCTURAL STEEL WELDING NOT DESTRUCTIVE TESTING REQUIREMENTS: APART FROM VISUAL INSPECTION AND REVIEW OF FABRICATION AND ERECTION REPORTS OF FABRICATOR/ERECTOR'S OWN QUALITY CONTROL TESTING AND INSPECTION, OWNER'S TESTING LABORATORY WILL PERFORM INDICATED SHOP AND FIELD INSPECTION AND TESTING. TESTING LABORATORY WILL BE AWS CERTIFIED AND UPON REQUEST, PROVIDE INSPECTORS FOR CONTINUOUS INSPECTION OF STEEL FABRICATION AND ERECTION AND STRUCTURAL WELDING. SHOP AND FIELD TESTING OF MATERIALS AND WELDING WILL BE AS FOLLOWS:
   I. COMPLETE JOINT PENETRATION WELDS: FOR STRUCTURES IN RISK CATEGORY III OR IV ULTRASONIC TESTING (UT) SHALL BE PERFORMED BY QA ON ALL CJP GROOVE WELDS SUBJECT TO TRANSVERSELY APPLIED TENSION LOADING IN BUTT, T- AND CORNER JOINTS, IN MATERIALS 5/16 IN. THICK OR GREATER. FOR STRUCTURES IN RISK CATEGORY II, UT SHALL BE PERFORMED BY QA ON 10% OF CJP GROOVE WELDS IN BUTT, T- AND CORNER JOINTS SUBJECT TO TRANSVERSELY APPLIED TENSION LOADING, IN MATERIALS 5/16 IN THICK OR GREATER. FOR STRUCTURES IN RISK CATEGORY I, NDT OF CJP GROOVE WELDS IS NOT REQUIRED. FOR ALL STRUCTURES IN ALL RISK CATEGORIES, NDT OF CJP GROOVE WELDS IN MATERIALS LESS THAN 5/16 IN THICK IS NOT REQUIRED.
   II. ACCESS HOLES: THERMALLY CUT SURFACES OF ACCESS HOLES SHALL BE TESTED BY QA USING MT OR PT, WHEN THE FLANGE THICKNESS EXCEEDS 2 IN. (50 MM) FOR ROLLED SHAPES, OR WHEN THE WEB THICKNESS EXCEEDS 2 IN FOR BUILT-UP SHAPES. ANY CRACK SHALL BE DEEMED UNACCEPTABLE REGARDLESS OF SIZE OR LOCATION.

5. CONTINUOUS SPECIAL INSPECTION: UNLESS OTHERWISE INDICATED, CONTINUOUS SPECIAL INSPECTION WILL BE PERFORMED BY SPECIAL INSPECTOR COMPLYING WITH APPLICABLE CODE SECTION 1701 AND SPECIFICALLY APPROVED BY GOVERNING CODE AUTHORITY FOR EACH INSPECTION CATEGORY BELOW. PERIODIC INSPECTION IS NOT PERMITTED UNLESS INDICATED IN THE PROGRAM OR OTHERWISE ACCEPTED BY ARCHITECT (STRUCTURAL ENGINEER). SEE SPECIFICATIONS FOR ADDITIONAL SPECIAL INSPECTION REQUIREMENTS.

ENGINEER OF RECORD - STRUCTURAL OBSERVATION PROGRAM

STRUCTURAL OBSERVATIONS FOR SEISMIC & WIND RESISTANCE:

1. THE OWNER SHALL EMPLOY THE ENGINEER OR ARCHITECT REGISTERED/LICENSED IN THE STATE OF CALIFORNIA WHO IS RESPONSIBLE FOR THE STRUCTURAL DESIGN TO PERFORM STRUCTURAL OBSERVATION(S).

   ENGINEER IN RESPONSIBLE CHARGE/ENGINEER OF RECORD:

   NAME: SHAWN LOTHROP, SE
   LIC #: S5627

   OBSERVER DESIGNATED BY E.O.R. RESPONSIBLE FOR STRUCTURAL OBSERVATION(S):

   NAME: SHAWN LOTHROP, SE
   LIC #: S5627

2. STRUCTURAL OBSERVATIONS SHALL BE PROVIDED BY THE DESIGNATED STRUCTURAL OBSERVER FOR ALL BUILDINGS AT THE FOLLOWING STAGES OF CONSTRUCTION, UNLESS OTHERWISE AUTHORIZED OR REQUESTED IN WRITING BY THE BUILDING OFFICIAL:

   A. PRE-CONCRETE POUR REBAR OBSERVATION
   B. WOOD FRAMING OBSERVATION PRIOR TO COVERING w/ FINISH & AFTER ROOF LOAD

3. PRIOR TO COMMENCEMENT OF OBSERVATION, THE STRUCTURAL OBSERVER SHALL SUBMIT TO THE BUILDING DEPARTMENT A WRITTEN STATEMENT IDENTIFYING THE FREQUENCY AND EXTENT OF THE STRUCTURAL OBSERVATION.

4. AT THE CONCLUSION OF WORK, THE STRUCTURAL OBSERVER SHALL SUBMIT TO THE BUILDING DEPARTMENT A WRITTEN STATEMENT THAT THE STRUCTURAL OBSERVATION VISITS HAVE BEEN MADE AND IDENTIFY ANY REPORTED DEFICIENCIES WHICH, TO THE BEST OF THE STRUCTURAL OBSERVER'S KNOWLEDGE, HAVE NOT BEEN RESOLVED.

DEPUTY SPECIAL INSPECTOR

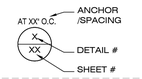
1. DEPUTY SPECIAL INSPECTIONS SHALL BE PROVIDED BY:

   NAME:
   PHONE NUMBER:

2. SPECIAL INSPECTOR SHALL BE HIRED BY THE OWNER TO PROVIDE SPECIAL INSPECTIONS AS REQUIRED PER THE PLANS.

3. SPECIAL INSPECTOR: A QUALIFIED PERSON, EMPLOYED BY THE OWNER, WHO HAS DEMONSTRATED COMPETENCE TO THE SATISFACTION OF THE BUILDING OFFICIAL FOR INSPECTION OF THE PARTICULAR TYPE OF CONSTRUCTION OR OPERATION REQUIRING SPECIAL INSPECTION. DUTIES INCLUDE VISUAL INSPECTIONS AND FIELD MEASUREMENTS OF MATERIALS, OBTAINING SPECIMENS FOR TESTS AND RELATED ACTIONS INCLUDING PREPARATION OF REPORTS.

4. CONTINUOUS INSPECTION: ON SITE INSPECTION BY THE SPECIAL INSPECTOR ON A CONTINUOUS BASIS OBSERVING ALL WORK REQUIRING SPECIAL INSPECTION.



5. PERIODIC INSPECTION: INTERMITTENT INSPECTION AS PERMITTED BY THE PLAN, SPECIFIED AT PRE-DETERMINED INTERVALS OR MORE FREQUENTLY AS WORK PROGRESSES. NO SIGNIFICANT ELEMENTS OR AREAS SHALL BE COVERED BY ADDITIONAL WORK UNTIL APPROVED BY THE BUILDING OFFICIAL AND/OR SPECIAL INSPECTOR.

6. REPORTS SHALL BE SUBMITTED TO THE BUILDING OFFICIAL IN A TIMELY MANNER AS DETERMINED BY THE BUILDING OFFICIAL.

NOTES:
1. REFER TO DETAILS CALLED OUT ON FOUNDATION PLAN FOR CONCRETE PEDESTAL CONDITION.
2. REFER TO FOUNDATION PLAN FOR SPECIFIC REBAR LAYOUT REQUIREMENTS NOT SHOWN IN TYPICAL DETAIL.

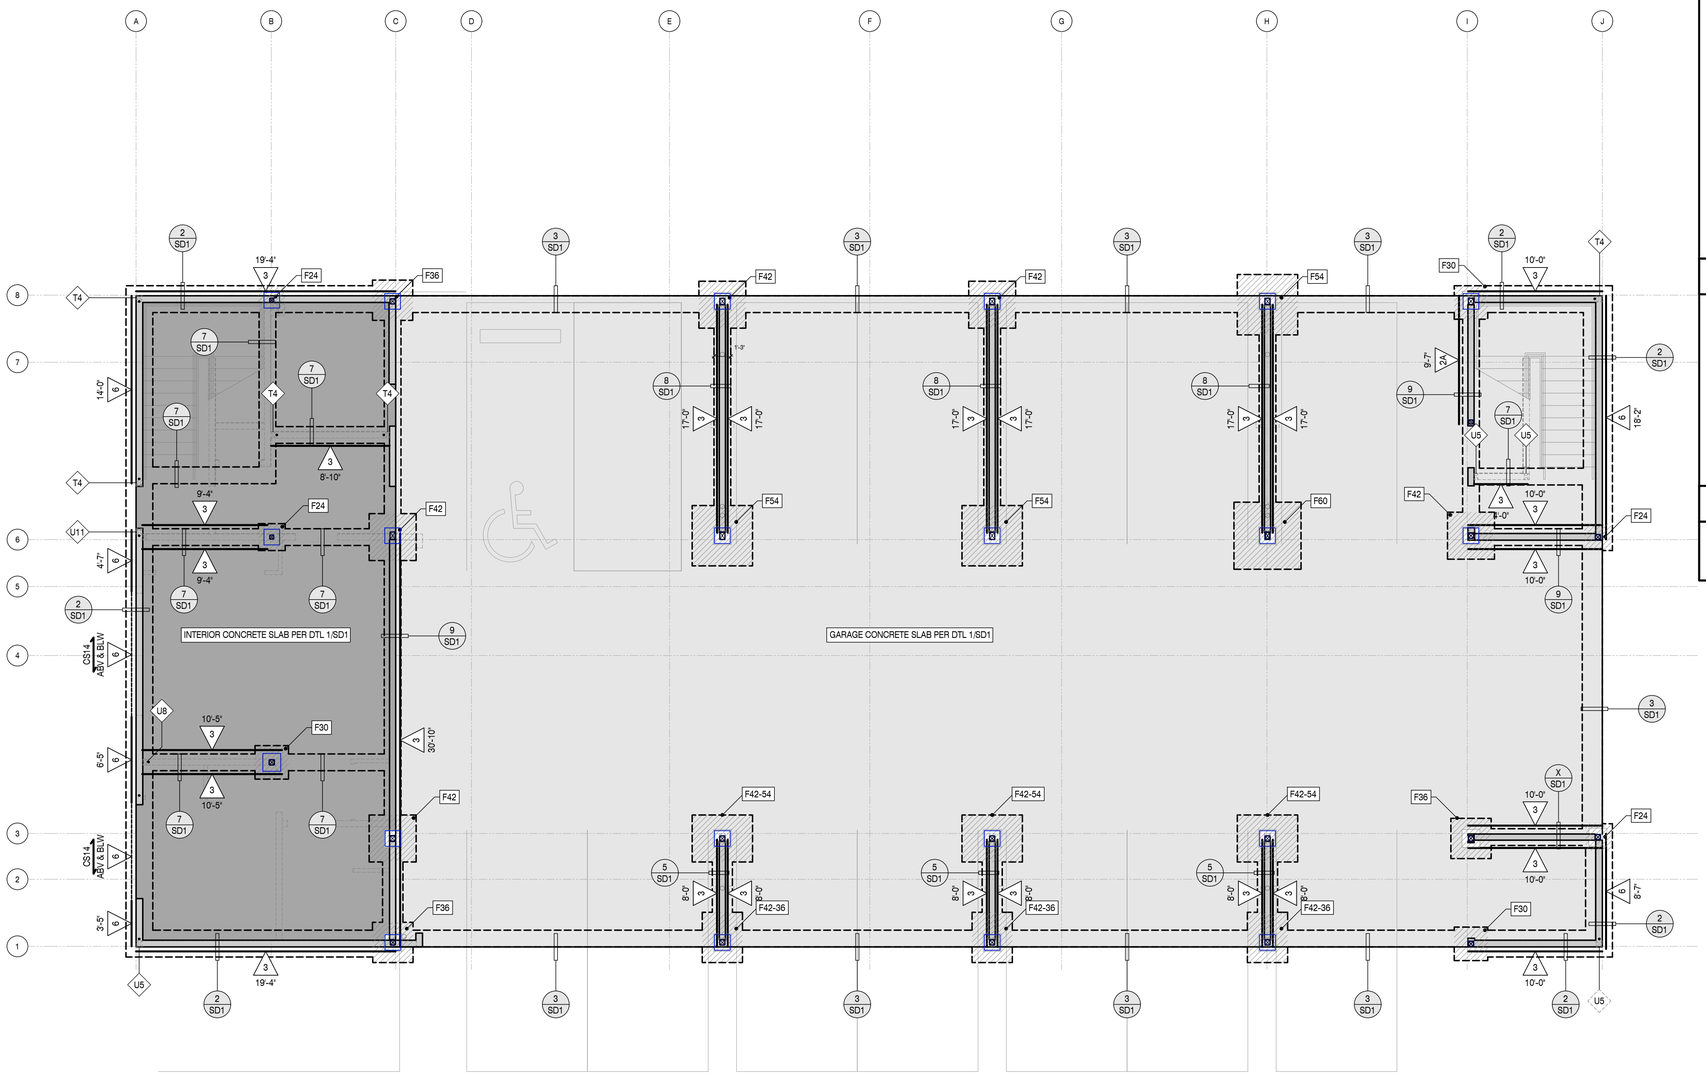
FOUNDATION NOTES

1. INSTALL HOLDOWN ANCHOR BOLTS PER DETAIL 10/SD1. REFER TO DETAIL 12/SD1 FOR TYP STEEL BASE PLATE CONNECTION TO FOOTING. PROVIDE AND INSTALL ALL U.S.P. OR SIMPSON LUMBER CONNECTORS (OR EQUAL) FOUNDATION HARDWARE PER MANUFACTURERS RECOMMENDATIONS. DEEPEN FOOTING WHERE NECESSARY TO PROVIDE ANCHOR EMBEDMENT AT HOLDOWN LOCATIONS.
2. REFER TO DETAIL 4/SD0 FOR FOR ANCHOR BOLT SPACING AND ANCHOR BOLT INSTALLATION.
3. REFER TO DETAIL PACKAGE FOR TYPICAL CONDITIONS NOT SPECIFICALLY CALLED OUT OR NOTED ON PLANS.
4. ALL DIMENSIONS SHALL BE PER THE CURRENT APPROVED STAMPED SET OF ARCHITECTURAL PLANS. OUR OFFICE SHOULD BE NOTIFIED IMMEDIATELY IF DISCREPANCIES EXIST BETWEEN THE ARCHITECTURAL & STRUCTURAL PLANS.
5. CONSTRUCT CONTINUOUS FOOTINGS AT CORNERS AND INTERSECTIONS PER DETAIL 2/SD0 FOUNDATION SIZES, DEPTHS, AND REINFORCEMENT SHOULD BE COORDINATED WITH THE OWNER/DEVELOPER'S SOILS ENGINEERS REPORT. SOILS ENGINEER REPORT MAY REQUIRE ADDITIONAL ITEMS NOT NOTED ON THE STRUCTURAL PLANS.
5. CLIENT/OWNER SHALL ADDRESS CORROSIVE SOIL CONDITIONS. FOR HIGH SULFATE SOIL CONDITIONS, MITIGATE PER ACI TABLE 4.3.1. THE CLIENT/OWNER SHALL HAVE A CORROSION ENGINEER PROVIDE MITIGATION RECOMMENDATIONS FOR ALL OTHER CORROSIVE SOIL CONDITIONS. CLIENT IS RESPONSIBLE TO REVIEW STRUCTURAL PLANS AND DETAILS FOR COMPLIANCE TO CORROSION ENGINEER'S RECOMMENDATIONS PRIOR TO CONSTRUCTION.

GEOTECHNICAL INFORMATION

1. REFER TO STRUCTURAL COVER SHEET (SCS) FOR ASSUMED SOIL VALUES OR VALUES BASED ON THE PROVIDED GEOTECHNICAL (SOILS) REPORT:
2. PRIOR TO REQUESTING A BUILDING DEPARTMENT FOUNDATION INSPECTION, THE SOILS ENGINEER SHALL CERTIFY IN WRITING THAT:
   a. THE BUILDING PAD WAS PREPARED IN ACCORDANCE WITH THE RECOMMENDATIONS IN THE SOILS REPORT,
   b. THE FOOTINGS EXTEND TO THE PROPER DEPTH OR BEARING STRATA,
   c. UTILITY TRENCHES ARE PROPERLY BACKFILLED AND COMPACTED,
   d. AND THAT THE CONDITIONS FOUND MATCH THOSE ASSUMED IN THE SOILS REPORT.
3. THE OWNER/DEVELOPER AND SUBCONTRACTORS ARE TO REVIEW THE SOILS REPORT PRIOR TO COMMENCING CONSTRUCTION AND VERIFY THE PLANS COMPLY WITH THE CURRENT SOILS REPORT RECOMMENDATIONS. THE STRUCTURAL ENGINEER SHALL BE NOTIFIED IF THE SOILS REPORT DATE SHOWN ON SHEET (SCS) DOES NOT MATCH THE CURRENT REPORT DATE. THE OWNER/DEVELOPER IS RESPONSIBLE FOR UPDATING THE STRUCTURAL ENGINEER WITH CURRENT GEOTECHNICAL ENGINEERING REQUIREMENTS.

FOUNDATION LEGEND & SYMBOLS



INDICATES: CONCRETE SLAB & FOOTING. FOOTING SIZE AND REINFORCING PER DETAIL SHEETS SD1

INDICATES: CONCRETE STEMWALL. FOOTING SIZE AND REINFORCING PER PER DETAIL SHEETS SD1

STRUCTURAL OBSERVATION REQUIREMENTS

STRUCTURAL OBSERVATION IS REQUIRED BY THE ENGINEER OF RECORD. OUR OFFICE SHOULD BE NOTIFIED TO PERFORM STRUCTURAL OBSERVATION AT THE FOLLOWING STAGES OF CONSTRUCTION:
1. PRIOR TO POUR OF CONCRETE TO OBSERVE REINFORCING & EMBEDS
2. PRIOR TO COVERING ANY COMPLETED STRUCTURAL MEMBER
3. PRIOR TO COVERING ANY MODULAR RELATED SITE BUILT CONNECTIONS

FOUNDATION PLAN

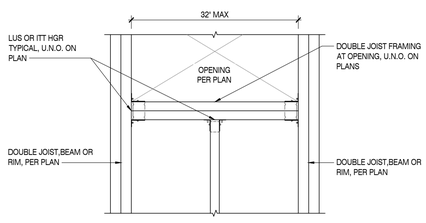
FB2	23/32" T&G	STD.	48/24	BLOCKED	10d	2" o.c.	2" o.c.	12" o.c.



NOTES:

1. ALL ROOF AND FLOOR SHEATHING TO BE EXPOSURE 1 OR EXTERIOR PER TABLE 2306.3.1. ¾" SHEATHING IS NOT STRUCTURALLY ACCEPTABLE FOR ROOF SHEATHING.
2. FOR FLOOR SHEATHING, WOOD STRUCTURAL PANEL SHALL BE UNDERLAYMENT GRADE. ALL FLOOR SHEATHING SHALL BE GLUED TO FRAMING.
3. ALL ROOF NAILS MUST BE 8d. ALL FLOOR NAILS MUST BE 10d. IN LIEU OF 10d NAILS AT FLOOR SHEATHING, #8 x 2" LONG SCREWS MAY BE USED.
4. FOR ALL FLOOR SHEATHING, PANEL EDGES SHALL HAVE APPROVED TONGUE-AND -GROOVE JOINTS OR SHALL BE SUPPORTED WITH BLOCKING. NOT REQUIRED WHEN LIGHTWEIGHT CONCRETE IS PLACED OVER THE SUBFLOOR.

SHEATHING LAYOUT AND NAILING

NOTES:

1. RUN LONG DIMENSION OF SHEATHING ACROSS (PERPENDICULAR TO) JOIST AND RAFTERS. PANELS SHALL BE SPACED ⅛" FOR THERMAL EXPANSION.
2. STAGGER END JOINTS 2'-0" MINIMUM.
3. BOUNDARY NAILING APPLIES TO PERIMETER PLATE LINES, CHORDS, TIES, AND AS CALLED FOR ON DRAWINGS.
4. SEE PLANS FOR NAILING AT BLOCKED DIAPHRAGMS.
5. NAILS SHALL HAVE ⅜" MIN. EDGE DISTANCE.
6. ALL JOISTS AND RAFTERS SHALL BE LAID OUT IN 4'-0" MODULE TO COINCIDE WITH THE SHEATHING.
7. USE TONGUE-AND-GROOVE SHEATHING AT FLOORS, UNLESS NOTED OTHERWISE.
8. SEE DETAIL 'B' FOR FRAMING WHERE SHEATHING JOINTS ARE OFFSET DUE TO RAFTER OR JOIST LAP SPLICES.
9. PROVIDE A ⅛" GAP BETWEEN ALL PANEL EDGES TYPICAL.

MECHANICAL GENERAL NOTES

1. ALL MECHANICAL EQUIPMENT AND SYSTEMS SHALL BE INSTALLED IN ACCORDANCE WITH THE 2021 IMC, 2021 IECC, AND ALL LOCAL & STATE CODES.
2. ALL MECHANICAL EQUIPMENT SHALL BE INSTALLED PER THE MANUFACTURER'S RECOMMENDATIONS.
3. MECHANICAL CONTRACTORS SHALL RECEIVE PRIOR APPROVAL FROM THE STRUCTURAL ENGINEER BEFORE MAKING CUTS THROUGH ANY STRUCTURAL MEMBER.
4. THESE PLANS ARE SCHEMATIC IN NATURE AND MECHANICAL CONTRACTOR SHALL COORDINATE INSTALLATION WITH CONSTRUCTION SUPERVISOR AND WITH ALL OTHER TRADES TO AVOID CONFLICTS.
5. IT SHALL BE THE RESPONSIBILITY OF THE MECHANICAL CONTRACTOR TO REVIEW THE DRAWINGS FOR ALL DISCIPLINES AND PROVIDE LABOR AND MATERIALS REQUIRED FOR A COMPLETE INSTALLATION.
6. THE MECHANICAL CONTRACTORS SHALL VERIFY MOTOR VOLTAGES WITH THE ELECTRICAL DRAWINGS BEFORE ORDERING MOTORIZED EQUIPMENT AND CONTROLS.
7. ALL PROPOSED MECHANICAL EQUIPMENT SHALL BE ON THE APPROVED LIST PRIOR TO SUBMITTALS. ALL APPROVED MANUFACTURERS MUST BE CAPABLE OF MEETING THE REQUIREMENTS OF THE SPECIFIED EQUIPMENT.
8. PAINT ALL VTR'S, FLUES, EXHAUST CAPS, AND OTHER MECHANICAL ITEMS ON THE ROOF TO MATCH THE ROOF COLOR.
9. INSULATED FLEXIBLE DUCTWORK MAY BE USED FOR RUNOUTS TO GRILLES AND DIFFUSERS, IN LENGTHS OF 5'-0" OR LESS.
10. MAINTAIN MINIMUM OF 10'-0" DISTANCE BETWEEN ALL FRESH AIR INTAKES AND EXHAUST OR GAS FLUE DISCHARGES.
11. LOCATE ACCESS HATCHES SO AS TO PROVIDE OPTIMUM SERVICEABILITY TO EQUIPMENT AND/OR VALVING. SEE ARCHITECTURAL SPECIFICATION FOR TYPE AND COLOR. COORDINATE LOCATION WITH STRUCTURAL & LIGHTING.
12. WHENEVER THERE IS A DISCREPANCY BETWEEN THE RUNOUT DUCT SIZE SHOWN ON THE PLANS AND THAT SHOWN IN THE SCHEDULE, ALWAYS USE THE LARGER OF THE TWO DUCT SIZES.
13. THE CONTRACTOR SHALL BE HELD RESPONSIBLE FOR VERIFICATION OF EXISTING JOB CONDITIONS PRIOR TO BID. NO ADDITIONAL COST SHALL BE AWARDED TO THE SUCCESSFUL CONTRACTOR (OR THEIR SUBCONTRACTORS) AFTER BIDS HAVE BEEN SUBMITTED AND CONTRACTS AWARDED FOR FAILURE TO VERIFY EXISTING FIELD CONDITIONS. DISCREPANCIES BETWEEN ACTUAL FIELD CONDITIONS AND CONTRACT DOCUMENTS SHALL BE BROUGHT TO THE ENGINEERS ATTENTION FOR ALTERNATIVE METHODS OF INSTALLATION PRIOR TO THE BIDDING OF THIS PROJECT.
14. UNLESS OTHERWISE NOTED ALL EXISTING MECHANICAL EQUIPMENT, PIPING, ETC, TO BE REMOVED SHALL BE DISPOSED OF BY THE CONTRACTOR UNDER THIS CONTRACT. THE OWNER SHALL RETAIN THE RIGHT TO KEEP ANY REMOVED ITEMS.
15. UNLESS OTHERWISE INDICATED ALL DUCTWORK SHOULD HAVE ACCOUSTIC LINING WITHIN 10' OF EQUIPMENT.
16. ALL DUCTWORK SHOWN IS TO BE ROUTED BETWEEN FINISHED FLOOR OF ASSOCIATED LEVEL AND FINISH FLOOR OF LEVEL ABOVE.
17. ALL EQUIPMENT SHOWN IS TO BE LOCATED BETWEEN FINISHED FLOOR OF ASSOCIATED LEVEL AND FINISHED FLOOR OF LEVEL ABOVE. AIR TERMINALS WITH TAGS ARE SERVING THE PLAN'S ASSOCIATED LEVEL.
18. MECHANICAL EQUIPMENT LOCATED IN CEILING OR ATTIC SHALL INCLUDE A UL508 LISTED WATER DETECTION DEVICE IN THE DRAIN PAN THAT WILL SHUT THE EQUIPMENT OFF IN THE EVENT THE DRAIN IS PLUGGED OR PUMP BECOMES NON FUNCTIONAL.
19. REFERENCE ARCHITECTURAL LIGHTING PLANS FOR EXACT EXHAUST FAN AND DIFFUSER LOCATIONS.
20. THERMOSTATS AND SENSORS TO BE LOCATED ON UNOCCUPIED AREA OF WALL, FREE FROM ARTWORK AND WALL HANGINGS. FINAL LOCATION SHALL BE COORDINATED WITH ARCHITECT.
21. GENERAL CONTRACTOR TO PROVIDE ACCESS PANELS FOR ERV UNITS.

ENERGY CODE COMPLIANCE

1. COMPLIANCE WITH THE 2021 IECC. THESE NOTES COVER MANDATORY REQUIREMENTS OF THE CODE. ADDITIONAL REQUIREMENTS ARE NOTED ON THE PLANS AND IN THE SPECIFICATIONS.
2. MINIMUM REQUIREMENTS FOR SUPPLY AND RETURN DUCTWORK INSULATION PER 2021 IECC FOR CLIMATE ZONE 7:
   A. R-6: DUCTS LOCATED IN UNCONDITIONED SPACES
   B. R-12: DUCTS LOCATED OUTSIDE OF THE BUILDING'S INSULATION ENVELOPE (SUCH AS ABOVE THE ATTIC INSULATION)
3. CONTRACTOR SHALL VERIFY WITH THE MANUFACTURER, THE R-VALUES OF THE ACTUAL INSULATION USED. R-VALUES SHALL BE INSTALLED VALUES.
4. WHERE DUCTS USED FOR COOLING ARE EXTERNALLY INSULATED, THE INSULATION SHALL BE COVERED WITH A VAPOR RETARDER HAVING A MAXIMUM PERMEANCE OF 0.05 PERM OR ALUMINUM FOIL HAVING A MINIMUM THICKNESS OF 2 MILS, INSULATION HAVING A PERMANCE OF 0.05 PERMS OR LESS SHALL NOT BE REQUIRED TO BE COVERED. ALL JOINTS AND SEAMS SHALL BE SEALED TO MAINTAIN THE CONTINUITY OF THE VAPOR RETARDER.
5. ALL DUCT JOINTS, SEAMS, AND CONNECTIONS SHALL BE FASTENED AND SEALED WITH WELDS, GASKETS, ADHESIVES, MASTIC-PLUS-EMBEDDED-FABRIC SYSTEMS, OR TAPES, TAPES AND MASTICS SHALL BE LISTED AND LABELED PER UL181A OR UL181B. DUCT TAPE IS NOT PERMITTED AS A SEALANT ON ANY METAL DUCTS, DUCT CONNECTIONS TO FLANGES OR EQUIPMENT SHALL BE SEALED AND MECHANICALLY FASTENED.
6. MINIMUM REQUIREMENTS (THICKNESS) FOR PIPING INSULATION SHALL BE PER 2021 IBC AND IECC:

FLUID	NOMINAL PIPE DIAMETER	INSULATION R-VALUE
DOMESTIC WATER	ANY SIZE	PER IECC 403.12.3
HOT/CHILLED WATER	ANY SIZE	PER IECC 403.12.3
REFRIGERANT	ANY SIZE	PER IECC 403.12.3

   THE ABOVE INSULATION IS BASED ON HAVING A CONDUCTIVITY NOT EXCEEDING 0.27 BTU-INCH/HOUR-FT2-°F
7. AN OPERATING AND MAINTENANCE MANUAL SHALL BE PROVIDED PRIOR TO ISSUANCE OF A CERTIFICATE OF OCCUPANCY. THE O&M MANUAL SHALL CONTAIN THE FOLLOWING:
   A. EQUIPMENT CAPACITY (INPUT & OUTPUT)
   B. EQUIPMENT OPERATING AND MAINTENANCE INSTRUCTIONS
   C. CONTROL SYSTEM MAINTENANCE AND CALIBRATION INFORMATION, INCLUDING WIRING DIAGRAMS, SCHEMATICS, AND CONTROL SEQUENCES
   D. CONTROL SYSTEM SETPOINTS SHALL BE SHOWN ON CONTROL DRAWINGS, AT CONTROL DEVICES
   E. A COMPLETE WRITTEN NARRATIVE ON HOW EACH MECHANICAL SYSTEM IS INTENDED TO OPERATE

MECHANICAL LEGEND

- SUPPLY AIR SHEET METAL DUCT
- RETURN AIR SHEET METAL DUCT
- EXHAUST AIR SHEET METAL DUCT
- OUTSIDE AIR SHEET METAL DUCT
- ACOUSTICAL OR INT. LINED DUCT

M0.0

SHEET NAME:
MECHANICAL COVER SHEET

MECHANICAL AND PLUMBING SPECIFICATIONS

GENERAL

1. EXAMINE AND REFER TO ALL ARCHITECTURAL, CIVIL, STRUCTURAL, ELECTRICAL, UTILITY, LANDSCAPE AND MECHANICAL DRAWINGS AND SPECIFICATIONS FOR CONSTRUCTION CONDITIONS WHICH MAY AFFECT THE MECHANICAL WORK. INSPECT THE BUILDING SITE AND EXISTING FACILITIES FOR VERIFICATION OF PRESENT CONDITIONS. MAKE PROPER PROVISIONS FOR THESE CONDITIONS IN PERFORMANCE OF THE WORK AND COST THEREOF.
2. ALL WORK ON THE PROJECT SHALL CONFORM TO ALL LOCAL CITY, STATE AND NATIONAL CODES AND REGULATIONS, INCLUDING BUT NOT LIMITED TO THE N.F.P.A, N.E.C., I.B.C., I.E.C.C., I.M.C., U.P.C. OR I.P.C AS APPLICABLE, THE LOCAL UTILITY SERVING COMPANIES AND THE AUTHORITY HAVING JURISDICTION.
3. THE MECHANICAL AND ELECTRICAL CONTRACTORS SHALL BE RESPONSIBLE FOR AND PAY FOR ALL FEES AND PERMITS REQUIRED FOR WORK UNDER THEIR CONTRACT AND UNDER THEIR SUPERVISION BY SUBCONTRACT.
4. ALL USAGE CONTRACTS BETWEEN THE OWNER AND THE SERVING UTILITIES COMPANY, SUCH AS MEMBERSHIP AND USAGE CHARGES OR FEES, ETC., FOR THE PURPOSE OF OBTAINING THE SERVICES FOR THE UTILITY COMPANY SHALL BE APPLIED FOR AND PAID FOR BY THE OWNER.
5. SMOKING SHALL NOT BE PERMITTED ANYWHERE IN THIS FACILITY.

BIDDING AND SUBSTITUTIONS

1. THE CONTRACTOR SHALL PROVIDE ALL LABOR, MATERIALS, EQUIPMENT, ITEMS, ARTICLES, OPERATIONS AND METHODS LISTED, SHOWN, SCHEDULED, MENTIONED OR IMPLIED IN THE DRAWINGS, AND/OR SPECIFIED, INCLUDING ALL INCIDENTALS REQUIRED FOR THEIR COMPLETION.
2. WRITTEN PRIOR APPROVAL FOR SUBSTITUTIONS MUST BE SUBMITTED TO AND RECEIVED BY THE ARCHITECT/ENGINEER TEN (10) DAYS PRIOR TO BID OPENING. REQUESTS FOR SUBSTITUTION ARE TO BE SUBMITTED SUFFICIENTLY AHEAD OF THE DEADLINE TO GIVE AMPLE TIME FOR EXAMINATION. PRIOR APPROVAL REQUEST FOR SUBSTITUTION MUST INDICATE THE SPECIFIC ITEM OR ITEMS TO BE FURNISHED IN LIEU OF THOSE SCHEDULED, TOGETHER WITH COMPLETE TECHNICAL AND COMPARATIVE DATA ON SCHEDULED ITEMS AND ITEMS PROPOSED FOR SUBSTITUTION.
3. IT IS THE CONTRACTOR'S RESPONSIBILITY TO ENSURE THAT A SUBSTITUTE ITEM SHALL FIT INTO THE SPACE ALLOCATED AND THAT THE ITEM CAN BE INSTALLED AND FUNCTION AS INTENDED. SHOULD CHANGES IN THE WORK OF ANY CONTRACTOR BECOME NECESSARY AS A RESULT OF ANY SUBSTITUTE ITEM SUCH CHANGES SHALL BE ARRANGED AND PAID FOR BY THIS CONTRACTOR.

REVIEW & SITE INSPECTIONS

1. ALL WORK AND MATERIAL ARE SUBJECT TO REVIEW AT ANY TIME BY THE ARCHITECT/ENGINEER OR THEIR REPRESENTATIVE. IF THE ARCHITECT/ENGINEER OR THEIR REPRESENTATIVE FINDS MATERIAL THAT DOES NOT CONFORM TO THESE SPECIFICATIONS OR THAT IS NOT PROPERLY INSTALLED OR FINISHED, CORRECT THE DEFICIENCIES IN A MANNER SATISFACTORY TO THE ARCHITECT/ENGINEER AT THE CONTRACTOR'S EXPENSE.
2. THE CONTRACTOR SHALL INFORM THE GENERAL CONTRACTOR OF THE PROJECT PROGRESS AND SCHEDULE WEEKLY. THE CONTRACTOR SHALL NOTIFY THE ENGINEER AT EACH OF THE FOLLOWING POINTS:
   A. AT THE COMPLETION OF UNDERSLAB PIPING AND UTILITIES PRIOR TO BEING COVERED.
   B. AT THE COMPLETION OF ROUGH-IN BEFORE INSULATION/WALL/FLOOR SURFACES ARE INSTALLED.
   C. AT SUBSTANTIAL COMPLETION WHEN ALL SYSTEMS ARE OPERATIONAL. (PUNCH LIST DEVELOPMENT)

INTENT OF DRAWINGS

1. THE DRAWINGS ARE PARTLY DIAGRAMMATIC AND DO NOT NECESSARILY SHOW EXACT LOCATION OF PIPING AND DUCTWORK UNLESS SPECIFICALLY DIMENSIONED. RISER AND OTHER DIAGRAMS ARE SCHEMATIC AND DO NOT NECESSARILY SHOW THE PHYSICAL ARRANGEMENT OF THE EQUIPMENT. THEY SHALL NOT BE USED FOR OBTAINING LINEAL RUNS OF PIPING OR DUCTWORK, NOR SHALL THEY BE USED FOR SHOP DRAWINGS FOR PIPING AND DUCTWORK FABRICATION OR ORDERING. DISCREPANCIES SHOWN ON DIFFERENT PLANS, OR BETWEEN PLANS AND ACTUAL FIELD CONDITIONS SHALL BE BROUGHT TO THE ATTENTION OF THE ARCHITECT/ENGINEER FOR RESOLUTION.

REQUEST FOR INFORMATION (RFI'S)

1. RFI'S SHALL BE USED TO RESOLVE CONFLICTS, PROVIDE CLARITY TO THE INTENT OF DRAWINGS, OR REQUEST ADDITIONAL DETAIL. RFI'S SHALL INCLUDE A SKETCH OR EQUIVALENT DESCRIPTION OF CONTRACTOR'S PROPOSED SOLUTION. RFI'S SHALL BE MADE ELECTRONICALLY AND BE RETURNED TO THE CONTRACTOR BY THE ENGINEER WITHIN 10 BUSINESS DAYS.

RESPONSIBILITY

1. THE MECHANICAL CONTRACTOR SHALL BE RESPONSIBLE FOR THE INSTALLATION OF A SATISFACTORY AND COMPLETE SYSTEM IN ACCORDANCE WITH THE INTENT OF THE DRAWING AND SPECIFICATIONS. HE/SHE SHALL PROVIDE, AT NO EXTRA COST, ALL INCIDENTAL ITEMS, MATERIALS, ACCESSORIES AND LABOR REQUIRED FOR COMPLETION OF THE WORK EVEN THOUGH THEY ARE NOT SPECIFICALLY MENTIONED OR INDICATED ON THE DRAWINGS OR IN THE SPECIFICATIONS.
2. THE DRAWINGS DO NOT ATTEMPT TO SHOW COMPLETE DETAILS OF THE BUILDING CONSTRUCTION WHICH AFFECT THE MECHANICAL INSTALLATION. REFERENCE IS THEREFORE REQUIRED TO THE ARCHITECTURAL, CIVIL, STRUCTURAL, LANDSCAPE AND ELECTRICAL DRAWINGS AND SPECIFICATIONS AND TO SHOP DRAWINGS OF ALL TRADES FOR ADDITIONAL DETAILS WHICH AFFECT THE INSTALLATION OF THE WORK COVERED UNDER THIS DIVISION OF THE CONTRACT.
3. THE LOCATION OF ALL MECHANICAL SYSTEM COMPONENTS SHALL BE CHECKED FOR CONFLICTS WITH OPENINGS, STRUCTURAL MEMBERS AND COMPONENTS OF OTHER SYSTEMS HAVING FIXED LOCATIONS PRIOR TO FABRICATION AND INSTALLATION OF EQUIPMENT. THE CONTRACTOR SHALL VISIT THE SITE AFTER COMPLETION OF FRAMING TO VERIFY DUCTWORK, PIPING, AND EQUIPMENT SHALL FIT AS PLANNED. ALL CONFLICTS FOUND BY THE CONTRACTOR SHALL BE SUBMITTED TO THE ARCHITECT AND ENGINEER AND CHANGES SHALL BE MADE AT THE CONTRACTOR'S EXPENSE.
4. ALL MODIFICATIONS AND CHANGES REQUIRED DUE TO INSTALLATION OF EQUIPMENT OTHER THAN THE EQUIPMENT SCHEDULED AND SPECIFIED SHALL BE MADE AT THE CONTRACTOR'S EXPENSE. THIS INCLUDES WORK BY OTHER TRADES. IF THE INSTALLATION OF EQUIPMENT OTHER THAN THE SCHEDULED AND SPECIFIED EQUIPMENT REQUIRES MODIFICATIONS TO STRUCTURE, ELECTRICAL SYSTEMS, PLUMBING SYSTEMS, FIRE PROTECTION OR FIRE ALARM SYSTEMS, ANY AND ALL CHANGES SHALL BE MADE AT THE MECHANICAL CONTRACTOR'S EXPENSE.
5. THE CONTRACTOR SHALL INCLUDE VIBRATION ISOLATION AND NOISE REDUCTION EQUIPMENT FOR ALL EQUIPMENT TO MITIGATE ANY VIBRATION AND OBJECTIONABLE EQUIPMENT NOISE FROM EQUIPMENT INSTALLED BY THE CONTRACTOR. THIS INCLUDES FLEXIBLE HOSES, SPRING ISOLATION, RUBBER PADS, FLEXIBLE DUCT CONNECTIONS AND ANY OTHER DEVICES REQUIRED.
6. THE CONTRACTOR SHALL BE RESPONSIBLE FOR WORK AND EQUIPMENT UNTIL FINAL INSPECTION, PUNCH LIST COMPLETION, START-UP, AND TESTING HAVE BEEN COMPLETED. THE CONTRACTOR SHALL CLOSE OPEN ENDS OF WORK WITH TEMPORARY COVERS AND CORRECT ANY DAMAGE INCURRED DURING COURSE OF CONSTRUCTION AT NO EXTRA COST.
7. THE CONTRACTOR SHALL PROVIDE ALL INCIDENTAL ELECTRICAL INTERCONNECTIONS AND CONTROL WIRING NECESSARY FOR SYSTEM COMPLETION.
8. THE CONTRACTOR SHALL BE CAREFUL NOT TO BLOCK ANY PATHS OF EGRESS WHILE PERFORMING THE WORK SPECIFIED.
9. THE CONTRACTOR SHALL BE RESPONSIBLE FOR CLEANUP OF ALL MATERIALS RESULTING FROM HIS/HER WORK. CLEANUP SHALL BE PERFORMED TO THE LEVEL OF ACCEPTANCE OF THE OWNER'S REPRESENTATIVE AND THE ENGINEER.
10. THE CONTRACTOR SHALL AND HEREBY DOES WARRANT AND GUARANTEE THAT ALL WORK EXECUTED UNDER HIS/HER CONTRACT SHALL BE FREE OF DEFECTS OF MATERIALS AND WORKMANSHIP FOR A PERIOD OF ONE(1) YEAR FROM THE DATE OF SUBSTANTIAL COMPLETION.

SHOP DRAWINGS AND SUBMITTALS

1. THE CONTRACTOR SHALL PROCURE MANUFACTURER'S LITERATURE AND/OR CERTIFIED SUBMITTAL PRINTS FOR ALL EQUIPMENT AND MATERIALS REQUIRED FOR THE PROJECT. SHOP DRAWINGS AND LITERATURE SHALL BE COMPLETE AND MARKED SHOWING NAME OF JOB, ITEM USED, SIZE, DIMENSIONS, PERFORMANCE, ETC., AS REQUIRED FOR COMPLETE CHECK AND INSTALLATION. THIS INCLUDES BUT IS NOT LIMITED TO:
   A. SCHEDULED MECHANICAL EQUIPMENT
   B. HYDRONIC PIPING MATERIALS
   C. GRILLES REGISTERS AND DIFFUSERS
   D. PLUMBING FIXTURES AND TRIM
   E. DOMESTIC WATER HEATERS AND ASSOCIATED ACCESSORIES
   F. DOMESTIC WATER PIPING, SANITARY WASTE AND VENT PIPING
2. ALL SUBMITTALS SHALL CLEARLY INDICATE THE EQUIPMENT IT REPRESENTS WITH LABELS OF THE EQUIPMENT IDENTIFICATION ABBREVIATION FOUND ON THE DRAWINGS. LITERATURE SHOWING MORE THAN ONE ITEM SHALL BE CLEARLY MARKED AS TO WHICH ITEM IS BEING FURNISHED OR THE SUBMITTAL WILL BE REJECTED AND RETURNED WITHOUT REVIEW.
3. SUBMIT ACTUAL INSTALLATION LAYOUT DRAWINGS ON FLOOR PLANS SHOWING PIPE AND DUCT RUNS INCLUDING DRAWINGS FOR UNDERGROUND WORK AND BOILER FLUE SYSTEMS.
4. APPROVAL OR REVIEW OF SUBMITTALS SHALL NOT RELIEVE THE CONTRACTOR FROM RESPONSIBILITY FOR DEVIATIONS FROM DRAWINGS, SPECIFICATIONS, OR ERRORS IN SUBMITTAL LITERATURE. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO PROVIDE MATERIALS AND EQUIPMENT WHICH MEET THE SPECIFICATIONS AND JOB REQUIREMENTS.
5. SUBMITTALS SHALL BE MADE IN ELECTRONIC PDF FORMAT. SUBMITTALS WILL BE RETURNED TO THE CONTRACTOR WITHIN 10 BUSINESS DAYS.

STARTUP, TESTING AND OWNER TRAINING

1. WHEN THE PROJECT HAS REACHED SUBSTANTIAL COMPLETION AND IS CLEAR OF CONSTRUCTION DEBRIS AND DUST, THE CONTRACTOR SHALL STARTUP AND TEST ALL EQUIPMENT ACCORDING TO MANUFACTURER'S REQUIREMENTS. ALL START-UP DOCUMENTATION SHALL BE INCLUDED IN THE OPERATIONS AND MAINTENANCE MANUAL.
2. THE CONTRACTOR SHALL ENGAGE A FACTORY AUTHORIZED REPRESENTATIVE TO CONDUCT AN INSPECTION OF THE INSTALLATION OF THEIR COMPANY'S EQUIPMENT PRIOR TO START-UP OF ANY EQUIPMENT. THE REPRESENTATIVE SHALL SUBMIT A REPORT IDENTIFYING ANY DEFICIENCIES TO THE ARCHITECT, ENGINEER AND CONSTRUCTION MANAGER. ANY DEFICIENCIES IDENTIFIED SHALL BE ADDRESSED PRIOR TO START-UP. START-UP SHALL BE CONDUCTED BY A FACTORY AUTHORIZED REPRESENTATIVE. START-UP REPORTS SHALL BE SUBMITTED TO THE ARCHITECT AND ENGINEER ONCE COMPLETED.
3. THE CONTRACTOR SHALL BE RESPONSIBLE FOR TESTING ALL NEW AIR AND WATER SYSTEMS COMPLETELY, AND BALANCING TO THE SATISFACTION OF THE ENGINEER IN ACCORDANCE WITH THE STANDARDS OF NEBB. THIRD PARTY TAB CONTRACTORS MAY BE USED AT CONTRACTOR'S EXPENSE WITH PRIOR APPROVAL OF THE ENGINEER.
4. EACH SYSTEM SHALL BE TESTED UNDER NORMAL OPERATING OR SIMULATED CONDITIONS PROVING PROPER OPERATION OF ALL SEQUENCES, SET-POINTS, INTERLOCKS, AND SAFETIES.
5. THE MECHANICAL CONTRACTOR SHALL PROVIDE 2 DAYS (16 HRS) OF TRAINING TO THE OWNER TO ENSURE THE OWNER KNOWS HOW TO OPERATE THE SYSTEMS INSTALLED UNDER THE MECHANICAL CONTRACT. THE MECHANICAL CONTRACT SHALL INCLUDE AN ADDITIONAL 2 DAYS (16 HRS) OF ADDITIONAL SERVICE THROUGH THE FIRST YEAR OF OPERATION TO ADDRESS QUESTIONS THAT MAY ARISE.

OPERATIONS AND MAINTENANCE MANUAL

1. THE CONTRACTOR SHALL PROVIDE TWO PHYSICAL COPIES AND AN ELECTRONIC PDF COPY OF THE OPERATIONS AND MAINTENANCE MANUAL.
2. THE OPERATIONS AND MAINTENANCE MANUAL SHALL INCLUDE COPIES OF ALL BROCHURES OF EQUIPMENT, MATERIAL USED, SHOP DRAWINGS, AS-BUILTS, START-UP AND TESTING DOCUMENTATION AND SERVICE CONTACT INFORMATION SHALL BE PROVIDED IN THE OPERATIONS AND MAINTENANCE MANUAL.

CUTTING, PATCHING, AND REPAIRING

1. CUTTING, PATCHING, AND REPAIRING REQUIRED BY THE WORK OF THE CONTRACTOR SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR.
2. ALL CUTTING SHALL NOT WEAKEN THE STRUCTURAL INTEGRITY AND HOLES IN STRUCTURAL MEMBERS SHALL BE APPROVED BY THE STRUCTURAL ENGINEER.

SUPPORTS, ANCHORS, AND BASES

1. PROVIDE ANCHORING TO RESIST EARTHQUAKE FORCES AS REQUIRED BY CODE. UNLESS OTHERWISE NOTED, ALL DUCTWORK, PIPING, AND EQUIPMENT SHALL BE RESTRAINED TO RESIST SEISMIC FORCES AND LIMIT VIBRATION TRANSMISSION.
   A. PIPE 1" OR SMALLER IN THE MECHANICAL ROOM AND 2" OR SMALLER OUTSIDE THE MECHANICAL ROOM DOES NOT REQUIRE SEISMIC BRACING.
   B. DUCTWORK WITH A CROSS SECTIONAL AREA OF LESS THAN 6 SQUARE FEET DOES NOT REQUIRE SEISMIC BRACING.
2. PROVIDE ALL ANCHORS, HANGERS, ATTACHMENTS, BASES, AND SUPPORTS PER MANUFACTURER'S REQUIREMENTS FOR ALL PIPING, DUCTING, AND EQUIPMENT.
3. CHAIN, WIRE STRAP, OR OTHER MAKESHIFT DEVICES WILL NOT BE PERMITTED AS HANGERS OR SUPPORTS.
4. SPACING OF HANGERS AND SUPPORTS SHALL NOT BE INSTALLED OVER 12" FROM EACH CHANGE IN DIRECTION OF PIPING AND SPACING FOR STRAIGHT RUNS SHALL NOT EXCEED THE SPACING LISTED BELOW:

TYPE OF PIPE	SIZE	MAXIMUM SPACING
COPPER	UP TO 1"	6'-0"
COPPER	1-1/4" - 1-1/2"	7'-6"
COPPER	2" AND UP	10'-0"
PLASTIC	ALL	AS RECOMMENDED BY MANUFACTURER INCLUDING ANY REINFORCING
CAST IRON	ALL	1 PER LENGTH (ADJ TO JOINT)
HUBLESS CAST IRON	ALL	AS PER PLUMBING CODE

INSULATION

1. ALL PRODUCTS USED SHALL BE UL LISTED WITH A MAXIMUM FLAME SPREAD RATING OF 25 AND MAXIMUM SMOKE DEVELOPMENT OF 50.
2. REFER TO DUCT AND PIPE INSULATION SCHEDULES AND THE PROJECT DRAWINGS FOR REQUIRED INSULATION. DUCT AND PIPE INSULATION SCHEDULES SHALL TAKE PRECEDENCE OVER PROJECT DRAWINGS WHERE DISCREPANCIES OCCUR UNLESS A HIGHER INSULATION VALUE IS REQUIRED ON PLAN DRAWINGS.
3. ALL DUCTING AND PIPING SYSTEMS SHALL BE PROVIDED WITH EXTERIOR INSULATION ACCORDING TO IECC REQUIREMENTS AT A MINIMUM.
4. INTERIOR ACOUSTICAL LINING SHALL BE EQUAL TO OWENS CORNING QUIETR ROTARY DUCT LINER, 1/2" THICK, AND PROVIDED WHERE SHOWN OR NOTED ON DRAWINGS.
5. EXTERIOR DUCT INSULATION SHALL BE EQUAL TO OWENS CORNING TYPE 7 FIBERGLASS DUCT WRAP 1" OR 2" THICK WITH FOIL REINFORCED KRAFT JACKET.
6. EXTERIOR PIPE INSULATION FOR EXPOSED PIPES SHALL BE EQUAL TO OWENS CORNING SSL II WITH ASJ MAX.
7. EXTERIOR PIPE INSULATION FOR CONCEALED PIPES SHALL BE EQUAL TO ARMACELL AP ARMAFLEX TUBES.
8. ALL INSULATION WILL HAVE DIRECT CONTACT WITH PIPE, DUCTING, VALVES OR OTHER ACCESSORY AND HANGERS SHALL BE ON EXTERIOR OF INSULATION WITH APPROPRIATE INSULATION SHIELDS.

DUCTWORK AND ACCESSORIES

1. CONTRACTOR SHALL PROVIDE ALL DUCT SYSTEMS AS INDICATED ON THE PLANS INCLUDING ALL GRILLES, REGISTERS, DIFFUSERS, LOUVERS, DAMPERS, DUCTWORK AND DUCTWORK ACCESSORIES AS SHOWN OR DESCRIBED.
2. DUCT CONSTRUCTION SHALL BE IN ACCORDANCE WITH MANUFACTURER'S REQUIREMENTS AND TO THE VARIOUS APPLICABLE MANUALS AND STANDARDS OF THE SHEET METAL AND AIR CONDITION NATIONAL ASSOCIATION (SMACNA) AND/OR MATERIAL AND DUCT CONSTRUCTION STANDARDS OF THE AMERICAN SOCIETY OF HEATING, REFRIGERATING, AND AIR-CONDITIONING ENGINEERS (ASHRAE).
3. DUCT AND FITTINGS TO BE OF G90 GALVANIZED STEEL UNLESS OTHERWISE INDICATED. MATERIAL GAUGES TO BE IN ACCORDANCE WITH THE SMACNA AND ASHRAE STANDARDS.
   A. PROVIDE WITH NECESSARY OFFSETS AND TRANSITIONS TO AVOID INTERFERENCE WITH THE BUILDING CONSTRUCTION, PIPING OR EQUIPMENT. LOCATE DUCTS WITH SUFFICIENT SPACE AROUND EQUIPMENT TO ALLOW OPERATION AND MAINTENANCE.
   B. JOINTS AND SEAMS SHALL BE MECHANICALLY SECURE AND SEALED AIRTIGHT.
   C. LONGITUDINAL SEAMS SHALL BE POINTED DOWN AND SEALED AIRTIGHT.
4. DUCT DIMENSIONS INDICATED ON DRAWINGS ARE INSIDE SHEET DIMENSIONS. THE DUCT DIMENSIONS SHALL BE INCREASED AN EQUIVALENT AMOUNT TO ACCOMMODATE THE INTERNAL LINER WHERE REQUIRED.
5. PROVIDE INSULATED INTAKE AND EXHAUST PLENUMS ATTACHED TO LOUVERS.
6. BUILDING FRAMING CAVITIES SHALL NOT BE USED AS DUCTS OR PLENUMS.
7. FLEXIBLE DUCT SHALL BE PROVIDED AS INDICATED OR NOTED ON PLAN. FLEXIBLE DUCT SHALL NOT BE INTERCHANGEABLE WITH SOLID DUCT UNLESS NOTED ON PLAN.
   A. INSULATED FLEXIBLE DUCT SHALL BE EQUAL TO THERMAFLEX TYPE M-KE R-8.
   B. NON-INSULATED FLEXIBLE DUCT SHALL BE EQUAL TO THERMAFLEX TYPE S-LP-10.
8. ACCESS DOORS IN DUCTWORK SHALL BE PROVIDED TO ACCESS LINKAGE SIDE OF DAMPERS, FILTERS, SENSORS OR DEVICES REQUIRING ACCESS.
9. HIGH EFFICIENCY TAKEOFFS SHALL BE PROVIDED.
10. BALANCING DAMPERS SHALL BE INCLUDED ON ALL BRANCH TAKEOFFS IN ACCESSIBLE ATTICS, CRAWLSPACES, OR MECHANICAL ROOMS. BALANCING DAMPERS SHALL BE EQUAL TO GREENHECK MBD-10 FOR RECTANGLE DUCT AND MBDR-50 FOR ROUND.
11. GRILLES, REGISTERS, AND DIFFUSERS SHALL BE FURNISHED AND INSTALLED WITH ALL NECESSARY ACCESSORIES SUCH AS GASKETS, FRAMES, SCREWS, AND/OR KEY OPERATORS.
    A. ALL SIZES, TYPES, AND FINISHES SHALL BE AS NOTED IN SCHEDULES AND SUBMITTED TO THE GENERAL CONTRACTOR, INTERIOR DESIGNER, ARCHITECT AND ENGINEER PRIOR TO ORDERING.
12. LOUVERS TO BE PROVIDED AS NOTED IN THE SCHEDULES OR ELSEWHERE ON DRAWINGS. SUBSTITUTE LOUVERS SHALL HAVE EQUAL FREE AREA OR MORE THAN SPECIFIED UNITS.
    A. ALL SIZES, TYPES, AND FINISHES SHALL BE AS NOTED IN SCHEDULES AND SUBMITTED TO THE GENERAL CONTRACTOR, ARCHITECT AND ENGINEER PRIOR TO ORDERING.
    B. LOUVERS MOUNTING IN MASONRY WALL SHALL BE FURNISHED WITH AN EXTENDED OR SEPARATE SILL AND BE BOX FRAME WITHOUT FACE FLANGE.
13. MOTORIZED DAMPERS SHALL BE EQUAL TO RUSKIN CD-50 OR CD-40 LOW LEAKAGE DAMPER WITH AIRFOIL BLADES AND VINYL DOUBLE SEALS.

DOMESTIC WATER PIPING

1. PIPING SERVING DOMESTIC WATER THAT IS BELOW GRADE SHALL BE PEX LISTED TO NSF 61. NO FITTING ARE PERMITTED BELOW GRADE.
2. PIPING SERVING DOMESTIC WATER THAT IS ABOVE EXPOSED ABOVE GRADE, OR IN CABINETRY ABOVE GRADE SHALL BE TYPE L COPPER. FITTINGS TO BE SWEAT, WROUGHT COPPER FITTINGS.
3. PIPING SERVING DOMESTIC WATER THAT IS CONCEALED ABOVE GRADE SHALL BE TYPE L COPPER. FITTINGS TO BE SWEAT, WROUGHT COPPER FITTINGS.
   A. CONTRACTOR OPTION - PIPING SERVING DOMESTIC WATER THAT IS CONCEALED ABOVE GRADE TO BE PEX LISTED TO NSF 61. FITTINGS TO BE LISTED TO F1960 EXPANSION. LEAD FREE BRASS OR POLYMER LISTED TO NSF61. CONTRACTOR TO PROVIDE SHOP DRAWING FOR PIPING SIZED FOR PEX AND COST DELTA FROM COPPER.
4. MAKE ADEQUATE PROVISIONS FOR PIPE EXPANSION. ANCHOR BLOCK AND BRACE PIPE TO PREVENT MOVEMENT FROM WATER SURGES.
5. ROUTE ALL DOMESTIC WATER PIPING WITHIN THE BUILDING THERMAL ENEVLOPE. PIPING SHALL NOT BE ROUTED IN EXTERIOR WALLS OR VENTILATED ATTICS UNDER ANY CIRCUMSTANCES.
6. PROVIDE ANTI-SIPHON AND BACKFLOW PREVENTION DEVICES ON ANY EQUIPMENT EQUIPMENT CAPABLE OF BACKFLOW INTO THE DOMESTIC WATER SYSTEM.
7. VALVES SERVING DOMESTIC WATER 1/2" TO 2" NPS TO BE BALL VALVE, BRONZE, TWO PIECE, FULL PORT, WITH STAINLESS TRIM, LEAD FREE. 2" TO 4" NPS TO BE BUTTERFLY VALVE, DUCTILE IRON BODY, ALUMINUM BRONZE DISC, STAINLESS STEM, LOCKING LEVER ACTUATOR, LEAD FREE.

SANITARY WASTE, VENT AND STORM PIPING

1. NON-BURIED PIPING ABOVE FLOOR SLAB SERVING SANITARY WASTE SHALL BE SERVICE WASTE CAST IRON SOIL PIPE. HEAVY DUTY NO HUB COUPLERS.
2. BURIED PIPING BELOW FLOOR SLAB SERVING SANITARY WASTE SHALL BE BELL AND SPIGOT SERVICE WASTE CAST IRON SOIL PIPE WITH COMPRESSION GASKETS OR NO-HUB SERVICE WEIGHT CAST IRON WITH HEAVY-DUTY COUPLERS.
3. NON-BURIED PIPING ABOVE FLOOR SLAB SERVING STORM SHALL BE SERVICE WASTE CAST IRON SOIL PIPE. HEAVY DUTY NO HUB COUPLERS.
4. BURIED PIPING BELOW FLOOR SLAB SERVING STORM SHALL BE BELL AND SPIGOT SERVICE WASTE CAST IRON SOIL PIPE WITH COMPRESSION GASKETS OR NO-HUB SERVICE WEIGHT CAST IRON WITH HEAVY-DUTY COUPLERS.
5. SANITARY VENT PIPING TO BE SOLID WALL SCH 40 PVC. FITTINGS TO BE SOLVENT WELDED WITH TWO PART PRIMER AND GLUE.
6. CONTRACTOR OPTION - PIPING SERVING HORIZONTAL SANITARY WASTE AND STROM TO BE SOLID WALL SCH 40 PVC. FITTINGS TO BE SOCKET TYPE SOLVENT WELDED WITH TWO PART PRIMER AND GLUE. CONTRACTOR TO PROVIDE COST DELTA FROM CAST IRON.

FUEL GAS PIPING

1. PIPING SERVING FUEL GAS 1/2" TO 2" NPS TO BE SCH 40 STEEL WITH THREADED FITTING. PIPING 2-1/2" NPS AND LARGER TO BE SCH 40 WITH WELDED AND FLANGED FITTINGS.

CONDENSATE DRAIN

1. PIPING SERVING CONDENSATE DRAIN TO BE SCH 40 SOLID WALL PVC, FITTINGS TO BE SOCKET TYPE SOLVENT WELDED WITH TWO PART PRIMER AND GLUE. PIPING NOT LOCATED IN MECHANICAL SPACES TO BE PROVIDED WITH 1/2" ACCOUSTICAL PIPE WRAP INSULATION.

8 M4.0 INLINE FAN SUPPORT DETAIL HUNG - GARAGE EXHAUST
SCALE: NTS

COVE HEATER SEQUENCE OF OPERATIONS

1. GENERAL
THE COVE HEATING SYSTEM SHALL CONSIST OF RESIDENTIAL COVE HEATERS.

2. OPERATION
UPON A CALL FOR HEAT FROM THE THERMOSTAT, THE RESPECTIVE COVE HEATERS SHALL BE ENABLED.

WHEN THE ZONE IS SATISFIED THE OPERATION SHALL BE DISABLED.

VENTILATION SEQUENCE OF OPERATIONS

1. GENERAL
THE VENTILATION SYSTEM SHALL CONSIST OF ERV-1, ERV-2, AND ERV-3 IN DWELLING SPACES, INLINE FAN AND BALANCING DAMPER IN COMMON AREAS, AND INLINE FAN EF-2 IN PARKING GARAGE.

2. OPERATION
ERV UNITS IN DWELLING UNITS SHALL BE CONTROLED BY CO2 SENSOR. UPON A CALL FOR VENTILATION FROM THE SENSOR, ERV-1 AND/OR ERV-2 SHALL ENABLE TO BRING FRESH AIR INTO THE DWELLING SPACES. ERV-1 AND ERV-2 SHALL BE INTERLOCKED WITH ERV-3. ERV-3 SHALL BE ENABLED WHILE ERV-1 AND/OR ERV-2 ARE OPERATING AND SHALL EXHAUST AIR FROM THE DWELLING SPACE TO THE OUTSIDE.

INLINE FANS IN COMMON AREAS SHALL BE CONTROLLED BY CO2 SENSOR AND ENGAGE WHEN SENSOR CALLS FOR VENTILATION. INLINE FAN SHALL BE BALANCED WITH BD-1 ON THE RESPECTIVE INTAKE DUCTING.

PARKING GARAGE SHALL RUN CONTINUOUSLY AT LOW CFM SPEED AND ENGAGE HIGH SPEED WHEN TOXALERT SENSORS DETECT INCREASED LEVELS OF CO/NO2.

WHEN THE ZONE IS SATISFIED THE OPERATION SHALL BE DISABLED.

UNIT HEATER SEQUENCE OF OPERATIONS

1. GENERAL
THE MECHANICAL ROOM HEATING SYSTEM SHALL CONSIST OF UH-1 AND UH-2 ELECTRIC HEATERS.

2. OPERATION
UPON A CALL FOR HEAT FROM THE THERMOSTAT, THE RESPECTIVE UNIT HEATERS SHALL BE ENABLED.

WHEN THE ZONE IS SATISFIED THE OPERATION SHALL BE DISABLED.

SNOW MELT SEQUENCE OF OPERATIONS

1. GENERAL
THE SNOW MELT SYSTEM SHALL CONSIST OF PROMELT CABLE WITH JUNCTION BOX AND IN-SLAB SNOW AND ICE SENSOR.

2. OPERATION
SNOW MELT WILL BE CONTROLLED BY THE IN-SLAB SNOW AND ICE SENSOR. THE SYSTEM WILL BE AUTOMATICALLY ENABLED WHEN THE SENSOR DETECTS MOISTURE, AND THE OUTSIDE AIR TEMPERATURE IS ABOVE 10°F AND BELOW 36°F. ONCE THE SYSTEM IS ENABLED THE ELECTRIC PROMELT CABLE SHALL ENGAGE. THE SNOW MELT CONTROL SHALL BE ABLE TO PROVIDE SLAB PROTECTION AND BE CAPABLE OF A MANUAL, TIMED, ENABLE.

CONTROLS BASED ON TEKMAR 654 AND 090.

THERMOSTAT OVERVIEW

1. GENERAL: COVE HEATER
THE THERMOSTATS SHALL BE HONEYWELL CAPABLE OF SINGLE STAGE OPERATION AND CONTROLLING THE COVE HEATER OR UNIT HEATER . THE THERMOSTATS SHALL BE CAPABLE OF REMOTE MONITORING AND TEMPERATURE ADJUSTMENT.

REMARKS:
1. ALTERNATIVE MANUFACTURER'S: SUBMIT TO ENERGY 1 FOR APPROVAL
2. PROVIDE WITH HONEYWELL COVE-CONNECT WIRELESS PROGRAMMABLE THERMOSTAT KIT.
3. INSTALL PER MANUFACTURER'S INSTRUCTIONS.
4. COORDINATE PROCUREMENT AND INSTALLATION WITH GENERAL CONTRACTOR AND ELECTRICAL CONTRACTOR.

GARAGE FAN CONTROL PANEL SCHEDULE

MARK	MANUFACTURER	MODEL	SIZE (HxWxD)	ELECTRICAL DATA		REMARKS
				AMPS (A)	VOLTS/Φ	
GFC-1	TOXALERT	GVU-6	20"X10"X6"	10.0	120/1	1, 2

REMARKS:
1. SUBMIT ALTERNATE MANUFACTURER FOR APPROVAL.
2. PROVIDE UNIT WITH (3) GVU-CO AND GVU-NO2 SENSORS. INSTALL PER MANUFACTURER'S INSTRUCTIONS. INTERLOCK WITH EF-2.

ELECTRIC SNOWMELT SCHEDULE

MARK	MANUFACTURER	MODEL	LOCATION	AREA (SQFT)	WIRE SPACING (IN)	CABLE LENGTH (FT)	CAPACITY (BTU/HR/SQFT)	ELECTRICAL DATA		REMARKS
								AMPS (A)	VOLTS/Φ	
ESM-1	SUNTOUCH	PROMELT SC50240080	GARAGE	80 SF	3	317	170	16.7 A	240/1	1, 2, 3

REMARKS:
1. VERIFICATION OF SERVICE AREA TO BE DONE BY GENERAL CONTRACTOR PRIOR TO INSTALLATION.
2. ELECTRIC SNOWMELT ZONE TO BE PROVIDED WITH AND CONTROLLED BY PROGRAMMABLE SUNSTAT COMMAND THERMOSTAT AND IN SLAB TEMPERATURE SENSOR. INSTALL PER MANUFACTURER'S INSTRUCTIONS.
3. PROMELT HEATING CABLE CANNOT BE CUT TO FIT. INSTALL CABLE PER MANUFACTURERS INSTRUCTIONS.

ERV SCHEDULE

MARK	MANUFACTURER	MODEL	AIR FLOW (CFM)	ESP (IN. WG.)	REGENERATION EFFICIENCY	ELECTRICAL DATA			REMARKS
						POWER (W)	AMPS (A)	VOLTS/Φ	
ERV-1	TWINFRESH	RA1-50-2	30	0.00	93%	5.2	0.04	120/1	1, 2, 3, 4, 5, 6
ERV-2	TWINFRESH	RA1-50-2	15	0.00	93%	5.2	0.04	120/1	1, 2, 3, 4, 5, 6
ERV-3	TWINFRESH	RA1-50-2	30	0.00	93%	5.2	0.04	120/1	1, 2, 3, 4, 5, 6

REMARKS:
1. APPROVED ALTERNATIVE MANUFACTURER'S: SUBMIT TO ENERGY 1 FOR APPROVAL.
2. INSTALL PER MANUFACTURER'S INSTRUCTIONS.
3. UNIT TO BE MOUNTED AT 4' 0" A.F.F.
4. ELECTRICIAN TO PROVIDE ELECTRIC DISCONNECT.
5. PROVIDE WITH CO2-1 CO2 SENSOR.
6. ERV-1 AND ERV-2 TO ACT AS VENTILATION SUPPLY AND BE INTERLOCKED WITH ERV-3. ERV-3 TO ACT AS VENTILATION EXHAUST.

FAN SCHEDULE

MARK	MANUFACTURER	MODEL	TYPE	LOW AIR FLOW (CFM)	HIGH AIR FLOW (CFM)	ESP (IN. WC.)	RPM	DRIVE	SONES	WEIGHT	ELECTRICAL DATA			REMARKS
											POWER (W)	AMPS (A)	VOLTS/Φ	
EF-1	PANASONIC	FV-0511VK2	EXHAUST FAN	50	80	0.10	722	DIRECT	0.3	11.8 lb	11	0.10	120/1	1, 2, 3
EF-2	CONTINENTAL FAN	AXC150A-ES	INLINE FAN	44	235	0.20	2390	DIRECT	4	7.5 lb	47	1.63	120/1	1, 3, 4
EF-3	FANTECH	FG 4	INLINE FAN	25	135	0.20	3000	DIRECT	0	7.0 lb	20	0.19	120/1	1, 3, 5

REMARKS:
1. APPROVED ALTERNATIVE MANUFACTURER'S: SUBMIT TO ENERGY 1 FOR APPROVAL.
2. UNIT TO BE CONTROLLED BY SEPARATE WALL SWITCH. UNIT TO PROVIDE AT LEAST 50 CFM INTERMITTENTLY WHEN CONTROLLED BY WALL SWITCH.
3. PROVIDE WITH MOUNTING BRACKETS, BACKDRAFT DAMPER, INTEGRAL DUAL DIAMETER DUCT ADAPTER AND THERMAL OVERLOAD PROTECTION.
4. PROVIDE FAN WITH DVSCS VARIABLE SPEED CONTROL. INTERLOCK FAN WITH GARAGE FAN CONTROLS. FAN SHALL RUN CONTINUOUSLY AT LOW FAN SPEED.
5. UNIT TO BE CONTROLLED BY CO2 SENSOR. INTEGRATE CONTROLS WITH BALANCING DAMPER SUPPLY BD-1.

DRYER BOOSTER FAN SCHEDULE

MARK	MANUFACTURER	MODEL	TYPE	AIR FLOW (CFM)	ESP (IN. WC.)	RPM	DRIVE	ELECTRICAL DATA			REMARKS
								POWER (W)	AMPS (A)	VOLTS/Φ	
BF-1	FANTECH	DEDPV-705	DRYER BOOSTER FAN	121	0.50	2639	DIRECT	75	0.8	120/1	1, 2, 3

REMARKS:
1. APPROVED ALTERNATIVE MANUFACTURER'S: SUBMIT TO ENERGY 1 FOR APPROVAL.
2. PROVIDE PRESSURE-SENSING SWITCH TO ACTIVATE FAN AND SECONDARY LINT TRAP IN LINE WITH FAN EXHAUST (DBLT4W).
3. ELECTRICIAN TO PROVIDE ELECTRIC DISCONNECT.

GRD SCHEDULE

MARK	MANUFACTURER	MODEL	TYPE	DEFLECTION	CORE	FRAME	DAMPER	SIZE	PLENUM	COLOR	REMARKS
EG-1	PRICE	500	LOUVERED GRILLE	0.00"	10Z - 3/4" BLADE SPACING	SURFACE - F	-	10"X10"	-	VERIFY WITH ARCH	1, 2, 3
EG-2	PRICE	LBP	LINEAR BAR FRILLE	0.00"	25B - 3/16" BARS 1/2" BLADE SPACING 1 1/8" DEPTH	750	-	4"X12"	-	VERIFY WITH ARCH	1, 2
SG-1	PRICE	LBP	LINEAR BAR FRILLE	0.00"	25B - 3/16" BARS 1/2" BLADE SPACING 1 1/8" DEPTH	750	-	4"X12"	-	VERIFY WITH ARCH	1, 2
TG-1	PRICE	LBP	LINEAR BAR GRILLE	0.00"	25B - 3/16" BARS 1/2" BLADE SPACING 1 1/8" DEPTH	750	-	4"X12"	-	VERIFY WITH ARCH	1, 2

REMARKS:
1. SIZE BASED ON MAXIMUM SUPPLY AND RETURN RUNOUT VELOCITY OF 500 FPS AND NOISE CRITERIA OF LEVEL 25.
2. FINAL SIZING, COLOR, AND STYLE TO BE CONFIRMED WITH ARCHITECT PRIOR TO ORDERING.
3. PROVIDE WITH INSECT SCREEN.

ELECTRIC UNIT HEATER SCHEDULE

MARK	MANUFACTURER	MODEL	HEATING CAPACITY (BTU/HR)	ELECTRICAL DATA			REMARKS
				POWER (KW)	AMPS (A)	VOLTS/Φ	
UH-1	QMARK	LFK204F	6,820	2.0	8.3	240/1	1, 2, 3
UH-2	RUNTAL	EWP-8	5,220	1.5	6.4	240/1	1, 2, 3, 4

REMARKS:
1. APPROVED ALTERNATIVE MANUFACTURERS: SUBMIT TO ENERGY 1 FOR APPROVAL.
2. ELECTRICIAN TO PROVIDE ELECTRIC DISCONNECT.
3. TO BE CONTROLLED BY REMOTE THERMOSTAT.
4. UNIT TO BE FLOOR MOUNTED.

PLUMBING GENERAL NOTES

1. REFER TO SPECIFICATIONS FOR ALL PLUMBING RELATED WORK. ALL WORK SHALL BE IN STRICT ACCORDANCE WITH THE PLANS, SPECIFICATIONS AND MANUFACTURERS WRITTEN INSTRUCTIONS. ALL DEVIATIONS FROM THE PLANS AND/ORSPECIFICATIONS SHALL REQUIRE WRITTEN PRIOR APPROVAL FROM THE ENGINEER.
2. SUBMITTALS SHALL BE IN PDF FORMAT ONLY. PARTIAL OR INCOMPLETE SUBMITTALS AND PAPER COPIES WILL NOT BE REVIEWED. SUBMITTALS SHALL BE COMBINED INTO ONE FILE, WITH EACH SECTION LABELED ACCORDING TO ITS RESPECTIVE SPECIFICATION SECTION.
3. ALL PLUMBING EQUIPMENT AND SYSTEMS SHALL BE INSTALLED IN ACCORDANCE WITH THE 2021 EDITION OF THE INTERNATIONAL PLUMBING CODE AND THE LATEST EDITION OF ALL LOCAL AND STATE CODES.
4. ALL MECHANICAL AND PLUMBING EQUIPMENT SHALL BE INSTALLED PER THE MANUFACTURER'S RECOMMENDATIONS.
5. PLUMBING CONTRACTORS SHALL RECEIVE PRIOR APPROVAL FROM THE STRUCTURAL ENGINEER BEFORE MAKING CUTS THROUGH ANY STRUCTURAL MEMBER.
6. PLUMBING CONTRACTORS SHALL COORDINATE INSTALLATION WITH THE GENERAL CONTRACTOR AND WITH ALL OTHER TRADES TO AVOID CONFLICTS.
7. THE PLUMBING CONTRACTORS SHALL VERIFY MOTOR VOLTAGES WITH THE ELECTRICAL DRAWINGS BEFORE ORDERING MOTORIZED EQUIPMENT AND CONTROLS.
8. ALL MECHANICAL AND PLUMBING EQUIPMENT TO BE SUBSTITUTED FOR THE EQUIPMENT SPECIFIED MUST BE ON THE APPROVED LIST PRIOR TO SUBMITTALS. ALL APPROVED MANUFACTURERS MUST BE CAPABLE OF MEETING THE REQUIREMENTS OF THE SPECIFIED EQUIPMENT.
9. LOCATE ACCESS PANELS SO AS TO PROVIDE OPTIMUM SERVICEABILITY TO EQUIPMENT AND/OR VALVING. SEE ARCHITECTURAL SPECIFICATION FOR TYPE AND COLOR. COORDINATE LOCATION WITH STRUCTURAL & GENERAL CONTRACTOR.
10. DO NOT RUN ANY PIPING OVER ELECTRICAL PANELS OR GEAR.
11. ROUTE ALL PIPIPNG AS TIGHT TO THE STRUCTURE AS POSSIBLE UNLESS OTHERWISE NOTED.
12. PENETRATIONS OF FIRE RATED ASSEMBLIES SHALL BE CAULKED/SEALED TO MAINTAIN RATING. (PROTECT AS REQUIRED BY IBC SECTION 713)
13. SEE PLUMBING FIXTURE SCHEDULE FOR FIXTURE PIPING CONNECTION SIZES.
14. EXACT VENT LOCATIONS TO BE COOORDINATED ON SITE.
15. PLUMBING SHOWN IS LOCATED BETWEEN FINISHED FLOOR OF PLAN LEVEL AND THE FINISHED FLOOR OF LEVEL ABOVE UNLESS SPECIFICALLY NOTED.
16. PLUMBING IS SCHEMATIC IN NATURE. ACTUAL CONDITIONS MAY VARY. COORDINATE EXACT ROUTE WITH STRUCTURAL, MECHANICAL, ELECTRICAL, ARCHITECTURAL, AND FIRE PROTECTION ELEMENTS AS REQUIRED.
17. SEE MECHANICAL SHEET "MECHANICAL AND PLUMBING SPECIFICATIONS" FOR ADDITIONAL DETAILS ON INSTALLATION, MATERIALS, AND APPURTENANCES.
18. REFER TO SHEET P4.0 FOR PIPE SLEEVE SCHEDULE. COORDINATE ALL SLEEVING PENETRATIONS PRIOR TO INSTALL.

REMARKS:
1. APPROVED ALTERNATIVE MANUFACTURERS: SUBMIT TO ENERGY 1 FOR APPROVAL.
2. INSTALL PER MANUFACTURER'S WRITTEN INSTRUCTIONS.
3. PROVIDE WITH ANCHOR FLANGE, REVERSIBLE CLAMPING COLLAR, ADJUSTABLE SQUARE HEEL PROOF NICKEL BRONZE STRAINER, AND NO HUB OUTLET.
4. FULL GRATE w/ CENTER OPENING. ANCHOR FLANGE w/ SEEPAGE HOLES.
5. PROVIDE WITH TWO (2) 1/4 TURN VALVES, BRASS PEX PUSH CONNECTION, AND HAMMER ARRESTOR
6. PROVIDE FLOOR DRAIN WITH TRAP PRIMER.
7. PRIMARY AND SECONDARY ROOF DRAIN COMBINED ON ONE PIECE OF FLASHING, INSTALL SECONDARY DRAIN 2" HIGHER THAN PRIMARY.
8. MOUNT 18" ABOVE FINISHED GRADE.

BACKFLOW PREVENTER SCHEDULE

MARK	MANUFACTURER	MODEL	DESCRIPTION	SIZE (IN)	REMARKS
BFP-1	ZURN WILKINS	350 XL	DOUBLE CHECK BACKFLOW PREVENTER	2-1/2"	1, 2, 3

REMARKS:
1. APPROVED ALTERNATIVE MANUFACTURER'S SUBMIT TO ENERGY 1 FOR APPROVAL.
2. PROVIDE WITH LEAD FREE BRONZE BODY, 1/4" TURN SHUT OFF VALVES AND INTERNAL POLYMER COATING.
3. INSTALL PER MANUFACTURER'S INSTRUCTIONS

TANKLESS ELECTRIC WATER HEATER SCHEDULE

MARK	MANUFACTURER	MODEL	WATER CONNECTION (IN)	MINIMUM FLOW (GPM)	TEMP RISE (1.5 GPM FLOW) (°F)	ELECTRICAL DATA			REMARKS

WATER CLOSET WASTE PIPING	3"	3"	HILTI CFS-CID CS	2, 4, 6
FLOOR DRAINS AND SHOWER WASTE PIPING	2"	2"	HILTI CP 681 SD-FD	2, 4, 7
TUB WASTE PIPING	2"	2"	HILTI CP 681	2, 3, 7

REMARKS:

1. NONMETALLIC TUBING BUNDLE CONSISTING OF MAX FOUR TUBES TO BE INSTALLED CONCENTRICALLY WITHIN THERE FIRESTOP SYSTEM.
2. ONE NONMETALLIC PIPE TO BE INSTALLED WITHIN THE FIRESTOP SYSTEM.
3. PROVIDE WITH TUB BOX KIT. PIPING TO BE RIGIDLY SUPPORTED AWAY FROM TUB BOX WITH SUITABLE HANGERS.
4. PIPING TO BE RIGIDLY SUPPORTED ON BOTH SIDES OF FLOOR ASSEMBLY.
5. APPLIES TO CONCRETE FLOORS 2.5" MINIMUM THICKNESS FOR EITHER FLAT CONCRETE OR CONCRETE OVER METAL DECK.
6. APPLIES TO PVC PIPING AND 6" MINIMUM SLAB THICKNESS.
7. APPLIES TO PVC PIPING AND 4.5" MINIMUM SLAB THICKNESS.

ELECTRICAL LOW VOLTAGE LEGEND

FIRE ALARM SYSTEM	TELEPHONE/DATA SYSTEM

- FS — SPRINKLER PRESSURE SWITCH
- FS — SPRINKLER FLOW SWITCH
- TS — SPRINKLER TAMPER SWITCH
- H — HEAT DETECTOR
- SD — SMOKE DETECTOR - PHOTO-ELECTRIC
- SD D — DUCT SMOKE DETECTOR
- SS — SINGLE-STATION SMOKE DETECTOR. PROVIDE 120V AND MONITOR AT FACP VIA RELAY.
- SC — COMBINATION SMOKE AND CARBON MONOXIDE DETECTOR
- H X — HEAT DETECTOR
  "X" INDICATES TYPE:
  - RC - COMBINATION RATE-OF-RISE HEAT AND CO DETECTOR
- D — DOOR HOLDER
- F — MANUAL STATION (MOUNT AT +46", UNO)
- F / F — STROBE - WALL MOUNT (+90"), CEILING MOUNT
- S / S — HORN/STROBE - WALL MOUNT (+90"), CEILING MOUNT
- S / S — SPEAKER STROBE - WALL MOUNT (+90"), CEILING MOUNT
- TELEPHONE OUTLET (MOUNT AT +18", UNO). SEE NOTE.
- VOICE-DATA OUTLET (MOUNT AT +18", UNO). SEE NOTE.
- DATA OUTLET (MOUNT AT +18", UNO). SEE NOTE.
- WA — WIRELESS ACCESS POINT
- CABLE TRAY OR BASKET TRAY - LENGTH AND HEIGHT PER PLAN

NOTE: PROVIDE ROUGH-IN ONLY. SINGLE GANG BOX WITH MUD RING & 1" C. STUBBED UP TO ACCESSIBLE CEILING SPACE.

SECURITY SYSTEM

- CR — CARD READER - SEE ELECTRICAL DETAILS FOR ROUGH-IN (MOUNT AT +46", OR MATCH ADJACENT DOOR ACCESS CONTROL)
- RE — REQUEST TO EXIT MOTION DETECTOR
- DC — DOOR CONTACTS
- ES — ELECTRIC STRIKE
- EL — ELECTRIC LOCK
- MD — MOTION DETECTOR
- GB — GLASS BREAK DETECTOR
- C — CCTV CAMERA - CEILING MOUNT OR WALL MOUNT. SEE NOTE.

NOTE: PROVIDE ROUGH-IN ONLY. 2-GANG BOX WITH MUD RING & 1" C. STUBBED UP TO ACCESSIBLE CEILING SPACE.

ELECTRICAL POWER LEGEND

- PANELBOARD OR LOAD CENTER
- D-1 X — PANEL AND CIRCUIT DESIGNATION ARE SHOWN NEXT TO EACH DEVICE (PANEL NAME - CIRCUIT NUMBER). A SINGLE INSULATED GREEN GROUND CONDUCTOR SHALL BE PROVIDED WITH EACH HOME RUN. PROVIDE A SEPARATE NEUTRAL FOR EACH CIRCUIT. HOME RUNS SHALL HAVE NO MORE THAN THREE CIRCUITS. LINE VOLTAGE AND LOW VOLTAGE WIRING IS NOT SHOWN ON PLANS.
  "X" INDICATES TYPE:
  - GFI - GROUND FAULT INTERRUPTER
  - WP - WEATHERPROOF WHILE-IN-USE COVER
  - U - PROVIDE WITH (2) USB PORTS
- SIMPLEX RECEPTACLE - CEILING MOUNT, WALL MOUNT (+18", UNO)
- DUPLEX RECEPTACLE - CEILING MOUNT, POP-UP COUNTERTOP MOUNT, WALL MOUNT (+18", UNO)
- QUADRUPLEX RECEPTACLE - CEILING MOUNT, WALL MOUNT (+18", UNO)
- ABOVE COUNTER RECEPTACLE - MOUNT AT +4" ABOVE BACKSPLASH
- HALF-HOT RECPTACLE (SWITCH FOR SIMPLEX)
- X / X — FLOOR BOX WITH QUADRUPLEX RECEPTACLE - WITH (2) TELE/DATA PORTS, WITHOUT TELE/DATA. INCLUDE ALL HARDWARE/ACCESSORIES AS REQUIRED. PROVIDE COVER (COORDINATE WITH ARCHITECT FOR FLOORING TYPE AND FINISH).
  "X" INDICATES TYPE:
  - A - 4-GANG FLOOR BOX, CORROSION RESISTANT COATING FOR CONCRETE FLOORS (3" MIN. POUR DEPTH), UP TO 2" CONDUIT FEED (HUBBELL NO. CFB4G30CR, OAE)
  - B - 4-GANG FLOOR BOX FOR RAISED ACCESS FLOORS, UP TO 2" CONDUIT FEED (HUBBELL NO. AFB4G50, OAE)
  - C - FIRE RATED POKE-THROUGH FLOOR BOX FOR ELEVATED CONCRETE SLABS, 3" DIA. CORE (HUBBELL NO. PT7FSD, OAE)
  - D - 8" DIA., FIRE RATED POKE-THROUGH FLOOR BOX FOR ELEVATED CONCRETE SLABS, UP TO 2" CONDUIT FEED (HUBBELL NO. S18BPTFI73, OAE)
  - E - FLUSH, ROUND SINGLE SURFACE FLOOR BOX FOR CONCRETE FLOORS, UP TO 1" CONDUIT FEED (HUBBELL NO. B2506, OAE)
  - F - TOMBSTONE PEDESTAL FLOOR BOX, 1" CONDUIT FEED (HUBBELL NO. 6301, OAE)
- SPECIAL PURPOSE RECEPTACLE (MOUNT AT +18", UNO)
  "X" INDICATES TYPE:
  - A - NEMA 5-20R, #12 CU; B - NEMA 5-30R, #10 CU;
  - C - NEMA 5-50R, #8 CU; D - NEMA 6-20R, #12 CU;
  - E - NEMA 6-30R, #10 CU; F - NEMA 6-50R, #8 CU;
  - G - NEMA 14-20R, #12 CU; H - NEMA 14-30R, #10 CU;
  - I - NEMA 14-50R, #8 CU
- PUSHBUTTON (MOUNT AT +46", UNO)
  "X" INDICATES TYPE:
  - EPO - EMERGENCY POWER OFF
  - ADA - HANDICAPPED ACCESSIBLE DOOR (DEVICE BY OTHERS)
  - ODO - OVERHEAD DOOR OPERATOR (DEVICE BY OTHERS)
- FLATSCREEN TV BOX: 2-GANG, FLUSH IN WALL, HUBBELL RACO NSAV62M, WITH NSAV6C COVER. DUPLEX RECEPTACLE & SINGLE GANG DATA PORT. MOUNT AT + 72", UNO.
- J — JUNCTION BOX
- J — DROP-DOWN RECEPTACLE
- PS-X — SURFACE MOUNTED PLUGSTRIP
  "X" INDICATES TYPE:
  - A - PLUGSTRIP, POWER ONLY, OUTLET EVERY 3' OC
  - B - WIREMOLD SERIES 4000 POWER AND DATA
  - C - WIREMOLD SERIES 5000 POWER AND DATA
- SURFACE MOUNTED RACEWAY
- RACEWAY CONCEALED IN WALL, FLOOR, OR CEILING IN FINISHED SPACES, EXPOSED IN UNFINISHED SPACES
- RACEWAY BELOW FLOOR OR BELOW GRADE
- RACEWAY STUB-OUT WITH CAPPED END
- RACEWAY STUB-OUT WITH BRUSHED END
- GROUNDING BUS

ELECTRICAL ONE-LINE LEGEND

- M — CT AND CUSTOMER POWER METER
- M — MOTOR SYMBOL
- M — UTILITY ELECTRIC METER AND BASE (BASE BY CUSTOMER)
- SPD — SURGE PROTECTION DEVICE
- LA — LIGHTNING ARRESTOR
- STRESS RELIEF CONE
- PFC — POWER FACTOR CORRECTION CAPACITOR
- $M — MOTOR STARTER SWITCH W/ THERMAL OVERLOADS
- CONTACTOR NORMALLY OPEN, NORMALLY CLOSED
- TRANSFORMER, 3-PH, 3-WIRE DELTA CONNECTION
- TRANSFORMER, 3-PH, 4-WIRE GROUNDED WYE CONNECTION
- AUTOMATIC TRANSFER SWITCH
- VFD — VARIABLE FREQUENCY DRIVE
- FIXED MOUNT LV BREAKER
- FUSED SWITCH ("XXAS/XXAF" - SW AND FUSE AMP RATING)
- G — GENERATOR
- CB — WALL MOUNTED BREAKER
- THERMAL OVERLOAD ELEMENT
- DISCONNECT SWITCH ("XXAS" = SWITCH AMP RATING)
- FUSED DISCONNECT SWITCH ("XXAS/XXAF" = SW AND FUSE AMP RATING)
- COMBINATION MOTOR STARTER (STR SIZE, TYP, AS, AF, SEE MEP COORDINATION SCHEDULE)
- SWITCHBOARD OR PANELBOARD; NAME, VOLTAGE, PHASE, NUMBER OF WIRES WHEN INDICATED

ABBREVIATIONS AND SYMBOLS GENERAL NOTES

A. THE ABBREVIATIONS ON THIS SHEET COMPRISE A STANDARD LIST; NOT ALL ABBREVIATIONS APPEAR ON THIS PROJECT.

B. THE SYMBOLS ON THIS SHEET COMPRISE A STANDARD LIST; NOT ALL SYMBOLS APPEAR ON THIS PROJECT.

C. ALL MOUNTING HEIGHTS ARE TO CENTER OF DEVICE ABOVE FINISHED FLOOR, UNLESS NOTED OTHERWISE. MOUNTING HEIGHTS INDICATED ON ARCHITECTURAL WALL ELEVATIONS OR AS NOTED SPECIFICALLY ON THE DRAWINGS OR IN THE SPECIFICATIONS SHALL TAKE PRECEDENCE OVER MOUNTING HEIGHTS LISTED.

ELECTRICAL GENERAL NOTES

A. PRIOR TO BID CONTRACTOR SHALL VISIT THE SITE. NOT ALL WORK REQUIRED TO COMPLETE THE PROJECT IS SHOWN ON THE DRAWINGS. THE CONTRACTOR SHALL BECOME THOROUGHLY FAMILIAR WITH ALL THE WORK REQUIRED TO COMPLETE THE PROJECT IN ADDITION TO THE LOCAL CONDITIONS AND INCLUDE SAID WORK IN THE BID.

B. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE COORDINATION OF ALL ELECTRICAL SERVICE WORK WITH UTILITY. OWNER PAYS ALL FEES, CONTRACTOR DOES ALL SCHEDULING AND COORDINATION OF WORK. IT IS THE SOLE RESPONSIBILITY OF THE CONTRACTOR TO ENSURE ALL SCHEDULES ARE MET.

C. GENERAL WORK PRACTICES FOR ELECTRICAL CONSTRUCTION SHALL BE IN ACCORDANCE WITH NECA 1, "STANDARD PRACTICES FOR GOOD WORKMANSHIP IN ELECTRICAL CONTRACTING." THIS PUBLICATION IS AVAILABLE FROM NECA BY TELEPHONE AT 301-657-3110 OR ON-LINE AT WWW.NECANET.ORG.

D. DURING DEMOLITION, THE CONTRACTOR SHALL NOTE ALL EXISTING RACEWAY (BOTH SURFACE AND CONCEALED) TO THE EXTENT POSSIBLE. THESE RACEWAYS SHALL BE REUSED TO THE GREATEST EXTENT POSSIBLE TO INSURE A CLEAN FINISHED PRODUCT. WHERE PRACTICAL, AND ALLOWED PER CODE, FISHING THROUGH WALLS WITH MC CABLE IS PREFERRED TO SURFACE-MOUNTED CONDUIT.

E. CONTRACTOR SHALL REMOVE, TRANSPORT, AND LEGALLY DISPOSE OF LAMPS AND BALLASTS OFF-SITE. IT IS ASSUMED THE THE BALLASTS DO NOT CONTAIN PCBs. THE CONTRACTOR SHALL NOTIFY THE OWNER IMMEDIATELY IF IT IS SUSPECTED THAT BALLASTS CONTAIN PCBs.

F. ALL POWER INTERRUPTIONS SHALL BE COORDINATED WITH OWNER. ANY DISRUPTION OF WORKERS IN THE SPACE SHALL BE KEPT TO A MINIMUM AND BE COORDINATED WITH THE OWNER PRIOR TO WORK COMMENCING IN THAT SPACE.

G. CONTRACTOR SHALL EXTEND UNSWITCHED HOT LEG FROM EXISTING EMERGENCY FIXTURE LOCATION TO NEW EMERGENCY FIXTURES. AS NEEDED. SEE DEMO PLANS FOR AN APPROXIMATION OF EXISTING EMERGENCY FIXTURE LOCATIONS. FIELD VERIFY EXACT LOCATION PRIOR TO BID.

H. IT IS THE CONTRACTORS RESPONSIBILITY TO COORDINATE WITH MECHANICAL FOR PLENUM SPACES AND PROVIDE PLENUM RATED CABLES WHERE REQUIRED FOR LIGHTING CONTROL, DATA, FIRE ALARM AND ALL OTHER L.V. SYSTEMS NOT INSTALLED IN CONDUIT. VERIFY CONDUIT REQUIREMENTS ON DRAWINGS AND SPECIFICATIONS.

I. FIRE-RESISTANCE: PROVIDE A MINIMUM HORIZONTAL DISTANCE OF 24" BETWEEN OUTLET BOXES LOCATED ON OPPOSITE SIDES OF FIRE-RESISTANCE RATED WALLS. WHERE THIS IS NOT POSSIBLE INSTALL UL LISTED PUTTY PADS ON ALL OUTLET BOXES NOT MEETING THE 24" SEPARATION. PROVIDE A UL LISTED THROUGH - PENETRATION FIRESTOP FOR PENETRATIONS OF FIRE-RESISTANCE RATED ASSEMBLIES.

J. CONDUCTORS ARE SIZED PER THE 75 DEGREE C RATING COLUMN OF NEC TABLE 310.16. IF THE TERMINAL USED FOR A TERMINATION OF A PARTICULAR CONDUCTOR IS NOT MARKED, OR THE TERMINAL IS MARKED FOR 60 DEGREE C CONDUCTORS, IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO EITHER ADJUST THE AMPACITY OF THE CONDUCTOR TO MATCH THE 60 DEGREE COLUMN OF TABLE 310.16, OR REPLACE THE TERMINAL WITH ONE RATED FOR AT LEAST 75 DEGREES C.

K. BASED ON ACTUAL HOMERUN LENGTHS REQUIRED IN THE FIELD, THE CONTRACTOR SHALL CALCULATE AND INCREASE THE WIRE SIZES AS REQUIRED TO LIMIT BRANCH CIRCUIT VOLTAGE DROP TO 3%. FOR 20A BRANCH CIRCUITS THE MINIMUM CONDUCTOR SIZES SHALL BE AS FOLLOWS: #10 AMG CU FOR RUNS BETWEEN 100 AND 200 LINEAR FEET, #8 AWG CU FOR RUNS BETWEEN 200 AND 325 LINEAR FEET, ANS AS CALCULATED BY THE CONTRACTOR FOR CIRCUITS EXTENDING BEYOND 325 LINEAR FEET. IN ALL CASES WHERE WIRE SIZES INCREASE, THE CONTRACTOR SHALL PROVIDE LARGER CONDUITS AS REQUIRED.

L. PROVIDE A DEDICATED NEUTRAL CONDUCTOR FOR EACH 120V BRANCH CIRCUIT.

M. IT IS ABSOLUTELY NECESSARY FOR ALL TRADES INVOLVED TO COORDINATE WITH EACH OTHER AND VERIFY THAT THERE ARE NO CONFLICTS IN LOCATION OF DUCTS, CONDUITS, DIFFUSERS, BOXES, AND OTHER ITEMS THROUGHOUT THIS PROJECT BEFORE FINAL PLACEMENT OF MATERIALS.

N. ELECTRICAL CONTRACTOR IS RESPONSIBLE FOR ALL CUTTING OF FLOORS, WALLS, CEILINGS, AND ROOFS TO PERFORM THE REQUIRED WORK DEPICTED IN THESE DOCUMENTS. THE CONTRACTOR IS RESPONSIBLE FOR ALL PATCHING OF HOLES TO THE SATISFACTION OF THE ARCHITECT/ENGINEER.

O. ELECTRICAL CONTRACTOR SHALL ADHERE TO THE LATEST ADOPTED VERSION OF ALL APPLICABLE CODES AND ANY LOCAL ADDENDUM TO THOSE CODES.

SHEET #
E0.0

SHEET NAME:
ELECTRICAL COVER SHEET

ELECTRICAL SPECIFICATIONS

RACEWAY:
- MINIMUM RACEWAY SIZE: 3/4-INCH TRADE SIZE.

OUTDOORS:
- EXPOSED CONDUIT: RIGID STEEL CONDUIT.
- CONCEALED CONDUIT, ABOVE GROUND: EMT.
- UNDERGROUND CONDUIT: RNC, TYP EPC-40-PVC, DIRECT BURIED. USE TYPE EPC-80-PVC UNDER PAVED SURFACES.
- CONNECTION TO VIBRATING EQUIPMENT (INCLUDING TRANSFORMERS AND HYDRAULIC, PNEUMATIC, ELECTRIC SOLENOID,OR MOTOR-DRIVEN EQUIPMENT): LFNC.
- BOXES AND ENCLOSURES, ABOVE GROUND: NEMA250, TYPE 3R.

INDOOR:
- EXPOSED, NOT SUBJECT TO PHYSICAL DAMAGE: EMT OR MC CABLE (WHEN ALLOWED BY CODE).
- EXPOSED AND SUBJECT TO SEVERE PHYSICAL DAMAGE: RIGID STEEL CONDUIT.
- CONCEALED IN NEW CEILINGS AND INTERIOR WALLS AND PARTITIONS: EMT, MC CABLE, TYPE NM CABLE (WHEN ALLOWED BY CODE).
- CONNECTION TO VIBRATING EQUIPMENT (INCLUDING TRANSFORMERS AND HYDRAULIC, PNEUMATIC, ELECTRIC SOLENOID, OR MOTOR-DRIVEN EQUIPMENT): FMC, EXCEPT USE LFMC IN DAMP OR WET LOCATIONS.
- DAMP OR WET LOCATIONS: RIGID STEEL CONDUIT.
- BOXES AND ENCLOSURES: NEMA 250, TYPE 1, EXCEPT USE NEMA 250, TYPE 3R, NONMETALLIC IN DAMP OR WET LOCATIONS.
- RACEWAY FITTINGS: COMPATIBLE WITH RACEWAYS AND SUITABLE FOR USE AND LOCATION.
- RIGID AND INTERMEDIATE STEEL CONDUIT: USE THREADED RIGID STEEL CONDUIT FITTINGS, UNLESS NOTED OTHERWISE.

CONDUCTORS:
- ALL CONDUCTORS IN RACEWAY WHEN REQUIRED BY CODE OR LOCAL ADDENDUM: TYPE THHN-THWN, SINGLE CONDUCTORS.
- COPPER. SOLID FOR NO. 10 AWG AND SMALLER, STRANDED FOR NO. 8 AWG AND LARGER.
- CONCEALED IN NEW CEILINGS AND WALLS: TYPE THHN-THWN, SINGLE CONDUCTORS.
- TYPE MC OR NM CABLE IS ALLOWED FOR RESIDENTIAL INSTALLATIONS UNLESS PROHIBITED BY LOCAL AHJ.

PANELBOARDS:
- ALL PANELBOARDS SHALL BE FULLY RATED WITH COPPER BUSSING.
- ALL PANELBOARDS AND DISCONNECTS TO BE HARD-LABELED (HARD PLASTIC ENGRAVED).

DISCONNECTS:
- ALL DISCONNECTS SHALL BE HEAVY DUTY RATED.

WIRING DEVICES:
- STRAIGHT BLADE RECEPTACLES
  - CONVENIENCE RECEPTACLES, 125V, 20A: COMPLY WITH NEMA WD 1, NEMA WD 6 CONFIGURATION 5-20R, AND UL 498.
  - COOPER: 5351 (SINGLE), 5352 (DUPLEX).
  - HUBBELL: HBL5351 (SINGLE), CR5352 (DUPLEX).
  - UNFINISHED SPACES: PROVIDE GRAY DEVICE IN 4-SQUARE BOX WITH WHITE NYLON COVERS.
  - FINISHED SPACES: PROVIDE WHITE DEVICE IN 4-SQUARE BOX WITH WHITE NYLON COVERS.
- GFCI RECEPTACLES:
  - GENERAL DESCRIPTION: STRAIGHT BLADE, NON-FEED-THROUGH TYPE. COMPLY WITH NEMA WD 1, NEMA WD 6, UL 498, AND UL 943, CLASS A, AND INCLUDE INDICATOR LIGHT THAT IS LIGHTED WHEN DEVICE IS TRIPPED.
  - DUPLEX GFCI CONVENIENCE RECEPTACLES: 125 V, 20 A.
  - COOPER: GF20.
  - UNFINISHED SPACES: PROVIDE GRAY DEVICE IN 4-SQUARE BOX WITH GALVANIZED STEEL COVERS.
  - FINISHED SPACES: PROVIDE WHITE DEVICE IN 4-SQUARE BOX WITH WHITE NYLON COVERS.
- AFCI RECEPTACLES:
  - AFCI RECEPTACLES MAY BE USED INSTEAD OF AFCI BREAKERS WHEN APPROPRIATE. CONTRACTOR MUST COMPLY WITH NEC 210.12 FOR PROPER AFCI PROTECTION WHERE REQUIRED BY CODE.
- SNAP SWITCHES:
  - SWITCHES, 120/277 V, 20 A: COMPLY WITH NEMA WD 1 AND UL 20.
  - COOPER: 2221 (SINGLE POLE), CS1222 (TWO POLE), CS1223 (THREE WAY), 2224 (FOUR WAY).
  - HUBBELL: CS1221 (SINGLE POLE), CS 1222 (TWO POLE), CS1223 (THREE WAY), CS1224 (FOUR WAY).
  - LEVITON: 1221-2 (SINGLE POLE), 1222-2 (TWO POLE), 1223-2 (TWO POLE), 1223-2 (THREE WAY), 1224-2 (FOUR WAY).

FA SYSTEM (COMMERCIAL ADDRESSABLE STYLE):
- GENERAL DESCRIPTION: NON-CODED, ADDRESSABLE SYSTEM, WITH MULTIPLEXED SIGNAL TRANSMISSION, DEDICATED TO FIRE-ALARM SERVICE ONLY.
- DESIGNED BY LEVEL 4 DESIGNER, INSTALLED BY LEVEL 2 TECHNICIAN.
- SHALL COMPLY WITH ALL APPLICABLE SECTIONS OF THE NFPA 72 NATIONAL FIRE ALARM CODE.
- CONTROL PANEL: FLUSH-MOUNT, FIELD-PROGRAMMABLE, MICROPROCESSOR-BASED, MODULAR, POWER-LIMITED DESIGN WITH ELECTRONIC MODULES, COMPLYING WITH UL 864 AND LISTED AND LABELED BY AN NRTL. SILENT KNIGHT MODEL IFP SERIES, OR APPROVED EQUAL.
- NOTIFICATION DEVICES: HORN/STROBES AND STROBES SHALL HAVE ADJUSTABLE OUTPUT LEVEL SETTINGS, AND SHALL COMPLY WITH THE AMERICANS WITH DISABILITIES ACT (ADA) REQUIREMENTS.
- INITIATING DEVICES: HEAT DETECTORS, SMOKE DETECTORS, DUCT SMOKE DETECTORS, AND MANUAL PULL-STATIONS.
- PROVIDE DESIGN SUBMITTALS, INCLUDING ALL DRAWINGS, COMPONENT DATASHEETS, AND CALCULATIONS TO: THE AHJ, ARCHITECT, AND ENGINEER FOR APPROVAL.
- 3RD-PARTY MONITORING REQUIRED.
- SHALL BE COMMISSIONED AND APPROVED BY LOCAL AHJ.
- PROVIDE COMPLETE SET OF AS-BUILT DRAWINGS FOR THE ENTIRE SYSTEM UPON INSTALLATION COMPLETION, INCLUDING, BUT NOT LIMITED TO, THE EXACT LOCATIONS OF ALL EQUIPMENT, CONNECTIONS BETWEEN ALL EQUIPMENT, AND WIRING FOR ALL EQUIPMENT AS THE SYSTEM IS INSTALLED.
- PROVIDE COMPLETE SET OF OPERATION AND MAINTENANCE INSTRUCTIONS.
- PROVIDE COPY OF MANUFACTURER'S WARRANTY FOR ALL EQUIPMENT AND MATERIALS. WARRANTY SHALL BE FOR ALL EQUIPMENT, MATERIALS, INSTALLATION, AND WORKMANSHIP FOR A MINIMUM OF THREE(3) YEARS, UNLESS OTHERWISE SPECIFIED.

FA SYSTEM (RESIDENTIAL STYLE):
- PROVIDE COMBINATION CO AND SMOKE DETECTORS, WITH PRIMARY 120V POWER AND INTEGRAL BATTERY BACK UP.
- DEVICES SHALL BE LOCATED IN COMPLIANCE WITH NFPA 72.

METERING:
- COMPLY WITH REQUIREMENTS OF UTILITIES PROVIDING ELECTRICAL POWER SERVICES.
- COORDINATE INSTALLATION AND CONNECTION OF UTILITIES AND SERVICES, INCLUDING PROVISION FOR ELECTRICITY-METERING COMPONENTS.
- METERS WILL BE FURNISHED BY UTILITY COMPANY.
- CURRENT-TRANSFORMER CABINETS: COMPLY WITH REQUIREMENTS OF ELECTRICAL-POWER UTILITY COMPANY.
- METER SOCKETS: COMPLY WITH REQUIREMENTS OF ELECTRICAL-POWER UTILITY COMPANY.
- COMPLY WITH EQUIPMENT INSTALLATION REQUIREMENTS IN NECA 1.
- INSTALL RACEWAYS AND EQUIPMENT ACCORDING TO UTILITY COMPANY'S WRITTEN REQUIREMENTS. PROVIDE EMPTY CONDUITS FOR METERING LEADS AND EXTEND GROUNDING CONNECTIONS AS REQUIRED BY UTILITY COMPANY.

SERVICES RATED 1200A OR MORE:
- COMPLY WITH REQUIREMENTS OF NEC 240.67 OR 240.87 FOR ARC ENERGY REDUCTION.
- PROVIDE TESTING AND DOCUMENTATION REQUIRED IN PARTS A AND C OF 240.67 AND 240.87 FOR ENGINEERING REVIEW PRIOR TO AHJ INSPECTIONS.
- SOLICIT THE SERVICES OF ELECTRICAL EQUIPMENT VENDOR FOR THE REQUIRED TESTING.

ALL SERVICES:
- PROVIDE SHORT CIRCUIT, ARC FAULT, AND COORDINATION STUDY FOR ENGINEERING REVIEW. STUDY IS TO BE INCLUDED IN THE ELECTRICAL EQUIPMENT SUBMITTALS.

NOTE: THESE SPECIFICATION REQUIREMENTS MAY NOT ALL APPLY TO SPECIFIC PROJECT. CONTRACTOR MAY CONTACT ENGINEER FOR CLARIFICATION IF IN DOUBT.

ELECTRICAL SPECIFICATIONS

N 1 E1.0 ELEC - LEVEL 1 - POWER PLAN

SCALE: 1/4" = 1'-0"

GENERAL ELECTRICAL NOTES:

A. IT IS ABSOLUTELY NECESSARY FOR ALL TRADES INVOLVED TO COORDINATE WITH EACH OTHER AND VERIFY THAT THERE ARE NO CONFLICTS IN LOCATION OF DUCTS, CONDUITS, DIFFUSERS, BOXES, AND OTHER ITEMS THROUGHOUT THIS PROJECT BEFORE FINAL PLACEMENT OF MATERIALS.
B. ELECTRICAL CONTRACTOR IS RESPONSIBLE FOR ALL CUTTING OF FLOORS, WALLS, CEILINGS, AND ROOFS TO PERFORM THE REQUIRED WORK DEPICTED IN THESE DOCUMENTS. THE CONTRACTOR IS RESPONSIBLE FOR ALL PATCHING OF HOLES TO THE SATISFACTION OF THE ARCHITECT/ENGINEER.
C. CONTRACTOR IS FULLY RESPONSIBLE FOR FOLLOWING ALL APPLICABLE CODES AND STANDARDS, AS WELL AS ALL LOCAL ADDENDUM TO THOSE CODES AND STANDARDS, WHETHER SPECIFICALLY SHOWN ON THESE DRAWINGS OR NOT.

KEYED NOTES

(#)

1 MAINTAIN WORKING CLEARANCE IN ACCORDANCE WITH NEC 110.26.
2 PROVIDE GFI BREAKER FOR RECEPTACLES LOCATED BEHIND EQUIPMENT.
3 CONNECT EXHAUST FAN TO LIGHTING CIRCUIT SERVING THIS SAME ROOM, UNLESS LIGHTING IS SERVED BY LIGHTING CONTROL SYSTEM. IF LIGHTING IS SERVED BY LIGHTING CONTROL SYSTEM, CIRCUIT EXHAUST FAN TO GFI CIRCUIT.
4 CONTRACTOR SHALL PROVIDE 240V CIRCUIT FOR HEAT TRACING OF EXPOSED PLUMBING. CONTRACTOR SHALL FIELD COORDINATE LOCATIONS OF HEAT TRACING PRIOR TO ROUGH-IN.

SHEET #
E2.3

SHEET NAME:
ELECTRICAL - LEVEL 1 - EXTERIOR PHOTOMETRICS

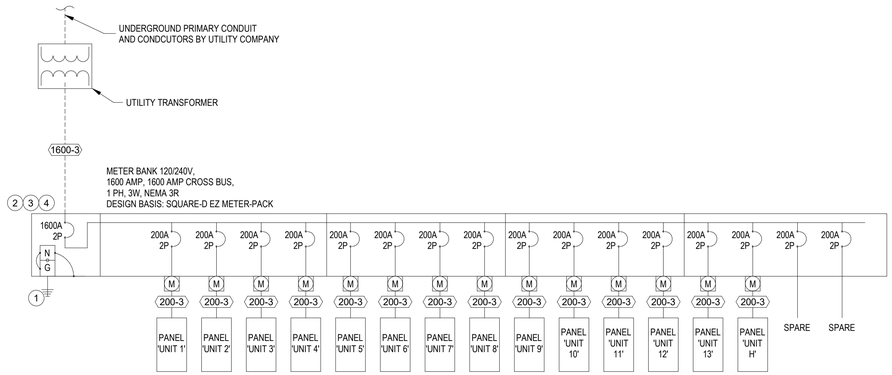
GENERAL NOTES

A. INSTALLATION PER UTILITY REQUIREMENTS.

B. COORDINATE EXACT DISTANCES BETWEEN UTILITY TRANSFORMER AND METER/CT WITH LOCAL UTILITY PRIOR TO ROUGH-IN.

C. BASED ON ACTUAL HOMERUN LENGTHS REQUIRED IN THE FIELD, THE CONTRACTOR IS RESPONSIBLE TO CALCULATE AND INCREASE THE WIRE SIZES AS REQUIRED TO LIMIT BRANCH CIRCUIT VOLTAGE DROP TO 3% OR LESS.

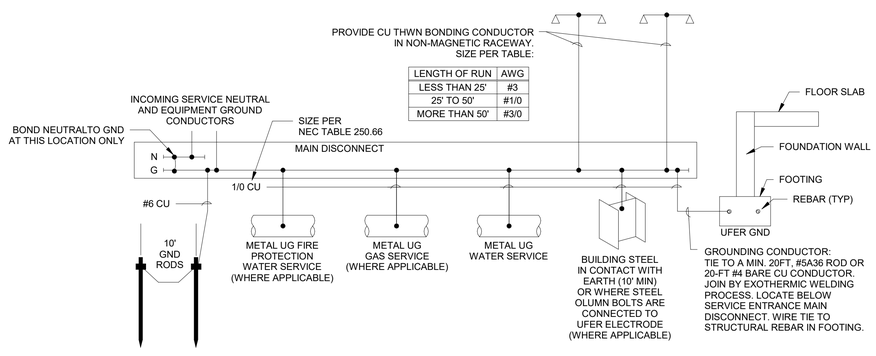
D. CONDUIT, CONDUCTORS AND AIC CALCULATIONS FOR ALL SERVICE, PANEL AND EQUIPMENT FEEDERS INDICATED ON THE ONE-LINE HAVE BEEN SIZED BASED ON COPPER. THE CONTRACTOR MAY USE COMPRESSED ALUMINUM CONDUCTORS FOR THESE FEEDERS PROVIDING THE CONDUIT, CONDUCTOR SIZES AND AIC CALCULATIONS ARE ADJUSTED AS REQUIRED TO MEET ALL NATIONAL ELECTRICAL CODE REQUIREMENTS.



KEYED NOTES

1. PROVIDE GROUNDING PER DETAIL #2 ON SHEET E4.0
2. METER BASE PER UTILITY REQUIREMENTS
3. MAIN CIRCUIT BREAKER SHALL BE 100% RATED
4. CONTRACTOR SHALL PROVIDE ENERGY REDUCING MAINTENCE SWITCHING PER NEC 240.87

AVAILABLE FAULT CURRENTS



*AVAILABLE FAULT CURRENTS ARE PROVIDED AS ESTIMATIONS ONLY; FAULT CURRENT STUDY TO BE COMPLETED AND APPROVED PRIOR TO INSTALLATION OF ELECTRICAL EQUIPMENT.

METER BANK - 23,820 A
PANEL 'U1' - 9,300 A
PANEL 'U2' - 8,470 A
PANEL 'U3' - 9,990 A

Exterior Lighting Compliance Certificate

Project Information

Energy Code: 2021 IECC
Project Title: 54 Lofts
Project Type: New Construction
Exterior Lighting Zone: 2 (Residentially zoned area (LZ2))

Construction Site: Owner/Agent: Designer/Contractor:

Allowed Exterior Lighting Power

A Area/Surface Category	B Quantity	C Allowed Watts /	D Tradable Wattage	E Allowed Watts (B X C)
Parking area	4105 ft2	0.04	Yes	164
Emergency services, loading area	100 ft2	0.35	No	35
			Total Tradable Watts (a) =	164
			Total Allowed Watts =	199
			Total Allowed Supplemental Watts (b) =	400

(a) Wattage tradeoffs are only allowed between tradable areas/surfaces.
(b) A supplemental allowance equal to 400 watts may be applied toward compliance of both non-tradable and tradable areas/surfaces.

Proposed Exterior Lighting Power

A Fixture ID : Description / Lamp / Wattage Per Lamp / Ballast	B Lamps/ Fixture	C # of Fixture	D Fixture Watt.	E (C X D)
Parking area (4105 ft2): Tradable Wattage				
LED: LED Linear 15W.	1	13	15	195
Emergency services, loading area (100 ft2): Non-tradable Wattage				
LED: Other:	1	2	12	24
			Total Tradable Proposed Watts =	195

Exterior Lighting PASSES: Design 65% better than code

Exterior Lighting Compliance Statement

Compliance Statement: The proposed exterior lighting design represented in this document is consistent with the building plans, specifications, and other calculations submitted with this permit application. The proposed exterior lighting systems have been designed to meet the 2021 IECC requirements in COMcheck Version COMcheckWeb and to comply with any applicable mandatory requirements listed in the Inspection Checklist.

CHxTLD Modular

355 SCOTT LANE
JACKSON, WYOMING 83001

PROPOSED ELEVATION
FOR REFERENCE ONLY

SCOPE OF WORK - PROPOSED

WET SYSTEM:
-FURNISH AND INSTALL (1) NEW AUTOMATIC WET FIRE SPRINKLER SYSTEM FOR CHxTLD MODULAR.
-FURNISH AND INSTALL (1) NEW AUTIOMATIC DRY FIRE SPRINKLER SYSTEM FOR CHxTLD MODULAR.
-MFP SCOPE OF WORK TO START INSIDE THE BUILDING AT WATER SUPPLY STUB IN.

DESIGNED BY:
MOUNTAIN FIRE PROTECTION

307.690.1162 - OFFICE
PO BOX 363
VICTOR, ID 83455

AUTHORITY HAVING JURISDICTION:
JACKSON HOLE FIRE/EMS

GENERAL CONTRACTOR:
TBD

GENERAL NOTES

1. SYSTEM DESIGN, INSTALLATION AND TESTING SHALL BE IN ACCORDANCE WITH NFPA 13 AND LOCAL FIRE AUTHORITY.
2. FDC LOCATION TO BE VERIFIED BY AHJ
3. STANDPIPE NOT REQUIRED PER IBC 905.3.1. HIGHEST FLOOR LEVEL LESS THAN 30'-0".
4. ALL MATERIAL AND DEVICES TO BE U.L. LISTED AND/OR F.M. APPROVED FOR FIRE SPRINKLER USE.
5. ALL SYSTEM PIPING SHALL BE BLACK STEEL (SCHEDULE 10 OR SCHEDULE 40 A-53 OR A-795) OR CPVC FOR FIRE SPRINKLER USE.
6. ALL HANGERS SHALL BE DESIGNED, SPACED AND INSTALLED AS PER NFPA-13.
7. MAXIMUM SPRINKLER SPACING LIGHT HAZARD COVERAGE 225 SQ. FT. (15' X 15' SPACING)
8. MAXIMUM SPRINKLER SPACING ORDINARY HAZARD COVERAGE 130 SQ. FT. (13' X 10' SPACING)
9. ALL PIPE AND FITTINGS TO BE HYDROSTATICALLY TESTED TO 200 PSI FOR 2 HOURS WITH NO LEAKS.
10. MAIN DRAINS, AUXILIARY DRAINS, AND INSPECTORS TESTS ARE TO BE PROVIDED AND INSTALLED IN ACCORDANCE WITH NFPA 13.
11. ALL SYSTEM CONTROL VALVES SHALL BE OF THE INDICATING TYPE WITH TAMPER SWITCH.
12. IDENTIFICATION SIGNS PER NFPA 13 SHALL BE PROVIDED AT ALL VALVES.
13. STOCK OF SPARE SPRINKLERS OF EACH TYPE INCLUDING WRENCH TO BE PROVIDED PER NFPA
14. FIRE ALARM BY OTHERS.
15. OTHER CONTRACTORS TO PROVIDE PAINTING, WIRING, FIRE EXTINGUISHERS, HYDRANTS, THRUST BLOCKING, CITY WATER CONNECTION, EXCAVATION, BACKFILLING AND SYSTEM MONITORING.
16. FLUSHING AND TESTING OF UNDERGROUND PIPING SHALL BE COMPLETED BY THE INSTALLING CONTRACTOR BEFORE CONNECTION TO THE FIRE SPRINKLER SYSTEM.
17. ALL PENETRATIONS THROUGH FIRE RATED ASSEMBLIES SHALL BE FIRE STOPPED. FIRE STOPPING MATERIAL SHALL BE INSTALLED PER MANUFACTURERS INSTRUCTION AND DETAIL.
18. BUILDING OWNER SHALL BE RESPONSIBLE FOR ADEQUATE HEAT (40ºF AND ABOVE) IN ALL WET PIPE AREAS TO PREVENT SPRINKLER SYSTEM FROM FREEZING.
19. NON-COMBUSTIBLE CONSTRUCTION. IN THE EVENT THAT A CONCEALED COMBUSTIBLE SPACE IS NOT SHOWN ON THE PLAN SUBMITTAL AND IS DISCOVERED IN THE FIELD THE INSTALLING CONTRACTOR MUST COMPLY WITH NFPA 13 9.2.1.7

PLANNING & BUILDING DEPARTMENT

November 11, 2022

Mr. Joseph Saunders and Mr. Dave Velasquez
Figure 9
PO Box 190576
Anchorage, AK 99519

RE: P22-254
DRC Approval - 910 Smith Ln. & 915 Simon Ln.

Dear Applicants,

This letter is to confirm on November 9, 2022, the Design Review Committee reviewed a 3-story, residential project at 910 Smith Ln. and 915 Simon Ln and recommended ***approval*** to the Planning Director of the project with the following three (3) conditions:

1. Applicant shall study options for including windows, or the appearance of windows, at the stairwells.
2. Applicant shall study options for introducing relief to the building at the pedestrian level along the Scott Ln. frontage.
3. Applicant shall provide sample of stone material for review by DRC prior to submittal of building permit.

Should you have any questions or need additional information, please contact me at 307-733-0440, ext. 1302 or by email at kpage@jacksonwy.gov.

Sincerely,

Katelyn S. Page

Katelyn S. Page

MEETING NOTES

Required utilities easement, 7.5 feet for dry utilities (behind the curb aka, property line). Currently at 10ft on pre-app plans. Ultimately up to the utility company and need confirmation from the utility company that they are okay with the 10 foot easement.

Brian Schilling to get CAD drawings over to Ryan Prat the architect.

Landscaping to be up against building per Brian Schilling.

The Town needs to get easement for 20ft easement.

Checklist Key.

X ***Required****. Applicant must demonstrate compliance with this requirement.*

N/A ***Not Applicable****. Review requirement is not applicable to this project.*

General Information		
Requirement		**Notes**
	~~**GRADING PERMIT APPLICATION.** The application should contain all pertinent information from the grading permit checklist.~~ ~~Submit complete application in **PDF**.~~ **OR** **BUILDING PERMIT.** If any proposed structure is included in the work, the grading permit information shall be consolidated with the building permit**.** Submit documents as required for a building permit**, include PDF**	Including all grading info with the plans.
x	**Notarized Letter of Authorization.** If the applicant is not the owner.	
x	**Application Fees.** Fees are cumulative. Applications for multiple types of permits, or for multiple permits of the same type, require multiple fees. Fees for grading permits are included with building permit fees for consolidated applications.	*Check with Building Department.*
x	**Review fees.** The applicant is responsible for paying any review fees and expenses from consulting services necessitated by the review of the application by the Town Surveyor, Town Engineer, Town Engineering Associates, Title Company and any other required consultant. Such fees shall be paid prior to approval of the permit.	*Check with Building Department.*
x	**Digital Submittal Requirments.** All grading applications submitted to the Town Planning & Building Department must be submitted digitally as **PDFs**. Electronic documents submitted for plan review and permit issuance must be provided in a state that allows for document mark up, scaling, file combining and processing. Documents submitted in any manner that prevents completing the review and permitissuance process, including but not limited to submitting documents that are locked, may result in additional review time and/or permitting delays.	
x	**Response to Building and Grading Information Checklist and Pre-Application Notes.** All applications require response to applicable review standards.	

LDR ARTICLE 5 PHYSICAL DEVELOPMENT STANDARDS. *Please see Subsection B in applicable Zone District for specific standards The following are pertinent to grading permits.*		
Requirement		**Notes**
x	**Site Development** (Driveway and Access limits and setbacks) • Varies by zoning. • Location of Driveways, Access to Collectors, Curb Cut Width	Verify with Planning.

x	**Landscaping** (see Div. 5.5 for more information) coordinate with revegetation plan. • Trees in the PROW and approved Street Trees; Signage and Conflicts	Compliance table for planning department to easily read Plant unit amounts LSR minimum clearly visible Call out all compliances Electric vehicle plug ins, show on plans
x	**Environmental Standards.** Creek & Irrigation Ditch Setbacks (15')	

x	**Natural Hazards to Avoid (see Div. 5.4 for more information)**
	• Steep Slopes – Natural Slopes in Excess of 25%
	  ○ No physical development on natural slopes in excess of 25%
	  ○ EXCEPTIONS
	  ○ NC-ToJ Zone allows development on slopes up to 30%
	  ○ Manmade Slopes, Small Slopes (<1000 SF & 10 ft Elevation change), Essential Access for vehicles & utilities.
	  ○ Non LDR Exceptions for Lots Platted prior to 1994
	  ○ Non LDR Exceptions for Lots Platted in Karn's Hillside (only for essential access and structures)
	  ○ **GEOTECH REPORT** required for sites with existing slopes greater than 25% or per Town Engineer
	  ▪ Commensurate with the degree of hazard and including a Stability Evaluation or Analysis for Post Development conditions considering internal, local, and global stability to the degree that the project influences the area.
	• Areas of Unstable Soils
	• Rockfall and Avalanches
	• Fault Areas
	• Floodplains and Floodways
	• Wildland Urban Interface (Requires Fire EMS Approval)
		Boring after DEMO.

x	**Grading, Erosion Control, Stormwater (see Div. 5.7 for more information)**
	• Grading (Sec. 5.7.2 & 8.3.4)
	  o PLAN LEVEL PERMITS REQUIRE A PE or LA STAMP
	  o Retaining walls not attached to a building over 48 inches from **base of footing** shall be engineered and Inspected by engineer (require a Building Permit).
	  o Final grading inspection required by design engineer for plan level applications
	• Erosion Control (Sec. 5.7.3)
	• Stormwater Management (Sec. 5.7.4)
	  o Exceptions Karn's Hillside Exemption for onsite storage
	  o Considerations for hillsides and soil conditions that are not conducive to storage or infiltration.
	  o **PROVIDE STORMWATER CALCULATIONS (Single Family Residential Exception)**
	  o Detention and runoff per the LDRs.
	  o Discharges from new parking lots or garages to the Town's storm sewer require a sand oil separator. Discharges to the street should be routed through first flush treatment area prior to leaving the site.
		Incorporate Alta's design of Snow King / Scott Lane intersection realignment.-from Brian Schilling

OTHER APPLICABLE LDR STANDARDS		
Requirement		**Notes:**
x	**Parking and Loading, (see Div. 6.2)** **6.2.3** Location of Required Parking **6.2.5** Off-Stree Parking and Loading Design Standards Size, snow storage, alley access (22' Spaces), etc. • Show Dimensions of spaces, access aisles, overhangs • ADA spaces for commercial, at least one van space • Trash enclosure and access	
_____	**Standards Applicable to all Subdivisions (see Div. 7.2.2)** • Roads, Sewer, Storm, Water, Utilities, etc. • Professional Engineer and Town Acceptance	
_____	**Transportation Facility Standards (see Div. 7.6)** • Access to Roads; other street and ROW standards • Sidewalks, buffers and complete streets	

x	**Required Utilities, (see Div. 7.7)** **7.7.2** Potable Water Supply • Detached ARU units require a separate curb stop, service line from the property line, and meter. JMC 13.04.080. • DEQ permit required for Water and Sewer mains larger than 8-inch and/or longer than 250 feet. • Water services larger than 2-inch and Sewer Service larger than 6-inche shall be designed, inspected, and certified by a Wyoming licenensed engineer. • **WATER ENTRY DETAIL**: ○ Show Fire, Domestic, and Irrigation (internal). ○ Domestic must branch off of fire outside the building with a separate shutoff. ○ One meter for the building, owner can submeter privately. No meter required on Fire ○ Show Backflow Type: RPV Assembly Required for Fire, Multi-family, and High Hazard Commercial. Dual Check for Offices and Low Hazard Commercial. ○ Civil and Plumbing Plans should correlate. **7.7.3** Sanitary Sewer System **7.7.5** Other Utilies; Buried Utilities Required • **COMMERCIAL: PROVIDE SPACE FOR TRANSFORMER & COMS.** • Storm Water Collection, Treatment, Connection.	Per pre-ap notes: *1)* The design engineer needs to do the hydraulic analysis to determine that adequate water supply is available. If a 6-inch fire line is needed, prefer tie into 8" main in Scott Lane. If a 4-inch fine line is needed, then 6-inch water main on Simon Lane may be suitable. Water in Smith Lane is also 6-inch and on the far north side of the road.
x	**Utility Fees (see Municipal Code Title 13 Utilities)** • PROVIDE PLANS OF EXISTING STRUCTURE (# BEDROOMS) • Water Meters – Show the Size and Location on the plans • Curb Stop(s) required at property line • One water tap allowed per parcel • Backflow Prevention – Size, Type, and Location ¾" and 1" Provided by Town with Meter • Meter pit w/1 meter at property line, or meter at each building • Curb stop required for each building. • Connection Fees • Capacity Fees: Water based on: Non-Residentail/Multi-Family by meter size; Residential by number of bedrooms; Unfinished Habitable, LSA Sewer based on building use and size	
x	**Construction Management Plan (FOR COMMERCIAL)** • Fencing – For Public Safety and Site Security • Tracking Pad – required at access point(s) • Soil Tracking onto the road is prohibited, clean immediately • Staging & Stockpiling • Contractor Parking • Trailers, Dumpsters, Toilets; Concrete Washout • No staging or storage of materials in public right-of-way or easement	Will need to be provided by contractor and approved prior to Building Permit Issuance.
x	**Public Right of Way (Encroachment) Permits** • Required for work within the right-of-way, Town easements, or property • Fees and Bonding	Curb cuts, water/ sewer taps/ abandonments.

x	**Demolition Permits and Utility Abandonment** • Bonding is required • Standards • Locations (Utilities, Fencing, Parking, Storage, Access, Stabilization) • Asbestos and the DEQ	One for each lot/building. Specify and point to Utilities to be abandoned at the main. Show Construction Fencing, silt fencing at points of discharge, construction access and stabilization, and parking.
	Floodplain Development Permits • Floodplain vs. Floodway • Requirements • Separate Application	
x	**Permitting and Inspection Process** • PreConstruction Meeting Required • Sign Off Sheet – Engineering has a separate sheet • Final Inspections – Engineering Required Prior to Building	
x	**OTHER** • **Sidewalks** – in public right of way, easements, or land shall be ADA compliant. Show all cross slopes, running slopes, and grade breaks. o For sidewalks along a block, provide a profile of Top Back of Curb and Front of Sidewalk to show the vertical relationship. • **Striping and Signage Plans:** Show existing and proposed street signs with landscaping and lighting plans for reference and to reduce conflicts. • **WYDOT, DEQ, USACE, Other Permits**	Snow King Ave / Scott Lane re-alignment project coordination.

GRADING PRE-APPLICATION CONFERENCE SUMMARY
Planning & Development Department
Planning Division

150 E Pearl Ave.
P.O. Box 687
Jackson, WY 83001

ph: (307) 733-o440
fax: (307) 734-3563
www.townofjackson.com

INSTRUCTIONS FOR THE GRADING PRE-APP PROCESS

1. Applicant determines if a Pre-Ap is warranted based on the level of grading information required.
2. Applications are made using the Planning Pre-Application Form with Grading Option Selected
3. Planning takes in the application and distributes to Engineering and assigns a Planner
4. Engineering reviews application material for sufficiency and notes status in the Review section of TrakIT.
    a. Sufficient: Schedules a meeting with Applicant and Planner.
        i. Engineering marks project as approved and enters the scheduled meeting date in TrakIT under Plan Reviews.
    b. InSufficient: Engineering marks application as insufficient in TrakIT under plan reviews. Engineering contacts applicant to get necessary information.
5. Engineering conducts the meeting with the applicant and planner. Utilize the Grading Pre-Ap Checklist to cover the required topics and make any notes on the project. Planner may just submit comments via email.
6. Following the meeting:
    a. Engineering scans (2 sided) the notes and file them in the Pre-Application project folder.
    b. Engineering emails the notes to the applicant copy Tiffany in Planning.
    c. Engineering completes the date of the meeting and the meeting notes delivery in the Chronology section of TrakIT.

TIMELINES. *This table is intended to provide general information regarding the review process and timing of decisions. See Article 8 for a complete explanation of the review process.*

For administrative decisions made by the Planning Director, the following timelines are generally applicable:

Application Types:	Sufficiency	Planning Director
Basic Use Permit (Sec 8.4.2)	Within 14 days of Submittal	Up to 45 days after application is deemed sufficient. Can be reviewed in conjunction with building permit. BUP must be approved prior to issuance of building permit.

For decisions requiring a public hearing process, the following timelines are generally applicable:

Application Types:	Sufficiency	Planning Commission (PC)	Town Council
• Design Review Committee (Sec 8.2.6)	2nd Wednesday of each month. Sufficient Packets submitted 16 days prior to meeting. Max 4 projects per meeting	NA	NA
• Partial Vacation without replat (Sec. 8.2.13.C.5)	Within 14 days of Submittal	NA	Hearing within 90 days of Sufficiency
• Condominium Plat (Sec 7.2.4)	Within 14 days of Submittal	NA	Hearing within 90 days of Sufficiency

GENERAL INFORMATION.

✓ *Required, If Checked.*

If not checked, review requirement with a Staff member to determine if necessary for your application.

	Requirement	Notes
✓	**Planning Permit Application.** The application should list all pertinent permits (use, physical development, interpretation, relief from the LDRs, Development Option/Subdivisions, Amendments to the LDRs) for which you are applying.	

	Requirement	Notes
✓	**Notarized Letter of Authorization.** See **Section 8.2.4.A** for requirements.	Sign by property owners RD Rentals LLC / Town of Jackson
n/a	**Application Fees.** Fees are cumulative. Applications for multiple types of permits, or for multiple permits of the same type, require multiple fees. See the currently adopted Fee Schedule on the Town of Jackson Website.	Waived / Exempt.
✓	**Review fees.** The applicant is responsible for paying any review fees and expenses from consulting services necessitated by the review of the application by the Town Surveyor, Town Engineer, Town Associate Engineer, Title Company and any other required consultant. Such fees shall be paid prior to approval of the permit.	Technical review fees will be assessed for Condominium Plat process.
✓	**Mailed Notice fee.** See **Section 8.2.14.C.2** for notice requirements. If mailed notices are required, the applicant is responsible for paying for any mailing in excess of 25 notices.	Required for mailings for Town Council meetings. Required forCondominium Plat
✓	**Other information is needed.** All applications submitted to the Town of Jackson Planning Department must be submitted in digital format once the application is determined to be sufficient.	
✓	**Response to Submittal Checklist.** All applications require a response to applicable review standards. For applications where a pre-application conference is required, applicable standards are identified below.	
✓	**Title Report.** A title report, title certificate, or record document guarantee prepared within the last six months that includes evidence of ownership and all encumbrances on the subject property. Copies of the documents referenced in the report should not be submitted unless requested by the planner during the review.	Required for Condominium Plat
✓	**Narrative description of the proposed development.** Briefly describe the existing condition of the property and the proposed use, physical development, subdivision, or development option for which you are seeking approval.	
✓	**Proposed Development Program.** Include narrative with Building and Planning permit submittals	
✓	**Site Plan.** Include dimensioned plans with Building and select Planning permit submittals	
✓	**Floor Plans.** Include floor plans for any existing buildings that will be occupied by a proposed use. If changes to existing buildings are proposed, indicate those on the floor plans.	

n/a **Neighborhood Meeting Summary.** See **Section 8.2.3** for Neighborhood Meeting requirements.

✓ **Posted Notice.** See **Section 8.2.14.C.4** for Posted Notice requirements for all public hearings. Required for Condominium Plat

Requirements listed under each Article will be checked if required for the application.

✓ *Required, If Checked.*

If not checked, this requirement does not apply to your application.

ARTICLE 1, GENERAL PROVISIONS.

Requirement		**Notes**
	Division 1.9, Nonconformities	
n/a	**1.9.2** Nonconforming Physical Development	
	1.9.3 Nonconforming Uses	
	1.9.4 Nonconforming Development Options and Subdivisions	
	1.9.5 Nonconforming Signs	

ARTICLE 2, COMPLETE NEIGHBORHOODS, ARTICLE 3, RURAL AREA ZONES, and ARTICLE 4, SPECIAL PURPOSE ZONES – (Public/Semi-Public & Park and Open Space zones only).

Applicable Zone: NH-1 Applicable LDR Section: Sec. 2.2.9 NH-1: Neighborhood High Density 1

SUBSECTION B, PHYSICAL DEVELOPMENT. *Please provide the following information for the applicable zone.*

Requirement		**Notes:**
✓	Structure Location and Mass (Setbacks, Height, total site FAR)	Plans may establish front setbacks from Simon and Smith Lanes, side setback on interior property line, and secondary street setback on Scott Lane.
✓	Maximum Scale of Development (Individual building size)	
✓	Building Design (Design Review Process)	The applicant will be required to present in front of the Design Review Committee for proposed building.
✓	Site Development (Driveway and Access limits)	Limited to 20’ curb cut on each Smith and Simon Lanes.
✓	Fencing (Height, Setback, Orientation)	Show and dimension any proposed fencing on plans

Additional Comments:

SUBSECTION C, ALLOWABLE USES. *Please provide the following information for the applicable zone.*

Requirement		Notes:
n/a	Maximum Scale of Use	Base FAR 0.40 plus exemptions for Deed Restricted Housing (Sec 7.8.3) and Workforce Housing Floor Area Bonus (Sec 7.8.4)

SUBSECTION D, DEVELOPMENT OPTIONS. *Please provide the following information for the applicable zone.*

Requirement		Notes:
✓	Subdivision and Development Option Permits	School and Park Exactions worksheets shall accompany Condominium Plat Application

Additional Comments:

SUBSECTION E, ADDITIONAL ZONE-SPECIFIC STANDARDS. *Please provide the following information for the applicable zone.*

Requirement	Notes:

Additional Comments:

See standards in Sec. 2.2.9.E 1. Additional Zone-specific Standards

ARTICLE 4, SPECIAL PURPOSE ZONES (Planned Resort Zones and Planned Unit Development Zones only)

Requirement		Notes
n/a	**Division 4.3, Planned Resort Zones**	
	4.3.1 All Planned Resort Zones	
	4.3.2 Snow King	
n/a	**Division 4.4, Planned Unit Development**	
	4.4.1 All Planned Unit Development (PUD) Zones	
	4.4.2 Planned Unit Development – Town	

ARTICLE 5, PHYSICAL DEVELOPMENT STANDARDS APPLICABLE IN ALL ZONES.

Requirement		Notes
n/a	**Division 5.1, General Environmental Standards**	
	5.1.1 Waterbody and Wetland Buffers	
	5.1.2 Wildlife Friendly Fencing	
	5.1.5 Water Quality (reserved for future standards)	
n/a	**Division 5.2, Environmental Standards Applicable in Specific Areas**	
	5.2.1 Natural Resources Overlay (NRO) Standards	
✓	**Division 5.3, Scenic Standards.**	**Notes**
	5.3.1 Exterior Lighting Standards	Provide details for exterior lighting in building plan submittal
	5.3.2 Scenic Resources Overlay (SRO) Standards	
n/a	**Division 5.4, Natural Hazard Protection Standards**	
	5.4.1 Steep Slopes	
	5.4.2 Unstable Soils	
	5.4.3 Faults	
	5.4.4 Floodplains	
	5.4.5 Wildland Urban Interface	
✓	**Division 5.5, Landscaping Standards**	LSR ratio of 0.21 & 70% in front 1/3 of lot will be oriented toward Scott Lane as "front".
	5.5.2 Landscape Plan	
	5.5.3 Required Plant Units	Plant units req.: 1/1,000 sf of landscape area plus 1 per 12 (uncovered) parking spaces (current proposal is for covered parking)
	5.5.4 General Landscaping Standards	
	5.5.5 Installation and Maintenance	See Sec. Section 5.5.3.E for Standard Plant Unit alternatives and attached list of currently recommended street trees. Recommendations are subject to change.
✓	**Division 5.6, Sign Standards**	All signs, if any, shall be processed with a sign permit separately from building permit and DRC
✓	**Division 5.7, Grading, Erosion Control, and Stormwater Management**	Grading Pre-App required.
	5.7.2 Grading Standards	
	5.7.3 Erosion control standards	
	5.7.4 Stormwater Management Standards	
✓	**Division 5.8, Design Guidelines**	Design Review Committee (DRC) required.
	5.8.2. Design Guidelines	
	5.8.3. Design Review Committee	

ARTICLE 6, USE STANDARDS APPLICABLE IN ALL ZONES.

Requirement		Notes
✓	**Division 6.1, Allowed Uses**	
✓	**Division 6.2, Parking and Loading Standards**	
	6.2.2 Required Parking and Loading **6.2.3** Location of Required Parking **6.2.4** Maintenance of Off-Street Parking and Loading **6.2.5** Off-Street Parking and Loading Design Standards **6.2.6** Parking and Loading Standards in the Downtown Parking District	18 required spaces per floor plan layout and use standards. 1 ADA van space required per 6.2.2.C.1. Additional ADA spaces required for each unit designed for ADA occupancy. See below comments (pg. 9) regarding Klaus Parking System Parking setbacks Sec 2.2.9.B.2
✓	**Division 6.3, Employee Housing Requirements**	Exempt due to proposed deed restrictions. The applicant shall state their exemption in their application. Verify floor area meets Sec 7.8.3 and 7.8.4
✓	**Division 6.4, Operational Standards** **6.4.1** Outside Storage **6.4.2** Refuse and Recycling **6.4.3** Noise **6.4.4** Vibration **6.4.5** Electrical Disturbances **6.4.6** Fire and Explosive Hazards	Noise, storage, and hours of operation shall be addressed in the narrative. Trash enclosure detailed on site plans

ARTICLE 7, DEVELOPMENT OPTION AND SUBDIVISION STANDARDS APPLICABLE IN ALL ZONES.

Requirement		Notes
n/a	**Division 7.1, Development Option Standards** **7.1.3** Urban Cluster Development **7.1.4** Mobile Home Park	
✓	**Division 7.2, Subdivision Standards** **7.2.2** Standards Applicable to all Subdivisions **7.2.3** Land Division Standards **7.2.4** Condominium and Townhouse Subdivisions	Applicable for Condominium Plat process
n/a	**Division 7.3, Open Space Standards** **7.3.3** Configuration and Location of Required Open Space **7.3.4** Use of Open Space **7.3.5** Physical Development Permitted in Open Space **7.3.6** Record of Restriction **7.3.7** Ownership of Open Space	

✓ **Division 7.4, Affordable Housing Standards**

Units shall meet affordable housing standards and record deed restrictions against the property.

✓ **Division 7.5, Development Exaction Standards**

See templates for Park and School exactions.

7.5.2. Park Exactions
7.5.3. School Exactions

✓ **Division 7.6, Transportation Facility Standards**

7.6.2 Access to Roads, Streets, and Highways
7.6.3 Streets, Alleys, and Easements

✓ **Division 7.7, Required Utilities**

7.7.2 Potable Water Supply
7.7.3 Sanitary Sewer Systems
7.7.4 Irrigation Ditch Systems and Design
7.7.5 Other Utilities
7.7.6 Fuel Storage Tank

Partial vacation without replat required for vacating utility easement.

PLAN REVIEW COMMITTEE. *The Plan Review Committee consists of the following listed agencies. Planning Staff will transmit pertinent portions of the application to each agency.* ***Other agencies and individuals not checked off on this list may be added to the PRC if necessary.***

✓	Public Works/Town Engineer	✓	Police Department
✓	Building Official	✓	START Bus
✓	Town Attorney	✓	Jackson Hole Fire-EMS
✓	Town Clerk	✓	Parks and Recreation Department
✓	Pathways Coordinator		Teton County School District #1
✓	Surveyor		Teton County Sheriff
✓	Title Company		Wyoming Department of Game & Fish
✓	Jackson/Teton County Housing Department		Wyoming Department of Transportation
	Teton County Weed & Pest		Wyoming Department of Environmental Quality
	Teton County Planning		Army Corps of Engineers
	Teton County Engineer		Lower Valley Energy
	Teton County Assessor		U.S. National Park Service
	Integrated Solid Waste and Recycling		U.S. Forest Service
✓	Teton County Clerk		U.S. Fish and Wildlife
	Teton County Public Health		Other
	Teton County Scenic Preserve Trust		

Additional Questions:

- Town and County sponsored projects may waive certain application and review fees per Cooperative Agreement (1998)
- Exempt from Development Plan (Sec 8.3.3) because deed restricted affordable units do not count towards the development permit threshold of 5-15 units requiring Development Plan Review. Verify project meets 5-15 units because application mentions “market & deed-restricted”. Floor area exemptions apply only for units meeting Section 7.8.3 and 7.8.4

- Housing Mitigation deed restrictions shall be recorded prior to certificate of occupancy.

- Applicant shall meet with Public Works Dept. to determine curb location on Scott Lane. Curb location may move in order to accommodate preferred pedestrian frontage (sidewalk, landscaping strip etc). There is no Pedestrian frontage requirement in the NH-1, however, Staff prefers a sidewalk to be incorporated with development due to the high level of pedestrian and vehicular traffic in this area.

- A Partial Vacation without Replat is required to vacate the utility easement. Staff recommends including a lot combination as part of the Partial Vacation without Replat to allow the building to be span the site without crossing an internal property line. Partial Vacation without Replat shall be recorded prior to issuance of building permit. As an alternative to vacating the internal property line, the applicant may record an affidavit than combines the two lots for the purposes of development which should satisfy. However, since the partial vacation is already required for the easement, the applicant might as well combine the lot combination into the same process.

- If utilities and easement are rerouted on site, then a new easement(s) must be recorded prior to issuance of building permit.

- Design Review Committee timing / process: DRC meets the second Wednesday of each month. A maximum of 4 projects will be reviewed per meeting (first come first serve). DRC application packets are due 16 days prior to meetings.

- Roundabout – Staff notes that future street reconfiguration at Snow King and Scott Lane may incorporate a roundabout at the location of current intersection. Town Council has seen early proposals for this Scott Lane Housing Project and Housing Dept. Staff says they received policy direction to proceed with permitting process without concern for the potential roundabout.

- Staff still has concerns over the feasibility of the Klaus Stackable Parking system. Detailed information, including dimension restrictions, shall be included with any permit application that requires parking standards be met.

- Underground Parking Resolution 9-25 applies to covered parking dimensions. See attached.

AGREEMENT FOR APPRAISAL SERVICES
(continued)

File No.

7. AUTHORITY. Appraiser and his subcontractors are hereby authorized to make on-site inspections of subject property at all reasonable times to obtain supporting property data, including but not limited to: Building plans, plats, deeds, legal descriptions, abstracts, income and expense data, leases, options. Further to interview Client's attorneys, accountants, managers, agents, present and prospective tenants. To be furnished copies of relevant information, to copy same and use as documentation for the Appraisal Report. To obtain such information that in the Appraiser's judgment may be relevant to the appraisal. CLIENT'S AUTHORITY to execute this agreement is hereby warranted, and that client is either owner of the subject property or has authority of the owner to enter into this agreement.

8. CONDITIONS. The Appraisal Report shall be subject to Appraiser's conditions and limitations standard form or as shown on attachment hereto. The Appraisal Report will be prepared for the sole and exclusive use of the Client, and shall not be reproduced, printed or distributed in any manner without written consent of Appraiser, as it consists of "trade secrets and commercial and financial information" which is privileged and confidential and exempted from disclosure under 5USC(b)(4).

9. WARRANTIES AND INDEMNITY. Appraiser does not make any warranties or guarantees of any kind regarding the condition of the property, sufficiency of title, areas and boundaries, mechanical and structural conditions of the improvements and with the agreement that the Appraisal Report represents Appraiser's opinion of value only, without any warranty that the property will sell for the appraised value. Client agrees to indemnify Appraiser, his employees and independent contractors from all claims, suits and charges of any nature that may arise out of this agreement.

10. ADDITIONAL AGREEMENTS:
Appraisal Fee: $550.00 for opinion of current market value

Exterior only property inspection on 05/10/2022 at 10:00 am

Please return a signed copy of this agreement (pdf or hard copy with the payment)

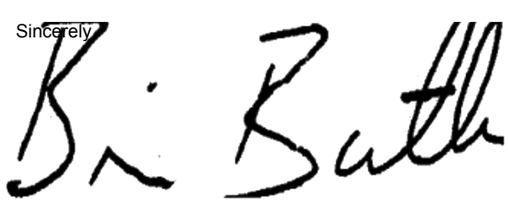
Re: Property: 910 Smith Ln
Jackson, WY 83001
Borrower:
File No.: 202204099

Opinion of Value: $ 1,600,000
Effective Date: 05/05/2022

In accordance with your request, we have appraised the above referenced property. The report of that appraisal is attached.

The purpose of this appraisal is to estimate the market value of the property described in this appraisal report, as improved, in unencumbered fee simple title of ownership.

This report is based on a physical analysis of the site and improvements, a locational analysis of the neighborhood and city, and an economic analysis of the market for properties such as the subject. The appraisal was developed and the report was prepared in accordance with the Uniform Standards of Professional Appraisal Practice.



The value conclusions reported are as of the effective date stated in the body of the report and contingent upon the certification and limiting conditions attached.

Due to the limited amount of sales data in the subject's immediate area, it was necessary to use comparable sales in excess of 6 months. While every attempt was made to comply with standard underwriting guidelines, such as proximity to the subject, the sales dates of the comps used and line item, net and gross adjustments applied to the comps, the limited quantity of data in the subject's market area makes this difficult.

The comparable sales used in this report are, in the opinion of the appraiser, the best available, and all of the adjustments applied to the comps are necessary in order to reflect the differences between the comps and the subject property. All of the adjustments applied are supported by market data.

It has been a pleasure to assist you. Please do not hesitate to contact me or any of my staff if we can be of additional service to you.

Sincerely,

BRIAN BUTLER

USPAP ADDENDUM

File No. 202205006

Borrower							
Property Address	910 Smith Ln						
City	Jackson	County	Teton	State	WY	Zip Code	83001
Lender							

This report was prepared under the following USPAP reporting option:

☒ Appraisal Report — This report was prepared in accordance with USPAP Standards Rule 2-2(a).

☐ Restricted Appraisal Report — This report was prepared in accordance with USPAP Standards Rule 2-2(b).

Reasonable Exposure Time

My opinion of a reasonable exposure time for the subject property at the market value stated in this report is: UNDER 3 MONTHS.

Additional Certifications

I certify that, to the best of my knowledge and belief:

☐ I have NOT performed services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.

☒ I HAVE performed services, as an appraiser or in another capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment. Those services are described in the comments below.

- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.
- Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

Additional Comments

PRIOR APPRAISAL COMPLETED 08/05/2021. I HAVE PERFORMED NO ADDITIONAL SERVICES, AS AN APPRAISER OR IN ANY OTHER CAPACITY, REGARDING THE PROPERTY THAT IS THE SUBJECT OF THIS REPORT WITHIN THE THREE YEAR PERIOD IMMEDIATELY PRECEDING ACCEPTANCE OF THIS ASSIGNMENT.

TRANSFER HISTORY

My research ☒ did ☐ did not reveal any prior sales or transfers of the subject property for the three years prior to the effective date of this appraisal.

Data Source(s): MLS AND COUNTY RECORDS

1st Prior Subject Sale/Transfer	Analysis of sale/transfer history and/or any current agreement of sale/listing: THE SUBJECT SOLD PREVIOUSLY AS INDICATED, THE INCREASE IN VALUE APPEARS TO BE DUE TO INCREASING VALUES IN THE SUBJECT'S IMMEDIATE MARKET AREAS. ADDITIONALLY A WARRANTY DEED WAS RECORDED ON 06/03/2020, THIS DOES NOT APPEAR TO BE AN ARMS LENGTH TRANSACTION (SEE ATTACHED). NO OTHER PRIOR SALES OR TRANSFERS OF THE SUBJECT WERE NOTED IN THE PRIOR 36 MONTHS, PER MLS AND COUNTY RECORDS. COMP 2 WAS TRANSFERRED PREVIOUSLY VIA QUIT CLAIM DEED ON 01/19/2021, THIS DOES NOT APPEAR TO BE AN ARMS LENGTH TRANSACTION. NO OTHER PRIOR SALES OR TRANSFERS OF THE COMPS WERE NOTED IN THE PRIOR 12 MONTHS.

COST APPROACH

COST APPROACH TO VALUE (if developed) ☐ The Cost Approach was not developed for this appraisal.

Provide adequate information for replication of the following cost figures and calculations.

Support for the opinion of site value (summary of comparable land sales or other methods for estimating site value): THE SITE VALUE WAS DERIVED THROUGH EXTRACTION DUE TO A LIMITED POOL OF APPROPRIATE COMPARABLE LAND SALES. SITE VALUE ESTIMATE IS TYPICAL FOR THE SUBJECT'S MARKET AREA, AND IS A REFLECTION OF THE LIMITED PRIVATE LAND AVAILABLE FOR DEVELOPMENT IN TETON COUNTY, WYOMING (97% PUBLIC LAND).

ESTIMATED ☐ REPRODUCTION OR ☒ REPLACEMENT COST NEW

Source of cost data: LOCAL BUILDERS & SUPPLIERS

Quality rating from cost service: AVG Effective date of cost data: 05/05/2022

Comments on Cost Approach (gross living area calculations, depreciation, etc.): THE COST APPROACH HAS BEEN COMPLETED FOR ILLUSTRATION PURPOSES ONLY. LOCAL BUILDERS COSTS UTILIZED AS THIS BEST REFLECTS THE REPLACEMENT COST IN THIS AREA.

Estimated Remaining Economic Life (if required): 50 Years

INCOME APPROACH

INCOME APPROACH TO VALUE (if developed) ☒ The Income Approach was not developed for this appraisal.

Estimated Monthly Market Rent $ X Gross Rent Multiplier = $ **Indicated Value by Income Approach**

Summary of Income Approach (including support for market rent and GRM): INCOME APPROACH NOT COMPLETED DUE TO LACK OF RELEVANCE IN THIS MARKET FOR THE SUBJECT PROPERTY TYPE.

PUD

PROJECT INFORMATION FOR PUDs (if applicable) ☐ The Subject is part of a Planned Unit Development.

Legal Name of Project:

Describe common elements and recreational facilities:

RECONCILIATION

Indicated Value by: Sales Comparison Approach $ 1,600,000 **Cost Approach (if developed) $** 1,591,031 **Income Approach (if developed) $**

Final Reconciliation: EXCLUSIVE EMPHASIS IS GIVEN TO THE SALES COMPARISON APPROACH, AS THE DATA IS EXTRACTED FROM THE MARKETPLACE. THE COST APPROACH WAS UTILIZED FOR ILLUSTRATION PURPOSES ONLY. THE INCOME APPROACH WAS NOT UTILIZED, AS THIS IS NOT CONSIDERED A RELIABLE METHOD OF ESTIMATING MARKET VALUE FOR A SINGLE FAMILY RESIDENTIAL PROPERTY.

This appraisal is made ☒ "as is", ☐ subject to completion per plans and specifications on the basis of a Hypothetical Condition that the improvements have been completed, ☐ subject to the following repairs or alterations on the basis of a Hypothetical Condition that the repairs or alterations have been completed, ☐ subject to the following required inspection based on the Extraordinary Assumption that the condition or deficiency does not require alteration or repair: THIS APPRAISAL IS MADE "AS-IS". NO CONDITIONS ARE REQUIRED.

☒ This report is also subject to other Hypothetical Conditions and/or Extraordinary Assumptions as specified in the attached addenda.

Based on the degree of inspection of the subject property, as indicated below, defined Scope of Work, Statement of Assumptions and Limiting Conditions, and Appraiser's Certifications, my (our) Opinion of the Market Value (or other specified value type), as defined herein, of the real property that is the subject of this report is: $ 1,600,000 **, as of:** 05/05/2022 **, which is the effective date of this appraisal. If indicated above, this Opinion of Value is subject to Hypothetical Conditions and/or Extraordinary Assumptions included in this report. See attached addenda.**

Market Conditions Addendum to the Appraisal Report

File No. 202205006

The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009.

Property Address 910 Smith Ln City Jackson State WY ZIP Code 83001

Borrower

Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc.

MARKET RESEARCH & ANALYSIS

Inventory Analysis	Prior 7–12 Months	Prior 4–6 Months	Current – 3 Months	Overall Trend		
Total # of Comparable Sales (Settled)	19	5	4	☐ Increasing	☐ Stable	☒ Declining
Absorption Rate (Total Sales/Months)	3.17	1.67	1.33	☐ Increasing	☐ Stable	☒ Declining
Total # of Comparable Active Listings	3	2	3	☐ Declining	☒ Stable	☐ Increasing
Months of Housing Supply (Total Listings/Ab.Rate)	0.9	1.2	2.3	☐ Declining	☐ Stable	☒ Increasing
Median Sale & List Price, DOM, Sale/List %	Prior 7–12 Months	Prior 4–6 Months	Current – 3 Months	Overall Trend		
Median Comparable Sale Price	1,771,250	1,750,000	2,137,500	☒ Increasing	☐ Stable	☐ Declining
Median Comparable Sales Days on Market	64	93	74	☐ Declining	☒ Stable	☐ Increasing
Median Comparable List Price	1,800,000	1,899,000	1,795,000	☐ Increasing	☒ Stable	☐ Declining
Median Comparable Listings Days on Market	122	161.5	40	☒ Declining	☐ Stable	☐ Increasing
Median Sale Price as % of List Price	98	92	100	☒ Increasing	☐ Stable	☐ Declining
Seller-(developer, builder, etc.)paid financial assistance prevalent? ☐ Yes ☒ No				☐ Declining	☒ Stable	☐ Increasing

Explain in detail the seller concessions trends for the past 12 months (e.g., seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs, condo fees, options, etc.). SELLER CONCESSIONS HAVE NOT BEEN TYPICAL IN THE PRIOR 12 MONTHS, HOWEVER ISOLATED SALES CONCESSIONS MAY OCCUR.

Are foreclosure sales (REO sales) a factor in the market? ☐ Yes ☒ No If yes, explain (including the trends in listings and sales of foreclosed properties).

REO & SHORT SALES ARE NOT A FACTOR IN THIS MARKET SEGMENT.

Cite data sources for above information. TETON BOARD OF REALTORS MLS.

Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions.

SEARCH PARAMETERS: SINGLE FAMILY HOMES LOCATED IN THE TOWN OF JACKSON MARKET AREA WITH A LIST PRICE LESS THAN $2,500,000. DUE TO A LACK OF DATA IN THIS SEGMENT, IT IS DIFFICULT TO DRAW MARKET TREND CONCLUSIONS. VALUES APPEAR TO BE INCREASING IN THE SUBJECT'S IMMEDIATE AND GENERAL MARKET AREAS (SEE PAIRED SALES ATTACHED).

NOTE: THERE CURRENTLY IS A SHORTAGE OF SUPPLY IN THE SUBJECT'S MARKET SEGMENT. SUBJECT'S MARKET AREA IS BENEFITING FROM STRONG DEMAND AS A RESULT OF SIGNIFICANT MIGRATION FROM BUYERS RESIDING IN OTHER AREAS OF THE COUNTRY WHO ARE SEEKING AN ENVIRONMENT WHICH BENEFITS FROM MORE OPEN SPACES, LOWER DENSITY, NUMEROUS RECREATIONAL OPPORTUNITIES, PROXIMITY TO AN AIRPORT, AND LACK OF STATE INCOME TAXES.

CONDO/CO-OP PROJECTS

If the subject is a unit in a condominium or cooperative project , complete the following: **Project Name:**

Subject Project Data	Prior 7–12 Months	Prior 4–6 Months	Current – 3 Months	Overall Trend		
Total # of Comparable Sales (Settled)				☐ Increasing	☐ Stable	☐ Declining
Absorption Rate (Total Sales/Months)				☐ Increasing	☐ Stable	☐ Declining
Total # of Active Comparable Listings				☐ Declining	☐ Stable	☐ Increasing
Months of Unit Supply (Total Listings/Ab.Rate)				☐ Declining	☐ Stable	☐ Increasing

Are foreclosure sales (REO sales) a factor in the project? ☐ Yes ☐ No If yes, indicate the number of REO listings and explain the trends in listings and sales of foreclosed properties.

Summarize the above trends and address the impact on the subject unit and project.

Supplemental Addendum

File No. 202205006

Borrower							
Property Address	910 Smith Ln						
City	Jackson	County	Teton	State	WY	Zip Code	83001
Lender/Client							

*THE INTENDED USER OF THIS APPRAISAL REPORT IS THE CLIENT. THE INTENDED USE IS TO EVALUATE THE PROPERTY THAT IS THE SUBJECT OF THIS APPRAISAL TO ESTABLISH AN OPINION OF CURRENT MARKET VALUE, SUBJECT TO THE STATED SCOPE OF WORK, PURPOSE OF THE APPRAISAL, REPORTING REQUIREMENTS OF THE APPRAISAL REPORT FORM, AND DEFINITION OF MARKET VALUE. NO ADDITIONAL INTENDED USERS ARE IDENTIFIED BY THE APPRAISER.

*SCOPE OF THE APPRAISAL:
IN THE PREPARATION OF THIS APPRAISAL THE APPRAISER HAS MADE AN INSPECTION OF THE SUBJECT SITE AND IMPROVEMENTS FROM THE STREET (EXTERIOR INSPECTION ONLY) AND TAKING SUFFICIENT PHOTOGRAPHS TO ADEQUATELY CHARACTERIZE THE PROPERTY APPRAISED. APPRAISER HAS NOTED ALL READILY OBSERVABLE CONDITIONS OF THE SUBJECT PROPERTY, THAT IS CONDITIONS THAT ARE IMMEDIATELY NOTICEABLE AND DISCERNIBLE DURING A TYPICAL EXTERIOR ONLY APPRAISAL INSPECTION. THE SUBJECT NEIGHBORHOOD WAS ALSO INSPECTED TO ASSIST IN THE DETERMINATION OF THE NEIGHBORHOOD CHARACTERISTICS. THIS INFORMATION WAS ANALYZED IN ORDER TO DOCUMENT THE VARIOUS ENVIRONMENTAL, SOCIAL, GOVERNMENTAL AND ECONOMIC FACTORS THAT INFLUENCE VALUE. DATA REGARDING THE SALES OF RESIDENTIAL LAND AND IMPROVED PROPERTIES WERE COLLECTED AND VERIFIED. THE VALUATION OF THE PROPERTY IS BASED EXCLUSIVELY ON THE SALES COMPARISON APPROACH, AS THIS IT THE MOST RELIABLE METHOD OF ESTIMATING MARKET VALUE FOR A SINGLE FAMILY RESIDENTIAL PROPERTY. THE COST APPROACH WAS COMPLETED FOR ILLUSTRATION PURPOSES, HOWEVER THIS IS NOT CONSIDERED A RELIABLE METHOD OF ESTIMATING MARKET VALUE FOR A SINGLE FAMILY RESIDENTIAL PROPERTY. THE INCOME APPROACH WAS NOT UTILIZED, AS THIS IS NOT CONSIDERED A RELIABLE METHOD OF ESTIMATING MARKET VALUE FOR A SINGLE FAMILY PROPERTY.

THE APPRAISER HAS NO KNOWLEDGE OF ANY HIDDEN OR UNAPPARENT CONDITION OF THE PROPERTY THAT WOULD MAKE THE PROPERTY MORE OR LESS VALUABLE, AND MAKES NO GUARANTEES OR WARRANTIES, EXPRESS OR IMPLIED, REGARDING THE CONDITION OF THE PROPERTY.

THE APPRAISAL IS BASED ON THE EXTRAORDINARY ASSUMPTION THAT THE INTERIOR OF THE IMPROVEMENTS HAVE A SIMILAR QUALITY AND CONDITION AS OBSERVED ON 08/05/2021. IF THE EXTRAORDINARY ASSUMPTION IS FOUND TO BE FALSE THERE MAYBE BE AN EFFECT ON THIS APPRAISAL.

*PROPERTY RIGHTS APPRAISED:
THE PROPERTY RIGHTS BEING APPRAISED IS A FEE SIMPLE ESTATE. THIS IS DEFINED AS: ABSOLUTE OWNERSHIP UNENCUMBERED BY ANY OTHER INTEREST OR ESTATE, SUBJECT ONLY TO THE FOUR POWERS OF GOVERNMENT.

*NEIGHBORHOOD BOUNDARIES: THE SUBJECT NEIGHBORHOOD IS THE TOWN OF JACKSON, LOCATED IN TETON COUNTY, WYOMING.

*NEIGHBORHOOD DESCRIPTION:
SUBJECT IS LOCATED IN THE TOWN OF JACKSON, AND IS CONVENIENT TO MOST PUBLIC AND PRIVATE SERVICES, AND THE DOWNTOWN COMMERCIAL CORE, WHICH HAS STRONG APPEAL DUE TO THE NUMEROUS AMENITIES, INCLUDING RESTAURANTS, SHOPPING, SNOW KING RESORT, CENTER FOR THE ARTS, NATIONAL ELK REFUGE AND NATIONAL FOREST TRAILS. JACKSON IS CONSIDERED THE SOUTHERN GATEWAY TO GRAND TETON AND YELLOWSTONE NATIONAL PARKS.

SUBJECT'S GENERAL AREA IS REFERRED TO AS JACKSON HOLE, WHICH IS A POPULAR MOUNTAIN COMMUNITY, ENCOMPASSING APPROXIMATELY 750 SQUARE MILES, OF WHICH 97% IS FEDERALLY OWNED (NATIONAL FOREST, NATIONAL PARKS, BLM). SUBDIVISIONS ARE SCATTERED THROUGHOUT THE COUNTY, WITH THE MAJORITY CONCENTRATED WITHIN 180 SQUARE MILES. THIS REGION IS DIVIDED BY SEVERAL MAJOR RIVERS, AND A NUMBER OF BUTTES, HILLS AND MOUNTAINS. DUE TO THE TOPOGRAPHY, AND THE PREDOMINANCE OF PUBLIC LAND, THE DISTANCES BETWEEN COMPETING SUBDIVISIONS ARE TYPICALLY GREATER THAN ONE MILE.

THE SUBJECT'S MARKET AREA CONTAINS A VARIETY OF HOUSING TYPES, INCLUDING OLDER SMALL AVERAGE QUALITY CABINS, TOWN HOMES, CONDOS, LOG HOMES, MULTI-LEVEL WOOD AND GLASS CONTEMPORARY STYLE HOMES. THIS AREA CONTAINS A COMPATIBLE DIVERSITY OF HOUSING STYLES.

THIS AREA IS WORLD RENOWN FOR ITS SUMMER AND WINTER RECREATIONAL OPPORTUNITIES. JACKSON IS HOME OF THE JACKSON HOLE MOUNTAIN RESORT LOCATED AT TETON VILLAGE AND SNOW KING SKI RESORTS. COMMERCIAL JET SERVICE IS AVAILABLE AT THE JACKSON HOLE AIRPORT APPROXIMATELY 6 MILES NORTH OF THE TOWN OF JACKSON.

*MARKET CONDITIONS:
PROPERTY VALUES IN THE SUBJECT'S MARKET SEGMENT IN TETON COUNTY APPEAR TO BE INCREASING DUE TO STRONG DEMAND AND A LIMITED SUPPLY. BASED ON DATA FROM THE ATTACHED MC ADDENDUM, IN THE SUBJECT'S MARKET SEGMENT, THERE CURRENTLY APPEARS TO BE A SHORTAGE OF SUPPLY CONDITION. BASED ON DATA FROM THE ATTACHED MC ADDENDUM, ESTIMATED EXPOSURE & MARKETING TIME FOR THE SUBJECT'S PRICE SEGMENT IS UNDER 3 MONTHS. CASH & NEW LOANS ARE COMMON IN THIS AREA. SELLER PAID DISCOUNTS ARE NOT COMMON. HOWEVER, SELLERS WILL CUSTOMARILY SHARE IN THE CLOSING COSTS INVOLVED IN A SALE TRANSACTION. SALES AND FINANCING CONCESSIONS DO OCCUR BUT ARE NOT TYPICAL. NO ADVERSE MARKETING CONDITIONS WERE NOTED.

USPAP DEFINES EXPOSURE TIME AS THE ESTIMATED LENGTH OF TIME THAT THE PROPERTY INTEREST BEING APPRAISED WOULD HAVE BEEN OFFERED ON THE MARKET PRIOR TO THE HYPOTHETICAL CONSUMMATION OF A SALE AT MARKET VALUE ON THE EFFECTIVE DATE OF THE APPRAISAL. A HYPOTHETICAL CONDITION IS MADE THAT THE SUBJECT PROPERTY IS BEING SOLD AND A REASONABLE EXPOSURE TIME, IN THE SUBJECT MARKET, FOR THE PROPERTY TO SELL AT THE APPRAISED VALUE IS UNDER 3 MONTHS.

A REASONABLE EXPOSURE TIME FOR THE SUBJECT PROPERTY DEVELOPED INDEPENDENTLY FROM THE STATED MARKETING TIME IS UNDER 3 MONTHS.

MARKETING TIME IS DEEMED TO START AT THE EFFECTIVE DATE OF THE APPRAISAL, LOOKING FORWARD IN TIME. IT IS A PREDICTION OF HOW LONG A PROPERTY WOULD REQUIRE EXPOSURE TO A COMPETITIVE AND OPEN MARKET IN ORDER TO FIND A BUYER, UNDER EITHER TYPICAL OR PRESCRIBED CIRCUMSTANCES.

*ENVIRONMENTAL COMMENTS:
NO ADVERSE ENVIRONMENTAL CONDITIONS WERE NOTED OR KNOWN IN THE SUBJECTS IMPROVEMENTS, ON THE SUBJECT SITE OR IN THE IMMEDIATE VICINITY OF THE SUBJECT PROPERTY. HOWEVER, THE EXISTENCE OF POTENTIALLY HAZARDOUS MATERIALS USED IN THE CONSTRUCTION OR MAINTENANCE OF THE BUILDING, SUCH AS THE PRESENCE OF UREA-FORMALDEHYDE FOAM INSULATION, ASBESTOS, LEAD BASED PAINT, AND/OR THE EXISTENCE OF TOXIC WASTE OR RADON MAY OR MAY NOT BE PRESENT. ADDITIONALLY, THIS APPRAISAL DOES NOT GUARANTEE THAT THE PROPERTY IS FREE OF DEFECTS OR ENVIRONMENTAL PROBLEMS. THE APPRAISER PERFORMS AN INSPECTION OF VISIBLE AND ACCESSIBLE AREAS ONLY. MOLD MAY BE PRESENT IN AREAS THE APPRAISER CAN NOT SEE. A PROFESSIONAL HOME INSPECTION OR ENVIRONMENTAL INSPECTION IS RECOMMENDED. THE APPRAISER IS A TRAINED AND EXPERIENCED OBSERVER OF REAL ESTATE, BUT RECOGNIZING, DETECTING OR MEASURING CONTAMINATION IS BEYOND THE SCOPE OF THE APPRAISERS EXPERTISE.

THE PROFESSIONAL COMPETENCY OF THE APPRAISER SHOULD NOT BE PRESUMED TO INCLUDE THE KNOWLEDGE OR

Lender/Client							

EXPERIENCE OF A PROFESSIONAL SURVEYOR, ARCHITECT, ENGINEER, TITLE LAWYER OR OTHER SPECIALIST.

*THE APPRAISER IS NOT A HOME INSPECTOR, AND DOES NOT GUARANTEE THAT THE SUBJECT IS FREE OF DEFECTS NOR SHOULD THIS REPORT BE RELIED UPON TO DISCLOSE ANY POTENTIAL NEGATIVE CONDITIONS PRESENT IN THE SUBJECT PROPERTY. A PROFESSIONAL HOME OR ENVIRONMENTAL INSPECTION IS RECOMMENDED TO ADDRESS SUCH MATTERS.

*SITE COMMENTS:
SUBJECT IS A LEVEL, RECTANGULAR SHAPED, CORNER SITE, LOCATED ON A TYPICAL RESIDENTIAL STREET IN THE TOWN OF JACKSON. SUBJECT HAS MOUNTAIN AND RESIDENTIAL VIEWS TYPICAL FOR AREA. SUBJECT HAS CONCRETE DRIVEWAYS, AND LANDSCAPING TYPICAL FOR THE AREA. NO ADVERSE CONDITIONS WERE NOTED.

NOTE: THE SUBJECT IS LOCATED ON THE CORNER OF SMITH LANE AND SCOTT LANE, SCOTT LANE IS AN ARTERIAL ROADWAY. THIS LOCATION HAS SOME ADVERSE EFFECT ON MARKETABILITY. COMPS 2 & 4 HAVE SIMILAR TRAFFIC LOCATIONS.

HIGHEST AND BEST USE: DEFINITION: THE REASONABLY PROBABLE AND LEGAL USE OF THE PROPERTY, THAT IS PHYSICALLY POSSIBLE, APPROPRIATELY SUPPORTED, AND FINANCIALLY FEASIBLE, AND THAT RESULTS IN THE HIGHEST VALUE. THE HIGHEST AND BEST USE AS VACANT IS FOR RESIDENTIAL USE. SUBJECT'S CURRENT USE AS A SINGLE FAMILY HOME WITH AN ACCESSORY UNIT IS LEGAL, PHYSICALLY POSSIBLE, APPROPRIATELY SUPPORTED AND FINANCIALLY FEASIBLE, RESULTING IN THE HIGHEST VALUE. THEREFORE, THE SUBJECT'S CURRENT USE AS A SINGLE FAMILY HOME WITH AN ACCESSORY UNIT IS CONSIDERED TO BE ITS HIGHEST AND BEST USE (BOTH AS VACANT AND IMPROVED).

*SALES COMPARISON COMMENTS:
THE COMPS UTILIZED REPRESENT THE BEST INDICATORS OF VALUE AVAILABLE IN THE SUBJECTS MARKET AREA OF JACKSON, WY. NO OTHER COMPS WERE NOTED THAT WOULD PROVIDE A BETTER INDICATION OF THE SUBJECTS MARKET VALUE.

EXPLANATION OF ADJUSTMENTS:

THE LOCATION ADJUSTMENTS MADE TO COMPS 1 & 3 REFLECT SUPERIOR NON-TRAFFIC LOCATIONS. THESE ADJUSTMENTS ARE BASED ON HISTORICAL DATA, THE COMPARABLE SALES UTILIZED IN THIS APPRAISAL, APPRAISER EXPERIENCE, AGENT AND APPRAISER INTERVIEWS.

SITE SIZE ADJUSTMENTS MADE TO THE COMPS ARE MADE AT $300,000/ACRE OR $7/SF AND ARE BASED ON THE FOLLOWING PAIRED SALES, APPRAISER EXPERIENCE, AGENT AND APPRAISER INTERVIEWS.

25 RANCHER STREET (MLS #16-366) A .26 ACRE VACANT SITE SOLD 04/2016 FOR $575,000. 845 WHEATLEIGH WAY (MLS #16-1589) A .16 ACRE VACANT SITE SOLD 08/2016 FOR $510,000. THE $65,000 DIFFERENCE IN SALE PRICE IS ATTRIBUTED TO THE DIFFERENCE IN SITE SIZE. $65,000/.1 ACRE = $650,000/ACRE OR $15/SF

605 E SIMPSON (MLS #12-632) A .02 ACRE VACANT SITE SOLD 01/2013 FOR $220,000. 560 E SIMPSON (MLS #12-2580) A .17 ACRE VACANT SITE SOLD 01/2013 FOR $265,000. THE $45,000 DIFFERENCE IN SALE PRICE IS ATTRIBUTED TO THE DIFFERENCE IN SITE SIZE. $45,000/.15 ACRE = $300,000/ACRE OR $7/SF.

675 UPPER CACHE CREEK DRIVE (MLS #13-717) A .34 ACRE VACANT SITE SOLD 07/2013 FOR $300,000. 763 CACHE CREEK DRIVE (MLS #12-1711) A .18 ACRE VACANT SITE SOLD 02/2013 FOR $250,000. THE $50,000 DIFFERENCE IN SITE SIZE IS ATTRIBUTED TO THE DIFFERENCE IN SITE SIZE. $50,000/.16 ACRE = $312,500/ACRE OR $7/SF

287 RANCHER STREET (MLS #09-980) A .17 ACRE VACANT SITE SOLD 09/2012 FOR $260,000. 25 RANCHER STREET A .26 ACRE VACANT SITE SOLD 06/2012 FOR $300,000. THE $40,000 DIFFERENCE IN SITE SIZE IS ATTRIBUTED TO THE DIFFERENCE IN SITE SIZE. $50,000/.09 ACRE = $555,555/ACRE OR $13/SF.

675 UPPER CACHE CREEK DRIVE (MLS #13-717) A .34 ACRE VACANT SITE SOLD 07/2013 FOR $300,000. 667 CACHE CREEK DRIVE (MLS #13-715) A .17 ACRE VACANT SITE SOLD 05/2013 FOR $295,000. THE $5,000 DIFFERENCE IN SALE PRICE IS ATTRIBUTED TO THE DIFFERENCE IN SITE SIZE. $5,000/.17 ACRE = $29,412/ACRE OR $0.7/SF.

DESIGN ADJUSTMENTS ARE GENERALLY NOT MADE AS MOST OF THE HOMES IN THIS MARKET AREA ARE CUSTOM BUILT. THERE ARE A VARIETY OF HOME DESIGN TYPES IN THIS MARKET AREA WITH NO MARKET EVIDENCE TO SUGGEST SUPERIOR OR INFERIOR MARKETABILITY OF A SPECIFIC DESIGN TYPE.

AGE ADJUSTMENTS IN THIS MARKET SEGMENT ARE NOT GENERALLY MADE. TYPICALLY, BUYERS IN THIS MARKET SEGMENT ARE MORE CONCERNED WITH OVERALL CONDITION. IN THIS MARKET AREA, SIGNIFICANTLY OLDER HOMES WHICH HAVE BEEN UPDATED AND OR RENOVATED HAVE A SIMILAR MARKETABILITY AS NEWER HOMES.

THE CONDITION ADJUSTMENT MADE TO COMP 2 REFLECTS SUPERIOR INTERIOR UPDATING INCLUDING THE KITCHEN AND BATHS. THIS ADJUSTMENT IS MADE AT $50/SF AND IS BASED ON HISTORICAL DATA, THE COMPARABLE SALES UTILIZED IN THIS APPRAISAL, APPRAISER EXPERIENCE, AGENT AND APPRAISER INTERVIEWS.

GLA ADJUSTMENTS MADE TO THE COMPS ARE BASED ON AN ADJUSTMENT RATE RANGE OF $300/SF TO $500/SF, AND IS BASED ON: HISTORICAL DATA, THE COMPARABLE SALES UTILIZED IN THIS APPRAISAL, APPRAISER'S EXPERIENCE WITH SALES IN THIS MARKET SEGMENT, AGENT AND APPRAISER INTERVIEWS, WITH REPLACEMENT COSTS BEING IN THE $450/SF - $550+/SF RANGE. GLA ADJUSTMENTS ARE MADE AT $400/SF; BASEMENT ADJUSTMENTS ARE MADE AT $300/SF; ACCESSORY UNIT ADJUSTMENTS ARE MADE AT $300/SF.

ROOM COUNT ADJUSTMENTS ARE DIFFICULT TO EXTRACT FROM MARKET DATA AND ARE ACCOUNTED FOR IN THE DIFFERENCES IN GROSS BUILDING AREA.

MARKET CONDITIONS ADJUSTMENTS MADE TO THE SALES COMPS REFLECT INCREASING VALUES DUE TO LIMITED SUPPLY AND STRONG DEMAND. THE ADJUSTMENTS MADE TO THE COMPARABLE SALES ARE MADE AT +2%/MONTH FROM THEIR RESPECTIVE CONTRACT DATES (ROUNDED TO THE NEAREST .5 MONTH) AND ARE BASED ON PAIRED SALES (SEE ATTACHED PAIRED SALES FOR TIME ADJUSTMENTS) AND THE COMPARABLE SALES UTILIZED IN THIS APPRAISAL.

COMP 1 IS A 4 - 6 MONTH SALE LOCATED IN THE SUBJECT'S NEIGHBORHOOD WITH A SUPERIOR NON-TRAFFIC LOCATION. ADDITIONAL ADJUSTMENTS WERE MADE FOR SUPERIOR SITE SIZE, INFERIOR GLA, A SUPERIOR BASEMENT AREA, SUPERIOR COVERED AUTO STORAGE AND LACK OF AN ACCESSORY UNIT AND MARKET CONDITIONS.

COMP 2 IS A 16 MONTH SALE OF AN UPDATED HOME WITH A SIMILAR TRAFFIC LOCATION. ADDITIONAL ADJUSTMENTS WERE MADE FOR SUPERIOR SITE SIZE, INFERIOR GLA, SUPERIOR COVERED AUTO STORAGE, LACK OF AN ACCESSORY UNIT AND MARKET CONDITIONS.

COMP 3 IS A 4 - 6 MONTH SALE OF A SIMILAR QUALITY HOME WITH A SUPERIOR NON-TRAFFIC LOCATION. ADDITIONAL ADJUSTMENTS WERE MADE FOR SUPERIOR SITE SIZE, SUPERIOR BASEMENT AREA, LACK OF AN ACCESSORY UNIT AND MARKET CONDITIONS.

Lender/Client							

COMP 4 IS A PRIOR SALE OF THE SUBJECT ADJUSTED FOR MARKET CONDITIONS.

IN ARRIVING AT THE FINAL OPINION OF VALUE, COMP 4 IS A PRIOR SALE OF THE SUBJECT WAS GIVEN GREATEST WEIGHT (50%). COMP 2 HAS A SIMILAR OVERALL LOCATION AND WAS GIVEN SECONDARY CONSIDERATION (25%). COMPS 1 & 3 HAVE SUPERIOR LOCATIONS AND WERE GIVEN TERTIARY CONSIDERATION (12.5% EACH).

*ADDITIONAL SCOPE OF WORK COMMENTS:
I CERTIFY THAT, TO THE BEST OF MY KNOWLEDGE AND BELIEF:
-THE STATEMENTS OF FACT CONTAINED IN THIS REPORT ARE TRUE AND CORRECT
-THE REPORTED ANALYSES, OPINIONS, AND CONCLUSIONS ARE LIMITED ONLY BY THE REPORTED ASSUMPTIONS AND LIMITING CONDITIONS, AND ARE MY PERSONAL, IMPARTIAL, AND UNBIASED PROFESSIONAL ANALYSES, OPINIONS AND CONCLUSIONS.
-I HAVE NO PRESENT OR PROSPECTIVE INTEREST IN THE PROPERTY THAT IS THE SUBJECT OF THIS REPORT, AND NO PERSONAL INTEREST WITH RESPECT TO THE PARTIES INVOLVED.
-I HAVE NO BIAS WITH RESPECT TO THE PROPERTY THAT IS THE SUBJECT OF THIS REPORT OR TO THE PARTIES INVOLVED WITH THE ASSIGNMENT.
-MY ENGAGEMENT IN THIS ASSIGNMENT WAS NOT CONTINGENT UPON DEVELOPING OR REPORTING PREDETERMINED RESULTS.
-MY COMPENSATION FOR COMPLETING THIS ASSIGNMENT IS NOT CONTINGENT UPON THE DEVELOPMENT OR REPORTING OF A PREDETERMINED VALUE OR DIRECTION IN VALUE THAT FAVORS THE CAUSE OF THE CLIENT, THE AMOUNT OF THE VALUE OPINION, THE ATTAINMENT OF A STIPULATED RESULT, OR THE OCCURRENCE OF A SUBSEQUENT EVENT DIRECTLY RELATED TO THE INTENDED USE OF THIS APPRAISAL.
-MY ANALYSES, OPINIONS, AND CONCLUSIONS WERE DEVELOPED , AND THIS REPORT HAS BEEN PREPARED, IN CONFORMITY WITH THE UNIFORM STANDARDS OF PROFESSIONAL APPRAISAL PRACTICE.
-I HAVE MADE A PERSONAL INSPECTION OF THE PROPERTY THAT IS THE SUBJECT OF THIS REPORT (EXTERIOR ONLY).
-I HAVE PERFORMED SERVICES, AS AN APPRAISER OR IN ANY OTHER CAPACITY, REGARDING THE PROPERTY THAT IS THE SUBJECT OF THIS REPORT WITHIN THE THREE YEAR PERIOD IMMEDIATELY PRECEDING ACCEPTANCE OF THIS ASSIGNMENT.

PRIOR APPRAISAL COMPLETED 08/05/2021. I HAVE PERFORMED NO ADDITIONAL SERVICES, AS AN APPRAISER OR IN ANY OTHER CAPACITY, REGARDING THE PROPERTY THAT IS THE SUBJECT OF THIS REPORT WITHIN THE THREE YEAR PERIOD IMMEDIATELY PRECEDING ACCEPTANCE OF THIS ASSIGNMENT.

*APPRAISER COMPETENCY: APPRAISER HAS COMPLETED IN EXCESS OF 50 APPRAISALS IN THE SUBJECT'S MARKET SEGMENT IN THE PAST 12 MONTHS. SUBJECT PROPERTY IS LOCATED WITHIN 10 MILES OF THE APPRAISER'S OFFICE. APPRAISER HAS ACCESS TO THE TETON BOARD OF REALTORS MLS; TETON COUNTY CLERK RECORDS; LOCAL APPRAISER DATABASE; COST DATA FROM LOCAL CONTRACTORS AND MATERIAL SUPPLIERS.

CERTIFICATE OF ACCEPTANCE
Town of Jackson)
County of Teton) ss.
State of Wyoming)
The foregoing JACKSON HOLE MEADOWS ADDITION TO THE TOWN OF JACKSON was accepted at the regular meeting of the Town Council on the 15th day of July 1970 and approved in accordance with Sections 15-1-69 and 34-114, Wyoming Statutes, 1957, as amended.
TOWN OF JACKSON
Attest:
Randi G. Hade, Clerk
Harold J. Livingston, Mayor
FILED JULY 16th, 1970. PLAT #191
CERTIFICATE OF SURVEYOR
State of Wyoming)
County of Sublette) ss.
I, Paul N. Scherbel of Big Piney, Wyoming hereby certify that this map was made from notes taken during an actual survey made under my supervision by Peter L. Peterson during November and December, 1969; that the JACKSON HOLE MEADOWS ADDITION TO THE TOWN OF JACKSON has been accurately surveyed, and that the lots and streets are accurately staked off and marked; and that it correctly represents the said Addition of part of the NE1/4SE1/4 of Section 32, T41N, R116W, within the incorporated limits of the Town of Jackson, Teton County, Wyoming and part of that tract of land of record in the Office of the Clerk of Teton County in Book 15 on page 61, described as follows:
Commencing at the east one-quarter corner of said Section 32; thence N89°-21'W, 500 feet along the north line of the said NE1/4SE1/4 to a point on the west line of Scott Lane, thence S00°-09'-30"W, 413.61 feet along the said west line to the point of beginning; thence continuing S00°-09-30"W, 420.0 feet along the said west line to a point on the north line of said Scott Lane; thence N89°-51'-30"W, 416.0 feet along the said north line to a point on the west line of said Tract; thence N00°-09'-30"E, 420.0 feet along the west line of said Tract to a point; thence S89°-51'-30"E, 416.0 feet to the point of beginning; encompassing an area of 4.011 acres, more or less; and it is further certified that there is no Lot 33, and it is further certified that Lot 25 is identical with that tract of land of record in the said Office in Book 2 of Photo on page 218; that Lot 35 is identical with that tract of land of record in the said Office in Book 4 of Photo on page 516.
Land Surveyor — Registration No. 164.
The foregoing instrument was acknowledged before me this 14th day of July, 1970.
Witness my hand and official seal.
My Commission Expires: 27 September 1970.

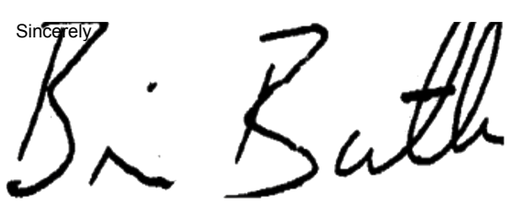
Re: Property: 915 Simon Ln
Jackson, WY 83001
Borrower:
File No.: 202205007

Opinion of Value: $ 1,400,000
Effective Date: 05/05/2022

In accordance with your request, we have appraised the above referenced property. The report of that appraisal is attached.

The purpose of this appraisal is to estimate the market value of the property described in this appraisal report, as improved, in unencumbered fee simple title of ownership.

This report is based on a physical analysis of the site and improvements, a locational analysis of the neighborhood and city, and an economic analysis of the market for properties such as the subject. The appraisal was developed and the report was prepared in accordance with the Uniform Standards of Professional Appraisal Practice.



The value conclusions reported are as of the effective date stated in the body of the report and contingent upon the certification and limiting conditions attached.

Due to the limited amount of sales data in the subject's immediate area, it was necessary to use comparable sales in excess of 6 months. While every attempt was made to comply with standard underwriting guidelines, such as proximity to the subject, the sales dates of the comps used and line item, net and gross adjustments applied to the comps, the limited quantity of data in the subject's market area makes this difficult.

The comparable sales used in this report are, in the opinion of the appraiser, the best available, and all of the adjustments applied to the comps are necessary in order to reflect the differences between the comps and the subject property. All of the adjustments applied are supported by market data.

It has been a pleasure to assist you. Please do not hesitate to contact me or any of my staff if we can be of additional service to you.

Sincerely,

Brian Butler

This report was prepared under the following USPAP reporting option:

☒ Appraisal Report — This report was prepared in accordance with USPAP Standards Rule 2-2(a).

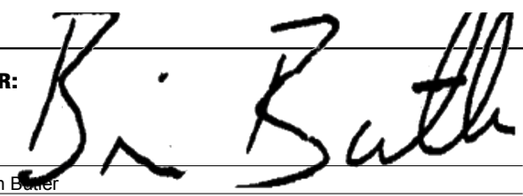
☐ Restricted Appraisal Report — This report was prepared in accordance with USPAP Standards Rule 2-2(b).

Reasonable Exposure Time

My opinion of a reasonable exposure time for the subject property at the market value stated in this report is: UNDER 3 MONTHS.

Additional Certifications

I certify that, to the best of my knowledge and belief:



☒ I have NOT performed services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.

☐ I HAVE performed services, as an appraiser or in another capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment. Those services are described in the comments below.

- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.
- Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

Finished area **above** grade contains: 5 Rooms | 3 Bedrooms | 1.0 Bath(s) | 1,152 Square Feet of Gross Living Area Above Grade
Additional features: WOOD SIDING; ASPHALT SHINGLE ROOF; VINYL CLAD WINDOWS; PORCH; 1 CAR GARAGE; TYPICAL LANDSCAPING.

Describe the condition of the property (including physical, functional and external obsolescence): THE SUBJECT IS A 48 YEAR OLD, AVERAGE QUALITY, WOOD FRAME HOME WHICH APPEARS TO HAVE BEEN ADEQUATELY MAINTAINED AND WAS OBSERVED TO BE IN OVERALL AVERAGE CONDITION (EXTERIOR INSPECTION ONLY). DETAILS FOR THE IMPROVEMENTS WERE OBTAINED VIA COUNTY RECORDS. THE EFFECTIVE AGE IS LOWER THAN THE ACTUAL AGE DUE TO UPDATING.

COST APPROACH

COST APPROACH TO VALUE (if developed) ☐ The Cost Approach was not developed for this appraisal.

Provide adequate information for replication of the following cost figures and calculations.

Support for the opinion of site value (summary of comparable land sales or other methods for estimating site value): THE SITE VALUE WAS DERIVED THROUGH EXTRACTION DUE TO A LIMITED POOL OF APPROPRIATE COMPARABLE LAND SALES. SITE VALUE ESTIMATE IS TYPICAL FOR THE SUBJECT'S MARKET AREA, AND IS A REFLECTION OF THE LIMITED PRIVATE LAND AVAILABLE FOR DEVELOPMENT IN TETON COUNTY, WYOMING (97% PUBLIC LAND).

ESTIMATED ☐ REPRODUCTION OR ☒ REPLACEMENT COST NEW

Source of cost data: LOCAL BUILDERS & SUPPLIERS

Quality rating from cost service: AVG Effective date of cost data: 05/05/2022

Comments on Cost Approach (gross living area calculations, depreciation, etc.): THE COST APPROACH HAS BEEN COMPLETED FOR ILLUSTRATION PURPOSES ONLY. LOCAL BUILDERS COSTS UTILIZED AS THIS BEST REFLECTS THE REPLACEMENT COST IN THIS AREA.

Estimated Remaining Economic Life (if required): 45 Years

OPINION OF SITE VALUE			=$	950,000
DWELLING	1,152 Sq.Ft. @ $	500.00	=$	576,000

Market Conditions Addendum to the Appraisal Report

File No. 202205007

The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009.

Property Address 915 Simon Ln City Jackson State WY ZIP Code 83001

Borrower

Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc.

MARKET RESEARCH & ANALYSIS

Inventory Analysis	Prior 7–12 Months	Prior 4–6 Months	Current – 3 Months	Overall Trend		
Total # of Comparable Sales (Settled)	19	5	4	☐ Increasing	☐ Stable	☒ Declining
Absorption Rate (Total Sales/Months)	3.17	1.67	1.33	☐ Increasing	☐ Stable	☒ Declining
Total # of Comparable Active Listings	3	2	3	☐ Declining	☒ Stable	☐ Increasing
Months of Housing Supply (Total Listings/Ab.Rate)	0.9	1.2	2.3	☐ Declining	☐ Stable	☒ Increasing
Median Sale & List Price, DOM, Sale/List %	Prior 7–12 Months	Prior 4–6 Months	Current – 3 Months	Overall Trend		
Median Comparable Sale Price	1,771,250	1,750,000	2,137,500	☒ Increasing	☐ Stable	☐ Declining
Median Comparable Sales Days on Market	64	93	74	☐ Declining	☒ Stable	☐ Increasing
Median Comparable List Price	1,800,000	1,899,000	1,795,000	☐ Increasing	☒ Stable	☐ Declining
Median Comparable Listings Days on Market	122	161.5	40	☒ Declining	☐ Stable	☐ Increasing
Median Sale Price as % of List Price	98	92	100	☒ Increasing	☐ Stable	☐ Declining
Seller-(developer, builder, etc.)paid financial assistance prevalent? ☐ Yes ☒ No				☐ Declining	☒ Stable	☐ Increasing

Explain in detail the seller concessions trends for the past 12 months (e.g., seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs, condo fees, options, etc.). SELLER CONCESSIONS HAVE NOT BEEN TYPICAL IN THE PRIOR 12 MONTHS, HOWEVER ISOLATED SALES CONCESSIONS MAY OCCUR.

Are foreclosure sales (REO sales) a factor in the market? ☐ Yes ☒ No If yes, explain (including the trends in listings and sales of foreclosed properties).

REO & SHORT SALES ARE NOT A FACTOR IN THIS MARKET SEGMENT.

Cite data sources for above information. TETON BOARD OF REALTORS MLS.

Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions.

SEARCH PARAMETERS: SINGLE FAMILY HOMES LOCATED IN THE TOWN OF JACKSON MARKET AREA WITH A LIST PRICE LESS THAN $2,500,000. DUE TO A LACK OF DATA IN THIS SEGMENT, IT IS DIFFICULT TO DRAW MARKET TREND CONCLUSIONS. VALUES APPEAR TO BE INCREASING IN THE SUBJECT'S IMMEDIATE AND GENERAL MARKET AREAS (SEE PAIRED SALES ATTACHED).

NOTE: THERE CURRENTLY IS A SHORTAGE OF SUPPLY IN THE SUBJECT'S MARKET SEGMENT. SUBJECT'S MARKET AREA IS BENEFITING FROM STRONG DEMAND AS A RESULT OF SIGNIFICANT MIGRATION FROM BUYERS RESIDING IN OTHER AREAS OF THE COUNTRY WHO ARE SEEKING AN ENVIRONMENT WHICH BENEFITS FROM MORE OPEN SPACES, LOWER DENSITY, NUMEROUS RECREATIONAL OPPORTUNITIES, PROXIMITY TO AN AIRPORT, AND LACK OF STATE INCOME TAXES.

CONDO/CO-OP PROJECTS

If the subject is a unit in a condominium or cooperative project , complete the following: **Project Name:**

Subject Project Data	Prior 7–12 Months	Prior 4–6 Months	Current – 3 Months	Overall Trend		
Total # of Comparable Sales (Settled)				☐ Increasing	☐ Stable	☐ Declining
Absorption Rate (Total Sales/Months)				☐ Increasing	☐ Stable	☐ Declining
Total # of Active Comparable Listings				☐ Declining	☐ Stable	☐ Increasing
Months of Unit Supply (Total Listings/Ab.Rate)				☐ Declining	☐ Stable	☐ Increasing

Are foreclosure sales (REO sales) a factor in the project? ☐ Yes ☐ No If yes, indicate the number of REO listings and explain the trends in listings and sales of foreclosed properties.

Summarize the above trends and address the impact on the subject unit and project.

Supplemental Addendum

File No. 202205007

Borrower							
Property Address	915 Simon Ln						
City	Jackson	County	Teton	State	WY	Zip Code	83001
Lender/Client	APRIL NORTON						

*THE INTENDED USER OF THIS APPRAISAL REPORT IS THE CLIENT. THE INTENDED USE IS TO EVALUATE THE PROPERTY THAT IS THE SUBJECT OF THIS APPRAISAL TO ESTABLISH AN OPINION OF CURRENT MARKET VALUE, SUBJECT TO THE STATED SCOPE OF WORK, PURPOSE OF THE APPRAISAL, REPORTING REQUIREMENTS OF THE APPRAISAL REPORT FORM, AND DEFINITION OF MARKET VALUE. NO ADDITIONAL INTENDED USERS ARE IDENTIFIED BY THE APPRAISER.

*SCOPE OF THE APPRAISAL:
IN THE PREPARATION OF THIS APPRAISAL THE APPRAISER HAS MADE AN INSPECTION OF THE SUBJECT SITE AND IMPROVEMENTS FROM THE STREET (EXTERIOR INSPECTION ONLY) AND TAKING SUFFICIENT PHOTOGRAPHS TO ADEQUATELY CHARACTERIZE THE PROPERTY APPRAISED. APPRAISER HAS NOTED ALL READILY OBSERVABLE CONDITIONS OF THE SUBJECT PROPERTY, THAT IS CONDITIONS THAT ARE IMMEDIATELY NOTICEABLE AND DISCERNIBLE DURING A TYPICAL EXTERIOR ONLY APPRAISAL INSPECTION. THE SUBJECT NEIGHBORHOOD WAS ALSO INSPECTED TO ASSIST IN THE DETERMINATION OF THE NEIGHBORHOOD CHARACTERISTICS. THIS INFORMATION WAS ANALYZED IN ORDER TO DOCUMENT THE VARIOUS ENVIRONMENTAL, SOCIAL, GOVERNMENTAL AND ECONOMIC FACTORS THAT INFLUENCE VALUE. DATA REGARDING THE SALES OF RESIDENTIAL LAND AND IMPROVED PROPERTIES WERE COLLECTED AND VERIFIED. THE VALUATION OF THE PROPERTY IS BASED EXCLUSIVELY ON THE SALES COMPARISON APPROACH, AS THIS IT THE MOST RELIABLE METHOD OF ESTIMATING MARKET VALUE FOR A SINGLE FAMILY RESIDENTIAL PROPERTY. THE COST APPROACH WAS COMPLETED FOR ILLUSTRATION PURPOSES, HOWEVER THIS IS NOT CONSIDERED A RELIABLE METHOD OF ESTIMATING MARKET VALUE FOR A SINGLE FAMILY RESIDENTIAL PROPERTY. THE INCOME APPROACH WAS NOT UTILIZED, AS THIS IS NOT CONSIDERED A RELIABLE METHOD OF ESTIMATING MARKET VALUE FOR A SINGLE FAMILY PROPERTY.

THE APPRAISER HAS NO KNOWLEDGE OF ANY HIDDEN OR UNAPPARENT CONDITION OF THE PROPERTY THAT WOULD MAKE THE PROPERTY MORE OR LESS VALUABLE, AND MAKES NO GUARANTEES OR WARRANTIES, EXPRESS OR IMPLIED, REGARDING THE CONDITION OF THE PROPERTY.

THE APPRAISAL IS BASED ON THE EXTRAORDINARY ASSUMPTION THAT THE INTERIOR OF THE IMPROVEMENTS HAVE A SIMILAR QUALITY AND CONDITION AS THE EXTERIOR OF THE IMPROVEMENTS. IF THE EXTRAORDINARY ASSUMPTION IS FOUND TO BE FALSE THERE MAYBE BE AN EFFECT ON THE APPRAISAL RESULTS.

*PROPERTY RIGHTS APPRAISED:
THE PROPERTY RIGHTS BEING APPRAISED IS A FEE SIMPLE ESTATE. THIS IS DEFINED AS: ABSOLUTE OWNERSHIP UNENCUMBERED BY ANY OTHER INTEREST OR ESTATE, SUBJECT ONLY TO THE FOUR POWERS OF GOVERNMENT.

*NEIGHBORHOOD BOUNDARIES: THE SUBJECT NEIGHBORHOOD IS THE TOWN OF JACKSON, LOCATED IN TETON COUNTY, WYOMING.

*NEIGHBORHOOD DESCRIPTION:
SUBJECT IS LOCATED IN THE TOWN OF JACKSON, AND IS CONVENIENT TO MOST PUBLIC AND PRIVATE SERVICES, AND THE DOWNTOWN COMMERCIAL CORE, WHICH HAS STRONG APPEAL DUE TO THE NUMEROUS AMENITIES, INCLUDING RESTAURANTS, SHOPPING, SNOW KING RESORT, CENTER FOR THE ARTS, NATIONAL ELK REFUGE AND NATIONAL FOREST TRAILS. JACKSON IS CONSIDERED THE SOUTHERN GATEWAY TO GRAND TETON AND YELLOWSTONE NATIONAL PARKS.

SUBJECT'S GENERAL AREA IS REFERRED TO AS JACKSON HOLE, WHICH IS A POPULAR MOUNTAIN COMMUNITY, ENCOMPASSING APPROXIMATELY 750 SQUARE MILES, OF WHICH 97% IS FEDERALLY OWNED (NATIONAL FOREST, NATIONAL PARKS, BLM). SUBDIVISIONS ARE SCATTERED THROUGHOUT THE COUNTY, WITH THE MAJORITY CONCENTRATED WITHIN 180 SQUARE MILES. THIS REGION IS DIVIDED BY SEVERAL MAJOR RIVERS, AND A NUMBER OF BUTTES, HILLS AND MOUNTAINS. DUE TO THE TOPOGRAPHY, AND THE PREDOMINANCE OF PUBLIC LAND, THE DISTANCES BETWEEN COMPETING SUBDIVISIONS ARE TYPICALLY GREATER THAN ONE MILE.

THE SUBJECT'S MARKET AREA CONTAINS A VARIETY OF HOUSING TYPES, INCLUDING OLDER SMALL AVERAGE QUALITY CABINS, TOWN HOMES, CONDOS, LOG HOMES, MULTI-LEVEL WOOD AND GLASS CONTEMPORARY STYLE HOMES. THIS AREA CONTAINS A COMPATIBLE DIVERSITY OF HOUSING STYLES.

THIS AREA IS WORLD RENOWN FOR ITS SUMMER AND WINTER RECREATIONAL OPPORTUNITIES. JACKSON IS HOME OF THE JACKSON HOLE MOUNTAIN RESORT LOCATED AT TETON VILLAGE AND SNOW KING SKI RESORTS. COMMERCIAL JET SERVICE IS AVAILABLE AT THE JACKSON HOLE AIRPORT APPROXIMATELY 6 MILES NORTH OF THE TOWN OF JACKSON.

*MARKET CONDITIONS:
PROPERTY VALUES IN THE SUBJECT'S MARKET SEGMENT IN TETON COUNTY APPEAR TO BE INCREASING DUE TO STRONG DEMAND AND A LIMITED SUPPLY. BASED ON DATA FROM THE ATTACHED MC ADDENDUM, IN THE SUBJECT'S MARKET SEGMENT, THERE CURRENTLY APPEARS TO BE A SHORTAGE OF SUPPLY CONDITION. BASED ON DATA FROM THE ATTACHED MC ADDENDUM, ESTIMATED EXPOSURE & MARKETING TIME FOR THE SUBJECT'S PRICE SEGMENT IS UNDER 3 MONTHS. CASH & NEW LOANS ARE COMMON IN THIS AREA. SELLER PAID DISCOUNTS ARE NOT COMMON. HOWEVER, SELLERS WILL CUSTOMARILY SHARE IN THE CLOSING COSTS INVOLVED IN A SALE TRANSACTION. SALES AND FINANCING CONCESSIONS DO OCCUR BUT ARE NOT TYPICAL. NO ADVERSE MARKETING CONDITIONS WERE NOTED.

USPAP DEFINES EXPOSURE TIME AS THE ESTIMATED LENGTH OF TIME THAT THE PROPERTY INTEREST BEING APPRAISED WOULD HAVE BEEN OFFERED ON THE MARKET PRIOR TO THE HYPOTHETICAL CONSUMMATION OF A SALE AT MARKET VALUE ON THE EFFECTIVE DATE OF THE APPRAISAL. A HYPOTHETICAL CONDITION IS MADE THAT THE SUBJECT PROPERTY IS BEING SOLD AND A REASONABLE EXPOSURE TIME, IN THE SUBJECT MARKET, FOR THE PROPERTY TO SELL AT THE APPRAISED VALUE IS UNDER 3 MONTHS.

A REASONABLE EXPOSURE TIME FOR THE SUBJECT PROPERTY DEVELOPED INDEPENDENTLY FROM THE STATED MARKETING TIME IS UNDER 3 MONTHS.

MARKETING TIME IS DEEMED TO START AT THE EFFECTIVE DATE OF THE APPRAISAL, LOOKING FORWARD IN TIME. IT IS A PREDICTION OF HOW LONG A PROPERTY WOULD REQUIRE EXPOSURE TO A COMPETITIVE AND OPEN MARKET IN ORDER TO FIND A BUYER, UNDER EITHER TYPICAL OR PRESCRIBED CIRCUMSTANCES.

*ENVIRONMENTAL COMMENTS:
NO ADVERSE ENVIRONMENTAL CONDITIONS WERE NOTED OR KNOWN IN THE SUBJECTS IMPROVEMENTS, ON THE SUBJECT SITE OR IN THE IMMEDIATE VICINITY OF THE SUBJECT PROPERTY. HOWEVER, THE EXISTENCE OF POTENTIALLY HAZARDOUS MATERIALS USED IN THE CONSTRUCTION OR MAINTENANCE OF THE BUILDING, SUCH AS THE PRESENCE OF UREA-FORMALDEHYDE FOAM INSULATION, ASBESTOS, LEAD BASED PAINT, AND/OR THE EXISTENCE OF TOXIC WASTE OR RADON MAY OR MAY NOT BE PRESENT. ADDITIONALLY, THIS APPRAISAL DOES NOT GUARANTEE THAT THE PROPERTY IS FREE OF DEFECTS OR ENVIRONMENTAL PROBLEMS. THE APPRAISER PERFORMS AN INSPECTION OF VISIBLE AND ACCESSIBLE AREAS ONLY. MOLD MAY BE PRESENT IN AREAS THE APPRAISER CAN NOT SEE. A PROFESSIONAL HOME INSPECTION OR ENVIRONMENTAL INSPECTION IS RECOMMENDED. THE APPRAISER IS A TRAINED AND EXPERIENCED OBSERVER OF REAL ESTATE, BUT RECOGNIZING, DETECTING OR MEASURING CONTAMINATION IS BEYOND THE SCOPE OF THE APPRAISERS EXPERTISE.

THE PROFESSIONAL COMPETENCY OF THE APPRAISER SHOULD NOT BE PRESUMED TO INCLUDE THE KNOWLEDGE OR

Supplemental Addendum

File No. 202205007

Borrower							
Property Address	915 Simon Ln						
City	Jackson	County	Teton	State	WY	Zip Code	83001
Lender/Client	APRIL NORTON						

EXPERIENCE OF A PROFESSIONAL SURVEYOR, ARCHITECT, ENGINEER, TITLE LAWYER OR OTHER SPECIALIST.

*THE APPRAISER IS NOT A HOME INSPECTOR, AND DOES NOT GUARANTEE THAT THE SUBJECT IS FREE OF DEFECTS NOR SHOULD THIS REPORT BE RELIED UPON TO DISCLOSE ANY POTENTIAL NEGATIVE CONDITIONS PRESENT IN THE SUBJECT PROPERTY. A PROFESSIONAL HOME OR ENVIRONMENTAL INSPECTION IS RECOMMENDED TO ADDRESS SUCH MATTERS.

*SITE COMMENTS:
SUBJECT IS A LEVEL, RECTANGULAR SHAPED, CORNER SITE, LOCATED ON A TYPICAL RESIDENTIAL STREET IN THE TOWN OF JACKSON. SUBJECT HAS MOUNTAIN AND RESIDENTIAL VIEWS TYPICAL FOR AREA. SUBJECT HAS CONCRETE DRIVEWAYS, AND LANDSCAPING TYPICAL FOR THE AREA. NO ADVERSE CONDITIONS WERE NOTED.

NOTE: THE SUBJECT IS LOCATED ON THE CORNER OF SIMON LANE AND SCOTT LANE, SCOTT LANE IS AN ARTERIAL ROADWAY. THIS LOCATION HAS SOME ADVERSE EFFECT ON MARKETABILITY. COMPS 2 & 4 HAVE SIMILAR TRAFFIC LOCATIONS.

HIGHEST AND BEST USE: DEFINITION: THE REASONABLY PROBABLE AND LEGAL USE OF THE PROPERTY, THAT IS PHYSICALLY POSSIBLE, APPROPRIATELY SUPPORTED, AND FINANCIALLY FEASIBLE, AND THAT RESULTS IN THE HIGHEST VALUE. THE HIGHEST AND BEST USE AS VACANT IS FOR RESIDENTIAL USE. SUBJECT'S CURRENT USE AS A SINGLE FAMILY HOME IS LEGAL, PHYSICALLY POSSIBLE, APPROPRIATELY SUPPORTED AND FINANCIALLY FEASIBLE, RESULTING IN THE HIGHEST VALUE. THEREFORE, THE SUBJECT'S CURRENT USE AS A SINGLE FAMILY HOME IS CONSIDERED TO BE ITS HIGHEST AND BEST USE (BOTH AS VACANT AND IMPROVED).

*SALES COMPARISON COMMENTS:
THE COMPS UTILIZED REPRESENT THE BEST INDICATORS OF VALUE AVAILABLE IN THE SUBJECTS MARKET AREA OF JACKSON, WY. NO OTHER COMPS WERE NOTED THAT WOULD PROVIDE A BETTER INDICATION OF THE SUBJECTS MARKET VALUE.

EXPLANATION OF ADJUSTMENTS:

THE LOCATION ADJUSTMENTS MADE TO COMPS 1 & 3 REFLECT SUPERIOR NON-TRAFFIC LOCATIONS. THESE ADJUSTMENTS ARE BASED ON HISTORICAL DATA, THE COMPARABLE SALES UTILIZED IN THIS APPRAISAL, APPRAISER EXPERIENCE, AGENT AND APPRAISER INTERVIEWS.

SITE SIZE ADJUSTMENTS MADE TO THE COMPS ARE MADE AT $300,000/ACRE OR $7/SF AND ARE BASED ON THE FOLLOWING PAIRED SALES, APPRAISER EXPERIENCE, AGENT AND APPRAISER INTERVIEWS.

25 RANCHER STREET (MLS #16-366) A .26 ACRE VACANT SITE SOLD 04/2016 FOR $575,000. 845 WHEATLEIGH WAY (MLS #16-1589) A .16 ACRE VACANT SITE SOLD 08/2016 FOR $510,000. THE $65,000 DIFFERENCE IN SALE PRICE IS ATTRIBUTED TO THE DIFFERENCE IN SITE SIZE. $65,000/.1 ACRE = $650,000/ACRE OR $15/SF

605 E SIMPSON (MLS #12-632) A .02 ACRE VACANT SITE SOLD 01/2013 FOR $220,000. 560 E SIMPSON (MLS #12-2580) A .17 ACRE VACANT SITE SOLD 01/2013 FOR $265,000. THE $45,000 DIFFERENCE IN SALE PRICE IS ATTRIBUTED TO THE DIFFERENCE IN SITE SIZE. $45,000/.15 ACRE = $300,000/ACRE OR $7/SF.

675 UPPER CACHE CREEK DRIVE (MLS #13-717) A .34 ACRE VACANT SITE SOLD 07/2013 FOR $300,000. 763 CACHE CREEK DRIVE (MLS #12-1711) A .18 ACRE VACANT SITE SOLD 02/2013 FOR $250,000. THE $50,000 DIFFERENCE IN SITE SIZE IS ATTRIBUTED TO THE DIFFERENCE IN SITE SIZE. $50,000/.16 ACRE = $312,500/ACRE OR $7/SF

287 RANCHER STREET (MLS #09-980) A .17 ACRE VACANT SITE SOLD 09/2012 FOR $260,000. 25 RANCHER STREET A .26 ACRE VACANT SITE SOLD 06/2012 FOR $300,000. THE $40,000 DIFFERENCE IN SITE SIZE IS ATTRIBUTED TO THE DIFFERENCE IN SITE SIZE. $50,000/.09 ACRE = $555,555/ACRE OR $13/SF.

675 UPPER CACHE CREEK DRIVE (MLS #13-717) A .34 ACRE VACANT SITE SOLD 07/2013 FOR $300,000. 667 CACHE CREEK DRIVE (MLS #13-715) A .17 ACRE VACANT SITE SOLD 05/2013 FOR $295,000. THE $5,000 DIFFERENCE IN SALE PRICE IS ATTRIBUTED TO THE DIFFERENCE IN SITE SIZE. $5,000/.17 ACRE = $29,412/ACRE OR $0.7/SF.

DESIGN ADJUSTMENTS ARE GENERALLY NOT MADE AS MOST OF THE HOMES IN THIS MARKET AREA ARE CUSTOM BUILT. THERE ARE A VARIETY OF HOME DESIGN TYPES IN THIS MARKET AREA WITH NO MARKET EVIDENCE TO SUGGEST SUPERIOR OR INFERIOR MARKETABILITY OF A SPECIFIC DESIGN TYPE.

AGE ADJUSTMENTS IN THIS MARKET SEGMENT ARE NOT GENERALLY MADE. TYPICALLY, BUYERS IN THIS MARKET SEGMENT ARE MORE CONCERNED WITH OVERALL CONDITION. IN THIS MARKET AREA, SIGNIFICANTLY OLDER HOMES WHICH HAVE BEEN UPDATED AND OR RENOVATED HAVE A SIMILAR MARKETABILITY AS NEWER HOMES.

THE CONDITION ADJUSTMENT MADE TO COMP 2 REFLECTS SUPERIOR INTERIOR UPDATING INCLUDING THE KITCHEN AND BATHS. THIS ADJUSTMENT IS MADE AT $50/SF AND IS BASED ON HISTORICAL DATA, THE COMPARABLE SALES UTILIZED IN THIS APPRAISAL, APPRAISER EXPERIENCE, AGENT AND APPRAISER INTERVIEWS.

GLA ADJUSTMENTS MADE TO THE COMPS ARE BASED ON AN ADJUSTMENT RATE RANGE OF $300/SF TO $500/SF, AND IS BASED ON: HISTORICAL DATA, THE COMPARABLE SALES UTILIZED IN THIS APPRAISAL, APPRAISER'S EXPERIENCE WITH SALES IN THIS MARKET SEGMENT, AGENT AND APPRAISER INTERVIEWS, WITH REPLACEMENT COSTS BEING IN THE $450/SF - $550+/SF RANGE. GLA ADJUSTMENTS ARE MADE AT $400/SF; BASEMENT ADJUSTMENTS ARE MADE AT $300/SF; ACCESSORY UNIT ADJUSTMENTS ARE MADE AT $300/SF.

ROOM COUNT ADJUSTMENTS ARE DIFFICULT TO EXTRACT FROM MARKET DATA AND ARE ACCOUNTED FOR IN THE DIFFERENCES IN GROSS BUILDING AREA.

MARKET CONDITIONS ADJUSTMENTS MADE TO THE SALES COMPS REFLECT INCREASING VALUES DUE TO LIMITED SUPPLY AND STRONG DEMAND. THE ADJUSTMENTS MADE TO THE COMPARABLE SALES ARE MADE AT +2%/MONTH FROM THEIR RESPECTIVE CONTRACT DATES (ROUNDED TO THE NEAREST .5 MONTH) AND ARE BASED ON PAIRED SALES (SEE ATTACHED PAIRED SALES FOR TIME ADJUSTMENTS) AND THE COMPARABLE SALES UTILIZED IN THIS APPRAISAL.

COMP 1 IS A 4 - 6 MONTH SALE LOCATED IN THE SUBJECT'S NEIGHBORHOOD WITH A SUPERIOR NON-TRAFFIC LOCATION. ADDITIONAL ADJUSTMENTS WERE MADE FOR SUPERIOR SITE SIZE, A SUPERIOR BASEMENT AREA, SUPERIOR COVERED AUTO STORAGE AND MARKET CONDITIONS.

COMP 2 IS A 16 MONTH SALE OF AN UPDATED HOME WITH A SIMILAR TRAFFIC LOCATION. ADDITIONAL ADJUSTMENTS WERE MADE FOR SUPERIOR SITE SIZE, INFERIOR GLA AND MARKET CONDITIONS.

COMP 3 IS A 4 - 6 MONTH SALE OF A SIMILAR QUALITY HOME WITH A SUPERIOR NON-TRAFFIC LOCATION. ADDITIONAL ADJUSTMENTS WERE MADE FOR SUPERIOR SITE SIZE, SUPERIOR BASEMENT AREA, INFERIOR COVERED AUTO STORAGE AND MARKET CONDITIONS.

Lender/Client	APRIL NORTON						

COMP 4 IS A DATED SALE LOCATED ADJACENT TO THE NORTH OF THE SUBJECT. ADJUSTMENTS WERE MADE FOR A LACK OF COVERED AUTO STORAGE, A SUPERIOR ACCESSORY UNIT AND MARKET CONDITIONS.

IN ARRIVING AT THE FINAL OPINION OF VALUE, COMP 2 IS THE MOST RECENT SALE NOTED FROM THE SUBJECT'S IMMEDIATE NEIGHBORHOOD WITH A SIMILAR LOCATION AND WAS GIVEN GREATEST WEIGHT (50%). COMPS 1 & 3 HAVE SUPERIOR LOCATIONS AND WERE GIVEN SECONDARY CONSIDERATION (16.6% EACH). COMP 4 IS A DATED SALE AND WAS GIVEN SECONDARY CONSIDERATION (16.6%).

*ADDITIONAL SCOPE OF WORK COMMENTS:
I CERTIFY THAT, TO THE BEST OF MY KNOWLEDGE AND BELIEF:
-THE STATEMENTS OF FACT CONTAINED IN THIS REPORT ARE TRUE AND CORRECT
-THE REPORTED ANALYSES, OPINIONS, AND CONCLUSIONS ARE LIMITED ONLY BY THE REPORTED ASSUMPTIONS AND LIMITING CONDITIONS, AND ARE MY PERSONAL, IMPARTIAL, AND UNBIASED PROFESSIONAL ANALYSES, OPINIONS AND CONCLUSIONS.
-I HAVE NO PRESENT OR PROSPECTIVE INTEREST IN THE PROPERTY THAT IS THE SUBJECT OF THIS REPORT, AND NO PERSONAL INTEREST WITH RESPECT TO THE PARTIES INVOLVED.
-I HAVE NO BIAS WITH RESPECT TO THE PROPERTY THAT IS THE SUBJECT OF THIS REPORT OR TO THE PARTIES INVOLVED WITH THE ASSIGNMENT.
-MY ENGAGEMENT IN THIS ASSIGNMENT WAS NOT CONTINGENT UPON DEVELOPING OR REPORTING PREDETERMINED RESULTS.
-MY COMPENSATION FOR COMPLETING THIS ASSIGNMENT IS NOT CONTINGENT UPON THE DEVELOPMENT OR REPORTING OF A PREDETERMINED VALUE OR DIRECTION IN VALUE THAT FAVORS THE CAUSE OF THE CLIENT, THE AMOUNT OF THE VALUE OPINION, THE ATTAINMENT OF A STIPULATED RESULT, OR THE OCCURRENCE OF A SUBSEQUENT EVENT DIRECTLY RELATED TO THE INTENDED USE OF THIS APPRAISAL.
-MY ANALYSES, OPINIONS, AND CONCLUSIONS WERE DEVELOPED , AND THIS REPORT HAS BEEN PREPARED, IN CONFORMITY WITH THE UNIFORM STANDARDS OF PROFESSIONAL APPRAISAL PRACTICE.
-I HAVE MADE A PERSONAL INSPECTION OF THE PROPERTY THAT IS THE SUBJECT OF THIS REPORT (EXTERIOR ONLY).
-I HAVE PERFORMED NO SERVICES, AS AN APPRAISER OR IN ANY OTHER CAPACITY, REGARDING THE PROPERTY THAT IS THE SUBJECT OF THIS REPORT WITHIN THE THREE YEAR PERIOD IMMEDIATELY PRECEDING ACCEPTANCE OF THIS ASSIGNMENT.

*APPRAISER COMPETENCY: APPRAISER HAS COMPLETED IN EXCESS OF 50 APPRAISALS IN THE SUBJECT'S MARKET SEGMENT IN THE PAST 12 MONTHS. SUBJECT PROPERTY IS LOCATED WITHIN 10 MILES OF THE APPRAISER'S OFFICE. APPRAISER HAS ACCESS TO THE TETON BOARD OF REALTORS MLS; TETON COUNTY CLERK RECORDS; LOCAL APPRAISER DATABASE; COST DATA FROM LOCAL CONTRACTORS AND MATERIAL SUPPLIERS.

Rosann R David Interim Executive Director

STAFF REPORT

Meeting Date:	January 20, 2026	**Meeting Title:**	Regular Town Council Meeting
Submitting Department:	Planning	**Presenter:**	Tyler Valentine
Agenda Item:	Ordinance A: Zoning Map Amendment for the Properties Addressed as 252 & 254 East Simpson Ave.	**Public Comment:**	Yes

Purpose & Policy Considerations.
The purpose of this item is for the Town Council to consider an ordinance amending the Town of Jackson Official Zoning Map.

Requested Action.
Staff requests the Town Council consider the ordinance attached to the staff report.

Recommendation.
Staff recommend the Town Council approve the ordinance attached to the staff report.

Background.
On December 15, 2025, staff presented a Zoning Map Amendment for the properties addressed as 252 & 254 East Simpson Avenue (P25-156) at the Regular Town Council meeting. The Town Council approved the Zoning Map Amendment and directed staff to present an ordinance at a future meeting.

Analysis & Key Policy Questions.
The analysis regarding a change to the Official Zoning Map from Office Residential to Public/Semi-Public for the subject properties was discussed, and resolved, by Council on December 15.

Possible Alternatives. The Council has the option to:

1. Not approve the ordinance attached to this staff report;
2. Continue the item to a future Council Meeting

Comprehensive Plan & Priority Alignment.
This item aligns, generally, with the Comprehensive Plan by ensuring the general welfare, health, and safety of the community and its environment.

Fiscal Impact.
None identified.

Staff Impact.
Staff spent approximately three hours drafting the ordinance and this staff report.

Attachments.
Ordinance A

Suggested Motions.
I move to approve Ordinance A on first reading.

ORDINANCE A

PURSUANT TO DIVISION 8.7.3 ZONING MAP AMENDMENT, DIVISION 1.7.2 ESTABLISHMENT OF ZONES AND OVERLAYS, AND DIVISION 1.7.3 OFFICIAL ZONING MAP INCORPORATED BY REFERENCE, OF THE LAND DEVELOPMENT REGULATIONS, CHANGING THE ZONING CLASSIFICATION FROM OFFICE RESIDENTIAL (OR) TO PUBLIC/SEMI-PUBLIC (P/SP) FOR LOTS 5 & 6, BLOCK 9, CACHE-2 ADDITION TO THE TOWN OF JACKSON (ADDRESSED AS 252 & 254 EAST SIMPSON AVENUE).

BE IT ORDAINED BY THE TOWN COUNCIL OF THE TOWN OF JACKSON, WYOMING:

SECTION I.

That the owners of the property described herein have applied for a zoning map for said property in accordance with Division 8.7.3, Zoning Map Amendment, of the Land Development Regulations of the Town of Jackson.

SECTION II.

That on November 19, 2025, the Town of Jackson Planning Commission conducted a public hearing, reviewed the proposed zone change that is the subject of this ordinance, and recommended approval of said zone change.

SECTION III.

That the Jackson Town Council finds that the zone change that is the subject of this ordinance meets the criteria specified in Division 8.7.3, Zoning Map Amendment of the Land Development Regulations.

SECTION IV.

That, in accordance with Division 8.7.3, Zoning Map Amendment, Division 1.7.2 Establishment of Zones and Overlays, and Division 1.7.3 Official Zoning Map Incorporated by Reference, of the Land Development Regulations, the aforementioned application is hereby approved and the zoning classification of the real property described as LOTS 5 & 6, Block 9, Cache-2 Addition to the Town of Jackson, is hereby changed to Public/Semi-Public (P/SP).

SECTION V.

All ordinances and parts of ordinances in conflict with the provisions of this Ordinance are hereby repealed.

SECTION VI.

If any section, subsection, sentence, clause, phrase, or portion of this Ordinance is for any reason held invalid or unconstitutional by any court of competent jurisdiction, such portion shall be deemed as a separate, distinct, and independent provision and such holding shall not affect the validity of the remaining portions of the ordinance.

SECTION VII.

This Ordinance shall become effective after its passage, approval, and publication.

PASSED 1ST READING THE _____DAY OF _____ , 2025.

PASSED 2ND READING THE _____DAY OF _____ , 2025.

PASSED AND APPROVED THE _____DAY OF _____, 2025.

MEMORANDUM

TO: Mayor and Town Council

FR: Tyler Sinclair, Town Manager

DT: January 20, 2026

RE: Town Manager's Report

Temporary Sign Permits

The Temporary Sign Permits for Council consideration at this meeting are:

- ✓ JH Chamber of Commerce requests to hang two temporary banners, one at 105 Buffalo Way (Albertson's) and one at 10 E Broadway (Stage Stop Building) from March 29 – April 4, 2026 to advertise the Easter Egg Hunt (P26-003).

- ✓ The Art Association of Jackson Hole requests to hang two temporary banners, one at 105 Buffalo Way (Albertson's) from March 1 – 7 2026& one at 240 S Glenwood (Art Association of JH) from March 9 – 13, 2026 to advertise the Whodunnit? Art Show & Sale (P26-001).

Staff recommends approval of these requests and with the approval of the Town Manager's report, staff will issue the Temporary Sign Permits as requested.
